Part III Accountant's Opinion

3 Complete lines 3a through 3c if the opinion of an independent qualified public accountant is attached to this Form 5500. Complete line 3d if an opinion is not attached.

a The attached opinion of an independent qualified public accountant for this plan is (see instructions):

(1) ☒ Unmodified (2) ☐ Qualified (3) ☐ Disclaimer (4) ☐ Adverse

b Check the appropriate box(es) to indicate whether the IQPA performed an ERISA section 103(a)(3)(C) audit. Check both boxes (1) and (2) if the audit was performed pursuant to both 29 CFR 2520.103-8 and 29 CFR 2520.103-12(d). Check box (3) if pursuant to neither.

(1) ☒ DOL Regulation 2520.103-8 (2) ☐ DOL Regulation 2520.103-12(d) (3) ☐ neither DOL Regulation 2520.103-8 nor DOL Regulation 2520.103-12(d).

c Enter the name and EIN of the accountant (or accounting firm) below:

(1) Name: **FORVIS MAZARS LLP**

(2) EIN: **44-0160260**

d The opinion of an independent qualified public accountant is **not attached** as part of Schedule H because:

(1) ☐ This form is filed for a CCT, PSA, DCG or MTIA. (2) ☐ It will be attached to the next Form 5500 pursuant to 29 CFR 2520.104-50.

Part IV Compliance Questions

4 CCTs and PSAs do not complete Part IV. MTIAs, 103-12 IEs, and GIAs do not complete lines 4a, 4e, 4f, 4g, 4h, 4k, 4m, 4n, or 5. 103-12 IEs also do not complete lines 4j and 4l. MTIAs also do not complete line 4l. DCGs do not complete lines 4e, 4f, 4k, 4l, and 5, and DCGs generally complete the rest of Part IV collectively for all plans in the DCG, except as otherwise provided (see instructions).

During the plan year:

	Yes	No	Amount
a Was there a failure to transmit to the plan any participant contributions within the time period described in 29 CFR 2510.3-102? Continue to answer "Yes" for any prior year failures until fully corrected. (See instructions and DOL's Voluntary Fiduciary Correction Program.)		☒	
b Were any loans by the plan or fixed income obligations due the plan in default as of the close of the plan year or classified during the year as uncollectible? Disregard participant loans secured by participant's account balance. (Attach Schedule G (Form 5500) Part I if "Yes" is checked.)		☒	
c Were any leases to which the plan was a party in default or classified during the year as uncollectible? (Attach Schedule G (Form 5500) Part II if "Yes" is checked.)		☒	
d Were there any nonexempt transactions with any party-in-interest? (Do not include transactions reported on line 4a. Attach Schedule G (Form 5500) Part III if "Yes" is checked.)		☒	
e Was this plan covered by a fidelity bond?	☒		1000000
f Did the plan have a loss, whether or not reimbursed by the plan's fidelity bond, that was caused by fraud or dishonesty?		☒	
g Did the plan hold any assets whose current value was neither readily determinable on an established market nor set by an independent third party appraiser?		☒	
h Did the plan receive any noncash contributions whose value was neither readily determinable on an established market nor set by an independent third party appraiser?		☒	
i Did the plan have assets held for investment? (Attach schedule(s) of assets if "Yes" is checked, and see instructions for format requirements.)	☒		
j Were any plan transactions or series of transactions in excess of 5% of the current value of plan assets? (Attach schedule of transactions if "Yes" is checked and see instructions for format requirements.)	☒		
k Were all the plan assets either distributed to participants or beneficiaries, transferred to another plan, or brought under the control of the PBGC?		☒	
l Has the plan failed to provide any benefit when due under the plan?		☒	
m If this is an individual account plan, was there a blackout period? (See instructions and 29 CFR 2520.101-3.)			
n If 4m was answered "Yes," check the "Yes" box if you either provided the required notice or one of the exceptions to providing the notice applied under 29 CFR 2520.101-3.			

5a Has a resolution to terminate the plan been adopted during the plan year or any prior plan year?..... ☐ Yes ☒ No
If "Yes," enter the amount of any plan assets that reverted to the employer this year _____.

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of the Pernod Ricard USA, LLC Employees' Retirement Plan (Plan), an employee benefit plan subject to the *Employee Retirement Income Security Act of 1974* (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of December 31, 2024, and 2023, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of December 31, 2024, and 2023 and for the years then ended, stating that the certified investment information, as described in Note 6 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the "Auditor's Responsibilities for the Audit of the Financial Statements" section:

- The amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- The information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the “Auditor’s Responsibilities for the Audit of the Financial Statements” section of our report. We are required to be independent of Pernod Ricard USA, LLC Employees’ Retirement Plan and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management’s election of the ERISA Section 103(a)(3)(C) audit does not affect management’s responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Pernod Ricard USA, LLC Employees’ Retirement Plan’s ability to continue as a going concern within one year after the date these financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments; administering the plan; and determining that the plan’s transactions that are presented and disclosed in the financial statements are in conformity with the plan’s provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor’s Responsibilities for the Audit of the Financial Statements

Except as described in the “Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor’s report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audits in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Pernod Ricard USA, LLC Employees’ Retirement Plan’s internal control. Accordingly, no such opinion is expressed.

- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Pernod Ricard USA, LLC Employees' Retirement Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter - Supplemental Schedules Required by ERISA

The supplemental schedules of assets (held at end of year) as of December 31, 2024 and the schedule of reportable transactions for the year ended December 31, 2024, are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedules, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedules that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, other than the information agreed to or derived from the certified investment information, including their form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- The form and content of the supplemental schedules, other than the information in the supplemental schedules that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

- The information in the supplemental schedules related to assets held by and certified to by a qualified institution agrees to or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Note 1. Description of the Plan

The following brief description of the Pernod Ricard USA, LLC Employees' Retirement Plan (Plan) provides only general information. Participants should refer to the Plan document for a complete description of the Plan's provisions.

The Plan was established on January 1, 1986, amended and restated on January 1, 2017, and amended and restated again on January 1, 2020. The Plan is a defined benefit plan which provides retirement benefits to eligible employees of Pernod Ricard USA, LLC and its affiliated companies (collectively, the "Company"). The Plan is subject to the provisions of the *Employee Retirement Income Security Act of 1974* (ERISA). The Plan is administered by the Employee Benefit Plans Administrative Committee of Pernod Ricard USA, LLC (Committee) consisting of not less than three persons appointed by the managers of the Company.

Effective April 10, 2024, the Plan was amended and entered into a buy-out agreement with an insurance company (Insurer), to annuitize certain benefits in pay status of \$1,000 per month or less. In accordance with the agreement, the Insurer assumed responsibility for the annuitized benefits effective June 1, 2024, and the annuitized individual is no longer a participant under the Plan, with rights under the Plan, and the Plan has no further obligation to make any payment with respect to any benefit of the participant, including any survivor, beneficiary, or other person claiming any right or benefits by or through annuitized individual on or after the date the Insurer becomes responsible for the payment of benefits. The final sale took place in October 2024 and approximated \$37,819,000.

