INDEPENDENT AUDITOR'S REPORT

Mid-Continental Restoration Company, Inc.
Employee Stock Ownership Plan & Trust
Fort Scott, Kansas

Opinion

We have audited the accompanying financial statements of Mid-Continental Restoration Company, Inc. Employee Stock Ownership Plan & Trust, an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statements of net assets available for benefits as of December 31, 2024 and 2023, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of Mid-Continental Restoration Company, Inc. Employee Stock Ownership Plan & Trust as of December 31, 2024 and 2023, and the changes in its net assets available for benefits for the years then ended, in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Mid-Continental Restoration Company, Inc. Employee Stock Ownership Plan & Trust and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Mid-Continental Restoration Company, Inc. Employee Stock Ownership Plan & Trust's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an

auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Mid-Continental Restoration Company, Inc. Employee Stock Ownership Plan & Trust's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Mid-Continental Restoration Company, Inc. Employee Stock Ownership Plan & Trust's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplemental Schedules Required by ERISA

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The Schedule of Assets Held at End of Year as of December 31, 2024 is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with generally accepted auditing standards.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, including their form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying schedules is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

MID-CONTINENTAL RESTORATION COMPANY, INC.
EMPLOYEE STOCK OWNERSHIP PLAN & TRUST

Fort Scott, Kansas

Notes to the Financial Statements

December 31, 2024 and 2023

NOTE A: DESCRIPTION OF THE PLAN

The following brief description of Mid-Continental Restoration Company, Inc. Employee Stock Ownership Plan (Plan) is provided for general information purposes only. Participants should refer to the Plan agreement for complete information.

Mid-Continental Restoration Company, Inc. (Company) established the plan effective March 1, 1975. The Plan was last amended and restated effective as of January 1, 2013 and was further amended by five separate amendments dated December 30, 2008, November 30, 2009, November 30, 2010, August 15, 2012, and January 1, 2013; and operates as an employee stock ownership plan (ESOP) and is designed to comply with Section 4975(e)(7) and the regulations thereunder of the Internal Revenue Code of 1986, as amended (IRC), and is subject to the applicable provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Plan is administered by an independent third party that reports directly to the Company's board of trustees.

Eligibility – Participants will be eligible to participate in the Plan from and after the entry date (each January 1 and July 1) coinciding with or next following the date on which you have completed one (1) year of service. For purposes of eligibility, participants will have completed a one year of service if, at the end of their first twelve consecutive months of employment with the Company, and have been credited with 1,000 hours of service. If the participants have not been credited with 1,000 hours of service by the end of their first twelve consecutive months of employment, they will have completed a year of service at the end of any following Plan Year during which they were credited with 1,000 hours of service.

Contributions – The Plan is fully funded by cash contributions and S corporation distributions, which are then used to purchase shares of company stock. The contribution for each year will be divided among the accounts of eligible Participants in the proportion that each such Participant's covered compensation, as defined in the Plan, for that year bears to the covered compensation of all such Participants. S Corporation distributions will be divided among all Participants who have company stock account balances in the Plan as of the preceding anniversary date. The S Corporation distributions paid on allocated shares shall be allocated in the proportion that the cumulative number of shares in a Participant's company stock account as of the preceding anniversary date bears to the total cumulative shares of company stock allocated to all Participants as of that date.

Payment of Benefits – Distributions on account of death, disability, or retirement are made in a lump sum in the Plan year following the event. The benefit to which a participant is entitled is provided from the vested portion of a participant's account balance. Upon termination of service, if a participant's vested account balance does not exceed \$5,000.00, the vested value is distributed in the form of a lump-sum payment. If the vested balance does not exceed \$1,000.00, no distribution form is required. If the vested account balance exceeds \$5,000.00, and the participant is not reemployed before the end of the fifth plan year following the plan year in which they separated from service, distribution of their accounts will commence as soon as administratively feasible during the sixth plan year following the separation from service. Distribution

NOTE A: DESCRIPTION OF THE PLAN (Continued)

Payment of Benefits (Continued) - of such accounts will be made in substantially equal annual installments over a period of five years; if the value of such accounts exceeds \$1,035,000.00, as indexed, the term of the distribution shall be five years, plus one year (but not more than five additional years) for each \$205,000.00 (or fraction thereof), by which the value of such accounts exceeds \$1,035,000.00. On termination of service due to death, disability, or normal retirement, distribution of plan benefits will commence during the plan year following the plan year in which they separated from service.

