Report of Independent Auditors

To the Plan Administrator of the
Superior Electric Great Lakes Company Employee Stock Ownership Plan

Opinion on the 2024 Financial Statements

We have audited the accompanying financial statements of Superior Electric Great Lakes Company Employee Stock Ownership Plan, an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statement of net assets available for benefits as of December 31, 2024, and the related statement of changes in net assets available for benefits for the year then ended, and the related notes to the financial statements.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of Superior Electric Great Lakes Company Employee Stock Ownership Plan as of December 31, 2024, and the changes in its net assets available for benefits for the year then ended, in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion on the 2024 Financial Statements

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the 2024 Financial Statements section of our report. We are required to be independent of Superior Electric Great Lakes Company Employee Stock Ownership Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the 2024 Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Superior Electric Great Lakes Company Employee Stock Ownership Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the 2024 Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Superior Electric Great Lakes Company Employee Stock Ownership Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Superior Electric Great Lakes Company Employee Stock Ownership Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

2024 Supplemental Schedule Required by ERISA

Our audit was conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule of assets (held at end of year) as of December 31, 2024 is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with generally accepted auditing standards.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying schedule is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

Report on Compiled 2023 Financial Statement

Plan management is responsible for the accompanying 2023 financial statement of Superior Electric Great Lakes Company Employee Stock Ownership Plan, which comprises the statement of net assets available for benefits as of December 31, 2023, and the related notes to the financial statement in accordance with accounting principles generally accepted in the United States of America. We have performed a compilation engagement in accordance with Statements on Standards for Accounting and Review Services promulgated by the Accounting and Review Services Committee for the AICPA. We did not audit or review the financial statement nor were we required to perform any procedures to verify the accuracy of completeness of the information provided by plan management. Accordingly, we do not express an opinion, a conclusion, nor provide any form of assurance on the 2023 financial statement.

Superior Electric Great Lakes Company Employee Stock Ownership Plan

Notes to Financial Statements

December 31, 2024

1. Description of Plan

The following description of the Superior Electric Great Lakes Company Employee Stock Ownership Plan (Plan) provides only general information. Participants should refer to the Plan Document for a more complete description of the Plan's provisions.

General

The Plan is designed to invest primarily in common stock of Superior Electric Great Lakes Company (Company) and is intended to qualify as a leveraged employee stock ownership plan (ESOP) under Section 4975(e)(7) of the Internal Revenue Code of 1986, as amended, and is subject to the applicable provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Plan covers substantially all employees of the Company who have attained age 18 and have completed at least 1,000 hours of service in the twelve-month period following their date of hire or a subsequent Plan year, as defined in the Plan Document. Leased employees, nonresident alien employees, union employees, those employed by a related company that is not a participating employer, and those not on the Company's payroll are not eligible to participate in the Plan. Participants can enter the Plan as of January 1 or July 1, after meeting the eligibility criteria. The Plan was formed and became effective on January 1, 2014.

Effective December 31, 2014, the Plan purchased outstanding common stock (99,310 shares) of the Company with a loan of \$4,000,000. See Note 7 for additional information. The borrowing is collateralized by the unallocated shares of stock, which are held in a trust established under the Plan. The Company has no rights against the shares once they are allocated under the ESOP. Accordingly, the financial statements of the Plan as of December 31, 2024 and 2023 (unaudited), and for the year ended December 31, 2024, present separately the assets and liabilities and changes therein pertaining to the accounts of employees with rights in allocated common stock (allocated), and common stock not yet allocated to employees (unallocated). Allocated common stock includes shares committed to be released.

The Plan is administered by the ESOP Administration Committee of the Company. An independent trust company has been appointed as the Plan's trustee.

Contributions

Employer contributions are determined at the discretion of the Company and are nonparticipant directed. The Company is obligated to make employer contributions in cash to the Plan which, when aggregated with the Plan's dividends and interest earnings, equal the amount necessary to enable the Plan to make its regularly scheduled payments of principal and interest due on its note payable. Employee contributions are not permitted.

1. Description of Plan (continued)

Participant Accounts

A separate individual account is established for each participant. Each participant's account is credited with allocations of the Company's common stock, forfeitures, reallocations of stock, interest, and employer contributions, as applicable. Only those participants who are eligible employees of the Company as of the last day of the plan year who have worked at least 1,000 hours during the Plan year or who have been terminated due to retirement, disability, or death will receive an allocation of the Company's common stock and employer contributions. Allocations are based on a participant's eligible compensation, relative to total eligible compensation. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. Plan earnings are allocated to each participant's account based on the ratio of the participant's account balance.

