Statement by Enrolled Actuary
 To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Schedule SB, Part V — Statement of Actuarial Assumptions/Methods**Actuarial assumptions for January 1, 2024 funding valuation**

Discount rate sponsor elections		
Segment rates or full yield curve	Segment	
Look-back months	4	
	Stabilized	Non-stabilized
First 5 years	4.75%	3.62%
Next 15 years	4.87%	4.46%
Over 20 years	5.59%	4.52%
Mortality sponsor elections		
All participants	Section 430(h)(3) prescribed generational annuitant and non-annuitant mortality tables for 2024 plan year funding valuations. These tables are based on the Pri-2012 mortality tables projected with the IRS-modified MP-2021 mortality improvement scale, in accordance with the IRS regulation 1.430(h)(3)-1.	

Cash balance economic assumptions		
• Interest credit		
– Opening accounting balances	6.00% (fixed)	
– Allocation accounting balances	5.05%	
• Annuity conversion		
- Mortality table	UP84 mortality table (defined by plan)	
- Opening account balances	7.00% (defined by plan)	
- Allocation account balances	6.50% (defined by plan)	
• Whipsaw calculations	No	

Other economic assumptions		
• Salary increases	N/A	
• Inflation	2.25%	
• Expected investment return	4.46% per year for 2024, 4.31% per year for 2023, 5.03% per year for 2022	
• Expenses	\$44,000	

Rationale for Economic Assumptions

- Cash balance interest accumulation rate – This assumption is based on the current 6-month U.S. Treasury Bill rates and the 5% minimum defined by the plan.
- Inflation – This assumption is based on the inflation assumption published by Mercer Investment Consulting in the January 2024 *Capital Markets Outlook*, rounded to nearest 25 basis points.
- Expected investment return – The expected rate of return on plan assets is the median simulated investment return using Mercer's Portfolio Return Calculator with capital market assumptions published in Mercer Investment Consulting's January 2024 *Capital Markets Outlook* for the plan's

Schedule SB, Part V — Statement of Actuarial Assumptions/Methods

target asset mix. The expected return on assets assumption is net of an adjustment of 20 bps for expenses assumed to be paid from plan assets.

- Expenses – This assumption is approximately 10% (to adjust for the asset spin off) of the average of the last two year’s investment only expenses adjusted with inflation. The plan sponsor does not pay administrative expenses from the trust.

Demographic assumptions			
• Withdrawal	173% of Mercer Modified 2003 Society of Actuaries Pension Plan Turnover Table. See table of sample rates.

35	15.05%
40	11.94%
45	10.55%
50	9.69%

Schedule SB, Part V — Statement of Actuarial Assumptions/Methods

Rationale for Demographic Assumptions

- **Withdrawal** – The rates are based on the July 1, 2015 through July 1, 2020 experience study for UMMS Pension Plan delivered in June 2021. The Dimensions Pension Plan experience was excluded from the study since only two years was available. The available experience was determined not to be creditable to include in the study. We expect withdrawal experience to be similar to the other studied components of the UMMS Pension Plan.
- **Retirement age** – The rates are based on the July 1, 2015 through July 1, 2020 experience study for the UMMS Pension Plan delivered in June 2021. The Dimension Pension Plan experience was excluded from the study since only two years was available. The available experience was determined not to be creditable to include in the study. We expect retirement experience to be similar to the other studied components of the UMMS Pension Plan.
- **Benefit commencement age** – The assumption is based on actual plan experience. The January 1, 2018 in-pay participants' average commencement age is approximately 63.
- **Form of payment**– The assumptions are based on actual plan experience. The January 1, 2018 in-pay participants' form of payment elections are approximately 70% single life annuity and 30% joint and survivor annuity (approximate average survivor percentage is 67%).

Actuarial Methods for Funding

Asset Methods

The asset valuation method is an average of the adjusted market value for each year during the last two years preceding the valuation date. Due to the spin out on August 30, 2023, the asset method was reset and is equal to the market value of assets as of January 1, 2024. The adjusted market value is the market value at each determination date adjusted to the valuation date based on actual cash flows and expected interest at the lesser of the expected rate of return and the third segment rate. This amount is adjusted to be no greater than 110% and no less than 90% of the fair market value, as defined in IRC Section 430.

A characteristic of this asset method is that, over time, it is slightly more likely to produce an actuarial value of assets that is less than the market value of assets than an actuarial value that is greater than the market value.

