INDEPENDENT AUDITOR'S REPORT

To the Board of Directors of Marsh & McLennan Companies, Inc.,
the Marsh & McLennan Companies Benefits Administration Committee,
and the Participants in the Marsh & McLennan Agency 401(k) Savings & Investment Plan:

Opinion on the Financial Statements

We have audited the financial statements of the Marsh & McLennan Agency 401(k) Savings & Investment Plan (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statements of net assets available for benefits as of December 31, 2024 and 2023, and the related statement of changes in net assets available for benefits for the year ended December 31, 2024, and the related notes to the financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2024 and 2023, and the changes in its net assets available for benefits for the year ended December 31, 2024, in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date that the financial statements are issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplemental Schedule Required by ERISA

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule of assets (held at end of year) as of December 31, 2024 is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying schedule is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

MARSH & McLENNAN AGENCY 401(k) SAVINGS & INVESTMENT PLAN
NOTES TO FINANCIAL STATEMENTS
AS OF DECEMBER 31, 2024 AND 2023 AND
FOR THE YEAR ENDED DECEMBER 31, 2024

1. Description of the Plan

General

The Marsh & McLennan Agency 401(k) Savings & Investment Plan (the "Plan") is a defined contribution plan with 401(k), 401(m) and employee stock ownership plan features, which allows eligible participants to contribute from their eligible compensation through payroll deductions on a before-tax, after-tax or Roth 401(k) basis. In accordance with the Plan provisions, employees who are paid on a U.S. payroll, are at least 18 years of age, and who are employees of any subsidiary or affiliate of Marsh & McLennan Agency LLC (the "Agency"), are eligible to contribute to the Plan. The Agency is a subsidiary of Marsh & McLennan Companies, Inc. (the "Company", "Marsh McLennan" or the "Plan Sponsor"). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). Employees can make rollover contributions to the Plan as soon as they are eligible to participate in the Plan. The Plan became effective on January 1, 2010.

The before-tax and/or Roth 401(k) participant contribution percentage limit is 75% of eligible compensation. The after-tax contribution percentage limit is 15% of eligible compensation. The aggregate limit on before-tax, after-tax and Roth 401(k) contributions is 75% of eligible compensation. Participants age 50 or older by the end of the calendar year are permitted to make additional "catch-up" contributions. The Plan's assets are held in a trust. The trustee for the Plan and custodian for all Plan assets is the Northern Trust Company (the "Trustee" or "Northern Trust"). The Trustee is responsible for maintaining the assets of the Plan and performing all other acts deemed necessary or proper to fulfill its responsibility as set forth in the trust agreement pertaining to the Plan. Transamerica Retirement Solutions, LLC ("Transamerica") provided recordkeeping services for the Plan up through August 2024, including making distribution payments on behalf of the Plan. In August 2024, the recordkeeper for the Plan transitioned from Transamerica to Alight Solutions ("Alight"). As a result of the Alight transition, participant Plan account balances, loans (if applicable), investment direction elections for future contributions and contribution rate elections and beneficiary information automatically transferred to Alight and the Trustee began to make distribution payments on behalf of the plan.

The Marsh & McLennan Companies Benefits Administration Committee is the plan administrator responsible for the overall administration and operation of the Plan. Certain administrative functions are performed by employees of the Company or its subsidiaries. All such costs are borne directly by the Company. Prior to the Alight transition, the Company paid the administrative expenses for the Plan. Effective with the Alight transition, participants began to pay a recordkeeping fee of \$1.63 per month (\$19.50 annually), transaction fees of \$25 for certain in-service withdrawals and distribution requests, and \$50 for new loan requests.

The Marsh & McLennan Companies Benefits Investment Committee is the investment fiduciary responsible for selecting the investment alternatives to be made available to Plan participants in addition to Company stock, which is available at the direction of the Plan Sponsor as a matter of plan design. The Plan is intended to comply with Section 404(c) of ERISA. Therefore, the Plan permits participants to exercise control over the investment of the assets in their individual account and, to the extent the participants have exercised such control, the participants are solely responsible for their decisions. Certain investment advisory and consulting services are performed by employees of the Company or its subsidiaries. Those costs are borne directly by the Company. The Company also pays certain investment management fees on behalf of the Plan.

On November 15, 2024, the Company acquired McGriff Insurance Services, LLC whose employees were eligible to participate in the Plan. If a participant did not choose an investment direction for his or her future Company matching contributions or participant contributions, they were automatically invested in the BlackRock LifePath Index Fund which most closely matches a participant's retirement age, based on the Plan's normal retirement age of 65.

