Part III Accountant's Opinion

3 Complete lines 3a through 3c if the opinion of an independent qualified public accountant is attached to this Form 5500. Complete line 3d if an opinion is not attached.

a The attached opinion of an independent qualified public accountant for this plan is (see instructions):

(1) Unmodified (2) Qualified (3) Disclaimer (4) Adverse

b Check the appropriate box(es) to indicate whether the IQPA performed an ERISA section 103(a)(3)(C) audit. Check both boxes (1) and (2) if the audit was performed pursuant to both 29 CFR 2520.103-8 and 29 CFR 2520.103-12(d). Check box (3) if pursuant to neither.

(1) DOL Regulation 2520.103-8 (2) DOL Regulation 2520.103-12(d) (3) neither DOL Regulation 2520.103-8 nor DOL Regulation 2520.103-12(d).

c Enter the name and EIN of the accountant (or accounting firm) below:

(1) Name: GRANT THORNTON, LLP

(2) EIN: 36-6055558

d The opinion of an independent qualified public accountant is **not attached** as part of Schedule H because:

(1) This form is filed for a CCT, PSA, DCG or MTIA. (2) It will be attached to the next Form 5500 pursuant to 29 CFR 2520.104-50.

Part IV Compliance Questions

4 CCTs and PSAs do not complete Part IV. MTIAs, 103-12 IEs, and GIAs do not complete lines 4a, 4e, 4f, 4g, 4h, 4k, 4m, 4n, or 5. 103-12 IEs also do not complete lines 4j and 4l. MTIAs also do not complete line 4l. DCGs do not complete lines 4e, 4f, 4k, 4l, and 5, and DCGs generally complete the rest of Part IV collectively for all plans in the DCG, except as otherwise provided (see instructions).

During the plan year:

| | Yes | No | Amount |
|--|-----|----|---------|
| a Was there a failure to transmit to the plan any participant contributions within the time period described in 29 CFR 2510.3-102? Continue to answer "Yes" for any prior year failures until fully corrected. (See instructions and DOL's Voluntary Fiduciary Correction Program.) | | X | |
| b Were any loans by the plan or fixed income obligations due the plan in default as of the close of the plan year or classified during the year as uncollectible? REPORT OF INDEPENDENT CERTIFIED PUBLIC ACCOUNTANTS

To the Plan Administrator of
The George Washington University Retirement Plan for Faculty and Staff

Scope and nature of the ERISA Section 103(a)(3)(C) audit

We have performed audits of the financial statements of The George Washington University Retirement Plan for Faculty and Staff (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits – modified cash basis as of December 31, 2024 and 2023, and the related statement of changes in net assets available for benefits – modified cash basis for the year ended December 31, 2024, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from qualified institutions as of December 31, 2024 and 2023, and for the year ended December 31, 2024, stating that the certified investment information, as described in Note 4 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section

- The amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with the modified cash basis of accounting described in Note 2.
- The information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (US GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Emphasis of matter – Basis of accounting

We draw attention to Note 2 of the financial statements, which describes the basis of accounting. The financial statements are prepared on the modified cash basis of accounting, which is a basis of accounting other than accounting principles generally accepted in the United States of America. Our opinion is not modified with respect to this matter.

Responsibilities of management for the financial statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with the modified cash basis of accounting described in Note 2, and for determining that the modified cash basis of accounting is an acceptable basis for the preparation of the financial statements in the circumstances. Management is also responsible for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's responsibilities for the audit of the financial statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with US GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with US GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of the modified cash basis of accounting described in Note 2.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with the modified cash basis of accounting described in Note 2.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other matter - supplemental schedules required by ERISA

The supplemental schedule of assets (held at end of year) is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such supplementary information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures. These additional procedures included comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with US GAAS. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion

- The form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, is presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- The information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

NOTES TO FINANCIAL STATEMENTS

December 31, 2024 and 2023

NOTE 1 - DESCRIPTION OF THE PLAN

The following description of The George Washington University Retirement Plan for Faculty and Staff (the “Plan”) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan’s provisions.

