To the Trustees of  
Legend Bank Employee Stock Ownership and 401(k) Plan  
Bowie, Texas

***Scope and Nature of the ERISA Section 103(a)(3)(C) Audit of the Financial Statements***

We have performed audits of the financial statements of Legend Bank Employee Stock ownership and 401(k) Plan ("the Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of December 31, 2024 and 2023, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audit need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of December 31, 2024 and 2023, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

***Opinion on the Financial Statements***

In our opinion, based on our audits and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section:

- The amounts and disclosures in the financial statements referred to above, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- The information in the financial statements referred to above related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

***Basis for Opinion on the Financial Statements***

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

### ***Responsibilities of Management for the Financial Statements***

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments; administering the plan; and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

### ***Auditor's Responsibilities for the Audit of the Financial Statements***

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

## Other Matters

### *Supplemental Schedule Required by ERISA*

The supplemental Schedule of Assets (Held at End of Year) as of or for the year ended December 31, 2024 is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with generally accepted auditing standards. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including their form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- The form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, is presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- The information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

**EMPLOYEE STOCK OWNERSHIP AND 401(K) PLAN**

NOTES TO FINANCIAL STATEMENTS

December 31, 2024 and 2023

**1. Description of the Plan**

The following description of the Legend Bank Employee Stock Ownership and 401(k) Plan (“the Plan”) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan’s provisions.

General

The Plan is a defined contribution benefit plan covering all eligible employees of Legend Bank, N.A. and its affiliated companies (the Company). The Plan, as amended and restated, was adopted on June 19, 2012 by the merger of the Legend Bank 401(k) Plan into the Legend Bank Employee Stock Ownership. The Plan was most recently amended effective January 1, 2024 to adopt certain requirements of the SECURE Act and IRS regulations affecting payments of benefits. The Plan is subject to the requirements of the Employee Retirement Income Security Act of 1974 (ERISA). The Plan is administered by the Benefits Committee of Legend Bank, N.A (“Benefits Committee”) which reports to the Plan’s Board of Trustees. The Benefits Committee determines the appropriateness of the Plan’s investment offerings and monitors the Plan’s investment performance.

The common stock of Legend Bank, N.A. (the Company) is 100% owned by Legend Bancorp, Inc., therefore, all Company common stock under the Plan is common stock of Legend Bancorp, Inc.

Eligibility

For purposes of Compensation Deferral, Safe Harbor Matching, and Matching Contributions, a covered employee becomes eligible to participate in the Plan upon attaining 21 years of age and completion of 90 days of employment (Eligibility Period).

For purposes of Profit Sharing and employee stock ownership plan (ESOP) contributions, a covered employee becomes eligible to participate in the Plan upon completion of an eligibility period in which the employee has been credited with at least 1,000 Hours of Service as defined in the Plan.

The Plan’s entry dates are January 1, April 1, July 1, and October 1 following satisfaction of eligibility requirements.

Contributions

Participants may elect to Pre-Tax 401(k) deferral contributions and Roth 401(k) deferrals contributions to the Plan through salary deductions, as defined in the Plan, not to exceed the maximum limitations imposed by the Internal Revenue Code (“the Code”). Participants who are eligible to make salary deferral contributions under the Plan and have attained age 50 before the close of the Plan year may make catch-up contributions in accordance with, and subject to the maximum limitation imposed by the Code. Participants may not elect for their deferral contributions to be used to purchase Company common stock. Participants may make contributions representing distributions from other qualified defined benefit or contribution plans (rollover contributions).

The Company makes a safe harbor match contribution in the form of a 401(k) fund match or in Company common stock, equal to 100% of a participant’s elective deferrals that do not exceed 6% of the participant’s eligible compensation. When appropriate Plan funding levels have been met, the Company match contribution may be used to purchase Company common stock for stock purchase participants in a manner prescribed in the Plan provisions.

The Company may also make a Profit Sharing contribution and an ESOP contribution to participants, at the sole discretion of the Company’s Board of Directors. The Profit Sharing Contribution and the ESOP contribution would be allocated to the 401(k) Component and the ESOP Component of the Plan, respectively, on a pro rata basis of participants’ eligible compensation. During 2024 and 2023, the Company did not make a discretionary Profit Sharing Contribution or ESOP contribution.