Contributions

For the period January 1, 2024 to July 31, 2024, the Company made matching contributions after completion of 1 year of vesting service, of 50% on the first 6% of eligible compensation which consisted of base rate of pay, earned commissions and regular draw, that participants contribute to the Plan in any pay period. Effective August 1, 2024, the Company made matching contributions after completion of 1 year of vesting service, of 50% on the first 7% of eligible compensation, which consists of base rate of pay, earned commissions and regular draw, that participants contribute to the Plan in any pay period.

Participant and Company contributions are subject to certain limitations in accordance with Federal income tax regulations. When a participant reaches the Internal Revenue Code ("IRC") annual before-tax and/or Roth 401(k) contributions limit, the before-tax and/or Roth 401(k) contributions are automatically made as after-tax contributions for the remainder of the calendar year unless the participant decides to discontinue contributions or the participant's eligible compensation reaches the IRC compensation limit.

Investments

Prior to the Alight transition, participants were eligible to direct their Company matching contributions and all of their participant contributions to any of the available investment options. Effective with the Alight transition, future Company matching contributions follow the investment direction of participant contributions. If a participant does not choose an investment direction, they are automatically invested in the BlackRock LifePath Index Fund which most closely matches a participant's retirement age, based on the Plan's normal retirement age of 65.

Participant Accounts

Individual accounts are maintained for each Plan participant. Each participant's account is credited with the participant's contribution and the Company's matching contribution, charged for withdrawals, and adjusted to reflect the performance of the investment options in which the account is invested. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting and Forfeitures

Participants are vested immediately in their own contributions plus actual earnings thereon. Participants vest in the Company's matching contribution as follows: 0% if less than 2 years of service, 33-1/3% after 2 years of service, 66-2/3% after 3 years of service and 100% after 4 years of service.

During the year ended December 31, 2024, employer contributions of \$645,008 were funded from forfeited non-vested accounts. There were \$27,993 and \$26,808 unused balance of forfeited non-vested amounts at December 31, 2024 and 2023, respectively. These balances are used to fund future contributions due from the Company.

Payment of Benefits

Payment of benefits on termination of service varies depending upon the vested amount in the participant's account balance, the reason for termination (i.e. retirement, death, disability, termination of service for other reasons) and the payment options available (i.e. immediate lump sum payment, deferral of lump sum payment, installment payments, etc.) for a particular type of termination.

Effective with the Alight transition, participants with vested balances greater than \$1,000 may elect to take a distribution or leave their balance in the Plan. However, participants must begin receiving payments from the Plan under the Internal Revenue Service required minimum distribution rules. With respect to non-Roth accounts, required minimum distributions must begin no later than the April 1st of the calendar year following the calendar year in which they attain age 73 (if born after December 31, 1950) or age 72 (if born after June 30, 1949 but before January 1, 1951) or age 70-1/2 (if born before July 1, 1949) or in which they terminate employment, if later, at which time distributions must begin.

Notes Receivable from Participants

Plan participants may borrow from their accounts up to a maximum amount equal to the lesser of \$50,000 or 50% of the vested value of their Plan account. Outstanding loans, which are secured by the participants' interest in the Plan, are generally repaid through weekly and semi-monthly payroll deductions or may be paid in full without penalty. Loan repayments, which include principal and interest, are credited directly to the participant's Plan account. Interest is charged on the outstanding balance at prime rate plus 1% based on the prime rate in effect at the time the loan is processed. Loan terms range from 1 to 5 years; however, terms may exceed 5 years for the purchase of a primary residence. At December 31, 2024, participant loans have maturities through 2040 at interest rates ranging from 4.25% to 9.50%.

The preceding description of the Plan provides only general information. Participants should refer to the plan document and the summary plan description. The summary plan description is located in the Marsh & McLennan Companies Benefits Handbook accessible via <https://careers.marshmclennan.com/global/en/us-benefits> and provides a more complete description of the Plan's provisions.

2. Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP").

Risks and Uncertainties

The Plan utilizes various investment instruments. Investment securities, in general, are exposed to various risks such as geopolitical or macroeconomic conditions including from multiple major wars and global conflicts, tariffs or changes in trade policies, slower GDP growth or recession, lower interest rates, capital markets volatility, and inflation. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the financial statements.

