Report of Independent Auditors

To the Participants and Plan Administrator of F.N.B. Corporation Retirement Income Plan

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of F.N.B. Corporation Retirement Income Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of December 31, 2024 and 2023, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes (collectively referred to as the “financial statements”).

Management, having determined it is permissible in the circumstances, has elected to have the audits of the financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor’s Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor’s Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of December 31, 2024 and 2023, and for the years then ended, stating that the certified investment information, as described in Note 4 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditor’s Responsibilities for the Audit of the Financial Statements section

- the amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- the information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in

the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of

expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.

- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control related matters that we identified during the audit.

Other Matter

Supplemental Schedules Required by ERISA

The supplemental schedules of assets (held at end of year) as of December 31, 2024, and reportable transactions for the year then ended (referred to as the "supplemental schedules"), are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedules, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedules that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, other than the information agreed to or derived from the certified investment information, including their form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion

- the form and content of the supplemental schedules, other than the information in the supplemental schedules that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- the information in the supplemental schedules related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Description of Weighted Average Retirement Age
as of January 1,2024

For each active participant, an expected retirement age was calculated, weighted in proportion to the probability that the individual would remain an active participant to each age and then retire at that age. The plan's weighted average retirement age of 64 is the arithmetic average of the expected retirement ages of all such participants on 1/1/2024.

Valuation Date	January 1, 2024
Enrolled Actuary	Elizabeth A. Shimshock, F.S.A
Enrollment Number	23-05797

The actuarial assumptions that are not mandated by IRC § 430 and regulations, represent the enrolled actuary's best estimate of anticipated experience under the plan, subject to the following conditions:

The actuarial valuation, on which the information in this Schedule SB is based, has been prepared in reliance upon the employee and financial data furnished by the plan administrator and the trustee. The enrolled actuary has not made a rigorous check of the accuracy of this information but has accepted it after reviewing it and concluding it is reasonable in relation to similar information furnished in previous years. The amounts of contributions and dates paid shown in Item 18 of Schedule SB were listed in reliance on information provided by the plan administrator and/or trustee.

Sources of Data and Other Information

The plan sponsor furnished participant data as of January 1, 2024. Information on assets, contributions and plan provisions was supplied by the plan sponsor. Data and other information were reviewed for reasonableness and consistency, but no audit was performed. Based on discussions with the plan sponsor, assumptions or estimates were made when data were not available, and the data was adjusted to reflect any significant events that occurred between the date the data was collected and the measurement date. We are not aware of any data assumptions made other than those described in the Demographic Assumptions section above.

We are not aware of any errors or omissions in the data that would have a significant effect on the results of our calculations.

Methods

Valuation Date	First day of plan year
Funding target	Present value of accrued benefits as required by regulations under IRC §430
Target normal cost	Present value of benefits expected to accrue during the plan year plus plan-related expenses expected to be paid from plan assets during the plan year as required by regulations under IRC §430
Actuarial value of assets	The actuarial value of assets is equal to the market value of assets as of the valuation date plus the discounted present value of contributions made after the valuation date for the 2022 plan year, discounted using the effective interest rate for the 2022 plan year.
Benefits not valued	All benefits described in the Plan Provisions section of this report were valued based on discussions with F.N.B. Corporation regarding the likelihood that these benefits will be paid. WTW has reviewed the plan provisions with F.N.B. Corporation and based on that review, is not aware of any significant benefits required to be valued that were not. The plan pays small benefits (with a present value up to \$90,000) in a single lump sum payment. Such lump sums are not explicitly valued; rather such participants' benefits are valued using the benefit choice assumptions described above.

Assumptions Rationale – Significant Economic Assumptions

Funding discount rate	The basis chosen was selected by the plan sponsor from among choices prescribed by law, all of which are based on observed market data over certain periods of time.
------------------------------	--

Assumptions Rationale – Significant Demographic Assumptions

Funding Mortality	Assumptions used for funding purposes are as prescribed by IRC §430(h).
Termination	Termination rates were based on an experience study conducted in 2020, with annual consideration of whether any conditions have changed that would be expected to produce different results in the future.
Retirement	Retirement rates were based on an experience study conducted in 2020, with annual consideration of whether any conditions have changed that would be expected to produce different results in the future.

