Report of Independent Auditors

To the Managing Member of Columbia Pyrford International Stock Private Fund, LLC

Opinion

We have audited the accompanying financial statements of Columbia Pyrford International Stock Private Fund, LLC (the "Fund"), which comprise the statement of assets and liabilities, including the schedule of investments, as of December 31, 2024 and the related statements of operations and of changes in net assets, including the related notes, and the financial highlights for the year then ended (collectively referred to as the "financial statements").

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of the Fund as of December 31, 2024, and the results of its operations and changes in its net assets and the financial highlights for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (US GAAS). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Fund and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Fund's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with US GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with US GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Fund's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

COLUMBIA PYRFORD INTERNATIONAL STOCK PRIVATE FUND, LLC

Notes to Financial Statements

December 31, 2024

NOTE A – FUND ORGANIZATION AND INVESTMENT OBJECTIVE

Columbia Pyrford International Stock Private Fund, LLC (the “Fund”) was formed by filing a Certificate of Formation and is governed by a Limited Liability Company Agreement. Columbia Management Investment Advisers, LLC serves as the Fund’s Investment Manager (the “Investment Manager”). The Investment Manager is a wholly-owned subsidiary of Ameriprise Financial, Inc. (“Ameriprise Financial”), and is registered with the United States Securities and Exchange Commission as an investment advisor under the Investment Advisers Act of 1940. CTPFMM, LLC, a limited liability company formed on November 30, 2020 under the laws of the state of Delaware, independent of Ameriprise Financial and governed by a majority of independent board of directors, serves as the managing member (the “Managing Member”) and is responsible for managing the business affairs of the Fund. The Managing Member has no ownership interest in the Fund. The investment objective of the Fund is to provide a stable stream of real returns over the long term with low absolute volatility and significant downside protection relative to the MSCI EAFE Index.

Pyrford International Limited is retained as the Fund’s Subadvisor making all investment decisions on behalf of the Fund. Pyrford International Limited is authorized and regulated by the Financial Services Authority of the United Kingdom, and is registered as an investment adviser with the US Securities and Exchange Commission.

The Fund is currently offering two classes of membership units to eligible investors, Class A and Class B. Class A Units and Class B Units have the same rights and obligations, except that the Management Fee attributable to Class A is paid directly by Members holding such Units, and the Management Fee attributable to Class B is paid to the Investment Manager by the Fund. Class A Units are only available to Members who already own Class A Units. During this reporting period, the Fund had investors holding Class A Units and Class B Units.

The Fund has the authority to issue an unlimited number of units (including fractional units) for each offering Class. Units of each Class are identical in all respects with every other unit and represent an undivided beneficial interest in that Class.

State Street Bank & Trust Co., (“State Street Bank”) is the Custodian of the Fund and also performs certain accounting, administrative, financial, registrar and transfer agency and other services on behalf of the Fund.

NOTE B – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

These financial statements are prepared in accordance with accounting principles generally accepted in the United States of America (“U.S. GAAP”), which require management to make estimates and assumptions that affect the reported amount of assets and liabilities, the disclosure of contingent liabilities at the date of the financial statements, and the reported amount of increase and decrease in net assets from operations during the fiscal period. Actual amounts could differ from these estimates. The Fund is an investment company and follows the investment company accounting standards and reporting guidance under Financial Accounting Standards Board (FASB) Accounting Standard Codification (“ASC”) Topic 946, “Financial Services — Investment Companies”. The following summarizes the significant accounting policies of the Fund:

Security Valuation

The Fund values its investments in securities at fair value. In accordance with US GAAP, fair value is defined as the price that would be received to sell an asset or paid to transfer a liability (i.e., the “exit price”) in an orderly transaction between market participants at the measurement date. The value of securities which are quoted or dealt in on any stock exchange is based on the official closing sales price or, if there is no closing sales price, the mean of the closing bid and the closing asked price, as reported by any report in common use, including information provided by an independent pricing service, or authorized as official by such stock exchange. Securities not dealt on a stock exchange will be priced at the average of the closing bid and the closing ask price.

