Independent Auditor's Report

To the Administrative Committee
Acme Truck Employee Stock Ownership Plan

Opinion

We have audited the accompanying financial statements of Acme Truck Employee Stock Ownership Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statements of net assets available for benefits as of December 31, 2024 and 2023, the related statement of changes in net assets available for benefits for the year ended December 31, 2024, and the related notes to the financial statements.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2024 and 2023, and the changes in net assets available for benefits for the year ended December 31, 2024, in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standard generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements Section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis of our audit opinion.

Emphasis of Matter - Investments

As discussed in Note 7, the financial statements include an investment representing 32% and 31% of total assets as of December 31, 2024 and 2023, respectively, whose fair value has been estimated by an independent appraisal, in the absence of a readily ascertainable fair value, with the assistance of management and approved by the trustee. Because of the inherent uncertainty of the valuation, the estimated value may differ significantly from the value that would have been used had a market value for the investment existed, and the difference could be material. Our opinion is not modified with respect to this matter.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplemental Schedule Required by ERISA

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule of assets (held at end of year) as of December 31, 2024, is presented for the purpose of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under the ERISA. Such information is the responsibility of the Plan's management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, including its form and content, is presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information on the accompanying schedule is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content are presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

ACME TRUCK EMPLOYEE STOCK OWNERSHIP PLAN

Notes to Financial Statements

Note 1. Description of the Plan

The following description of the Acme Truck Employee Stock Ownership Plan (the Plan) provides only general information. Participants should refer to the Plan Document for a more complete description of the Plan's provisions.

General

Acme Truck Line, Inc. (the Company) established the Acme Truck Employee Stock Ownership Plan. The Plan and Trust are designed to comply with Section 4975(e)(7) and the regulations thereunder of the Internal Revenue Code (IRC) of 1986 and is subject to the applicable provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

The administration of the Plan is the responsibility of the Company. The Company has designated the Administrative Committee as Plan Administrator. The Plan is administered on a calendar year basis and is funded entirely by the Company. GreatBanc Trust Company was the Trustee for the Plan through May 9, 2023. Effective May 10, 2023, TI-Trust, Inc. is the Trustee for the Plan. The record keeper for the Plan is Principal Financial Group.

The financial statements of the Plan as of December 31, 2024 and 2023 and for the year ended December 31, 2024 presents separately the assets and liabilities and changes therein pertaining to the accounts of employees with vested rights in allocated stock (Allocated) and stock not yet allocated to employees (Unallocated).

Eligibility

Eligible employees of the Company, as defined by the Plan, are generally eligible to participate in the Plan on December 31st following the date that is 12 months after the employee is credited with one hour of service, provided the employee is age 18 or older. An eligible employee must be employed by the Company on the last day of the plan year to be eligible for an allocation of the Company contribution for such year, except if employment was terminated during the plan year due to retirement, death, or disability.

Contributions

Each plan year, the Company may contribute cash or company stock (or a combination of both) to the Plan in amounts determined by the Company's Board of Directors. There is no requirement that a contribution be made in any plan year. Employee contributions are not permitted.

Payment of Benefits

Generally, participants are entitled to receive a benefit upon retirement, disability, death, or upon termination of employment for any reason. The Plan provides for a cash out provision for terminated participants with an account balance of \$1,000 or less. When a participant receives a distribution, the value of the participant's vested account will be determined as of the last day of the plan year. The benefits may be distributed in cash as a single lump sum or annual installments over five years, as defined by the Plan.

ACME TRUCK EMPLOYEE STOCK OWNERSHIP PLAN

Notes to Financial Statements

Note 1. Description of the Plan (Continued)

Put Option

Under Federal income tax regulations, the employer stock that is held by the Plan and its participants and is not readily tradable on an established market, or is subject to trading limitations, includes a put option. The put option is a right to demand that the Company buy any shares of its stock distributed to participants for which there is no market. The put price is representative of the current appraised value of the stock. The purpose of the put option is to ensure that the participant has the ability to ultimately obtain cash.

Voting Rights

Each participant is entitled to exercise voting rights attributable to the shares allocated to his or her account and is notified by the Trustee prior to the time that such rights are to be exercised. The Trustee is not permitted to vote any allocated share for which instructions have not been given by a participant. The Trustee is required, however, to vote any unallocated shares on behalf of the collective best interest of plan participants and beneficiaries.

Plan Termination

Although it has not expressed any intent to do so, the Company reserves the right to terminate the Plan at any time and for any reason, subject to plan provisions. In the event the Plan is terminated, no additional contributions will be made and the interest of each participant in the trust fund will be distributed to such participant or his or her beneficiary at the time prescribed by the plan terms and the IRC. In addition, all participants will become fully vested and entitled to the entire balance credited to their account regardless of their years of service.

Participant Accounts

The Plan is a defined contribution plan under which a separate individual account is established for each participant. Each participant's account is credited as of the last day of each plan year with an allocation of the Company's contribution, any earnings or losses and forfeitures of terminated participants' non-vested accounts. Only those participants who are eligible employees of the Company as of the last day of the Plan year will receive an allocation. Allocations are based on a participant's eligible compensation, relative to total eligible compensation. Plan earnings or losses are allocated to each participant's account based on the ratio of the participant's account balance.

Vesting

Participants become fully vested in the Company contributions and the actual earnings thereon upon completion of three years of service with the Company, upon death or disability, or upon reaching age 65, as defined by the Plan.