Benefit commencement date for deferred benefits:

- Preretirement death benefit
Surviving spouses are assumed to begin benefits at the earliest permitted commencement date because ERISA requires benefits to start then unless the spouse elects to defer. Experience indicates that most spouses do take the benefit as soon as it is available.
- Deferred vested benefit
Deferred vested participants' assumed commencement age is a single age intended to capture the average age at commencement.

Percent married	The assumed percentage married is based on general population statistics on the marital status of individuals of retirement age.
------------------------	--

Spouse age	The assumed age difference for spouses is based on general population statistics of the age difference for married individuals of retirement age.

Source of Prescribed Methods

Funding methods

The methods used for funding purposes as described in Statement of Actuarial Assumptions and Methods, including the method of determining plan assets, are “prescribed methods set by law”, as defined in the actuarial standards of practice (ASOPs). These methods are required by IRC §430, or were selected by the plan sponsor from a range of methods permitted by IRC §430.

Changes in Assumptions and Methods

Change in assumptions and methods since prior valuation

- The segment interest rates used to calculate the funding target and target normal cost were updated to the current valuation date as required by IRC 430.
- The assumed plan-related expenses added to the target normal cost were changed from \$258,000 for 2023 to \$378,000 for 2024.
- The mortality table used to calculate the funding target and target normal was changed from using a static projection of mortality improvement to a generational projection as required by guidance issued by IRS under IRC §430.

Schedule SB, Part V Summary of Plan Provisions

Plan Provisions Applicable Beginning January 1, 2007

The most recent amendment reflected in the following plan provisions was effective on or before August 22, 2019.

Covered Employees All salaried employees working at least 1,000 hours in a year for the First National Bank of Pennsylvania or for any affiliate which adopts the Plan (currently Regency Finance Company, F.N.B. Investment Services, F.N.B. Investment Advisors Trust, and Capital Corp.) and hired prior to January 1, 2008.

Participation Date Date of becoming a covered employee
Age 21 with one year of eligibility service, but not earlier than adoption date for former participants of the following entity:

<u>Entity</u>	<u>Adoption Date</u>
Legacy Bank	1/1/2007

Definitions

Eligibility service One year for each year of employment in which at least 1,000 hours are worked. First the 12-month period commencing at hire is examined. Following this, the calendar year is the 12-month period.

Vesting service One year for each year of employment in which at least 1,000 hours are worked. Partial years are granted in years of hire or termination if the employee was working at a rate equal to or in excess of 1,000 hours per year.

Earnings All wages and salaries (not just regular base salary), bonuses other than signing bonuses, and incentive compensation (except as stated in this sentence), but excluding awards under any long-term incentive plan (regardless of how paid, such as in restricted stock or in cash), any reimbursements or other expense allowances, fringe benefits (cash and noncash) including severance pay and long-term disability benefits, moving expenses, deferred compensation, and welfare benefits.

Normal retirement date (NRD) First of the month coinciding with or following the attainment of age 65 and five years of service

Benefits Paid Upon the Following Events

Normal retirement Monthly pension benefit determined as of NRD.

Early retirement Monthly pension benefit determined as of early retirement date, multiplied by an actuarially equivalent early commencement factor, as follows:

Age	Factor
55	0.438
56	0.473
57	0.511
58	0.553
59	0.599
60	0.650
61	0.706
62	0.768
63	0.837
64	0.914
65	1.000

The accrued benefit as of December 31, 2006 determined under the prior formula will be reduced for early commencement based on the prior early retirement factors.

Postponed retirement Monthly pension benefit determined as of actual retirement date.

Disability retirement For benefits earned on or after January 1, 2007, earnings will continue to be credited at most recent base rate of pay through December 31, 2010. The resulting benefit is determined and paid as if the participant terminated at the time of cessation of LTD payments.

Termination with deferred vested benefit Monthly pension benefit determined as of termination date, reduced by actuarially equivalent early commencement factors if payment is desired prior to age 65.

