INDEPENDENT AUDITOR'S REPORT

To the Plan Administration Committee
Danfoss Power Solutions Employees' Retirement Plan

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of Danfoss Power Solutions Employees' Retirement Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of December 31, 2024 and 2023, the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of December 31, 2024 and 2023, and for the years then ended, stating that the certified investment information, as described in Note 4 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section:

- The amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America (GAAP).
- The information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current Plan instrument, including all Plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.

- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of GAAP.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with GAAP.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control related matters that we identified during the audit.

Other Matter

Supplemental Schedules Required by ERISA

The supplemental schedule of assets (held at end of year) as of December 31, 2024 and schedule of reportable transactions for the year ended December 31, 2024 are presented for purposes of additional analysis and are not a required part of the financial statements but are supplemental information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedules, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedules that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, other than the information agreed to or derived from the certified investment information, including their form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- The form and content of the supplemental schedules, other than the information in the supplemental schedules that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- The information in the supplemental schedules related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

NOTE 1 — DESCRIPTION OF PLAN

The following description of the Danfoss Power Solutions Employees' Retirement Plan (the Plan), provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

General

The Plan is a defined benefit plan, which covers persons regularly employed by Danfoss Power Solutions (US) Company and certain related corporations (collectively, the Company). Prior to January 1, 2018, employees began participation in the Plan following six months of service with the Company, and became 100% vested at the completion of three years of qualifying service. Persons covered by any collective bargaining agreement that included retirement benefits, as a subject of the good faith bargaining effort, are excluded from coverage under the Plan.

The Plan was amended to freeze further accumulation of benefits by Cash Balance Employees, as defined in the Plan, effective January 1, 2018. Participants continue to be entitled to benefits earned prior to December 31, 2017. Participants who did not meet the definition of a Cash Balance Employee continue to accrue benefits under the final average pay formula.

Effective August 1, 2021, the Plan was amended to cover certain Danfoss Power Solutions II, LLC (DPS II) employees that were part of the Eaton Hydraulics asset purchase. New benefits began accruing as of August 3, 2021 for specific identifiable groups, which are detailed in amendments to the Plan document. The Plan remains closed to new DPS II employees, with the exception of Eden Prairie collective bargaining employees.

Plan Administration

The Plan is administered by the Plan Administration Committee of the Company (the Plan Administrator).

Trustee and Investment Managers

State Street Bank and Trust Company (State Street) has been designated as trustee and custodian of the Plan. SEI Investments Management Corporation (SEI), an affiliate of State Street, serves as investment manager for the Plan.

Contributions

The Plan is noncontributory on the part of participants. Contributions from the Company are actuarially determined and accrued annually. Interest, dividends, realized and unrealized gains on investments serve to reduce future contributions that would otherwise be required to provide the defined level of benefits under the Plan. The Plan has met the minimum funding requirements established by ERISA for 2024 and 2023.

NOTE 1 — DESCRIPTION OF PLAN (Continued)

Payment of Benefits

Benefits are paid to participants under one of two primary methods, depending upon a participant's hire date, location of hire, and certain elective provisions of the Plan.

Cash Balance Employees accrued a benefit based solely on a cash balance formula in 2024 and 2023. The cash balance formula amount is converted to an annuity payment stream at the time a participant is eligible to receive payment of benefits under the Plan.

Cash Balance Employees include employees:

- Who were hired by the Company after October 1, 2000; or
- Who were employed at the Company's West Branch, Iowa or Easley, South Carolina locations prior to October 2, 2000; or
- Who were employed by Sauer-Danfoss (NA) Company prior to October 2, 2000; or
- Who made a one-time election to cease benefit accruals under the final average pay formula effective December 31, 2000 and to begin accruing benefits, if any, under the cash balance formula effective on January 1, 2001; or
- Who became participants in the Plan as the result of the adoption of the Plan by Sauer-Danfoss (Hillsboro) Company effective on January 1, 2002.

