INDEPENDENT AUDITOR'S REPORT

To the Plan Administration Committee
Factory Pension Plan of Danfoss Power Solutions (LaSalle) and International Union, United Automobile,
Aerospace and Agricultural Implement Workers of America, and its Local Union No. 285

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of Factory Pension Plan of Danfoss Power Solutions (LaSalle) and International Union, United Automobile, Aerospace and Agricultural Implement Workers of America, and its Local Union No. 285 (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of December 31, 2024 and 2023, the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of December 31, 2024 and 2023, and for the years then ended, stating that the certified investment information, as described in Note 4 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section:

- The amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America (GAAP).
- The information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Emphasis of Matter – Subsequent Event

As discussed in Note 7 to the financial statements, in 2025, the Danfoss Employee Benefit Committee voted to merge the Plan into the Danfoss Power Solutions Employees' Retirement Plan (ERP Plan) by December 31, 2025. The Plan will transfer its net assets into the ERP Plan and will cease operations as of that date. Our opinion is not modified with respect to this matter.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current Plan instrument, including all Plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of GAAP.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with GAAP.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control related matters that we identified during the audit.

Other Matter

Supplemental Schedules Required by ERISA

The supplemental schedule of assets (held at end of year) as of December 31, 2024 and schedule of reportable transactions for the year ended December 31, 2024 are presented for purposes of additional analysis and are not a required part of the financial statements but are supplemental information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedules, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedules that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, other than the information agreed to or derived from the certified investment information, including their form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- The form and content of the supplemental schedules, other than the information in the supplemental schedules that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- The information in the supplemental schedules related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

NOTE 1 — DESCRIPTION OF PLAN

The following description of the Factory Pension Plan of Danfoss Power Solutions (LaSalle) and International Union, United Automobile, Aerospace and Agricultural Implement Workers of America, and its Local Union No. 285 (the Plan), provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

General

The Plan is a defined benefit plan which covered any person regularly employed by Danfoss Power Solutions (US) Company (the Company) at its LaSalle, Illinois manufacturing facility, whose employment was within the unit covered by the collective bargaining agreement between the Company and Local Union No. 285 of International Union, United Automobile, Aerospace and Agricultural Implement Workers of America. Persons employed on a part-time, temporary, or irregular basis were excluded from coverage unless they were credited with 1,000 hours or more of service under the Plan during any consecutive twelve-month period.

The Company closed its LaSalle, Illinois manufacturing facility in February 2007. As a result, there are no active employee participants in the Plan as of December 31, 2024 or December 31, 2023, and the Plan does not accept new participants. The Plan continues to operate for those participants who have previously accrued benefits under the Plan.

Plan Administration

The Plan is administered by the Plan Administration Committee of the Company (the Plan Administrator).

Trustee and Investment Managers

State Street Bank and Trust Company (State Street) has been designated as trustee and custodian of the Plan. SEI Investments Management Corporation (SEI), an affiliate of State Street, serves as investment manager for the Plan.

Contributions

The Plan is noncontributory on the part of the participants. Contributions from the Company are actuarially determined and accrued annually. Interest, dividends, and realized and unrealized gains on investments serve to reduce future contributions that would otherwise be required to provide the defined level of benefits under the Plan. The Plan has met the minimum funding requirements established by ERISA for 2024 and 2023.

NOTE 1 — DESCRIPTION OF PLAN (Continued)

Payment of Benefits

Benefits are paid to participants under one of two primary methods, depending upon the participant's hire date and certain elective provisions of the Plan.

Cash Balance Employees, as defined in the Plan, accrued a benefit based on a cash balance formula. The cash balance formula amount is converted to an annuity payment stream at the time a Cash Balance Employee is eligible to receive payment of benefits under the Plan.

Cash Balance Employees include employees:

- Who were hired by the Company on or after October 29, 1997; or
- Who made a one-time election to cease and waive future benefit accruals under the multiplier formula and to begin accruing benefits, if any, under the cash balance formula.

