Statement by Enrolled Actuary
 To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Independent Auditors' Report

To the Plan Administrator of
New Jersey Hospital Association Cash Balance Plan

Opinion

We have audited the financial statements of New Jersey Hospital Association Cash Balance Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statements of net assets available for benefits and of accumulated plan benefits as of December 31, 2024 and 2023, and the related statements of changes in net assets available for benefits and of changes in accumulated plan benefits for the years ended December 31, 2024 and 2023, and the related notes to the financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the net assets available for benefits and accumulated plan benefits as of December 31, 2024 and 2023, and the changes in net assets available for benefits and changes in accumulated plan benefits for the years ended December 31, 2024 and 2023, in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for at least one year following the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplemental Schedules Required by ERISA

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedules, Schedule H, Line 4(i) - Schedule of Assets (Held at End of Year), and Schedule H, Line 4(j) - Schedule of Reportable Transactions, as of or for the year ended December 31, 2024 are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, including their form and content, are presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying supplemental schedules is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content are presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

New Jersey Hospital Association Cash Balance Plan

Notes to Financial Statements

December 31, 2024 and 2023

1. Description of Plan

The following description of the New Jersey Hospital Association Cash Balance Plan (the Plan) provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a noncontributory defined benefit pension plan covering substantially all employees of New Jersey Hospital Association (the Organization). The Plan is subject to the provisions of the Employee Retirement Income Securities Act of 1974 (ERISA). The Plan's Retirement Committee has overall responsibility for the operation and administration of the Plan. The Plan's Investment Committee determines the appropriateness of the Plan's investment offerings, monitors investment performance and reports to the Board of Trustees.

Participant Accounts

Under the Plan provisions, amounts are credited by the Organization to the participants' hypothetical accounts. The accounts are allocated, as required by the plan document, compensation credits. The compensation credits are allocated based on a percentage of the participants' certified compensation for a specified period, as defined in the plan document. The applicable percentage ranges from 3.75% to 7.50%.

Funding Policy

The Plan's funding policy is for the Organization to contribute an amount which will meet or exceed the annual ERISA minimum funding requirement. No participant contributions are permitted. The minimum funding requirements of ERISA were met for 2024 and 2023. Although it has not expressed any intention to do so, the Organization has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA.

Pension Benefits

Employees are eligible for participation in the Plan retroactive to date of hire if credited with at least 1,000 hours of service during the first year of employment or on the anniversary of date of hire after which the employee is credited with 1,000 hours of service. Participants are entitled to plan benefits beginning at the normal retirement age of 65, although retirement can be as early as 55 if at least 10 years of service is attained. Employees who terminate after becoming fully vested in the Plan, but prior to eligibility for normal or early retirement, shall be entitled to a deferred vested benefit equal to their accrued benefit as of the date of termination. The Plan allows deferred vested participants to make benefit elections on the earlier of age 65, two years following their separation of service or age 55 if they had 10 or more years of service on their termination of employment date. Benefit payments are paid in the form of: (a) an increasing life annuity for single participants; (b) a 50% joint-and-survivor increasing annuity for married participants unless the participant elects a different form of payment; (c) a lump sum distribution which allows for payment of benefits in a lump sum on the earlier of two years from separation of service or eligibility for early retirement; and (d) other optional forms of benefit, as provided by the Plan. Participants should refer to the plan document for more complete information about payment of benefits. Participating employees are vested in the accrued normal retirement benefit upon the earlier of: (a) completion of three years of service; or (b) attainment of normal retirement age.

New Jersey Hospital Association Cash Balance Plan

Notes to Financial Statements

December 31, 2024 and 2023

The account is also increased by a Periodic Adjustment Percentage for a plan year equal to the rate on One Year Treasury Constant Maturities at the beginning of the plan year. There is a 3% floor and a 10% ceiling on the interest rate credited. In accordance with Internal Revenue Service (IRS) requested amendments, adopted June 24, 2009, the Periodic Adjustment Percentage floor was changed to 4% prior to April 1, 2009. On or after April 1, 2009, the Periodic Adjustment Percentage was changed to 3%. There is a secondary "minimum annual benefit" formula in the Plan which determines a monthly benefit at a participant's normal retirement date equal to:

$30\% \times (36 \text{ month final average pay}) \times (\text{Participation Service at Termination} / \text{Participation Service at Normal Retirement Date not less than 25 years})$

