## Independent Auditor's Report

The Plan Administrator  
URS Federal Services, Inc. Employees Retirement Plan  
Germantown, Maryland

### Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of URS Federal Services, Inc. Employees Retirement Plan, an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of December 31, 2024 and 2023, and the related statements of changes in net assets available for benefits the years then ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of URS Federal Services, Inc. Employees Retirement Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of December 31, 2024 and 2023, and for the years then ended, stating that the certified investment information, as described in Note 5 to the financial statements, is complete and accurate.

### Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section:

- the amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

- the information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

### **Basis for Opinion**

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of URS Federal Services, Inc. Employees Retirement Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

### **Responsibilities of Management for the Financial Statements**

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about URS Federal Services, Inc. Employees Retirement Plan's ability to continue as a going concern for one year after the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

### **Auditor's Responsibilities for the Audit of the Financial Statements**

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of URS Federal Services, Inc. Employees Retirement Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about URS Federal Services, Inc. Employees Retirement Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

#### **Other Matter – Supplemental Schedules Required by ERISA**

The supplemental Schedule H, line 4i – schedule of assets held at end of year, and Schedule H, line 4j – schedule of reportable transactions as of or for the year ended December 31, 2024, are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedules, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial

statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedules that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, other than the information agreed to or derived from the certified investment information, including their form and content, are presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- the form and content of the supplemental schedules, other than the information in the supplemental schedules that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.
- the information in the supplemental schedules related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

# URS FEDERAL SERVICES, INC. EMPLOYEES RETIREMENT PLAN

## NOTES TO FINANCIAL STATEMENTS

### 1. Description of The Plan

The following description of the URS Federal Services, Inc. Employees Retirement Plan (the "Plan") is provided for general information purposes only. Selected Plan provisions are described below. Participants should refer to the Plan document for more complete information regarding the terms of the Plan.

#### *General*

The Plan, established on August 20, 1999, is a frozen, noncontributory defined benefit pension plan. The Plan is administered by the Amentum Holdings, Inc. Benefits Administration Committee as authorized by Amentum Holdings, Inc., the parent company of Amentum Nuclear & Environment Holdings, Inc. (the "Company" or "Plan Sponsor"). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended ("ERISA").

#### *Eligibility for Participation*

Employees of the Company in one of the specified pay groups, hired before July 1, 2003, and with at least one year of service were eligible to participate in the Plan. Employees who are members of certain collective bargaining units or were a Covered Contract Employee, as defined in the Plan document, were not eligible.

Participation in the Plan was frozen to new entrants effective June 30, 2003 (the "Plan Freeze Date"). Each employee who was a participant in the Plan as of the Plan Freeze Date will continue to participate in the Plan in accordance with the terms of the Plan. New employees of the Company or employees rehired after the Plan Freeze Date are not allowed to participate in the Plan.

#### *Pension Benefits*

Participants are entitled to monthly pension benefits, upon normal retirement age (based on social security statutes and age ranges from 65 to 67 depending on the participant's date of birth), equal to the greater of either 1) \$70.83 or 2) one-twelfth of the sum of:

- a) 0.85 percent of an eligible Participant's Average Earnings, as defined by the Plan, multiplied by the participant's total credited service, plus an additional 0.75 percent of the Participant's Average Earnings in excess of the Social Security tax base multiplied by the participant's total credited service (up to a maximum of 35 years) determined as of December 31, 2003, as defined by the Plan, and
- b) 0.65 percent of the Participant's Earnings, as defined by the Plan, plus an additional 0.65 percent of the Participant's Earnings in excess of 50 percent of the Social Security wage base for the applicable year (up to a maximum of 35 years) beginning January 1, 2004.

Effective January 31, 2016, participants in the Plan ceased accruing future pension benefits.

The Plan permits early retirement at age 55 upon completion of ten years of service for participants who were in a predecessor plan before 1989. For participants who joined the Plan in 1989 and after, the Plan permits early retirement within ten years prior to a participant's normal retirement age and upon completion of ten years of service.

