Independent Auditor's Report

Retirement Plan Committee
SmithBucklin Employee Retirement Plan

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of SmithBucklin Employee Retirement Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of December 31, 2024 and 2023, the related statement of changes in net assets available for benefits for the year ended December 31, 2024, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from qualified institutions as of December 31, 2024 and 2023, and for the year ended December 31, 2024, stating that the certified investment information, as described in Note 5 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section:

- The amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP).
- The information in the accompanying financial statements related to assets held by and certified to by qualified institutions agrees to, or is derived from, in all material respects, the information prepared and certified by institutions that management determined meet the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Emphasis of Matter—Investments

As discussed in Note 10, the financial statements include an investment representing 64.5% and 63.5% of total assets as of December 31, 2024 and 2023, respectively, whose fair value has been estimated by an independent appraisal, in the absence of readily ascertainable fair values, with the assistance of management and approved by the trustee. Because of the inherent uncertainty of the valuation, the estimated value may differ significantly from the value that would have been used had a market for the investment existed, and the difference could be material. Our opinion is not modified with respect to this matter.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with U.S. GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date that the financial statements are issued or available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of U.S. GAAP.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with U.S. GAAP.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter—Supplemental Schedules Required by ERISA

The supplemental schedules of Schedule H, line 4i—schedule of assets (held at year end) as of December 31, 2024, and Schedule H, line 4j—schedule of reportable transactions for the year ended December 31, 2024, are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedules, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedules that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, other than the information agreed to or derived from the certified investment information, including their form and content, are presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- The form and content of the supplemental schedules, other than the information in the supplemental schedules that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.
- The information in the supplemental schedules related to assets held by and certified to by qualified institutions agrees to, or is derived from, in all material respects, the information prepared and certified by institutions that management determined meet the requirements of ERISA Section 103(a)(3)(C).

SmithBucklin Employee Retirement Plan

Notes to Financial Statements

Note 1. Plan Description

The following brief description of SmithBucklin Employee Retirement Plan (the Plan) provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General: SmithBucklin Corporation and its participating subsidiaries (collectively referred to as SmithBucklin, or the Company) established the SmithBucklin Employee Stock Ownership Plan (the ESOP), effective as of January 1, 2005, and amended and restated the Plan effective January 1, 2007, and January 1, 2014. The initial purchase of SmithBucklin common shares occurred on June 24, 2005. The Plan is a defined contribution plan available to qualifying employees of SmithBucklin. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). Effective January 1, 2007, the SmithBucklin Corporation 401(k) Plan (the 401(k) Plan) became a subsidiary plan under the ESOP creating a combined plan (the Plan).

The Plan is administered by SmithBucklin. The trustee for the ESOP portion of the Plan is GreatBanc Trust Company (GreatBanc) and the trustee for the 401(k) portion of the Plan is Principal Trust Company. The contributions are held and managed by Principal Trust Company, which invests plan income and makes distributions to participants.

Eligibility: The Plan covers substantially all non-union employees of the Company. There is no service requirement, and employees aged 18 and over are generally eligible to participate in the Plan on the first day of the month following their date of hire.

The Plan includes an auto-enrollment provision, whereby all newly eligible employees are automatically enrolled in the 401(k) portion of the Plan unless they affirmatively elect not to participate in the Plan within 30 days of their date of eligibility. Automatically enrolled participants have their deferral rate set at 5% of eligible compensation, and their contributions invested in a designated target end date fund until changed by the participant.

Contributions: Within the 401(k) portion of the Plan, participants may contribute up to 80% of their pretax annual compensation, inclusive of base pay and overtime earnings only. The Plan does not currently permit participants to make after-tax contributions. Participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans.

The Company may contribute a Company match equal to a percentage (as determined by the Company's Board of Directors) of pre-tax contributions; however, that amount shall not exceed 7% of eligible compensation. For the year ended December 31, 2024, the Company contributed a match equal to 100% up to the first 4% of eligible compensation, plus 50% on the next 6% of eligible compensation, not exceeding 7% of eligible compensation in total. The Company match will not be made on catch-up contributions. Company match made in the form of cash will be held in the Company Cash-Match Account in the 401(k) portion of the Plan. Generally, participants may not shift Company match balances from one portion of the Plan to another. In certain instances, as defined by the Plan, cash contributions are invested at the direction of the Retirement Plan Committee. The Company match totaled \$3,387,517 for the year ended December 31, 2024. The Company contribution was offset by forfeitures in the amount of \$175,635. The employer contribution receivable of \$3,211,882 at December 31, 2024 was deposited into the Plan on April 8, 2025. Of these funds, \$2,962,531 was used to purchase Company stock for participants who were eligible to participate in the internal market. The employer contribution receivable of \$3,305,489 at December 31, 2023, was deposited into the Plan on April 11, 2024. Of these funds, \$2,977,571 was used to purchase Company stock for participants who were eligible to participate in the internal market. The remainder will remain in the employees' individual accounts in the 401(k) portion of the Plan.

