## ERIN M PERDUE CPA LLC

### Independent Auditors' Report

To the Plan Administrator of Armstrong Air and Electric, Inc. Employee Stock Ownership Plan:

#### Opinion

We have audited the accompanying financial statements of Armstrong Air and Electric, Inc. Employee Stock Ownership Plan, an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statements of net assets available for benefits as of December 31, 2024 and 2023, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of Armstrong Air and Electric, Inc. Employee Stock Ownership Plan as of December 31, 2024 and 2023, and the changes in its net assets available for benefits for the years then ended, in accordance with accounting principles generally accepted in the United States of America.

#### Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Armstrong Air and Electric, Inc. Employee Stock Ownership Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

#### Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Armstrong Air and Electric, Inc. Employee Stock Ownership Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

#### Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

## Independent Auditors' Report (Continued)

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Armstrong Air and Electric, Inc. Employee Stock Ownership Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Armstrong Air and Electric, Inc. Employee Stock Ownership Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

### Supplemental Schedules Required by ERISA

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedules of Assets (Held at End of Year) as of December 31, 2024 and 2023, are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with generally accepted auditing standards.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, including their form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying schedules is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

ARMSTRONG AIR AND ELECTRIC, INC. EMPLOYEE STOCK OWNERSHIP PLAN  
NOTES TO FINANCIAL STATEMENTS  
DECEMBER 31, 2024 and 2023

**A. PLAN DESCRIPTION**

The following brief description of the Armstrong Air and Electric, Inc. Employee Stock Ownership Plan (the "Plan") is provided for general information purposes only. Participants should refer to the plan document for complete information.

General

Armstrong Air and Electric, Inc. (the "Company") established an Employee Stock Ownership Plan ("ESOP") effective as of January 1, 2023. The Plan operates as a leveraged ESOP covering substantially all employees of the Company who have attained the age of 18 and completed one year of continuous service and 1,000 hours. Entry dates of the Plan are January 1<sup>st</sup> and July 1<sup>st</sup>. The Plan is designed to comply with Section 4975(e) (7) and the regulations thereunder of the Internal Revenue Code of 1986, as amended ("Code") and is subject to the applicable provisions of the Employee Retirement Income Security Act of 1974, as amended ("ERISA").

Contributions

Company contributions to the Plan, if any, are made at the Company's discretion. Contributions are allocated to participants who have completed 1,000 hours and are employed on the last day of the Plan year in the proportion that each participant's compensation for that year bears to all participants' compensation for that year. For the years ended December 31, 2024 and 2023, the Company made contributions of \$1,128,713 and \$1,700,000, respectively, to the Plan.

On February 16, 2024, the ESOP acquired 500,000 shares of Armstrong Air & Electric stock from the Owner for \$20,629,394 at a value of \$41.26 a share. The shares were acquired in a leveraged transaction involving an ESOP loan. The seller did not elect Section 1042 treatment. During the year ended December 31, 2024 a total of 45,171 shares were released for allocation to participants. As of December 31, 2024, 45,171 shares were allocated to participants, and 454,829 shares were unallocated, respectively. No shares were allocated to participants as of December 31, 2023.

Payment of Benefits

The benefit to which a participant is entitled is the vested balance of their account. Upon termination of service, death, disability or retirement, a participant will receive cash distributions of their account balance in accordance with the Plan provisions and Plan amendments.

The Plan provides for a lump sum distribution to be made of the entire vested interest in the participant's account provided that the balance in the participant's account is not in excess of \$7,000 on the last day of the Plan year in the year of termination.

Under the provisions of the Plan, the Company and the Plan have the right of first refusal to repurchase participant shares which have been distributed under the terms of the Plan. During the plan year ended December 31, 2024, 2,009 of shares were repurchased and allocated to participants.

The Plan allows distributions in the form of Company stock so long as the Company immediately redeems the share of Company stock for cash at the price as determined by the valuation determined prior to the distribution. During the plan year ended December 31, 2024 and 2023, no shares were distributed to participants and immediately repurchased by the Company.

Voting Rights

Each participant is entitled to exercise voting rights attributable to the shares allocated to his or her account and is notified by the Trustee prior to the time that such rights are to be exercised. The Trustee is permitted to vote any allocated share for which timely instructions have not been given by a participant. The Trustee is required, however, to vote any unallocated shares on behalf of the collective best interest of plan participants and beneficiaries.