Employees of the Company hired before January 1, 2012, who completed one year of continuous service and have attained the age of 21, were eligible to participate in the Plan. Effective January 1, 2012, all new hires of the Company are not eligible to participate in the Plan.

The Plan provides for retirement benefits upon reaching normal retirement age (65) and payments to beneficiaries upon death after retirement. Employees do not vest until the completion of five years of service, at which time they vest 100%. Employees with five or more years of service are entitled to monthly pension benefits beginning at the normal retirement age (65). Early retirement is permitted at age 55 and a minimum number of years of service, as defined in the Plan document. Effective July 1, 2010, participants who are involuntarily terminated and have reached age 50 and have 20 years of continuous service are eligible for early retirement. Benefits are based on primarily years of service and the employees' average earnings during the five, full, consecutive highest paid calendar years of the last ten calendar years before their last day worked for non-union employees; or based on years of service and the pre-established multiplier for union employees. Benefits are paid in various forms of annuity payments. Certain participants in the Plan have a cash balance benefit. Interest is credited to the account on an annual basis, as defined in the Plan document. The Plan document provides detailed information relating to employee eligibility, vesting benefits, and benefit provisions.

Note 2. Significant Accounting Policies

Basis of Accounting

The financial statements are prepared on the accrual basis of accounting.

Pernod Ricard USA, LLC Employees' Retirement Plan
Notes to Financial Statements
December 31, 2024 and 2023

Use of Estimates

The preparation of the financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits at the date of the financial statements and the actuarial present value of accumulated plan benefits as of the benefit information date, the changes in net assets available for benefits and the accumulated plan benefits during the reporting period and, when applicable, the recognition and disclosures of contingent assets and liabilities at the date of the financial statements. Actual results could differ from these estimates and assumptions.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 7 for discussions of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits

Benefits are recorded when paid.

Administrative Expenses

All investment advisory fees and other administrative expenses are paid by the Plan unless paid by the Company.

Note 3. Funding Policy

The Company shall make funding contributions under the Plan in such amounts and at such times as determined by the actuary to meet ERISA minimum funding requirements. The actuarial cost method used as a basis for determining contributions is the standard unit credit cost method. There were no minimum required contributions in 2023 and 2024. Any amounts contributed to the Plan by the Company in excess of ERISA minimum funding requirements are reflected as plan contributions in the year incurred. The Company made excess contributions of \$3,000,000 and \$4,000,000 in 2024 and 2023, respectively.

Note 4. Plan Termination

Although it has not expressed any intention to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to a resolution by the Board of Managers of the Company and provisions set forth in ERISA.

In the event of termination of the Plan, the net assets of the Plan will be distributed to the employees based on priorities established in the Plan and by ERISA. Generally, the net assets will be set aside first for the payment of vested benefits and then for the payment of accrued but nonvested benefits. The Pension Benefit Guaranty Corporation (PBGC) guarantees the payment of certain nonforfeitable basic benefits, subject to certain limitations prescribed by ERISA. However, there is a ceiling on the amount of an individual's monthly benefit that the PBGC guarantees, which is adjusted periodically.

Pernod Ricard USA, LLC Employees' Retirement Plan
Notes to Financial Statements
December 31, 2024 and 2023

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide those benefits, the financial condition of the Company, and the level of benefits guaranteed by the PBGC.

Note 5. Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits are those future periodic payments, including lump-sum distributions, that are deemed attributable under the Plan's provisions to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries.

The actuary for the Plan estimates the actuarial present value of accumulated plan benefits, which is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits earned by the participants to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal or retirement) between the valuation date and the expected date of payment. The Plan uses a beginning of year valuation date.

The significant actuarial assumptions used in the valuation as of January 1, 2024 were as follows:

Mortality Rates Healthy	Pri-2012 sex-distinct, separate employee and retiree tables with contingent survivor adjustments for existing survivors and no collar adjustments applied with future improvement using the MMP 2021 projection scale
Mortality Rates Disabled	Pri-2012 sex-distinct, disabled table applied with future improvement using the MMP 2021 projection scale
Discount Rate	6.35%
Cash Balance Interest Crediting Rate	4.66%

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Should the Plan terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

The actuarial present value of accumulated plan benefits for the Plan as of January 1, 2024, is as follows:

Actuarial present value of accumulated plan benefits	
Retired participants and beneficiaries receiving payments	\$ 132,535,118
Terminated vested participants	59,562,234
Active participants	<u>38,910,345</u>
Total vested benefits	231,007,697
Actuarial present value of nonvested benefits	<u>2,122,895</u>
Total actuarial present value of accumulated plan benefits	<u>\$ 233,130,592</u>

Pernod Ricard USA, LLC Employees' Retirement Plan
Notes to Financial Statements
December 31, 2024 and 2023

The net decrease in the actuarial present value of the accumulated plan benefits for the year ended January 1, 2024 is attributable to the following factors:

Actuarial present value of accumulated plan benefits at beginning of year	\$ 233,199,950
Increase (decrease) during the year attributable to:	
Benefits paid	(21,584,946)
Interest	14,730,289
Assumption changes (1)	3,760,049
Benefits accumulated and other	3,025,250
Net decrease	(69,358)
Actuarial present value of accumulated plan benefits at year end	\$ 233,130,592

- (1) Changes in actuarial assumptions include the following: (a) the cash balance interest accumulation rate increased from 3.99% to 4.66% to reflect the actual interest crediting rate for the year (b) the retirement decrement and the form of payment assumptions were updated to more accurately reflect recent participant experience (c) the discount rate was updated from 6.65% to 6.35%

Note 6. Information Certified by the Trustee

The following is a summary of the investment information regarding the Plan as of December 31, 2024 and 2023 and for the years then ended, included in the Plan's financial statements and supplemental schedules that was prepared by or derived from information provided by Northern Trust Company (Northern Trust), the trustee of the Plan, and furnished to the plan administrator. The plan administrator has obtained certifications from the trustee that such information is complete and accurate.

Information relating to investments held by the trustee at December 31, is as follows:

	<u>2024</u>	<u>2023</u>
Common collective trust funds	\$ 226,817,082	\$ 272,320,557

The following was also certified by the trustee for the years ended December 31, 2024 and December 31, 2023:

	<u>2024</u>	<u>2023</u>
Net appreciation in fair value of investments	\$ 7,327,391	\$ 31,780,316
Interest and dividend income	114,229	29,455
	<u>\$ 7,441,620</u>	<u>\$ 31,809,771</u>

The Plan's independent auditors did not perform auditing procedures with respect to this certified investment information, except for comparing such certified investment information to the related investment information included in the financial statements and ERISA-required supplemental schedule.

Note 7. Fair Value Measurement

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Valuation techniques used to measure fair value are defined as follows:

- Level 1** Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
- Level 2** Inputs to the valuation methodology include: (a) quoted prices for similar assets or liabilities in active markets; (b) quoted prices for identical or similar assets or liabilities in inactive markets; (c) inputs other than quoted prices that are observable for the asset or liability; and (d) inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.
- Level 3** Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies at December 31, 2024 and 2023.