Notes Receivable from Participants

Participants may borrow from their 401(k) Portion of Plan accounts, a minimum of \$1,000 up to a maximum equal to the lesser of: (a) one-half of the participant’s vested account balance or (b) \$50,000 reduced by the participant’s greatest outstanding loan balance during the 12 months preceding the date of the loan. The loans are secured by the balance in the participant’s account and bear interest (priced at one percent plus prime rate) ranging from 4.25% to 9.50%, which is commensurate with local prevailing rates as determined by the Plan administrator. Loans are required to be repaid within five years of the date the loan proceeds are received except in the case of certain loans to acquire a principal residence, which may be repaid over a period not to exceed 20 years. Principal and interest are repaid ratably through periodic payroll deductions. Participants may have no more than two outstanding loans at any time.

**LEGEND BANK**  
**EMPLOYEE STOCK OWNERSHIP AND 401(K) PLAN**

Participant Accounts

Each participant's account is credited with the participant's contributions and discretionary contributions, and an allocation of plan earnings. Each participant's account is also charged for distributions and certain direct expenses. Allocations are based on participant account balances, as defined in the Plan. The benefit to which a participant is entitled is the vested benefit that can be provided from the participant's account.

Investment Options and Participant Accounts

Participants are allowed to direct the investment of their contributions and allocations of account balances in available investment options within the 401(k) Portion of the Plan. Participants may change their investment options at any time throughout the year via internet or direct phone access to the Benefit Plan Administrative Services, Inc. ("BPA") plan sponsor web site.

As permitted by the Plan, the Company may elect to invest any Company contributions in Company common stock without a participant's direction. Additionally, once such Company contributions have been invested in Company common stock, participants do not have the option to change the investment election. The investment in Company common stock may be limited by availability and limited to participants who are current employees. The Company may provide participants who are employees, supplemental opportunities to make a voluntary election to transfer non-vested account balances into the ESOP.

Vesting

Participants are immediately 100% vested in their salary deferral contributions, rollover contributions, and Safe Harbor contributions plus actual earnings (losses) thereon.

Vesting in the Company Matching Contribution, plus related earnings (losses) thereon are determined by continuous years of credited service based on the following vesting schedule:

<u>Years of Service</u>	<u>Vested Percentage</u>
Less than 3 years	0%
3 or more years	100%

Vesting in the discretionary Employer Basic Contribution plus related earnings (losses) thereon is determined by continuous years of credited service based on the following vesting schedule:

<u>Years of Vesting Service</u>	<u>Vested Percentage</u>
Less than 2 years	0%
2 but less than 3 years	20%
3 but less than 4 years	40%
4 but less than 5 years	60%
5 but less than 6 years	80%
6 or more years	100%

Payments of Benefits

On termination of service, a participant will receive benefits equal to the value of their vested account balance. Prior to January 1, 2024, if the vested benefit upon termination of employment in the Plan did not exceed \$5,000, the account balance would be distributed automatically (involuntary cash-out) in the form of a single lump-sum payment. Effective January 1, 2024, the Plan was amended to increase the involuntary cash-out limit to \$7,000.

Terminated participants with vested accounts balances exceed the involuntary cash-out limit, may elect to receive distributions of their 401(k) portion and stock purchase account in the form of a single lump-sum. The ESOP portion of such accounts are generally paid in a series of up to five annual installments and may also be paid in one lump-sum if approved by the Benefits Committee.

The normal retirement age is the date a participant attains 65 years of age. Participants who have attained the normal retirement age may elect to receive distributions from accounts that are 100% vested, without having to terminate their employment.

To comply with certain requirements of the SECURE Act and IRS regulations in effect at December 31, 2024, the Plan requires participants to take their first required minimum distribution (RMD) in the year they attain age 73. Effective January 1, 2024, for a participant who designates their spouse as the sole beneficiary, and becomes deceased before attaining the first RMD date, the spouse may elect to defer the RMD until the year in which the deceased spouse would have reached the RMD age.

**LEGEND BANK**  
**EMPLOYEE STOCK OWNERSHIP AND 401(K) PLAN**

Participants who are also active employees can request a hardship withdrawal up to their vested account balance, subject to certain requirements of the SECURE Act and IRS regulations which eliminated the need for the Plan to maintain substantiation documents for such withdrawals, and permit the Plan to rely on participants' certifications to support (1) a financial need that does not exceed the required amount, and (2) unavailability of other reasonable sources of income to meet the financial need, for such withdrawals.