Cash Balance Employees have a notional account established and maintained on their behalf and is credited annually with interest. Prior to January 1, 2018, participant accounts were credited annually based on eligible pay during the Plan year.

Participants who do not meet the definition of Cash Balance Employees continue to receive a benefit based, in part, on final average pay. The benefit provided to these participants at retirement is based on the participant's years of service, compensation levels, age, benefit election, primary Social Security benefit, and the applicable benefit rate in effect at the date of retirement.

Participants who made the special, one-time election to cease benefit accruals under the final average pay formula effective December 31, 2000 and began accruing benefits, if any, under the cash balance formula effective on January 1, 2001, will receive a portion of their retirement benefit under the cash balance formula and a portion of their retirement benefit under the final average pay formula.

Effective January 1, 2023, the Plan was amended to have the periodic unit dollar increase as established by the collective bargaining agreement. Unit dollar increases will escalate from \$35.75 as of August 13, 2021 to \$38.25 as of January 1, 2026 for new retirees.

Plan Expenses

Trustee and investment manager fees of \$363,434 and \$370,512 were paid directly by the Plan for the years ended December 31, 2024 and 2023, respectively.

Actuarial fees, bonding fees, audit fees, legal fees, and other miscellaneous expenses are paid by the Company.

Plan Expenses (Continued)

For the year ended December 31, 2024, the Plan did pay actuarial recordkeeping fees of \$42,667. No such fees were paid by the Plan for the year ended December 31, 2023.

Pension Benefit Guaranty Corporation (PBGC) premiums of \$312,868 and \$683,324 were paid by the Plan for the years ended December 31, 2024 and 2023, respectively.

NOTE 2 — SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation

The accompanying financial statements have been prepared on the accrual basis in accordance with accounting principles generally accepted in the United States of America (GAAP) and present the net assets available for benefits and changes in those assets.

Use of Estimates

The preparation of financial statements in conformity with GAAP requires the Plan Administrator to make certain estimates and assumptions that affect the reported amounts of assets and changes therein, and disclosures of contingent assets and liabilities. Actual results could differ from those estimates.

Valuation of Investments

Investments are reported at fair value. Fair value is defined as the price that would be received to sell an asset in an orderly transaction between market participants at the measurement date. See Note 3 for discussion of fair value measurements. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) in fair value of investments includes both realized gains and losses from sales and unrealized market gains and losses. Certain investment-related expenses are included within net appreciation (depreciation) in fair value of investments.

Exempt Party In Interest Transactions

Certain Plan investments are funds managed by State Street and SEI. Transactions with these funds qualify as exempt party in interest transactions. As described in Note 1, the Plan paid certain expenses related to Plan operations and investment activity to various service providers. These transactions are party in interest transactions under ERISA.

**DANFOSS POWER SOLUTIONS
EMPLOYEES' RETIREMENT PLAN
NOTES TO FINANCIAL STATEMENTS
December 31, 2024 and 2023**

NOTE 2 — SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the value of investment balances will occur in the near term and that such changes will materially affect the amounts reported in the statements of net assets available for benefits.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimation and assumption process, it is at least reasonably possible that changes in these estimates and assumptions in the near term could materially affect the amounts reported and disclosed in the financial statements.

Tax Status

The Plan obtained its latest determination letter on February 9, 2017, in which the Internal Revenue Service (IRS) states that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code (IRC). Continued qualification of the Plan will depend on the operation of the Plan in compliance with the IRC. Although the Plan has been amended since receiving the determination letter, the Plan Administrator and Plan's tax counsel believe that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC and, therefore, believe that the Plan is qualified, and the related trust is tax-exempt.

GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that would, more likely than not, be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

NOTE 3 — FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. These categories include (in descending order of priority): Level 1, defined as observable inputs such as quoted prices in active markets; Level 2, defined as inputs other than quoted prices in active markets that are either directly or indirectly observable; and Level 3, defined as unobservable inputs in which little or no market data exists, therefore requiring an entity to develop its own assumptions.

The asset's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2024 and 2023.