The Plan participates in the Marsh & McLennan Companies Master Retirement Savings Trust (the "Master Trust"). The Master Trust's investments at December 31, 2024 and 2023 include shares of the Company's common stock amounting to \$722,475,231 and \$712,006,281, respectively. This investment represents approximately 18% and 19% of the comingled investments held by the Master Trust at December 31, 2024 and 2023, respectively. A significant decline in the market value of the Company's common stock would significantly affect the Plan's net assets available for benefits.

Use of Estimates

The preparation of financial statements in accordance with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Cash and Cash Equivalents

Cash and cash equivalents consist of short-term investment funds composed of high-grade money market instruments with maturities less than 90 days.

Investment Valuation and Income Recognition

The Plan, along with the Marsh & McLennan Companies 401(k) Savings & Investment Plan ("MMC Plan"), participates in the Master Trust. The Master Trust holds investments in which the Plan owns a divided interest for the exclusive benefit of the Plan. These investments totaled \$986,589,973 and \$792,947,708 at December 31, 2024 and 2023 and are presented as Plan identified investments held by the master trust at fair value on the statements of net assets available for benefits. The Master Trust also holds certain investments in comingled funds in which the Plan and the MMC Plan are deemed to have an undivided interest in the investments in which they participate.

Plan identified investments held by the master trust at fair value

The investments held for the exclusive benefit of the Plan include mutual funds and common collective trusts. These investments are stated at fair value and are disclosed in Note 4, Fair Value Measurements. The fair value of a financial instrument is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

The shares of mutual funds are reflected in the accompanying statements of net assets available for benefits at quoted market prices. Shares of common collective trusts are valued at the net asset value ("NAV") of shares held by the Plan at year-end based upon the quoted market prices of the underlying investments. NAV is used as a practical expedient for estimating fair value of common collective trusts, as permitted by applicable accounting guidance.

Commingled investments held by master trust

The Master Trust also includes the Marsh & McLennan Companies Stock Fund, which consists of Marsh McLennan common stock and short-term investments, a stable value fund, which includes guaranteed investment contracts ("GICs") and short-term investments, as well as four common collective trusts, which seek to deliver returns of corresponding indexes. These investments are commingled funds that are shared between the Plan and the MMC Plan. The Plan's interest in the commingled investments is disclosed in Note 3, Interest in Master Trust.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends and Investment income include capital gains paid during the period. Dividends are recorded on the ex-dividend date. Net appreciation or depreciation in fair value of investments includes the Plan's gains and losses on investments bought and sold as well as held during the period.

Contributions

Employee contributions and employer matching contributions are recorded when earned.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are recorded as distributions based on the terms of the plan document.

Administrative Expenses

Prior to the Alight transition, administrative expenses of the Plan were paid by the Company as provided in the plan document. Effective with the Alight transition, participants began to pay a recordkeeping fee of \$1.63 per month (\$19.50 annually), transaction fees of \$25 for certain in-service withdrawals and distribution requests, and \$50 for new loan requests. Such administrative expenses are included in the benefits paid to and withdrawals by participants line in the statement of changes in net assets available for benefits.

Management fees and operating expenses charged to the Plan for investments in mutual funds and common collective trusts are deducted from income earned on a daily basis and are reflected as a reduction of investment return for such investments. The Company also pays certain investment management fees on behalf of the Plan.

Payment of Benefits

Benefit payments to participants are recorded upon distribution. Amounts allocated to persons who have elected to take a distribution from the Plan but had not yet been paid at December 31, 2024 and 2023 were \$38,618 and \$70,274, respectively.

Excess Contributions Payable

The Plan is required to return contributions received during the Plan year in excess of the IRC limits.

3. Interest in Master Trust

The Trustee holds certain investment assets of the Master Trust as commingled funds in which each separate plan is deemed to have an undivided interest in the investments in which they participate. The Plan's investment in the shared assets held by the Master Trust consists of units owned in the Marsh & McLennan Companies Stock Fund, the Invesco Fixed Income Fund (the "Stable Value Fund"), and the S&P 500 Index Fund, the U.S. Bond Index Fund, the U.S. Extended Equity Market Index Fund and the Non-U.S. Equity Index Fund (collectively, the "common collective trusts").

The following tables summarize the assets and liabilities of the commingled funds of the Master Trust and the Plan's interest in those assets and liabilities at December 31, 2024 and 2023:

Marsh & McLennan Companies Stock Fund Valuations

The Marsh & McLennan Companies Stock Fund consists of Marsh McLennan common stock and short-term investment funds. The Marsh McLennan common stock is reported at fair value based on the closing market price at December 31, 2024 and 2023. The short-term investment fund is composed of high-grade money market instruments with short maturities that are reported at fair value as of the reporting date.

