## Independent Auditor's Report

To the Plan Administrator  
Non-Contributory Retirement Program for Certain  
Employees of Blue Cross and Blue Shield of  
Mississippi, a Mutual Insurance Company  
(Plan No. 230)

### **Opinion**

We have audited the financial statements of Non-Contributory Retirement Program for Certain Employees of Blue Cross and Blue Shield of Mississippi, a Mutual Insurance Company (Plan No. 230) (the "Program"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statements of net assets available for retirement program benefits (in liquidation) as of December 31, 2024 and the related statements of changes in net assets available for retirement program benefits (in liquidation) for the year then ended, and the related notes to the financial statements.

In our opinion, the accompanying financial statements referred to above present fairly, in all material respects, the net assets available for retirement program benefits (in liquidation) of the Program as of December 31, 2024 and the changes in net assets available for retirement program benefits (in liquidation) for the year then ended on the liquidation basis of accounting described in Note 2.

### **Basis for Opinion**

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are required to be independent of the Program and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

### **Emphasis of Matter**

As discussed in Notes 1 and 2 to the financial statements, the program sponsor terminated the Program effective August 1, 2023. The financial statements and supplemental schedule are prepared on the liquidation basis of accounting. Our opinion is not modified with respect to this matter.

### **Responsibilities of Management for the Financial Statements**

Management is responsible for the preparation and fair presentation of the financial statements in accordance with GAAP and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Program's ability to continue as a going concern within one year after the date that the financial statements are issued or available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments; administering the Program; and determining that the Program's transactions that are presented and disclosed in the financial statements are in conformity with the Program's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or that may become due to such participants.

### **Auditor's Responsibilities for the Audit of the Financial Statements**

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and, therefore, is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

To the Plan Administrator  
Non-Contributory Retirement Program for Certain  
Employees of Blue Cross and Blue Shield of  
Mississippi, a Mutual Insurance Company  
(Plan No. 230)

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances but not for the purpose of expressing an opinion on the effectiveness of the Program's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

#### **Supplemental Schedules Required by ERISA**

Our audit was conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedules of assets held at end of year (in liquidation) as of December 31, 2024 and reportable transactions (in liquidation) for the year ended December 31, 2024 are presented for the purpose of additional analysis and are not a required part of the financial statements but are supplemental information required by the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of the Program's management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, including their form and content, are presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying schedules is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content are presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

#### **Report on Prior Year Financial Statements**

The financial statements of the Program as of and for the year ended December 31, 2023 were audited by other auditors, whose report dated September 26, 2024 expressed an unmodified opinion on those statements.

## **1. Description of the Program**

The following description of the Non-Contributory Retirement Program for Certain Employees of Blue Cross and Blue Shield of Mississippi, A Mutual Insurance Company (Plan No. 230) (the Program) provides only general information. Participants should refer to the Program agreement for a complete description of the Program provisions.

### ***General***

The Program is a defined benefit pension plan covering eligible employees or participants of Blue Cross and Blue Shield of Mississippi, A Mutual Insurance Company (the Sponsor) and participating employers as of December 31, 2006, who completed one year of service, reached the age of 21, and remain continuously employed (the Covered group). The Program was amended effective January 1, 2007 to close participation to new entrants as of December 31, 2006. The Program was amended effective December 31, 2020 to cease benefit accruals for all participants. The Program is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA).

The trustee of the Program is The Northern Trust Company (the Trustee or Northern Trust).

### ***Contributions***

The Sponsor makes annual contributions to the Program to fund the retirement benefits to be paid to Program participants and their beneficiaries. Annual contributions to the Program are determined by the Sponsor in consultation with the Program's actuary.

The Program met the minimum funding requirements of ERISA for 2024 or 2023.

### ***Program Termination***

As discussed above, the Program froze all benefit accruals as of December 31, 2020. By authorization of the Board of Directors, the Sponsor resolved to proceed with the steps needed to terminate its retirement program and its funding through the National Retirement Trust (the Trust), a 103-12 investment entity.