### ***Vesting***

Participants become fully vested in their normal monthly benefit upon completion of five years of service.

### ***Form of Benefit***

At the time of retirement, if the actuarial present value of an employee's total pension is \$5,000 or less, the actuarial value of the employee's pension will be paid to the employee in a single lump sum. Otherwise, participants may elect to receive their pension benefits based on the acceptable method of payment, as defined in the Plan document.

### ***Death and Disability Benefits***

If an active employee dies after completing five years of service, or is over the age of 45, a death benefit is paid to the employee's beneficiary based on terms included in the Plan document.

Active employees who have completed ten years of service and become permanently disabled receive disability benefit payments starting on the employee's normal retirement date. Disabled employees continued to accrue benefits (until benefits were frozen on January 31, 2016) and are treated as if active participants for benefit determination purposes. Disability retirement benefit payments are payable at the normal retirement date and are computed as though the employee had been employed to normal retirement age and as if their annual compensation remained the same as at the time they became disabled.

### ***Funding Policy***

The Company contributes such amounts as necessary to provide assets sufficient to meet the benefit obligations to be paid to Plan participants. Annual contributions are made based on amounts required to at least meet the minimum funding provisions of ERISA. An actuarial valuation is used to determine whether anticipated benefits may reasonably be provided from anticipated contributions when combined with existing assets of the Plan. For the years ended December 31, 2024 and 2023, the Company was not required to make contributions to the Plan and met the minimum funding requirements of ERISA.

## **2. Summary of Significant Accounting Policies**

### ***Basis of Accounting***

The accompanying financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America using the accrual basis of accounting.

### ***Valuation of Investments***

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

The classification of investment earnings reported in the statement of changes in net assets available for benefits may differ from the classification of earnings on Form 5500 due to different reporting requirements on Form 5500.

### ***Use of Estimates***

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein, and the actuarial present value of accumulated plan benefits at the date of the financial statements. Actual results could differ from those estimates.

### ***Risks and Uncertainties***

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Market risks include global events which could impact the value of investment securities, such as a pandemic or international conflict. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statement of net assets available for benefits.

Plan contributions are made, and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

### ***Administrative Expenses***

Plan fees and expenses, including fees and expenses connected with administrative services by external service providers, asset management fees and other administrative expenses are paid from Plan assets. Certain administrative expenses are paid by the Company. Expenses that are paid directly by the Company are excluded from these financial statements. Fees for administration, investment advice, actuarial, and other services are generally charged to the Plan based on customary or contracted rates for such services. The Plan's assets are managed by independent investment managers who charge a management fee based on assets under management.

### *Payment of Benefits*

Benefit payments to participants are recorded upon distribution.

### *Subsequent Events*

The Plan has evaluated subsequent events through September 26, 2025, the date the financial statements were available to be issued.

### **3. Actuarial Present Value of Accumulated Plan Benefits**

Accumulated plan benefits are those future periodic payments, including lump-sum distributions, that are attributable under the Plan's provisions to the service rendered by employees as of the valuation date. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) current employees or their beneficiaries. Because the benefits under the Plan are frozen, the accumulated plan benefits for active employees are based on their accrued benefits as of the Plan Freeze Date. Future active employee compensation and credited service increases are no longer applicable after the Plan Freeze Date. Due to the Plan freeze, benefits payable under all circumstances (retirement, death, disability, and termination of employment) are included and are fully attributable to employee service rendered to the valuation date.

The computations of the actuarial present value of accumulated Plan benefits were made as of January 1, 2024. Had the valuation been performed as of December 31, there would be no material differences.

