Report of Independent Auditors

To the Administrator of the Long-Term Disability Plan for Hourly Employees:

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed an audit of the accompanying financial statements of the Long-Term Disability Plan for Hourly Employees (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits and of plan benefit obligations as of December 31, 2024 and 2023, and the related statements of changes in net assets available for benefits and of changes in plan benefit obligations for the year ended December 31, 2024, including the related notes (collectively referred to as the "financial statements").

Management, having determined it is permissible in the circumstances, has elected to have the audit of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audit need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of December 31, 2024 and 2023 and for the year ended December 31, 2024, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audit and on the procedures performed as described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report:

- The amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- The information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (US GAAS). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with US GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with US GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audit did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter – Supplemental Schedule Required by ERISA

The supplemental Schedule H – Line 4i – Schedule of Assets (Held at End of Year) as of December 31, 2024 (“supplemental schedule”), is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with US GAAS. For information included in the

supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. In our opinion:

- The form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, is presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- The information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

**Long-Term Disability Plan for Hourly Employees
Notes to Financial Statements**

1. Description of the Plan

The following brief description of the Long-Term Disability Plan for Hourly Employees (the “Plan”) is provided for general information purposes only. The provisions of the Plan are detailed in the official Plan document, which legally governs the operations of the Plan. Participants should refer to the Summary Plan Description document or the Plan document for more complete information.

General

The Plan is a non-contributory welfare plan subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (“ERISA”). The Plan covers hourly-paid active employees of Philip Morris USA Inc., and eligible employees of U.S. Smokeless Tobacco Products LLC and John Middleton Co. (collectively the “Participating Companies”). The Participating Companies are subsidiaries of Altria Group, Inc. (“Altria”). Plan benefits are paid from a trust known as the Altria Client Services Long-Term Disability Trust (the “Trust”) that constitutes a voluntary employees’ beneficiary association (“VEBA”) within the meaning of Section 501(c)(9) of the Internal Revenue Code of 1986, as amended (the “Code”).

The administration of the Plan has generally been delegated to the Administrator, as defined in the Plan document (the “Plan Administrator”). The Plan is sponsored by Altria Client Services LLC, as defined in the plan document (the “Plan Sponsor”). The Altria Group Benefits Investment Committee is responsible for the operation and management of the investment of the assets of the Trust. Collectively, these individuals or entities serve as the Fiduciaries to the Plan.

Plan Participation and Plan Benefits

The Plan was established to provide financial assistance to employees in the event they can no longer work because of a disabling illness or injury which qualifies them for disability benefits under the Social Security Act, or for eligible employees not eligible for disability benefits under the Social Security Act, as determined by the Plan Administrator. Active, eligible hourly, full-time employees become participants in the Plan after completing three months of active service.

After a six-month waiting period, benefits paid under the Plan are based on the employee’s base pay and years of service at the time the Social Security Administration determines the employee is disabled. If the employee is disabled before age 65 and has completed less than 15 years of service, the maximum benefit payable from the Plan after all deductible benefits (e.g., workers’ compensation, Social Security disability, etc.) have been subtracted may not exceed 50% of the employee’s base pay at the date of his or her disability, and benefits plus income from all company-contributed sources cannot exceed 70% of annual base earnings. If the employee has completed 15 years or more of service and is eligible for a benefit from the Altria Retirement Plan, benefits payable before age 65 are based on the greater of the formula described above or a formula based on benefits earned under the Altria Retirement Plan, which are offset (reduced) by the benefits actually paid from the Altria Retirement Plan. Employees who are considered match-eligible employees under the Deferred Profit-Sharing Plan for Hourly Employees are only eligible for the less than 15 years of service benefits described in this paragraph and are not eligible for post-age 65 benefits under the Plan discussed below.

In general, benefits are recalculated at age 65, provided an eligible employee has completed at least five years of service. The new benefit amount is the difference between (i) the amount the employee would have received from the Altria Retirement Plan had they continued working to age 65 at the same base pay at the time of their disability and (ii) the actual benefit paid from the Altria Retirement Plan.

