Independent Auditor's Report

To the Administrative Committee of
the Monoflo International, Inc. 401(k) Profit Sharing Plan

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the accompanying financial statements of Monoflo International, Inc. 401(k) Profit Sharing Plan, an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) [ERISA Section 103(a)(3)(C) audit]. The financial statements comprise the statements of net assets available for benefits as of December 31, 2024 and 2023, and the related statement of changes in net assets available for benefits for the year then ended December 31, 2024, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audit of Monoflo International, Inc. 401(k) Profit Sharing Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained a certification from a qualified institution as of December 31, 2024 and 2023, and for the year ended December 31, 2024, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section—

- the amounts and disclosures in the financial statements referred to above, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- the information in the financial statements referred to above related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Monoflo International, Inc. 401(k) Profit Sharing Plan and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Monoflo International, Inc. 401(k) Profit Sharing Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments; administering the plan; and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Monoflo International, Inc 401(k) Profit Sharing Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Monoflo International, Inc. 401(k) Profit Sharing Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplemental Schedules Required by ERISA

The supplemental Schedule of Assets Held for Investment Purposes at Year End is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedules, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with generally accepted auditing standards. For information included in the supplemental schedules that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including their form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion—

- the form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- the information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

MONOFLO INTERNATIONAL, INC.
401(K) PROFIT SHARING PLAN
NOTES TO FINANCIAL STATEMENTS
FOR THE YEARS ENDED DECEMBER 31, 2024 AND 2023

1. DESCRIPTION OF PLAN

The following description of the Monoflo International, Inc. 401(k) Profit Sharing Plan (the Plan”) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan’s provisions.

General

The Plan is a defined contribution plan covering all employees of Monoflo International, Inc. who are at least 21 years of age and have completed six months of service. The plan also covers eligible employees of related employer Total Molding Concepts, Inc. There is no minimum hours requirement to attain eligibility. Employees are automatically enrolled the first day of the month, after meeting their eligibility requirements. The Plan also provides for discretionary qualified non-elective contributions to non-highly compensated participants designated by the employer and discretionary profit-sharing contributions for employees meeting the same eligibility criteria. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Plan was established November 1, 1979. The Plan was created for the purpose of providing retirement benefits and other benefits for those employees who qualify for participation under the terms of the Plan.

Contributions

Each year, participants may contribute up to the maximum dollar amount, as defined in the Plan, allowed by law. The Plan further provides for contributions to a Roth 401(k) component. Participants may contribute to the Roth 401(k) component up to the maximum dollar amount allowed by law. Participants 50 and older may make additional catch-up contributions subject to IRS limits. Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan currently offers mutual funds and a money market account as investment options for participants. Monoflo International, Inc. makes a safe harbor matching contribution of 100% of the first 3% of eligible compensation deferred and 50% of the next 2%, effectively up to 4% when a participant defers at least 5%. In addition, a participant is eligible to receive Non-elective Employer Contributions only if they are employed on the last day of the Plan year and worked a minimum of 1,000 hours during the Plan year. The Plan uses a W-2 definition as modified by the Compensation Addendum, specifically excluding bonuses, overtime, commissions, severance, and any other adjustments described in that addendum.

The Plan evaluates receivables for collectability in accordance with ASC 326, *Financial Instruments --Credit Losses*. Given the short-term nature of these receivables, their settlement history, and the enforcement mechanisms under ERISA, management has determined that the risk of credit losses is not material to the financial statements. Accordingly, no allowance for credit losses has been recorded.

Contributions From Other Systems

Active employees may rollover money from another 401k plan, 401a or 403b plans, or from traditional individual retirement accounts (IRAs) into their account in the Plan. Participants may withdraw vested funds rolled into the Plan at any time. Age and service requirements are waived for incoming rollovers. In-plan Roth conversions are allowed.

1. DESCRIPTION OF PLAN (Continued)

Participant Accounts

Each participant's account is credited with the participant's contributions and allocations of the Company's contribution and Plan earnings (losses). Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account balance.

Investment Options

Upon enrollment in the Plan, a participant may invest the funds in mutual funds or money market. Investment categories that the mutual funds invest in are large cap stock, mid cap stock, small cap stock, global/ international stock, target date funds, bond funds, and a money market fund.

Vesting

Participants are immediately vested in their contributions. Vesting in the Company's matching and discretionary contribution portion of their accounts plus actual earnings thereon is based on the participant's years of continuous service. Vesting is on a straight-line graduated basis beginning after two (2) years of service. A participant is 100% vested after six years of credited service. A participant is also 100% vested upon disability as defined for Social Security disability benefits.

