To the Plan Administrator
MyMichigan Health 403(b) Savings Plan

Scope and Nature of the ERISA Section 103(a)(3)(C) Audits

We have performed audits of the financial statements of MyMichigan Health 403(b) Savings Plan (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statement of net assets available for benefits as of December 31, 2024 and 2023 and the related statement of changes in net assets available for benefits for the years then ended and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of December 31, 2024 and 2023 and for the years then ended stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the *Auditor's Responsibilities for the Audits of the Financial Statements* section:

- The amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America (GAAP).
- The information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audits of the Financial Statements* section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with GAAP and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

To the Plan Administrator
MyMichigan Health 403(b) Savings Plan

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date that the financial statements are issued or available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments; administering the Plan; and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or that may become due to such participants.

Auditor's Responsibilities for the Audits of the Financial Statements

Except as described in the *Scope and Nature of the ERISA Section 103(a)(3)(C) Audits* section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and, therefore, is not a guarantee that audits conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing audits in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audits.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audits in order to design audit procedures that are appropriate in the circumstances but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information except for obtaining and reading the certifications, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of GAAP.

Accordingly, the objective of the ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with GAAP.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audits, significant audit findings, and certain internal control-related matters that we identified during the audits.

MyMichigan Health 403(b) Savings Plan

Supplemental Schedule Required by ERISA

The supplemental schedule of assets held at end of year as of December 31, 2024 is presented for the purpose of additional analysis and is not a required part of the financial statements but is supplemental information required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including its form and content, is presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- The form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.
- The information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Note 1 - Plan Description

The following description of MyMichigan Health 403(b) Savings Plan (the "Plan") provides only general information. Participants should refer to the plan document for a more complete description of the Plan's provisions.

General

The Plan is a single-employer defined contribution plan covering substantially all employees and related employers of MyMichigan Health and its subsidiaries (MyMichigan Health or the "Plan Sponsor"). The investment committee of the board of directors of MyMichigan Health and the pension governance administrative committee of MyMichigan Health control and administer the Plan and manage its investments. The investment options for the participants include a diversified blend of equity and fixed-income investments. An independent investment consultant is used to measure and report on investment performance, recommend changes to funds, and inform MyMichigan Health's investment committee of current investment trends and issues. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

The Plan allows participant 403(b) contributions up to a maximum of 75 percent of compensation during a pay period. Participants may also make contributions to the Plan in the form of a rollover of funds from another qualified plan.

The Plan provides for employer matching contributions of 50 percent of the first 4 percent of compensation deferred by the participant for a maximum of a 2 percent contribution.

Effective July 1, 2022 through December 31, 2024, the Plan Sponsor provides for an employer transition credit and contributes a percentage of the participant's compensation based on the participant's group designation and the year in which the compensation is paid.

On April 18, 2022, the Plan Sponsor approved an amendment to freeze the MyMichigan Health Employees' Pension Plan effective June 30, 2022. As a result, all active participants over the age of 59½ had the option to roll over their account balances into the Plan and commence their monthly pension benefit effective September 1, 2022. Accordingly, assets of approximately \$29.0 million were liquidated from the MyMichigan Health Employees' Pension Plan through December 31, 2023 and rolled into the Plan.

During 2024, the Plan Sponsor acquired a health system, which accounted for approximately \$56.6 million of rollovers.

Participant Accounts

Each participant's account is credited with the participant's contribution, the employer matching contribution, the employer retirement contribution, the employer transition contribution, and allocations of any plan earnings and expenses. Allocations are based on participants' compensation or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. Participants may direct the investments of their account balances into various investment options offered by the Plan.

Participant Notes Receivable

Participants may borrow from their accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 reduced by the participant's highest outstanding loan balance during the 12-month period before the loan is made or 50 percent of their vested account balances. Only one note receivable may be outstanding at one time. The notes receivable are secured by the balance in the participant's account and bear interest at market rates. The term of the loan may not exceed 5 years, with the exception that the term of the loan may be extended for up to a 15-year period if used for the purchase of a primary residence.