Pursuant to the Board of Directors authorization in August 2020, the proper officers of the Sponsor were authorized and directed to take actions to terminate the Program effective as of an unspecified future date, including the purchase of annuity contracts. Effective August 1, 2023, the Program was amended to formally terminate the Program including distribution of all of the Trust's assets held for the benefit of Program participants. The Sponsor has the right under the Program agreement to discontinue Program contributions at any time and to terminate the Program subject to the provisions of ERISA. The termination amendment confirms the vesting, to the extent necessary, of accrued benefits of affected participants as of the Program termination date.

In connection with the termination, lump sum payments to participants under a one time window of \$59.4 million were paid on June 2, 2025. In July 2025, the Sponsor entered a group annuity contract with an annuity carrier. Assets of \$25.2 million were transferred from the Trust to pay the initial premium on the contract. In accordance with the group annuity contract, the annuity carrier will assume the benefit obligation for all remaining participants effective October 1, 2025. The annuity contract is intended to preserve all benefits rights and options previously provided by the Program.

The annuity carrier will calculate any applicable refund to the Trust based on the true up and final premium adjustments. The Program is expected to transfer any remaining assets to a qualified replacement plan as defined under Section 4980(d) of the Code, which is administered by the NEBC or to the Sponsor up to the maximum allowed by the Department of Labor (DOL) Prohibited Transaction Exemption 2023-08.

During 2024, the Sponsor received repayment of \$30.0 million as permitted by DOL Prohibited Transaction Exemption 2023-08.

The following paragraphs describe the policies applicable to the Program prior to its termination.

**Benefits**

Employees who meet the criteria of the Covered group and completed five or more years of vesting service are entitled to annual pension benefits beginning at normal retirement age (as defined below) equal to 1.5% of the participant's monthly final average salary as of December 31, 2020 times his or her years of credited service as of December 31, 2020, up to 35 years, plus 0.5% of the difference between his or her monthly final average earnings and \$833.33, multiplied by years of credited service as of December 31, 2020, up to 35 years. Salary and service after December 31, 2020 are not counted as the Program ceased benefit accruals for all participants effective December 31, 2020. Minimum benefits are provided for some employees who were Program participants at the time of past Program amendments. The break-in-service rules were amended for new participants effective July 1, 2000, providing that prior service credit be counted only if the participant's break-in-service did not exceed five years, or they were vested during their first period of employment.

Pension benefits become non-forfeitable (vested) at the completion of five years of vesting service. Normal retirement age under the Program is age 65 with provisions for early and late retirement.

Participants who have attained age 55 and completed five years of service may elect to receive a retirement Program benefit upon attaining normal retirement age or earlier, on the first day of any month on or after employment termination. The benefit is calculated using the normal retirement benefit formula. The benefit may be reduced for early commencement for benefits that start before age 65. Participants may elect the benefit be paid as a monthly lifetime annuity (50% joint pension, if married), or as an optional form of payment available under the Program (provided written consent of the participant's spouse).

A pre-retirement death benefit is paid to a participant's spouse, or if the participant is not married, to his or her designated beneficiary, if the participant dies after completing five years of service and his or her pension has not commenced. The survivor pension is equal to the amount specified in the Program agreement. The spousal benefit is payable on the date the participant would have attained age 65, or, if the spouse elects, the earliest date the participant could have retired. The benefit to a designated beneficiary of an unmarried participant is payable the first day of the month following the participant's death.

The latest date for commencement of benefits is the 60th day after the end of the calendar year in which the latest of the following dates occurs: attain age 65, 10-year anniversary of a participant's first date of Program participation, or employment termination date. The Program was amended on December 29, 2010 to add a simultaneous death benefit provision to the pre-retirement survivor death benefit and to clarify that participants may submit their benefit elections on the benefit commencement date (first day of the month), provided a benefit is payable beginning on such benefit commencement date, if the participant is living on such benefit commencement date.

***Program Amendments***

Effective August 1, 2023, the Program was amended to formally terminate the Program following distribution of all the Trust's assets held for the benefit of Program participants; to offer a special one-time termination window benefit as of the final asset distribution date for all vested active employee participants and terminated-vested participants under age 55; and to transfer surplus pension assets to a qualified replacement plan.