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. Loan transactions are treated as a transfer to (from) the investment fund from (to) the Participant Loan fund. All loans must be repaid in level payments through after-tax payroll deductions over a five-year period unless it is for the purchase of a principal residence in which case the loan repayment period may not extend beyond 10 years from the date of the loan. The loans are secured by the balance in the participant's account and bear a reasonable rate of interest as determined by the Plan Administrator based on the prevailing interest rates charged by persons in the business of lending money for loans which would be made under similar circumstances. The interest rate shall remain fixed throughout the duration of the loan. Notes receivable balances represent outstanding principal balances. At December 31, 2024 and 2023, the outstanding notes receivable from participants was \$336,479 and \$134,703, respectively.

Payment of Benefits

A participant may elect to receive benefits after termination of employment in which the participant retires, dies or becomes disabled. The normal retirement age under the Plan is age sixty-five (65) upon which the participant becomes fully vested in his or her account balance. In service distributions are permitted upon attaining age 59 ½. A participant will receive a lump-sum amount equal to the value of the participant's vested interest in his or her account. For termination of service due to other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution.

1. DESCRIPTION OF PLAN (Continued)

Forfeitures

The portion of a participant's account to which he or she is not entitled to at separation of service is reverted to the employer's Forfeiture Account. In accordance with ERISA, this amount must be held in suspense until the participant has incurred a five-year break-in-service, or if earlier, has been paid his or her entire vested balance. Amounts that can be allocated in the current plan year are considered available forfeitures. Those amounts not yet available for allocation are held in suspense for future years. Per the Plan Document, available forfeitures can be used to reduce future employer contribution obligations or to pay Plan expenses. During the years ended December 31, 2024 and 2023, forfeiture accounts totaled \$6,011 and \$7,780, respectively. During the years ended December 31, 2024 and 2023, forfeitures of \$6,098 and \$10,164, respectively, were used to pay administrative expenses.

Administration

The Company has contracted with Fidelity Management Trust Company to act as the Plan's trustee, custodian and administrator. During 2024, the Plan Sponsor paid all third-party administration charges and audit fees.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared using the accrual method of accounting. The Plan uses the cash method of accounting for preparing the Plan's Form 5500, Schedule H Financial Information.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America (GAAP) requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair market value as certified by Fidelity Management Trust Company. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements. Shares of registered investment companies are valued at quoted market prices, which represent the net asset value of shares held by the Plan at year-end. Purchases and sales of securities are recorded on a trade-date basis. Interest income, including that on participant loans, is recorded on the cash basis. Dividends are recorded on the ex-dividend date. Net appreciation includes net change in values on investments held during the year.

Notes Receivable from participants

Notes receivable from participants are measured at their unpaid principal balance. Delinquent participant loans are reclassified as distributions based on upon the terms of the plan documents.

Payment of Benefits

Benefits paid to participants are recognized when paid.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Operating Expenses / Plan Costs

The Plan sponsor, Monoflo International, Inc., absorbs all significant cost of administering and maintaining the Plan, including accounting and auditing fees.

Nondiscrimination Testing

The Plan uses the “top-paid group” election under Internal Revenue Code Section 414(q) in determining Highly Compensated Employees for annual nondiscrimination testing.

3. INFORMATION CERTIFIED BY TRUSTEE

The plan management has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor’s Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Fidelity Management Trust Company, the trustee of the plan, has certified to the completeness and accuracy of all investments reflected on the accompanying statements of net assets available for pension benefits as of December 31, 2024, and 2023, and the supplemental Schedule H, line 4i — Schedule of Assets (Held at End of Year) as of December 31, 2024; the related investment activity reflected in the statements of changes in net assets available for benefits for the years ended December 31, 2024 and 2023. The following is a summary of the plan’s investment information as of December 31, 2024, and 2023, and for the years then ended, included in the plan’s financial statements and supplemental schedules, that was prepared by, or derived from, information prepared by Fidelity Management Trust Company, the trustee of the plan, and furnished to the plan management.