Stable Value Fund Valuations

The Stable Value Fund consists of GICs, synthetic GICs, separate account GICs and short-term investment funds (collectively, the "investment contracts"). The short-term investment funds primarily consist of high-grade money market instruments with short maturities that are reported at fair value as of the reporting date.

The investments in traditional GICs, synthetic GICs, and separate account GICs, which are fully benefit responsive investment contracts ("FBRICs"), are part of the stable value fund managed by Invesco Advisers, Inc. Investments in FBRICs, if they meet the fully responsive requirements of the accounting guidance, are required to be reported at contract value rather than at fair value. Contract value is the amount Plan participants would receive if they were to initiate permitted transactions under the terms of the Plan.

The investment contracts provide for benefit responsive withdrawals by Plan participants at contract value.

Investment contracts are normally held to maturity and meet the fully benefit responsive requirements of the accounting guidance. The contract value of Investment Contracts will be adjusted to reflect any issuer defaults or other evidence of impairment of an Investment Contract should they occur.

Synthetic GICs consist of investment-grade fixed income securities (credit rating at time of purchase) or units of commingled funds composed of such securities owned by the Stable Value Fund or, in the case of separate account GICs, owned by the insurance company. These underlying assets are "wrapped" by an insurance company, bank, or other financial institution (the "wrap provider"). With traditional GICs, the underlying assets are part of the general account of the issuing insurance company and, as such, may have different credit ratings and maturity requirements. The underlying securities of the synthetic GICs and separate account GICs are generally actively managed during the life of the contract. Under specified circumstances, the Investment Contracts provide liquidity for benefit payments to the Fund for the benefit of Plan participants at contract value.

The Stable Value Fund purchases wrap contracts from insurance companies, banks, or other financial institutions. The wrap contract amortizes the realized and unrealized gains and losses on the underlying fixed income investments, typically over the duration of the investments, through adjustments to the future interest crediting rate. The issuer of the wrap contract provides assurance that the adjustments to the interest crediting rate do not result in a future interest crediting rate that is less than zero. The crediting rate is calculated by a formula specified in each wrap agreement and is typically reset on a monthly or quarterly basis, depending on the contract. The key factors that influence future crediting rates for wrapped contracts

include the following: the level of market interest rates, the amount and timing of participant contributions, transfers, and withdrawals into/out of the contract, the investment returns generated by the fixed income securities that back the wrapped contract, and the duration of the underlying investments backing the contract.

Changes in market interest rates affect the yield to maturity and the market value of the underlying bonds, and they can have a material impact on the contract's crediting rate. In addition, participant withdrawals and transfers from the Stable Value Fund are paid at contract value but funded through the market value liquidation of the underlying investments, which also impacts the interest crediting rate. The resulting gains and losses in the market value of the underlying investments relative to the contract value are amortized in the future through either a lower crediting interest rate (in the event of market losses) or a higher crediting interest rate (in the event of market gains) than would otherwise be the case. All wrap contracts provide for a minimum interest crediting rate of zero percent.

Certain events might limit the ability of the Plan to transact at contract value with the contract issuer. Such events include the Plan's failure to qualify under Section 401(a) of the IRC or the failure of the trust to be tax-exempt under Section 501(a) of the IRC, premature termination of the contracts, Plan termination or merger, changes to the Plan's prohibition on competing investment options and bankruptcy of the Plan Sponsor or other Plan Sponsor events (for example, divestitures or spinoffs of a subsidiary) that significantly affect the Plan's normal operations.

In addition, certain events allow the contract issuer to terminate a contract with the Plan and settle at an amount different from the contract value. Those events may be different under each contract. Examples of such events include the following: an uncured violation of the Plan's investment guidelines, a breach of material obligation under the contract, a material misrepresentation, and a material amendment to the agreements without the consent of the issuer. If one of these events were to occur, the contract issuer could terminate the contract at the market value of the underlying investments or, in the case of a traditional GIC, at the hypothetical market value based upon a contractual formula.

Management believes that no events are probable of occurring that might limit the ability of the Plan to transact at contract value with the contract issuers or that could cause a contract issuer to terminate a contract.

Common collective trusts

Shares of common collective trusts are valued at the NAV of shares held by the Plan at year-end based upon the quoted market prices of the underlying investments. NAV is used as a practical expedient for estimating fair value of common collective trusts.

