## **INDEPENDENT AUDITORS' REPORT**

To the Plan Administrator  
Torgeson Electric Company Employees Stock Ownership Plan  
Topeka, Kansas

### ***Opinion***

We have audited the financial statements of Torgeson Electric Company Employees Stock Ownership Plan (the Plan), an employee benefit plan subject to the *Employee Retirement Income Security Act of 1974* (ERISA), which comprise the statements of net assets available for benefits as of December 31, 2024 and 2023; the related statements of changes in net assets available for benefits for the years then ended; and the related notes to the financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2024 and 2023, and the changes in net assets available for benefits for the years then ended in accordance with accounting principles generally accepted in the United States of America (GAAP).

### ***Basis for Opinion***

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audits of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

### ***Responsibilities of Management for the Financial Statements***

Management is responsible for the preparation and fair presentation of the financial statements in accordance with GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current Plan instrument, including all Plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

## **INDEPENDENT AUDITORS' REPORT**

(Continued)

### ***Auditors' Responsibilities for the Audits of the Financial Statements***

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance, but is not absolute assurance, and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audits, significant audit findings, and certain internal control-related matters that we identified during the audits.

## **INDEPENDENT AUDITORS' REPORT**

### ***Supplementary Schedule Required by ERISA***

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplementary schedule of assets (held at end of year) as of December 31, 2024, is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor (DOL)'s Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from, and relates directly to, the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS.

In forming our opinion on the supplementary schedule, we evaluated whether the supplementary schedule, including its form and content, is presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying schedule is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content are presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

# Torgeson Electric Company Employees Stock Ownership Plan

## NOTES TO THE FINANCIAL STATEMENTS

---

### 1. DESCRIPTION OF THE PLAN

The following description of Torgeson Electric Company Employees Stock Ownership Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a complete description of the Plan's provisions.

**General** The Plan is an employee stock ownership plan (ESOP) covering substantially all employees of Torgeson Electric Company, Inc. (the Company) who have one year of service and are age 18 or older. The Plan is designed to comply with Section 4975(e)(7) and the regulations thereunder of the *Internal Revenue Code of 1986* (IRC), and is subject to the applicable provisions of the *Employee Retirement Income Security Act of 1974* (ERISA). The Plan was originally established as of January 1, 2007, and has been subsequently amended and restated. The Plan is authorized to receive Company contributions in the form of cash or Company stock. The Plan may also purchase Company stock from the Company or its shareholders and may leverage such purchases with borrowings directly from, or guaranteed by, the Company. Once the Plan enters into a leveraged transaction, Company contributions are first used to pay outstanding debt of the Plan; then, to purchase shares of Company stock available for purchase; and finally, to invest in savings accounts, certificates of deposit, short-term commercial paper, insurance, stocks, bonds, or other investments. The Plan administrator is responsible for oversight of the Plan.

The Plan contains a reshuffling provision that converts into cash the convertible portion of the shares of Company stock held in an inactive participant's account and holds it in a segregated account for each participant whose employment has been terminated. Conversions are done by exchanging, on a pro-rata basis, cash or other liquid assets held in the other investment accounts of each participant who remains actively employed. The purpose of this exchange is to increase the Company stock accounts of active participants over a five-year conversion period with shares of Company stock in an inactive participant's account, and to transition the inactive participants' Company stock account to investments other than Company stock over such a five-year conversion period.

The Plan operated as a leveraged ESOP until January 2011, at which time it became a nonleveraged ESOP. For the year ended December 31, 2017, the Plan again became a leveraged ESOP. At December 31, 2024 and 2023, 73% and 71% of the shares of Company stock owned by the Plan are allocated to participants, respectively.

On April 28, 2017, the Plan purchased 2,722 shares of the Company's common stock with \$500,000 cash. All of the stock from this purchase was allocated to eligible employees' accounts. Following this purchase, the Plan then purchased 9,528 shares of the Company's common stock with a note payable of \$1,750,000 to the Company.

