## REPORT OF INDEPENDENT AUDITORS

To the Transylvania University Retirement Committee  
Transylvania University Retirement Plan  
Lexington, Kentucky

### Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the accompanying financial statements of the Transylvania University Retirement Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of December 31, 2024 and 2023, and the related statement of changes in net assets available for benefits for the year ended December 31, 2024, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained a certification from qualified institutions as of December 31, 2024 and 2023, and for the year ended December 31, 2024, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

### Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section—

- the amounts and disclosures in the financial statements referred to above, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

- the information in the financial statements referred to above related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

#### Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

#### Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments; administering the Plan; and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

#### Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgement made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgement and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgement, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

#### Other Matter – Supplemental Schedules Required by ERISA

The supplemental schedules of delinquent participant contributions and of assets (held at end of year) are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedules, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements

themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedules that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, other than the information agreed to or derived from the certified investment information, including their form and content, are presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion—

- the form and content of the supplemental schedules, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, is presented, in all material respects, in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.
- the information in the supplemental schedules related to assets held by and certified to by a qualified institution agrees to or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

## NOTES TO FINANCIAL STATEMENTS DECEMBER 31, 2024 AND 2023

---

### 1. DESCRIPTION OF PLAN

The following brief description of the Transylvania University (the University) Retirement Plan (the Plan) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

#### General

The Plan is a defined contribution retirement plan subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Plan is intended to meet the requirements of a qualified plan under Section 403(b) of the Internal Revenue Code.

#### Eligibility

The Plan is a single employer plan that covers substantially all employees of the University. Employees are eligible upon hire to defer a portion of their compensation into the Plan. An employee becomes eligible for employer contributions after completing one year of service, defined by the Plan as the first calendar year corresponding with or commencing on the anniversary date of his or her date of hire during which the employee works a minimum of 1,000 hours. Part-time employees must complete 1,000 hours each year in order to receive an allocation of employer contributions. Employees are eligible to participate in the Plan immediately upon satisfaction of these requirements.

#### Contributions

The University will make discretionary contributions of 9.0% of an eligible participant's W-2 wages, excluding fringe benefits. Participants may elect to defer an amount of their eligible compensation to the Plan, not to exceed the maximum limit determined by Internal Revenue Service (IRS) regulations. Participants may also contribute amounts representing eligible rollover distributions from other qualified benefit plans.

Certain participant contributions in 2023 were paid after the timeframe required by the Department of Labor.

#### Participant Accounts

Each participant's account is credited with the participant's contributions and allocations of (a) the University's contribution and (b) Plan earnings and charged with the participant's withdrawals and an allocation of administrative expenses. Allocations are based on participants' earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. Participants can direct investments in their account into several investment options and are allowed to change investment selections on a daily basis.

### Vesting

The following vesting schedule applies to contributions participants receive from the University:

<u>Years of Vesting Service</u>	<u>Vested Percentage</u>
Less than One	0%
One	0%
Two	0%
Three	100%

### Forfeitures

Forfeited nonvested accounts may be used to reduce future University contributions or to pay the Plan's administrative expenses. No forfeitures were used during 2024. Forfeited nonvested account balances at December 31, 2024 and 2023, were \$9,976 and \$731, respectively.

### Notes Receivable from Participants

The Plan does not allow participants to borrow from their fund accounts.

### Payment of Benefits

Upon retirement or disability, a participant may elect to receive the funds in his or her vested account in accordance with Plan distribution guidelines. Account balances can be obtained via a lump sum distribution, a partial distribution, installment payments or annuity contracts. A terminated employee can request 100% of their account balance be paid in cash or rolled over to another qualified plan. Cash withdrawals may not be received by any participant while he or she is employed by the University, with the exception of employees who have attained age 59.5, at which point withdrawals from elective deferrals are permitted. Employees who have attained age 70.5 may receive distributions of employer contributions that are invested in annuity contracts.

The Plan also allows for hardship withdrawals under certain circumstances as outlined by the Plan document. Before participants take hardship distributions, they must take all other distributions available to them under the Plan.

### Administrative and Investment Expenses

Certain administrative expenses related to the Plan were paid by the University. Investment expenses are included in net change in fair value of investments.

### 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

#### Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

#### Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America (GAAP) requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Actual results may differ from those estimates.

#### Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for a discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net change in fair value of investments includes the Plan's gains and losses on investments purchased and sold as well as held during the year.

#### Payment of Benefits

Benefits are recorded when paid.

#### Subsequent Events

Plan management evaluates events or transactions occurring subsequent to the date of the financial statements for recognition and disclosure in the accompanying financial statements through September 29, 2025, the date the financial statements were available to be issued.

### 3. INFORMATION PREPARED AND CERTIFIED BY THE PLAN'S CUSTODIANS

The plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, The Teachers Insurance and Annuity Association and the College Retirement Equities Fund (TIAA and CREF), the custodians of the Plan, have certified the completeness and accuracy of all investments

reflected in the accompanying statements of net assets available for benefits as of December 31, 2024 and 2023, and the investment related activity reflected in the statement of changes in net assets available for benefits for the year ended December 31, 2024.

TIAA and CREF's certification extends to investments, if any, for which TIAA, FSB, a federal savings association, act as a directed custodian, and for which TIAA performs the recordkeeping.

#### 4. FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described below:

- Level 1     Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
  
- Level 2     Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.
  
- Level 3     Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2024 and 2023.