4. Fair Value Measurements

The Plan categorizes its assets that are valued at fair value on a recurring basis into a three-level fair value hierarchy as defined by the Financial Accounting Standards Board. The fair value of a financial instrument is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair values. The Plan classifies its investments into Level 1, which refers to securities valued using unadjusted quoted prices from active markets for identical assets; Level 2, which refers to securities not traded on an active market but for which observable market inputs are readily available; Level 3, which refers to securities valued based on significant unobservable inputs; and NAV, which refers to investments valued using net asset value as a practical expedient. Assets and liabilities are classified in their entirety based on the lowest level of input that is significant to the fair value measurement.

The following tables set forth, by level within the fair value hierarchy, a summary of plan identified investments held by the Master Trust measured at fair value at December 31, 2024 and 2023:

6. Exempt Party in Interest Transactions

The Plan has a short-term investment fund managed by the Trustee. The balance in the fund was \$1,279,081 and \$3,395 at December 31, 2024 and 2023, respectively.

The Plan, through its interest in the Master Trust (see Note 3), was the beneficial owner of 290,180 and 299,342 shares of common stock of Marsh McLennan, the sponsoring employer, at December 31, 2024 and 2023, respectively. The fair value of the shares at December 31, 2024 and 2023 was \$61,637,116 and \$56,716,400, respectively. The cost of these shares at December 31, 2024 and 2023 was \$10,818,620 and \$11,148,134, respectively. The Plan recorded dividend income of \$920,850 and \$763,551 for the years ended December 31, 2024 and 2023, respectively, from shares of Marsh McLennan.

The Plan issues loans to participants which are secured by the vested balances in the participant's account.

Certain administrative, investment and investment advisory functions are performed by officers and employees of the Company and its subsidiaries (who may also be participants in the Plan) at no cost to the Plan. Certain of these functions are performed by unaffiliated third parties who might have other roles with respect to the Plan. These transactions are not deemed prohibited party-in-interest transactions because they are covered by statutory and/or administrative exemptions from the IRC and ERISA rules on prohibited transactions.

7. Net Transfers to Other Plan

During the year 2024, certain employees transferred their balances between the MMC Plan and the Plan. The net amount transferred in the Plan and reported in the statement of changes in net assets available for benefits was \$3,414,792, which included transfers into the Plan of \$4,263,648 and transfers from the Plan of \$848,856.

8. Federal Income Tax Status

The IRS has determined and informed the Company by a letter dated November 13, 2013, that the Plan is designed in accordance with applicable sections of the IRC. The Plan has been amended since receiving the determination letter, however, the Company and the Plan's management believe that the Plan is currently operated in compliance with the applicable requirements of the IRC and that the Plan continues to be qualified and the related trust continues to be tax-exempt. Therefore, no provision for income taxes has been included in the Plan's financial statements.

9. Plan Termination

Although it has not expressed any intention to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA. In the event that the Plan is terminated, each participant would become 100% vested in their account.

10. Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements to Form 5500 at December 31, 2024 and 2023:

Net assets available for benefits per the Form 5500, at fair value	<u>\$ 1,518,117,568</u>	<u>\$ 1,229,554,338</u>

The following is a reconciliation of benefits paid to and withdrawals by participants per the financial statements to Form 5500 for the year ended December 31, 2024:

Benefits paid to and withdrawals by participants per the financial statements	\$ 101,458,601
Add: Amounts allocated to withdrawing participants and accrued on Form 5500	38,618
Less: Prior year amounts allocated to withdrawing participants	<u>(70,274)</u>
Benefits paid to participants per Form 5500	<u>\$ 101,426,945</u>

Amounts allocated to withdrawing participants are recorded on Form 5500 for benefit distributions that have been processed and approved for payment prior to December 31, 2024 but not reflected as paid as of that date.

The following is a reconciliation of the decrease in net assets available for benefits per the financial statements to Form 5500 for the year ended December 31, 2024:

Statement of changes in net assets available for benefits:	
Increase in net assets before plan transfers per the financial statements	\$ 285,116,782
Add: Amounts allocated to withdrawing participants	31,656
Net gain per Form 5500	<u>\$ 285,148,438</u>

11. Subsequent Events

Plan Management has performed its evaluation of subsequent events through the date of issuance of these financial statements and has determined that there were no subsequent events requiring adjustment to or disclosure in the financial statements.