SmithBucklin Employee Retirement Plan

Notes to Financial Statements

Note 1. Plan Description (Continued)

The Company may also elect to make discretionary contributions to the Plan. Participants must be employed by the Company on the last day of the plan year in order to receive any discretionary and/or match contributions. Under certain conditions, as defined, discretionary contributions may be used to purchase Company stock. There were no discretionary Company contributions made during the year ended December 31, 2024.

Participant accounts: The Plan is a defined contribution plan under which a separate individual account is established for each participant. Each participant's account is credited with the participant's contribution and any Company matching contributions, as well as allocations of any Company discretionary contributions and plan earnings. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on the participant's earnings, account balance or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. All shares held by the Plan are allocated to participant accounts, and there were no unallocated assets or liabilities as of December 31, 2024 and 2023.

Investment options: A participant may direct their contributions into the 401(k) Plan in the permitted investment options.

Payment of benefits: Distributions on account of death, disability or retirement are made in a lump-sum or rollover distribution with respect to vested account balances in the 401(k) portion of the Plan.

The vested account balances held in stock in the ESOP portion of the Plan are liquidated on behalf of participants (or the participants' beneficiaries) no later than one year after the end of the plan year in which the participant terminates employment.

Such liquidation will typically occur in the full number of shares held, though the Company may pay in installments over a period not to exceed four years. The proceeds of all liquidations are then transferred to the 401(k) portion of the Plan and available for distribution to participants (or the participants' beneficiaries).

Put option: Under federal income tax regulations, the Company common stock that is held by the Plan and its participants, and is not readily tradable on an established market, or which is subject to trading limitations, includes a put option. The put option is a right to demand that the Company buy any shares of its stock distributed to participants for which there is no market. The put price is representative of the fair market value of the stock. The Company can pay for the purchase plus interest over a period not exceeding five years. The purpose of the put option is to ensure that the participant has the ability to ultimately obtain cash.

SmithBucklin common stock is not readily tradable on an established securities market; therefore, former participants who received benefits in the form of SmithBucklin common stock shares may require the Company to purchase the shares within two 60-day periods, the first of which begins on the distribution date. The second put option period begins on the first anniversary of the payment date.

Diversification: Diversification is offered to participants close to retirement so that they may have the opportunity to move part of the value of their investment in Company stock into investments which are more diversified. Participants who have reached at least 55 years of age with at least 10 years of participation in the Plan may elect to diversify a portion of their account. Diversification is offered to each eligible participant over a six-year period. In each of the first five years, a participant may diversify up to 25% of the number of shares allocated to their account, less any shares previously diversified. In the sixth year, the percentage changes to 50%. Proceeds of the diversification are deposited into the 401(k) portion of the Plan. Upon approval of the Board of Directors, a participant may make a special diversification election in connection with the internal market for that plan year, as defined in the plan document.

Notes to Financial Statements

Note 1. Plan Description (Continued)

Vesting: Participants are immediately vested in their participant-directed and rollover contributions, plus actual earnings thereon. As amended on June 29, 2022, effective January 1, 2023, and for employees terminated after January 1, 2023, vesting in the Company matching contributions and earnings thereon vest over a four-year period as follows:

Years of Service	Percent of Vested Account Balance
Less than 1 year	0%
1 year	25%
2 years	50%
3 years	75%
4 years or more	100%

For employees terminated before January 1, 2023, vesting in the Company matching contributions and any discretionary contributions and earnings thereon vested over a five-year period as follows:

Years of Service	Percent of Vested Account Balance
Less than 2 years	0%
2 year	20%
3 years	60%
4 years	80%
5 years or more	100%

Voting rights: Each participant is entitled to exercise voting rights consistent with their status as beneficial owners attributable to the shares allocated to their account. Unallocated shares and allocated shares for which participants have not exercised their beneficial owner voting rights, are voted by the trustee with direction from the Retirement Plan Committee to the extent applicable.