Vesting

Participants are 100% vested in their account balances after three or more years of service with 25% vesting after one year, 50% vesting after two years, and 100% vesting after three years. Special vesting rules are in place under the Plan which allow a participant to become 100% vested including 1) attainment of normal retirement age of 65 while an employee; 2) participant death while an employee; or 3) participant becoming disabled while an employee.

Forfeitures

Forfeitures are allocated to accounts of participants who are eligible to receive an allocation for the plan year. The amount allocated to each participant account is based on a participant's eligible compensation, relative to total eligible compensation. There were no forfeiture amounts allocated to participants in 2024. Forfeited nonvested accounts to be allocated to participant accounts totaled \$0 as of December 31, 2024 and 2023.

Payment of Benefits

Plan participants are eligible to receive distributions upon retirement at or after age of 65, death, or disability. In this instance, they are eligible for a normal distribution from their account for the full value of their account balance, which will be made or commence within one year of the plan year in which the event occurs. Participants are also eligible to receive distributions for separation of employment for other reasons (termination, etc.), which will begin no later than one year after the close of the fifth year after termination. Benefits are payable in lump-sum payments or equal annual installments not exceeding five years. The annual installment payback period can be increased based on the value of stock in the participant's account in accordance with the Internal

1. Description of Plan (continued)

Payment of Benefits (continued)

Revenue Code Section 409(o)(1)(C)(ii). Payments may be made in cash or stock, as described in the Plan Document. Under the provisions of the Plan, the Company is obligated to repurchase participant shares, which have been distributed under the terms of the Plan if the shares are not publicly traded. The Plan generally recycles such repurchased shares by reallocating them to remaining Plan participants based on provisions outlined in the Plan Document.

During 2024, the Plan received distributions from the Company in the amount of \$813,547 enabling the Plan to pay benefit payments to participants.

Administrative Expenses

The Company has historically paid the operating expenses for the Plan.

Put Option

Under federal income tax regulations, the employer stock that is held by the Plan and its participants is not readily tradable on an established market and is subject to a put option. The put option is a right to demand that the Company buy any shares of its stock distributed to participants for which there is no market. Participants have the right to sell their distributed Company stock to the Company at any time during two option periods, as defined by the Plan Document. The purchase price for any Company stock sold under a put option will be the current appraised value of the stock as of the most recent valuation date. The Company can pay for the purchase either via one lump-sum payment or over a period of five years with interest. The purpose of the put option is to ensure that the participant has the ability to ultimately obtain cash.

Voting Rights

Each participant is entitled to direct the trustee, in certain matters, as to the manner in which shares allocated to his or her account shall be voted. The trustee is permitted to vote any allocated shares for which instructions have not been received by the participant in addition to all unallocated shares.

1. Description of Plan (continued)

Diversification

Participants that have reached age 55 and have completed ten or more years of participation in the Plan have the right to make an election to diversify a portion of their account as defined in the Plan Document.

Participants who elect to diversify will have a portion of their allocated Company shares transferred to an account in their name in another tax-qualified plan maintained by the Company. The election to diversify can be made within the 90-day period immediately following the close of any Plan year within the Election Period, which is defined as the period of six consecutive Plan years beginning with the Plan year in which the participant first becomes eligible to diversify. Diversification elections are made subsequent to year-end based upon the shares of employer stock in a participant's account as of the immediately preceding year-end.

2. Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP).

Subsequent Events

Subsequent events have been evaluated through September 30, 2025, which is the date the financial statements were available to be issued.

Use of Estimates

The preparation of financial statements in conformity with U.S. GAAP requires the Plan Administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Payment of Benefits

Benefits are recorded when paid.

Superior Electric Great Lakes Company Employee Stock Ownership Plan

Notes to Financial Statements

December 31, 2024

2. Summary of Significant Accounting Policies (continued)

Investment Valuation and Income Recognition

The shares of Company common stock are reported at fair value. See Note 6 for a discussion of the fair value measurements and investment valuation. Dividend income is accrued on the ex-dividend date. Purchases and sales of securities are recorded on a trade-date basis. Realized gains and losses from security transactions are reported on the average cost method. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

3. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA.

4. Income Tax Status

The Plan has not applied for or obtained a favorable determination letter. Plan administrator believes the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the Internal Revenue Code and, therefore believes the Plan is qualified. Accordingly, no provision for income tax is included in the accompanying financial statements.

Generally, tax years from 2021 through the current year remain open to examination. The Plan does not believe that the results from any examination of these open years would have a material adverse effect on the Plan.

