Independent Auditor's Report

To the Plan Administrator of
PaperWorks Industries, Inc. Pension Plan for Hourly Employees:

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of PaperWorks Industries, Inc. Pension Plan for Hourly Employees, an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 ("ERISA"), as permitted by ERISA Section 103(a)(3)(C) ("ERISA Section 103(a)(3)(C) audit"). The financial statements comprise the statements of net assets available for benefits and of accumulated plan benefits as of December 31, 2024 and 2023, and the related statements of changes in net assets available for benefits and of changes in accumulated plan benefits for the year ended December 31, 2024, and the related notes to financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of PaperWorks Industries, Inc. Pension Plan for Hourly Employees' financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's ("DOL") Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the plan ("investment information") by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA ("qualified institution").

Management has obtained certifications from qualified institutions as of December 31, 2024 and 2023, and for the year ended December 31, 2024, stating that the certified investment information, as described in Note 5 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section:

- The amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- The information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America ("GAAS"). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of PaperWorks Industries, Inc. Pension Plan for Hourly Employees and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about PaperWorks Industries, Inc. Pension Plan for Hourly Employees' ability to continue as a going concern for at least one year following the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of PaperWorks Industries, Inc. Pension Plan for Hourly Employees' internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about PaperWorks Industries, Inc. Pension Plan for Hourly Employees' ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter - Supplemental Schedule(s) Required by ERISA

The supplemental schedule, Schedule H, Line 4i - Schedule of Assets (Held at End of Year) as of December 31, 2024 is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including its form and content, is presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- The form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.
- The information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

PaperWorks Industries, Inc. Pension Plan for Hourly Employees

Notes to Financial Statements

December 31, 2024 and 2023

1. Description of Plan

The following description of PaperWorks Industries, Inc. Pension Plan for Hourly Employees (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a noncontributory defined benefit plan sponsored by PaperWorks Industries, Inc. (the "Company") established effective September 17, 2008. Prior to the plan freeze, the Plan covered substantially all employees of four collective bargaining agreements upon completing one year of service. Employees were eligible to participate as of the first day of the month coinciding with or following the date on which the participant met the eligibility requirements. Further, employees who were participants in the Altivity Packaging Pension Plan for Hourly Employees ("Altivity Plan") were automatically admitted into the current Plan on the effective date of the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Effective January 1, 2014, the Company elected to freeze the Plan. For employees who are grandfathered into the existing Plan, the January 1, 2014 multiplier remains unchanged for the life of the agreement. Employees who were current participants and less than age 55 or whose age plus service was less than 64.75 years were not grandfathered. Their benefits were frozen on December 31, 2013 amounts, but they continue to accrue age and service as defined in the Plan for purposes of vesting, early, and disability retirement. Employees hired after the ratification of the agreement are "new hires" and not eligible to participate in the defined benefit plan.

Funding Policy

The Plan's funding policy is for the Company to contribute an amount that will meet or exceed the annual ERISA minimum funding requirement. The minimum funding requirements of ERISA have been fulfilled through December 31, 2024.

The Pension Protection Act of 2006 ("PPA") as amended by the Worker, Retiree and Employer Recovery Act of 2008 ("WRERA") imposes certain benefit restrictions for qualified defined benefit plans that do not meet certain funding thresholds. The "At-Risk" status is referred to as the Funding Target Attainment Percentage ("FTAP"). A plan's funded percentage is referred to as the Adjusted Funding Target Attainment Percentage ("AFTAP"). The 2024 and 2023 AFTAPs for the Plan are 94.07% and 88.79%, respectively. Because the AFTAP equals or exceeds 80%, the Plan is not subject to any benefit restrictions.

Pension Benefits

Participants are entitled to Plan benefits beginning at the normal retirement age of 65, although earlier retirement with lesser benefits is permitted. Employees who terminate after completion of five years of service but prior to eligibility for normal retirement or early retirement shall be entitled to a deferred vested benefit commencing at age 65 equal to their accrued benefit as of the date of termination.

The surviving spouse of an active or terminated participant is entitled to certain benefits as defined in the Plan document in the event that the participant dies prior to receiving benefit payments. In order to be eligible, the participant must be vested and have a surviving spouse. There are specific provisions applied to the benefit amount payable which are detailed in the Plan document.