Participant Methods

Participants or former participants are included or excluded from the valuation as described below:

- **Participants included:** The plan sponsor provides us with data on all employees as of the valuation date, but only those employees who have completed the plan's eligibility requirements are included in the valuation of liabilities.
- **Participants excluded:** No actuarial liability is included for non-vested participants who terminated prior to the valuation date. For this purpose, participants with a break in service on the valuation date are treated as terminated participants.
- **Insurance contracts:** The plan does not have any insurance contracts.

Schedule SB, Part V — Statement of Actuarial Assumptions/Methods**Minimum Funding Methods**

The funding target for minimum funding calculations is computed using the traditional unit credit method of funding. The objective under this method is to fund each participant's benefits under the plan as they accrue. Thus, the total pension to which each participant is expected to become entitled at retirement is broken down into units, each associated with a year of past or future credited service.

A detailed description of the calculation follows:

- The plan's valuation date is the beginning of the plan year.
- An individual's **funding target** is the present value of future benefits based on credited service and average pay as of the beginning of the plan year, and an individual's **target normal cost** is the present value of the benefit expected to accrue in the plan year. If multiple decrements are used, the funding target and the target normal cost for an individual is the sum of the component funding targets and target normal costs associated with the various anticipated separation dates
- The plan's **target normal cost** is the sum of the individual target normal costs, and the plan's **funding target** is the sum of the individual funding targets for all participants under the plan.

Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Schedule SB, Part V — Summary of Plan Provisions**Summary of major plan provisions**

Effective date and plan year	Original plan: January 1, 1966 Restated plan: January 1, 2020 Plan year: January 1 through December 31
Significant events that occurred during the year	Effective August 30, 2023, all participants, except for active union nurse participants and any alternative payee benefits associated with a Qualified Domestic Relations Order as of June 5, 2023 were spun off to the Dimensions Health Corporation Pension Plan B.
Definitions	
• Eligibility	Any full time and part time regular employees hired by Dimensions Healthcare System are eligible to participant in the plan. Effective December 31, 2007, the plan is closed to new participation.
• Date of participation	An employee becomes a participant in the plan on his date of hire if he works for at least 1,000 hours in the 12 months following his date of employment.
• Compensation	
– Union (Registered Nurses, Healthcare Service Workers)	Regular rate of pay as of the first day of the plan year. Compensation is not applicable after December 31, 2007.
– Non-Union	Total wages for a plan year, as reported on IRS Form W-2. Compensation includes salary or wages as to which a salary reduction election is in place under Code Section 125 or Section 403(b). Compensation is not applicable after December 31, 2007.
• Final Average Compensation	A participant's annualized average earnings constituting compensation during three consecutive plan years, during the participant's last 10 years of credited service which produces highest average.
• Primary Social Security Benefit	The annual primary Old Age Insurance benefit which will be or would have been payable to a participant under Title II of the Federal Social Security Act.
• Credited Service	Determined by dividing the total hours paid by 2,080, with a maximum of one year of credited service for each plan year. Credited service is frozen as of December 31, 2007.
• Vesting service	One year of vesting service is credited for each plan year in which an employee earns at least 1,000 hours of service. As of January 1, 2008, healthcare services workers and non-union employees are vested upon attaining three years of vesting service. Registered nurses are vested upon attaining five years of vesting service.
• Covered Compensation	A participant's covered compensation for a plan is the average (without indexing) of the taxable wage bases in effect for each calendar year during the 35-year in which the participant attains (or will attain) Social Security retirement age.
• Employee Contribution	None required or allowed.
• Accrued Benefit	As of any determination date on or prior to his normal retirement age, the benefit payable to a participant commencing at his normal retirement date.
• Actuarial Equivalence	Cash Balance Late Retirement – GA71 Female mortality table and 7% interest rate

Schedule SB, Part V — Summary of Plan Provisions

	Registered Nurses' Accrued Benefit Late Retirement – GA71 Female mortality table and 6% interest rate
	Monthly Benefit Optional Forms – GA71 Female mortality table and 6% interest rate

Normal retirement

- Eligibility

– Registered Nurses	The later of the date on which a participant attains age 65 or completes five years of vesting service.
– Healthcare Services Workers and Non-Union Employees	The later of the date on which a participant attains age 65 or completes three years of vesting service. The normal retirement date for a participant age 65 or older shall not be later than the fifth anniversary of participation. For participants in the plan prior to July 1, 1989, normal retirement date means the date on which a participant attains age 65.