Benefits under the Plan are paid in the form of monthly income replacement. No lump sum or annuity conversion options are available under the Plan.

**Long-Term Disability Plan for Hourly Employees
Notes to Financial Statements**

2. Summary of Significant Accounting Policies

Basis of Presentation

The financial statements are prepared using the accrual basis of accounting. As part of the preparation of the financial statements, the Plan's management performed an evaluation of subsequent events occurring after the Statement of Net Assets Available for Benefits date of December 31, 2024, through October 2, 2025, the date the financial statements were available to be issued.

Certain prior year amounts have been reclassified to conform with the current year's presentation.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America ("U.S. GAAP") requires management to use estimates and assumptions that affect the reported amounts of assets, liabilities, benefit obligations and changes therein, claims incurred but not reported, and claims payable at the date of the financial statements. Actual results could differ from those estimates.

Interest in Trust

The Trust, a master trust for which JPMorgan Chase Bank, N.A. (the "Trustee") serves as the trustee, holds the investments of the Plan and the Long-Term Disability Plan for Salaried Employees maintained for the employees of Altria and certain of its subsidiaries.

The Plan's interest in the Trust is determined monthly by adding to or deducting from its interest at the beginning of each month the contributions to and benefit payments from the Plan's interest in the Trust made during the month and a proportionate share of the other changes in the Trust's net assets (related principally to investment activities), based on the relative interest of the Plan in the Trust at the beginning of the month.

The Plan's undivided interest in the Trust's net assets is reflected in the Statements of Net Assets Available for Benefits. Interest and dividend income and net appreciation (depreciation) in the fair value of investments reflected in the Statement of Changes in Net Assets Available for Benefits represent the Plan's allocated share of the Trust's investment activities.

Valuation of the Trust's Investments and Income Recognition

The Trust investment assets are reported at fair value. See Note 5 - *Fair Value Measurements* for a detailed discussion of fair value measurements.

Investment transactions are accounted for on a trade-date basis. Dividend income is recorded on the ex-dividend date; interest income is recorded as earned on an accrual basis. In accordance with the policy of stating investments at fair value, the net appreciation (depreciation) in the fair value of investments reflects both realized gains or losses and the change in the unrealized appreciation (depreciation) of investments held at year-end.

Risks and Uncertainties

The Trust invests in various investment securities. Investment securities, in general, are exposed to various risks, such as interest rate risk, credit risk, and overall market volatility. The financial markets, both domestically and internationally, can experience significant volatility on a daily basis that affects the valuation of investments. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur and that such changes could materially affect the amounts reported in the financial statements.

**Long-Term Disability Plan for Hourly Employees
Notes to Financial Statements**

Plan contributions are made and the actuarial present value of benefit obligations is reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimation and assumption process, it is at least reasonably possible that changes in these estimates and assumptions in the near term could be material to the financial statements.

Employer Contributions

Participating Companies pay the entire cost of the benefits payable under the Plan and the expenses of the Trust. However, the Participating Companies do not have a legal obligation to make any contributions to the Trust. This includes any liability to fund any deficit in net assets of the Plan.

Annually, Altria determines if employer contributions will be made to the Trust to fund the obligations with respect to the Plan. As a part of this evaluation, Altria periodically obtains from Willis Towers Watson (the “Actuary”) an actuarial calculation of the maximum allowable tax deductible contribution for the plan year determined in accordance with the Code pertaining to qualified asset account limits for welfare benefit funds. Contribution decisions consider such factors as expected investment performance or contemplated plan design changes and impact of an imposition of unrelated business income tax. As a result, the amount contributed may vary from year to year based upon all these factors. There were no employer contributions in 2024.

Changes in Disability Benefits

Changes in disability benefits during the year include increases in the estimated actuarial liabilities for amounts which are expected to be payable in future years for claims reported and approved, pending claims, and claims incurred but not reported, offset by reductions for claims paid during the year. Liabilities for claims were discounted to their estimated present values at a rate of 5.50% in 2024 and 5.20% in 2023.