Securities for which market quotes are not readily available are valued by the Investment Manager at fair value as determined in good faith under procedures of the Investment Manager. The Investment Manager has adopted methods for valuing securities in circumstances where market quotes are not readily available. In the event that market quotes are not readily available, and the security cannot be valued pursuant to the valuation method, the value of the security will be determined in good faith by the Investment Manager after considering factors such as cost, the type of investment, subsequent trades of the same or similar investments by the Fund or other investors and other such factors as may be relevant.

Many securities markets and exchanges outside the U.S. close prior to the time when the Fund calculates its net asset value; therefore, the closing prices for securities in such markets or on such exchanges may not fully reflect events that occur after such close but before the Fund calculates its net asset value. In those situations, foreign securities will be fair valued pursuant to a policy adopted by the Investment Manager. Under the policy, the Fund may utilize a third-party pricing service to determine these fair values. The third-party pricing service takes into account multiple factors, including, but not limited to, movements in the U.S. securities markets, certain depositary receipts, futures contracts and foreign exchange rates that have occurred subsequent to the close of the foreign

Notes to Financial Statements - Continued

December 31, 2024

exchange or market, to determine a good faith estimate that reasonably reflects the current market conditions as of the time the Fund calculates its net asset value. The fair value of a security is likely to be different from the quoted or published price, if available.

The Investment Manager may determine that a security needs to be fair valued if, among other things, it believes the value of the security might have been materially affected by events occurring after the close of the market in which the security was principally traded, but before the time for determination of the net asset value (“a subsequent event”). A subsequent event might include a company-specific development (for example, announcement of a merger that is made after the close of the foreign market), a development that might affect an entire market or region (for example, weather related events) or a potentially global development (such as a terrorist attack that may be expected to have an effect on investor expectations worldwide).

The Fund has retained an independent fair value pricing service to assist in fair valuing foreign securities. The service utilizes statistical data based on historical performance of securities, markets, and other data in developing factors used to estimate a fair value.

In accordance with the authoritative guidance on fair value measurement and disclosures under U.S. GAAP, the Fund discloses the fair value of its investments in a hierarchy that prioritizes the inputs to valuation techniques used to measure the fair value. The hierarchy gives the highest priority to valuations based upon unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurement) and the lowest priority to valuation based upon unobservable inputs that are significant to the valuation (level 3 measurements). The guidance establishes three levels of the fair value hierarchy as follows:

Level 1 - Unadjusted quoted prices in active markets for identical assets or liabilities that the Fund has the ability to access at the measurement date.

Level 2 - Prices determined using other significant observable inputs. Observable inputs are inputs that other market participants would use in valuing a portfolio instrument. These may include quoted prices for similar securities, interest rates, foreign exchange rates, prepayment speeds, credit risk, other inputs and securities valued by an independent fair value pricing service.

Level 3 - Prices determined using significant unobservable inputs. In situations where quoted prices or observable inputs are unavailable (for example, when there is little or no market activity for an investment at the end of the year), unobservable inputs may be used. Unobservable inputs reflect the Fund’s own assumptions about the factors market participants would use in valuing a portfolio instrument, and would be based on the best information available.

The following is a summary of the inputs used as of December 31, 2024, in valuing the Fund's investments:

	Level 1	Level 2	Level 3	Total
Investments in Securities				
Common Stocks	\$ 4,638,604	\$ 477,981,860	\$ —	\$ 482,620,464
Preferred Stocks	—	9,791,248	—	9,791,248
Short-Term Investments	14,070,054	—	—	14,070,054
Total Investments in Securities	\$ 18,708,658	\$ 487,773,108	\$ —	\$ 506,481,766

Security Transactions and Investment Income

Security transactions are accounted for on the trade date. Realized gains and losses on sales of investment securities are calculated using the identified cost method. Dividend income is recognized on the ex-dividend date net of withholding taxes, except for certain foreign dividends that may be recorded as soon as such information becomes available. Interest income and expenses are recognized on the accrual basis. Dividend income is recorded net of applicable withholding taxes on the ex-dividend date or as soon as the Fund is informed of the ex-dividend date or as soon as the Investment Manager is informed of the dividend. Interest income is recorded on the accrual basis from settlement date.

