REPORT OF INDEPENDENT CERTIFIED PUBLIC ACCOUNTANTS

Retirement Plans Committee and Participants
Walgreens Retirement Savings Plan

Scope and nature of the ERISA Section 103(a)(3)(C) audit

We have performed audits of the financial statements of Walgreens Retirement Savings Plan (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of December 31, 2024 and 2023, and the related statement of changes in net assets available for benefits for the year ended December 31, 2024, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of December 31, 2024 and 2023, and for the year ended December 31, 2024, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section

- The amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- The information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (US GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of management for the financial statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's responsibilities for the audit of the financial statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with US GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with US GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certifications, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other matter - supplemental schedule required by ERISA

The supplemental schedule of assets (held at end of year) as of December 31, 2024 is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such supplementary information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures. These additional procedures included comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with US GAAS. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion

- The form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, is presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- The information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

December 31, 2024 and 2023

NOTE 1 - DESCRIPTION OF THE PLAN

The following description of the Walgreens Retirement Savings Plan (“Plan”) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan’s provisions.

General

The Plan is a defined contribution plan that covers all members of a covered group of employees of Walgreens Company (the “Company”) upon hire and who are age 18 or older. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (“ERISA”). Fidelity Workplace Services is the recordkeeper for the Plan. Fidelity Management Trust Company (“Fidelity”) served as trustee for the Plan and the custodian for the Walgreens Retirement Savings Master Trust (“Master Trust”).

The Retirement Plans Committee members are Company employees appointed by the board of directors.

Contributions

Participant Contributions

Participants may elect to make pretax and/or Roth contributions to the Plan in multiples of 1%, subject to the Internal Revenue Service (“IRS”) limits. Participants may opt out of these contributions at any time.

Company Contributions

The Company provides a fully vested match of one dollar for each dollar contributed by a participant as a 401(k) and/or catch up contribution, up to 4% of the eligible compensation for employees who have completed 1,000 hours of service in a consecutive 12-month period and are age 18 or older. Additional discretionary contributions approved by the Company, if any, are distributed among members based on their contributions up to 4% of eligible compensation. There were no discretionary contributions made during 2024.

After-Tax Contributions

Participants may also make after-tax contributions in multiples of 1%, subject to IRS limits. Certain highly compensated employees, as described by the Internal Revenue Code (“IRC”) rules, are restricted from making after-tax contributions.

The combination of a participant’s pretax, Roth and after-tax contributions is limited to 90% of eligible compensation.

Participant Accounts

Individual accounts are maintained for each Plan participant. Each participant’s account is credited with their participant and Company contributions and an allocation of Plan earnings and charged with the participant’s benefit payments, certain participant transaction fees, and an allocation of Plan losses and administrative expenses. Allocations, as applicable, are based on account balances. The benefit to which a participant is entitled is the benefit that can be provided from the participant’s vested account.

Investments

Participants direct the investment of their contributions and the Company contributions into various investment options offered by the Plan. The Plan currently offers investment fund options for participant contributions plus the option to invest Company contributions in the Walgreens Boots Alliance, Inc. (“WBA”)

Stock Fund. The Plan limits investments in the WBA Stock Fund to Company contributions, forfeitures and related earnings. The Plan further limits investments in the WBA Stock Fund to 10% of a participant's total account balance (excluding after-tax contribution sources) at the time of transfer.

Vesting

Participants are immediately vested in their contributions and the Company contributions, plus actual earnings thereon.

All active employees are 100% vested in all Plan contributions, including discretionary Company contributions.

Forfeitures

Forfeitures can be used to pay administrative expenses, offset Company contributions, or to fund corrections where permissible. As of December 31, 2024 and 2023, unallocated forfeited non-vested participant accounts approximated \$390,000 and \$9,000, respectively. During 2024, the Company did not use forfeitures to reduce Company contributions or pay administrative expenses.

Notes Receivable from Participants

Participants may have up to two loans concurrently from their Plan assets. The borrowing may not exceed the lesser of 50% of the market value of their Plan assets or \$50,000. Participants pay interest on such borrowings at the prime rate identified by Reuters on the last business day of the month immediately preceding the month in which the loan is issued, plus 1%. Loans must be repaid within five years unless the loan is used for the purchase of the primary residence of the employee, in which case the repayment period can be extended to a period of 15 years. Repayment is made through periodic payroll deductions, but may be repaid in a lump sum at any time. For employees terminating employment with the Company during the repayment period, the borrower may continue to make loan repayments directly from his or her bank or other personal account through Automated Clearing House.