- Benefit

– Registered Nurses	Retirement income is equal to the accrued benefit at the date of termination or retirement. 1.25% of the highest three-year average compensation up to Social Security covered compensation times years of credited service (maximum 40 years), plus 1.85% of the excess, if any, times years of credited service (maximum 35 years). The minimum benefit is \$5.00 per month per year of credited service. An additional minimum benefit is the benefit accrued through June 30, 1992 for participants as of June 30, 1989 and based on the plan is effect at that time.
– Healthcare Services Workers	A participant's monthly retirement income is equal to his total cash balance plan account converted to annuity.
– Non-union Employees	A participant's monthly retirement income is equal to his total retirement savings plan account converted to an annuity.

Early retirement

- Eligibility

	An employee may elect early retirement after attaining age 55 and completing at least five years of service.
--	--
- Benefit

– Registered Nurses	Early retirement benefit is equal to the accrued benefit based on average compensation and service at early retirement. The benefit is reduced 1/180 for each of the first 60 months and by 1/360 for each of the next 60 months by which early retirement date precedes normal retirement date. The early retirement reduction for a participant who is in a registered nurse position at retirement, terminates on or after July 1, 1999, and is at least age 60 at that time is 1/240 for each of the first 60 months by which early retirement date precedes normal retirement date.
– Healthcare Services Workers	A participant's early retirement benefit is equal to total cash balance plan account at early retirement converted to an annuity. The accrued benefit as of December 31, 1996 is reduced the same as for registered nurses above.
– Non-union Employees	A participant's early retirement benefit is equal to total retirement savings plan account at early retirement converted to an annuity. The accrued benefit as of June 30, 1994 is reduced the same as for registered nurses above.

Schedule SB, Part V — Summary of Plan Provisions**Late retirement**

• Eligibility	An employee may continue to work beyond his normal retirement date.
• Benefit	
– Registered Nurses	Postponed retirement benefit when a participant actually retires is equal to the greater of the accrued benefit based on average compensation and service at actual retirement date and the actuarial equivalent of the normal retirement benefit.
– Healthcare Services Workers	Postponed retirement benefit is equal to the greater of the cash balance at actual retirement date converted to an annuity and the actuarial equivalent of the normal retirement benefit.
– Non-union Employees	Postponed retirement benefit is equal to the greater of the retirement savings plan account at actual retirement date converted to an annuity and the actuarial equivalent of the normal retirement benefit.

Deferred vested

• Eligibility	
– Registered Nurses	On termination of employment with five or more years of vesting service.
– Healthcare Services Workers and Non-Union Employees	On termination of employment with three or more years of vesting service.

Disability

• Eligibility	An employee may elect disability retirement on total and permanent disability at any age with no minimum service requirement.
• Benefit	
– Registered Nurses	Disability retirement benefit is equal to the benefit as determined for normal retirement based on average compensation at date of disability and service projected to normal retirement date, no later than the plan's December 31, 2007 or freeze date, payable at normal retirement date.
– Healthcare Service Workers	Disability retirement benefit will include all years of service up to date of disability. The cash balance plan account will continue to be credited with allocations each year until the earlier of December 31, 2007 or disability ends. The benefit is payable at normal retirement date.
– Non-Union Employees	Disability retirement benefit will include all years of service up to date of disability. The retirement savings plan account will continue to be credited with allocations each year until the earlier of December 31, 2007 or disability ends. The benefit is payable at normal retirement date.

Pre-retirement death

• Eligibility	
– Registered Nurses	The spouse of an employee who dies after at least five years of vesting service.
– Healthcare Services Workers and Non-Union Employees	Effective January 1, 1997 and July 1, 1994, respectively, the surviving spouse of beneficiary of a participant who dies prior to commencement of benefit payments, but is entitled to vested benefit.
• Benefit	
– Registered Nurses	A benefit equal to 50% of the employee's accrued benefit reduced actuarially for the early commencement and for the joint and survivor

Schedule SB, Part V — Summary of Plan Provisions

	feature. The benefit is paid no earlier than the date of the employee would have reached age 55.
– Healthcare Services Workers and Non-union Employees	The value of the participant’s retirement savings plan account (if less than \$10,000), or the actuarially equivalent annuity.