Termination

The Plan was established with the intention that it will continue indefinitely. However, the Company reserves the right to terminate the Plan at any time, subject to Plan provisions. In the event of a plan termination, participants will become 100% vested in their account balances.

ARMSTRONG AIR AND ELECTRIC, INC. EMPLOYEE STOCK OWNERSHIP PLAN

NOTES TO FINANCIAL STATEMENTS

DECEMBER 31, 2024 and 2023

**A. PLAN DESCRIPTION (CONTINUED)**

Participant Accounts

The Plan is a defined contribution plan under which a separate individual account is established for each participant. Each participant's account is credited with a proportionate allocation of (a) the Company's contributions, (b) forfeitures of terminated participants' non-vested accounts, (c) plan earnings, and (d) Company's common stock released by the trustee from the unallocated account.

The Company's contributions may consist of acquisition indebtedness contributions and cash or common stock contributions and are allocated to active participants based on the percentage that their eligible compensation is representative to total eligible compensation. In order to be eligible for the Company's contributions, a participant must be employed by the Company on the last day of the plan year. F

Net appreciation of Company common stock, as determined by an independent appraiser, is allocated based on the number of shares held by the participants at year-end multiplied by the change in the per share value.

Other investment earnings, including interest and dividend income, net of plan expenses (if any) are allocated to participants based on the percentage that their other investment account balance as of the first day of the plan year.

Vesting

Participants become 100% vested in their accounts upon death, disability, or attainment of normal retirement age. Otherwise participants' interest in Company contributions and earnings thereon vests as follows:

<u>Years of Service</u>	<u>Percentage</u>
Less than 2	0%
2	20%
3	40%
4	60%
5	80%
6	100%

Put Option

Under federal income tax regulations, employer stock that is held by the Plan and its participants and is not readily tradable on an established market, or is subject to trading limitations, includes a put option. The put option is a right to demand that the Company buy any shares of its stock distributed to participants for which there is no market. The put price is representative of the fair market value of the stock. The Company may choose to pay for the purchase over a period of five years. The purpose of the put option is to ensure that the participant has the ability to ultimately obtain cash.

Diversification

Diversification is offered to participants close to retirement so that they may have the opportunity to move part of the value of their investment in Company stock into investments which are more diversified. Participants who are at least age 55 with at least 10 years of participation in the Plan may elect to diversify a portion of their account. Diversification is offered to each eligible participant over a six-year period. In each of the first five years, a participant may diversify up to 25% of the number of shares allocated to his or her account less any shares previously diversified. In the sixth year, the percentage changes to 50%. During the years ended December 31, 2024 and 2023, there were no diversification payments elected by participants.

The election to diversify must be made within 90 days subsequent to the plan year end in which the participant became eligible to elect to diversify. Upon their election to diversify, they receive their cash distribution directly.

Forfeitures

When certain terminations of participation in the Plan occur, the nonvested portion of a participant's account represents a forfeiture, as defined by the Plan. Plan forfeitures are allocated to each eligible participant's account based upon the relation of the participant's compensation to total compensation for the Plan year. During the years ended December 31, 2024 and 2023, there were \$10,208 and \$- of forfeitures allocated to participants.

NOTES TO FINANCIAL STATEMENTS  
DECEMBER 31, 2024 and 2023

**B. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

Basis of Accounting

The financial statements of the Plan are prepared using the accrual method of accounting.

Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of changes in net assets available for benefits during the reporting period. Actual results could differ from those estimates. Significant estimates included the valuation of Company common stock.

Allocations

The financial statements of the Plan present separately the assets and liabilities and changes therein pertaining to (a) the accounts of employees with rights in allocated stock ("allocated") and (b) stock not yet allocated to employees ("unallocated"), including shares that are committed to be released. Shares are released from collateral and become allocated generally in the period in which debt service is actually paid.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants on the measurement date. See Note F for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Realized gains and losses from security transactions are reported on the average cost method. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Risks and Uncertainties

The Plan invests in the common stock of the Company, which is exposed to various risks, such as interest rate risk, credit risk and market risks, as well as valuation assumptions based on earnings, cash flows or other techniques. Due to the level of risk associated with this investment and to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in the value of this investment will occur in the near term and that such changes could materially affect the amounts reported in the statement of net assets available for benefits.

