Independent Auditor's Report

To the Plan Administrator and Participants
Standard Offset Printing Co., Inc. Employee Stock Ownership Plan
Lititz, Pennsylvania

Opinion

We have audited the financial statements of Standard Offset Printing Co., Inc. Employee Stock Ownership Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statement of net assets available for benefits as of December 31, 2024 and 2023, the related statement of changes in net assets available for benefits for the years ended December 31, 2024 and 2023, and the related notes to the financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2024 and 2023, and the changes in its net assets available for benefits for the years ended December 31, 2024 and 2023, in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date that the financial statements are issued or available to be issued.

Responsibilities of Management for the Financial Statements (continued)

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not absolute assurance, and; therefore, is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplemental Schedule Required by ERISA

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule of Schedule H, Line 4i - Schedule of Assets (Held at End of Year) as of December 31, 2024 is presented for purposes of additional analysis and is not a required part of the financial statements, but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from, and relates directly to, the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying schedule is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

Standard Offset Printing Co., Inc. Employee Stock Ownership Plan

Notes to Financial Statements

December 31, 2024 and 2023

Note 1 - Description of Plan

The following description of the Standard Offset Printing Co., Inc. Employee Stock Ownership Plan (the Plan) provides only general information. Participants should refer to the plan agreement for more complete information.

General

Standard Offset Printing Co., Inc. (the Company) established the Plan effective January 1, 2016. The Plan operates, in relevant part, as a leveraged employee stock ownership plan (ESOP) and is designed to comply with Section 4975(e)(7) and the regulations thereunder of the Internal Revenue Code (IRC) of 1986, as amended, and is subject to the applicable provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Plan provides retirement, death, and disability benefits.

On September 15, 2017 (the closing date), the Plan purchased Company common stock using the proceeds of a bank borrowing and holds the stock in a trust established under the Plan. As the Plan makes debt payments, an appropriate percentage of stock will be allocated to eligible employees' accounts in accordance with applicable regulations under the IRC.

The borrowing is collateralized by the unallocated shares of common stock and is guaranteed by the Company. The lender has no rights against shares of stock once they are allocated to participants in accordance with the terms of the Plan. Accordingly, the financial statements of the Plan as of December 31, 2024 and 2023, and for the years then ended, present separately the assets and liabilities, and changes therein, pertaining to:

- A. The accounts of employees with vested rights in allocated common stock (allocated).
- B. Common stock not yet allocated to employees (unallocated).

Eligibility

Employees of the Company are eligible to participate in the Plan who have completed an eligibility period and are age 21 or older (an eligibility period is defined as a 12-consecutive-month period beginning on an employee's first day of work in which the employee completes at least 1,000 hours of service). An employee who has satisfied the above requirements as of the Plan's effective date shall enter the Plan, retroactively, as of the effective date.

Contributions

No contributions are made by participants. The Company may contribute a discretionary contribution to be determined each year. The contribution may be in Company common stock or in cash. No discretionary contributions were made for the years ended December 31, 2024 and 2023. In addition, the Company is required to make annual contributions in an amount sufficient to enable the Plan to make its regularly scheduled payments of principal and interest due on its term loan. Contributions are subject to certain IRS limitations.

Standard Offset Printing Co., Inc. Employee Stock Ownership Plan

Notes to Financial Statements

December 31, 2024 and 2023

Note 1 - Description of Plan (continued)

Participant Accounts

Each participant's account is credited with the participant's contributions and allocations of (a) the Company's contribution, (b) plan earnings, and (c) forfeitures of terminated participants' nonvested accounts, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The employer contribution is allocated to eligible participants according to the ratio each participant's compensation for the plan year bears to the total compensation of all participants for the plan year. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Vesting is determined on a graded scale starting at 20% after two years of credited service and increasing 20% per year for each additional year of credited service until attaining 100% vesting after six years of credited service based on the following vesting schedule:

<u>Years of Service</u>	<u>Vesting Percentage</u>
Less than 1	0 %
1	0
2	20
3	40
4	60
5	80
6 or more	100

Payment of Benefits

No distributions from the Plan will be made until a participant retires, dies (in which case payment shall be made to his or her beneficiary or if none, his or her legal representatives), or otherwise terminates employment with the Company. Distributions are made in cash or, if a participant elects, in the form of Company common stock shares, plus cash for any fractional share.

Under the provisions of the Plan, the Company is obligated to repurchase participant shares that have been distributed under the terms of the Plan, as long as the shares are not publicly traded or if the shares are subject to trading limitations. During 2024 and 2023, the Company repurchased from participants 819 and 233 shares, respectively, at prices determined from the independent appraisal.

Forfeited Accounts

Forfeitures of employer contributions will be used to pay plan expenses, or added to the Company's contributions and allocated among the accounts of participants otherwise eligible to share for a plan year in accordance with the allocation methodology of the Plan. There were no forfeitures used to pay plan expenses during the years ended December 31, 2024 and 2023. Forfeitures allocated to participants' accounts totaled 65 and 146 shares for the years ended December 31, 2024 and 2023, respectively. At December 31, 2024 and 2023, there were no forfeited nonvested accounts.