Foreign Currency

Investment securities and other assets and liabilities denominated in foreign currencies are translated into U.S. dollar amounts at the date of valuation. Purchases and sales of investment securities and other income and expense items denominated in foreign currencies are translated into U.S. dollar amounts at Reuters 4pm London spot rate or early NYSE market close on the respective dates of such transactions. The Fund does not isolate the portion of the results of operations resulting from changes in foreign exchange rates on investments from the fluctuations arising from changes in market prices of securities held. Such fluctuations are included with the net realized and unrealized gain or loss on investments.

COLUMBIA PYRFORD INTERNATIONAL STOCK PRIVATE FUND, LLC

Notes to Financial Statements - Continued

December 31, 2024

The realized gain or loss and unrealized appreciation or depreciation resulting from all other transactions denominated in currencies other than U.S. dollars are disclosed separately.

Income Taxes

The Fund is classified as a partnership for federal and state income tax purposes and, as such, is not a taxable entity. The Fund's income and losses are included in the tax returns of its Participants. Accordingly, no provision for income taxes has been included in the Fund's financial statements. The Fund is subject to state taxes as determined under individual state laws. As of December 31, 2024 any liability for state taxes payable was assessed to be immaterial to the Fund's financial statements.

The Fund follows Accounting Standards Codification (ASC) 740, Income Taxes ("ASC 740"). ASC 740 clarifies the accounting for income taxes recognized in the financial statements. This guidance prescribes a comprehensive model for how an entity should recognize, measure, present, and disclose in its financial statements uncertain tax positions that the entity has taken or expects to take on a tax return (including the Fund's assertion that its income is exempt from tax). The Fund has determined that no material uncertain tax positions exist. As a result, the Fund has not recorded any liabilities for material unrecognized tax benefits as of December 31, 2024. Although the Fund is exempt from taxation, the Fund files federal and state annual information returns. The annual information returns of the Fund are not generally subject to examination for years prior to 2021.

Issuances and Redemptions of Units of Participation

The NAV of the Fund is determined daily, as of the close of business day ("valuation date"). The minimum initial investment is \$1,000,000 unless waived by the Investment Manager. Issuances and redemptions of Fund units are made on such days, based upon the closing market value of the securities bought or sold as of the valuation date, adjusted for the related market effect and transaction costs which are allocated to the applicable participant. Transaction costs include brokerage commissions, taxes and other direct costs related to security transactions. Market effect is the difference between the execution price of the investment on the trade date and the investment's closing fair value on the valuation date.

Any redemption of units are based on the valuation determined as of the close of business on an instructed valuation date and will be made in cash or in kind, or a combination of both as determined by the Investment Manager. The cash necessary for a redemption may be generated through the sale of securities from the Fund, in which case expenses attributable to such sale will be deducted from the proceeds of the redemption. Redemptions are paid generally within seven business days from the effective date of the redemption. No interest will be paid to a participant on account of any delay in payment of the cash portion of a redemption.

Units in excess of 10% of Class A units outstanding at December 31, 2024 held by 2 of the Class A's Participants aggregated 100.0% of Class A total units outstanding. Units in excess of 10% of Class B units outstanding at December 31, 2024 held by 1 of the Class B's Participants aggregated 100.0% of Class B total units outstanding.

Expenses and Related Party Transactions

The Investment Manager will be compensated for its services pursuant to individual agreements between the Investment Manager and each Participant (the "Management Fee"). The Management Fees are calculated based on a specified percentage of each participants net assets in each Fund's Class Unit. The fees for Class A Units are payable from each Participant directly to the Investment Manager and are not an expense of the Fund and therefore are not reflected in the accompanying Statement of Operations. The fees for Class B Units are payable by the Fund to the Investment Manager and are reflected in the accompanying Statements of Operations. Class B pays quarterly to the Investment Manager a Management Fee at the annual rate of 0.70% of the Net Asset Value of each Member's capital account based on the average Net Asset Value for each day during the quarter. The Investment Manager has the right to waive or reduce Management Fees per the terms of the Fund's operating agreement.