Administrative Expenses

As provided in the plan agreement, administrative expenses may be paid either by the Plan or by the Company. The Company has historically paid the operating expenses for the Plan.

Payment of Benefits

Benefits are recorded when paid.

Subsequent Events

The Company has evaluated subsequent events through September 23, 2025, the date these financial statements were available for issuance.

**C. TAX STATUS**

The Internal Revenue Service ("IRS") has determined in its letter dated August 7, 2024, that the Plan is designed in accordance with applicable sections of the Internal Revenue Code. The plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and therefore believes that the Plan is qualified and the related trust is tax-exempt. Accordingly, no provision for taxes has been recorded in the Plan's financial statements.

ARMSTRONG AIR AND ELECTRIC, INC. EMPLOYEE STOCK OWNERSHIP PLAN

NOTES TO FINANCIAL STATEMENTS

DECEMBER 31, 2024 and 2023

**C. TAX STATUS (CONTINUED)**

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain tax position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2024, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

**D. ADMINISTRATION OF PLAN ASSETS**

The Plan's assets, which consists primarily of Company common stock, is held by the trustee of the Plan. Company contributions are held and managed by the trustee, which invests cash received and dividend income and makes distributions to participants and scheduled loan repayments.

**E. INVESTMENTS**

The following presents investments in the Company's common shares at December 31, 2024 and 2023:

	December 31, 2024		December 31, 2023	
	Allocated	Unallocated	Allocated	Unallocated
Number of Shares	45,171	454,829	-	-
Cost	\$ 1,863,755	\$ 18,765,639	\$ -	\$ -
Estimated Fair Value	\$ 229,470	\$ 2,310,530	\$ -	\$ -

**F. FAIR VALUE MEASUREMENTS**

The Financial Accounting Standards Board provides the framework for measuring fair value. That Framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under this framework are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

NOTES TO FINANCIAL STATEMENTS  
DECEMBER 31, 2024 and 2023

**F. FAIR VALUE MEASUREMENTS (CONTINUED)**

Following is a description of the valuation methodology used for assets measured at fair value at December 31, 2024 and 2023:

*Company common stock:* The fair value of the Company's common stock was determined by an independent appraisal. This appraisal was based upon a combination of the income and market valuation techniques. The asset-based approach was not used as it provides no consideration of earnings. The appraiser took into account historical and projected cash flow and market comparables. Plan management has concluded that a market participant would also recognize a discount for lack of marketability. This investment is classified within level 3 of the valuation hierarchy because the asset value is not based on an active market with quoted prices and was determined using observable and unobservable inputs. As of December 31, 2024 and 2023, the fair value per share was \$5.08 and \$0.55, respectively.

The preceding method described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The Company's stock is valued at Level 3 at December 31, 2024 and 2023.

The following table presents a summary of changes in the fair value of the Plan's level 3 assets for the years ended December 31, 2024 and 2023:

January 1, 2023	\$ -
Contributions	1,700,000
December 31, 2023	<u>1,700,000</u>
Net Appreciation	(18,089,394)
Contributions	1,228,713
Interest Expense	(692,928)
December 31, 2024	<u><u>\$ (15,853,609)</u></u>

**G. NOTE PAYABLE**

On February 16, 2024, the Plan entered into a \$20,629,394 term loan agreement with Armstrong Air and Electric, Inc. The proceeds of the loan were used to purchase Company common stock. Unallocated shares are collateral for the loan. Shares are released from collateral and allocated to participants as payments of principal and interest are made. The number of shares released in any year is the number of shares held as collateral, times the ratio of the current year payments divided by the total of the current years payments, plus all future years' principal and interest payments. This resulted in 45,171 shares being released and allocated for the plan year ended December 31, 2024.

The loan bears interest at a fixed rate of 4.18%. The Plan must make principal and interest payments of at least \$1,228,713 annually through 2048. The Plan may prepay the loan at any time without penalty.

**H. PARTY-IN-INTEREST-TRANSACTIONS**

The Plan allows for transactions with certain parties who may perform services or have fiduciary responsibilities to the Plan. Such parties are parties-in-interest under ERISA. Plan invests in Company common stock and has indebtedness to the Company. The Company paid certain administrative expenses of the Plan. These transactions qualify as party in interest transactions for which a statutory exemption exists.