DANFOSS POWER SOLUTIONS
EMPLOYEES' RETIREMENT PLAN
NOTES TO FINANCIAL STATEMENTS
December 31, 2024 and 2023

NOTE 3 — FAIR VALUE MEASUREMENTS (Continued)

- *Short Term Investment Fund:* Valued based on quoted redemption prices, also known as net asset value (NAV) of units of the fund held by the Plan. The NAV is determined by using available market information and appropriate valuation methods, as provided by the custodian and represents the value at which the Plan could initiate a transaction with the custodian. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. There are no unfunded commitments or redemption restrictions related to the investment.
- *Mutual funds:* Valued based on quoted prices of identical assets in active markets.
- *U.S. government securities:* Valued using independent pricing services. The independent pricing services incorporate a variety of observable market data in their valuation techniques, including current yields of similar instruments, credit risks, and liquidity risks.

The preceding methods described may produce a fair value calculation that may not be indicative of the net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables show assets measured at fair value as of December 31, 2024 and 2023 on the Plan's statements of net assets available for benefits and the input categories associated with those assets:

NOTE 4 — INFORMATION CERTIFIED BY STATE STREET

Information related to investments disclosed in the accompanying financial statements, their notes, and supplemental schedules, including investments and cash held at December 31, 2024 and 2023, and dividends, interest, and net appreciation (depreciation) in fair value of investments for the years then ended, was obtained and derived from information supplied to the Plan Administrator and certified as complete and accurate by State Street.

NOTE 5 — ACCUMULATED PLAN BENEFITS

Accumulated plan benefits are those future payments that are attributable under the Plan's provisions to services rendered by the employees prior to the most recent actuarial valuation date, January 1, 2024.

Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries. For Plan participation through December 31, 1986, benefits for retired or terminated employees or their beneficiaries were based on employees' compensation over their highest three-year compensation period of credited participation. For Plan participation on or after January 1, 1987, benefits for retired or terminated employees or their beneficiaries are based on employees' compensation over their highest five-year compensation period of credited participation, except where such benefits are computed using the cash balance formula (Note 1).

Mercer, consulting actuary for the Plan, determined the actuarial present value of accumulated plan benefits as of January 1, 2024, which is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment.

The accumulated plan benefits information as of January 1 was as follows:

	<u>2024</u>	<u>2023</u>
Actuarial present value of accumulated plan benefits:		
Vested benefits:		
Participants currently receiving payments	\$ 98,640,081	\$ 94,314,138
Other participants	<u>53,529,414</u>	<u>55,329,673</u>
	152,169,495	149,643,811
Nonvested benefits	<u>953,418</u>	<u>1,349,749</u>
Total actuarial present value of accumulated plan benefits	<u>\$ 153,122,913</u>	<u>\$ 150,993,560</u>

The changes in accumulated plan benefits for the years ended January 1 were as follows:

	<u>2024</u>	<u>2023</u>
Actuarial present value of accumulated plan benefits at January 1 of previous year	<u>\$ 150,993,560</u>	<u>\$ 159,374,273</u>

NOTE 5 — ACCUMULATED PLAN BENEFITS (Continued)

The actuarial cost method used in preparing the January 1, 2024 and 2023 actuarial valuation is the "unit credit method". Had the valuations been performed as of December 31, there would be no material differences. Following are the significant assumptions underlying the actuarial computations at January 1, 2024 and 2023:

- 1) Discount rate of 5.00% and 5.25% at January 1, 2024 and January 1, 2023, respectively.
- 2) Rates based on standard actuarial tables (in 2024 and 2023, based on Pri-2012 separate annuitant/non-annuitant sex-distinct mortality tables projected generationally with scale MP-2021).
- 3) Cash balance interest rate of 5.44% and 3.89% at January 1, 2024 and January 1, 2023, respectively.
- 4) Benefit commencement age of 63 as of January 1, 2024 and 2023.
- 5) Future salary increases based on 2012 experience study with rates from 3.25% - 8.80% based on age.
- 6) Annual retirement rate assumptions as of January 1:

<u>2024</u>	<u>2023</u>	
10 %	10 %	age 55
5	5	ages 56 through 61
20	20	ages 62 through 64
50	50	age 65
40	40	ages 66 through 69
100	100	age 70

The foregoing assumptions were used assuming that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

NOTE 6 — PLAN TERMINATION

While the Company has not expressed any intent to terminate the Plan or to discontinue contributions, it is free to do so at any time, subject to the provisions set forth in ERISA. Should the Plan be terminated at some future time, all participants become 100% vested in benefits earned as of the termination date.

**DANFOSS POWER SOLUTIONS
EMPLOYEES' RETIREMENT PLAN
NOTES TO FINANCIAL STATEMENTS
December 31, 2024 and 2023**

NOTE 6 — PLAN TERMINATION (Continued)

If the Plan is terminated for any reason other than the bankruptcy or near bankruptcy of the Company and the Plan has insufficient assets, the Company will be required to pay to the Plan an amount which, together with Plan assets, will satisfy all benefits accumulated to the date of the Plan termination.

If the Plan is terminated as a result of the bankruptcy or near bankruptcy of the Company, the PBGC will take over the Plan and will pay those benefits which it guarantees. The extent to which a particular participant's accumulated plan benefits will be paid depends on available Plan assets, the priority of benefits (as described in the Plan), and the level of benefits guaranteed by the PBGC at that time.

NOTE 7 — SUBSEQUENT EVENTS

The Plan evaluated all subsequent events through October 2, 2025, the date the financial statements were available to be issued.

On February 26, 2025 the Plan was amended to have the period unit dollar increase as established by the collective bargaining agreement effective March 1, 2025. Unit dollar increases will escalate from \$46.50 as of March 1, 2021 to \$48.50 as of March 1, 2025 for new retirees.

Subsequent to year end, the Danfoss Employee Benefit Committee of the Plan Administrator approved the merger of an affiliated plan, Factory Pension Plan of Danfoss Power Solutions (LaSalle) and International Union, United Automobile, Aerospace and Agricultural Implement Workers of America, and its Local Union No. 285, into the Plan by December 31, 2025. The Plan document amendment is still pending as the financial statement report date.

Schedule SB, Part V — Statement of Actuarial Assumptions/Methods

Actuarial assumptions for funding valuation

Discount rate sponsor elections

• Segment rates or full yield curve	Full yield curve
• Look-back months	0
Rationale: Assumption is prescribed by the IRS based on plan sponsor elections.	

Mortality sponsor elections

• Healthy participants	Section 430(h)(3) prescribed generational annuitant and nonannuitant mortality tables for 2024 plan year funding valuations. These tables are based on the Pri-2012 mortality tables projected with the IRS-modified MP-2021 mortality improvement scale, in accordance with IRS regulation 1.430(h)(3)-1.
• Pre-1995 disabilities	Same as healthy
• Post-1994 disabilities	Same as healthy
Rationale: Assumption is prescribed by the IRS.	

417(e) lump sums	Liabilities are determined based on the underlying annuity used by the plan to determine the lump sum amount, rather than valuing the lump sum payment. This annuity is valued based on funding interest rates rather than 417(e) rates and current year 417(e) unisex mortality.
-------------------------	---

Cash balance plans

• Interest accumulation rate	Year	Interest Crediting Rate
	2023	3.89%
	2024	5.44%
	2025	4.75%
	2026	4.25%
	2027	3.75%
	2028	3.25%
	2029+	2.75%

Rationale: The long-term interest accumulation assumption is based on the equilibrium yield curve for Treasury securities as published in Mercer Investment Consulting's Capital Market Outlook for January 2023. The rates move from the current rate to the long-term expectation over a 5 year period.

• Whipsaw calculations	No
• Annuity conversion	
– Mortality table	Current year IRC Section 417(e) unisex mortality
– Interest rate basis	Funding segment rates
Rationale: Cash balance conversion applies annuity substitution.	