Notes to Financial Statements

Note 1 - Description of Plan (continued)

Put Option

Under federal income tax regulations, the employer stock that is held by the Plan and its participants, and is not readily tradable on an established market, or is subject to trading limitations, includes a put option. The put option is a right to demand that the Company buy any shares of its stock distributed to participants for which there is no market. The put price is representative of the appraised value of the stock. The Company can pay for the purchase with interest over a period of five years. The purpose of the put option is to ensure that the participant has the ability to ultimately obtain cash.

Diversification

Diversification is offered to participants close to retirement so that they may have the opportunity to move part of the value of their investment in company stock into investments which are more diversified. Participants who are at least age 55 with at least 10 years of participation in the Plan may elect to diversify a portion of their account. Diversification is offered to each eligible participant over a six-year period. In each of the first five years, a participant may diversify up to 25% of the number of post-1986 shares allocated to his or her account, less any shares previously diversified. In the sixth year, the percentage changes to 50%. If a participant elects to diversify their stock, they may not elect to convert back to Company common stock. The election to diversify is made subsequent to year-end based upon the shares of employer stock in the participant's account as year-end.

This Plan will not be subject to the diversification requirements until the plan year ending December 31, 2026.

Voting Rights

Each participant is entitled to exercise voting rights attributable to the shares allocated to his or her account, and is notified by the trustee prior to the time that such rights are to be exercised. The trustee is not permitted to vote any allocated share for which instructions have not been given by a participant. The trustee is required, however, to vote any unallocated shares on behalf of the collective best interest of plan participants and beneficiaries. At December 31, 2024 and 2023, there were 41,864 and 47,727 unallocated shares, respectively, of Company common stock.

Note 2 - Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, and changes therein, and disclosures of contingent assets and liabilities. Actual results could differ from those estimates.

Standard Offset Printing Co., Inc. Employee Stock Ownership Plan

Notes to Financial Statements

December 31, 2024 and 2023

Note 2 - Summary of Significant Accounting Policies (continued)

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold, as well as held during the year.

Payment of Benefits

Benefits are recorded when paid.

Administrative Expenses

As provided in the plan agreement, administrative expenses may be paid either by the Plan or by the Company. The Company has historically paid the operating expenses for the Plan. Investment related expenses are included in net appreciation (depreciation) in fair value of investments.

Note 3 - Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability; and
- Inputs that are derived principally from, or corroborated by, observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

Standard Offset Printing Co., Inc. Employee Stock Ownership Plan

Notes to Financial Statements

December 31, 2024 and 2023

Note 3 - Fair Value Measurements (continued)

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodology used for assets measured at fair value. There has been no change in the methodology used at December 31, 2024 and 2023.

Investment in Company common stock is reported at estimated fair value, as determined by an independent appraisal. This appraisal was based upon the income and market approaches. The appraiser took into account historical financial performance, expected future performance, and other financial considerations, such as size and specific business risks. The appraiser also utilized the discounted cash flow method to assess the future cash flow generating capacity of the Company and the price an investor would pay for a share of stock in the Company considering these cash flows.

The method described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation method is appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value:

	Fair Value Measurements at December 31, 2024			
	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	Total
Company common stock	<u>\$ -</u>	<u>\$ -</u>	<u>\$ 7,553,000</u>	<u>\$ 7,553,000</u>
	Fair Value Measurements at December 31, 2023			
Company common stock	<u>\$ -</u>	<u>\$ -</u>	<u>\$ 5,888,000</u>	<u>\$ 5,888,000</u>

Changes in Fair Value Levels

The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions or model-based valuation techniques may require the transfer of financial instruments from one fair value level to another.

Standard Offset Printing Co., Inc. Employee Stock Ownership Plan

Notes to Financial Statements

December 31, 2024 and 2023

Note 3 - Fair Value Measurements (continued)

Changes in Fair Value Levels (continued)

We evaluated the significance of transfers between levels based upon the nature of the financial instrument and size of the transfer relative to total net assets available for benefits. The following table sets forth a summary of changes in the fair value of the Plan's Level 3 assets for the years ended December 31:

	<u>2024</u>	<u>2023</u>
Company Common Stock		
Balance at beginning of year	\$ 5,888,000	\$ 7,006,000
Unrealized gain (loss) relating to instruments still held at the reporting date	<u>1,665,000</u>	<u>(1,118,000)</u>
Balance at end of year	<u>\$ 7,553,000</u>	<u>\$ 5,888,000</u>

Unobservable Inputs Used in Level 3 Fair Value Measurements

The following table represents the Plan's Level 3 financial instruments, the valuation techniques used to measure the fair value of those financial instruments, and the significant unobservable inputs and the ranges of values for those inputs:

Instrument	Fair Value		Principal Valuation Techniques	Unobservable Inputs
	December 31, 2024	December 31, 2023		
Company common stock	\$ 7,553,000	\$ 5,888,000	Discounted cash flow method	Valuation ratios Discount for lack of marketability

In estimating fair value of the investments in Level 3, the Plan Administrator may use third-party pricing sources or appraisers. In substantiating the reasonableness of the pricing data provided by third parties, the Plan Administrator evaluates a variety of factors, including review of methods and assumptions used by external sources, recently executed transactions, existing contracts, economic conditions, industry and market developments, and overall credit ratings.