The actuarial present value of accumulated plan benefits as of January 1, 2024, as determined by the actuary, is as follows:

#### Actuarial Present Value of Accumulated Plan Benefits

Vested benefits:	
Participants and beneficiaries currently receiving benefits	\$ 161,416,921
Other participants	<u>86,373,707</u>
Total vested benefits	247,790,628
Nonvested benefits	<u>117,206</u>
Total actuarial present value of accumulated plan benefits	<u><u>\$ 247,907,834</u></u>

The actuarial present value of changes in accumulated plan benefits for the period January 2, 2023 to January 1, 2024, as determined by the actuary, is as follows:

Actuarial present value of accumulated plan benefits at beginning of year	<u>\$ 248,373,520</u>
Increase (decrease) during the period attributable to:	
Benefits paid	(18,429,708)
Interest due to the decrease in the discount period	13,111,492
Actuarial gains	298,837
Change in assumptions	<u>4,553,693</u>
Net decrease	<u>(465,686)</u>
Actuarial present value of accumulated plan benefits at end of year	<u><u>\$ 247,907,834</u></u>

The actuarial present value of accumulated plan benefits is determined by an independent firm of consulting actuaries and is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability or retirement) between the valuation date and the expected date of payment.

Due to the changing nature of these assumptions, it is at least reasonably possible that changes in these assumptions will occur in the near term and, due to the uncertainties inherent in setting assumptions, the effect of such changes could be material to the Plan's financial statements.

The significant actuarial assumptions used in the valuation for 2024 are shown below.

Mortality basis as of January 1, 2024:	Based on Pri-2012 separate employee and retiree mortality table(s) with contingent survivor and white collar adjustments applied using MP-2021 generational projection scale.
Discount rate as of January 1, 2024:	5.30%
Administrative and investment expenses as of January 1, 2024:	\$2,950,000
Investment return as of January 1, 2024:	5.59%
Retirement Age:	Probabilities based upon age and credited service less than or greater than 30 years, ranging from 0% at age 54 and below to 100% at age 70.

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. If the Plan were terminated, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

#### 4. Fair Value Measurements

FASB Accounting Standards Codification (“ASC”) No. 820, “*Fair Value Measurements and Disclosures*,” establishes a framework for measuring fair value. This framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The fair value hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements).

The three levels of the fair value hierarchy under ASC 820 are described below:

Level 1	Inputs to the valuation methodology are quoted prices available in active markets for identical investments as of the reporting date.
Level 2	Inputs to the valuation methodology include: <ul style="list-style-type: none"><li>• quoted prices for similar assets or liabilities in active markets;</li><li>• quoted prices for identical or similar assets or liabilities in inactive markets;</li><li>• inputs other than quoted prices that are observable for the asset or liability;</li><li>• inputs that are derived principally from or corroborated by observable market data by correlation or other means.</li></ul> If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.
Level 3	Inputs to the valuation methodology are unobservable inputs in situations where there is little or no market activity for the asset or liability and the reporting entity makes estimates and assumptions related to the pricing of the asset or liability including assumptions regarding risk.

A financial instrument’s level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used to measure assets at fair value. There have been no changes in the methodologies used as of December 31, 2024 and 2023.

Mutual funds (and money market funds) - A mutual fund is an investment company registered under the Investment Company Act of 1940 that pools the capital of many investors and invests it in stocks, bonds, short-term money market instruments and/or other securities. These investments are public investment vehicles valued at the closing price reported in the active market in which the investments are traded. These investments are classified within Level 1 of the valuation hierarchy.

U.S. government securities - Valued using pricing models maximizing the use of observable inputs for similar securities.

Corporate and foreign bonds - Valued using pricing models maximizing the use of observable inputs for similar securities. This includes basing value on yields currently available on comparable securities of issuers with similar credit ratings. When quoted prices are not available for identical or similar bonds, the bond is valued under a discounted cash flows approach that maximizes observable inputs, such as current yields of similar instruments but includes adjustments for certain risks that may not be observable, such as credit and liquidity risks or a broker quote if available.

Collective trust funds - A collective investment trust is a trust for the collective investment and reinvestment of assets contributed from employee benefit plans maintained by more than one plan. These investments are valued using the net asset value (“NAV”) provided by the administrator of the collective trust. The NAV is based on the value of the underlying assets owned by the fund, minus its liabilities, and then divided by the number of shares outstanding. The NAV is used as a practical expedient to estimate fair value. The collective investment trusts are not classified within the fair value hierarchy; however, the amounts measured using NAV are disclosed to permit reconciliation of the fair value of investments to the Statements of Net Assets Available for Benefits.