Forfeitures

Terminated participants may forfeit the non-vested portion of their Employer Account balance. The Plan permits forfeited account balances to be reinstated to a participant's account in accordance with the Plan's reinstatement of forfeitures provisions. Forfeitures may be used to reinstate previously forfeited account balances, to reduce future Company contributions, to pay administrative expenses, or to be allocated to participant accounts.

Forfeited account balances are reinstated when a terminated participant is re-employed during the five-year period that began on the date of termination, and upon repayment of the entire vested account balance distributed to the participant at the time of termination. Reinstatement of forfeited Company common stock shall be based on the dollar value of the common stock forfeited, adjusted for subsequent gains or losses.

At December 31, 2024 and 2023, forfeited nonvested accounts totaled \$11,459 and \$3,112, respectively. During each of the years ended December 31, 2024 and 2023, the Plan did not use any forfeitures.

Voting Rights

Each participant is entitled to exercise voting rights attributable to the shares allocated to their account and is notified by the Trustee prior to the time that such rights are to be exercised. If the Trustee does not timely receive voting directions from a participant or beneficiary, the Trustee shall vote the shares on behalf of the collective best interest of the Plan participants and beneficiaries.

Limitation of Investment in Company Stock

The Company's Board of Directors has placed a maximum limit on Company common stock that the Plan can own. Accordingly, the Plan may not own more than 25% of Company common stock. At December 31, 2024 and 2023, the Plan owned approximately 15% of the total outstanding Company common stock during each of the years.

Put Option

Under federal income tax regulations, the Company common stock that is held by the Plan and its participants and is not readily tradable on an established market or is subject to trading limitations, includes a put option. The put option is a right to demand that the Company buy any shares of its stock distributed to participants for which there is no market. The put price is representative of the current value of the stock. The Company may pay the purchase price in a single cash payment or in substantially equal periodic payments over a period of five years. The purpose of the put option is to ensure the participant has the ability to ultimately obtain cash.

Diversification

Diversification is offered to participants close to retirement to provide them the opportunity to move part of the value of their investment in Company common stock into investments which are more diversified. Participants who are at least age 55 with at least 10 years of participation in the Plan may elect to diversify a portion of their account. Diversification is offered to each eligible participant over a six-year period. In each of the first five years, a participant may diversify up to 25 percent of the number of post-1986 shares allocated to their account, less any shares previously diversified. In the sixth year, eligible participants may elect to cumulatively diversify up to 50 percent of their ESOP account.

Participants who elect to diversify will have funds transferred to other investment options available under the 401(k) provisions of the Plan.

Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA. In the event of Plan termination, participants would become 100% vested in their employer contributions.

**2. Summary of Significant Accounting Policies**

Date of Management's Review and Subsequent Events

The Plan has evaluated events and transactions for potential recognition or disclosure through September 8, 2025, which is the date the financial statements were available to be issued.

Basis of Accounting

The financial statements of the Plan have been prepared on the accrual basis of accounting.

Investments held by a defined contribution plan are required to be reported at fair value, except for fully benefit-responsive investment contracts (FBRICS). Contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to FBRICS because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. Therefore, the statement of changes in net assets available for benefits has been prepared on a contract value basis for that portion related to FBRICS.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value, except for FBRICS, which are reported at contract value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Benefits Committee determines the Plan's valuation policies. See Note 5 for discussion of fair value measurements.

The net appreciation in the value of investments consists of the realized gains and losses on investments bought and sold as well as held during the year and unrealized appreciation (depreciation) of investments. The net change in unrealized appreciation (depreciation) in the value of investments is determined by the change in value from the beginning of the year to the end of the year or change in value from date of the purchase to the end of the year.

Purchases and sales of investments are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

The classification of investment earnings reported in the statement of changes in net assets available for benefits may differ from the classification of earnings on Form 5500 due to different reporting requirements on Form 5500.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2024 and 2023.

If a participant does not make loan repayments and the plan administrator considers the participant loan to be in default, the loan balance is reduced, and the delinquent note receivable from participant is recorded as a benefit payment based on the terms of the Plan document. All other loan transactions are treated as transfers between the investment fund and the participant loan fund.

The fair value disclosures for financial instruments are not required for participant loans. Also, participant loans continue to be considered as investments for Form 5500 reporting purposes.

**LEGEND BANK**  
**EMPLOYEE STOCK OWNERSHIP AND 401(K) PLAN**

Administrative Expenses

Officers or employees of the Company perform certain administrative functions for the Plan. However, such officers and employees receive no compensation from the Plan. Certain expenses of maintaining the Plan are paid by the Plan, unless otherwise paid by the Company. Expenses that are paid by the Company are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment-related expense fees are included in net appreciation in value of investments on the statement of changes in net assets available for benefits.