Approved claims represent claims currently in pay status, and pending claims are for participants who have completed the six-month waiting period but are pending disability approval under the Plan.

Plan obligations at December 31 for claims incurred but not reported are estimated by the Actuary in accordance with accepted actuarial principles based on claims data provided by the Plan’s third-party claims administrators. These amounts are paid by the Plan only if claims are submitted and approved for payment.

Postretirement and Postemployment Benefit Obligations

Postretirement benefit obligations represent the actuarial present value of those estimated future benefits that are attributed to employee service rendered to December 31 of the respective year. Postretirement benefits include future benefits expected to be paid to or for currently disabled, retired or terminated employees who are at least age 65 and their beneficiaries and dependents.

The actuarial present value of the expected postretirement benefit obligation is determined by the Actuary. It is calculated by applying actuarial assumptions to historical claims-cost data to estimate future annual incurred claims costs per participant adjusted for the time value of money (through discounts for interest) and the probability of payments (by means of decrements such as those for death, withdrawal or retirement) between the valuation date and the expected date of payment.

Postemployment benefit obligations at December 31 for future disability payments to eligible employees less than 65 years old are estimated by the Actuary in accordance with accepted actuarial principles. Such estimated amounts are reported on the Statements of Plan’s Benefit Obligations at present value.

**Long-Term Disability Plan for Hourly Employees
Notes to Financial Statements**

The more significant assumptions underlying the actuarial computations at December 31, 2024 and 2023 are as follows:

Discount rate	5.50% for 2024 and 5.20% for 2023
Termination rates	2024 and 2023: Based on 2016 Group Long-Term Disability Table (“GLTD”) termination rates modified as follows: 60% of 2016 GLTD in years 1-2; 80% in years 3-4; 100% thereafter
Statutory benefits	Actual benefits are used for approved disabled employees. For pending disabled employees, the benefit from the Plan is estimated based on the Plan provisions, reported income and the estimated Social Security disability offset.
Administrative expenses	2024 and 2023: 5% expense load

The foregoing assumptions are based on the presumption that the Plan will continue indefinitely. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the Plan’s benefit obligations.

The net decrease in the Plan’s benefit obligations during 2024 is primarily due to claims paid, partially offset by interest cost.

Payment of Claims

Claim payments to participants are recorded when paid.

3. Trustee Certification

Certain information in the accompanying financial statements and ERISA-required supplemental schedule related to investments, investment related receivables and liabilities held as of December 31, 2024 and 2023, and related investment income for the year ended December 31, 2024, was obtained by management and agreed to or derived from information certified as complete and accurate by the Trustee.

The certified information as of December 31, 2024 and 2023 and for the year ended December 31, 2024 is as follows:

	2024	2023
Plan’s interest in Trust	\$ 19,889,168	\$ 23,879,399
Plan’s interest in investment income from Trust:		
Interest and dividend income		\$ 567,185
Net appreciation in fair value of investments		1,017,955

5. Fair Value Measurements

Certain assets and liabilities are measured at fair value. Fair value is defined as the exchange price that would be received to sell an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date. Altria uses a fair value hierarchy, which gives the highest priority to unadjusted quoted prices in active markets for identical assets and liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of inputs used to measure fair value are:

Level 1 - Unadjusted quoted prices in active markets for identical assets or liabilities.

Level 2 - Observable inputs other than Level 1 prices, such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities.

Level 3 - Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities.

The Trust held no investments classified in Level 3 of the fair value hierarchy at December 31, 2024 and 2023. Following is a description of the valuation methodologies used for investments measured at fair value.

Trust Investments:

Common and Preferred Stock

Common and preferred stocks are valued based on the price of the security as listed on an open active exchange on last trade date.

U.S. Government Securities

U.S. Government securities consist of investments in U.S. treasury inflation protected securities, U.S. treasury nominal securities and U.S. municipal bonds. U.S. Government securities are valued at a price that is based on a compilation of primarily observable market information, such as broker quotes. Matrix pricing, yield curves and indices are used when broker quotes are not available.