	2024	2023
Investments, at fair value:		
Money market funds	\$ 342,122	\$ 354,664
Mutual funds	11,824,227	9,910,584
Investment income:		
Dividends	362,287	219,655
Net appreciation (depreciation) in fair value of investments	936,618	1,194,618

4. FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurement) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 — Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

MONOFLO INTERNATIONAL, INC.
401(K) PROFIT SHARING PLAN
NOTES TO FINANCIAL STATEMENTS
FOR THE YEARS ENDED DECEMBER 31, 2024 AND 2023

4. FAIR VALUE MEASUREMENTS (Continued)

Level 2 — Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets
- Quoted prices for identical or similar assets or liabilities in inactive markets
- Inputs other than quoted prices that are observable for the asset or liability
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means

Level 2 - Observable inputs other than Level 1 prices such as quoted prices for similar assets or liabilities; quoted prices in markets with insufficient volume or infrequent transactions (less active markets); or model-derived valuations in which all significant inputs are observable or can be derived principally from or corroborated by observable market data for substantially the full term of the assets or liabilities.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 — Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no material changes in the methodologies used at December 31, 2024 and 2023.

Mutual Funds - held at net asset values of the shares held by the Plan at year-end.

Money Market Funds - valued at cost plus accrued interest, which approximates fair value of funds held by the Plan at year-end.

5. RELATED PARTY AND PARTY-IN-INTEREST TRANSACTIONS

Certain Plan investments are shares of mutual funds managed by Fidelity Management Trust Company. Monoflo International, Inc. is the plan sponsor and Fidelity Management Trust Company is the trustee, custodian and administrator as defined by the Plan and, therefore, these transactions qualify as party-in-interest to the transactions. Transactions in such investments qualify as party-in-interest transactions which are exempt from the prohibited transaction rule under ERISA. In addition, participant loans held in the Plan qualify as party-in interest transactions that are exempt from the prohibited transaction rule under ERISA. Other parties in interest include the Plan sponsor and auditor.

6. PLAN TERMINATION

Although it has not expressed any interest to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their employer contributions.

7. RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

8. FEDERAL INCOME TAXES

The Employer restated the plan and adopted a volume submitter plan document sponsored by Fidelity Management & Research Co (Fidelity) effective April 11, 2017. Fidelity received an opinion letter from the Internal Revenue Service (IRS) dated June 30, 2020, which states that the volume submitter document satisfies the applicable provisions of the Code. The Plan itself, as restated, has not received a determination letter from the IRS.

The Plan's management believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRS. Therefore, no provision for income tax has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognizes a tax liability (or asset) if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by the applicable authorities. The plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Independent Auditor's Report

To the Administrative Committee of
the Monoflo International, Inc. 401(k) Profit Sharing Plan

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the accompanying financial statements of Monoflo International, Inc. 401(k) Profit Sharing Plan, an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) [ERISA Section 103(a)(3)(C) audit]. The financial statements comprise the statements of net assets available for benefits as of December 31, 2024 and 2023, and the related statement of changes in net assets available for benefits for the year then ended December 31, 2024, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audit of Monoflo International, Inc. 401(k) Profit Sharing Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained a certification from a qualified institution as of December 31, 2024 and 2023, and for the year ended December 31, 2024, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section—

- the amounts and disclosures in the financial statements referred to above, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- the information in the financial statements referred to above related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Monoflo International, Inc. 401(k) Profit Sharing Plan and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Monoflo International, Inc. 401(k) Profit Sharing Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments; administering the plan; and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Monoflo International, Inc 401(k) Profit Sharing Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Monoflo International, Inc. 401(k) Profit Sharing Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplemental Schedules Required by ERISA

The supplemental Schedule of Assets Held for Investment Purposes at Year End is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedules, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with generally accepted auditing standards. For information included in the supplemental schedules that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including their form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion—

- the form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- the information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

MONOFLO INTERNATIONAL, INC.
401(K) PROFIT SHARING PLAN
NOTES TO FINANCIAL STATEMENTS
FOR THE YEARS ENDED DECEMBER 31, 2024 AND 2023

1. DESCRIPTION OF PLAN

The following description of the Monoflo International, Inc. 401(k) Profit Sharing Plan (the Plan”) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan’s provisions.

General

The Plan is a defined contribution plan covering all employees of Monoflo International, Inc. who are at least 21 years of age and have completed six months of service. The plan also covers eligible employees of related employer Total Molding Concepts, Inc. There is no minimum hours requirement to attain eligibility. Employees are automatically enrolled the first day of the month, after meeting their eligibility requirements. The Plan also provides for discretionary qualified non-elective contributions to non-highly compensated participants designated by the employer and discretionary profit-sharing contributions for employees meeting the same eligibility criteria. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Plan was established November 1, 1979. The Plan was created for the purpose of providing retirement benefits and other benefits for those employees who qualify for participation under the terms of the Plan.