Payment of Benefits

Benefit payments to participants are recorded upon distribution.

Reclassification

Certain amounts reported in the prior year statement of net assets available for benefits have been reclassified to conform to the current format. The reclassification had no impact on net assets available for benefits and changes in net assets available for benefits.

**3. Information Certified by Trustee**

The following information included in the accompanying financial statements and supplemental schedule was obtained from data that has been prepared and certified to as complete and accurate by Hand Benefits & Trust Company, the custodian of Plan assets as agent for Benefit Plan Administrative Services, Inc. ("BPA"), the trustee of the Plan.

**EMPLOYEE STOCK OWNERSHIP AND 401(K) PLAN**

**4. Investment Contract with Insurance Company**

The Plan entered into a traditional fully benefit-responsive investment contract (“FBRIC”) under terms of a group annuity contract with Standard Insurance Company (“GIC”). Standard Insurance Company maintains the contributions in a general account, which is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The GIC issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan. The crediting interest rate is based on a formula agreed upon with the issuer, but it may not be less than 1%. Such interest rates are reviewed on a quarterly basis for resetting. The GIC does not permit the insurance company to terminate the agreement prior to the scheduled maturity date without reasonable cause.

Because the GIC is fully benefit-responsive, contract value is the relevant measure for the portion of net assets available for benefits attributable to the GIC. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. The contract value of the GIC at December 31, 2024 and 2023 was \$2,382,243 and \$1,831,252, respectively.

The Plan’s ability to receive amounts due is dependent on the issuer’s ability to meet financial obligations. The issuer’s ability to meet its contractual obligations may be affected by future economic and regulatory developments.

Certain events may limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the plan documents (including complete or partial plan termination, merger with another plan or corporate relocation, (2) bankruptcy of the plan sponsor or other plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the plan, (3) retirement incentive programs, (4) the liberalization of the plan withdrawal of transfer rules or (5) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The Plan administrator does not believe that any events which would limit the Plan’s ability to transact at contract value with the participants are probable of occurring.

Standard Insurance Company may terminate the contract with 30 days advance written notice to the contract owner for reasonable cause, which includes the contract owner’s failure to abide by state or federal law, failure to render performance necessary to comply with the terms of the contract, failure to maintain assets of at least \$25,000, plan disqualification, and failure to adopt the Plan within a reasonable period of time. Upon termination by Standard Insurance Company, a market value adjustment may apply.

**5. Fair Value Measurements**

ASC Topic 820, *Fair Value Measurements and Disclosures* establishes a fair value hierarchy for valuation inputs that gives the highest priority to quoted prices in active markets for identical assets or liabilities and the lowest priority to unobservable inputs. The three broad levels of the fair value hierarchy are as follows:

- Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority.
- Level 2 inputs consist of observable inputs other than quoted prices for identical assets (Level 1).
- Level 3 inputs consist of unobservable inputs and have the lowest priority.

The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. Level 2 inputs are used for investments for which Level 1 inputs are not available. Level 3 inputs are used for investments for which Level 1 or Level 2 inputs are not available.

*Level 1 Fair Value Measurements*

**Mutual funds** - The fair value of mutual funds is based on quoted net asset values of the shares as reported by the fund. The mutual funds held by the Plan are open-end mutual funds registered with the U.S. Securities and Exchange Commission. The funds must publish their daily net asset value and transact at that price. The mutual funds held by the Plan are considered to be actively traded.

**LEGEND BANK**  
**EMPLOYEE STOCK OWNERSHIP AND 401(K) PLAN**

*Level 2 Fair Value Measurements*

**Collective investment trusts** - The Plan's interest in the collective investment trusts is based on the fair value of the collective trusts' underlying investments based on information reported by the trustee using the audited financial statements of the collective trusts at year end. Investments in this fund can be redeemed on a daily basis to meet benefit payments and other participant-initiated withdrawals.