Payment of Benefits

A participant's account balance may be withdrawn upon retirement, death, disability, or termination of employment as defined by the Plan. Benefits are payable in either a single lump-sum amount equal to the value of the participant's account, or in monthly installments over a period no longer than that permitted under current law. In-service withdrawals of after-tax contributions and rollover accounts, distributions after age 59½ and hardship withdrawals are also allowed by the Plan. A participant must commence benefit payments by the later of 1) the first April 1st after the plan year in which the Participant attains the age of 73, or 2) his or her termination of employment.

Expenses

Certain expenses of maintaining the Plan are paid by the Plan, unless otherwise paid by the Company. Participant accounts are charged for quarterly account maintenance fees as well as for other specific participant transactions, as defined. These fees are paid by the Plan and are included in administrative expenses. Investment-related expenses are paid by the Master Trust and are included in change in Plan interest in Walgreens Retirement Savings Master Trust.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The accompanying financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP").

Use of Estimates

The preparation of financial statements in conformity with U.S. GAAP requires the Plan's management to make estimates and assumptions that affect the reported assets and liabilities, and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from these estimates.

Risks and Uncertainties

The Plan's investments, in general, are exposed to various risks, such as interest rate, credit and overall market volatility risk. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could affect participants' account balances and the amounts reported in the financial statements.

Investment Valuation and Income Recognition

The assets of the Plan are included in a pool of investments known as the Master Trust along with the assets of the Walgreens Puerto Rico Retirement Savings Plan. The Plan's investments in the Master Trust are reported at fair value, except for fully benefit-responsive investment contracts (see Note 5), which are reported at contract value. Contract value is the relevant measure for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. Contract value represents contributions made under the contract plus interest credited less participant withdrawals and fees.

Plan management uses the following methods and significant assumptions to estimate fair value of investments in the Master Trust:

- Short-term investments are valued at their carrying value, which approximates fair value.
- Registered investment companies are valued at net asset value ("NAV") by the Plan at year end based on published quoted market prices.
- Collective funds are valued at the NAV of shares held by the Master Trust at year end. The NAV, as provided by the trustee, is used as a practical expedient to estimate fair value. The NAV is based on the value of the underlying assets owned by the fund, minus its liabilities, and then divided by the number of shares outstanding.
- Investments in common stocks are valued at the closing quoted market price on the active market on which the security is traded.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

In accordance with the policy of stating investments at fair value, the Plan's portion of net appreciation in fair value of investments in the Master Trust consists of realized gains and losses and unrealized appreciation and depreciation on those investments. The net appreciation in fair value of investments of the Master Trust, along with interest, dividend and other income are presented in the accompanying statement of changes in net assets available for benefits as change in Plan interest in Walgreens Retirement Savings Master Trust.

NOTE 3 - INFORMATION PREPARED AND CERTIFIED BY THE PLAN TRUSTEE

The Plan Administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor Rules and Regulations for Reporting Disclosures under ERISA. Accordingly, Fidelity has certified that the following data included in the accompanying financial statements and supplemental schedule is complete and accurate:

- Plan interest in Walgreens Retirement Savings Master Trust and notes receivable from participants, as shown in the statements of net assets available for benefits as of December 31, 2024 and 2023.
- Change in Plan interest in Walgreens Retirement Savings Master Trust and interest income on notes receivable from participants, as shown in the statement of changes in net assets available for benefits for the year ended December 31, 2024.
- Schedule H, line 4i - schedule of assets (held at end of year) as of December 31, 2024.

NOTE 4 - INVESTMENTS IN MASTER TRUST

The Master Trust's investments are stated at fair value except for investment contracts which are valued at contract value, as shown in the Master Trust's statements of net assets available for benefits. The Plan's total divided interest represents 99% of total net assets reported as of December 31, 2024 and December 31, 2023. The remaining assets in the Master Trust relate to the Walgreens Puerto Rico Retirement Savings Plan. Certain prior year investments were reclassified in the 2023 tables below to conform to the current year's presentation.