The Program was amended July 24, 2023 to change the starting age for required minimum distributions (RMDs), as required by the SECURE Act and SECURE 2.0 Act, as follows: effective January 1, 2020, with respect to participants who attain age 70-1/2 after December 31, 2019 and attain age 72 before January 1, 2023, the starting age for RMDs is changed from 70-1/2 to 72; and effective January 1, 2023, with respect to participants who attain age 72 after December 31, 2022 the starting age is age 73 (instead of age 72).

The Program was amended during 2023 to restore omitted language with respect to the lump sum methodology for converting a monthly benefit to a lump sum.

## **2. Significant Accounting Policies**

### ***Basis of Accounting***

As discussed in Note 1 to the financial statements, the Plan was terminated effective August 1, 2023. As a result, the financial statements and supplemental schedules were prepared on the liquidation basis of accounting in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP).

Under the liquidation basis of accounting, assets are measured to reflect the estimated amount of cash expected to be collected upon settling or disposing of the assets during the liquidation process and liabilities are measured using the accrual basis of accounting and would include any expected costs of the disposal of assets and other costs expected to be incurred during the liquidation process.

### ***Program Interest in Trust***

The Program has a beneficial interest in the Trust for which Northern Trust serves as Trustee and securities custodian. The Trust allows eligible Blue Cross and Blue Shield employers (the Employers) both the opportunity to adopt a retirement program and the ability to obtain certain economies of scale through the consolidated management of funds. This arrangement is referred to as the Blue Cross and Blue Shield National Retirement Program (the NRP). The NEBC delegated administration of the NRP to the National Employee Benefits Administration of Blue Cross and Blue Shield Association (the Trust administrator or NEBA).

The Trust's earnings, market adjustments, and administrative expenses relating to transactions in portfolio investments are allocated to the Program based on the respective Program's share of the Trust's assets.

### ***Use of Estimates***

The preparation of financial statements in conformity with U.S. GAAP requires the Program administrator to make significant estimates and assumptions that affect the reported amounts of net assets available for retirement program benefits at the reporting date, the actuarial present value of accumulated retirement program benefits as of the benefit information date, the changes in net assets available for retirement program benefits and changes in accumulated retirement program benefits at the reporting date, and, when applicable, disclosure of contingent assets and liabilities at the reporting date. Actual results could differ from those estimates.

### ***Distributions to Retired and Terminated Employees***

Benefit payments to participants are recorded upon distribution.

### ***Expenses***

Expenses other than investment management, Trustee, audit, legal, actuarial, computer consulting, and staff costs relating to the administration of the Program are paid by the Sponsor.

## **3. Investments Held By the Trust**

The Program's interest in the net assets of the Trust is based on the individual program's share of the Trust. Each Employer within the NRP has the option to adopt a customized LDI strategy (standard glidepath) as managed by the Program administrator which replaced a formally standardized allocation (standard allocation), or at the option of the respective program sponsor, to adopt a non-standard custom investment allocation. As of December 31, 2024, the Program elected a non-standard custom investment allocation and its asset allocation by asset category were as follows: 72.3% fixed income, 3.1% real estate investments, and 24.6% cash equivalents. As of December 31, 2023, the Program elected a non-standard custom investment allocation and its asset allocations by asset category were as follows: 58.6% fixed income, 3.5% real estate investments, and 37.9% cash equivalents.

**Notes to Financial Statements  
December 31, 2024 and 2023**

---

The Trust invests in any combination of equity, fixed income securities, and other investment securities. The Trust also invests in certain investment funds managed by the Trustee. Investment portfolio diversification guidelines for the Trust have been recommended by the Program administrator and third-party consultants and approved by the NEBC. The Program's funds are credited with actual earnings on the underlying investments and charged for Program withdrawals and administrative expenses.

The net appreciation or depreciation in fair value of the Trust's investment portfolio, consisting of the realized gains or losses and the unrealized appreciation or depreciation of those investments, is presented within the Trust's statements of changes in net assets available for retirement program benefits.

