## Appendix B – Summary of Actuarial Assumptions and Methods (cont.)

### Rationales of demographic assumptions

<b>Mortality table:</b>	<p>Funding: Tables prescribed by law.</p> <p>ASC 960: The plan is not large enough to develop a credible mortality table based exclusively on plan experience. We have relied on the above-mentioned published mortality tables in which credible mortality experience was analyzed. We believe the mortality assumption selected is reasonable for the contingency it is measuring and is not anticipated to produce significant cumulative actuarial gains or losses over the measurement period.</p>

## Appendix B – Summary of Actuarial Assumptions and Methods (cont.)

### Rationales of demographic assumptions

<b>Mortality table:</b>	<p>Funding: Tables prescribed by law.</p> <p>ASC 960: The plan is not large enough to develop a credible mortality table based exclusively on plan experience. We have relied on the above-mentioned published mortality tables in which credible mortality experience was analyzed. We believe the mortality assumption selected is reasonable for the contingency it is measuring and is not anticipated to produce significant cumulative actuarial gains or losses over the measurement period.</p>
<b>Retirement:</b>	<p>This assumption represents our best estimate for the group. We believe the retirement assumption selected is reasonable for the contingency it is measuring and is not anticipated to produce cumulative actuarial gains or losses over the measurement period.</p>
<b>Withdrawal Rates:</b>	<p>We believe the withdrawal assumption selected is reasonable for the contingency it is measuring and is not anticipated to produce significant cumulative actuarial gains or losses over the measurement period.</p>
<b>Marital Assumptions:</b>	<p>This assumption was developed based on a review of the plan's historical experience. We believe the marriage assumption selected is reasonable for the contingency it is measuring and is not anticipated to produce significant cumulative actuarial gains or losses over the measurement period.</p>
<b>Assumed Form of Payment:</b>	<p>This assumption was developed based on a review of the plan's historical experience. We believe the form of payment assumption selected is reasonable for the contingency it is measuring and is not anticipated to produce significant cumulative actuarial gains or losses over the measurement period.</p>
<b>Salary scale:</b>	<p>The assumption was set based on plan sponsor's expectation of future salary increases.</p>
<b>ASC960 Discount Rate:</b>	<p>Long-term rate of return on assets selected by the plan sponsor.</p> <p>For reasonability check, we have utilized the Capital Market Assumptions from 2024 edition of the survey published by Horizon Actuarial Services, LLC. We believe that the selected assumption is reasonable for its intended purpose.</p>
<b>Minimum Funding, Maximum Tax-Deductible and PBGC interest rates:</b>	<p>For minimum funding and maximum tax-deductible purposes, the plan sponsor elected to use segment rates with a 4-month lookback period. For PBGC premium purposes, the plan sponsor elected to use Standard Method to calculate the PBGC Variable Rate Premium (year elected was 2008).</p>