Cash Balance Employees have a notional account established and maintained on their behalf and is adjusted annually based on the annual interest rate credited and the participant's account balance at the beginning of the Plan year.

Participants who do not meet the definition of Cash Balance Employees receive a benefit under the multiplier formula set forth in the Plan. The amount of this benefit is based on the participant's years of service, age, benefit election, and the applicable benefit rate in effect at the date of retirement.

Participants who made a one-time election to cease and waive future benefit accruals under the multiplier formula and to begin accruing benefits, if any, under the cash balance formula, will receive a portion of their retirement benefit under the cash balance formula and a portion of their retirement benefit under the multiplier formula.

Plan Expenses

Trustee and investment manager fees of \$65,123 and \$70,706 were paid directly by the Plan for the years ended December 31, 2024 and 2023, respectively.

Actuarial fees, bonding fees, audit fees, legal fees, and other miscellaneous expenses are paid by the Company.

Pension Benefit Guaranty Corporation (PBGC) premiums of \$25,250 and \$24,960 were paid by the Plan for the years ended December 31, 2024 and 2023, respectively.

NOTE 2 — SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation

The accompanying financial statements have been prepared on an accrual basis in accordance with accounting principles generally accepted in the United States of America (GAAP) and present the net assets available for benefits and changes in those assets.

Use of Estimates

The preparation of financial statements in conformity with GAAP requires the Plan Administrator to make certain estimates and assumptions that affect the reported amounts of assets and changes therein, and disclosures of contingent assets and liabilities. Actual results could differ from those estimates.

Valuation of Investments

Investments are reported at fair value. Fair value is defined as the price that would be received to sell an asset in an orderly transaction between market participants at the measurement date. See Note 3 for discussion of fair value measurements. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) in fair value of investments includes both realized gains and losses from sales and unrealized market gains and losses. Certain investment-related expenses are included within net appreciation (depreciation) in fair value of investments.

Exempt Party In Interest Transactions

Certain Plan investments are funds managed by State Street and SEI, the Trustee and investment manager of the Plan, respectively. Transactions with these funds qualify as exempt party in interest transactions. As described in Note 1, the Plan paid certain expenses related to Plan operations and investment activity to various service providers. These transactions are party in interest transactions under ERISA.

Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the value of investment balances will occur in the near term and that such changes will materially affect the amounts reported in the statements of net assets available for benefits.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimation and assumption process, it is at least reasonably possible that changes in these estimates and assumptions in the near term could materially affect the amounts reported and disclosed in the financial statements.

NOTE 2 — SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Tax Status

The Plan obtained its latest determination letter on February 9, 2017, in which the Internal Revenue Service (IRS) states that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code (IRC). Continued qualification of the Plan will depend on the operation of the Plan in compliance with the IRC. The Plan Administrator believes the Plan is currently designed and being operated in compliance with applicable requirements of the IRC.

GAAP requires plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the plan has taken an uncertain position that would more likely than not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

NOTE 3 — FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. These categories include (in descending order of priority): Level 1, defined as observable inputs such as quoted prices in active markets; Level 2, defined as inputs other than quoted prices in active markets that are either directly or indirectly observable; and Level 3, defined as unobservable inputs in which little or no market data exists, therefore requiring an entity to develop its own assumptions.

The asset's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2024 and 2023.

- *Short Term Investment Fund*: Valued based on quoted redemption prices, also known as net asset value (NAV) of units of the fund held by the Plan. The NAV is determined by using available market information and appropriate valuation methods, as provided by the custodian and represents the value at which the Plan could initiate a transaction with the custodian. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. There are no unfunded commitments or redemption restrictions related to the investment.
- *Mutual funds*: Valued based on quoted prices of identical assets in active markets.
- *U.S. government securities*: Valued using independent pricing services. The independent pricing services incorporate a variety of observable market data in their valuation techniques, including current yields of similar instruments, credit risks, and liquidity risks.