Notes receivable from participants: Subject to approval by the Plan Administrator, the Plan allows each participant to borrow a minimum amount of \$1,000, and a maximum amount not to exceed the lesser of 50% of the participant's vested 401(k) balance or \$50,000, reduced by the highest outstanding loan balance during the previous 12-month period. A participant may have no more than two loans outstanding at any given time. The loan term may not exceed five years unless it is for the purchase of a principal residence, in which case it may not exceed 10 years. The loans are secured by the balance in the participant's account, and bear interest at a commercially reasonable interest rate, initially set at prime plus 1%. Interest rates on current loans outstanding range from 4.25% to 9.50%. Principal and interest are paid ratably through payroll deductions.

Forfeitures: Upon termination of employment, any amounts not vested are forfeited. Forfeitures and earnings thereon may be used to reduce future Company matching contributions or be used to pay any administrative expenses of the Plan. Upon retirement, disability or death, or in the event of a full or partial plan termination, the full amount of each participant's 401(k) account becomes fully vested and nonforfeitable. The plan forfeitures used to fund the Company contribution were approximately \$176,000 for the year ended December 31, 2024. As of December 31, 2024 and 2023, there were no unused forfeitures after Company contributions were offset.

Notes to Financial Statements

Note 1. Plan Description (Continued)

Other income: Pursuant to the service agreements with Principal Financial Group, Principal Financial Group agreed to make revenue sharing payments to the Plan. For the year ended December 31, 2024, \$259,815 was earned by the Plan under this agreement, which were all used to pay administrative expenses of the Plan. As of December 31, 2024 and 2023, there was no balance in the revenue sharing account.

Note 2. Significant Accounting Policies

Basis of accounting: The accompanying financial statements of the Plan are prepared on the accrual basis of accounting.

Accounting estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein. Actual results could differ from those estimates.

A significant estimate used in the preparation of these financial statements is the valuation of the SmithBucklin common stock recorded at its fair value for which the ultimate realization of the investments is based upon future economic factors related to the investment.

For the aforementioned estimate, it is reasonably possible that the recorded amounts or related disclosures could significantly change in the near future as new information is available about the value of SmithBucklin common stock, which represents a significant investment of the Plan.

Investment valuation and income recognition: Investments are reported at fair value (except for fully benefit-responsive investment contracts, which are reported at contract value). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Retirement Plan Committee determines the Plan's valuation policies utilizing information provided by the investment advisors, custodians and insurance company. See Note 3 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold, as well as held, during the year.

The investment in SmithBucklin common stock is valued as of December 31, 2024 and 2023, at \$156,301,540 and \$152,097,732 (\$242.00 per share and \$212.70 per share), respectively, based upon an appraisal performed by an independent valuation firm and approved by the trustee for the ESOP portion of the Plan. See Note 3 for discussion of fair value measurements.

Payment of benefits: Benefit payments to participants are recorded when paid.

Contributions: Contributions from Plan participants and the matching contributions from the Company are recorded in the year in which participant compensation is earned.

SmithBucklin Employee Retirement Plan

Notes to Financial Statements

Note 2. Significant Accounting Policies (Continued)

Notes receivable from participants: Notes receivable from participants are measured at their unpaid principal balance, plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2024 or 2023. If a participant ceases to make loan repayments and the Plan Administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded. Notes receivable from participants have been classified as an investment asset for Form 5500 reporting purposes and, accordingly, have been included as an investment in the supplemental schedule of assets (held at end of year).

Administrative expenses: Certain expenses of maintaining the Plan are paid directly by the Company, and are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account, and are included in administrative expenses. Investment related expenses are included in net appreciation in fair value of investments.