The ultimate benefit provided upon retirement is the greater of accumulated benefits under the two benefit formulas. Then effective December 2021, the Plan was amended to reflect a reduced level of benefits as follows:

Revised percentage of eligible compensation credits:

34 years or younger and 0-1 years of service	3.75%
34 years or younger and 2 years of service	3.84%
34 years or younger and 3 years of service	3.95%
34 years or younger and 4 years of service	4.07%
34 years or younger and 5-7 years of service	4.50%
34 years or younger and 8 years of service	4.58%
34 years or younger and 9 years of service	4.72%
34 - 44 years or younger and 0 - 7 years of service	4.50%
35 - 44 years of age or 8 years of service	4.58%
35 - 44 years of age or 9 years of service	4.72%
45 - 54 years of age or 10 - 14 years of service	6.00%
55 or older or 15 or greater years of service	7.50%

Death and Disability Benefits

The beneficiary of an active or terminated participant is entitled to certain benefits as defined in the plan document in the event that the participant dies prior to receiving benefit payments. In order to be eligible, certain requirements, which are fully described in the plan document, must be satisfied. Active employees who become disabled may continue to accumulate benefits as a plan participant for accrual purposes based on their rate of pay as of the date of disability until the earlier of death or normal retirement date or until the participant is no longer totally and permanently disabled.

2. Summary of Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

New Jersey Hospital Association Cash Balance Plan

Notes to Financial Statements

December 31, 2024 and 2023

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein; disclosure of contingent assets and liabilities; and the actuarial present value of accumulated plan benefits at the date of the financial statements, and changes therein. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's investment committee determines the Plan's valuation policies utilizing information provided by the investment advisers, and trustee, as applicable. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits

Benefits payments to participants are recorded upon distribution.

Administrative Expenses

The Plan's expenses are paid either by the Plan or the Organization, as provided by the plan document. Expenses that are paid directly by the Organization are excluded from these financial statements. Certain expenses incurred in connection with the general administration of the Plan that are paid by the Plan are recorded as deductions in the Statements of Changes in Net Assets Available for Benefits. In addition, certain investment related expenses are included in net appreciation in fair value of investments in the Statements of Changes in Net Assets Available for Benefits.

Subsequent Events

Subsequent events were evaluated through September 23, 2025, the date the financial statements were available to be issued.

3. Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits are those future periodic payments, including lump-sum distributions, that are attributable under the Plan's provisions to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries. Benefits under the Plan are based on employees' compensation during each year of credited service. The accumulated plan benefits for active employees will equal the accumulation, with interest, of the annual benefit accruals as of the benefit information date. Benefits payable under all circumstances, such as retirement, death, disability, and termination of employment, are included, to the extent they are attributable to employee service rendered to the valuation date. Benefits to be provided via annuity contracts excluded from plan assets are excluded from accumulated plan benefits.

New Jersey Hospital Association Cash Balance Plan

Notes to Financial Statements

December 31, 2024 and 2023

The actuarial present value of accumulated plan benefits is determined by the Plan's independent actuary and is that amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal or retirement) between the valuation date and the expected date of payment.

The computations of the actuarial present value of accumulated plan benefits were made as of January 1, 2025 and 2024. Had the valuations been performed as of December 31, there would be no material differences. The significant actuarial assumptions used in the valuations were:

- Discount rate 5.50% for 2024 and 2023
- Mortality Pri-2012 Mortality Table using Scale MP-2021 (for 2024 and 2023)
- Retirement age 65

The changes in the lump sum conversion interest rates, lump sum conversion mortality and decrease in the interesting crediting rate caused the \$418,000 increase in actuarial assumptions in the current year.

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

4. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under authoritative guidance are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly, such as:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observables and minimize the use of unobservable inputs.

Notes to Financial Statements

December 31, 2024 and 2023

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2024 and 2023.