NOTE 3 — FAIR VALUE MEASUREMENTS (Continued)

The preceding methods described may produce a fair value calculation that may not be indicative of the net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables show assets measured at fair value as of December 31, 2024 and 2023 on the Plan's statements of net assets available for benefits and the input categories associated with those assets:

Description	Investments at Fair Value as of December 31, 2024

NOTE 4 — INFORMATION CERTIFIED BY STATE STREET

Information related to investments disclosed in the accompanying financial statements, their notes, and supplemental schedules, including investments and cash held at December 31, 2024 and 2023, and dividends, interest and net appreciation (depreciation) in fair value of investments for the years then ended, was obtained and derived from information supplied to the Plan Administrator and certified as complete and accurate by State Street.

NOTE 5 — ACCUMULATED PLAN BENEFITS

Accumulated plan benefits are those future periodic payments that are attributable under the Plan's provisions to services rendered by the employees through the most recent actuarial valuation date, January 1, 2024. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries and (b) beneficiaries of employees who have died.

Benefits for retired or terminated employees or their beneficiaries were based on employees' years of credited participation.

NOTES TO FINANCIAL STATEMENTS
December 31, 2024 and 2023

NOTE 5 — ACCUMULATED PLAN BENEFITS (Continued)

Mercer, consulting actuary for the Plan, determined the actuarial present value of accumulated plan benefits as of January 1, 2024 which is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment.

The accumulated plan benefits information as of January 1 was as follows:

	<u>2024</u>	<u>2023</u>
Actuarial present value of accumulated plan benefits:		
Vested benefits:		
Participants currently receiving payments	\$ 17,859,547	18,917,189
Other participants	<u>1,297,910</u>	<u>1,299,689</u>
	19,157,457	20,216,878
Nonvested benefits	<u>-</u>	<u>-</u>
Total actuarial present value of accumulated plan benefits	<u>\$ 19,157,457</u>	<u>\$ 20,216,878</u>

The changes in accumulated plan benefits for the years ended January 1 were as follows:

	<u>2024</u>	<u>2023</u>
Actuarial present value of accumulated plan benefits at January 1 of previous year	<u>\$ 20,216,878</u>	<u>\$ 23,373,605</u>
Increase (decrease) during the year attributable to:		
Interest	769,133	668,951
Benefits accumulated	(3,537)	(131,879)
Benefits paid	(1,825,017)	(1,985,071)
Change in actuarial assumptions	<u>-</u>	<u>(1,708,728)</u>
Net decrease	<u>(1,059,421)</u>	<u>(3,156,727)</u>
Actuarial present value of accumulated plan benefits at January 1	<u>\$ 19,157,457</u>	<u>\$ 20,216,878</u>
Net assets available for benefits at January 1	<u>\$ 20,784,763</u>	<u>\$ 21,335,446</u>

The actuarial cost method used in preparing the January 1, 2024 and 2023 actuarial valuation is the "unit credit method." Had the valuations been performed as of December 31, there would be no material differences. Following are the significant assumptions underlying the actuarial computations at January 1, 2024 and 2023:

- 1) Discount rate of 4.00% at January 1, 2024 and 2023.
- 2) Rates based on standard actuarial tables, (in 2024 and 2023, based on pri-2012 separate annuitant/non-annuitant tables, with generational improvement projected using scale MP-2021).

The foregoing assumptions were used assuming that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

NOTE 6 — PLAN TERMINATION

While the Company has not expressed any intent to terminate the Plan or to discontinue contributions, it is free to do so at any time, subject to the provisions set forth in ERISA.

If the Plan is terminated for any reason other than the bankruptcy or near bankruptcy of the Company, and the Plan has insufficient assets, the Company will be required to pay to the Plan an amount which, together with Plan assets, will satisfy all benefits accumulated to the date of the Plan termination.

If the Plan is terminated as a result of the bankruptcy or near bankruptcy of the Company, the PBGC will take over the Plan and will pay those benefits which it guarantees. The extent to which a particular participant's accumulated plan benefits will be paid depends on available Plan assets, the priority of benefits (as described in the Plan), and the level of benefits guaranteed by the PBGC at that time.