Death with preretirement spouse benefits Monthly preretirement spouse pension is payable.

Other plan provisions

Forms of payment for preretirement spouse benefits are payable only as described above. Monthly pension benefits are paid as described above if the participant has no spouse as of the date payments begin. Otherwise, actuarially equivalent benefits are paid in the form of the 100% joint-and-survivor annuity (with the spouse as the beneficiary) or, if the participant elects and the spouse consents, another actuarially equivalent optional form offered by the plan. Optional forms are a 50% joint-and-survivor annuity (with any designated beneficiary), a 100% joint-and-survivor annuity (with any designated beneficiary), a five-year certain-and-life annuity or a lump sum if such lump sum value is between \$1,000 and \$90,000. Notwithstanding all of the preceding, an automatic lump sum is paid if the actuarial present value of benefits is less than \$1,000 at termination, retirement or death. Basis for actuarial equivalence is 1983 Group Annuity Mortality Male and 8% interest.

Maximum on benefits and pay

All benefits and pay for any calendar year may not exceed the maximum limitations for that year as defined in the Internal Revenue Code. The plan provides for increasing the dollar limits automatically as such changes become effective. Increases in the dollar limits are assumed for determining pension cost but not for determining contributions.

Future Plan Changes

No future plan changes were recognized in determining pension cost.

Changes in Benefits Valued Since Prior Year

There have been no changes in benefits valued since the prior year.

Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

F.N.B. Corporation Retirement Income Plan
Notes to Financial Statements
December 31, 2024 and 2023

1. Description of the Plan

The following description of the F.N.B. Corporation Retirement Income Plan (Plan) provides only general information. Participants should refer to the Summary Plan Description for the Plan for a more complete description of the Plan's provisions.

The Plan is a noncontributory defined benefit plan that covers all eligible employees of F.N.B. Corporation (Corporation) and any affiliated subsidiaries that had elected to participate in the Plan. The Plan provides for retirement and death benefits to participants and their surviving spouses. Effective January 1, 2008, the Plan was amended to close participation to all employees hired on or after January 1, 2008. The Corporation amended the Plan on October 20, 2010 to freeze all benefit accruals effective December 31, 2010.

The Corporation and any affiliated subsidiaries that had elected to participate in the Plan have agreed to voluntarily contribute such amounts as are necessary to provide assets sufficient to meet the benefits to be paid to Plan members and to fund the Plan's current service cost on a current basis. Prior service cost is amortized on a straight-line basis over the average remaining life of Plan participants. The general funding policy is to make a cash contribution to the Plan each year which is between the minimum required amount and the maximum tax deductible amount. The Plan has met the Employee Retirement Income Security Act of 1974 (ERISA) minimum funding requirements for the years ended December 31, 2024 and 2023. The Corporation did not make a contribution to the Plan for the 2024 and 2023 plan years.

The Plan is administered by F.N.B. Pension Committee (Committee) which is a committee of executives of the Corporation. The Committee has the overall responsibility for the operation and administration of the Plan. The Committee determines the appropriateness of the Plan's investment offerings, monitors investment performance and reports to the Compensation Committee of the Board of Directors or directly to the Board of Directors.

Information about the Plan document, the vesting and benefit provisions, and the Pension Benefit Guaranty Corporation's (PBGC) benefit guaranty is contained in the Summary Plan Description for the Plan which is available in the Corporation's personnel department.

2. Summary of Accounting Policies

Basis of Presentation

The financial statements have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP).

Use of Estimates

The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates. It is reasonably possible that a significant change may occur in the near term for the estimates of investment valuation and actuarial present value of accumulated plan benefits.

Risks and Uncertainties

The Plan invests in certain investment securities. Investment securities are exposed to various risks such as interest rate, market, liquidity and credit risk. Market risks include global events which could impact the value of investment securities, such as a pandemic or international conflict. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and such changes could materially affect the amounts reported in the statements of net assets available for benefits.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

Investment Valuation and Income Recognition

Investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for a discussion of fair value measurements.