Note 1 - Plan Description (Continued)

Vesting

Participants are immediately 100 percent vested in employee salary and rollover contributions and any income or loss thereon. Vesting in MyMichigan Health's employer contribution and transition credit portion of their accounts, plus actual earnings thereon, is based on years of service. Participants are 100 percent vested in contributions made by MyMichigan Health after three years of credited service.

Payment of Benefits

Benefits are recorded when paid. Upon retirement, reaching age 72, or termination of employment, a participant is eligible to request payment of benefits in accordance with the terms of the Plan. Upon termination of service due to death, the beneficiary or estate elects the method of distribution of the participant's balance, in accordance with the Plan. Participants may also elect to receive an in-service distribution of the fully vested account balance at age 59½.

Hardship Withdrawals

Participants may request that all or a portion of their accounts be distributed in the case of severe financial hardship, as defined in the plan document.

Forfeitures

If a participant is not fully vested on his or her termination date, the nonvested amount of the account is forfeited. Forfeitures may be used to pay reasonable administrative expenses of the Plan or to reduce future MyMichigan Health contributions.

Termination

While it has not expressed any intent to do so, MyMichigan Health has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in the plan document and ERISA. Upon termination of the Plan, participants become 100 percent vested in their account balances.

Party-in-interest Transactions

Certain plan assets are invested in funds managed by Empower Annuity Insurance Company (EAIC), Empower Trust Company (ETC), Prudential Bank & Trust (PB&T), and AIG Federal Savings Bank (AIG) or their affiliates. These entities are service providers of the Plan. These transactions qualify as party-in-interest transactions, as defined under ERISA guidelines.

Note 2 - Summary of Significant Accounting Policies

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value except as noted below. The fully benefit-responsive unallocated investment contracts are valued at contract value. Contract value represents deposits made to the contract, plus earnings at guaranteed crediting rates, less withdrawals and fees (see Note 5).

The Plan uses the following methods and assumptions to determine the fair value of financial instruments:

Mutual funds are based on quoted market prices.

Self-directed brokerage accounts consist of mutual funds and a money market fund, which are based on quoted market prices.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded as earned. Dividends are recorded on the ex-dividend date.

December 31, 2024 and 2023

Note 2 - Summary of Significant Accounting Policies (Continued)

Benefit Payments

Benefit payments to participants are recorded upon distribution.

Administrative Expenses

Various administrative costs of the Plan are paid by the Plan Sponsor, while other expenses are paid directly by the Plan.

Participant Notes Receivable

Participant notes receivable are recorded at their unpaid principal balances plus any accrued interest. Participant notes receivable are written off when deemed uncollectible and treated as a taxable distribution to the participant with any applicable penalties.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of additions and deductions during the reporting period. Actual results could differ from those estimates.

Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Subsequent Events

The financial statements and related disclosures include evaluation of events up through and including September 15, 2025, which is the date the financial statements were available to be issued.

Note 3 - Certified Information

EAIC, PB&T, ETC, and AIG (collectively, the "Custodians") hold the Plan's investments and participant notes receivable, except for the self-directed brokerage account, and execute all related transactions. The investment and participant notes receivable balances and related income and losses included in the accompanying financial statements and supplemental schedule of assets held at end of year are based solely on information certified by the Custodians.

Effective March 31, 2023, PB&T was merged into ETC and all services performed by PB&T were assumed by ETC.

The Plan's investment gains with AIG for the period from January 1, 2023 through January 18, 2023, totaling \$271,409, were not certified.

The Plan's investments in self-directed brokerage accounts totaling \$3,915,243 and \$2,545,005 at December 31, 2024 and 2023, and related investment income of \$816,794 and \$552,821 for the years then ended, respectively, were not certified.

Note 4 - Fair Value Measurements

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value should be based on assumptions that market participants would use, including a consideration of nonperformance risk.

Note 4 - Fair Value Measurements (Continued)

Level 1

Quoted (unadjusted) prices for identical instruments traded in active markets

Level 2

Other inputs that are observable, either directly or indirectly, including the following:

Quoted prices for identical assets in active markets

Quoted prices for identical or similar assets in active markets (few transactions, limited information, noncurrent prices, high variability over time, etc.)