Money market fund: Valued at the quoted net asset value (NAV) of shares held by the Plan at year-end.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the U.S. Securities and Exchange Commission. These funds are required to publish their daily NAV and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2024 and 2023:

Assets at Fair Value as of December 31, 2024	Level 1	Level 2	Level 3	Total
Money market fund	\$ 718,050	\$ -	\$ -	\$ 718,050
Mutual funds	22,606,975	-	-	22,606,975
Total assets in the fair value hierarchy	23,325,025	-	-	23,325,025
Total investments at fair value	\$ 23,325,025	\$ -	\$ -	\$ 23,325,025

Assets at Fair Value as of December 31, 2023	Level 1	Level 2	Level 3	Total
Money market fund	\$ 487,738	\$ -	\$ -	\$ 487,738
Mutual funds	22,920,294	-	-	22,920,294

Total investments at fair value	\$ 23,408,032	\$ -	\$ -	\$ 23,408,032

5. Concentrations

As of December 31, 2024, the Plan had investments of \$7,090,656 concentrated in two funds. As of December 31, 2023, the Plan had investments of \$4,613,008 that was concentrated in one fund.

6. Related-Party and Party in Interest Transactions

The Plan's investments are administered under a contract with U.S. Bank, the Trustee of the Plan. Contributions are held and managed by U.S. Bank, who invests cash received, interest and dividend income and makes distributions to participants. These transactions are party in interest transactions under ERISA.

As described in Note 2, the Plan paid certain expenses related to plan operations and investment activity to various service providers. Additionally, certain administrative functions of the Plan are performed by officers or employees of the Organization. No such officer or employee receives compensation from the Plan. These transactions are party in interest transactions under ERISA.

7. Plan Termination

In the event the Plan terminates, the net assets of the Plan will be allocated, as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated:

1. Annuity benefits that former employees or their beneficiaries have been receiving for at least three years, or that employees eligible to retire for that three-year period would have been receiving if they had retired with benefits in the normal form of annuity under the Plan. The priority amount is limited to the lowest benefit that was payable (or would have been payable) during those three years. The amount is further limited to the lowest benefit that would be payable under plan provisions in effect at any time during the five years preceding plan termination.
2. Other vested benefits insured by the Pension Benefit Guaranty Corporation (PBGC) (a U.S. government agency) up to the applicable limitations.
3. All other vested benefits (that is, vested benefits not insured by the PBGC).
4. All nonvested benefits.

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivor's pensions. However, the PBGC does not guarantee all benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination.

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations and may also depend on the financial condition of the plan sponsor and the level of benefits guaranteed by the PBGC.

8. Tax Status

The IRS has determined and informed the Organization by a letter dated May 5, 2022, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). The plan administrator believes that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC.

Accounting principles generally accepted in the United States of America require management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax period in progress.

Notes to Financial Statements

December 31, 2024 and 2023

9. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the Statements of Net Assets Available for Benefits.

Plan contributions are made, and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

EIN/PN: 21-0618622 / 013

Schedule SB, Part V – Statement of Actuarial Assumptions/Methods

Selection of Assumptions

The following assumptions were selected by the plan's enrolled actuary. The asset valuation method was selected by the plan sponsor with the actuary's advice and is an acceptable method under the applicable provisions of the Internal Revenue Code and associated regulations.

Actuarial Standard of Practice No. 27 ("ASOP 27") provides guidance to me as the plan's enrolled actuary on economic assumptions for measuring pension obligations. Actuarial Standard of Practice No. 35 ("ASOP 35") provides guidance on demographic and other noneconomic assumptions for measuring pension obligations. Under these ASOPs, for each assumption that has a significant effect on the measurement and that I selected or advised the plan sponsor to select, I should disclose the information and analysis used to support my determination that the assumption is reasonable for the purpose of the measurement.

The funding segment interest rates and mortality assumptions are prescribed in accordance with applicable provisions of the Internal Revenue Code and associated regulations for purposes of determining obligations for required minimum contribution and maximum tax deduction purposes. The interest crediting rate assumption is based on the Periodic Adjustment Percentage for a Plan Year, shall to the nearest .01%, be the rate on Treasury Constant Maturities, 1-Year, as published in the Federal Reserve Statistical Release, or its replacement publication, for the first week ending in January during such year, converted to an effective annual rate, but not greater than 10% and not less than 3%. The salary increase assumption is based on experience and is monitored annually through gain/loss analysis.

The demographic and other noneconomic assumptions that have a significant effect, and are chosen by me, the enrolled actuary, are the retirement rates, withdrawal rates, and frequency of optional payment forms. We perform periodic experience studies to assess the reasonableness of these assumptions, and review the results of these studies with the plan sponsor and set these rates based on the analyses and our discussions. These assumptions are monitored annually through gain/loss analysis. Based on the gain/loss analysis, including consistency with other assumptions used in the valuation, I believe that these assumptions are reasonable for the purpose of this measurement.