The following tables set forth by level, within the fair value hierarchy, the Plan’s assets at fair value as of December 31, 2024 and 2023:

	December 31, 2024			
	Quoted Prices in Active Markets (Level 1)	Significant Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	Total

The following table presents additional information for investments whose fair value is estimated using NAV per share (or its equivalent) as of December 31, 2024 and 2023:

	Fair Value at December 31		Unfunded Commitments
	2024	2023	
Collective trust funds			
Capital Group Long Duration Credit Trust	\$ -	\$ 58,938,785	\$ -
Great Gray Collective Investment Trust	74,946,325	-	-

The collective trust funds have a daily redemption frequency and a 5-day redemption notice period.

## 5. Certified Investments

Certain information related to investments disclosed in the accompanying financial statements and ERISA required supplemental schedule, including investments held as of December 31, 2024 and 2023, and net appreciation/(depreciation) in fair value of investments, interest and dividends for the years then ended, was obtained by management and agreed to or derived from information certified as complete and accurate by U.S. Bank National Association (the “Plan Trustee”).

## 6. Party-In-Interest Transactions

As described in Note 2, the Plan paid certain expenses related to Plan operations and investment activity to various service providers. These transactions are exempt party-in-interest transactions under ERISA.

## 7. Tax Status

The Internal Revenue Service (“IRS”) has determined and informed the Plan by a letter dated July 3, 2014, that the Plan and related trust were designed in accordance with the applicable regulations of the Internal Revenue Code (“Code”). Subsequent to the issuance of this determination letter, the Plan was amended. However, the Company and Plan management believes that the Plan is

currently designed and operated in compliance with the applicable requirements of the Code, and the Plan and related trust continue to be tax-exempt.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

## **8. Plan Termination**

Although it has not expressed any intention to do so, the Plan Sponsor has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA. In the event the Plan is terminated, the net assets of the Plan will be allocated as specified by the Plan document in accordance with ERISA and its related regulations.

Certain benefits under the Plan are insured by the Pension Benefit Guaranty Corporation (“PBGC”) if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan’s termination. However, there is a statutory ceiling on the form of benefit payment elected by the participant at Plan termination. The ceiling varies depending on the form of benefit payment elected by the participant at the time of termination.

Whether all participants will receive vested benefits should the Plan be terminated at some future time will depend on the sufficiency, at that time, of the Plan’s net assets to provide for accumulated benefit obligations and may also depend on the financial condition of the Plan Sponsor and the level of benefits guaranteed by the PBGC. Any balance remaining after satisfaction of all liabilities of the Plan shall be returned to the Company.

## **9. 401(h) Account**

The Plan includes a medical-benefit component in addition to the normal retirement benefits to fund a portion of the postretirement obligations for retirees and their beneficiaries in accordance with Section 401(h) of the IRC. A separate account, known as the Retiree Health Plan Account, has been established and maintained in the Plan for the net assets related to the medical-benefit component (“401(h) account”). In accordance with IRC Section 401(h), the 401(h) account may not be used for, or diverted to any purpose other than providing for the payment of certain medical expenses for retirees and their beneficiaries. Any assets transferred to the 401(h) account from the Plan in a qualified transfer of excess Plan assets (and any income allocable thereto) that are not used during the plan year must be transferred out of the account to the Plan. The related obligations for health benefits are not included in this Plan's accumulated plan benefit obligations but are reflected as obligations in the financial statements of the health and welfare benefit plan. Plan participants do not contribute to the 401(h) account. Employer contributions or qualified transfers to the 401(h) account are determined annually and are at the discretion of the Plan Sponsor. Certain of the Plan's net assets are restricted to fund a portion of postretirement health benefits for retirees and their beneficiaries in accordance with IRC Section 401(h).

The following tables present the net assets held in the 401(h) account as of December 31:

	December 31, 2024			Total

## 11. Benefit Corrections for Plan Retirees

The plan administrator, in partnership with the plan actuary, identified errors in the previously calculated and frozen benefits of certain retirees.