Common collective trust funds: The fair value of the common collective trust funds are determined by the custodian of the common collective trust funds based on the underlying assets, which represent the net asset value, a practical expedient to fair value, of units held by the Plan. The Plan does not have any unfunded commitments relating to its investment in the common collective trust fund, or any significant restrictions on redemptions.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Investments at fair value as of December 31, 2024, are as follows:

	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	<u>Total</u>
Common collective trust funds	\$ -	\$ 226,817,082	\$ -	\$ 226,817,082

Investments at fair value as of December 31, 2023, are as follows:

	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	<u>Total</u>
Common collective trust funds	\$ -	\$ 272,320,557	\$ -	\$ 272,320,557

Note 8. Related Party Transactions

The investments of the Plan are held by Northern Trust, the trustee of the Plan and therefore, the investment and administrative fees qualify as party-in-interest transactions. Fees incurred to Northern Trust for administrative and investment services amounted to \$618,880 and \$652,318 for the years ended December 31, 2024 and 2023, respectively. As of December 31, 2024 and 2023, there was \$275,218 and \$228,535, respectively, included within accrued expenses that were owed to Northern Trust. Services rendered by the actuary, record-keeper, auditor, investment advisor, and attorney also qualify as party-in-interest transactions. The related administrative expenses amounted to \$552,962 and \$520,713 in 2024 and 2023, respectively. As of December 31, 2024 and 2023, there was \$82,509 and \$54,912, respectively, included within accrued expenses that were owed to the actuary, record-keeper, investment advisor, and attorney.

Note 9. Tax Status

The Internal Revenue Service ("IRS") has determined and informed the Company, by a letter dated January 4, 2021 that the Plan is designed in accordance with Section 401(a) and 501(a) of the Internal Revenue Code (IRC). The Plan has been amended since receiving the determination letter. Plan's management believes that the Plan is currently designed and is being operated in accordance with the applicable requirements of the IRC.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the organization has taken an uncertain position that more-likely-than-not would not be sustained upon examination by the Internal Revenue Service. The plan's management has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2024 and 2023, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan's management believes it is no longer subject to income tax examinations for years prior to 2021.

Note 10. Risks and Uncertainties

Contributions to be made to the Plan are determined, and the actuarial present value of accumulated plan benefits are reported, based on certain assumptions pertaining to interest rates, inflation rates, employee compensation, and demographics all of which are subject to change. Due to the changing nature of these assumptions in the future, it is at least reasonably possible that these changes in estimates and assumptions in the near term could have a material effect on the financial statements.

The Plan's investments are exposed to various risks, such as interest rate, credit, and market volatility risk. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities may occur in the near term and those changes could materially affect the amounts reported in the statements of net assets available for benefits and impact the funded position of the Plan.

Note 11. Concentrations

Balances in three investments accounted for approximately 49% of total investments as of December 31, 2024. Balance in three investments accounted for approximately 65% of total investments as of December 31, 2023.

Note 12. Subsequent Events

The Company has evaluated subsequent events for the Plan through September 25, 2025, the date the financial statements were available for issuance. All subsequent events requiring recognition or disclosure have been incorporated in these financial statements.

• Expenses	\$690,000 for 2024.

Rationale for economic assumptions having a material effect on the measurement

- Cash balance interest accumulation rate – Actual crediting rate for the current year is used for all future years.
- The administrative expense load is based on the prior year's non-PBGC plan related service provider expenses plus this year's expected PBGC premiums.
- The expected rate of return on plan assets is based on the rounded median simulated investment return using capital market assumptions published in Mercer Investment Consulting's Capital Markets Outlook for the plan's current asset allocation.
- Salary increase assumption is reviewed annually through an experience study.

Actuarial methods for funding**Asset methods**

The asset valuation method is an average of the adjusted market value for each year during the last 2 years preceding the valuation date. The adjusted market value is the market value at each determination date adjusted to the valuation date based on actual cash flows and expected interest at the lesser of the expected rate of return and the third segment rate. This amount is adjusted to be no greater than 110% and no less than 90% of the fair market value, as defined in IRC Section 430.

A characteristic of this asset method is that, over time, it is slightly more likely to produce an actuarial value of assets that is less than the market value of assets than an actuarial value that is greater than the market value.

Participant methods

Participants or former participants are included or excluded from the valuation as described below:

- **Participants included:** The plan sponsor provides us with data on all employees as of the valuation date, but only those employees who have completed the plan's eligibility requirements are included in the valuation of liabilities.

Schedule SB, Part V — Statement of Actuarial Assumptions/Methods

- **Participants excluded:** No actuarial liability is included for nonvested participants who terminated prior to the valuation date. For this purpose, participants with a break in service on the valuation date are treated as terminated participants.
- **Insurance contracts:** The plan does not have any insurance contracts.

Minimum funding methods

The funding target for minimum funding calculations is computed using the traditional unit credit method of funding. The objective under this method is to fund each participant's benefits under the plan as they accrue. Thus, the total pension to which each participant is expected to become entitled at retirement is broken down into units, each associated with a year of past or future credited service.

A detailed description of the calculation follows:

- The plan's valuation date is the beginning of the plan year.
- An individual's **funding target** is the present value of future benefits based on credited service and average pay as of the beginning of the plan year, and an individual's **target normal cost** is the present value of the benefit expected to accrue in the plan year. If multiple decrements are used, the funding target and the target normal cost for an individual are the sum of the component funding targets and target normal costs associated with the various anticipated separation dates.
- This plan provides disability benefits that are only partially based on a participant's accrued benefit or years of service. This benefit is allocated to funding target based on the accrued benefit on the valuation date plus a portion of the excess of the benefit over the accrued benefit multiplied by the ratio of the participant's service at the beginning of the plan year to their service at each decrement age. This benefit is allocated to target normal cost based on the proportionate benefit attributable to the increase in the participant's service and compensation during the plan year.
- The plan's **target normal cost** is the sum of the individual target normal costs, and the plan's **funding target** is the sum of the individual funding targets for all participants under the plan.

Statement by Enrolled Actuary	
To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Schedule SB, Part V — Summary of Plan Provisions**Summary of major plan provisions****Salaried Benefit Structure**

Effective date and plan year	Original plan: January 1, 2003 Restated plan: January 1, 2017 Plan year: Calendar Year
Status of the plan	The plan has ongoing benefit accruals. An employee whose first hour of service is on or after January 1, 2012, shall not become a member of the plan.
Significant events that occurred during the year	None
Definitions	
• Covered employees	Non-Union employees and former employees of Pernod Ricard USA, LLC who were actively employed on or after January 1, 1986 who were not participants of the Retirement Plan of Allied Domecq USA. An employee whose first hour of service is on or after January 1, 2012, shall not become a member of the plan.
• Participation	Every regular non-union employee of the Company becomes a member of the Plan on the later of the date he completes one year of continuous service or attains age 21. For this purpose, a year of continuous service shall be defined as a 12-month period during which an employee works at least 1,000 hours, commencing with the date of employment, or, if in such period he has not worked at least 1,000 hours, commencing with the first day of the calendar year immediately following his date of employment. An employee whose first hour of service is on or after January 1, 2012, shall not become a member of the plan. Effective May 1, 1993 members of the Austin, Nichols & Co., Incorporated Pension Plan were merged into the Retirement Plan. Effective July 1, 1989 employees of Yoo Hoo who meet the Membership requirements below become members of the Plan.
• Employee contributions	None required or permitted.
• Vesting service	Generally includes all service with the Company rendered by an employee. Continuous service for former Seagram employees includes all service with the Company and with Seagram.
• Credited service	Subject to a maximum of 35 years and means all continuous service as an employee rendered after becoming a member. For employees who became Members of the Plan as of January 1, 1986, who were members of the Employees' Retirement Plan of Austin, Nichols & Co., Incorporated on December 31, 1985, "Credited Service" shall include any service while in the employ of Austin, Nichols & Co., Incorporated which would have been recognized as credited service under the terms of the Employees' Retirement Plan of Austin, Nichols & Co., Incorporated as of December 31, 1985. No credited service is recognized with respect to any calendar year of a member's continuous service on or after January 1, 1976 during which he completes less than 1,000 hours.
• Pensionable earnings	Remuneration paid to an employee for services rendered to the Company, including overtime, shift differential, commissions, cash bonuses, and short term disability salary continuation payments, but excluding deferred compensation and employee benefit plan credits or payments. The compensation of any member who completes fewer than the normal number

