INDEPENDENT AUDITORS' REPORT

To the Employee Benefits Committee and Participants of
2018 US Graphic Packaging International Pension Plan

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the accompanying financial statements of the 2018 US Graphic Packaging International Pension Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) [ERISA Section 103(a)(3)(C) audit]. The financial statements comprise the statements of net assets available for benefits as of December 31, 2024 and 2023, and the related statements of changes in net assets available for benefits for the years then ended, and the statement of accumulated plan benefits as of December 31, 2023, and the related statement of changes in accumulated plan benefits for the year then ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of December 31, 2024 and 2023, and for the years then ended, stating that the certified investment information, as described in Note 6 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditors' Responsibilities for the Audit of the Financial Statements section —

- the amounts and disclosures in the financial statements referred to above, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America (GAAP).
- the information in the financial statements referred to above related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America (GAAP), and for the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current Plan instrument, including all Plan amendments; administering the Plan; and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and, therefore, is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of GAAP.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with GAAP.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audits, significant audit findings and certain internal control related matters that we identified during the audits.

NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2024 AND 2023**

1. DESCRIPTION OF PLAN

The following description of the 2018 US Graphic Packaging International Pension Plan (the Plan) is provided for general information purposes only. Participants should refer to the official Plan document for complete information.

General

Graphic Packaging International, LLC (the Plan Sponsor) established the Plan effective January 1, 2018. The Plan Sponsor maintains the Plan to provide retirement benefits for eligible employees and their beneficiaries, as defined by the Plan. The Retirement Committee of Graphic Packaging International, LLC (the Retirement Committee) is the Plan administrator. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

The Bank of New York Mellon/BNY Mellon, N.A. serves as trustee of the Plan.

On July 31, 2018, the Retirement Committee made the decision to terminate the GPI US Consolidated Pension Plan (the Consolidated Plan) effective as of the close of business December 31, 2018. In conjunction with the termination, the portion of the Consolidated Plan that covered the active population was spun-off and merged into the Plan. In addition, the portions of the Consolidated Plan that covered certain terminated participants with missing identifying data were also spun-off and merged into the Plan in 2018.

Effective April 20, 2024, the Plan was amended to provide that participants whose employment was terminated as a result of the sale of the Company's Augusta Mill facility became fully vested.

In December 2024, the Americraft Carton, Inc. Hourly Retirement Plan (Americraft Carton, Inc. Plan) merged into the Plan. The net assets of the Americraft Carton, Inc. Plan were transferred to the Plan in mid December 2024 and is reflected as a Plan merger in the statement of changes in net assets for the year ended December 31, 2024.

Funding Policy

The Plan Sponsor's funding policy is to make contributions to the Plan in amounts sufficient to provide for the participant's benefits and to satisfy the minimum funding standards of ERISA. The Plan has met the minimum funding requirements of ERISA for the years ended December 31, 2024 and 2023.

Eligibility

The Plan covers certain hourly employees of the Plan Sponsor whose employment is subject to the terms of one of the collective bargaining agreements as noted within the Plan document. The Plan also covers a frozen group of non-union hourly employees, as defined. Generally, a participant is eligible for the Plan after completion of a year of eligibility service and attainment of age 21. However, non-union employees hired or rehired after January 1, 2018, are not eligible for the Plan.

**2018 US GRAPHIC PACKAGING
INTERNATIONAL PENSION PLAN
NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2024 AND 2023**

Pension Benefits

Participants are generally entitled to normal retirement benefits beginning at the age of 65 (normal retirement age). The Plan permits early retirement benefits for qualified participants who attain age 55 with ten years of vesting service. Early retirement benefits are based upon the participant's earned benefit reduced by a certain percentage for each month prior to normal retirement age.

Death and Disability Benefits

If a participant dies, a death benefit may be payable under the Plan to the participant's surviving spouse. If an active participant becomes disabled, the participant may be entitled to receive benefits under the Plan, if certain service and eligibility requirements are met.

Vesting

A participant shall have a 100% nonforfeitable interest in their accrued benefit when they obtain five years of vesting service. Generally, a participant who has fewer than five years of vesting service shall have no nonforfeitable interest in their accrued benefit. A participant who has attained their normal retirement age while employed shall be fully vested in their accrued benefit.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America (GAAP).

Use of Estimates

The preparation of financial statements in conformity with GAAP requires estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein, disclosure of contingent assets and liabilities, and the actuarial present value of accumulated plan benefits and changes therein at the date of the financial statements. Actual results could differ from those estimates.

