Independent Auditor's Report

The Plan Administrator
AAA Life Insurance Company Pension and 401(k) Plan
Livonia, Michigan

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of AAA Life Insurance Company Pension and 401(k) Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C). The financial statements comprise the statements of net assets available for benefits as of December 31, 2024 and 2023, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA (ERISA Section 103(a)(3)(C) audit). As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency (qualified institution), provided that the investment information is prepared and certified to by the qualified institution in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

Management has obtained certifications from a qualified institution as of December 31, 2024 and 2023, and for the years then ended, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report:

- The amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America (GAAP).
- The certified investment information in the accompanying financial statements agrees to, or is derived from, in all material respects, the information prepared and certified by a qualified institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date that the financial statements are available to be issued.

Management is responsible for maintaining a current plan instrument, including all plan amendments. Management is also responsible for administering the Plan and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certifications, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of GAAP.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with GAAP.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter – Supplemental Schedule Required by ERISA

The supplemental schedule of Schedule H, Line 4i - Schedule of Assets (Held at End of Year) as of December 31, 2024, is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For

information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including their form and content, are presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- The form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.
- The certified investment information in the supplemental schedule agrees to, or is derived from, in all material respects, the information prepared and certified by a qualified institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

AAA Life Insurance Company Pension and 401(k) Plan

Notes to Financial Statements

1. Description of the Plan

The following description of AAA Life Insurance Company Pension and 401(k) Plan (the Plan) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined-contribution plan established as of January 1, 1999 covering all employees of AAA Life Insurance Company (the Company), as defined below. The Company is the sponsor of the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA).

Trustee and Administration of the Plan

Voya Institutional Trust Company (the Trustee) is the trustee and recordkeeper of the Plan. The Company is the administrator of the Plan (the Plan Administrator). The Trustee holds all assets of the Plan in accordance with the service provider contract with the Company. The Investment Committee is responsible for oversight of the Plan and the appropriateness of the Plan's investment offerings and monitors investments performance.

Eligibility

All employees are eligible to enter the Plan on the first day of the month, immediately following or coinciding with the employee hire date.

There is no age requirement to enter the Plan.

Contributions

Each year, participants may contribute up to 80% of eligible compensation on a pretax and post-tax basis using the traditional 401(k) and/or Roth 401(k) options, as defined in the Plan document. For an employee whose age is 50 or older at the end of the calendar year, a catch-up deferral is permitted, subject to certain limitations. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans (rollovers). The Plan includes an auto-enrollment provision whereby all newly eligible employees are automatically enrolled in the Plan unless they affirmatively elect not to participate. Automatically enrolled participants have their deferral rate set at 3% of eligible compensation. An employee whose Plan entry date is on or after January 1, 2013 will have their automatic deferral percentage increased annually by 1% up to a maximum of 5%. The scheduled increases occur on February 1 of each Plan year.

The Company matches 50% of the first 2% and 100% of the next 3% of the pay that an employee defers, excluding catch-up deferrals and rollovers.

Effective January 2024, the Company match was modified to match 100% up to 5% of the pay that an employee defers, excluding catch-up deferrals and rollovers.

AAA Life Insurance Company Pension and 401(k) Plan

Notes to Financial Statements

In addition, the Company makes an annual additional contribution (employer discretionary contribution) based upon employees' years of service, as follows:

Years of Service	Percentage of Compensation (%)
0 through 4	4.0
5 through 9	4.5
10 through 14	5.0
15 through 19	5.5
20 or more	6.0

For the years ended December 31, 2024 and 2023, the Company made a discretionary contribution of \$3,389,184 and \$2,720,503, respectively.

Contributions are subject to certain IRS limitations.

Upon enrollment, participants may direct their contributions, employer matching contributions, and their portion of discretionary employer contributions to any of the Plan's investment options.

Participant Accounts

Each participant's account is credited with the participant's contributions and allocations of the Company's contributions and Plan earnings or losses. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined in the Plan document. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are 100% vested in their individual deferral, rollover contributions, and the allocated earnings thereon.