Purchases and sales of investments are reflected on a trade date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

The Program administrator has systems and procedures in place to monitor the fair value of its investments valued using the net asset value (NAV) as a practical expedient for fair value. The Program administrator determines the fair value of these assets by using the NAV provided by the investment managers through monthly or quarterly financial statements and the respective fund's annual audited financial statements. To the extent the Program administrator believes the NAV is no longer an appropriate method of valuing such investments, fair value would be determined using the best available information. The valuation processes are overseen by the Program administrator.

***Fair Value Measurement***

The Trust performs fair value measurements in accordance with Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820 Fair Value Measurement, which defines fair value, establishes a framework for measuring fair value under U.S. GAAP, and requires certain disclosures about fair value measurements.

Level 1: Inputs to the valuation methodology are quoted prices available in active markets for identical investments as of the reporting date.

Level 2: Inputs to the valuation methodology are other than quoted prices in active markets, which are either directly or indirectly observable as of the reporting date, and the fair value can be determined through the use of models or other valuation methodologies.

Level 3: Inputs to the valuation methodology are unobservable inputs in situations where there is little or no market activity for the asset and liability and the reporting entity makes estimates and assumptions relating to the pricing of the asset or liability, including assumptions regarding risk.

ASC 820 permits a reporting entity to measure the fair value of an investment in a private investment fund that does not have a readily determinable fair value based on the NAV of the investment as a practical expedient for fair value, without further adjustment, unless it is probable the investment will be sold at a value significantly different than the NAV. If the practical expedient NAV is not as of the reporting entity's measurement date, the NAV is adjusted to reflect any significant events that may change the valuation.

Cash and short-term investments: Interest-bearing investments with initial maturities of three months or less are recorded at cost plus accrued interest.

---

Investments traded in open markets: Common stock, fixed income securities including government and corporate obligations, non-agency backed securities, and derivatives traded in active markets on national and international securities exchanges are valued at closing prices on the last business day of each period presented. Securities traded in markets that are not considered active are valued based on quoted market prices, broker or dealer quotations, or alternative pricing sources with reasonable levels of price transparency. Securities that trade infrequently and therefore have little or no price transparency are valued using the Trust's investment managers' best estimates. In general, corporate obligations are valued based on yields currently available on comparable securities of issuers with similar credit ratings. Investments in government obligations are estimated using best available trade data. Investments in other equities are based on quoted market prices.

Real estate investment funds: Valued using the NAV provided by the administrator of the fund as a practical expedient. The NAV is based on the value of the underlying assets owned by the fund minus its liabilities, divided by the number of shares outstanding.

Private equity funds: Investments not quoted in an active market do not permit redemptions. Though an investor may broker a sale in a secondary market, such a transaction is likely to be at a discount to the NAV of the fund. Investments in these funds are carried at fair value as determined by the general partner in the absence of readily determinable market values. Fair value may be estimated using the NAV per share of the investment (or its equivalent) as a practical expedient without further adjustment. Additional techniques, for which there is sufficient data available to value the portfolios, such as a market or income approach, may also be used. Investments may be discounted to reflect illiquidity of the fund. Due to the inherent uncertainty in the valuation of these investments, the determined value may materially differ from the value that would have been used had a ready market for the investments existed.

Limited liability company interest: Units held in Limited Liability Company interest, including equity funds, are valued using the NAV provided by the investment manager of the fund. The NAV is considered a readily determinable fair value and therefore continues to be included in the fair value hierarchy. The NAV is based on the value of the underlying assets owned by the fund minus its liability, divided by the number of shares outstanding.

Registered investment companies: Investments traded on an exchange are valued at the closing price on the valuation date. For those funds not traded on an exchange, the investments are valued using the NAV provided by the administrator of the fund. The NAV is considered a readily determinable fair value and therefore continues to be included in the fair value hierarchy. The NAV is based on the value of the underlying assets owned by the fund minus its liabilities, divided by the number of shares outstanding.