Inputs other than quoted prices that are observable for the asset (interest rates, yield curves, volatilities, default rates, etc.)

Inputs that are derived principally from or corroborated by other observable market data

Level 3

Unobservable inputs that cannot be corroborated by observable market data. These Level 3 fair value measurements are based primarily on management's own estimates using pricing models, discounted cash flow methodologies, or similar techniques taking into account the characteristics of the asset.

In instances where inputs used to measure fair value fall into different levels of the fair value hierarchy, fair value measurements in their entirety are categorized based on the lowest level input that is significant to the valuation. The Plan's assessment of the significance of particular inputs to these fair value measurements requires judgment and considers factors specific to each asset.

The following tables present information about the fair value of the Plan's financial instruments as of December 31, 2024 and 2023 according to the valuation techniques the Plan used to determine their fair value:

	Assets Measured at Fair Value on a Recurring Basis at December 31, 2024	
	Investments (at Fair Value)	Level 1
Mutual funds	\$ 694,788,555	\$ 694,788,555
Self-directed brokerage accounts	3,915,243	3,915,243
Total investments at fair value	<u>\$ 698,703,798</u>	<u>\$ 698,703,798</u>

	Assets Measured at Fair Value on a Recurring Basis at December 31, 2023	
	Investments (at Fair Value)	Level 1
Mutual funds	\$ 540,810,687	\$ 540,810,687
Self-directed brokerage accounts	2,545,005	2,545,005
Total investments at fair value	<u>\$ 543,355,692</u>	<u>\$ 543,355,692</u>

There were no unfunded commitments or redemption restrictions on the investments described above.

December 31, 2024 and 2023

Note 5 - Investment Contract with Insurance Company

The Plan has a benefit-responsive guaranteed group annuity contract (also referred to as a guaranteed income fund) with EAIC. EAIC's agreement is to guarantee principal and accumulated interest. The interest crediting rates are declared in advance and guaranteed for six-month periods. The minimum crediting rate under the contract is based on an average yield of five-year treasury securities over a period of time specified in the contract, less 1.25 percent, but no less than 1.00 percent nor greater than 3.00 percent for the years ended December 31, 2024 and 2023. EAIC bears the risk that the return on the underlying investments will be sufficient to support the guaranteed rate during each guarantee period. Therefore, investment experience is not directly passed on to the participants. EAIC maintains the contributions in a general account, which is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. Generally, there are no events that could limit the ability of the Plan to transact at contract value paid within 90 days or, in rare circumstances, contract value paid over time. There are no events that allow the issuer to terminate the contract and that require the Plan Sponsor to settle an amount different than contract value paid either within 90 days or over time.

The Plan has a benefit-responsive investment contract with The Variable Annuity Life Insurance Company. VALIC maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan. Interest is credited on contract balances using a single portfolio rate approach. Under this methodology, a single interest rate is applied to all contributions made to the product, regardless of the timing of those contributions. Interest crediting rates are reviewed on an annual basis for resetting but may not be less than 1 percent. When establishing interest crediting rates for this product, VALIC considers many factors, including current economic and market conditions, the general interest rate environment, and both the expected and actual experience of a reference portfolio within the issuer's general account. A participant can make transfers out of the contract at any time to noncompeting funds or indirectly to a competing fixed option, subject to a 90-day equity wash provision. A competing option includes any other vendor offering benefits under the Plan and any money market or short-term bond fund within the fund lineup. Plan sponsor-directed or induced transfers from the contract to another investment option under the Plan would be restricted to 20 percent per year or would be subject to a market value adjustment. There are no events that allow the issuer to terminate the contract and that require the plan sponsor to settle an amount different than contract value paid either within 90 days or over time.

As described in Note 2, because the contracts are fully benefit responsive, contract value is the relevant measurement for that portion of net assets attributable to the investment contract. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investments at contract value.

Note 6 - Tax Status

The Plan, as adopted, is a volume submitter plan, which does not require an application for a determination letter from the Internal Revenue Service (IRS). The volume submitter plan has received a favorable notification letter from the IRS dated March 31, 2017. The Plan has not individually sought its own determination letter.