The Plan benefits are calculated as the benefit level, as defined by the Plan document, multiplied by the participant's years and months of benefit service plus prior service benefit level, as defined by the Plan document, multiplied by the participant's years and months of prior benefit less benefit payable from the Altivity Plan. As of December 31, 2024, the benefit level was \$36 per month. The benefit service term includes all periods of continuous employment with the Company as a covered employee and any benefit service under the Altivity Plan.

Vesting

Participants become 100% vested in their accrued benefits after the completion of five years of credited service. Employees' vesting service under the Altivity Plan is included in the vesting service of the current Plan.

2. Summary of Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, disclosure of contingent assets and liabilities, and the actuarial present value of accumulated plan benefits at the date of the financial statements and changes therein. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value, as determined by Principal Life Insurance Company and Principal Trust Company (the "Custodians"). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's investment committee determines the Plan's valuation policies utilizing information provided by the investment advisors, custodians, and insurance company, as applicable. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation in fair value of investments includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits

Benefits payments to participants are recorded upon distribution.

Administrative Expenses

The Plan's expenses are paid either by the Plan or the Company. Expenses that are paid directly by the Company are excluded from these financial statements. Certain expenses incurred in connection with the general administration of the Plan that are paid by the Plan are recorded as deductions in the statement of changes in net assets available for benefits. In addition, certain investment-related expenses are included in net appreciation in fair value of investments in the statement of changes in net assets available for benefits, which are not readily determinable.

Subsequent Events

The Plan's management evaluated events that occurred after December 31, 2024 through September 19, 2025, the date when the financial statements were available to be issued. Based on that evaluation, the Plan's management has determined that no subsequent events have occurred which would require disclosure in the financial statements.

3. Actuarial Present Value of Accumulated Plan Benefits

Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits are those future periodic payments, including lump-sum distributions, that are attributable under the Plan's provisions to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries. Benefits under the Plan are based on the participant's benefit service.

Benefits payable under all circumstances, such as retirement, death, disability, and termination of employment, are included to the extent that they are attributable to employee service rendered to the valuation date. The actuarial present value of accumulated plan benefits is determined by the Plan's independent actuary and is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment.

The computations of the actuarial present value of accumulated plan benefits were made as of January 1, 2025 and 2024. Had the valuations been performed as of December 31, 2024 and 2023, there would be no material differences.

PaperWorks Industries, Inc. Pension Plan for Hourly Employees
Notes to Financial Statements
December 31, 2024 and 2023

Significant assumptions underlying the actuarial computations of the present value of accumulated plan benefits as of December 31, 2024 and 2023 are as follows:

	2024	2023
Discount rate	7.00% per annum	7.00% per annum
Mortality table	PRI-2012 Blue Collar Dataset mortality table with improvement scale MP-2021	PRI-2012 Blue Collar Dataset mortality table with improvement scale MP-2021
Retirement age	Graduated table developed based on plan experience	Graduated table developed based on plan experience

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits. All Plan provisions, actuarial methods, and assumptions are the same as those used in prior valuation except for effective interest rates and mortality, which are updated at each valuation date as required by federal regulations.

4. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") 820, *Fair Value Measurement*, are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability; and
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation techniques used for assets measured at fair value. There have been no changes in the techniques used at December 31, 2024 and 2023.

Mutual Funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the U.S. Securities and Exchange Commission. These funds are required to publish their daily net asset value ("NAV") and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

PaperWorks Industries, Inc. Pension Plan for Hourly Employees
Notes to Financial Statements
December 31, 2024 and 2023

Pooled Separate Accounts: Shares of pooled separate accounts have been determined by the custodians to be valued as Level 1 rather than using NAV as a practical expedient for fair value. The reasoning for this includes that the assets have a readily determinable fair value because a) the NAV is available to current investors, and b) the NAV is the basis for current transactions traded in an active market.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2024 and 2023:

	December 31, 2024			
	Level 1	Level 2	Level 3	Total

5. Information Certified by Custodians

The Plan administrator has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA for 2024 and 2023. Accordingly, Principal Life Insurance Company and Principal Trust Company, the custodians of the Plan, have certified to the completeness and accuracy of all investments reported in the accompanying statements of net assets available for benefits as of December 31, 2024 and 2023, the supplemental Schedule H, Line 4i - Schedule of Assets (Held at End of Year) as of December 31, 2024, and the related investment activity reported in the statement of changes in net assets available for benefits for the year ended December 31, 2024.