Common/collective trust funds: Investments with various investment managers. Some units held in common/collective trusts, including stable value funds, are valued at NAV and considered to hold a readily determinable fair value. The NAV is based on the value of the underlying assets owned by the fund minus its liabilities, divided by the number of shares outstanding. Units held in common/collective trusts, including stable value funds, are valued at the unit value as reported by the investment managers.

Foreign investments: Investments denominated in currencies other than the U.S. dollar are converted using exchange rates prevailing at the end of the periods presented. The foreign investments are government bonds, derivatives, cash, and forward contracts. Purchases and sales of such investments are translated at the rate of exchange on the respective dates of such transactions.

Derivatives: The Trust invests in derivatives as authorized by the NEBC with advice from investment advisors. Derivatives are financial arrangements between two parties whose payments are based on, or derived from, the performance of an agreed upon benchmark. Derivatives serve as part of the Trust's overall investment strategy and are held primarily with the intent to mitigate risk exposure. The Trust does not use derivatives to leverage its investments. The Trust has a master netting arrangement policy in which positions under the same broker agreements are netted against one another. The Trust invests in futures contracts and forward contracts, swaps, and options.

Futures and forward contracts: The Trust enters into futures contracts and forward contracts for trading purposes.

Futures contracts are used to replicate the performance of the stock market and to reduce transaction costs associated with rebalancing an indexed portfolio in the event of cash inflows or cash outflows. Forward foreign currency contracts are used to manage the risk of foreign currency fluctuations and to ensure adequate funds, denominated in the local currency, are available to settle purchases of foreign securities. Forward contracts to purchase government agency obligations are used to take advantage of market yield premiums available for delayed settlement contracts. For the year ended December 31, 2024, the gross exposure of futures and forward contracts held by the Trust was \$103.3 million and \$0.9 million, respectively. For the year ended December 31, 2023, the gross exposure of futures and forward contracts held by the Trust was \$81.7 million and \$0.7 million, respectively.

Futures contracts, forward foreign currency contracts, and forward contracts to purchase government agency obligations are stated at market value which is considered fair value. Futures contracts are marked to market as determined by prices quoted on national security exchanges, and fluctuations in the value are recognized as realized gains or losses settled daily with cash through a margin account. Forward foreign currency contracts are valued by the Trust's investment managers (or independent third parties on behalf of the investment managers) using quoted forward foreign currency exchange rates. When the forward contract is closed or delivery is taken, a realized gain or loss is recorded equal to the difference between the value of the contract at the time it was opened and the value at the time it was closed. At the end of each period presented, changes in fair value of futures contracts, forward foreign currency contracts, and forward contracts are recorded as unrealized gains or losses or realized gains or losses incurred in the period within the net appreciation or depreciation of the fair value of investments within the Trust's statements of changes in net assets available for retirement program benefits.

The market risk associated with these instruments is the possibility of equity prices or foreign exchange rates changing in an unanticipated manner, resulting in a loss in value of the investment. The credit risk associated with these instruments is related to the failure of the counterparty to pay based on the contractual terms of the agreement. The Trust anticipates counterparties will be able to fully satisfy their obligations under the contracts given their high credit ratings. Each equity futures contract requires that the Trust place an amount equal to the initial margin requirement for the contract on deposit with the executing counterparty. The maintenance margin requirement is recalculated daily based on the change in market value. The Trust transfers funds to or receives credit from the maintenance margin on deposit on a daily basis based on the recalculated maintenance margin. The Trust experienced no credit-related losses on these arrangements in 2024 or 2023.

Swaps: The Trust enters into various swaps, including interest rate swaps and credit default swaps. Swaps are used to hedge against unfavorable changes in the value of investments, to efficiently gain exposure to a particular asset class index, and to protect against adverse movement in interest rates or credit performance with counterparties. Generally, a swap is an agreement that obligates two parties to exchange a series of cash flows at a specified notional amount of the underlying assets. The payments are usually netted against each other, with the difference paid by one party to the other. Swaps may be entered into centrally through a clearinghouse where margins are posted and daily changes in the fair values result in a variation margin receivable or payable with the clearinghouse.