Schedule SB, Part V — Summary of Plan Provisions

	of hours worked in a year by a full-time employee is adjusted to the amount he would have earned had he completed the normal number of hours worked in a year by a full-time employee. Compensation is limited to the amount under IRC Section 401(a)(17) for determining benefits earned after December 31, 1988.
• Final average earnings	The average annual compensation for the five consecutive calendar years during the last ten calendar years of credited service preceding the retirement date affording the highest such average.
• Primary Social Security benefit	The annual amount of primary old age or disability insurance benefit to which the member is or would be entitled at retirement. (For early retirement, disability retirement or deferred vested retirement, compensation is assumed to continue at the same rate as at retirement until age 65.)
• Covered Compensation	For any Member the average of the taxable wage bases in effect under Section 230 of the Social Security Act for each year in the 35-year period ending with the year in which the Member attains his Social Security Retirement Age. In determining a Member's Covered Compensation for any calendar year, the taxable wage base for the current calendar year and any subsequent calendar year shall be assumed to be the same as the taxable wage base in effect as of the beginning of the calendar year for which the determination is made.

Normal retirement

• Eligibility	The normal retirement age is 65.
• Benefit	The annual normal retirement allowance is 1.5% of the member's final average earnings up to Covered Compensation plus 1.9% of the member's final average earnings in excess of Covered Compensation, multiplied by the number of years of the member's credited service, not in excess of 35. The annual normal retirement allowance for former Seagram employees is the greater of (a) – (b) or (c). (a) 1.5% of the member's final average earnings up to Covered Compensation plus 1.9% of the member's final average earnings in excess of Covered Compensation, multiplied by the number of years of the member's credited service, not in excess of 35. (b) The normal retirement benefit provided under the Seagram Plan. Note that if this benefit is provided under the cash balance formula of the Plan, the cash balance will be projected from 12/31/2001 to normal retirement at 6.11% and converted to an annuity at 5.61% and the 1983 Group Annuity Mortality table. (c) 1.5% of the member's final average earnings up to Covered Compensation plus 1.9% of the member's final average earnings in excess of Covered Compensation, multiplied by the number of years of the member's credited service after 12/31/2001, not in excess of 35. The annual normal retirement allowance for Kentucky Union transfers includes credited service while under the Kentucky benefit structure offset by the benefit payable under the Kentucky benefit structure.

Early retirement

• Eligibility	Any member who has attained age 55 and has completed 15 years of continuous service or who, regardless of age, in the case of a member in the service of the Company on December 31, 1975, completes 20 years of continuous service, or who has attained age 50 and has completed 20 years
---------------	--

Schedule SB, Part V — Summary of Plan Provisions

	of continuous service and has been involuntarily terminated without cause, may retire or be retired on an early retirement allowance.
• Benefit	The early retirement allowance is a deferred allowance beginning at age 65, equal to the normal retirement allowance accrued to the date of early retirement. In lieu of the deferred allowance, the member may elect to receive an allowance commencing any time prior to his normal retirement date equal to the deferred early retirement allowance reduced by 1/3 of 1% for each month that early retirement allowance payments commence prior to the normal retirement date.
Late retirement	
• Eligibility	A participant who retires after his normal retirement date
• Benefit	The benefit is determined as for a normal retirement benefit, based on final average earnings and credited service accrued at actual retirement date. This pension will not be less than the actuarial equivalent, as of the late retirement date, of the pension he would have received had he retired on his normal retirement date.
Deferred vested	
• Eligibility	Any member whose service is terminated other than by death or normal, early or disability retirement after completing 5 years of continuous service is eligible for a deferred vested retirement allowance.
• Benefit	The vested retirement allowance is a deferred allowance beginning at age 65 equal to the normal retirement allowance accrued at the time of termination of service. If, on the date of his termination, the member has completed 15 years of continuous service but has not reached age 55, the member may, after attainment of age 55, elect to receive an allowance commencing any time prior to his normal retirement date reduced by 1/180 for each of the first 60 months that commencement of benefits precedes the former member's normal retirement date and 1/360 for each of the next 60 months.
Disability	
• Eligibility	In receipt of disability benefits under the Company's Long Term Disability Program.
• Benefit	During disability, members will accrue continuous and credited service towards normal, early or deferred retirement allowance.
Death	
• Eligibility	If a married member (i) dies in active service after meeting the requirements for any retirement allowance, or (ii) dies after retiring on any retirement allowance or after terminating service with a deferred vested retirement allowance, but in either case before payments begin, his surviving spouse receives a spouse's allowance, provided that they have been married throughout the one-year period ending on the date of death. The spouse's allowance will begin on the member's normal retirement date. However, if the member met the requirements for an early retirement allowance and either died in active service or retired on an early retirement allowance but did not begin receiving benefits, the spouse can elect to begin receiving benefits at any time before the member's normal retirement date. Furthermore, if any other member dies after having completed 15 years of continuous service, the spouse can elect to have payments begin any time after the member would have attained age 55.