General

The Plan was established by The George Washington University (the “University”) in 1945. The Plan has been amended from time to time.

The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (“ERISA”). The Plan is a money purchase defined contribution plan that provides retirement benefits to qualified employees of the University. Benefits are funded by traditional annuities issued by the Teachers’ Insurance Annuity Association (“TIAA”), the TIAA Real Estate account, variable annuities offered by the College Retirement Equities Fund (“CREF”), Nuveen Mutual Funds (collectively “Nuveen”), and Fidelity Mutual Funds offered by Fidelity Management Trust Company (“Fidelity”). Vanguard Mutual Funds are offered through Fidelity, which serves as custodian over both Fidelity and Vanguard assets. TIAA Trust, N.A., (“Trust Company”) serves as custodian for the Plan’s investment in the Nuveen Mutual Funds as well as American Century Fund and MFS Mutual Funds.

The University Plan Administration Committee serves as the Plan administrator.

Participation and Vesting

Any present or future employee who completes two years of service, a year of service is defined as a 12 consecutive month period during which the employee worked at least 1,000 hours with the University or another non-profit educational institution of higher learning becomes eligible to participate in the Plan. The two years of service do not have to be consecutive. The Plan maintains Qualified Default Investment Alternatives if an employee fails to select investment funds for the University’s contributions: TIAA maintains the Nuveen Lifecycle Funds and Fidelity maintains the Fidelity Freedom Funds. In the event that an employee designates TIAA as an investment provider for the employee’s university base and matching contributions, but fails to designate specific investment funds, the contributions will be invested in the Nuveen Lifecycle Funds. In all other cases where an employee fails to provide investment direction (i.e., failing to designate an investment provider or designating Fidelity as an investment provider but failing to designate specific investment funds offered by Fidelity), contributions will be invested in the Fidelity Freedom Funds until the employee provides Fidelity with other investment direction. All plan contributions and benefits derived therefrom are immediately fully vested and nonforfeitable.

Contributions

The University contributes an amount equal to 4% of each participant’s eligible salary to the Fidelity and/or TIAA and CREF accounts (“Base Contribution”). Additionally, employees may contribute pre-tax and/or post-tax Roth dollars in The George Washington University Supplemental Retirement Plan (the “403(b) Plan”) to any of the investment options described below. These 403(b) Plan contributions are matched by the University at a rate of 1.5% for every 1% up to a University matching contribution total equal to 6% of the participant’s eligible salary. Employee contributions are accounted for in the 403(b) Plan, which qualifies under Section 403(b) of the Internal Revenue Code (“IRC”); therefore, these amounts are not included in the assets of the Plan. Plan contributions are capped at \$69,000 annually per person subject to the IRC 415(c) contribution limit. The annual earnings of each participant upon which the University’s contributions are based could not exceed \$345,000 in 2024 subject to IRC 417(a) (17).

**The George Washington University
Retirement Plan for Faculty and Staff**

NOTES TO FINANCIAL STATEMENTS - CONTINUED

December 31, 2024 and 2023

If an employee receives a lump-sum distribution from the employee's prior employer's qualifying retirement plan, the employee may be able to roll over that amount tax-free into the Plan. In addition, the employee may be able to rollover amounts held in an IRA to the extent the amounts are eligible for rollover treatment. Although rollovers are generally permitted from a broad range of employer-sponsored retirement plans, there are some restrictions under the IRC. As a result, all rollover contributions are subject to approval by the applicable investment provider. After tax contributions or rollovers containing after tax contributions are not allowed.

Each participant's account is credited with the University's contribution, rollover contributions and plan earnings (losses) and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Retirement

The normal retirement date of each participant is the day that the participant attains age 65. Prior to reaching age 65, eligible employees can request in-service withdrawals which can be taken by active employees if qualified. Retirement may be deferred past age 65. Retired or terminated former employees are required to begin withdrawing minimum amounts from their retirement account starting the year they reach 73 years of age. The initial required distribution can be delayed until April 1 in the year following the year they turn age 73. Required distributions for subsequent years need to be taken by December 31 of each year.

Benefits

On termination of service, participants may elect to receive benefit payments under any of the lifetime income benefits available through the TIAA annuities or may maintain their investments in the investment vehicles kept on TIAA and Fidelity platforms. The annuities are based upon the value of the investment results and the mortality and expense associated with the specific annuities available through TIAA, which are selected by the participant. The terms of the Plan may require distributions to be made in the form of a lump-sum payment, without the consent of the participant or beneficiary, if it is permitted by the related investment and annuity accounts, but no such payment may be made without the consent of the participant or beneficiary unless the individual account balance does not exceed \$7,000.

Upon retirement, participants who invest in the TIAA Real Estate account, TIAA Traditional Annuities or the CREF variable annuities may continue to invest in these accounts or may transfer their assets among these three types of accounts.

For assets in custody with TIAA, the University Executive, Chief Financial Officer and Treasurer serves as the trustee and Fidelity Management Trust Company is the custodian for assets in custody with Fidelity.

Administrative Expenses

All investment-related administrative fees are included in the expense ratios for the various investment options for TIAA and CREF, Vanguard, Nuveen and Fidelity, except for fees associated with certain participant directed transactions. Where the Plan maintains a balance in and makes active contributions to any of the investment vehicles kept on TIAA and Fidelity platforms, TIAA and Fidelity fund Revenue Credit Accounts in the Plan based upon income generated by the Plan. The amount determined to be in excess of TIAA and Fidelity's revenue requirements is deposited into the Revenue Credit Accounts of the Plan. The Revenue Credit Accounts may only be used either to pay direct, reasonable and necessary expenses of the Plan with authorization or to provide benefits for plan participants and beneficiaries in the form of revenue credits.

**The George Washington University
Retirement Plan for Faculty and Staff**

NOTES TO FINANCIAL STATEMENTS - CONTINUED

December 31, 2024 and 2023

All other administrative expenses of the Plan are paid by the University.

Termination

The University intends to continue the Plan indefinitely but reserves the right to amend, modify, terminate, or discontinue further contributions or payments under the Plan at any time. In the event of a complete or partial termination of the Plan or discontinuance of contributions, all individual accounts will remain nonforfeitable.

NOTE 2 - SIGNIFICANT ACCOUNTING POLICIES

Method of Accounting

The Plan's accounting records are maintained on the modified cash basis of accounting. Investments are reflected at fair value. Employer contributions are recorded when received by the Plan insurance company, custodians and trustee.

Use of Estimates

The preparation of the modified cash basis financial statements requires management to make estimates and assumptions that affect the reported amounts of assets and changes therein and disclosure of contingent assets and liabilities. Significant items subject to such estimates and assumptions include the valuation of investments. Actual results may differ materially from management's estimates.

Payment of Benefits

Benefit payments are recorded when paid.

Investment Valuation and Income Recognition

Investments are reflected at fair value, see Notes 3 and 8 for discussion of fair value measurement.

Purchases and sales of investments are recorded on a trade-date basis. Interest is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Within the statement of changes in net assets available for benefits, the Plan presents the net appreciation in fair value of its investments, which consists of the realized gains or losses and the unrealized appreciation on those investments.

Risk and Uncertainties

The Plan invests in investment securities that are exposed to various risks such as interest rate, market, and credit risks. Market values of investments may decline for a number of reasons, including changes in prevailing market and interest rates, increases in defaults and credit rating downgrades. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

**The George Washington University
Retirement Plan for Faculty and Staff**

NOTES TO FINANCIAL STATEMENTS - CONTINUED

December 31, 2024 and 2023

NOTE 3 - PLAN ASSETS

Participants in the Plan may elect to allocate the University's Base and Matching Contribution among TIAA Traditional Annuity, TIAA Real Estate, CREF variable annuities, Nuveen Registered Investment Companies, and the American Century, MFS, Fidelity, and Vanguard Mutual Funds, or any combination thereof. The allocations may be in any whole number proportion, including full allocation to any annuity or account. The allocation of contributions may be changed by the participant at any time by notifying Fidelity and/or TIAA-CREF.

Contributions to TIAA Traditional Annuity are used to purchase a guaranteed amount of future retirement benefits. TIAA provides to participants fixed dollar annuities, which are considered unallocated contracts. TIAA Traditional Annuity is a guaranteed fixed annuity, which guarantees principal and pays a guaranteed minimum interest of 3% for December 31, 2024 and 2023. Additional amounts above the guaranteed minimum interest rate may be declared at the discretion of the TIAA Board of Trustees on a year-by-year basis. When declared, the additional amounts remain in effect for the declaration year that begins each March 1, and are not guaranteed for future years. Together the guaranteed minimum and additional amounts make up the crediting rate in the accumulation phase. TIAA groups premium dollars received over defined periods into vintages for the purposes of determining the crediting rate for the applicable declaration year during the accumulation period. TIAA Traditional Retirement Annuity ("RA") holdings are non-benefit responsive and, therefore, reported at fair value. Distributions, withdrawals and transfers out of these contracts can only be made in ten annual installments through Transfer Payout Annuities. Contributions to the TIAA Real Estate account are placed in an insurance company pooled separate account, which invests in various real estate interests. Contributions to the CREF variable annuities, Nuveen registered investment companies, and Fidelity and Vanguard Mutual Funds are used to purchase shares in various types of annuities and Mutual Funds, including stock, bond, and money market funds.

Participants may elect to transfer the accumulations in their TIAA Real Estate and CREF variable annuity accounts to a TIAA Traditional Annuity.

NOTE 4 - CERTIFIED INFORMATION

The Plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's ("DOL") Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Fidelity, as custodian and TIAA and CREF are insurance carriers regulated, supervised and subject to periodic examinations have certified that the following information included in the accompanying financial statements and supplemental schedule is complete and accurate. The TIAA and CREF certification also extends to those investments, if any, which TIAA Trust, N.A., a national trust bank, held as a directed trustee or custodian that were record kept by TIAA for the years ending December 31, 2024 and December 31, 2023, respectively:

- Investments, at fair value, as shown in the statements of net assets available for benefits as of December 31, 2024 and 2023;
- Net investment income and plan service credit, as shown in the statement of changes in net assets available for benefits for the year ended December 31, 2024; and
- Schedule H, line 4i - schedule of assets (held at end of year) as of December 31, 2024.

The Plan's independent accountants did not perform auditing procedures with respect to this information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating

**The George Washington University
Retirement Plan for Faculty and Staff**

NOTES TO FINANCIAL STATEMENTS - CONTINUED

December 31, 2024 and 2023

to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of the modified cash basis as described in Note 2.

NOTE 5 - CONCENTRATION OF CREDIT RISK

Financial instruments that potentially subject the Plan to concentrations of credit risk consist primarily of investments. The Plan has offered plan participants the ability to direct investments to various investment accounts. Certain funds invest in debt instruments. The issuer's abilities to meet these obligations may be affected by economic developments in their respective industries.

NOTE 6 - TAX STATUS

It is the intention of the University that the Plan, as amended and restated, meets the requirements of ERISA and qualifies under Section 401(a) of the IRC, thereby exempting the Plan from federal income taxes. The Internal Revenue Service ("IRS") has determined and informed the University by letter dated August 26, 2015 that the Plan is designed in accordance with the applicable sections of the IRC. Although the Plan has been amended since receiving the determination letter, the Plan administrator believes the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC and, therefore, believes that the Plan is qualified, and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator follows the authoritative guidance on accounting for and disclosure of uncertainty in tax positions. The Plan administrator has determined that there are no uncertain tax positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements as of December 31, 2024 and 2023. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

NOTE 7 - PARTIES-IN-INTEREST AND RELATED PARTY TRANSACTIONS

Plan investments are shares of Mutual Funds, Variable Annuities, Traditional Annuities, Registered Investment Companies or the Pooled Separate Account managed by TIAA and CREF and Fidelity Management Trust Company (as applicable), the insurance companies and custodian, respectively, as defined by the Plan and, therefore, these transactions qualify as party-in-interest and related party transactions. The transactions in Revenue Credit Accounts in the Plan managed by TIAA and CREF and Fidelity are also party-in-interest and related party transactions.

NOTE 8 - FAIR VALUE MEASUREMENTS

Accounting Standards Codification ("ASC") 820, *Fair Value Measurements*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under ASC 820 are described below:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

**The George Washington University
Retirement Plan for Faculty and Staff**

NOTES TO FINANCIAL STATEMENTS - CONTINUED

December 31, 2024 and 2023

Level 2 - Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability; and
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value at December 31, 2024 and 2023.

Mutual Funds: Valued at the daily net asset value ("NAV") of shares held by the Plan. Because these funds are traded on an active exchange and are valued primarily on the basis of market quotations, official closing prices, or on the basis of information furnished by a pricing service, they are classified as Level 1.

Variable Annuities: The fair values of accumulation units held by the Plan in the CREF accounts (registered investment companies held as variable annuity accounts) are based on each account's daily NAV. CREF accounts are not exchange-traded. Data for NAVs are available daily to plan administrators and client investors on NASDAQ's website (Level 1) and provides sufficient corroborative evidence to ascertain the relationship between each fund's NAV and the values of individual underlying holdings. Underlying holdings are primarily valued using market quotations or prices obtained from independent pricing sources.

Insurance Company Pooled Separate Account: Valued at NAV of accumulation units held by the Plan at year end. NAV, calculated daily, is applied to daily purchase and sale transactions in addition to being used to value ending market values. Data for NAV is available daily to plan administrators and client investors on NASDAQ's website. Transfers out of this account are limited to once per quarter. These assets are classified as Level 2 because, while the funds have a quoted NAV, they have certain restrictions impacting participants' ability to transact.

TIAA Traditional Annuities: Valued at the amount that would be received at the reporting date if amounts were withdrawn or funds transferred within the Plan prior to maturity. A participant can only withdraw from the non-fully benefit-responsive TIAA Traditional Annuities according to the predetermined installment plan. These assets are classified as Level 3 due to lack of observable transaction or similar investment instruments.

Purchases of Level 3 investments were \$30,288,208 for the Plan year ended December 31, 2024. There were no transfers into or out of Level 3 during 2024 and 2023.

The following table presents information about the valuation techniques used by management utilizing information provided by TIAA to measure fair value, significant unobservable inputs, and the ranges of values for these inputs related to the Plan's investment in assets categorized as Level 3 at December 31, 2024 and 2023:

| Type | 2024 Fair Value | 2023 Fair Value | Valuation Technique | Significant Unobservable Inputs | Range |
|-----------------------------|-----------------|-----------------|--|-------------------------------------|--|
| TIAA Traditional Annuity-RA | \$ 274,204,370 | \$ 271,775,582 | Discounted cash flow Theoretical transfer (exit value) | Risk-adjusted discount rate applied | 2024: 3.65% - 6.50% 2023: 4.00% - 6.75% |

TIAA Traditional Annuity non-fully benefit responsive account balances are reported at contract value, which approximates fair value. Contract value is the aggregation of contributions, plus interest, less withdrawals, if any. Crediting rates are a combination of a guaranteed rate and an annually established discretionary rate applied to contributions received during a reporting period, which may vary from the discretionary rate applied to account balances at the end of the prior reporting period.

NOTE 9 - SUBSEQUENT EVENTS

Subsequent events have been evaluated through August 15, 2025, which is the date the financial statements were available to be issued. Management is not aware of any subsequent event which would require recognition or disclosure in the financial statements.