Schedule SB, Part V — Summary of Plan Provisions

Retirement Savings Plan Cash balance account for non-union employees

A participant’s account balance at any given determination date consists of five parts:

- 1) The participant’s opening account balance accumulated with interest credits to the determination date, where the opening account balance equals, the lump sum actuarial equivalent on July 1, 1994 of the participant’s accrued benefit under the prior plan as of June 30, 1994. Actuarial equivalence is determined using UP84 mortality and 7% interest.
- 2) The participant’s core pension allocations accumulated with interest credits to the determination date, where allocations are assumed to occur at the end of the year. The core pension allocation is compensation times a percent, where the percent is based on year of vesting service, as follows:

Years of Vesting Service as of the End of the Plan Year	Percent of Compensation
0-4 years	3.0%
5-9 years	4.0%
10-14 years	5.0%
15-19 years	6.0%
20-24 years	7.0%
25 and over	8.0%

Schedule SB, Part V — Summary of Plan Provisions

- 3) For participants hired prior to June 30, 1994, who remain employed without incurring a break in service in a subsequent plan year, an additional allocation accumulated with interest credits to the determination date, where allocations are assumed to occur at the end of the year. The additional allocation is compensation times a percent, based on the following table:

Percentage of Compensation Based on Years of Vesting Service as of 06/30/1994				
Age as of 06/30/1994	0-4	5-9	10-14	15 or more
Under 30	0.5%	0.5%	0.5%	0.5%
30-34	1.0%	1.0%	1.0%	1.0%
35-43	2.0%	2.0%	2.0%	2.0%

46-48	3.0%	3.0%	3.0%	3.0%
49-51	4.0%	4.0%	4.0%	4.0%
52	4.5%	4.5%	4.5%	4.5%
53	5.5%	5.5%	5.5%	5.5%
54	6.0%	6.0%	6.0%	6.0%
55-56	6.5%	7.5%	8.5%	9.5%
57-58	7.5%	8.5%	9.5%	10.5%
59-61	8.5%	9.5%	10.5%	11.5%
62 and over	10.0%	12.0%	14.0%	16.0%

- 4) The participant’s excess allocations accumulated with interest credits to the determination date, where allocations are assumed to occur at the end of the year. The excess allocation is compensation in excess of the Social Security wage base for the year times a percent, based on the following table:

Years of Vesting Service as of the End of the Plan Year	Percent of Compensation
0-4 years	3.0%
5-9 years	4.0%
10-14 years	5.0%
15-19 years	6.0%
20-24 years	7.0%
25 and over	8.0%

Schedule SB, Part V — Summary of Plan Provisions

-
- 5) The participant's matching allocations accumulated with interest credits to the determination date, where allocations are assumed to occur at the end of the year. The matching allocation is 50% of the participant's deferrals to a tax sheltered annuity program sponsored by the corporation, but not to exceed 2% of compensation. This plan provision became effective January 1, 1995.

Interest is credited each plan year until payments begin. Interest in the opening account balance is credited at 7% through December 31, 2016 and at 6% beginning January 1, 2017. Interest credits for all other accounts use an interest rate equal to the average of the 6 month U.S. Treasury Bill rate determined as of the first day each calendar month in the preceding year. However, the interest rate used shall not be less than 5% for any single year. At separation, the accounts receive a prorated interest credit based on the extent of employment during the year of separation.

The account balance is converted to an annuity using UP84 mortality and 7.0% interest for the opening account balance and UP84 mortality and 6.5% for the remainder of the account balances.

**CASH BALANCE PLAN FOR
HEALTHCARE SERVICE
WORKERS**

A participant's account balance at any given determination date consists of three parts:

-
- 1) The participant's opening account balance accumulated with interest credits to the date of determination, where the opening account balance equals the lump sum actuarial equivalent on January 1, 1997 of the participant's accrued benefit under the prior plan as of December 31, 1996. Actuarial equivalence is determined using UP84 mortality and 7.0% interest.
-
- 2) The participants base account allocations consist of the annual service allocations. The base account is accumulated with allocations and interest credits to the determination date, where allocations are assumed to occur at the end of the year. The annual allocation is based on credited service since January 1, 1997 and salary grades.