Administrative Expenses - As provided in the Plan agreement, administrative expenses will be paid by The Company which is a flat fee to the third party administrator plus the fees for the investment advisor and the audit on behalf of the Plan.

Voting Rights - Each participant has the right to direct the Trustee with respect to the voting of all shares of company stock, vested or non-vested, which are included in their participant account balance. The Trustee receives instructions from the plan committee, and all company stock held by the trust is voted by the Trustee in accordance with instructions from the plan committee. Notwithstanding the foregoing, Participants shall be entitled to direct the voting of any voting shares of company stock allocated to their company stock account with respect to any vote required for the approval or disapproval of any corporate merger or consolidation, recapitalization, reclassification, liquidation, dissolution, or sale of substantially all the assets of a trade or business. In accordance with instructions from the plan committee, the Trustee shall vote any unallocated shares held by the trust as well as any allocated shares for which a Participant has failed to give timely voting direction.

Participant Accounts - The Plan is a defined contribution plan under which a separate individual account is established for each participant. Each participant's account is credited as of the last day of each Plan year with an allocation of shares of the forfeitures of terminated participants' non-vested accounts. Only those participants who are eligible employees of the Company as of the last day of the Plan year will receive an allocation. Allocations are based on a participant's eligible compensation, relative to total eligible compensation. Plan earnings are allocated to each participant's account based on the ratio of the participant's account balance.

Vesting - Participants become vested in the Company contributions and earnings thereon in accordance with the following schedule:

<u>Years of Service in the Plan</u>	<u>Percentage of Accounts Vested</u>
Less than Two Years	0%
Two Years	20%
Three Years	40%
Four Years	60%
Five Years	80%
Six Years	100%

The remaining unvested account balance becomes fully vested in the event of death, or disability, if still employed at such date.

NOTE A: DESCRIPTION OF THE PLAN (Continued)

Put Option - Under federal income tax regulations, the employer stock that is held by the Plan and its participants and is not readily tradable on an established market, or is subject to trading limitations, includes a put option. The put option is a right to demand that the Company buy any shares of its stock distributed to participants for which there is no market. The put price is representative of the current appraised value of the stock. The Company can pay for the purchase with interest over a period of five years. The purpose of the put option is to ensure that the participant has the ability to ultimately obtain cash.

Diversification - Diversification is offered to participants close to retirement so that they may have the opportunity to move part of the value of their investment in Company common stock into investments that are more diversified. When participants have completed ten (10) Years of Service as a participant and have attained age fifty five (55), participants will have the right to diversify the investment of a portion of their account attributable to Company Stock. If a diversification election is made, the Trustee will make a cash distribution equal to the value of the shares of Company Stock diversified. It is offered over a 6-year period, where a participant can diversify up to 25 percent of their total shares allocated to their account less any shares previously diversified since they entered the plan over the first five years, and then 50 percent of that amount in the 6th year.

Forfeitures - Any participant who terminates employment will forfeit the non-vested portion of their account balance. A forfeiture will occur at the earlier of the date the participant has received a distribution from the Plan or after five consecutive one year breaks in service. The balance of such forfeitures will be allocated to remaining participant accounts. Forfeitures for the year ended December 31, 2024 and 2023 were \$3,992.44 and \$4,235.40, respectively.

NOTE B: SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Actual results could differ from those estimates.

Cash

Cash represents amounts held in the Plan's custodial account with UMB Bank pending investment in employer securities or insurance contracts, or pending payment of benefits and administrative expenses. Cash is stated at cost, which approximates fair value. Because cash balances are considered temporary holdings and not long-term plan investments, they are excluded from the Schedule of Assets Held at End of Year.

Investment Valuation and Income Recognition

The shares of Company common are reported at fair value. See Note C for discussion of the fair value measurements. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

NOTE B: SIGNIFICANT ACCOUNTING POLICIES (Continued)

Operating Expenses

All expenses of maintaining the Plan are paid by the Company.

Certain administrative functions are performed by officers or employees of the Corporation. No such officer or employee receives compensation from the Plan. Administrative expenses for the Trustee's fees are paid directly by the Corporation.

Benefit Payments

Benefit payments are recorded when paid.

NOTE C: FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active Markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2024 and 2023.