Other economic assumptions

• Salary increases	See table of sample rates for salary increase rates.

Actuarial methods for funding**Asset methods**

The asset valuation method is an average of the adjusted market value for each year during the last 2 years preceding the valuation date. The adjusted market value is the market value at each determination date adjusted to the valuation date based on actual cash flows and expected interest at the lesser of the expected rate of return and the third segment rate. This amount is adjusted to be no greater than 110% and no less than 90% of the fair market value, as defined in IRC Section 430.

A characteristic of this asset method is that, over time, it is slightly more likely to produce an actuarial value of assets that is less than the market value of assets than an actuarial value that is greater than the market value.

Participant methods

Participants or former participants are included or excluded from the valuation as described below:

- **Participants included:** The plan sponsor provides us with data on all employees as of the valuation date, but only those employees who have completed the plan's eligibility requirements are included in the valuation of liabilities.
- **Participants excluded:** No actuarial liability is included for nonvested participants who terminated prior to the valuation date. For this purpose, participants with a break in service on the valuation date are treated as terminated participants.
- **Insurance contracts:** The plan does not have any insurance contracts.

Minimum funding methods

The funding target for minimum funding calculations is computed using the traditional unit credit method of funding. The objective under this method is to fund each participant's benefits under the plan as they accrue. Thus, the total pension to which each participant is expected to become entitled at retirement is broken down into units, each associated with a year of past or future credited service.

A detailed description of the calculation follows:

- The plan's valuation date is the beginning of the plan year.

Schedule SB, Part V — Statement of Actuarial Assumptions/Methods

- An individual's **funding target** is the present value of future benefits based on credited service and average pay as of the beginning of the plan year, and an individual's **target normal cost** is the present value of the benefit expected to accrue in the plan year. If multiple decrements are used, the funding target and the target normal cost for an individual is the sum of the component funding targets and target normal costs associated with the various anticipated separation dates.
- The plan's **target normal cost** is the sum of the individual target normal costs, and the plan's **funding target** is the sum of the individual funding targets for all participants under the plan.

Statement by Enrolled Actuary
To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Credited service	<p>For any period prior to the Closing Date, an Appendix D Former Eaton Employee's "Credited Service" as defined and taken into account under the Eaton Plan as of the Closing Date on the basis of Eaton Corporation plc personnel records as communicated to the Company.</p> <p>For any period on and after the Closing Date, an Appendix D Former Eaton Employee Service reduced by 1/12th for each complete calendar month included in Service which occurred:</p> <ul style="list-style-type: none"> - Prior to the first day of the calendar month next following such person's 21st birthday; - After such person ceases to be covered under Appendix D of the Plan; - For any period following a termination of Service, irrespective of whether such period may be taken into account as Service upon reemployment; - After the date that such person has accumulated 44 years of Service; - After December 31, 2025; - After the date that such person ceases employment with the Company and becomes employed by a Related Corporation.
Compensation	<p>For any period prior to the Closing Date, "Compensation" as defined and taken into account under the Eaton Plan as of the Closing Date on the basis of Eaton Corporation plc personnel records as communicated to the Company.</p> <p>For any period after the Closing Date, total compensation paid, prior to any reduction in such compensation for contributions to any qualified DC plan, and inclusive of base pay, overtime, shift premiums, commissions, variable pay program compensation, compensation received from any annual incentive compensation plan, holiday pay, lump sum merit increases, jury duty pay and military pay paid by the Company, geographical differential, and bereavement pay.</p> <p>Total compensation will not include attendance awards, Christmas bonus, educational reimbursements, field service payments, fitness center</p>

Schedule SB, Part V — Summary of Plan Provisions

reimbursements, moving expenses, patent awards, publishing awards, referral awards, safety equipment reimbursements, employment sign-on bonus, stay pay, short term and long term disability benefits paid through the disability claims administrator, short term disability benefits that equal less than 100% of base pay, suggestion awards, vacation paid at termination of employment, game changer awards, severance pay, compensation received from any long-term incentive plan, and non-recurring bonuses such as project completion awards, retention bonuses or incentives, and any other special remuneration, including any amounts paid as a result of, or in connection with, the transactions contemplated under the Stock and Asset Purchase Agreement between Eaton Corporation plc, as the seller, and Danfoss A/S, as the buyer, dated as of January 21, 2020.