Interest is credited each plan year until payments begin. Interest on opening account balance is credited at 7% through December 31, 2016 and at 6% beginning January 1, 2017. Interest credits for all other accounts use an interest rate equal to the average of the 6 month U.S. Treasury Bill rate determined

Schedule SB, Part V — Summary of Plan Provisions

	<p>as of the first day of each calendar month in the preceding year. However, the interest rate used shall be less than 5% for any single year. At separation, the accounts receive a prorated interest credit based on the extent of employment during the year of separation.</p> <p>The account balance is converted to an annuity using UP84 mortality and 7.0% interest for the opening account balance and UP84 mortality and 6.5% for the remainder of the account balances.</p>
Annuity purchase	Effective December 6, 2018, 746 in pay participants with benefits under \$500 a month were included in an annuity buyout. The plan purchased annuities for this group from an insurance provider.
Spin off	Effective December 31, 2018, 620 participants were included in a de minimis spinoff to the UMMS Corporation Pension Plan. Effective August 30, 2023, 1,913 participants were spun off to a new plan called the Dimensions Health Corporation Pension Plan B.
Deferred vested cash out opportunity	Effective September 30, 2019, the plan offered terminated vested participants with a benefit accrued as a union registered nurse a one-time opportunity to receive an unlimited lump sum distribution of present value of their normal retirement benefit in December 2019.
Spin-back	Effective December 31, 2022, 152 active and active transferred participants that were in the December 31, 2018 spinoff to the UMMS Pension Plan were in a de minimis spin-back to the Dimensions Pension Plan.
Form of benefits	
• Automatic form for unmarried participants	A single life annuity
• Automatic form for married participants	An actuarially equivalent 50% joint and survivor annually with a reduced benefit payable to the participant, and 50% of the participant’s benefit payable to the spouse after the death of the participant.
• Optional forms	<p>An employee may elect one of the following options lieu of the normal benefit.</p> <p>50%, 66.67%, 75% or 100% joint and survivor options (where a reduced benefit is payable to the employee, 50%, 66.67%, 75% or 100% is continued during the lifetime of the employee’s designated beneficiary after the employee’s death.</p> <p>A reduced monthly benefit payable for the life but with a guarantee of 60, 120 or 180 monthly payments.</p> <p>A lump sum distribution if the present value of the accrued benefit is less than \$10,000. Code Section 417(e) assumptions with a two-month lookback and one-year stability period are used to determine the present value.</p>
• Optional form conversion factors (excluding lump sum distributions)	6.00% interest and GA71 female mortality table
Miscellaneous	
• Maximum benefits	Annual benefits may not exceed the limits in IRC Section 415.

Schedule SB, Part V — Summary of Plan Provisions**Benefits included or excluded**

Unless noted below, all benefits provided by the plan, as amended and restated as of January 1, 2020 and last amended by the Third Amendment effective August 30, 2023 are included in this valuation.

• Late retirement increases:

- *Active participants:* The plan does not provide benefit suspension notices to participants who work beyond normal retirement; therefore, late retirement actuarial increases apply to participants who defer retirement beyond 65. Participants with cash balance accounts, the actuarial increase is calculated by continuing to apply interest credits to the cash balance account
- *Deferred vested participants:* Current deferred vested participants over normal retirement age are valued including the late retirement actuarial increases. Participants with cash balance accounts, the actuarial increase is calculated by continuing to apply interest credits to the cash balance account.

• Internal Revenue Code limitations: The limitations of Internal Revenue Code Section 415(b) and 401(a)(17) have been incorporated into our calculations.**• IRC Section 416 rules for top-heavy plans:** We did not test whether this plan is top-heavy (when the present value of benefits for key employees equals or exceeds 60% of the present value for all participants). However, we expect that the plan is not top-heavy due to the large number of rank-and-file participants; therefore, the funding target and target normal cost do not reflect any liability for top-heavy benefit accruals.**Plan provisions specific to funding****Additional benefits included or excluded****• IRC Section 436 benefit restrictions:**

- *Unpredictable contingent event benefits:* This valuation excludes restricted contingent event benefits that occurred before the valuation date but includes contingent event benefits which are expected to occur on or after the valuation date regardless of anticipated funding-based limitations.
- *Plan amendments:* See above.
- *Prohibited payments:* Limitations on prohibited benefits (if any) are reflected for annuity starting dates before the valuation date but are ignored for annuity starting dates on or after the valuation date.
- *Benefit accruals:* The plan's funding target does not reflect any limitation on benefit accruals. The target normal cost does not reflect any limitation on benefit accruals.

• Schedules benefit increase: Not applicable.**• Unpredictable contingent event benefits:** The plan does not have any unpredictable contingent event benefits.

Schedule SB, Part V — Summary of Plan Provisions

Plan provision changes since prior valuation

Effective August 30, 2023, all participants, except for active union nurse participants and any alternative payee benefits associated with a Qualified Domestic Relations Order as of June 5, 2023 were spun off to the Dimensions Health Corporation Pension Plan B.