Schedule SB, Part V — Summary of Plan Provisions

• Benefit	The spouse's allowance is equal to the allowance which would have been payable to the spouse had the member terminated employment immediately prior to death and elected Option 4 below under Optional forms, but subject to a minimum benefit equal to 40% of the member's accrued benefit at time of death, reduced for commencement prior to the member's 65th birthday.
Form of benefits	
• Automatic form for unmarried participants	Participants who are not married on the date benefits are to commence will receive a life annuity
• Automatic form for married participants	The retired participant will receive a reduced pension payable for life and payments in the amount of 60% of the reduced pension will, after the retired participant's death, be continued to the participant's spouse during the spouse's lifetime.
• Optional forms	Prior to the commencement of his retirement allowance, a member may elect to convert his allowance into a benefit of equivalent actuarial value in accordance with one of the optional benefits described below. 1. A retirement allowance payable for the member's life, with no allowance payable after his death (if married) 2. Life annuity with benefits guaranteed for five years. 3. A modified retirement allowance payable during the retired member's life, with the provision that after his death it will be continued during the life of and paid to the contingent annuitant nominated by him at the time he elected the optional benefit, if such contingent annuitant survives him. 4. A modified retirement allowance payable during the retired member's life, with the provision that after his death, an allowance at six-tenths the rate of his modified allowance will be continued during the life of and paid to the contingent annuitant nominated by him at the time he elected the optional benefit, if such contingent annuitant survives him. 5. A modified retirement allowance payable during the retired member's life, with the provision that after his death an allowance at one-half the rate of his modified allowance will be continued during the life of and paid to the contingent annuitant nominated by him at the time he elected the optional benefit, if such contingent annuitant survives him. 6. A modified retirement allowance payable during the retired member's life, with the provision that after his death, an allowance at three-quarters the rate of his modified allowance will be continued during the life of and paid to the contingent annuitant nominated by him at the time he elected the optional benefit, if such contingent annuitant survives him. 7. On early retirement, a member may elect to receive a pension prior to age 62 which is the actuarial equivalent of the pension otherwise payable to him, in such amounts that, with his primary Social Security benefit, he will receive approximately the same amount each year before and after Social Security benefits begin. 8. A lump sum benefit of equivalent actuarial value in lieu of the member's retirement allowance. 9. A modified retirement allowance with one-half of the amount paid in the form of Option 8 and one-half paid in the form of Options 1, 2, 3, 4, 5 or 6. However, if the resulting partial amount in the form of Options 1, 2, 3, 4, 5 or 6 is less than \$100 per month, this Option is not available.

Significant events that occurred during the year	None

Definitions

• Covered employees	Non-Union employees and former employees of Pernod Ricard USA, LLC who were employed as a result of the acquisition of Allied Domecq USA, who were members of the Retirement Plan of Allied Domecq USA and were part of the Spirits & Wine sector.
• Participation	Each regular non-union employee of the Company who was hired after February 28, 2005 and before December 31, 2005 becomes a member of the Plan once he completes one year of continuous service. Active participants with benefits under the Past Service Final Average Pay Formula and Past Service Cash Balance Formula earn benefits under the Future Service Formula for service beginning January 1, 2006.
• Employee contributions	None required or permitted.
• Vesting service	Generally includes all service with the Company rendered by an employee.
• Credited service	Subject to a maximum of 35 years and means all continuous service as an employee rendered. The 35 year maximum is first applied to benefits accruing prior to January 1, 2006.
• Pensionable earnings	Remuneration paid to an employee for services rendered to the Company, including overtime, shift differential, commissions, cash bonuses, and short term disability salary continuation payments, but excluding deferred compensation and employee benefit plan credits or payments. The compensation of any member who completes fewer than the normal number of hours worked in a year by a full-time employee is adjusted to the amount he would have earned had he completed the normal number of hours worked in a year by a full-time employee.

Schedule SB, Part V — Summary of Plan Provisions

	Compensation is limited to the amount under IRC Section 401(a)(17).
• Final average earnings	The average annual compensation for the five consecutive calendar years during the last ten calendar years of credited service preceding the retirement date affording the highest such average.
• Primary Social Security benefit	The annual amount of primary old age or disability insurance benefit to which the member is or would be entitled at age 65. (For early retirement, disability retirement or deferred vested retirement, compensation is assumed to continue at the same rate as at retirement until age 65.)
• Covered Compensation	For any Member the average of the taxable wage bases in effect under Section 230 of the Social Security Act for each year in the 35-year period ending with the year in which the Member attains his Social Security Retirement Age. In determining a Member's Covered Compensation for any calendar year, the taxable wage base for the current calendar year and any subsequent calendar year shall be assumed to be the same as the taxable wage base in effect as of the beginning of the calendar year for which the determination is made.
• Accrued benefit	This benefit is applicable for service rendered after December 31, 2005.
Normal retirement	
• Eligibility	The normal retirement age is 65.
• Benefit	The annual normal retirement allowance is 1.5% of the member's final average earnings up to Covered Compensation plus 1.9% of the member's final average earnings in excess of Covered Compensation, multiplied by the number of years of the member's credited service earned after December 31, 2005.
Early retirement	
• Eligibility	Any member who has attained age 55 and has completed 15 years of continuous service, or who has attained age 50 and has completed 20 years of continuous service and has been involuntarily terminated without cause, may retire or be retired on an early retirement allowance.
• Benefit	The early retirement allowance is a deferred allowance beginning at age 65, equal to the normal retirement allowance accrued to the date of early retirement. In lieu of the deferred allowance, the member may elect to receive an allowance commencing any time prior to his normal retirement date equal to the deferred early retirement allowance reduced by 1/3 of 1% for each month that early retirement allowance payments commence prior to the normal retirement date.
Late Retirement	
• Eligibility	A participant who retires after his normal retirement date
• Benefit	The benefit is determined as for a normal retirement benefit, based on final average earnings and credited service accrued at actual retirement date. This pension will not be less than the actuarial equivalent, as of the late retirement date, of the pension he would have received had he retired on his normal retirement date.
Deferred vested	
• Eligibility	Any member whose service is terminated other than by death or normal, early or disability retirement is eligible for a deferred vested retirement allowance.

Schedule SB, Part V — Summary of Plan Provisions

• Benefit	The vested retirement allowance is a deferred allowance beginning at age 65 equal to the normal retirement allowance accrued at the time of termination of service. If, on the date of his termination, the member has completed 15 years of continuous service but has not reached age 55, the member may, after attainment of age 55, elect to receive an allowance commencing any time prior to his normal retirement date reduced by 1/180 for each of the first 60 months that commencement of benefits precedes the former member's normal retirement date and 1/360 for each of the next 60 months.
Disability	
• Eligibility	In receipt of disability benefits under the Company's Long Term Disability Program.
• Benefit	During disability, members will accrue continuous and credited service towards normal, early or deferred retirement allowance.
Death	
• Eligibility	If a married member (i) dies in active service after meeting the requirements for any retirement allowance, or (ii) dies after retiring on any retirement allowance or after terminating service with a deferred vested retirement allowance, but in either case before payments begin, his surviving spouse receives a spouse's allowance, provided that they have been married throughout the one-year period ending on the date of death. The spouse's allowance will begin on the member's normal retirement date. However, if the member met the requirements for an early retirement allowance and either died in active service or retired on an early retirement allowance but did not begin receiving benefits, the spouse can elect to begin receiving benefits at any time before the member's normal retirement date. Furthermore, if any other member dies after having completed 15 years of continuous service, the spouse can elect to have payments begin any time after the member would have attained age 55.
• Benefit	The spouse's allowance is equal to the allowance which would have been payable to the spouse had the member terminated employment immediately prior to death and elected Option 4 below under Optional forms, but subject to a minimum benefit equal to 40% of the member's accrued benefit at time of death, reduced for commencement prior to the member's 65th birthday.
Form of Benefits	
• Automatic form for unmarried participants	Participants who are not married on the date benefits are to commence will receive a life annuity
• Automatic form for married participants	The retired participant will receive a reduced pension payable for life and payments in the amount of 60% of the reduced pension will, after the retired participant's death, be continued to the participant's spouse during the spouse's lifetime.
• Optional forms	Prior to the commencement of his retirement allowance, a member may elect to convert his allowance into a benefit of equivalent actuarial value in accordance with one of the optional benefits described below. 1. A retirement allowance payable for the member's life, with no allowance payable after his death. 2. Life annuity with benefits guaranteed for five years.