The Investment Manager is responsible for expenses incurred in connection with the operation of the Fund including all expenses related to the ongoing offer and sale of Fund units, accounting and reporting, and other direct operating costs. This includes administrative and custodian fees, legal fees, audit fees, director fees, brokerage commissions, director fees and other miscellaneous expenses necessary for the operation of the Fund. The Investment Manager reserves the right to charge any or all of the Fund's fees and the expenses to the Fund prospectively.

Distributions to Participants

The Investment Manager will have the right to declare and to pay distributions on units. Such distributions shall be paid pro rata, based on participants' ownership percentage, to the participants at the date and time of record established for the payment of such distributions.

NOTE C - CONTINGENCIES AND COMMITMENTS

In the normal course of business, the Fund enters into contracts that contain a variety of representations which provide general indemnifications. The Fund's maximum exposure under these arrangements is unknown as this would involve future claims that may be made against the Fund that have not yet occurred. However, based on experience, the Fund expects the risk of loss to be remote.

NOTE D - INVESTMENT TRANSACTIONS

Purchases and sales of securities, excluding short-term investments and including in-kind contributions and redemptions, if any, during the year ended December 31, 2024, were \$89,399,818 and \$159,445,953, respectively.

NOTE E - SIGNIFICANT EVENTS

Although we have established business continuity/disaster recovery plans (Continuity and Recovery Plans) designed to prevent or mitigate the effects of systems and personnel disruptions and failures and cybersecurity breaches, there are inherent limitations in Continuity and Recovery Plans. These limitations include the possibility that certain risks have not been identified, that Continuity and Recovery Plans might not – despite testing and monitoring – operate as designed, that Continuity and Recovery Plans may not be sufficient to stop or mitigate negative impacts, including financial losses, or that Continuity and Recovery Plans may otherwise be unable to achieve their objectives. The Fund could be negatively impacted as a result. The widespread use of work-from-home arrangements may increase these risks. The Investment Manager and its affiliates have systematically implemented strategies to address the operating environment spurred by the COVID-19 pandemic. The Investment Manager's operations teams seek to operate without significant disruptions in service. Its Continuity and Recovery Plans take into consideration that a pandemic could be widespread and may occur in multiple waves, affecting different communities at different times with varying levels of severity. The Fund cannot, however, predict the impact that natural or man-made disasters and conditions, including pandemics, may have on the ability of us and the service providers to continue ordinary business operations and technology functions over near- or longer-term periods. In addition, the Fund cannot control or dictate the Continuity and Recovery Plans of the service providers. As a result, there can be no assurance that the Fund will not suffer financial losses relating to systems or personnel disruptions or failures or cybersecurity breaches affecting them or us in the future.

Terrorism, war, military confrontations and actions, other conflicts, and related geopolitical events (and their aftermath) have led, and in the future may lead, to increased short-term market volatility and may have adverse long-term effects on U.S. and world economies and markets generally. For example, the large-scale invasion of Ukraine by Russia in February 2022 has resulted in sanctions and market disruptions, including declines in regional and global stock and commodity markets and significant devaluations of Russian currency. As the conflict continues with no clear resolution between the two countries, the conflict's effect on the global economy continues to be significant, widespread, and ongoing. Market disruption caused by the Russian military action, and any counter measures or responses thereto (including international sanctions, a downgrade in the country's credit rating, purchasing and financing restrictions, boycotts, tariffs, changes in consumer or purchaser preferences, cyberattacks and espionage) could have a severe adverse impact on regional and/or global securities and commodities markets, including markets for oil and natural gas. Other geopolitical situations, such as the conflict between Israel and Palestine, which intensified in October 2023 when Israel formally declared a state of war following the attacks by Hamas militants, may also result in increased volatility and adverse economic effects. These and other similar events could have a negative impact on Fund performance and the value of an investment in the Fund.

NOTE F - SUBSEQUENT EVENTS

Events or transactions occurring after year end through March 20, 2025, the date the financial statements were available to be issued, have been evaluated by management in the preparation of the financial statements. The Fund has no subsequent events to report.