The fair value of open swaps reported in the Trust's statements of net assets available for retirement program benefits may differ from what would be realized if the Trust terminated its position in the contract. The risk associated is a result of the failure of the counterparty swap contract to comply with the terms of the swap contract. The loss incurred by the failure of a counterparty is generally limited to the aggregate fair value of swaps in an unrealized gain position. The Trust considers the creditworthiness of each counterparty to a swap in evaluating potential credit risk. Additionally, risks may arise from unanticipated movements in the fair value of the underlying investments. For the year ended December 31, 2024, the fair value of swap assets and liabilities was \$1.2 million and \$1.5 million, respectively. As of December 31, 2024, the notional value of swap assets categorized by long exposure and short exposure was \$93.8 million and \$18.2 million, respectively. As of December 31, 2024, the notional value of swap liabilities categorized by long exposure and short exposure was \$1.3 million and \$95.9 million, respectively. For the year ended December 31, 2023, the fair value of swap assets and liabilities was \$2.8 million and \$1.8 million, respectively. As of December 31, 2023, the notional value of swap assets categorized by long exposure and short exposure was \$203.9 million and \$12.7 million, respectively. As of December 31, 2023, the notional value of swap liabilities categorized by long exposure and short exposure was \$1.4 million and \$205.9 million, respectively.

**Notes to Financial Statements  
December 31, 2024 and 2023**

Options: Options represent the right, but not the commitment, to buy or sell an asset at a current price over a specified period. The option price is generally a small percentage of the underlying asset value. The Trust will pay a premium at the time of the agreement for the option, and the counterparty will bear the risk of an unfavorable change in the price of the instrument underlying the option. For the year ended December 31, 2024, the fair value of option assets was \$0 thousand and option liabilities was \$34 thousand. As of December 31, 2024, the notional value of option assets had long exposure of \$0 thousand and the notional value of option liabilities had short exposure of \$7.4 million. For the year ended December 31, 2023, the fair value of option assets was \$0 thousand and option liabilities was \$45 thousand. As of December 31, 2023, the notional value of option assets had long exposure of \$0.0 million and the notional value of option liabilities had short exposure of \$9.4 million.

**Due from/to Brokers**

Due from/to brokers reflects pending investment sales and purchases that occurred prior to year-end and did not settle until after December 31. As a result, these balances represent receivables and payables to the Trust at December 31.

**Securities Lending Transactions**

The Trust enters into securities lending transactions in its fixed income and equity portfolios for which it receives compensation. The Trust participates in an investment pool managed by the Trustee, which consists of cash and cash equivalents, to collateralize the Trust's securities lending transactions. Loans of securities have an initial collateral level equal to 102% of the market value of the securities loaned, or not less than 105% of the market value of the securities loaned if the securities are denominated in a foreign currency. On a daily basis, the Trustee monitors the market value of the collateral as compared to the market value of the loans and requests additional collateral as needed in order to maintain the collateral margin, as outlined in the securities lending authorization agreement. The Trustee reinvests the cash collateral on behalf of the Trust in a collective collateral fund following money market guidelines.

While cash collateral is invested in cash and cash equivalents, such investments are subject to the risk of payment delays, default of the issuer or counterparty, or insufficient interest to support the costs associated with securities lending. The Trust may also experience delays in recovering its securities, or loss of income or value if the borrower fails to return the securities on loan. The Trust is indemnified from the risk of a borrower default and operational negligence of the Trustee as outlined in the securities lending authorization agreement.

As of December 31, 2024 and 2023, the Trust had securities on loan with a market value of \$149.9 million and \$120.7 million, respectively, and cash collateral held of \$153.3 million and \$123.5 million, respectively. There was no noncash collateral received as of December 31, 2024 and 2023. Net income earned by the Trust from securities lending transactions totaled \$384.9 thousand and \$288.2 thousand for the years ended December 31, 2024 and 2023, respectively, and is reflected as part of interest and other income within the Trust's statements of changes in net assets available for retirement program benefits.