Schedule SB, Part V — Summary of Plan Provisions

3. A modified retirement allowance payable during the retired member's life, with the provision that after his death it will be continued during the life of and paid to the contingent annuitant nominated by him at the time he elected the optional benefit, if such contingent annuitant survives him.
4. A modified retirement allowance payable during the retired member's life, with the provision that after his death, an allowance at six-tenths the rate of his modified allowance will be continued during the life of and paid to the contingent annuitant nominated by him at the time he elected the optional benefit, if such contingent annuitant survives him.
5. A modified retirement allowance payable during the retired member's life, with the provision that after his death an allowance at one-half the rate of his modified allowance will be continued during the life of and paid to the contingent annuitant nominated by him at the time he elected the optional benefit, if such contingent annuitant survives him.
6. A modified retirement allowance payable during the retired member's life, with the provision that after his death, an allowance at three-quarters the rate of his modified allowance will be continued during the life of and paid to the contingent annuitant nominated by him at the time he elected the optional benefit, if such contingent annuitant survives him.
7. On early retirement, a member may elect to receive a pension prior to age 62 which is the actuarial equivalent of the pension otherwise payable to him, in such amounts that, with his primary Social Security benefit, he will receive approximately the same amount each year before and after Social Security benefits begin.
8. A lump sum benefit of equivalent actuarial value in lieu of the member's retirement allowance.
9. A modified retirement allowance with one-half of the amount paid in the form of Option 8 and one-half paid in the form of Options 1, 2, 3, 4, 5 or 6. However, if the resulting partial amount in the form of Options 1, 2, 3, 4, 5 or 6 is less than \$100 per month, this Option is not available.

If a member who has elected an optional benefit which has become effective dies in active service after attaining age 65, payments are made in accordance with the terms of the optional benefit.

Schedule SB, Part V — Summary of Plan Provisions**Definitions**

• Covered employees	Non-Union employees and former employees of Pernod Ricard USA, LLC who were employed as a result of the acquisition of Allied Domecq USA, who were members of the Retirement Plan of Allied Domecq USA and were part of the Spirits & Wine sector.
• Participation	Membership is limited to pre-April 1, 2001 plan participants who chose to remain under the final average pay formula rather than the cash balance formula. Participants earn benefits under the Future Service Formula for service rendered after December 31, 2005.
• Employee contributions	In no event will the total retirement (or beneficiary's) benefits payable under this plan be less than the accumulated employee contributions, with interest, calculated at date of benefit commencement.
• Vesting service	Generally means years and months of service from first of the month coincident with or following date of hire.
• Credited service	Defined as years of Continuous service not in excess of 35.
• Pensionable earnings	Includes regular wages, excluding bonuses and Director's fees, but including any salary reduction amounts under Section 401(k) or 125 of the Internal Revenue Code.
• Final average earnings	Defined as the average compensation over the 60 consecutive month period which affords the highest average within the 120-month period preceding the date of determination.
• Final average salary	Defined as the highest average compensation earned in any three years over the last ten years worked, multiplied by 25%.
• Covered Compensation	Defined as the average of the FICA Wage Bases over the 35 years ending with the year the participant attains Social Security retirement age.
• Accrued benefit	This benefit structure is applicable for service rendered before January 1, 2006.

Normal Retirement

• Eligibility	Age 65
• Benefit	Except as described below, 2% of Final average earnings less a percentage* of Covered Compensation, times years of Credited Service, but not less than the minimum benefit which is equal to \$480 times years of continuous service (and not less than \$2,400). <i>*The percentage is 0.60% for participants whose Social Security Retirement Age (SSRA) is 65, 0.55% for those whose SSRA is 66, and 0.50% for those whose SSRA is 67.</i> For those Participants who became members of the SERP prior to April 1, 1997, an amount equal to the sum of (A), (B), (C) and (D) below: (A) 32% of the Participant's Average Final Salary; (B) for each year of Credited Service in excess of 2 years but not in excess of 10 years, 16% of his Average Final Salary; (C) for each year of Credited Service in excess of 10 years but not in excess of 20 years, 8% of his Average Final Salary; (D) for each year of Credited Service in excess of 20 years but not in excess of 35 years, 2-2/3% of his Average Final Salary. For those Participants who became members of the SERP on or after April 1, 1997, a percentage equal to the sum of (A) and (B) below, subject to a maximum of 280%, multiplied by the Participant's Average Final Salary.

Schedule SB, Part V — Summary of Plan Provisions

	(A) 8% multiplied by the Participant's years of Credited Service earned prior to becoming a member of the SERP. (B) 12% multiplied by the Participant's years of Credited Service earned after becoming a member of the SERP.
Early Retirement	
• Eligibility	Age 55 or 30 years of continuous service, or member who has attained age 50 and has completed 20 years of continuous service and has been involuntarily terminated without cause.
• Benefit	2% of final average earnings times years of credited service, reduced by 3% for each year by which age at benefit commencement is less than 62. At age 62, or date of termination if later, the benefit is further reduced by a percentage of Covered Compensation, as described above (under "Normal or Deferred Retirement Benefit"). The benefit payable to a participant until age 62 is increased by the amount necessary to reach the minimum benefit level specified in the plan.
Late Retirement	
• Eligibility	A participant who retires after his normal retirement date
• Benefit	The benefit is determined as for a normal retirement benefit, based on final average earnings and credited service accrued at actual retirement date. This pension will not be less than the actuarial equivalent, as of the late retirement date, of the pension he would have received had he retired on his normal retirement date.
Deferred Vested	
• Eligibility	All plan participants whose employment is terminated on or after September 1, 2000 are 100% vested.
• Benefit	Equal to the normal retirement benefit computed on the basis of the participant's final average earnings and credited service at termination.
Disability	
• Eligibility	A participant who qualifies for disability benefits under the Company's Long Term Disability (LTD) plan on or after March 1, 1995 and prior to December 31, 2005.
• Benefit	The lesser of the Company's LTD plan benefit or the normal retirement benefit based on credited service at normal retirement date, and compensation and Covered Compensation at the time employment ceases on account of disability. The benefit is payable until the earlier of normal retirement date or the date LTD benefits end.
Supplemental Medicare benefit	Participants who retired directly from active service prior to March 1, 1994 and elected a monthly benefit receive an additional monthly benefit of \$45.00 (non-union) or \$40.00 (union) per month commencing on the later of the date the participant first became eligible for coverage under Medicare Part B or the participant's 65th birthday. Upon the participant's death, payments continue for the life of the beneficiary (if any), under the same form as the retirement benefit payable to the beneficiary. As of January 1, 2004, this benefit was eliminated for all Post-February 1994 retirees.
Pre-retirement death	
• Eligibility	Payable to beneficiary of a vested participant who dies prior to commencing receipt of benefits.