The note payable is collateralized by the unallocated shares of Company common stock and is guaranteed by the Company. The Company has no rights against shares of Company common stock once they are allocated to participants in accordance with the terms of the Plan. Accordingly, the financial statements of the Plan as of and for the years ended December 31, 2024 and 2023, present separately the assets and liabilities and changes therein pertaining to the accounts of participants with rights in allocated common stock (allocated), and common stock not yet allocated to participants (unallocated).

## Torgeson Electric Company Employees Stock Ownership Plan

### NOTES TO THE FINANCIAL STATEMENTS

(Continued)

---

**Contributions** The Company is obligated to make cash contributions to the Plan which, when aggregated with the Plan's dividend and interest earnings, equal the amount necessary to enable the Plan to make its regularly scheduled payments of principal and interest due on its term loan. Additionally, the Company may make a discretionary contribution to the Plan in an amount determined by the Board of Directors, which is not to exceed 25% of the compensation paid to the participants during the Plan year. The Company made discretionary contributions of \$515,000 and \$550,000 to the Plan for the years ended December 31, 2024 and 2023, respectively. Participant contributions are not permitted.

**Participant Accounts** Each participant's account is credited with an allocation of currently released shares, forfeitures of terminated participants' nonvested account balances, investment gains or losses, and certain administrative expenses. Company contributions and Plan forfeitures are allocated based on the percentage of the individual participant's eligible compensation, relative to total eligible compensation. Plan earnings are allocated to each participant's account based on the ratio of the participant's adjusted beginning-of-the-year account balance.

**Vesting** Company contributions are subject to vesting. A participant is 100% vested after six years of credited service, upon attainment of normal retirement age, or upon termination due to death or disability. Participants are credited with one year of service for each plan year in which they worked at least 1,000 hours.

**Payment of Benefits** Distributions from the Plan will not be made unless a participant retires, dies (in which case, payment shall be made to the participant's beneficiary or, if none, the participant's legal representatives), becomes disabled, or otherwise terminates employment with the Company or becomes eligible for diversification. Once eligible for a distribution, a participant's vested balance will be paid in a lump sum after having been terminated for six years, unless their account balance is less than \$1,000. If their balance is less than \$1,000, it will be paid as soon as administratively possible in the year after they terminate. The amount to be distributed is based upon the valuation dated immediately preceding the distribution. The distributions may be made in cash, Company common stock, or a combination of both. If benefits are paid with Company common stock, the Plan and then the Company have a "right of first refusal" prior to any subsequent transfer, at a price of the greater of fair market value or the purchase price and other terms offered by a third party making a good faith offer.

At December 31, 2024 and 2023, there were no amounts allocated to participants who elected to withdraw from the Plan but have not yet been paid.

**Forfeitures** Forfeited nonvested shares are used to either pay Plan expenses or be allocated to remaining participants, based on the percentage of the individual participant's eligible compensation to total eligible compensation for all participants. For the years ended December 31, 2024 and 2023, \$0- and \$1,552 of the forfeited account balances were allocated to participants, respectively. At December 31, 2024 and 2023, no forfeitures were available to allocate to participants in future years.

**Plan Termination** The Company reserves the right to terminate the Plan at any time. Upon termination of the Plan, the Plan administrator directs the trustees to pay all liabilities and expenses of the Plan and sell shares of financed stock held as collateral to the extent they determine such sale would be necessary to repay the loan. Subsequently, the interest of each participant in the Plan will be distributed to such participant, or to the participant's beneficiary, at the time prescribed by the Plan terms and the IRC.

---

**Voting Rights** Each participant is entitled to exercise voting rights attributed to the shares allocated to the participant's account and is notified by the trustee prior to the time that such rights are to be exercised. The trustee is not permitted to vote any allocated shares for which instructions have not been given by a participant. The trustee is required, however, to vote any unallocated shares on behalf of the collective best interests of Plan participants and beneficiaries.

**Put Option** Under federal income tax regulations, Company stock that is held by the Plan in trust for its participants that is not readily tradable on an established market, or is subject to trading limitations, must include a put option. The purpose of the put option is to ensure that the participant has the ability to liquidate any Company common stock that the participant receives from the Plan. The put option is a right to demand that the Company buy any shares of its stock distributed to participants for which there is no market. The put price is representative of the current appraised value of the stock. The Company can pay for the purchase with interest over a period not to exceed five years. For the years ended December 31, 2024 and 2023, 1,158 and 1,154 shares were repurchased from participants, respectively.