5. Investments

The Plan's investments, as of December 31, are presented in the following table:

	2024		2023 (unaudited)	
	Allocated	Unallocated	Allocated	Unallocated

6. Fair Value Measurements

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan utilizes valuation techniques that maximize the use of observable inputs and minimize the use of unobservable inputs. Based on the observability of the inputs used in the valuation techniques, the Plan is required to provide information according to the fair value hierarchy.

The fair value hierarchy ranks the quality and reliability of the information used to determine fair values.

Financial assets and liabilities carried at fair value will be classified and disclosed in one of the following three categories:

Level 1 – Quoted prices (unadjusted) for identical assets or liabilities in active markets that the entity has the ability to access as of the measurement date.

Level 2 – Significant other observable inputs other than Level 1 prices, such as quoted prices for similar assets and liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data.

Level 3 – Significant unobservable inputs that reflect a company’s own assumptions about the assumptions that market participants would use in pricing an asset or liability.

In determining the appropriate levels, the Plan performs a detailed analysis of the assets and liabilities. At each reporting period, all assets and liabilities for which the fair value measurement is based on significant unobservable inputs are classified as Level 3. There have been no changes in methodologies used as of December 31, 2024.

The following tables set forth by level, within the fair value hierarchy, the Plan’s assets at fair value as of December 31:

	<u>Level 3</u>	<u>Total</u>
2024

6. Fair Value Measurements

The Superior Electric Great Lakes Company common stock held by the Plan is reported at fair value based upon an annual independent appraisal. This appraisal was based upon a combination of the income and market valuation techniques. The appraisal took into account historical and projected cash flow and net income, return on assets, return on equity, fair value of the Company assets and liabilities, as well as a discount for lack of marketability. Plan management accumulates the data for the appraiser from the audited financial statements of the Company.

	Level 3 Assets	
	Year Ended December 31	
	2024	2023 (unaudited)
Investment in Superior Electric Great Lakes Company Common Stock		
Balance at beginning of year	\$ 115,998,853	\$ 100,833,546
Unrealized appreciation in estimated fair value	51,803,006	15,165,307
Balance at end of year	<u>\$ 167,801,859</u>	<u>\$ 115,998,853</u>
Amount of total gains for the period included in changes in net assets attributable to the change in unrealized gains (losses) related to assets still held at the reporting date	\$ 51,803,006	\$ 15,165,307

The methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value at the reporting date.

7. Note Payable

Effective December 31, 2014, the Plan entered into a \$4,000,000 term loan agreement with the Company. The proceeds of the loan were used to purchase outstanding shares of the Company's common stock (99,310 shares at \$40.28 per share). Unallocated shares are collateral for the loan. Shares are released from the collateral and allocated to participants on a pro rata ratio of each eligible participant's compensation as loan payments of principal and interest are made. The number of shares released in any year is the number of shares held as collateral immediately before release for the current Plan year multiplied by the ratio of principal and interest paid for the current year divided by the amount of principal and interest to be paid for all future years. For the Plan years ended December 31, 2024 and 2023 (unaudited), approximately 3,310 shares were released and allocated.

Notes to Financial Statements

December 31, 2024

7. Note Payable (continued)

The loan is payable over 30 years and bears an interest rate of 2.74%. Annual payments of principal and interest are required to be paid from the Plan to the Company. The Plan paid the \$193,899 scheduled loan payment for the Plan year ended December 31, 2024 (\$194,041 for 2023, unaudited).

Remaining estimated payments due on the note payable are as follows:

2025	\$	107,289
2026		110,228
2027		113,249
2028		116,166
2029		119,535
Thereafter		2,240,662
Total	\$	<u>2,807,129</u>

8. Related Party and Party-in-Interest Transactions

The Plan invests in the Company's common stock (as discussed in Note 5), has indebtedness to the Company (as discussed in Note 7), and receives distributions from the Company. These are related party and party-in-interest transactions. Party-in-interest transactions also include the Company providing accounting and administrative services to the Plan and paying other plan expenses, for which no fees are charged to the Plan. Plante Moran is also a party-in-interest, as they serve as recordkeeper to the Plan. The Plan has various other service providers including Plan trustee and Company stock custodian (TI-Trust, Inc.), appraiser (Chartwell Financial Advisory, Inc.), and Plan auditor (Andrews Hooper Pavlik PLC); as such, these providers qualify as parties-in-interest.

9. Risk and Uncertainties

The Plan investments consist primarily of the Company's common stock, which is exposed to various risks, such as interest rate, market, and credit risks, as well as valuation assumptions based on earnings, cash flows, and other such techniques. Due to the level of risk associated with the investment in the common stock and to uncertainties inherent in estimates and assumptions, it is at least reasonably possible that changes in the value of the common stock will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.