Company matching contributions vest in accordance with the following schedule:

Years of Service	Percentage of Compensation (%)
Less than 1	-
1	33
2	66
3 or more	100

Participants are 100% vested in Employer discretionary contributions after three years of service.

Forfeitures

When certain terminations of participation in the Plan occurs, the non-vested portion of the participant's account, as defined by the Plan document, represents forfeitures. As of December 31, 2024 and 2023, forfeited nonvested accounts totaled \$249,549 and \$170,511,

AAA Life Insurance Company Pension and 401(k) Plan

Notes to Financial Statements

respectively. These accounts will be used to reduce future employer contributions and administrative expenses. Forfeitures used to reduce employer contributions and administrative expenses totaled \$205,797 and \$135,154 for the Plan years ended December 31, 2024 and 2023, respectively.

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of \$500. The maximum amount that may be borrowed is 50% of their vested account balances, up to \$50,000. The loans are secured by the balance in the participant's account. Interest rates are based on prevailing interest rates for similar loans. The maximum number of Plan loans that a participant may have outstanding at any one time is two. Repayment of any loan is made through employee payroll deductions not less frequently than once per calendar quarter. The loans are repaid over a period of five years or less, unless used to purchase a principal residence. These loans are subject to certain restrictions as defined by the Plan document and applicable restrictions under the Internal Revenue Code (IRC).

Payment of Benefits

Upon termination of service; attainment of age 65; at age 59½ if certain criteria are met; circumstances of financial hardship; or any other distributive event, as defined in the Plan document, participants or their beneficiaries may receive a lump sum or substantially equal installments.

2. Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America (GAAP) requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments of the Plan are reported at fair value (except for the fully benefit-responsive guaranteed interest account, which is reported at contract value; see Note 5). The fair value of a financial instrument is the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Company determines the Plan's valuation policies utilizing information provided by the Trustee. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income (loss) is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation in fair value of investments includes the Plan's gains and losses on investments bought and sold, as well as held during the year.

AAA Life Insurance Company Pension and 401(k) Plan

Notes to Financial Statements

Contribution Receivable

Participant contributions and any related employer contributions are recognized in the period during which the Company makes the respective payroll deduction from the participant's compensation. Non-elective/profit sharing contributions are recorded in the relevant period in accordance with the terms in the Plan document.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. If a participant ceases to make loan repayments and the Plan Administrator deems the participant loan to be in default, the participant's Plan balance is reduced, and a benefit payment is recorded.

Payment of Benefits

Plan benefits are recorded when paid.

Administrative Expenses

Administrative expenses of the Plan are paid by the Company and are excluded from these financial statements, except for certain expenses that are charged to participant accounts, including loan fees, withdrawal fees, Plan administrative fees, and investment management fees. Investment related expenses are included in net appreciation in fair value of investments.

Revenue Credits

The Plan's trust agreement with Voya provides for a participant revenue credit arrangement, whereby the trustee allocates quarterly deposits first to pay Plan expenses and the unused balance at year-end is distributed to participant accounts. Unallocated revenue credits at December 31, 2024 and 2023 are \$15,249 and \$14,891, respectively. During 2024 and 2023, the Plan received credits of approximately \$57,884 and \$55,661, respectively, which was used to pay administrative expenses. Administrative expenses are presented net of revenue credits in the statements of changes in net assets available for benefits.

Subsequent Events

The financial statements and related disclosures include an evaluation of events up to and including September 26, 2025, the date the financial statements were available to be issued. The Plan is not aware of any other subsequent events that would require recognition or disclosure in the financial statements.

3. Certified Investment Information

Certain information disclosed in the accompanying financial statements and ERISA-required supplemental schedule, related to investments and notes receivable from participants held as of December 31, 2024 and 2023, and net appreciation in fair value of investments, interest and dividends, and interest income on notes receivable from participants for the years then ended, was obtained by management and agreed to or derived from information certified as complete and accurate by Voya Institutional Trust Company, a qualified institution.