Schedule SB, Part V — Summary of Plan Provisions

-
- **Benefit**
 - i. If the participant dies after becoming eligible for early retirement, the beneficiary's benefit is equal to the benefit which such beneficiary would have received if the participant had retired on the first day of the month preceding the date of death with the 60% Joint and Survivor option (Option A) in effect.
 - ii. If the participant dies prior to becoming eligible for early retirement but after attainment of age 45 and completion of 15 years of continuous service, the beneficiary's benefit is equal to 60% of a normal retirement benefit computed on the basis of the participant's final average earnings and credited service as of the first of the month preceding death, reduced by 3% for each year preceding the participant's 62nd birthday and further reduced in accordance with provisions of Option A.
 - iii. If the vested participant dies before meeting the requirements specified in (i) and (ii) above, beneficiary may elect to begin receiving benefits as of the first day of any month. The benefit amount is similar to that of (ii) above but subject to higher reduction percentages.

| • Covered employees | Union former employees of the Kentucky Distillery. |
| • Participation | All union employees of the Company who were in service on April 1, 1974 became members upon the completion of one year of continuous service. All other union employees become members of the Plan as of the first day of the calendar month coincident with or next following the date he completes one year of continuous service. |
| • Employee contributions | None required or permitted. |
| • Vesting service | All service with the Company rendered by an employee prior to his retirement date. On and after April 1, 1975, if an employee works 1,000 hours or more in any Plan year, such Plan year counts as a full year of continuous service. |
| • Credited service | For any member who was an employee on April 1, 1974 includes continuous service prior to his date of membership. In addition, credited service for any member of the Plan includes continuous service as a member rendered prior to April 1, 1980. Commencing April 1, 1980 credited service shall be determined on the basis of the hours worked in the Plan year as follow: |

Number of Hours of Service During Plan Year	Credited Service Earned During Year
Less than 333	None
333, but less than 667	1/3 of year

	than the employee's continuous service before such break, the employee's continuous service rendered before the break in continuous service is excluded.
• Hour of Service	Each hour for which an employee is directly or indirectly paid, or entitled to payment, for the performance of duties.
Normal retirement	
• Eligibility	The normal retirement age is 65. Benefit accrual may be extended beyond age 65 as long as the 45-year credited service maximum is not reached.
• Benefit	The monthly normal retirement allowance is equal to \$26.00 if retirement is on or after April 1, 2003, (\$28.00 if retirement is on or after April 1, 2004, \$29.00 if retirement is on or after April 1, 2006, \$30.00 if retirement is on or after April 1, 2007, and \$32.00 if retirement is on or after April 1, 2008) multiplied by the number of years of the member's credited service, not in excess of 45.
Early retirement	
• Eligibility	A member who has attained age 50 and has completed 10 years of continuous service may retire on an early retirement allowance.
• Benefit	The early retirement allowance is a deferred allowance commencing on the member's normal retirement date and is computed as a normal retirement allowance based on the member's credited service at the time of early retirement. In lieu of the deferred allowance, the member may elect to receive an immediate allowance in a reduced amount equal to the deferred allowance reduced by 1/3% for each month the commencement of early retirement allowance payments precedes the member's normal retirement date.
Late retirement	
• Eligibility	A participant who retires after his normal retirement date
• Benefit	The benefit is determined as for a normal retirement benefit, based on credited service accrued at actual retirement date. This pension will not be less than the actuarial equivalent, as of the late retirement date, of the pension he would have received had he retired on his normal retirement date.
Deferred vested	
• Eligibility	A member who has completed 5 years of continuous service who has terminated employment for reasons other than normal, early, or disability retirement or death, may be retired on a vested deferred retirement allowance.
• Benefit	The vested deferred retirement allowance is a deferred allowance, commencing on the member's normal retirement date and is computed as a normal retirement allowance based on the member's credited service at the time of his termination of employment and the benefit formula in effect on that date. In lieu of such deferred allowance, if a member has completed 10 years of continuous service by his date of termination, a member may, upon attainment of age 50, elect to receive his retirement allowance prior to his normal retirement date reduced by 1/3% for each month commencing of payments precedes the members normal retirement date.

Schedule SB, Part V — Summary of Plan Provisions

Disability	
• Eligibility	A member who has attained age 40 and has completed 10 years of continuous service may be retired on a disability retirement allowance, provided such member is eligible for such disability benefit under the terms of the Plan.
• Benefit	The monthly disability retirement allowance is an immediate allowance of equal to the member's normal retirement allowance based on the member's credited service at the time of disability retirement reduced by 1/6% for each month the commencement of the disability retirement allowance payments precedes the member's normal retirement date (benefit is unreduced if disability retirement is on or after April 1, 1997).
Death	
• Eligibility	If a married member (i) dies in active service after meeting the requirements for any retirement allowance, or (ii) dies after retiring on any retirement allowance or after terminating service with a vested deferred retirement allowance, but in either case before payments begin, his surviving spouse receives a spouse's allowance, provided that they have been married throughout the one year period ending on the date of death. The spouse's allowance will begin on the member's normal retirement date. However, if the member met the requirements for an early retirement allowance and either died in active service or retired on an early retirement allowance but did not begin receiving benefits, the spouse can elect to begin receiving benefits at any time before the member's normal retirement date. Furthermore, if any other member dies after having completed 10 years of continuous service, the spouse can elect to have payments begin any time after the member would have attained age 50.
• Benefit	The monthly allowance payable is equal to six-tenths of the modified allowance which would have been payable to the member had he elected an immediate early retirement allowance or vested deferred retirement allowance under Option 4 just prior to his death.
Form of benefits	
• Automatic form for unmarried participants	Participants who are not married on the date benefits are to commence will receive a life annuity
• Automatic form for married participants	The retired participant will receive a reduced pension payable for life and payments in the amount of 60% of the reduced pension will, after the retired participant's death, be continued to the participant's spouse during the spouse's lifetime.
• Optional forms	Prior to the commencement of his retirement allowance, a member may elect to convert his allowance into a benefit of equivalent actuarial value in accordance with one of the options described below: 1. A modified retirement allowance payable during the retired member's life, with no allowance payable after his death. 2. Life annuity with benefits guaranteed for five years. 3. A modified retirement allowance payable during the retired member's life, with the provision that after his death it will be continued during the life of and paid to the contingent annuitant nominated by him when he elected the option. 4. A modified retirement allowance payable during the retired member's life, with the provision that after his death an allowance at one-half the

Schedule SB, Part V — Summary of Plan Provisions

rate of his modified allowance will be continued during the life of and paid to the contingent annuitant nominated by him when he elected the option.

5. A modified retirement allowance payable during the retired member's life, with the provision that after his death, an allowance at six-tenths the rate of his modified allowance will be continued during the life of and paid to the contingent annuitant nominated by him at the time he elected the optional benefit, if such contingent annuitant survives him.
6. A modified retirement allowance payable during the retired member's life, with the provision that after his death, an allowance at three-quarters the rate of his modified allowance will be continued during the life of and paid to the contingent annuitant nominated by him when he elected the option.
7. On early retirement, a member may elect to receive a pension prior to age 62 which is the actuarial equivalent of the pension otherwise payable to him, in such amounts that, with his primary Social Security benefit, he will receive approximately the same amount each year before and after Social Security benefits begin.