6. Related-Party and Party In Interest Transactions

The Plan's investments are administered under a contract with Principal Life Insurance Company and Principal Trust Company, the custodians of the Plan. Contributions are held and managed by Principal Life Insurance Company and Principal Trust Company, who invest cash received, interest, and dividend income and make distributions to participants. These transactions are party-in-interest transactions under ERISA.

As described in Note 2, the Plan paid certain expenses related to Plan operations and investment activity to various service providers. Additionally, certain administrative functions of the Plan are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan. These transactions are party-in-interest transactions under ERISA.

Notes to Financial Statements

December 31, 2024 and 2023

7. Plan Termination

In the event the Plan terminates, the net assets of the Plan will be allocated, as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated:

1. Annuity benefits that former employees or their beneficiaries have been receiving for at least three years or that employees eligible to retire for that three-year period would have been receiving if they had retired with benefits in the normal form of annuity under the Plan. The priority amount is limited to the lowest benefit that was payable (or would have been payable) during those three years. The amount is further limited to the lowest benefit that would be payable under Plan provisions in effect at any time during the five years preceding Plan termination.
2. Other vested benefits insured by the Pension Benefit Guaranty Corporation ("PBGC") (a U.S. government agency) for up to the applicable limitations.
3. All other vested benefits (that is, vested benefits not insured by the PBGC).
4. All nonvested benefits.

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivor's pensions. However, the PBGC does not guarantee all benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination.

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations and may also depend on the financial condition of the Plan sponsor and the level of benefits guaranteed by the PBGC.

8. Tax Status

The Internal Revenue Service ("IRS") has determined and informed the Company by a letter dated October 22, 2013, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code ("IRC"). The Plan administrator believes that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC. Although the Plan has been amended since receiving the opinion letter, the Plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

Plan management is required to evaluate tax positions taken by the Plan and to recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

9. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits. As of December 31, 2024 and 2023, five investments represented a concentration of greater than 10% of the Plan's net assets available for benefits.

Plan contributions are made, and the actuarial present value of accumulated plan benefits are reported, based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

Actuarial Assumptions and Methods

Actuarial Methods

a. Funding Method

The actuarial cost method is the Unit Credit cost method. On the initial valuation date, the benefit accrued to date and the anticipated benefit accrual during the plan year immediately following the initial valuation date are determined for each participant. The present values of these benefit are then calculated. The sum of the present values of all benefits accruing during the plan year immediately following the valuation date is the normal cost for the initial plan year. The sum of the present values of all benefits accrued prior to the valuation date, less the plan assets, is the initial unfunded actuarial accrued liability.

In subsequent years, the normal cost and unfunded actuarial accrued liability are recalculated on the basis described above. Experience gains and losses (changes in the unfunded actuarial accrued liability which result from causes other than contributions by the plan sponsor and the accrual of interest and additional normal costs) are directly calculated under this cost method. Adjustments to the unfunded actuarial accrued liability can occur, for example, as a result of plan amendments or assumption changes; such adjustments are determined by computing the change in the initial unfunded actuarial accrued liability.

b. Asset Valuation Method

The actuarial value of assets is defined as the market value including accrued contributions.

c. Valuation Procedures

- **Participants excluded:** No liability is held for non-vested, terminated employees, even if a break-in-service had not occurred as of the valuation date.
- **Participants included:** The plan sponsor provides us with data on all employees as of the valuation date, but only those employees who have completed the plan's eligibility requirements are included in the valuation of liabilities.

Summary of Plan Provisions

Effective Date

The Plan was established on September 17, 2008, to provide benefits to bargaining unit employees of the mill facilities acquired as a result of the purchase of the Wabash, IN and Philadelphia, PA locations. The provisions summarized below are based on the Plan documented restated as of January 1, 2017 and the first amendment effective January 1, 2017.