**Diversification** Diversification is offered to participants nearing retirement age so that they may have the opportunity to shift a portion of the value of their investment in Company common stock into investments which are more diversified. Participants who are at least age 55 and with at least 10 years of participation in the Plan may elect to diversify a portion of their account. Diversification is offered to each eligible participant over a six-year period. In each of the first five years, a participant may diversify up to 25% of the number of post-1986 shares allocated to the participant's account, less any shares previously diversified. In the sixth year, the percentage changes to 50%. Participants who elect to diversify receive a cash distribution. The election to diversify is made subsequent to year-end, based upon the shares of Company stock in the participant's account at year-end.

## 2. SIGNIFICANT ACCOUNTING POLICIES

**Basis of Accounting** The Plan uses the accrual method of accounting in accordance with accounting principles generally accepted in the United States of America (GAAP).

**Use of Estimates** The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

**Allocations** The financial statements of the Plan present separately the assets and liabilities and changes therein pertaining to: (a) the accounts of participants with rights in allocated stock (allocated); and (b) stock not yet allocated to participants (unallocated), including shares that are committed to be released. Shares are released from collateral and become allocated generally in the period in which debt service is actually paid.

**Investment Valuation and Income Recognition** The shares of Company common stock are reported at fair value. Fair value measurements are discussed below. Dividend income is accrued on the ex-dividend date. Purchases and sales of securities are recorded on a trade-date basis. Realized gains and losses from security transactions are reported on the average-cost method. Net appreciation in fair value of investments includes the Plan's gains and losses on investments bought and sold, as well as held during the year.

**Fair Value Measurements** The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy are described below:

*Level 1:* Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

*Level 2:* Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; or inputs that are derived principally from, or corroborated by, observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

*Level 3:* Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2024 and 2023.

**Mutual Funds:** Assets are valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-ended mutual funds that are registered with the U.S. Securities and Exchange Commission. These funds are required to publish their daily net asset value and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

**Common Stocks:** Assets are valued at the closing price reported on the active market on which the individual securities are traded.

*Investment in Company Common Stock:* This stock is valued by an independent appraiser in order to derive an approximation of fair value as of the end of the Plan year. Consistent with prior years, the appraisal was based upon a combination of the market approach and the income approach. Reliance on the market and income approaches for the valuation was determined appropriate, as they best represent the value attainable related to the shares held in the Plan. The unobservable inputs relating to the income approach include earnings before interest, taxes, depreciation, and amortization (EBITDA), net income, weighted average cost of capital, discount rate, and discount for lack of marketability. The unobservable inputs relating to the market approach include public comparables, revenue multiple, EBITDA multiple, and discount for lack of marketability.

The valuation process involves Plan management's selection of an independent appraiser. Plan management accumulates the data for the appraiser from historical and projected financial information of the Company. The appraiser prepares a preliminary report of estimated per-share value that a participant will receive upon distribution. Management and the Plan administrator approve the report after detailed review and discussion. The results of this process are documented in the minutes of the Plan administrator.

See note 4 for the classification of these assets within the fair value hierarchy.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

**Payment of Benefits** Benefits are recorded when paid.

**Expenses** Certain expenses of administering the Plan may be paid either by the Plan or by the Company. Expenses that are paid by the Company are excluded from these financial statements. These expenses may include legal counsel, investment consultants, record keepers, auditors, and other paid providers.

**Evaluation of Subsequent Events** The Plan has evaluated subsequent events through October 2, 2025, the date the financial statements were available to be issued.