Dividend income is recorded on the ex-dividend date. Interest income from other investments is recorded as earned on an accrual basis. Purchases and sales of securities are recorded on a trade date basis. Net appreciation (depreciation) includes the gains and losses on investments bought and sold as well as held during the year.

2. Summary of Accounting Policies (continued)

Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits (see Note 3) are those estimated future periodic payments which are attributable under the Plan's provisions to employees for services rendered by the employees to the valuation date. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries. Benefits for present employees, retired, or terminated employees or their beneficiaries are based on the sum of the annual pension benefit as of December 31, 2006 determined under a prior formula, plus 1% of the employees' total, cumulative compensation beginning January 1, 2007 through December 31, 2010, with benefits unreduced at age 65. Prior to 2007, for legacy participants of the Plan and for participants in the Plan from the former NewBridge Bank Employees' Pension Plan that merged into the Plan effective December 31, 2017, benefits are based on years of service and the employees' compensation for the five highest consecutive years during their last ten years of employment. The accumulated plan benefits for active employees are based on the provisions of the Plan. There are no future benefit accruals for any participants in the Plan. Benefits payable under all circumstances – retirement, death, disability and termination of employment – are included, to the extent they are deemed attributable to employee service rendered to the valuation date. Employees with 5 or more years of credited service are generally entitled to pension benefits.

Payment of Benefits

Benefit payments to participants are recorded upon distribution.

Valuation of Other Financial Instruments

The carrying values of the Plan's receivables as of December 31, 2024 and 2023 approximate fair value.

F.N.B. Corporation Retirement Income Plan
Notes to Financial Statements (continued)
December 31, 2024 and 2023

3. Accumulated Plan Benefits

An actuary estimated the actuarial present value of accumulated plan benefits, which is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits earned by participants to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal or retirement) between the valuation date and the expected date of payment.

The accumulated plan benefits information is as follows:

	December 31, 2023
Actuarial present value of accumulated plan benefits:	
Vested benefits:	
Participants currently receiving payments	\$ 79,692,485
Other participants	20,751,557
	<u>100,444,042</u>
Non-vested benefits	109,064
Total	<u><u>\$ 100,553,106</u></u>

Changes in accumulated plan benefits are presented below for the year ended December 31, 2023:

Actuarial present value of accumulated plan benefits	
beginning of year	\$ 102,230,947
Increase (decrease) during the year attributable to:	
Actuarial gains and losses	1,037,540
Effect of decrease in discount period	6,591,607
Benefits paid	<u>(9,306,988)</u>
Net (decrease)/increase	<u>(1,677,841)</u>
Actuarial present value of accumulated plan benefits	
end of year	<u><u>\$ 100,553,106</u></u>

F.N.B. Corporation Retirement Income Plan
Notes to Financial Statements (continued)
December 31, 2024 and 2023

3. Accumulated Plan Benefits (continued)

Significant assumptions underlying the actuarial computations as of December 31, 2023 and 2022 are:

Discount Rate	6.75%
Average retirement age	Varies by affiliate (average age 64)
Life expectancy of participants	Pri-2012

The cost of providing plan benefits depends on demographic factors such as retirement, mortality, and turnover. Demographic assumptions used in the valuation were selected to reflect the experience of the covered population and reasonable expectations. If actual experience is more favorable than assumed, future plan costs will be lower. Alternatively, if actual experience is less favorable than assumed, future plan costs will be higher.

These actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits. The actuary estimated the accumulated plan benefits as of January 1, 2024. There were no significant changes to the Plan that would have changed the valuations had they been performed as of December 31, 2023.

4. Investments

Certain information related to investments for the Plan disclosed in the accompany financial statements and supplemental schedules including investments held at December 31, 2024 and 2023, and net appreciation (depreciation) in fair value of investments, interest and dividends for the years ended December 31, 2024 and 2023, was obtained or derived from information provided to the plan administrator and certified as complete and accurate by First National Trust Company, a subsidiary of the Corporation, and the trustee of the Plan.