The net appreciation in fair value of investments, interest income and dividend income related to the Master Trust for the year ended December 31, 2024, were as follows:

Net appreciation in fair value of investments	\$ 1,833,280,467
Interest and dividend income	29,159,628
Master Trust net investment income	<u>\$ 1,862,440,095</u>

The three levels of the fair value hierarchy are as follows:

Level 1 - Inputs are unadjusted quoted prices in active markets for identical assets or liabilities that the reporting entity has the ability to access at the measurement date. An active market for the asset or liability is a market in which transactions for the asset or liability occur with sufficient frequency and volume to provide pricing information on an ongoing basis.

Level 2 - Inputs are other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly, including:

- Quoted prices for similar assets or liabilities in active markets.
- Quoted prices for identical or similar assets or liabilities in inactive markets.

- Inputs other than quoted prices that are observable for the assets or liabilities (including volatilities).
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs are unobservable for the asset or liability and involve significant estimates/judgments to the fair value measurement.

The following tables present the Master Trust's investments by level, within the fair value hierarchy, as of December 31:

NOTE 5 - INVESTMENT CONTRACTS

Description of Investment Contracts

Through the Master Trust, the Plan invests in synthetic guaranteed investment contracts (“GICs”) that are issued by an insurance company or bank and backed by a portfolio of underlying bonds that are owned by the Plan. These assets underlying the wrap contract are maintained separately from the contract issuer’s general assets, usually by a third-party custodian. The wrapper contracts are obligated to provide an interest rate not less than zero. These contracts typically provide that realized and unrealized gains and losses on the underlying assets are not reflected immediately in the net assets of the Plan, but rather are amortized, usually over the time to maturity or the duration of the underlying investments, through adjustments to the future interest crediting rate.

	2024	2023
Synthetic investment contracts held in Master Trust	\$ 940,925,191	\$ 1,025,665,780

The primary variables impacting future crediting rates of synthetic GICs include (1) current yield of the assets within the wrap contract, (2) duration of the assets covered by the wrap contract and (3) existing difference between the market value and contract value of the assets within the wrap contract. Crediting rates reset monthly for these contracts, with the minimum crediting rate of zero. The contract issuers guarantee that all qualified participant withdrawals will occur at contract value.

Future interest crediting rates will be impacted over time as the difference in values decreases. Synthetic contracts generally track current market yields on a trailing basis. Future interest crediting rate resets allow the contract value to converge to the market value over time, assuming the market value continues to earn the current portfolio yield for a period of time equal to the current portfolio duration.

Description of Events Limiting Ability of the Plan to Transact at Contract Value

Benefit-responsive investment contracts, including synthetic GICs, are agreements with high-quality banks and insurance companies that are designed to help preserve principal and provide a stable crediting rate. These contracts are fully benefit-responsive and provide that Plan participant-initiated withdrawals permitted under a participating plan will be paid at contract value.

NOTES TO FINANCIAL STATEMENTS - CONTINUED

December 31, 2024 and 2023

In addition to certain wrap agreement and termination provisions discussed as noted below, the contracts generally provide for withdrawals associated with certain events that are not in the ordinary course of fund operations, and that the issuer determines will have a material adverse effect on the issuer's financial interest, will be paid with a market value adjustment to the contract value amount of such withdrawal as defined in such contracts. While each contract issuer specifies the events that may trigger such a market value adjustment, typically such events include all or a portion of the following: (i) amendments to the fund documents or fund's administration; (ii) changes to the fund's prohibition on competing investment options by participating plans or deletion of equity wash provisions; (iii) complete or partial termination of the fund or its merger with another fund; (iv) the failure of the fund or its trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA; (v) unless made in accordance with the withdrawal provisions of the fund, the redemption of all or a portion of the interests in the fund held by a participating plan at the direction of the participating plan sponsor, including withdrawals due to the removal of a specifically identifiable group of employees from coverage under the participating plan (such as a group layoff or early retirement incentive program), or the closing or sale of a subsidiary, employing unit or affiliate, the bankruptcy or insolvency of a plan sponsor, the merger of the Plan with another plan, or the plan sponsor's establishment of another tax-qualified defined contribution plan; (vi) any change in law, regulation, ruling, administrative or judicial position or accounting requirement, in any case applicable to the fund or participating plans; and (vii) the delivery of any communication to plan participants designed to influence a participant not to invest in the fund. At this time, management does not believe that the occurrence of any such market value event that would limit these contract's ability to transact at contract value with participants is probable.