Risks and Uncertainties

The Plan invests in the Graphic Packaging International, LLC, Master Trust (the Master Trust), which invests in a combination of stocks, bonds, mutual funds, common collective trust (CCT) funds and other investment securities. The underlying investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities and the level of uncertainty related to the changes in the value of investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and such changes could materially affect the amounts reported in these financial statements.

Plan contributions are made, and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and

assumptions in the near term would be material to the financial statements.

Investment Valuation and Income Recognition

Investments in the Master Trust are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for a discussion of fair value measurements. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. The Plan presents in its statements of changes in net assets available for benefits an allocation of the Master Trust's net gain, which consists of realized gains or losses, unrealized appreciation or depreciation on investments and interest and dividend income.

Valuation of Financial Instruments

The carrying values of the Plan's receivables and payables approximate fair value.

Payment of Benefits

Benefits are recorded upon distribution.

Administrative Expenses

Generally, the Plan pays for expenses incurred for Plan administration. Certain other costs of the Plan have been paid by the Plan Sponsor.

3. FAIR VALUE MEASUREMENT

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820, *Fair Value Measurement*, are described as follows:

- Level 1 – Observable inputs such as quoted prices in active markets;
- Level 2 – Inputs, other than quoted prices in active markets, that are observable either directly or indirectly; and
- Level 3 – Unobservable inputs in which there is little or no market data, which require the reporting entity to develop its own assumptions.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets at fair value. There have been no changes in methodologies used at December 31, 2024 and 2023.

**2018 US GRAPHIC PACKAGING
INTERNATIONAL PENSION PLAN
NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2024 AND 2023**

CCT funds: The Master Trust's interest in the CCT funds are valued at the net asset value (NAV) of units held by the Plan at year end. The NAV, as provided by the trustee, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Participant transactions (purchases and sales) may occur daily. Were the Plan to initiate a full redemption of the CCT funds, the investment adviser reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner. As of December 31, 2024 and 2023, there were no unfunded commitments or redemption restrictions on the Plan's investment in the CCT funds.

Common and preferred stocks: Valued at the closing price reported on the active market on which the individual securities are traded on a daily basis.

U.S. government, corporate debt, state and municipal and foreign government securities: Valued at the bid prices or the average of the bid and asked prices from published sources.

Cash and cash equivalents: Valued at cost, which approximates fair value.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Master Trust's assets at fair value as of December 31, 2024. There were no Level 3 investments as of December 31, 2024.

4. ACTUARIAL PRESENT VALUE OF ACCUMULATED PLAN BENEFITS

Under the Plan's provisions, accumulated plan benefits are those future periodic payments, including lump-sum distributions, which are attributable to the service the employees have rendered. Accumulated plan benefits include benefits expected to be paid to (1) retired or terminated employees or their beneficiaries, (2) beneficiaries of employees who have died, and (3) present employees or their beneficiaries. Benefits under the Plan are based upon the participant's years of service multiplied by the participant's benefit level, as defined by the Plan, on the date as of which the benefit information is presented (the valuation date). Benefits payable under all circumstances (retirement, death, disability or termination of employment) are included to the extent they are deemed attributable to employee service rendered through the valuation date.

The actuarial present value of accumulated plan benefits is determined by the Plan's consulting actuary and is that amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal or retirement) between the valuation date and the expected date of payment. It is at least reasonably possible that the actuarial assumptions used to calculate accumulated plan benefits will change in the near term and that the effect of such change could be significant.

**2018 US GRAPHIC PACKAGING
INTERNATIONAL PENSION PLAN
NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2024 AND 2023**

The significant actuarial assumptions used in the most recent valuation dated December 31, 2023, were:

Interest Rate	6.40%
Mortality Rates	Aon's endemic version of Scale MP-2021, as of November 2023, that includes near-term and long-term adjustments for COVID-19
Normal Retirement Age	Varies by Subplan with retirement ages beginning at age 55 with 100% retirement by age 70

The foregoing actuarial assumptions are based on the presumption that the Plan would continue. Due to the imminent termination, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

The Plan reporting valuation reflects the following assumption changes:

- a change in the interest rate from 6.45% to 6.40%;
- a change in the mortality improvement scale from Aon's endemic version of Scale MP-21, as of November 2022, that includes both near-term and long-term adjustments for COVID-19 to Aon's endemic version of Scale MP-2021, as of November 2023, that includes near-term and long-term adjustments for COVID-19
- a change in the optional payment form conversion interest rates from the August 2022 417(e) segment rates to the August 2023 417(e) segment rates for lump sums.
- a change in the salary scale from 3.50% through 2024 and 3.00% thereafter to 3.30% through 2024 and 2.80% thereafter.
- A change in the Social Security Wage Base increase assumption from 3.50% to 3.30%.
- A change in the assumed benefit and compensation limit increases from 2.50% to 2.30%.