If the contingent annuitant selected is other than the member's spouse, in no event shall the value of the retirement allowance payable to the member be less than 51 percent of the total value of the benefits payable under the option to the member and his contingent annuitant.

Continuous service" at termination or retirement shall not be less than a percentage of a member's total seniority service (as defined in the union contract, if any, applicable to the member) determined according to the following schedule:

Seniority Service	Percentage
30 or more years	80%
25-29	84
20-24	88
15-19	92
10-14	96
3-9	100

For certain DWU employees, the member's pension was amended to reflect the Service Adjustment Increase

- Final average earnings The average compensation paid a member during the 5 years in the 10-year period immediately preceding his retirement date or vested termination which provides the highest such average. Each year's compensation excludes commissions, bonuses, certain overtime pay, annuities or any other special or contingent payments and may not exceed the limit imposed by IRC Section 401(a)(17).

Normal retirement

- Eligibility Age 65.
- Benefit On retirement at or after his normal retirement date, a member receives an annual pension computed as follows: 1% of the portion of his final average earnings up to \$4,200, plus 1-1/2% of the portion in excess of \$4,200, multiplied by years of continuous service to the retirement date but not in excess of 35 years.

Early retirement

- Eligibility Age 50 and 20 years of continuous service or age 55 and 15 years of continuous service or after age 60 and not eligible for a special early retirement pension.
- Benefit The annual pension, computed in the same way as a normal retirement pension on the basis of the member's final average earnings and continuous service at his early retirement reduced by 1/4% for each month that payments commence prior to age 65.

Special Early retirement

- Eligibility 25 years of continuous service and the sum of his years of age and years of continuous service at retirement is equal to at least 80.
- Benefit The special early retirement pension is computed in the same way as the normal retirement pension on the basis of the member's final average earnings and continuous service at his special early retirement reduced by 1/4% for each month that payments commence prior to age 55.

Late retirement

- Eligibility A participant who retires after his normal retirement date
- Benefit The benefit is determined as for a normal retirement benefit, based on final average earnings and credited service accrued at actual retirement date. This pension will not be less than the actuarial equivalent, as of the late

retirement date, of the pension he would have received had he retired on his normal retirement date.

Vested Retirement

- **Eligibility** 25 years of continuous service or age 45 with at least 15 years of continuous service.
- **Benefit** A deferred vested pension which is computed in the same way as the early retirement pension. In lieu of this deferred pension a member may elect to receive a vested pension commencing at any time after age 55. A member who had completed 20 or more years of continuous service may elect to receive a vested pension any time after age 50. The vested pension commencing prior to age 65 is reduced by 1/4% for each month that payments commence prior to age 65.

Deferred vested

- **Eligibility** 5 years of continuous service.
- **Benefit** On vested termination, a member receives a deferred vested pension which is computed in the same way as the early retirement pension. In lieu of this deferred pension a member may elect to receive a vested termination pension commencing at any time following the attainment of the minimum age as set forth below.

Years of Continuous Service at Vested Termination Date	Minimum Age
20 or more	50
15 but less than 20	55
5 but less than 15	60

The vested termination pension commencing prior to age 65 is equal to the deferred termination pension reduced as follows:

Number of Full Years Before Normal Retirement	Reduction Factor	Number of Full Years Before Normal Retirement	Reduction Factor
1	.08	9	.50
2	.16	10	.54
3	.22	11	.57
4	.28	12	.60
5	.34	13	.63
6	.38	14	.66
7	.42	15	.69
8	.46		

Disability

- **Eligibility** 10 years of continuous service upon determination of his disability by the Retirement Board.
- **Benefit** The disability retirement pension commences immediately and is computed in the same way as the deferred early retirement pension without any reductions for early commencement. Such disability retirement pension is reduced by any amounts payable to the member on account of his disability under any sick leave or salary continuation

Schedule SB, Part V — Summary of Plan Provisions

	program of the Employing Company or as a result of amounts paid by the Employing Company under any Workmen's Compensation Law.
Death	
• Eligibility	Upon the death before retirement of a member prior to his normal retirement date but after completing 5 years of continuous service or attaining age 60, his spouse is entitled to a spouse's benefit.
• Benefit	The spouse's benefit is computed as though the member had retired on his date of death and had elected to receive his early or special early retirement pension on the first day of the next calendar month in a reduced amount payable to him for his life with a provision that 60% of such reduced amount would be continued after his death to his spouse as his duly designated beneficiary. The minimum monthly spouse's benefit on behalf of any Member is \$125.
Form of benefits	
• Automatic form for unmarried participants	Participants who are not married on the date benefits are to commence will receive a five year certain and life annuity.
• Automatic form for married participants	If the member is married at the time of his retirement, the normal form of pension is a 60% joint and survivor pension with the member's spouse as beneficiary. Such member may elect an optional benefit. Regardless if the member is married or if an optional benefit was elected, a total of 60 monthly pension payments will be made.
• Optional forms	Prior to his retirement, a member may elect to have his pension adjusted to provide a reduced amount payable to him for his life with a provision that 100%, 75%, 60% or 50% of such reduced pension will be continued after his death during the life of a contingent annuitant. On early, special early, vested retirement or vested termination, a member may elect to receive a pension prior to age 62 which is the actuarial equivalent of the pension otherwise payable to him, in such amounts that, with his primary Social Security benefit, he will receive approximately the same amount each year before and after Social Security benefits begin.

Benefits included or excluded

Unless noted below, all benefits provided by the plan, as restated effective January 1, 2017 and amended through the Second Amendment, are included in this valuation:

- **Most recent plan amendments included:** The Second Amendment, effective December 1, 2017, to the January 1, 2017 restated plan are reflected in this valuation.
- **Plan amendments excluded:** None
- **Late retirement increases:**
 - *Active participants:* The plan applies late retirement actuarial increases for all participants who defer retirement beyond their normal retirement date and this valuation includes those increases.
- **Internal Revenue Code limitations:** The limitations of Internal Revenue Code Section 415(b) and 401(a)(17) have been incorporated into our calculations.

Schedule SB, Part V — Summary of Plan Provisions

- **IRC Section 416 rules for top-heavy plans:** We did not test whether this plan is top-heavy (when the present value of benefits for key employees equals or exceeds 60% of the present value for all participants). However, we expect that the plan is not top-heavy due to the large number of rank-and-file participants; therefore, the funding target and target normal cost do not reflect any liability for top-heavy benefit accruals.

Plan provisions specific to funding**Additional benefits included or excluded**

- **IRC Section 436 benefit restrictions:**
 - *Unpredictable contingent event benefits:* This valuation excludes restricted contingent event benefits that occurred before the valuation date but includes contingent event benefits for events that are expected to occur on or after the valuation date regardless of anticipated funding-based limitations.
 - Plan amendments: See above.
 - *Prohibited payments:* Limitations on prohibited benefits (if any) are reflected for annuity starting dates before the valuation date but are ignored for annuity starting dates on or after the valuation date.
 - *Benefit accruals:* The plan's funding target does not reflect any limitation on benefit accruals. The target normal cost does not reflect any limitation on benefit accruals.
- **Unpredictable contingent event benefits:** The plan does not have any unpredictable contingent event benefits.