The following table sets forth the types of cash collateral loans for securities lending transactions:

**Fair Value Estimated using NAV per Share**

As of December 31, 2024, the Trust's investments with fair value based on reported NAV with unfunded commitments and/or restrictions in place with respect to redemption are as follows:

	Fair value	Unfunded commitments	Redemption frequency	Redemption notice period
Real estate investment funds <sup>(1)</sup>	\$ 70,950,015	\$ —	Quarterly	Quarterly
Private equity funds <sup>(2)</sup>	10,319,380	1,085,845	Not permitted	Not permitted
Total	<u>\$ 81,269,395</u>	<u>\$ 1,085,845</u>		

(1) This category includes three equity real estate investment funds, of which two are pooled separate accounts and one is a limited liability company. Quarterly redemption requests are eligible with three months notification prior to the last day of the preceding quarter or the valuation date. Redemptions are subject to available cash. If there is insufficient available cash to pay all eligible requests in full on a given valuation date, available cash will be pro-rated among those investors who are eligible for payment. Unsatisfied withdrawal requests are automatically rolled to the next quarter.

(2) This category includes three private equity funds that all are limited partnerships. Redemptions are not permitted, though an investor may sell its position in a secondary market. The timing of liquidation for the Trust's investments in private equity funds is at the discretion of the underlying fund managers and cannot be reasonably estimated at this time. Trillium Lakefront Partners III is a venture capital fund managed by Trillium Group. The fund targeted business products and services (B2B) and commercial services sectors. The only remaining investment held by the fund was sold in December 2024. Mesirow Financial Private Equity Partnership Fund IV, L.P. is a fund of funds that invests in private equity funds across various industries with primary and secondary investments in the US and Europe.

As of December 31, 2023, the Trust's investments with fair value based on reported NAV with unfunded commitments and/or restrictions in place with respect to redemption are as follows:

	Fair value	Unfunded commitments	Redemption frequency	Redemption notice period
Real estate investment funds <sup>(3)</sup>	\$ 92,080,132	\$ —	Quarterly	Quarterly

Total	<u>\$ 103,743,730</u>	<u>\$ 1,115,845</u>		

(3) This category includes three equity real estate investment funds, of which two are pooled separate accounts and one is a limited liability company. Quarterly redemption requests are eligible with three months notification prior to the last day of the preceding quarter or the valuation date. Redemptions are subject to available cash. If there is insufficient available cash to pay all eligible requests in full on a given valuation date, available cash will be pro-rated among those investors who are eligible for payment. Unsatisfied withdrawal requests are automatically rolled to the next quarter.

(4) This category includes five private equity funds, of which one is a limited liability company and four are limited partnerships. Redemptions are not permitted, though an investor may sell its position in a secondary market. The timing of liquidation for the Trust's investments in private equity funds is at the discretion of the underlying fund managers and cannot be reasonably estimated at this time. Trillium Lakefront Partners III is a venture capital fund managed by Trillium Group. The fund targeted business products and services (B2B) and commercial services sectors. Mesirow Financial Private Equity Partnership Fund IV, L.P. is a fund of funds that invests in private equity funds across various industries with primary and secondary investments in the US and Europe.

**Risks and Uncertainties**

The Trust's investment portfolio includes various investment securities that are exposed to various risks such as interest rate, credit, and overall market volatility risk. Generally, due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the value of investment securities will occur in the near term and such changes could materially impact the amounts reported in the statements of net assets available for retirement program benefits and may impact the funded position of the Plan. As a result, the Plan may require additional funding in subsequent years.

**4. Actuarial Present Value of Accumulated Retirement Program Benefits**

The actuarial present value of accumulated retirement program benefits is calculated by applying actuarial assumptions to compute the value of the retirement program benefits accumulated by participants as of the valuation date. The actuarial assumptions used to compute the accumulated retirement program benefits reflect the expected rate of return on the Program's investments and the probability of benefit payments subsequent to the valuation date based on anticipated mortality, termination, and retirement rates.

The actuarial valuation uses the beginning of year method. Therefore, the accumulated retirement program benefits as of December 31, 2023 are presented using information provided by the actuary as of January 1, 2024. There has been no significant change in the Program's provisions from December 31, 2023 to January 1, 2024.