5. INTEREST IN MASTER TRUST

The Plan is funded through the Master Trust. The Master Trust was established for the investment of assets of the Plan and certain assets of other retirement plans sponsored by the Plan Sponsor. Each participating retirement plan has an undivided interest in the Master Trust. The value of the Plan's interest in the Master Trust is based on the beginning of year value of the Plan's interest in the Master Trust plus actual contributions and allocated investment gain or loss less actual distributions and allocated administrative expenses. Investment gain or loss and administrative expenses relating to the Master Trust are allocated to the individual plans based on 1) whether it is related to a specific plan (100% allocation to that plan), or 2) the Plan's proportionate share of the income or expense which is attributable to the Master Trust. The Plan's interest in the net assets of the Master Trust was approximately 100% at December 31, 2024 and 2023.

7. PLAN TERMINATION

Although it has not expressed any intention to do so, the Plan Sponsor has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA and its related regulations. In the event the Plan terminates, the net assets of the Plan will be allocated, as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated:

1. Annuity benefits that former employees or their beneficiaries have been receiving for at least three years, or that employees eligible to retire for that three-year period would have been receiving if they had retired with benefits in the normal form of annuity under the Plan. The priority amount is limited to the lowest benefit that was payable (or would have been payable) during those three years. The amount is further limited to the lowest benefit that would be payable under Plan provisions in effect at any time during the five years preceding Plan termination.
2. Other vested benefits insured by the Pension Benefit Guaranty Corporation (PBGC), a U.S. governmental agency, up to the applicable limitations discussed below.
3. All other vested benefits (vested benefits not insured by the PBGC).
4. All nonvested benefits.

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits and certain disability and survivor's benefits. However, the PBGC does not guarantee all types of benefits of the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination. However, there is a statutory ceiling on the amount of an individual's monthly benefit that the PBGC guarantees.

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide those benefits, the priority of those benefits to be paid, and on the level of benefits guaranteed by the PBGC.

8. FEDERAL INCOME TAX STATUS

The Internal Revenue Service (IRS) has determined and informed the Plan Sponsor, by a letter dated March 30, 2020, that the Plan and related trust were designed in accordance with the applicable regulations of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the letter, the Plan administrator and the Plan's tax counsel believe the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC, and as such, the Plan and related trust continue to be tax-exempt. Therefore, no provision for income taxes has been included in the Plan's financial statements.

GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained

upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

9. PARTY-IN-INTEREST TRANSACTIONS

Parties-in-interest are defined under Department of Labor regulations as any fiduciary of the Plan, any party rendering service to the Plan, the Plan Sponsor and certain others. During 2024 and 2023, the Plan paid trustee fees, investment management fees, legal actuarial fees and miscellaneous fees. In addition, PBGC premiums were paid by the Plan. These administrative expenses are reflected in the statements of changes in net asset available for benefits for the years ended December 31, 2024 and 2023.

10. SUBSEQUENT EVENTS

Management has evaluated subsequent events through September 29, 2025, which is the date the financial statements were available to be issued and has determined that there are no subsequent events that require disclosure under FASB ASC 855, *Subsequent Events*.

Schedule SB, line 24 — Change in Actuarial Assumptions

The funding valuation reflects the following non-prescribed assumption changes:

- A change in the Social Security Wage Base increase assumption from 3.50% to 3.30%.
- A change in the salary scale from 3.50% through 2024 and 3.00% thereafter to 3.30% through 2024 and 2.80% thereafter.

These changes were made to better reflect the anticipated plan experience. Neither of these assumption changes reduced the funding shortfall; as such, approval of the Commissioner is not required.