Transfers in/out: Transfers for the current year include the following: (a) transfer of \$158,742 of the forfeiture balance classified as participant-directed to the nonparticipant-directed portion of the Plan, which represents an additional amount of the prior-year receivable that was used to purchase Sponsor company stock for participants in the current year, (b) transfer of \$50,102 to the nonparticipant-directed portion of the Plan, which represents the investment income from the employer match deposit date through the internal market trade date, (c) transfer from the nonparticipant-directed portion of the Plan to the participant-directed portion of the Plan in the amount of \$22,167,953, representing the value of shares diversified and value of shares distributed during the plan year of 9,285.6691 shares and 93,926.7035 shares, respectively, which were recycled back to the Plan, and (d) transfer from the participant-directed portion of the Plan to the nonparticipant-directed portion of the Plan in the amount of \$4,117,284, which represents the purchase of 19,169.7733 of Sponsor company stock on July 19, 2024, through the internal market using participant-contributed funds to the Plan.

Subsequent events: The Sponsor has evaluated subsequent events for potential recognition and/or disclosure through September 23, 2025, the date the financial statements were available to be issued.

Note 3. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets
- Quoted prices for identical or similar assets or liabilities in inactive markets
- Inputs other than quoted prices that are observable for the asset or liability
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

SmithBucklin Employee Retirement Plan

Notes to Financial Statements

Note 3. Fair Value Measurements (Continued)

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2024 and 2023:

Common stock: Investments in SmithBucklin common stock are valued by an independent appraiser as of the last day of each calendar year.

Shares of registered investment companies: Valued at the daily closing prices as reported by the fund. Registered investment companies held by the Plan are open-ended funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The shares of registered investment companies held by the Plan are deemed to be actively traded. As fair values are readily determinable in active markets, these funds are classified within Level 1 of the valuation hierarchy.

Pooled separate accounts: Investments in shares of pooled separate accounts held with an insurance company are stated at estimated fair market value and are valued by the insurance company based on the NAV of shares held by the Plan at year-end. The NAV is determined by the insurance company based on the market value of the underlying investments held in the pooled fund.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2024 and 2023:

	2024			
	Level 1	Level 2	Level 3	Total
Investments in the fair value hierarchy:				
Shares of Sponsor company common stock	\$ -	\$ -	\$ 156,301,540	\$ 156,301,540
Shares of registered investment companies	65,440,542	-	-	65,440,542

Investments measured at NAV (a)				11,337,824
Investments at fair value				<u>\$ 227,484,847</u>

(a) In accordance with Subtopic 820-10, certain investments that are measured at NAV per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statements of net assets available for benefits.

SmithBucklin Employee Retirement Plan

Notes to Financial Statements

Note 3. Fair Value Measurements (Continued)

The following table summarizes investments measured at fair value based on NAV per unit as of December 31, 2024 and 2023:

Investment	2024	2023	Unfunded Commitment	Redemption Frequency	Redemption Notice Period
Pooled separate accounts	\$ 13,804,012	\$ 11,337,824	\$ -	Daily	None
	<u>\$ 13,804,012</u>	<u>\$ 11,337,824</u>	<u>\$ -</u>		

Changes in fair value levels: To assess the appropriate classification of investments within the fair value hierarchy, the availability of market data is monitored. Changes in economic conditions or valuation techniques may require the transfer of investments from one fair value level to another.

Plan management evaluates the significance of transfers between levels based upon the nature of the investment and size of the transfer relative to total net assets available for benefits. For the year ended December 31, 2024, there were no significant transfers in or out of Level 3 investments.

The table below sets forth a summary of additions and deductions of the Plan's Level 3 assets for the year ended December 31, 2024:

	Common Stock
Match shares approved in 2023 delivered in 2024	\$ 3,186,415
Participant-directed share purchases	4,117,284
Distribution and diversification of shares	(22,167,593)

Quantitative information about significant unobservable inputs used in Level 3 fair value

measurements: The following table represents the Plan's Level 3 financial instruments, the valuation techniques used to measure the fair value of those financial instruments and the significant unobservable inputs and the ranges of values for those inputs. The two approaches were equally weighted in the analysis.

Description	Fair Value		Valuation Techniques	Unobservable Inputs
	2024	2023		
Sponsor company				
common stock	\$ 156,301,540	\$ 152,097,732	Discounted cash flow	10-year model that discounts projected annual debt-free cash flows of the Company. Discount for lack of marketability.
			Guideline company comparables	Identification of four to five public companies sharing similar characteristics to SmithBucklin Corporation. Comparable company multiples have been discounted for advantages over SmithBucklin Corporation such as access to debt and equity markets, size and product diversification. Discount for lack of marketability.