The actuarial present value of accumulated retirement program benefits as of December 31, 2023, is as follows:

<b>Vested benefits</b>	
For retired and terminated employees currently receiving benefits	\$ 10,477,992
Other vested benefits	79,656,901
Non-vested benefits for active participants	5,398,413
Total actuarial present value of accumulated retirement program benefits	<u>\$ 95,533,306</u>

The changes in the actuarial present value of accumulated retirement program benefits for the year ended December 31, 2023, are as follows:

Actuarial present value of accumulated program benefits, December 31, 2022	\$ 105,030,531
Benefit payments	(13,179,134)
Decrease in discount period	5,172,576
Additional benefits earned and experience gains and losses	(44,495)
Change in assumptions	(1,446,172)
Net change	<u>(9,497,225)</u>
Actuarial present value of accumulated program benefits, December 31, 2023	<u>\$ 95,533,306</u>

Other vested participants include inactive participants with deferred benefits, including pending lump-sum payments.

The significant assumptions underlying the actuarial computations of the present value of accumulated retirement program benefits are as follows:

Discount rate	5.00% in 2023 and 5.25% in 2022
Mortality basis - 2023	Aggregate 2012 base rates from the Pri-2012 mortality study projected generationally from 2012 with scale MP-2021
Mortality basis - 2022	Aggregate 2012 base rates from the Pri-2012 mortality study projected generationally from 2012 with scale MP-2021
Retirement rate	Rates ranging from 20.00% at age 55 to 100.00% at age 70 in 2023 and 2022.

(Plan No. 230)**

**Notes to Financial Statements  
December 31, 2024 and 2023**

---

Contributions to the Program and the actuarial present value of accumulated retirement program benefits are reported based on certain assumptions pertaining to interest rates, inflation rates, employee compensation, and demographics. Due to the changing nature of these assumptions and the uncertainty inherent in setting assumptions, it is at least reasonably possible changes in these assumptions will occur in the near term and that such changes could materially impact the financial statements. The accumulated program benefits have been calculated on an ongoing bases pre-liquidation.

Effective August 1, 2023, the Program was amended to formally terminate the Program following distribution of all of the Trust's assets held for the benefit of Program participants. See Note 1 for additional information on the sufficiency of the Program's assets to pay the benefits due under the Program.

## **5. Tax Status**

The Program has been designed to meet the requirements of Section 401(a) of the Internal Revenue Code (the Code) and therefore the Trust is exempt from federal income taxes under Section 501(a) of the Code. The Program received a favorable determination letter from the IRS dated December 4, 2024, indicating the Program is in compliance with the requirements of the Code upon termination.

U.S. GAAP requires the recognition of a tax liability or asset if the Program has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Program administrator has analyzed the tax positions taken by the Program and has concluded that as of December 31, 2024 and 2023 there are no uncertain positions taken or expected to be taken that would require recognition of a tax liability or asset or financial statement disclosure. The Program is subject to routine audits by taxing jurisdictions, and there are currently no audits in progress for any tax periods.

## **6. Related Party and Party-in-Interest Transactions**

As of December 31, 2024 and 2023, certain Program investments include units or shares of common/collective trusts managed by the Trustee. As described in Note 2, the Program paid certain expenses related to the Program's operations and investment activity to various service providers for administration cost, including the Program administrator.

## **7. Subsequent Events**

The Program evaluated subsequent events through September 26, 2025, the date the accompanying financial statements were available to be issued. No material subsequent events, other than discussed below, occurred that require recognition or disclosure within the financial statements.

See Note 1 for additional information on the program termination.

**Schedule H, Line 4(l) – Has the plan failed to provide any benefit when due under the plan?**

No. For administrative purposes, we do not consider delays in payment of a participant's benefit (including administrative mistakes and delayed payments, which happen infrequently) as a failure to pay a benefit when due. Further, in reliance on an IRS clarification of the intent of this question, we do not consider benefits payable to missing participants to be a failure to pay a benefit when due because of the diligence of our efforts to locate missing participants.