Corrections to be made were associated with frozen January 31, 2016 accrued benefits that were not found to be reliable, requiring recalculations to either correct or confirm issues related to incorrect post-2003 earnings in the administration database and, in some cases, actuarial increases being understated due to suspension of benefits notices not being provided in a timely manner because of a misunderstanding of the plan's "normal retirement age" equal to the Social Security normal retirement age for each individual.

The actuarial present value of accumulated plan benefits as of December 31, 2024 and 2023, include an estimate for the resulting under and over calculated benefits of retirees and future payouts that are expected to be incurred.

The accumulated value of previously undercalculated benefits were paid out on September 1, 2024. Additionally, as of the year ended December 31, 2024, future payout of undercalculated benefits and overcalculated benefits have been corrected to be paid at the proper monthly benefit going forward. Retirees with a reduced benefit have been made aware of the reduction. As of September 26, 2025, adjustments to benefit payments are expected in relation to deceased retirees and their surviving beneficiary. Additionally, there are expected future adjustments in relation to manual reviews and additional data received from the prior plan sponsor and third-party administrator.

## Actuarial methods for funding

### Asset methods

The asset valuation method is an average of the adjusted market value for each year during the last 24 months preceding the valuation date. The adjusted market value is the market value at each determination date adjusted to the valuation date based on actual cash flows and expected interest at the lesser of the expected rate of return and the third segment rate. This amount is adjusted to be no greater than 110% and no less than 90% of the fair market value, as defined in IRC Section 430.

A characteristic of this asset method is that, over time, it is slightly more likely to produce an actuarial value of assets that is less than the market value of assets than an actuarial value that is greater than the market value.

### Participant methods

Participants or former participants are included or excluded from the valuation as described below:

- **Participants included:** The plan administrator provides us with data on all employees as of the valuation date who have completed the plan's eligibility requirements.
- **Participants excluded:** No actuarial liability is included for nonvested participants who terminated prior to the valuation date. For this purpose, participants with a break in service on the valuation date are treated as terminated participants.
- **Insurance contracts:** The plan does not have any insurance contracts.

### Minimum funding methods

The funding target for minimum funding calculations is computed using the traditional unit credit method of funding. The objective under this method is to fund each participant's benefits under the plan as they accrue. Thus, the total pension to which each participant is expected to become entitled at retirement is broken down into units, each associated with a year of past or future credited service.

A detailed description of the calculation follows:

- The plan's valuation date is the beginning of the plan year.
- An individual's **funding target** is the present value of future benefits based on credited service and average pay as of the beginning of the plan year. If multiple decrements are used, the funding target for an individual is the sum of the component funding targets associated with the various anticipated separation dates.

**Statement by Enrolled Actuary**

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

**Late retirement**

- **Eligibility** Retirement after NRD.
- **Benefit** Monthly pension benefit determined as of actual retirement date.

**Deferred vested**

- **Eligibility** Termination for reasons other than death or retirement after completing five years of Vesting Service or after attaining age 45 while an active Participant.
- **Benefit** Monthly pension benefit determined as of termination date, payable at of the participant’s NRD.

**Disability**

- **Eligibility** Become a disabled participant after completing ten years of Vesting Service. A disabled participant is a participant who is eligible to receive benefits under Title II of the Federal Social Security Act.
- **Benefit** The benefit accrued to NRD payable at NRD. Credited service continues during the disability period; earnings are assumed to continue at rate in effect prior to disability. All credited service and earnings are frozen as of January 31, 2016.

**Pre-retirement death**

- **Eligibility** Death while eligible for Deferred Vested, Early, Normal or Postponed Retirement, with a surviving spouse.

<sup>3</sup> Reductions are based on years prior to age 65 for those employees who became participants prior to 1989.