The expected return on asset assumption was selected based on an analysis of expected investment returns using Gallagher's capital market model, and guidance from the plan sponsor and its investment manager. Please note that for asset averaging purposes this assumption cannot exceed the third segment rate used for the determination of the funding target. I have determined that this economic assumption is reasonable for the measurement.

Use of Models

Actuarial Standard of Practice No. 56 ("ASOP 56") provides guidance to actuaries when performing actuarial services with respect to designing, developing, selecting, modifying, using, reviewing, or evaluating models. Gallagher uses third-party software in the performance of annual actuarial valuations and projections. The model is intended to calculate the liabilities associated with the provisions of the plan using data and assumptions as of the measurement date under the funding rules specified in this report. Further, the model applies those funding rules to the liabilities derived and other inputs, such as plan assets and contributions, to generate many of the exhibits found in this report. Gallagher has an extensive review process whereby the results of the liability calculations are checked using detailed sample output, changes from year to year are summarized by source, and significant deviations from expectations are investigated. Other funding outputs are similarly reviewed in detail and at a high level for accuracy, reasonability and consistency with prior results. Gallagher also reviews the model when significant changes are made to the software. The review is performed by experts within the company who are familiar with applicable funding rules as well as the manner in which the model generates its output.

Future actuarial measurements

Future actuarial measurements may differ significantly from current measurements due to plan experience differing from that anticipated by the actuarial assumptions, changes expected as part of the natural operation of the methodology used for these measurements, and changes in plan provisions, applicable law or regulations. An analysis of the potential range of such future differences is beyond the scope of this report. However, in accordance with ASOP 51, an assessment of risks for the plan was performed.

Second Segment Rate	4.46%	3.09%
Third Segment Rate	4.52%	3.58%
Effective Interest Rate	4.37%	3.04%

* Used for minimum funding and benefit restriction purposes.

** Used for maximum tax-deduction purposes.

*** The plan sponsor made a 5-year irrevocable election, for the plan years beginning January 1, 2009 through January 1, 2013, to use the Alternative Premium Funding Target. The Alternative Premium Funding Target uses Segment Rates without constraints. The plan sponsor has not revoked this election.

The interest rates used for funding purposes are the Segment Rates with 4-month lookback, constrained in accordance with relevant legislation.

Mortality

Mortality tables mandated by applicable law and regulation as specified in IRS Regulation 1.430(h)(3)-1, as amended in the Federal Register on October 20, 2023, in TD 9983, 88 FR 72357, applied on a static basis, using the blended annuitant/non-annuitant table applicable to small plans.

Actuarial cost method

The Funding Target is the present value of accrued benefits based on compensation and service to date. The Target Normal Cost is the present value of benefits expected to be accrued during the current plan year, reflecting the effect of expected compensation increases during the year and including plan administrative expenses expected to be paid from plan assets during the year.

2037		2041	4.55%
2042		-	3.30%

Expenses

Expected plan expenses of \$109,000 were added to the Target Normal Cost. The expected plan expense is the sum of the 2023 actual plan expense of \$81,833 with a 3% increase and the 2024 PBGC premium of \$24,947, and the total amount is rounded to \$1,000.

Frequency of optional payment forms

Actives

10% of active participants are assumed to take an immediate life annuity upon first eligibility after termination of employment.

90% of active participants are assumed to elect a lump sum payment upon first eligibility after termination of employment.

Asset valuation method

The Actuarial Value of Assets is market value as of the valuation date, including the discounted value of accrued contributions, reduced by 2/3 of the gain/(loss) for the immediately preceding plan year and reduced by 1/3 of the gain/(loss) for the plan year before that. The gain/(loss) for each period is determined as the actual return on market value during the period less the expected return on market value based on an assumed earnings rate chosen by the actuary but required by current law and regulation to be not greater than the applicable third Segment Rate. The resulting value is constrained to be within a corridor of 90% to 110% of market value, including discounted receivable contributions.