NOTE 7 — SUBSEQUENT EVENTS

The Plan evaluated all subsequent events through October 2, 2025, the date the financial statements were available to be issued.

Subsequent to year end, the Danfoss Employee Benefit Committee of the Plan Administrator approved the merger of the Plan with an affiliated plan, Danfoss Power Solutions Employees' Retirement Plan by December 31, 2025. The Plan document amendment is still pending as of the financial statement report date.

Actuarial methods for funding

Asset methods

The asset valuation method is an average of the adjusted market value for each year during the last two years preceding the valuation date. The adjusted market value is the market value at each determination date adjusted to the valuation date based on actual cash flows and expected interest at the lesser of the expected rate of return and the third segment rate. This amount is adjusted to be no greater than 110% and no less than 90% of the fair market value, as defined in IRC Section 430.

A characteristic of this asset method is that, over time, it is slightly more likely to produce an actuarial value of assets that is less than the market value of assets than an actuarial value that is greater than the market value.

Participant methods

Participants or former participants are included or excluded from the valuation as described below:

- **Participants included:** The plan sponsor provides us with data on all eligible employees as of the valuation date.
- **Participants excluded:** No actuarial liability is included for nonvested participants who terminated prior to the valuation date.
- **Insurance contracts:** The plan does not have any insurance contracts.

Minimum funding methods

The funding target for minimum funding calculations is computed using the traditional unit credit method of funding. The objective under this method is to fund each participant’s benefits under the plan as they accrue. Thus, the total pension to which each participant is expected to become entitled at retirement is broken down into units, each associated with a year of past or future credited service.

A detailed description of the calculation follows:

- The plan’s valuation date is the beginning of the plan year.

Schedule SB, Part V — Statement of Actuarial Assumptions/Methods

- An individual's **funding target** is the present value of future benefits based on credited service and average pay as of the beginning of the plan year, and an individual's **target normal cost** is the present value of the benefit expected to accrue in the plan year. If multiple decrements are used, the funding target and the target normal cost for an individual is the sum of the component funding targets and target normal costs associated with the various anticipated separation dates.
- The plan's **target normal cost** is the sum of the individual target normal costs, and the plan's **funding target** is the sum of the individual funding targets for all participants under the plan.

Statement by Enrolled Actuary
To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Miscellaneous	None

Benefits included or excluded

Unless noted below, all benefits provided by the plan are included in this valuation.

- **Most recent plan amendments included:** This valuation reflects provisions as amended and restated effective January 1, 2014. Amendments adopted after the valuation date or effective after the current plan year are excluded from the valuation.
- **Plan amendments excluded:** None
- **Late retirement increases:**
 - *Deferred vested participants:* Current deferred vested participants over normal retirement age are valued including the late retirement actuarial increase.
- **Internal Revenue Code limitations:** We have determined that participant benefits are not materially impacted by the limitations of Internal Revenue Code Section 415(b); therefore they have not been incorporated into our calculations.
- **IRC Section 416 rules for top-heavy plans:** We did not test whether this plan is top-heavy (when the present value of benefits for key employees equals or exceeds 60% of the present value for all participants). However, we expect that the plan is not top-heavy due to the large number of rank-and-file participants; therefore, the funding target and target normal cost do not reflect any liability for top-heavy benefit accruals.

Schedule SB, Part V — Summary of Plan Provisions

Plan provisions specific to funding

Additional benefits included or excluded

• **IRC Section 436 benefit restrictions:**

- *Unpredictable contingent event benefits:* The plan does not have any unpredictable contingent event benefits.
- *Plan amendments:* See above.
- *Prohibited payments:* Limitations on prohibited benefits (if any) are reflected for annuity starting dates before the valuation date but are ignored for annuity starting dates on or after the valuation date.
- *Benefit accruals:* The plan's funding target *does not reflect any limitation on benefit accruals.* The target normal cost does not reflect any limitation on benefit accruals.

Plan provision changes since prior valuation

None.