Note 4 - Note Payable

On September 15, 2017, the Plan entered into an agreement to purchase 100,000 shares of Standard Offset Printing Co., Inc. common stock from shareholders of the Company. The purchase price was \$12,500,000. The purchase is subject to a promissory note payable in 30 annual principal payments of \$416,657, commencing in 2017. The note bears interest at 2.60%.

On July 30, 2018, the Plan entered into an agreement to reduce the original purchase price by \$1,500,000, with an effective date of September 15, 2017. As a result of this adjustment, the promissory note is payable in 30 annual principal payments of \$366,667, commencing in 2017. The note bears interest at 2.60% per annum. The annual principal payments are due on December 31 along with interest accrued on the outstanding balance.

Standard Offset Printing Co., Inc. Employee Stock Ownership Plan

Notes to Financial Statements

December 31, 2024 and 2023

Note 4 - Note Payable (continued)

On December 7, 2020, the Plan and the shareholders entered into an agreement to reduce the original purchase price by \$3,000,000, with an effective date of September 18, 2017. As a result of this adjustment, the promissory note is payable in 18 annual principal payments of \$266,667, commencing in 2020. The note bears interest at 2.60% per annum. The annual principal payments are due on December 31, along with interest accrued on the outstanding balance.

On July 1, 2021, the Plan and the shareholders entered into an agreement to reduce the original purchase price by \$1,500,000, with an effective date of September 18, 2017. As a result of this adjustment, the promissory note is payable in 18 annual principal payments of \$216,667, commencing in 2021. The note bears interest at 2.60% per annum. The annual principal payments are due on December 31, along with interest accrued on the outstanding balance. No shares were released or allocated as part of this agreement.

Contributions under this amended agreement totaled \$266,838 and \$272,334 for the years ended December 31, 2024 and 2023, respectively. The shares purchased were pledged as collateral on the note. Under the terms of the Plan, Company common stock acquired with the Company's loan is held in a suspense subfund, as defined by the Plan. Company common stock held in the suspense subfund is released as the loan is repaid in accordance with a formula as set forth in the plan agreement. At December 31, 2024 and 2023, 41,864 and 47,727 shares of Company common stock with a market value of \$3,162,192 and \$2,810,350, respectively, were held in the suspense subfund, and have not been allocated to the plan participants. The allocated portion of Company common stock at December 31, 2024 and 2023 was 58,136 and 52,273 shares with a market value of \$4,390,808 and \$3,077,650, respectively.

The future maturities of the note payable for the five subsequent years ending December 31, and thereafter, are as follows:

2025	\$	216,667

Note 5 - Tax Status

The Company has not applied for a determination letter with the IRS; however, the Plan Administrator believes that the Plan is currently designed and is currently being operated in compliance with the applicable requirements of the IRC. The Plan is exempt from federal and state income taxes under current regulations.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan. Management evaluated the Plan's tax positions and concluded that the Plan had maintained its tax-exempt status and had taken no uncertain tax positions that require recognition or disclosure in the financial statements. Therefore, no provision or liability for income taxes has been included in the financial statements.

Notes to Financial Statements

December 31, 2024 and 2023

Note 6 - Administration of Plan Assets

The Plan's assets, which consist principally of Company common stock, are held by the trustee of the Plan.

Company contributions are held and managed by the trustee, which invests cash received and dividend income, and makes distributions to participants.

Certain administrative functions are performed by the officers or employees of the Company. No such officer or employee receives compensation from the Plan. Administrative expenses are paid directly by the Company.

Note 7 - Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants would become 100% vested in their accounts. Upon termination of the Plan, the Company's Board of Directors, consisting primarily of the officers of the Company, shall direct the trustee to pay all liabilities and expenses of the trust fund and to sell shares of encumbered stock held in the loan suspense account, if any, to the extent that such sale is necessary in order to pay any outstanding loans.

Note 8 - Risks and Uncertainties

The Plan investments consist solely of the Company's common stock, which is exposed to various risks such as interest rate, market, and credit risks, as well as valuation assumptions based on earnings, cash flows, and/or other such techniques. Due to the level of risk associated with the investment in the common stock and to uncertainties inherent in the estimates and assumptions process, it is at least reasonably possible that changes in the value of the common stock will occur in the near term, and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Note 9 - Related Party Transactions and Party-In-Interest Transactions

As described in Note 2, the Company pays all plan expenses. The Plan has a number of service providers. Such providers are parties in interest under ERISA.

At December 31, 2024 and 2023, the Plan held 100,000 shares of common stock of Standard Offset Printing Co., Inc., the plan sponsor.

Note 10 - Subsequent Events

Plan management has evaluated subsequent events through October 2, 2025. This date is the date the financial statements were available to be issued. No material events subsequent to December 31, 2024 were noted.