Participants in the Former Smurfit (Basic) Plan

- (1) “Actuarial Equivalent Value” means the benefit or benefits, or payment or payments, that are of equal value as of the date of determination to the benefits for which they are to be substituted. Equivalence of value, except as provided in paragraph (2) below, shall be determined by actuarial calculations based on interest rates, mortality tables, and other actuarial assumptions used by the PBGC, as of the first date of the calendar year that includes the computation date, for determining the present value of an immediate annuity (assuming a male participant and a female beneficiary), under a terminating, trustee plan that has been or will be placed into trusteeship by the PBGC.
- (2) In the case of the forms of payment listed below, the equivalence of value shall be computed using the following actuarial adjustment factors:
 - (i) 50% Joint and Survivor Annuity—pay 90% of the pension to the participant and 45% to the surviving spouse.
 - (ii) 75% Joint and Survivor Annuity—pay 84% of the pension to the participant and 63% to the surviving spouse.
 - (iii) 100% Joint and Survivor Annuity—pay 80% of the pension to the participant and 80% to the surviving spouse.
 - (iv) 5-Year Certain and Life Annuity—reduce the pension by 2% and guarantee five years of payments.
 - (v) 10-Year Certain and Life Annuity—reduce the pension by 7% and guarantee 10 years of payments.
 - (vi) 15-Year Certain and Life Annuity—reduce the pension by 12% and guarantee 15 years of payments.

The phrase “actuarial reduction,” “actuarially reduced,” “actuarial increase,” or “actuarially increased” shall mean the adjustment necessary to provide actuarial equivalent value.

For participants who are hourly employees who are represented by USW Local 12315 with a Smurfit Plan hire date before May 15, 2004, if the ages of a participant and his or her spouse are within five years, the actuarial factor used to determine the benefit continuing during the participant's lifetime under a qualified joint and survivor annuity shall be 90% of the monthly retirement income that otherwise would be payable to the participant in accordance with the plan. If there is more than five years difference between the ages of the participant and his or her spouse, then the actuarial adjustment factor applied shall be determined on the basis of the 1984 Unisex Pension Mortality Table and a 5% assumed rate of interest assuming a male participant and a female beneficiary.

Attachment I — Optional Form Conversion Factors

Participants in the Former Smurfit (Basic) Plan

- (1) “Actuarial Equivalent Value” means the benefit or benefits, or payment or payments, that are of equal value as of the date of determination to the benefits for which they are to be substituted. Equivalence of value, except as provided in paragraph (2) below, shall be determined by actuarial calculations based on interest rates, mortality tables, and other actuarial assumptions used by the PBGC, as of the first date of the calendar year that includes the computation date, for determining the present value of an immediate annuity (assuming a male participant and a female beneficiary), under a terminating, trustee plan that has been or will be placed into trusteeship by the PBGC.
- (2) In the case of the forms of payment listed below, the equivalence of value shall be computed using the following actuarial adjustment factors:
 - (i) 50% Joint and Survivor Annuity—pay 90% of the pension to the participant and 45% to the surviving spouse.
 - (ii) 75% Joint and Survivor Annuity—pay 84% of the pension to the participant and 63% to the surviving spouse.
 - (iii) 100% Joint and Survivor Annuity—pay 80% of the pension to the participant and 80% to the surviving spouse.
 - (iv) 5-Year Certain and Life Annuity—reduce the pension by 2% and guarantee five years of payments.
 - (v) 10-Year Certain and Life Annuity—reduce the pension by 7% and guarantee 10 years of payments.
 - (vi) 15-Year Certain and Life Annuity—reduce the pension by 12% and guarantee 15 years of payments.

The phrase “actuarial reduction,” “actuarially reduced,” “actuarial increase,” or “actuarially increased” shall mean the adjustment necessary to provide actuarial equivalent value.

For participants who are hourly employees who are represented by USW Local 12315 with a Smurfit Plan hire date before May 15, 2004, if the ages of a participant and his or her spouse are within five years, the actuarial factor used to determine the benefit continuing during the participant's lifetime under a qualified joint and survivor annuity shall be 90% of the monthly retirement income that otherwise would be payable to the participant in accordance with the plan. If there is more than five years difference between the ages of the participant and his or her spouse, then the actuarial adjustment factor applied shall be determined on the basis of the 1984 Unisex Pension Mortality Table and a 5% assumed rate of interest assuming a male participant and a female beneficiary.

The funding valuation reflects the following non-prescribed assumption changes:

- A change in the Social Security Wage Base increase assumption from 3.50% to 3.30%.
- A change in the salary scale from 3.50% through 2024 and 3.00% thereafter to 3.30% through 2024 and 2.80% thereafter.

These changes were made to better reflect the anticipated plan experience. Neither of these assumption changes reduced the funding shortfall; as such, approval of the Commissioner is not required.