ACME TRUCK EMPLOYEE STOCK OWNERSHIP PLAN

Notes to Financial Statements

Note 1. Description of the Plan (Continued)

Diversification

Diversification is offered to participants close to retirement so that they may have the opportunity to move part of the value of their investment in the company stock into investments which are more diversified. Participants who are at least age 55 with at least 10 years of participation in the Plan may elect to diversify a portion of their account. Diversification is offered to each eligible participant over a six-year period. In each of the first five years, a participant may diversify up to 25% of his or her account, adjusted for prior withdrawals. In the sixth year, the percentage changes to 50%. Participants who elect to diversify receive a cash distribution. The election to diversify is made subsequent to year end based upon the shares of the Company common stock in the participant's account at year end.

Forfeitures

If a participant terminates employment with the Company before becoming fully vested, the non-vested portion will be forfeited on December 31st of the plan year in which the participant incurs a five-year Period of Severance, as defined in the Plan. Plan forfeitures may be reallocated among current plan participants or used to offset plan expenses. As of December 31, 2024 and 2023, \$20,181 and \$15,837, respectively, was reallocated to current plan participants.

Note 2. Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP).

Allocations

The financial statements of the Plan present separately the assets and changes therein pertaining to the accounts of employees with rights in allocated stock (allocated) and stock not yet allocated to employees (unallocated).

Investment Valuation and Income Recognition

The investments of the Company are reported at fair value. See Note 3 for a discussion of fair value measurements. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Net appreciation (depreciation) includes the Plan's gains and losses on investments purchased and sold, as well as held during the year.

Note 2. Summary of Significant Accounting Policies (Continued)

Investment Valuation and Income Recognition (Continued)

Total employer contributions receivable at December 31, 2024 and 2023, was \$142,000 and \$143,700, respectively, which represents 10,000 shares, respectively of the company stock. The exercise price at December 31, 2024 and 2023 is equal to the market value of \$14.20 and \$14.37 per share, respectively, which was determined by an independent appraisal.

The other receivables of \$7,258 and \$219,108 include employer cash contributions and accrued interest at December 31, 2024 and 2023, respectively.

Administrative Expenses

All expenses of maintaining the Plan are paid by the Trust.

Risks and Uncertainties

The Plan investments consist primarily of the Company's common stock and a money market fund, which is exposed to various risks such as interest rate, market, and credit risks, as well as valuation assumptions based on earnings, cash flows, and/or other such techniques. Due to the level of risk associated with the investment in the common stock and uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in the value of the common stock will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

Use of Estimates

The preparation of financial statements in conformity U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein. Actual results could differ from these estimates.

Payment of Benefits

Benefits are recorded when paid.

Note 3. Investments and Fair Value Measurements (Continued)

Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820, *Fair Value Measurement* Topic, provides a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability; and
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full-term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Changes in Fair Value of Level 3 Assets

To assess the appropriate classification of investments within the fair value hierarchy, the availability of market data is monitored. Changes in economic conditions or valuation techniques may require the transfer of investments from one fair value level to another. In such instances, the transfer is reported at the end of the reporting period.

The Plan evaluates the significance of transfers between levels based upon the nature of the investments and size of the transfer relative to total net assets available for benefits.

For the years ended December 31, 2024 and 2023, there were no transfers in or out of Level 3. During 2024 and 2023 there were \$143,700 and \$316,300, respectively, of Company common stock issuances.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2024 and 2023.

Note 3. Investments and Fair Value Measurements (Continued)

Changes in Fair Value of Level 3 Assets (Continued)

Acme Truck Line, Inc. Common Stock is reported at fair value based on an independent appraisal. This appraisal was based mainly on the income valuation technique consistent with prior years as illustrated in the following table.

Instrument	Fair Value	Principle Valuation Technique	Unobservable Inputs
Acme Truck Line, Inc. Common Stock	\$ 3,195,000	Income approach using the discounted cash flow method	EBITDA Net income Financial projections Weighted average cost of capital Discount rates Discount for lack of marketability

Money Market Fund is valued at the quoted market price on an available market.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Note 4. Administration of Plan Assets

The Plan's assets, which consist principally of the Company's common shares, are held by the Trustee of the Plan.

The Company's contributions are held and managed by the Trustee, which invests cash received, interest, and dividend income, and makes distributions to participants.

Certain administrative functions are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan.

Note 5. Tax Status

The Plan is qualified under the appropriate section of the IRC and intends to continue as a qualified plan. The Internal Revenue Service (IRS) has determined and informed the Plan Sponsor, by letter dated July 15, 2014 that the Plan, as designed, is qualified under the appropriate sections of the IRC. The Plan Administrator believes the Plan is currently designed, and being operated in compliance with the applicable requirements of the IRC.

Accounting principles generally accepted in the United States of America provide accounting and disclosure guidance about positions taken by a plan in its tax returns that might be uncertain. The Plan Administrator believes that it has appropriate support for any tax positions taken, and as such, does not have any uncertain tax positions that are material to the financial statements.

Note 6. Related-Party and Party-in-Interest Transactions

The Plan invests in Company common stock, which is a related-party and party-in-interest transaction. As described in Note 1, the Plan has several service providers. Such parties are parties-in-interest under ERISA.

Note 7. Concentration of Risk

At December 31, 2024 and 2023, the Plan holds 225,000 and 215,000 shares of the Company common stock at an estimated market value of \$3,195,000 and \$3,089,550, respectively. This represents approximately 32% and 31% of the assets of the Plan and 23% and 22.5% of the outstanding shares of the Company at December 31, 2024 and 2023, respectively.

Note 8. Subsequent Events

The Plan Administrator has evaluated subsequent events through the date that the financial statements were available to be issued, September 28, 2025, and determined that no events require disclosure. No subsequent events occurring after this date have been evaluated for inclusion in these financial statements.