#### 4. FAIR VALUE MEASUREMENTS

The following tables set forth by level, within the fair value hierarchy, the Plan's investments at fair value:

December 31, 2024	Level 1	Level 2	Level 3	Total
Mutual funds	\$ 275	\$ -	\$ -	\$ 275
Investment in Company common stock	-	-	11,670,750	11,670,750
<b>Total Investments at Fair Value</b>	<b>\$ 275</b>	<b>\$ -</b>	<b>\$ 11,670,750</b>	<b>\$ 11,671,025</b>

December 31, 2023	Level 1	Level 2	Level 3	Total
Mutual funds	\$ 274,753	\$ -	\$ -	\$ 274,753
Common stocks	243,995	-	-	243,995
Investment in Company common stock	-	-	10,114,650	10,114,650
<b>Total Investments at Fair Value</b>	<b>\$ 518,748</b>	<b>\$ -</b>	<b>\$ 10,114,650</b>	<b>\$ 10,633,398</b>

There were no transfers into or out of level 3 investments for the years ended December 31, 2024 and 2023. The Plan's policy is to recognize transfers into and out of level 3 as of the actual date of the event or change in circumstances.

#### 5. NOTE PAYABLE

In 2017, the Plan entered into a \$1,750,000 term note agreement with the Company. The proceeds of the note payable were used to purchase Company common stock. Unallocated shares are collateral for the note. Shares are released from collateral and allocated to participants as payments of principal and interest are made. The number of shares released in any year is the number of shares held as collateral, times the ratio of the current-year payments, divided by the total of the current-year payments, plus all future years' principal and interest payments. This resulted in 471 shares being released and allocated for both the years ended December 31, 2024 and 2023.

The Plan will make 20 annual payments of principal and interest that began on April 27, 2018, and will continue until April 27, 2037. The interest rate is the long-term Internal Revenue Service (IRS) applicable federal rate, which was 2.75% when the note payable was made, and it will be adjusted annually. For the year ended December 31, 2023, the loan agreement was amended and the interest rate was converted from a variable rate to a fixed rate. The interest rate at December 31, 2024 and 2023, was 5.00%. The Plan may prepay amounts due hereunder in whole or in part at any time, and from time to time, without premium or penalty. The Company agrees to make contributions to the Plan in cash from time to time in amounts sufficient to permit the Plan to make timely payments of principal and interest, after taking into account the amount of any cash dividends on the ESOP note payable shares received by the Plan. The outstanding balance of the note payable at December 31, 2024 and 2023, was \$1,242,283 and \$1,309,077, respectively.

### 6. RELATED-PARTY AND PARTY-IN-INTEREST TRANSACTIONS

The Plan invests in Company common stock and has indebtedness guaranteed by the Company. These are related-party and party-in-interest transactions. The Plan has a number of service providers that are considered parties in interest under ERISA. For the year ended December 2023, the Plan's service provider moved to Menke Group from ESOP Partners.

### 7. TAX STATUS

The IRS has determined, and informed the Company by a letter dated June 20, 2014, that the Plan and related trust are designed in accordance with applicable sections of the IRC. Although the Plan has been amended since receiving the determination letter, the Plan administrator believes that the Plan is currently designed and operating in compliance with the applicable requirements of the IRC. Therefore, they believe that the Plan is qualified and the related trust is tax exempt.

### 8. RISKS AND UNCERTAINTIES

Plan investments consist of the Company's common stock and various investment securities, which are exposed to various risks such as interest rate, market, and credit risks, as well as valuation assumptions based on earnings, cash flows, and other such techniques. Due to the level of risk associated with the investment in the Company common stock, and uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in the value of the Company common stock and various investment securities will occur in the near term, and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

### 9. CONCENTRATIONS

The Plan holds investments in the Company's common stock amounting to \$11,670,750 and \$10,114,650 at December 31, 2024 and 2023, respectively. The investment represents 92% and 87% of total plan assets at December 31, 2024 and 2023, respectively. The shares owned by the Plan represent 100% of all Company stock outstanding at December 31, 2024 and 2023.

### **10. SUBSEQUENT EVENTS**

Effective January 1, 2025, the plan now requires that company stock accounts belonging to former employees, beneficiaries of deceased employees, and alternate payees under a qualified domestic relations order be converted to cash as soon as practicable each plan year, following the annual valuation of company stock. This conversion is carried out by exchanging cash from active employees' accounts for company stock held in the accounts of former employees, beneficiaries, and alternate payees.

Effective January 1, 2025, for distributions on or after the effective date if the total vested value of a participant's company stock account and other investments account is \$7,000 or less, the distribution will be made in a lump sum. This lump sum will be paid as soon as administratively feasible following the close of the plan year in which the participant's employment terminates.