	Actuary's Assumption	Third Segment Rate	Reflecting Limit
2024 Expected Return	5.50%	5.59%	5.50%
2023 Expected Return	5.50%	5.74%	5.50%
2022 Expected Return	5.50%	5.92%	5.50%

Summary of Changes from the January 1, 2023 Valuation

- Funding and PBGC premium interest rates: The 2023 Segment Rates with four-month lookback, constrained in accordance with relevant legislation were changed to the 2024 Segment Rates with four-month lookback, constrained in accordance with relevant legislation.
- Mortality table: IRS 2023 Static Mortality Table was changed to the IRS 2024 Static Mortality Table.
- The lump sum conversion mortality was updated to the 2024 IRC 417(e) Applicable Mortality Table.
- The interest crediting rates were updated as mentioned above.
- The salary increase assumption was updated from 4.75% to 3.50%.
- The change to the interest rates, ICR and mortality assumptions served to increase the Funding Target by approximately \$75,000.

Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Schedule SB, Part V – Summary of Plan Provisions

Effective Date

The effective date is January 1, 1967. The Plan was amended effective January 1, 2008 to change the vesting requirements from five years of service to three years of service as required by PPA. In addition, a plan amendment was adopted effective February 1, 2009 freezing the plan and eliminating future accruals. In September 2009, an amendment was passed that reinstated cash balance pay credits retroactive to February 1, 2009, while maintaining a frozen minimum benefit as of February 1, 2009. The pay credits adopted with the September amendment differed from those in effect prior to February 1, 2009. Prior to February 1, 2009, the pay credits were allocated as follows:

Age as of the end of the Plan Year		Years of Participation as of the end of the Plan Year	Percentage of Participant's Compensation
34 or younger	And	0 - 4	4.5%
35 – 44	Or	5 - 9	6.0%
45 – 54	Or	10 - 14	7.5%
55 or older	Or	15 or greater	10.0%

The Plan was amended to provide higher pay-based credits retroactive to February 1, 2009 for certain participants. Pay-based credits to your account on or after February 1, 2009 are now determined using the following schedule:

Age as of the end of the Plan Year		Years of Participation as of the end of the Plan Year	Percentage of Participant's Compensation
34 or younger	And	0 – 1	3.75%
34 or younger	And	2	3.84%
34 or younger	And	3	3.95%
34 or younger	And	4	4.07%
34 or younger	And	5 – 7	4.50%
34 or younger	And	8	4.58%
34 or younger	And	9	4.72%
35 – 44	And	0 – 7	4.50%
35 – 44	And	8	4.58%
35 – 44	And	9	4.72%
45 – 54	Or	10 - 14	6.00%
55 or older	Or	15 or more	7.50%

Before the amendment of the Plan, pay-based credits for periods on February 1, 2009 and later were determined as follows:

Age as of the end of the Plan Year		Years of Participation as of the end of the Plan Year	Percentage of Participant's Compensation
34 or younger	And	0 - 4	3.75%
35 – 44	Or	5 - 9	4.50%
45 – 54	Or	10 - 14	6.00%
55 or older	Or	15 or greater	7.50%

New Jersey Hospital Association Cash Balance Plan

EIN/PN: 21-0618622 / 013

Schedule SB, Part V – Summary of Plan Provisions (continued)

The Plan was amended effective November 1, 2020 to provide for a voluntary retirement incentive program. The voluntary retirement incentive program was offered to active plan participants who met certain eligibilities and elected to retire on December 31, 2020. An additional 3 years of cash balance pay credits were offered plus a \$500 monthly supplement payable to age 65 was provided for those eligible plan participants who had not attained age 65 by December 31, 2020.

Eligibility

Each employee is eligible for membership upon employment after working over 1,000 hours in the first year of hire.

Service

All service is credited from the earliest date of employment, computed to the nearest month, excluding years in which a member completes less than 1,000 hours of service.

Final Average Monthly Earnings

One-twelfth of the average of a participant's Compensation including overtime and bonuses for the 36 consecutive months that produce the highest such average or the total period of employment if less than 36 months. Compensation after January 31, 2009 will not be taken into account.

Corporation Contribution Account

Normal Retirement Date

Normal retirement date means the participant's 65th birthday.