Contributions

Each year, participants may contribute up to the maximum dollar amount, as defined in the Plan, allowed by law. The Plan further provides for contributions to a Roth 401(k) component. Participants may contribute to the Roth 401(k) component up to the maximum dollar amount allowed by law. Participants 50 and older may make additional catch-up contributions subject to IRS limits. Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan currently offers mutual funds and a money market account as investment options for participants. Monoflo International, Inc. makes a safe harbor matching contribution of 100% of the first 3% of eligible compensation deferred and 50% of the next 2%, effectively up to 4% when a participant defers at least 5%. In addition, a participant is eligible to receive Non-elective Employer Contributions only if they are employed on the last day of the Plan year and worked a minimum of 1,000 hours during the Plan year. The Plan uses a W-2 definition as modified by the Compensation Addendum, specifically excluding bonuses, overtime, commissions, severance, and any other adjustments described in that addendum.

The Plan evaluates receivables for collectability in accordance with ASC 326, *Financial Instruments --Credit Losses*. Given the short-term nature of these receivables, their settlement history, and the enforcement mechanisms under ERISA, management has determined that the risk of credit losses is not material to the financial statements. Accordingly, no allowance for credit losses has been recorded.

Contributions From Other Systems

Active employees may rollover money from another 401k plan, 401a or 403b plans, or from traditional individual retirement accounts (IRAs) into their account in the Plan. Participants may withdraw vested funds rolled into the Plan at any time. Age and service requirements are waived for incoming rollovers. In-plan Roth conversions are allowed.

1. DESCRIPTION OF PLAN (Continued)

Participant Accounts

Each participant's account is credited with the participant's contributions and allocations of the Company's contribution and Plan earnings (losses). Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account balance.

Investment Options

Upon enrollment in the Plan, a participant may invest the funds in mutual funds or money market. Investment categories that the mutual funds invest in are large cap stock, mid cap stock, small cap stock, global/ international stock, target date funds, bond funds, and a money market fund.

Vesting

Participants are immediately vested in their contributions. Vesting in the Company's matching and discretionary contribution portion of their accounts plus actual earnings thereon is based on the participant's years of continuous service. Vesting is on a straight-line graduated basis beginning after two (2) years of service. A participant is 100% vested after six years of credited service. A participant is also 100% vested upon disability as defined for Social Security disability benefits.

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. Loan transactions are treated as a transfer to (from) the investment fund from (to) the Participant Loan fund. All loans must be repaid in level payments through after-tax payroll deductions over a five-year period unless it is for the purchase of a principal residence in which case the loan repayment period may not extend beyond 10 years from the date of the loan. The loans are secured by the balance in the participant's account and bear a reasonable rate of interest as determined by the Plan Administrator based on the prevailing interest rates charged by persons in the business of lending money for loans which would be made under similar circumstances. The interest rate shall remain fixed throughout the duration of the loan. Notes receivable balances represent outstanding principal balances. At December 31, 2024 and 2023, the outstanding notes receivable from participants was \$336,479 and \$134,703, respectively.

Payment of Benefits

A participant may elect to receive benefits after termination of employment in which the participant retires, dies or becomes disabled. The normal retirement age under the Plan is age sixty-five (65) upon which the participant becomes fully vested in his or her account balance. In service distributions are permitted upon attaining age 59 ½. A participant will receive a lump-sum amount equal to the value of the participant's vested interest in his or her account. For termination of service due to other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution.

1. DESCRIPTION OF PLAN (Continued)

Forfeitures

The portion of a participant's account to which he or she is not entitled to at separation of service is reverted to the employer's Forfeiture Account. In accordance with ERISA, this amount must be held in suspense until the participant has incurred a five-year break-in-service, or if earlier, has been paid his or her entire vested balance. Amounts that can be allocated in the current plan year are considered available forfeitures. Those amounts not yet available for allocation are held in suspense for future years. Per the Plan Document, available forfeitures can be used to reduce future employer contribution obligations or to pay Plan expenses. During the years ended December 31, 2024 and 2023, forfeiture accounts totaled \$6,011 and \$7,780, respectively. During the years ended December 31, 2024 and 2023, forfeitures of \$6,098 and \$10,164, respectively, were used to pay administrative expenses.