Eligibility

Any mill facility employee of the Company in the Wabash, IN and Philadelphia, PA locations on or after the effective date of the Plan who is covered by the collective bargaining agreement with one of the following unions:

USWA Local 6285 (Wabash)
USWA Local 2-68 (Philadelphia)
IUOE Local 835 (Philadelphia)
SEIU Local 32 BJ (Philadelphia)

Participation commences on the first of the month coincident with or next following one year of Service. Employees hired or rehired after December 31, 2013 are not eligible to participate and eligibility is frozen as of January 1, 2015.

Service

Benefit Service for benefit accrual purposes is the aggregate of all periods of continuous service measured in years and months from July 1, 2006 to the severance from service date.

Prior Benefit Service is measured from date of hire to July 1, 2006.

For vesting purposes, each participant is granted service for each year and fractional year of employment from their initial hire date.

No Benefit Service will be granted after December 31, 2013 except to covered employees in the grandfathered group of employees who have elected to continue such service accruals.

Grandfathered Employees

A listing of grandfathered employees is provided in Appendix C of the Plan document. A participant is grandfathered in accruals as of December 31, 2013 if they had either 1) attained age 55 or 2) attained age plus vesting service of 64.75.

Summary of Plan Provisions

Monthly Accrued Benefit

The monthly benefit payable at Normal Retirement Date is equal to (a) minus (b) minus (c) below:

- (a) \$36.00 multiplied by the sum of Benefit Service plus Prior Benefit Service
- (b) the Altivity Plan monthly accrued benefit payable at Normal Retirement Date
- (c) the Smurfit Plan monthly accrued benefit payable at Normal Retirement Date

Normal Retirement

A Participant's Normal Retirement Date is the first of the month coincident with or next following the Participant's 65th birthday.

Early Retirement

A Participant hired before January 1, 2004 may retire early on or after attaining age 55 and completing 15 years of Vesting Service. A Participant hired on or after January 1, 2004 may retire early on or after attaining age 55 and completing 10 years of Vesting Service. The benefit payable at Early Retirement is the Monthly Accrued Benefit before the Altivity and Smurfit reductions, reduced by 0.5% for each month prior to Normal Retirement Date. However, for those participants hired before January 1, 2004 and who have at least 30 years of Vesting Service, the 0.5% per month reduction will only apply for months prior to age 62. This amount is reduced by (a) plus (b):

- (a) the monthly benefit payable under the Smurfit payable at Early Retirement
- (b) the monthly benefit payable under the Altivity plan payable at Early Retirement.

Disability Retirement

A Participant who becomes disabled after 10 years of Vesting Service is eligible for an immediate monthly retirement benefit equal to:

- (a) the monthly benefit rate multiplied by Benefit Service and Prior Benefit Service, less
- (b) the monthly benefit payable under the Smurfit plan assuming the participant elects to retire at their earliest eligible date under that plan, less
- (c) the monthly benefit payable under the Altivity plan assuming the participant elects to retire at their earliest eligible date under that plan.

Delayed Retirement

A Participant who remains in employment beyond their Normal Retirement Date will be supplied a suspension of benefits notice and will not commence payment of benefits until their Delayed Retirement Date. At that date the accrued benefit will be based on Service earned through the Delayed Retirement Date.

Summary of Plan Provisions

Vested Benefit

A Participant who terminates employment for any reason other than retirement, death, or disability, and after completing five years of vesting service, is entitled to a monthly retirement benefit deferred to Normal Retirement Date and determined as of the date of termination. Monthly benefits may commence early in the same manner as provided for early retirement benefits.

Pre-Retirement Death Benefit

The spouse of a vested participant will receive a benefit which would have been payable to the spouse assuming the employee a) survived to his earliest retirement date, b) retired and elected the Qualified Joint and Survivor option, and c) died.

Form of Payment

The normal form of payment is a Single Life Annuity if single, and a reduced Joint and 50% Survivor if married. Other optional forms available include a Joint and Survivor with 50%, 66-2/3%, 75% and 100% continued, and a 10-Year Certain and Life. Optional forms are converted from the normal form using 8% interest and the 1983 Group Annuity Mortality Table weighted 50% male and 50% female.