AAA Life Insurance Company Pension and 401(k) Plan

Notes to Financial Statements

4. Fair Value Measurements

Accounting Standards Codification (ASC) 820, *Fair Value Measurements and Disclosures*, provides for a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under ASC 820 are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets.
- Quoted prices for identical or similar assets or liabilities in inactive markets.
- Inputs other than quoted prices that are observable for the asset or liability.
- Inputs that are derived principally from, or corroborated by, observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodology used for assets measured at fair value. There have been no changes in the methodology used at December 31, 2024 and 2023.

Registered Investment Companies (Mutual Funds) - The Plan is funded through a variable annuity contract with Voya Retirement Insurance and Annuity Company maintained under a trust arrangement with Voya Institutional Trust Company. The account invests in shares of open-end mutual funds. Plan participants invest in the mutual funds offered to the Plan through the contract. The fair value of the account's assets is based on the net asset value (NAV) of mutual funds and reflect the fair values of the mutual fund investments. The NAV of the mutual funds is calculated daily upon close of the New York Stock Exchange and is based on the fair values of the underlying securities. These funds held by the Plan are deemed to be actively traded.

The preceding method described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation method is appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

AAA Life Insurance Company Pension and 401(k) Plan

Notes to Financial Statements

The following tables set forth by level, within the fair value hierarchy, the Plan's investments measured at fair value:

December 31, 2024

	Level 1	Level 2	Level 3	Total
Mutual funds	\$ 86,436,524	\$ -	\$ -	\$ 86,436,524
Total Investments, at fair value	\$ 86,436,524	\$ -	\$ -	\$ 86,436,524

December 31, 2023

	Level 1	Level 2	Level 3	Total
Mutual funds	\$ 70,557,345	\$ -	\$ -	\$ 70,557,345
Total Investments, at fair value	\$ 70,557,345	\$ -	\$ -	\$ 70,557,345

5. Guaranteed Interest Account

The Plan has a fully benefit-responsive contract with Voya. Voya maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan of no less than 1.00%.

The value of this fund is based on the value of invested principal plus daily credited interest as of December 31, 2024 and 2023. The fund is subject to a guaranteed minimum interest rate (GMIR) as defined by the investment contract but may credit interest that exceeds the GMIR at any time. There are no specific securities in the general account that back the liabilities of this investment contract, and Voya assumes the risk of the gain and loss of underlying investments by guaranteeing the principal and daily credited interest that become part of the principal.

Because the guaranteed investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. Contract value, as reported to the Plan by Voya, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants ordinarily may direct the withdrawal or transfer of all or a portion of their investment at contract value. There are no reserves against contract value for credit risk of the contract issuer or otherwise.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the Plan documents (including complete or partial Plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Plan Sponsor or other Plan Sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The Plan Administrator believes that any events that would limit the Plan's ability to transact at contract value with participants are not probable of occurring.

AAA Life Insurance Company Pension and 401(k) Plan

Notes to Financial Statements

The guaranteed interest contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

6. Income Tax Status

The Plan uses a pre-approved plan document sponsored by Voya. Voya received an opinion letter from the IRS, dated June 30, 2020, which states that the pre-approved plan document, as then designed, satisfies the applicable provisions of the IRC. Although the Plan has been amended since the date of the opinion letter, Plan management believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC.

GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no IRS examinations for any tax periods in progress.

7. Plan Termination

Although it has not expressed the intention to do so, the Company has the right under the Plan to discontinue its contributions at any time and terminate the Plan subject to the provisions set forth in ERISA. In the event of the Plan's termination, participants' accounts become fully vested and are distributed as provided in the Plan document.

8. Related Party and Party-in-Interest Transactions

Certain Plan investments are managed by the Trustee as defined by the Plan document. Participant loan and distribution processing fees are paid to Voya by participants. The Plan also receives revenue credits from Voya. Certain fees incurred by the Plan for the investment management services are included in net appreciation in fair value of investments, rather than a direct payment. The Plan also issues loans to participants that are secured by the vested balance of the participants' accounts. These transactions are party-in-interest transactions, which are exempt from prohibited transaction rules.

9. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities, in general, are exposed to various risks, such as interest rate, credit, and overall market risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the value of investment securities will occur in the near term and that such change could materially affect participants' account balances and the amounts reported in the financial statements.