Corporate Debt Instruments

Corporate debt instruments are valued at a price that is based on a compilation of primarily observable market information, such as broker quotes. Matrix pricing, yields curves and indices are used when broker quotes are not available.

Other Financial Statement Line Items:

Interest-bearing cash held directly by the Plan is recorded at cost plus accrued interest, which approximates fair value. Although not included in the fair value hierarchy table, this amount is considered a Level 1 measurement.

The methods described above are not necessarily indicative of net realizable value or reflective of future fair values, nor is categorization of a security in any particular valuation level necessarily an indication of the risk associated with an investment in that security. Furthermore, while the Plan's management believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The table below reports by level, within the fair value hierarchy, the Trust investments at fair value as of December 31, 2023:

<i>(In Millions)</i>	Level 1	Level 2	Total
Common stock	\$ 35	\$ —	\$ 35
U.S. Government securities	—	13	13
Corporate debt instruments	—	2	2
Preferred stock	1	—	1
Total investments at fair value	\$ 36	\$ 15	\$ 51

6. Termination Priorities

Altria has reserved the right to terminate the Plan. In the event of a termination of the Plan (including a discontinuance of contributions having the effect of a Plan termination), the Plan provides that the Trust’s net assets with respect to the Plan shall be used to provide for the full payment of disability allowances or, if insufficient funds are available, a pro rata share according to the amount of the respective allowances.

7. Tax Status

On October 17, 1974, the Internal Revenue Service (“IRS”) determined that the Trust from which benefits under the Plan are payable is a VEBA that is exempt from federal income taxes under Section 501(c)(9) of the Code. By letters dated October 14, 1977 and September 27, 2006, the IRS confirmed that changes to the Trust had not impacted this status. On May 14, 2018, the Plan Administrator informed the IRS of the removal of the Survivor Income Benefit Plan for Salaried Employees as a plan funded through the VEBA, as well as the 2017 change in the name of the VEBA Trust from Altria Client Services Long-Term Disability and Survivor Income Benefit Trust. The Plan Administrator believes that the Trust provides only benefits that may be provided by a VEBA (“permissible benefits”) as described in the Regulations under Section 501(c)(9) of the Code, and the Trust continues to operate in accordance with the terms of the trust agreement by paying only permissible benefits in a manner that does not jeopardize the tax status of the Trust. In addition, the Plan Administrator believes that the Plan is being operated in compliance with the applicable requirements of the Code.

U.S. GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain tax position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax

periods in progress. The tax provisions of the Plan have been analyzed as of December 31, 2024 and 2023 and there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements.

8. Related Party and Party-in-Interest

Fidelity Workplace Services LLC, the record keeper, utilizes an interest-bearing cash account for pending disbursement of participant benefits. This investment and transactions in this investment do not constitute prohibited transactions under ERISA.

9. Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements to the Form 5500 at December 31, 2024 and 2023:

	<u>2024</u>	<u>2023</u>
Net assets available for benefits per the financial statements	\$ 20,270,725	\$ 24,256,899
Claims incurred but not reported	(210,213)	(109,710)
Pending disability benefits payable	(278,805)	—
Net assets available for benefits per the Form 5500	<u>\$ 19,781,707</u>	<u>\$ 24,147,189</u>

The following is a reconciliation of claims paid per the financial statements to the Form 5500 for the year ended December 31, 2024:

	<u>2024</u>
Claims paid per the financial statements	\$ 5,210,059
Decrease in claims incurred but not reported	100,503
Decrease in pending disability benefits payable	278,805
Claims paid per the Form 5500	<u>\$ 5,589,367</u>

Claims and premiums that have been processed and approved for payment at year-end, but not paid and claims incurred but not reported are not considered liabilities under U.S. GAAP and, therefore, are not presented as liabilities or claims and premiums paid in the accompanying financial statements, but are recorded on the Form 5500 as a liability.