**Schedule SB, Part V — Summary of Plan Provisions**

• Benefit prior to early retirement	Spouse's benefit is payable on the date the participant would have reached normal retirement age and is equal to 50% of the accrued benefit reduced for the election of the 50% joint and survivor option.
• Benefit after early but before normal retirement	Spouse's benefit is equal to the spouse's portion of the 50% joint and survivor benefit payable to the employee as if he or she had elected early retirement on the day of death.
• Benefit after normal retirement	Spouse's benefit is equal to the spouse's portion of the 50% joint and survivor benefit payable to the employee as if he or she had retired on the day of death.

**Form of benefits**

• Automatic form for unmarried participants	Life annuity
• Automatic form for married participants	50% joint and survivor annuity
• Optional forms	<ul style="list-style-type: none"> <li>• 50%, 75% and 100% joint and survivor (survivor need not be the spouse)</li> <li>• 10 year certain and life annuity</li> <li>• Social Security level income annuity</li> <li>• Life annuity</li> </ul>
• Optional form conversion factors	<p>Actuarial Equivalence is the greater of:</p> <ol style="list-style-type: none"> <li>1) An interest rate of 7% and the 1971 Group Annuity Mortality Table with no loading and projected by Scale E, with a one-year age setback for the Participant and a five-year age setback for any Beneficiary.</li> <li>2) An interest rate of 5% and the PRI-2012 Retiree Mortality Tables, blended 50% male/50% female, projected to the year 2035 using the MP-2020 mortality projection scale.</li> </ol> <p>Social Security level income option (SSLIO) actuarial equivalence is based on the better of the above basis or the Applicable Mortality Table and the Applicable Interest Rate under Internal Revenue Code Section 417(e).</p>

**Miscellaneous**

• Maximum compensation	Compensation for any 12-month period used to determine accrued benefits may not exceed the limits in IRC Section 401(a)(17) for the calendar year in which the 12-month period begins. This limit is indexed annually.
• Maximum benefits	Annual benefits may not exceed the limits in IRC Section 415. This limit is indexed annually. For 2024, the limit is \$275,000.
• Funding medium	Trust

**Benefits included or excluded**

Unless noted below, all benefits provided by the plan, as restated and amended through Amendment #5, are included in this valuation.

- **Most recent plan amendments included:** Amendment #5
- **Plan amendments excluded:** None

## Schedule SB, Part V — Summary of Plan Provisions

- **Late retirement increases:**
  - *Active participants:* Current active participants who turned age 65 prior to September 1, 2007 are valued including the late retirement actuarial increase.
  - *Deferred vested participants:* Current deferred vested participants over normal retirement age are valued including the late retirement actuarial increase, with back payments accumulated with interest from the Required Beginning Date, where applicable.
  - *Retired participants (with prior underpayments):* The estimated accumulated value of past underpayments to retirees currently undergoing a correction process have been included for affected individuals by estimating the increase in benefit amounts due to a change in application of actuarial increases, and further estimating the accumulated value of those “missed” payments.
- **Internal Revenue Code limitations:** The limitations of Internal Revenue Code Section 415(b) and 401(a)(17) have been incorporated into our calculations.
- **IRC Section 416 rules for top-heavy plans:** We did not test whether this plan is top-heavy (when the present value of benefits for key employees equals or exceeds 60% of the present value for all participants). However, we expect that the plan is not top-heavy due to the large number of rank-and-file participants; therefore, the funding target does not reflect any liability for top-heavy benefit accruals.

## Plan provisions specific to funding

### Additional benefits included or excluded

- **IRC Section 436 benefit restrictions:**
  - *Unpredictable contingent event benefits:* This valuation excludes restricted contingent event benefits that occurred before the valuation date but includes contingent event benefits which are expected to occur on or after the valuation date regardless of anticipated funding-based limitations.
  - *Plan amendments:* See above.
  - *Prohibited payments:* Limitations on prohibited benefits (if any) are reflected for annuity starting dates before the valuation date but are ignored for annuity starting dates on or after the valuation date.
  - *Benefit accruals:* The plan’s funding target does not reflect any limitation on benefit accruals. The target normal cost does not reflect any limitation on benefit accruals.

## Plan provision changes since prior valuation

Maximum benefit amounts under IRS rules were updated from 2023 to 2024.