*Mutual funds:* Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

# TRANSLYVANIA UNIVERSITY RETIREMENT PLAN

## NOTES TO FINANCIAL STATEMENTS DECEMBER 31, 2024 AND 2023

---

*Variable annuities:* The variable annuity accounts invest principally in equity securities, fixed-income investments, and short-term investments in accordance with each portfolio's investment objectives. The investments are valued daily, primarily using market quotations or prices obtained from independent pricing sources that may employ various pricing methods to value the investments, including matrix pricing. Values are available at [www.tiaa-cref.org](http://www.tiaa-cref.org).

*Money market mutual funds:* Generally transact subscription and redemption activity at \$1 stable NAV; however, on a daily basis the funds are valued at their daily NAV calculated using the amortized cost of the securities held in the fund.

*Pooled separate account:* The TIAA Real Estate Account (REA) is an insurance company separate account and is generally valued based on the market value of the underlying real estate holdings or other real estate-related investments. Real estate holdings are valued principally using appraisals, which are estimates of property values based on a professional's opinion. The REA sometimes holds securities that are priced using values obtained from independent pricing sources. Unit values are calculated each day and posted at [www.tiaa-cref.org](http://www.tiaa-cref.org). TIAA provides the REA with a liquidity guarantee to ensure that the REA has funds available to meet participant redemption, transfer or cash withdrawal requests executed at quoted unit values.

*Fixed annuity contracts:* The TIAA Traditional Annuity is a guaranteed fixed annuity contract that is valued at contract value, which approximates fair value. Contract value equals accumulated cash contributions, interest credited to the Plan's contracts, and transfers, if any, less any withdrawals and transfers. The TIAA Traditional Annuity is not available for sale or transfer on any securities exchange. Accordingly, transactions in similar investment instruments are not observable. However, contract value is deemed to provide an approximation of fair value based on the following:

- New contributions represent current transactions between willing buyers and sellers. Participants have the option to allocate their contributions between the TIAA Traditional Annuity and a number of investment choices for which fair values are readily observable.
- Participants typically allocate contributions between several investment choices and all transactions are executed at current market value with the assumption being that objective, unbiased transactions regularly occur and participants deem the value of the TIAA Traditional Annuity contract to be no less than the participant's accumulation balance and that each investment purchase is made at fair value since these purchases are not distressed and are conducted between willing buyers and sellers in open market conditions where a participant has a variety of investment choices.
- When participants change employers, they oftentimes enroll in a new plan with very similar investment options, including the TIAA Traditional Annuity. Because these transactions continue to occur with continued participant contributions at current stated contract values, the market-observable presumption is that the contract value of current funding represents a good approximation of fair value based on the willingness of the participant to continue to

# PENNSYLVANIA UNIVERSITY RETIREMENT PLAN

## NOTES TO FINANCIAL STATEMENTS DECEMBER 31, 2024 AND 2023

contribute. For each contribution, TIAA continues to record a contractual liability for the current contribution and does not consider such liability to have any embedded gain or loss.

- Upon a distributable event, the participant surrenders the future accumulation benefits in exchange for a cash payout based on the contract value, demonstrating the contract value can be monetized when a distributable event occurs.
- The crediting rate is supported by the investment performance of a large, diversified portfolio (TIAA's General Account), is correlated with the highest quality debt security yields, and is adjusted for contract liquidity. A twenty-year analysis of crediting rates for TIAA Traditional Annuity contracts suggests a rate of return that is representative of a market rate for this type product; thus application of observed rates would yield a discounted cash flow which approximates contract value.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets measured at fair value as of December 31, 2024 and 2023:

	Assets at fair value as of December 31, 2024

### Changes in Fair Value of Level 3 Assets and Related Gains and Losses

The following is a reconciliation of activity in 2024 for assets measured at fair value based upon significant unobservable inputs (Level 3):

	<u>Fixed Annuity Contracts</u>
Beginning balance	\$ 15,580,716
Purchases	2,334,020
Realized gains	347,720
Unrealized gains relating to instruments still held at the reporting date	139,608
Sales	<u>(2,634,778)</u>
Ending balance	<u>\$ 15,767,286</u>

### **5. PARTY-IN-INTEREST TRANSACTIONS**

Certain Plan investments are valued and managed by the custodians or subsidiaries of the custodians. Investment management fees paid to the custodians and managers of the investment funds are included in the net change in fair value of investments. Certain operating expenses of the Plan are paid by the University. Many members of the Transylvania University Retirement Committee, which provides oversight of the Plan, are also Plan participants. Blue & Co., LLC, is the independent auditor of the Plan. The University makes payment for certain of these services.

### **6. TAX STATUS**

The Plan has adopted a volume submitter plan document sponsored by TIAA, which has received an opinion letter from the Internal Revenue Service dated August 7, 2017, stating that the form of the volume submitter plan document, as then designed, was in compliance with applicable requirements of the Internal Revenue Code (IRC). Although the Plan has been amended since adopting the volume submitter plan document, the plan administrator believes that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC, and, therefore, believes that the Plan is qualified.

GAAP requires plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by various federal and state taxing authorities. The plan administrator has

# TRANSYLVANIA UNIVERSITY RETIREMENT PLAN

## NOTES TO FINANCIAL STATEMENTS DECEMBER 31, 2024 AND 2023

---

analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2024 and 2023, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the accompanying financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

### **7. PLAN TERMINATION**

Although it has not expressed any intent to do so, the University has the right to change or terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their employer contributions.

### **8. RISKS AND UNCERTAINTIES**

The Plan provides for various participant-directed investment options. Investment securities are exposed to various risks, such as interest rate, market, and credit risk. Market risks include global events which could impact the value of investment securities, such as a pandemic or international conflict. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of the investment securities, it is at least reasonably possible that changes in risks in the near term would materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.