Total Compensation

For and only for such Credited Service during which the Appendix D Former Eaton Employee is eligible to participate under the Plan, total compensation will be the amount of annual compensation paid in each calendar year, except that with respect to any contingent compensation or executive incentive compensation, other than sales commissions, the amount to be included in total compensation will be the amount accrued for such calendar year and paid during such calendar year or during any subsequent calendar year.

For each expatriate Appendix D Former Eaton Employee who is eligible to participate in the Plan, Considered Compensation will be the sum of (i) his or her hypothetical home country base (HHCB) salary for the calendar year as determined by the Plan Administrator, plus (ii) incentive compensation paid during such calendar year, but elective deferrals of compensation pursuant to nonqualified plans or programs shall be included in the year that the compensation would have been paid but for the elective deferral. The HHCB salary is the annual base salary, including no additional payments that would be paid to the Appendix D Former Eaton Employee in his or her home country for the same position.

If an Appendix D Former Eaton Employee is eligible to participate in the Plan and such employee receives no compensation (or reduced compensation) for any period because he or she is disabled or on an approved leave of absence or temporary absence from active service, the Plan will treat as compensation received by him or her during such period of absence an amount equal to the compensation he or she would have received had he or she not been disabled or absent, such amount to be determined by the Plan Administration Committee upon the basis of the Employee's salary or wage rate in effect immediately prior to such disability or absence.

Schedule SB, Part V — Summary of Plan Provisions**Benefits included or excluded**

Unless noted below, all benefits provided by the plan, are included in this valuation:

- **Most recent plan amendments included:** This valuation reflects provisions of (the second) Amendment 4 of the plan document restated effective January 1, 2015, which increased the benefits under Appendix F for terminations after December 31, 2022. Amendments adopted after the valuation date or effective after the current plan year are excluded from the valuation.
- **Plan amendments excluded:** None.
- **Late retirement increases:**
 - *Active participants:* This valuation does not include increases for current and future participants over age 65; this is not expected to have a material impact on funding target liability.
 - *Deferred vested participants:* Current deferred vested participants over normal retirement age are valued including the late retirement actuarial increase.
- **Internal Revenue Code limitations:** The limitations of Internal Revenue Code Section 415(b) and 401(a)(17) have been incorporated into our calculations.
- **IRC Section 416 rules for top-heavy plans:** We did not test whether this plan is top-heavy (when the present value of benefits for key employees equals or exceeds 60% of the present value for all participants). However, we expect that the plan is not top-heavy due to the large number of rank-and-file participants; therefore, the funding target and target normal cost do not reflect any liability for top-heavy benefit accruals.

Plan provisions specific to funding**Additional benefits included or excluded**

- **IRC Section 436 benefit restrictions:**
 - *Unpredictable contingent event benefits:* This valuation excludes restricted contingent event benefits that occurred before the valuation date but includes contingent event benefits which are expected to occur on or after the valuation date regardless of anticipated funding-based limitations.
 - *Plan amendments:* See above.
 - *Prohibited payments:* Limitations on prohibited benefits (if any) are reflected for annuity starting dates before the valuation date but are ignored for annuity starting dates on or after the valuation date.

Schedule SB, Part V — Summary of Plan Provisions

- *Benefit accruals:* The plan's funding target *does not reflect any limitation*. The target normal cost does not reflect any limitation on benefit accruals.
- **Scheduled benefit increases:** Scheduled benefit increases effective after the end of the current plan year are excluded from minimum funding requirements.

Plan provision changes since prior valuation

Maximum compensation amounts and maximum benefit amounts under IRS rules were updated from 2023 to 2024.