Notes to Financial Statements (continued)

5. Fair Value Measurements

U.S. GAAP establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under U.S. GAAP are described as follows:

- | | |
|---------|---|
| Level 1 | Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access. |
| Level 2 | <p>Inputs to the valuation methodology include:</p> <ul style="list-style-type: none">- quoted prices for similar assets or liabilities in active markets;- quoted prices for identical or similar assets or liabilities in inactive markets;- inputs other than quoted prices that are observable for the asset or liability;- inputs that are derived principally from or corroborated by observable market data by correlation or other means. <p>If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.</p> |
| Level 3 | Inputs to the valuation methodology are unobservable and significant to the fair value measurement. |

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs. All investments of the Plan, except for United States government agency securities are valued at quoted prices reported from active markets in which the securities are traded. Accordingly, all such investment valuations fall within level 1 of the fair value hierarchy. The Plan uses prices from independent pricing services to measure fair value of United States government agency securities. Fair values are determined by utilizing pricing models that consider other observable inputs such as available trade, bid, and other market-based or market-derived information. As such, United States government agency securities fall within level 2 of the fair value hierarchy. There were no transfers in leveling in 2024.

6. Transactions with Parties-in-Interest

Parties-in-interest are defined under U.S. Department of Labor regulations as any fiduciary of the Plan, any party rendering service to the Plan, the employer and certain others.

The Plan held the Corporation common stock which represented 1.89% and 2.56% of the Plan's net assets available for benefits as of December 31, 2024 and 2023, respectively. The total number of shares of the Corporation common stock held by the Plan as of December 31, 2024 and 2023 was 235,000, valued at \$3,473,300 and 330,000, valued at \$4,544,100, respectively. During 2024 and 2023, the Plan received \$135,000 and \$161,100, respectively, in common stock cash dividends from the Corporation common stock. During 2024, the Plan did not purchase any shares of the Corporation Stock, but the Plan sold 95,000 shares of the Corporation Stock for proceeds of \$1,351,167. During 2023, the Plan did not purchase any shares of the Corporation Stock, but the Plan sold 17,500 shares of the Corporation Stock for proceeds of \$229,906.

The First National Trust Company is the trustee for the Plan and does not charge fees to the Plan for its services. Certain administrative expenses of the Plan are paid by the Corporation. Such expenses have historically been comprised of fees for audit and certain actuarial services. Administrative expenses paid by the Corporation on behalf of the Plan totaled \$219,483 and \$59,914 for the 2024 and 2023 plan years, respectively. Administrative expense paid by the Plan consists primarily of actuary fees and PBGC premiums. Investment management fees are charged to the Plan as a reduction of investment return and included in the investment income (loss) reported by the Plan.

Additionally, certain administrative functions of the Plan are performed by officers or employees of the Corporation. No such officer or employee receives compensation from the Plan.

Notes to Financial Statements (continued)
December 31, 2024 and 2023

7. Plan Termination

F.N.B. Corporation (the Plan Sponsor) has the right under the Plan to discontinue contributions at any time and terminate the Plan. In the event of a termination of the Plan, the net assets of the Plan are to be set aside first for the payment of benefits for those participants that are or could be receiving benefits; second, for benefits guaranteed under Title IV of ERISA; third, for all other non-forfeitable benefits under the Plan; and fourth, for all other benefits under the Plan. Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at the time, of the Plan's net assets to provide those benefits and may also depend on the level of benefits guaranteed by the PBGC.

8. Income Tax Status

The Plan has received a determination letter from the Internal Revenue Service dated April 3, 2018, stating that the Plan is qualified under Section 401(a) of the Internal Revenue Code (Code) and, therefore, the related trust is exempt from taxation. The plan administrator is required to operate in conformity with the Code to maintain its qualification. The plan administrator believes the Plan is designed and is being operated in compliance with the applicable requirements of the Code and, therefore, believes that the Plan is qualified and the related trust is tax-exempt.

U.S. GAAP require plan management to evaluate tax positions taken by the Plan. The plan administrator has analyzed the tax positions taken by the plan, and has concluded that as of December 31, 2024 and 2023 there are no uncertain tax positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing authorities; however, there are currently no audits for any tax years in progress.

9. Subsequent Events

Plan management has evaluated subsequent events for recognition and disclosure through October 2, 2025, the date the financial statements were available to be issued.