Description of Events and Circumstances that Would Allow Issuers to Terminate Contract at Amount Different than Contract Value

Synthetic GICs generally do not permit issuers to terminate the agreement prior to the scheduled maturity date. Wrap contracts and separate account agreements generally are evergreen contracts that contain termination provisions. Wrap agreements permit the fund's investment manager or issuer to terminate upon notice at any time at market value and provide for automatic termination of the wrap contract if the book value or the market value of the contract equals zero. The issuer is not excused from paying the excess contract value when the market value equals zero. Wrap contracts that permit the issuer to terminate at market value generally provide that the fund may elect to convert such termination to an Amortization Election as described below. In addition, if the fund defaults in its obligations under the agreement (including the issuer's determination that the agreement constitutes a nonexempt prohibited transaction as defined under ERISA) and such default is not cured within the time permitted by any cure period, then the wrap contract may be terminated by the issuer and the fund will receive the market value as of the date of termination. Also, generally, wrap contracts permit the issuer or investment manager to elect at any time to convert the wrapped portfolio to a declining duration strategy whereby the contract would terminate at a date that corresponds to the duration of the underlying fixed income portfolio on the date of the amortization election ("Amortization Election"). After the effective date of an Amortization Election, the fixed income portfolio must conform to the guidelines agreed upon by the wrap issuer and the investment manager for the Amortization Election period. Such guidelines are intended to result in contract value equaling market value of the wrapped portfolio by such termination date.

NOTE 6 - PLAN TERMINATION

In the event of termination of the Plan, the interests of all participants shall vest, and the value of the participants' accounts determined as of the effective date of such termination shall be paid to the participants, former participants or their beneficiaries over the period of time and in the form determined by the Trustees and in accordance with ERISA regulations. The Company presently has no intention to terminate the Plan.

NOTE 7 - TAX STATUS

The IRS has determined and informed the Company by a letter dated May 31, 2017, that the Plan and related trust are designed in accordance with Section 401(a) of the IRC. The Plan has been amended since receiving the determination letter, however, the trustees believe that the Plan is currently designed and being operated in compliance with applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

The participants do not pay federal income taxes on the deposits made on their behalf by the Company, including the Company contributions, or the income of the Plan until it is distributed to the participant or beneficiary.

U.S. GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the organization has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS or other applicable taxing authorities. The Plan Administrator has analyzed the tax positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements and have found none. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any periods in progress.

NOTE 8 - RELATED-PARTY AND PARTY-IN-INTEREST TRANSACTIONS

As of December 31, 2024 and 2023, certain Plan investments in the Master Trust were units of collective funds managed by Fidelity. Fidelity is the custodian of the Master Trust. During 2024, fees paid by the Master Trust to Fidelity are party-in-interest transactions and are included as a reduction of the return earned on such investments. Notes receivable from participants are also party-in-interest transactions.

As of December 31, 2024 and 2023, the Master Trust held common stock of WBA with a fair value of approximately \$27,000,000 and \$65,000,000, respectively. There were no dividends paid on WBA stock during 2024.

NOTE 9 - SUBSEQUENT EVENTS

Effective with its financial statements prepared for the period ended December 31, 2024, the Plan considers the principles and requirements for subsequent events, including: (1) the period after the statement of net assets date during which management of a reporting entity shall evaluate events or transactions that may occur for potential recognition or disclosure in the financial statements; (2) the circumstances under which an entity shall recognize events or transactions occurring after the statement of net assets date in its financial statements; and (3) the disclosure that an entity shall make about events or transactions that occurred after the statement of net assets date.

The Plan evaluated subsequent events through October 3, 2025, the date the financial statements were available to be issued.

Effective August 28, 2025, WBA was acquired by an entity affiliated with Sycamore Partners. In connection with the acquisition, the WBA Stock Fund was removed as an investment option of the Plan. Each outstanding share of the WBA Stock Fund was exchanged for a specific amount of cash and non-transferable Divested Asset Proceeds Rights ("DAP Rights"), as further described in the DAP Rights Directions Document.

The Plan is not aware of any other subsequent events that would require recognition or disclosure in the financial statements.