Administration

The Company has contracted with Fidelity Management Trust Company to act as the Plan's trustee, custodian and administrator. During 2024, the Plan Sponsor paid all third-party administration charges and audit fees.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared using the accrual method of accounting. The Plan uses the cash method of accounting for preparing the Plan's Form 5500, Schedule H Financial Information.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America (GAAP) requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair market value as certified by Fidelity Management Trust Company. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements. Shares of registered investment companies are valued at quoted market prices, which represent the net asset value of shares held by the Plan at year-end. Purchases and sales of securities are recorded on a trade-date basis. Interest income, including that on participant loans, is recorded on the cash basis. Dividends are recorded on the ex-dividend date. Net appreciation includes net change in values on investments held during the year.

Notes Receivable from participants

Notes receivable from participants are measured at their unpaid principal balance. Delinquent participant loans are reclassified as distributions based on upon the terms of the plan documents.

Payment of Benefits

Benefits paid to participants are recognized when paid.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Operating Expenses / Plan Costs

The Plan sponsor, Monoflo International, Inc., absorbs all significant cost of administering and maintaining the Plan, including accounting and auditing fees.

Nondiscrimination Testing

The Plan uses the “top-paid group” election under Internal Revenue Code Section 414(q) in determining Highly Compensated Employees for annual nondiscrimination testing.

3. INFORMATION CERTIFIED BY TRUSTEE

The plan management has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor’s Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Fidelity Management Trust Company, the trustee of the plan, has certified to the completeness and accuracy of all investments reflected on the accompanying statements of net assets available for pension benefits as of December 31, 2024, and 2023, and the supplemental Schedule H, line 4i — Schedule of Assets (Held at End of Year) as of December 31, 2024; the related investment activity reflected in the statements of changes in net assets available for benefits for the years ended December 31, 2024 and 2023. The following is a summary of the plan’s investment information as of December 31, 2024, and 2023, and for the years then ended, included in the plan’s financial statements and supplemental schedules, that was prepared by, or derived from, information prepared by Fidelity Management Trust Company, the trustee of the plan, and furnished to the plan management.

	2024	2023
Investments, at fair value:		
Money market funds	\$ 342,122	\$ 354,664
Mutual funds	11,824,227	9,910,584
Investment income:		
Dividends	362,287	219,655
Net appreciation (depreciation) in fair value of investments	936,618	1,194,618

4. FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurement) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 — Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

MONOFLO INTERNATIONAL, INC.
401(K) PROFIT SHARING PLAN
NOTES TO FINANCIAL STATEMENTS
FOR THE YEARS ENDED DECEMBER 31, 2024 AND 2023

4. FAIR VALUE MEASUREMENTS (Continued)

Level 2 — Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets
- Quoted prices for identical or similar assets or liabilities in inactive markets
- Inputs other than quoted prices that are observable for the asset or liability
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means

Level 2 - Observable inputs other than Level 1 prices such as quoted prices for similar assets or liabilities; quoted prices in markets with insufficient volume or infrequent transactions (less active markets); or model-derived valuations in which all significant inputs are observable or can be derived principally from or corroborated by observable market data for substantially the full term of the assets or liabilities.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 — Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no material changes in the methodologies used at December 31, 2024 and 2023.

Mutual Funds - held at net asset values of the shares held by the Plan at year-end.

Money Market Funds - valued at cost plus accrued interest, which approximates fair value of funds held by the Plan at year-end.

5. RELATED PARTY AND PARTY-IN-INTEREST TRANSACTIONS

Certain Plan investments are shares of mutual funds managed by Fidelity Management Trust Company. Monoflo International, Inc. is the plan sponsor and Fidelity Management Trust Company is the trustee, custodian and administrator as defined by the Plan and, therefore, these transactions qualify as party-in-interest to the transactions. Transactions in such investments qualify as party-in-interest transactions which are exempt from the prohibited transaction rule under ERISA. In addition, participant loans held in the Plan qualify as party-in interest transactions that are exempt from the prohibited transaction rule under ERISA. Other parties in interest include the Plan sponsor and auditor.

6. PLAN TERMINATION

Although it has not expressed any interest to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their employer contributions.

7. RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

8. FEDERAL INCOME TAXES

The Employer restated the plan and adopted a volume submitter plan document sponsored by Fidelity Management & Research Co (Fidelity) effective April 11, 2017. Fidelity received an opinion letter from the Internal Revenue Service (IRS) dated June 30, 2020, which states that the volume submitter document satisfies the applicable provisions of the Code. The Plan itself, as restated, has not received a determination letter from the IRS.

The Plan's management believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRS. Therefore, no provision for income tax has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognizes a tax liability (or asset) if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by the applicable authorities. The plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.