Note 3. Fair Value Measurements (Continued)

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Note 4. Investments and Transactions with Sponsor

The fair value of SmithBucklin common stock was \$242.00 and \$212.70 per share based upon the December 31, 2024 and 2023, appraised values, respectively.

Information about the Plan's investment in the Company's common stock at December 31, 2024, is as follows:

	2024	2023
Beginning of year shares	715,081.0150	734,729.6400
Shares sold	(69,206.8841)	(19,648.6250)

Note 6. Guaranteed Investment Contract

The Plan invests in a traditional fully benefit-responsive guaranteed investment contract with Principal Life Insurance Company (Principal) totaling \$3,248,626 and \$8,096,594 December 31, 2024 and 2023, respectively. Principal maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan. The crediting rate is based on a formula established by the contract issuer and is defined as being equal to the sum of (a) the aggregate of the values of each Guaranteed Interest Fund for which the deposit periods have closed, (b) the expected value of any Guaranteed Interest Fund for which the deposit period has not closed, and (c) the expected value of any Guaranteed Interest Fund for the deposit period the composite crediting rate is being determined, rounded to the nearest five basis points. The crediting rate is reviewed on a quarterly basis for resetting. The guaranteed investment contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

This contract meets the fully benefit-responsive investment contract criteria and, therefore, is reported at contract value. Contract value is the relevant measure for fully benefit-responsive investment contracts because this is the amount received by participants if they were to initiate permitted transactions under the terms of the Plan. Contract value, as reported to the Plan by Principal, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

The Plan's ability to receive amounts due is dependent on the issuer's ability to meet its financial obligations. The issuer's ability to meet its contractual obligations may be affected by future economic and regulatory developments.

Certain events might limit the ability of the Plan to transact at contract value with the issuer. Such events include (1) amendments to the plan documents (including complete or partial plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Plan Sponsor or other Plan Sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA, or (5) premature termination of the contract. No events are probable of occurring that might limit the ability of the Plan to transact at contract value with the contract issuers, and that also would limit the ability of the Plan to transact at contract value with the participants.

In addition, certain events allow the issuer to terminate the contract with the Plan and settle at an amount different from contract value. Such events include (1) an uncured violation of the Plan's investment guidelines, (2) a breach of material obligation under the contract, (3) a material misrepresentation, or (4) a material amendment to the agreement without the consent of the issuer.

SmithBucklin Employee Retirement Plan

Notes to Financial Statements

Note 7. Income Tax Status

The Internal Revenue Service has determined and informed the Company by a letter dated February 13, 2015, that the Plan is designed in accordance with applicable sections of the Internal Revenue Code (IRC). The Plan has been amended since receiving the determination letter. The Plan Administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and, therefore, believes that the Plan is qualified, and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 8. Plan Termination

Although it has not expressed any intent to do so, the Sponsor has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants would become 100% vested in their accounts. Any unallocated assets of the Plan would be allocated to participants' accounts and distributed in such a manner as the Sponsor may determine. The SmithBucklin Retirement Plan Committee will direct the trustee to distribute the assets remaining in the trust fund, after payment of any expenses, to participants in accordance with the plan provisions.

Note 9. Related-Party and Party-In-Interest Transactions

The Plan held shares of SmithBucklin common stock at December 31, 2024 and 2023, valued at \$156,301,540 and \$152,097,732, respectively. The investment qualifies as a party-in-interest transaction, which is exempt from the prohibited transaction rules of ERISA.

Certain plan investments are managed by Principal Life Insurance Company and Principal Trust Company. GreatBanc Trust Company and Principal Trust Company are the trustees, as defined by the Plan, and Principal Financial Group provides certain recordkeeping and administrative services to the Plan. These organizations are considered to be parties in interest under ERISA.

Certain employees of the Company provide administrative services to the Plan. These employees are not paid by the Plan for their services. Notes receivable from participants also qualify as exempt party-in-interest transactions.

Note 10. Risks and Uncertainties

The Plan invests in various investment securities, including Company stock. Investment securities are exposed to various risks, such as interest rate, market and credit risks, as well as valuation assumptions based on earnings, cash flows and other such techniques. Due to the level of risk associated with certain investment securities, and to uncertainties inherent in estimates and assumptions, it is at least reasonably possible that changes in the value of investment securities will occur in the near-term, and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits. As of December 31, 2024 and 2023, 64.5% and 63.5% of the Plan's total assets, respectively, were invested in shares of the Company common stock.