NOTE C: FAIR VALUE MEASUREMENTS (Continued)

Company Stock: The Company common stock held by the Plan is reported at fair value based upon an appraisal. Three approaches are generally considered in the valuation of a business entity – the market, income and cost approaches. Particular attention is paid to the appropriate discounts and premiums for majority control, minority interest and lack of marketability. The approaches are described below:

1. Market Approaches

a. Capital Market Method – This method utilizes the premise that the value of the business should be determined based on what astute and rational capital market investors pay to own the stock of similar guideline companies. Public companies are required to disclose detailed financial information. The capital market method is, therefore, an appropriate valuation approach in cases, where publicly-traded guideline companies are available. Capital market ratios of publicly-traded guideline companies are utilized to estimate the value of the subject firm.

b. Transactional Market Method – The value of the business is determined by comparing the subject firm to guideline firms that have been purchased or sold during a reasonably recent period of time. Several databases are accessed in our search for data on these transactions. The transactional market method is often limited by the quantity and quality of financial information on acquisitions of guideline companies. In many cases, financial information is not available because the acquired company is privately held.

2. Income Approach – Utilizing a discounted cash flow analysis, this approach is based on the premise that the value of the business is the present value of the future cash flow to be obtained by the owners of the business. This approach requires analysis of revenue, expense, working capital, financing, investment, capital structure, residual value and discount rate (including business risk). Another method is the direct capitalization of cash flow. This method is similar to the discounted cash flow in that a risk-adjusted discount rate is used along with a growth rate to convert a cash flow or cash flow stream to a present value.

3. Asset Approach – The asset approach provides an indication of value by development a fair market value balance sheet. All assets are identified and listed at fair value, with intangible assets being determined either collectively or discreetly. Restating all liabilities to fair market value and subtracting this amount from the fair market value of assets yields the fair market value of equity for the company.

Value indications developed in applying methodologies appropriate to the Company are weighed and reconciled with other facts depending upon the type of business being appraised, and the quantity and quality of the data available in order to form a conclusive opinion of value.

All three methods were used to estimate the value of Mid-Continental Restoration Company, Inc. common stock.

The valuation process involves the selection of an appraiser under contract for a term of three years with the right to cancel such contract at any time. Plan management accumulates the data for the appraiser from historical and projected financial information of the Company. The appraiser prepares a report of estimated per share value that a participant will receive upon distribution. Management along with the assistance of a third party administer review and approve the report

NOTE C: FAIR VALUE MEASUREMENTS (Continued)

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Insurance General Account: Is reported at the net cash surrender value as calculated and provided by the insurance company.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2024 and 2023.

NOTE D: RELATED PARTY AND PARTY IN INTEREST TRANSACTIONS

The Plan invests in Company common stock. This is a related party and party in interest transaction. As described in note A, the Company pays all plan expenses.

The Plan has a number of service providers. Such providers are parties in interest under ERISA. They are the following: Principal, the Plan's third party administrator, UMB Bank, NA, custodian of plan cash, Stern Brothers Valuation Advisors, who performs the valuation of company stock, and Jarred, Gilmore, and Phillips, PA, the Plan auditor.

NOTE E: RISKS AND UNCERTAINTIES

The Plan investments consist primarily of the Company's common stock, which is exposed to various risks, such as interest rate, market, and credit risks, as well as valuation assumptions based on earnings, cash flows, and other such techniques. Due to the level of risk associated with the investment in the common stock and to uncertainties inherent in estimates and assumptions, it is at least reasonably possible that changes in the value of the common stock will occur in the near term and that such changes could materially affect the amounts reported in the statement of net assets available for benefits.

NOTE F: PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100 percent vested in their Plan account.

NOTE G: TAX STATUS

The Plan has received a determination letter from the IRS dated October 21, 2013, stating that the Plan is qualified under the IRC and, therefore, the related trust is exempt from taxation. Once qualified, the Plan is required to operate in conformity with the IRC to maintain its qualification. The Plan has been amended since receiving the determination letter. However, the Plan administrator believes that the Plan is currently designed, and being operated, in compliance with the applicable requirements of the IRC. Therefore, they believe that the Plan was qualified, and the related trust was tax-exempt as of the financial statement date.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2024, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

NOTE H: SUBSEQUENT EVENTS

The Plan evaluated events and transactions occurring subsequent to December 31, 2024 through September 22, 2025, the date the financial statements were available to be issued. During this period, there were no subsequent events requiring recognition in the financial statements. Additionally, there were no nonrecognized subsequent events requiring disclosure.