*Level 3 Fair Value Measurements*

**Company common stock** - The fair value of Legend Bancorp, Inc. common stock is measured at estimated fair market value based on the valuation of an independent third-party valuation specialist. The value per share (excluding market/liquidity constraints) is determined using a combined valuation approach which considers the fair market value per share of blocks of Company common stocks owned by the Plan using the income value approach and the market value approach. The determined fair value is then discounted to account for lack of marketability/liquidity. During each of the years presented, the marketability (liquidity) discount was 10%.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2024 and 2023. Gains and losses included in changes in net assets available for benefits for the year ended December 31, 2024 and 2023 are reported in net appreciation in value of investments:

\*\*The Company common stock presented in the above table represents 142,868 shares of the Company's common stock held by the Plan for each of the years presented. At December 31, 2024 and 2023, the estimated fair value of the Company common stock per share was \$155 and \$148, respectively. During 2024 and 2023, the Plan did not purchase or sale any shares of Company common stock. See Note 6 for additional disclosure of related party transactions in Company common stock.

**6. Related Party and Party-in-Interest Transactions**

Parties-in-interest are defined under DOL regulations as any fiduciary of the Plan or any party rendering services to the Plan, the Company, and certain others.

Certain plan investments are shares or units of collective investment trusts and mutual funds, and stable value funds managed by Hand Benefits & Trust Company (“HB &T”), the custodian of Plan assets as agent for Benefit Plan Administrative Services, Inc. (“BPA”). Certain plan investments are also stable value funds in a group annuity contract issued by Standard Insurance Company and managed by HB &T. Therefore, HB &T and BPA are parties-in-interest under ERISA and transactions with HB &T and BPA qualify as party-in-interest transactions. BPA as the principal of HB &T, receives all payments due HB &T for custodial services provided to the Plan. BPA is also the Plan’s recordkeeper and third-party contract administrator. Fees paid by the Plan to BPA for contract administration, recordkeeping, and custodial services provided by HB &T are presented as administrative expenses in the accompanying statements of changes in net assets available for benefits. During 2024 and 2023, the Plan paid \$117,891 and \$104,913, respectively, in administrative expenses to BPA.

Frost Bank (“Frost”) is the Plan’s third-party provider of investment advisory services. Therefore, Frost is a party-in-interest under ERISA and transactions with Frost qualify as party-in-interest transactions. Fees paid by the Plan for investment advisory services are included in the Investment income caption in the accompanying statements of changes in net assets available for benefits. During each of the years ended December 31, 2024 and 2023, the Plan paid \$15,000 in investment advisory fees to Frost.

Certain plan investments are shares of common stock of Legend Bancorp, Inc. (Plan Sponsor or Employer) managed by the Trust department of the Plan Sponsor. As discussed in Note 5, the investment in Company common stock represents 142,868 shares of Company common stock held by the Plan at the end of each year presented and recorded at estimated fair value based on an annual appraisal performed independently for the Plan by The Bank Advisory Group, LLC (“BAG”), a third-party valuation specialist. The Plan Sponsor, its Trust department, and BAG are parties-in-interest under ERISA and transactions with the Plan Sponsor, its Trust department, and BAG qualify as party-in-interest transactions. No fees are charged for transactions between the Plan and the Sponsor or its Trust Department. Fees incurred by the Plan for Company common stock valuation services provided by BAG are absorbed fully by the Plan Sponsor and are not disclosed, not included, and not accrued in the accompanying financial statements.

During 2024 and 2023, Payne and Smith, LLC and Eide Bailley LLP were the Plan’s independent public accountant (“IPA”). Therefore, the IPA is a parties-in-interest under ERISA and transactions with the IPA qualify as party-in-interest transactions. Fees incurred by the Plan for audit and nonattest services provided by the IPA are absorbed fully by the Company and are not disclosed, not included, and not accrued in the accompanying financial statements.

These party-in-interest transactions are exempt from the prohibited transaction rules of ERISA.

**7. Tax Status**

The IRS has determined and informed the Plan by a letter dated June 30, 2020, that the Plan is designed in accordance with applicable sections of the Internal Revenue Code (“the Code”). Although the Plan has been amended since receiving the determination letter, the Plan Administrator believes the Plan is designed and is being operated in compliance with the applicable provisions of the Code.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain tax position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

**EMPLOYEE STOCK OWNERSHIP AND 401(K) PLAN**

**8. Risks and Uncertainties**

The Plan provides for various investment options in investment securities. Investment securities are exposed to various risks, such as interest rate risk, market risk, and credit risks, as well as valuation assumptions based on earnings and cash flows. Due to the level of risks associated with investment securities, and the level of uncertainty related to changes in the value of these securities, it is at least reasonably possible that changes in risks in the near term could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits and the statements of changes net assets available for benefits.

The following table presents concentrations of investments that represented 5% or more of the Plan's net assets at December 31, 2024 and 2023:
