Report on the Audit of the Financial Statements

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the accompanying financial statements of Smart Financial Credit Union Employees Pension Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of December 31, 2024 and 2023, and the related statement of changes in net assets available for benefits for the year ended December 31, 2024, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of Smart Financial Credit Union Employees Pension Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of December 31, 2024 and 2023 and for the year then ended December 31, 2024, stating that the certified investment information, as described in Note 4 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditors' Responsibilities for the Audit of the Financial Statements section:

- The amounts and disclosures in the financial statements referred to above, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

- The information in the financial statements referred to above related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Smart Financial Credit Union Employees Pension Plan and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Smart Financial Credit Union Employees Pension Plan's ability to continue as a going concern for one year after the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current Plan instrument, including all Plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

Plan Trustees
Smart Financial Credit Union Employees Pension Plan

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Smart Financial Credit Union Employees Pension Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Smart Financial Credit Union Employees Pension Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control related matters that we identified during the audit.

Other Matter — Supplemental Schedules Required by ERISA

The supplemental schedule of assets (held at end of year) and schedule of reportable transactions as of and for the year ended December 31, 2024 are presented for purposes of additional analysis and are not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedules, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedules that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, other than the information agreed to or derived from the certified investment information, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- The form and content of the supplemental schedules, other than the information in the supplemental schedules that agreed to or is derived from the certified investment information, is presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- The information in the supplemental schedules related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

SMART FINANCIAL CREDIT UNION EMPLOYEES PENSION PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2024 AND 2023

NOTE 1 DESCRIPTION OF THE PLAN

The following description of Smart Financial Credit Union Employees Pension Plan (the Plan) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined benefit pension plan covering substantially all employees of Smart Financial Credit Union (the Credit Union) who have attained age 21 and have completed a year of service. The Plan is subject to the Employee Retirement Income Security Act of 1974 (ERISA).

Pension Benefits

Employees are entitled to monthly benefits beginning at normal retirement age (65) based on their accumulated plan benefits. The Plan permits early retirement at ages 55 through 64 provided an employee has completed 10 years of benefit service. Annual benefits under the Plan are 50% of basic monthly earnings, reduced proportionately for less than 25 years of service at retirement. Benefit service prior to January 1, 1984, is disregarded. For those employees who were participants on January 1, 2004, one year of past service credit was awarded for each year of service between 1984 and 2002. Commencing January 1, 2003, participants accrue benefit service based on the number of hours worked. If employees terminate before rendering five years of service, they forfeit the right to receive the portion of their non-vested accumulated plan benefits. Employees are 100% vested after five years of service. Employees who terminate employment because of disability continue to receive credit for years of service until the disability ceases or normal retirement date is reached; benefits are computed similar to normal retirement and are based on compensation received as of termination of employment. Employees may elect to receive the value of their accumulated plan benefits upon retirement under a variety of monthly annuity options. The Plan was amended effective January 1, 2019, relating to retirement benefits, and the definition of average monthly compensation was changed for newly eligible participants and rehired employees. The participant's normal retirement benefit is calculated on a formula equal to 1.5% of their average monthly compensation, multiplied by their total number of future years of service, computed to the nearest cent.

Death and Disability Benefits

If an active employee dies at age 55 or older, a death benefit equal to the value of the employee's accumulated pension benefits is paid to the employee's beneficiary. Active employees who become totally disabled receive annual disability benefits that are equal to the normal retirement benefits they have accumulated as of the time they become disabled. Disability benefits are paid until normal retirement age at which time disabled participants begin receiving normal retirement benefits computed as though they had been employed to normal retirement age with their annual compensation remaining the same as at the time they became disabled.

NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The accompanying financial statements of the Plan are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, disclosure of contingent assets and liabilities, and the actuarial present value of accumulated plan benefits at the date of the financial statements. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Investment income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits

Benefits are recorded when paid.

Administrative Expenses

The Plan's expenses are paid either by the Plan or the Company as provided by the Plan document. Expenses that are paid directly by the Company are excluded from these financial statements. Certain expenses incurred in connection with the general administration of the Plan that are paid by the Plan are recorded as deductions in the accompanying statements of changes in net assets available for benefits. In addition, certain investment related expenses are included in net appreciation of fair value of investments presented in the accompanying statements of changes in net assets available for benefits.

SMART FINANCIAL CREDIT UNION EMPLOYEES PENSION PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2024 AND 2023

NOTE 3 ACTUARIAL PRESENT VALUE OF ACCUMULATED PLAN BENEFITS

Accumulated plan benefits are those future periodic payments, including lump-sum distributions that are attributable under the Plan's provisions to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to:

- a) retired or terminated employees or their beneficiaries,
- b) beneficiaries of employees who have died, and
- c) present employees or their beneficiaries.

Benefits under the Plan are accumulated based on the employees' highest five consecutive complete credited years of compensation out of the last ten latest years prior to the normal retirement date. The accumulated plan benefits for active employees are based on their highest five consecutive complete credited years of compensation ending on the date as of which the benefit information is presented (the valuation date). Benefits payable under all circumstances - retirement, death, and termination of employment - are included, to the extent they are deemed attributable to employee service rendered to the valuation date. Benefits to be provided through annuity contracts are excluded from plan assets and are also excluded from accumulated plan benefits. The actuarial present value of accumulated plan benefits is determined by an independent actuary and is that amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal or retirement) between the valuation date and the expected date of payment.

The significant actuarial assumptions used in the valuation as of December 31, 2024 were:

- a. Life expectancy of Participants (the Pri-2012 Total Dataset with mortality improvement scale MP-2021).
- b. Retirement Age Assumptions (Normal retirement age of 65 years; other active participants will elect early retirement from ages 55 to 64).
- c. Investment Return of 6.50%

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. If the Plan were to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

The computation of the actuarial present value of accumulated plan benefits was made as of January 1, 2025. Had the valuation been performed as of December 31, 2024, there would be no material differences.

NOTE 4 CERTIFICATION OF INVESTMENT INFORMATION

Standard Insurance Company, the qualified institution of the Plan, has supplied the Plan administrator with a certification as to the completeness and accuracy of all investment information reflected on the accompanying statements of net assets available for benefits as of December 31, 2024 and 2023, the statement of changes in net assets available for benefits for the year ended December 31, 2024, and the supplemental schedules of assets (held at end of year) and reportable transactions as of and for the year ended December 31, 2024.

NOTE 5 FAIR VALUE OF INVESTMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly, such as:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair market value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the valuation methodologies used at December 31, 2024 and 2023.

Pooled Separate Account – Net asset value (NAV) is determined by Standard Insurance Company's (Standard's) fund company trading partners as of the close of business each day. The separate account is valued at fair value using NAV per share without further adjustment. NAV is based upon the fair value of the underlying investments.

Stable Value Account – Valued at fair value by the insurance company by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the creditworthiness of the issuer. Because the Plan transacts at contract value, fair value is determined annually for financial statement reporting purposes only. In determining the reasonableness of the methodology, the Investment Committee evaluates a variety of factors including review of existing contracts, economic conditions, industry and market developments, and overall credit ratings. Fair value equals contract value as reported by the insurance company.

NOTE 6 GROUP ANNUITY CONTRACT WITH INSURANCE COMPANY

The Plan has a group annuity contract with Standard Insurance Company. The insurance company maintains a portion of the contributions in a “guaranteed account,” the Stable Asset Value Fund. The account is credited with earnings on the underlying investments and charged for Plan withdrawals and administrative expenses charged by Standard Insurance Company. For the year ended December 31, 2024, the composite crediting rate was 1.30%. Upon termination of the investment contract, the lump sum liquidation value of the general account portion of the Plan’s accumulation value shall be equal to the product of (a) the Plan’s general account accumulation value on the liquidation date, reduced by the liquidation charge applicable on the liquidation date and (b) a market value adjustment percentage.

NOTE 7 PLAN TERMINATION

The Plan Sponsor has elected to terminate the Plan effective August 31, 2025. Upon termination, the net assets of the Plan will be allocated, as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated:

1. Annuity benefits former employees or their beneficiaries have been receiving for at least three years, or that employees eligible to retire for that three-year period would have been receiving if they had retired with benefits in the normal form of annuity under the Plan. The priority amount is limited to the lowest benefit that was payable (or would have been payable) during those three years. The amount is further limited to the lowest benefit that would be payable under Plan provisions in effect at any time during the five years preceding plan termination.
2. Other vested benefits insured by the Pension Benefit Guaranty Corporation (PBGC) (a U.S. governmental agency) up to the applicable limitations.
3. All other vested benefits (that is, vested benefits not insured by the PBGC).
4. All nonvested benefits.

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits and certain disability and survivor’s pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan’s termination.

The plan is overfunded as of December 31, 2024. Management intends to return any excess funding to the sponsor after all plan obligations are satisfied.

NOTE 8 PLAN TAX STATUS

The Plan is placing reliance on an opinion letter from the IRS on the prototype plan indicating that the Plan is designed in accordance with the applicable section of the Internal Revenue Code (IRC). The Plan has been amended since receiving the opinion letter. However, the Plan administrator believes that the Plan is designed and being operated in compliance with the applicable requirements of the IRC and, therefore, believes that the Plan is qualified, and the related trust is tax exempt.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

NOTE 9 RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of the investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

NOTE 10 PARTY-IN-INTEREST TRANSACTIONS

The Plan investments are managed by the qualified institution of the Plan and, therefore, the investment transactions qualify as party-in-interest transactions. As described in Note 2, the Plan paid certain expenses related to Plan operations and investment activity to various service providers. These transactions qualify as party in interest transactions, which are exempt from the prohibited transaction rules of ERISA.

NOTE 11 SUBSEQUENT EVENTS

The Plan has evaluated subsequent events through August 29, 2025, the date the financial statements were available to be issued.

The Credit Union terminated the Plan effective August 31, 2025. The termination is expected to be completed during 2025 through lump-sum payments or annuity purchases out of plan funds to settle all obligations to participants. All participants became 100% vested on August 31, 2025, and were notified of the Plan termination on June 30, 2025. The plan is overfunded as of December 31, 2024. Management intends to return any excess funding to the sponsor after all plan obligations are satisfied.

Funding method: Liabilities presented in this report are computed in accordance with the Unit Credit Cost Method. The target normal cost is the present value of all benefits that are expected to accrue during the upcoming plan year. The benefits expected to be accrued include any increase in benefits during the plan year that is a result of any actual or projected increase in compensation even if that increase in benefits is with respect to benefits attributable to service performed in a preceding plan year. The funding target as of the valuation date is the present value of all benefits that have been accrued or earned under the plan as of the valuation date. The benefits considered in determining the funding target and target normal cost are all benefits earned or accrued under the plan, including retirement-type and ancillary benefits.

The determination of the funding target and target normal cost is based on plan provisions that are adopted no later than the valuation date for the plan year and that become effective during the plan year.

Actuarial value of assets: Market value.

Changes since prior year: None.

Appendix A – Summary of Principal Plan Provisions

*For attachment to 2024 Schedule SB, Part V – Summary of Plan Provisions
EIN 74-0695355 / PN 004*

Original Effective Date:	January 1, 2004.
Plan Restatement:	January 1, 2019.
Subsequent Amendments:	None.
Participation:	Employees enter the plan each month following completion of twelve months of service working at a rate of 1,000 hours and attainment of age 21. A participant accrues a year of service for each plan year in which they work at least 1,000 hours.
Vesting Service:	The sum of the plan years during which a participant has at least 1,000 hours of service.
Benefit Service:	Benefit service prior to January 1, 1984 will be disregarded. For those employees who are participants on the effective date, one year of past service credit will be awarded for each year of service between January 1, 1984 and December 31, 2002, in which they worked at least 2,000 hours. Commencing January 1, 2003, participants will accrue Benefit Service as follows: If less than 2,000 hours but 1,000 hours or more, the numerator is the number of hours worked during the year divided by 2,000. One year of Benefit Service will be credited if 2,000 or more hours are worked in a plan year.
Normal Retirement Date:	Normal retirement is the later of age 65 and five years of participation.
Early Retirement Date:	At any time after attainment of age 55 and 10 years of Benefit Service, a participant may elect early retirement.
Average Monthly Compensation:	<p>For those employees who are participants prior to January 1, 2019, basic monthly earnings used to determine benefits will be based on the participant's average monthly earnings during the highest 10 consecutive years of service within the most recent 10 years with the Credit Union. Compensation earned prior to January 1, 1999 will be disregarded.</p> <p>For new participants on or after January 1, 2019, and Employees who are rehired after January 1, 2019, the monthly Compensation of a participant is averaged over all the Plan years from date of employment. If a Participant has less than twelve (12) Months of service from the First day of the Plan Year to date of termination, the Participant's Average Monthly Compensation will be based on the Participant's monthly Compensation during the Plan Year to date of termination.</p>

Smart Financial Credit Union Employees Pension Plan

Appendix A – Summary of Principal Plan Provisions (cont.)

Normal Retirement Benefit:

The amount of monthly retirement benefit to be provided for each Participant who retires on the Participant's Normal Retirement Date shall be equal to the Participant's Accrued Benefit (herein called the Participant's Normal Retirement Benefit). A participant's Accrued Benefit is based the sum of the following:

50% of Average Monthly Compensation, reduced proportionately for less than 25 years of service at retirement. Benefits are accrued over service to normal retirement age per the fractional accrual rule based on years of service prior to January 1, 2019.

1.5% of such Participant's Average Monthly Compensation multiplied by the participant's total number of future Years of Service beginning January 1, 2019.

Notwithstanding the above, a Participant's monthly retirement benefit shall not exceed 50% of the Participant's Average Monthly Compensation.

Termination Benefit:

A terminating participant who has completed five years of service is entitled to receive a vested monthly benefit starting on his normal retirement date. The amount of the benefit is equal to the retirement income earned on the basis of service to date multiplied by the appropriate vested percentage from the vesting schedule.

Vesting Schedule:

A terminating participant who has completed five years of service is entitled to receive a vested monthly benefit starting on his Normal Retirement Date. The amount of the benefit is equal to the retirement income earned on the basis of service to date multiplied by the appropriate vested percentage from the following table:

<u>Years of Service</u>	<u>Vested Interest</u>
less than 5	0%
5 or more	100%

Vesting Service will not be credited prior to January 1, 1984. Years of Vesting Service before attainment of age 18 will be disregarded for vesting. An actively employed participant shall be 100% vested upon attainment of normal retirement age.

Early Retirement Benefit:

The normal retirement benefit accrued to date is reduced to compensate for the longer period over which benefits will be paid. The reduction is 3% per year or portion thereof for each year preceding normal retirement.

Smart Financial Credit Union Employees Pension Plan

Appendix A – Summary of Principal Plan Provisions (cont.)

Disability Benefit:	If a participant becomes permanently and totally disabled, they will continue to accrue benefits under the plan at the same rate of pay and number of hours they worked at prior to their disability. In the event the participant is no longer disabled, they will be treated as a terminated participant entitled to deferred benefits. Disability benefits will cease upon attainment of normal retirement age. Effective January 1, 2019, the disability benefit is eliminated.
Normal Form of Benefit:	<p>The normal annuity form is a monthly income payable as a 10-Year Certain and Life Annuity. At the participant's option, retirement income may be paid with a straight life annuity, another certain period, or on a joint and survivor basis. Election of an optional annuity may be made at any time before retirement. For any annuity form (other than the subsidized joint and survivor form), the amount of income is adjusted so the cost to the fund is the same as it would have been under the normal annuity form.</p> <p>Married participants may elect to receive a fully subsidized joint and survivor annuity. This option provides for continuation of the 10-Year Certain period until 120 months of payments have been distributed. Thereafter, a 50% continuation is payable to a surviving spouse if the participant predeceases the spouse.</p>
Optional Benefit Forms:	<p>The following optional forms are available upon retirement:</p> <ul style="list-style-type: none">> Single Life Annuity.> 100%, 75%, 66-2/3% or 50% Joint & Survivor Annuity.> 5, 10, or 15 year Certain and Life annuity.
Death Benefits (Pre-Retirement):	Prior to 1/1/2015, if a participant dies prior to the time his benefit payments commence, a death benefit may be provided to the participant's spouse equal to 50% Qualified Pre-retirement Survivor annuity. After 1/1/2015, the death benefit is equal to the value of accrued benefit, regardless of marital status.
Death Benefits (Post-Retirement):	None except as provided by the annuity form elected.
Excess Assets:	<p>Upon plan termination, any excess assets remaining after the satisfaction of all vested plan benefits will be returned to the employer.</p> <p>Under IRS rules, a tax-exempt organization without Unrelated Business Tax Income (UBTI) can receive asset reversion with no taxes applied.</p>
Changes Since Last Year:	None.