Normal Retirement Monthly Annuity

The normal retirement monthly annuity is equal to the greatest of A and B:

- (A) The Corporation Contribution Account as of the annuity starting date converted to a single life annuity based on factors using the annual rate of interest prescribed under Section 417(e)(3)(C) of the Code as in effect for the month of December immediately preceding the calendar year in which the Annuity Starting Date occurs and the mortality table prescribed by the Secretary of the Treasury under section 417(e)(3)(B) of the Code;
- (B) A Minimum Benefit equal to the greater of (1), (2) and (3):
 - 1) A single life annuity equal to 30% of the participant's final average pay multiplied by a fraction (not to exceed 1), the numerator of which is the number of the participant's Years of Participation in the Plan at February 1, 2009 and the denominator of which is the greater of 25 or the number of Years of Participation in the Plan, or
 - 2) For Participants who had reached age 55 or had at least 15 years of Participation as of January 1, 1993, a benefit calculated under the provisions of the Prior Plan as if the Plan remained in effect until February 1, 2009.
 - 3) For all other Participants, a grandfathered benefit equals to the accrued benefit as of December 31, 1992 based on the Prior Plan Formula.

Early Retirement Date

The early retirement date is the first day of any month within the ten-year period prior to Normal Retirement Date, provided the member has completed ten years of service.

Early Retirement Monthly Annuity

Early retirement monthly annuity is equal to the greater of A and B:

- (A) The Corporation Contribution Account as of the early retirement date converted to a single life annuity based on factors using the annual rate of interest prescribed under Section 417(e)(3)(C) of the Code as in effect for the month of December immediately preceding the calendar year in which the Annuity Starting Date occurs and the mortality table prescribed by the Secretary of the Treasury under section 417(e)(3)(B) of the Code;
- (B) A Minimum Benefit equal to the greatest of (1), (2) and (3):
 - 1) A single life annuity equal to 30% of the participant's final average pay multiplied by a fraction (not to exceed 1), the numerator of which is the number of the participant's Years of Participation in the Plan as of February 1, 2009 and the denominator of which is the greater of 25 or the number of Years of Participation that would be credited at the Normal Retirement Date, actuarially reduced based on factors outlined in Appendix II of the Plan Document for benefit commencement prior to Normal Retirement Date;
 - 2) For participants who had reached age 55 or had at least 15 years of Participation as of January 1, 1993, a benefit calculated at the Early Retirement Date based on the provisions of the Prior Plan as if the Plan remained in effect until February 1, 2009, reduced by 5/9% for each of the first 60 months and by 5/18% for each of the next 60 months by which the early retirement date precedes the Normal Retirement Date.
 - 3) For all other Participants, the accrued benefit as of December 31, 1992 based on the Prior Plan Formula, reduced by 5/9% for each of the first 60 months and by 5/18% for each of the next 60 months by which the early retirement date precedes the Normal Retirement Date.

Schedule SB, Part V – Summary of Plan Provisions (continued)

Termination of Employment Pension

A member has a vested right to 100% of the benefits accrued on his or her behalf after the completion of three years of service in which the member had 1,000 hours.

Disability Pension

If a Participant suffers a Total and Permanent Disability, he shall be fully vested in his Accrued Benefit. In such case, the Participant shall continue to be treated as a Participant for benefit accrual purposes until the earlier of his death or Normal Retirement Date.

Pre-Retirement Death Benefit

If any participant who is vested or a vested terminated member dies prior to the commencement of annuity payments or payments in any other form, a benefit based on the participant's Benefit Account as of the last day of the month in which the participant's death occurs, will be paid to the participant's spouse, if married, or beneficiary, if single (or married and have waived the spouse's rights). The benefit, determined as if the spouse or the beneficiary were the participant, is payable the first of the month following the death of the participant in either a single increasing life annuity form, level monthly annuity form or a lump sum payment, if available.

Normal Form of Pension

The normal form of pension payable to a single retiree is a single increasing life annuity. The normal form of pension payable to a married retiree is a 50% joint and spouse increasing annuity.

Contributions

All contributions to support the Plan are made by the Association.

Periodic Adjustment Percentage

The Periodic Adjustment Percentage for a Plan Year shall be the rate on Treasury Constant Maturities, 1-Year, as published in the Federal Reserve Statistical Release, or its replacement publication, for the month of December immediately preceding such Plan Year, rounded to the nearest .01 % and converted to an effective annual rate. The effective annual rate shall not be greater than 10% and not less than 3%.

This outline of the Principal Provisions of the New Jersey Hospital Association Cash Balance Plan is intended to explain the highlights of the Plan. In the event of any difference between the language of this outline and the Plan itself, the actual provisions of the Plan shall govern.
