INDEPENDENT AUDITOR'S REPORT

Trustee of
The Metro Walls ESOP
Manchester, New Hampshire 03103

Opinion

We have audited the financial statements of Metro Walls ESOP (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statements of net assets available for benefits as of December 31, 2024 and 2023, and the related statement of changes in net assets available for benefits for the year ended December 31, 2024, and the related notes to the financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2024 and 2023, and the changes in its net assets available for benefits for the year ended December 31, 2024 in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date that the financial statements are issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplemental Schedule Required by ERISA

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule of assets (held end of year) is presented for purposes of additional analysis and is not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, including the form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying schedule is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

METRO WALLS ESOP

NOTES TO FINANCIAL STATEMENTS

Note 1. Significant Accounting Policies

Valuation of investments: The Metro Walls ESOP (the “Plan”) includes investments in Metro Walls, Inc. (the “Company”) stock that is stated at estimated fair value.

Dividend income is accrued on the ex-dividend date.

Purchases and sales of securities are recorded on an annual basis. Realized gains and losses from security transactions are reported on the average cost method.

The changes in the difference between fair value and the cost of investments are reflected in the statement of changes in net assets available for plan benefits as an increase or decrease in unrealized appreciation or depreciation in investments.

Accounting method: The Plan has prepared its financial statements on the accrual basis of accounting in accordance with the generally accepted accounting principles.

Payment of benefits: Benefits are recorded when paid.

Estimates and assumptions: Management uses estimates and assumptions in preparing financial statements. Those estimates and assumptions affect certain reported amounts of assets and disclosures, the disclosure of contingent assets and liabilities, and the reported revenues and expenses. Accordingly, actual results may differ from these expectations.

Note 2. Description of the Plan

The following description of the Plan provides only general information. Further information about the Plan Document and benefit provisions is available from the Plan Administrator.

General: The Company established the Plan effective as of January 1, 2021. The Plan operates, in relevant part, as a leveraged employee stock ownership plan (ESOP) and is designed to comply with Section 4975(e)(7) and the regulations there under of the Internal Revenue Code of 1986, as amended (the “Code”) and is subject to the applicable provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

The Plan purchased 1,000,000 shares of common stock of Metro Walls, Inc. by issuing a promissory note to the Company, and the common stock is held in a trust established under the Plan. The borrowing will be repaid over a period of fifty years. As the Plan makes each payment of principal and interest, an appropriate percentage of stock is allocated to eligible employees’ accounts in accordance with applicable regulations under the Code.

The borrowing is collateralized by the unallocated shares of common stock. The Company has no rights against shares of common stock once they are allocated under the provisions of the ESOP. Accordingly, the financial statements of the Plan present separately the assets and liabilities and changes therein pertaining to (1) the accounts of employees with rights in allocated common stock (allocated) and (2) common stock not yet allocated to employees (unallocated).

Eligibility requirements: All employees of the Company, other than employees subject to a collective bargaining agreement, are eligible to participate in the Plan. Employees must attain the age 18, and complete 1,000 hours of service during the first 12 months of employment or subsequent plan year. Participants enter the Plan on the first day of the plan year preceding meeting the eligibility requirements.

Payment of benefits: Upon termination of service due to death, disability or retirement, a participant may receive payments through an annual installment subject to minimum distribution requirements of the IRC, or a lump-sum amount if the value of their vested interest in the account is equal to or less than \$1,000.

Voting rights: Plan participants may direct the Trustee as to how to vote the shares of the Company stock held in their accounts with respect to the approval and disapproval of any corporate merger, consolidation, recapitalization, reclassification, liquidation, dissolution or sale of substantially all of the Company's assets. The Trustee shall vote any unallocated shares held by the Trust as well as any allocated shares for which a participant has failed to give timely voting direction.

Plan termination: The Company reserves the right to terminate the Plan at any time, subject to Plan provisions. Upon such termination of the Plan, each participant will become 100% vested; the interest of each participant in the trust fund will be distributed to such participant or his or her beneficiary at the time prescribed by the Plan terms and the Code. Upon termination of the Plan, the Employee Benefits Administration Committee shall direct the Trustee to pay all liabilities and expenses of the trust fund.

Participant's accounts: Each participant's account is credited as of the last day of each plan year, with an allocation of shares of the Company's common stock released by the Trustee. The allocation of the Company's stock is based upon the ratio of points of an eligible Participant relative to the total allocation points of all eligible Participants for the Plan year. For this purpose, eligible participants will receive an allocation of points based off of credited years of service and compensation. Plan earnings are allocated in the same proportion that each participant's and former participant's accounts bear to the total of all participant's and former participant's accounts.

Contributions, forfeitures, and dividends on unallocated shares are allocated based on a participant's points, relative to total eligible points. Cash account gains and losses are allocated based on a participant's account balance relative to total account balances. Dividends on allocated shares are allocated based on beginning shares less shares forfeited or distributed during the year from the forfeitures of terminated participants' non-vested accounts. Only those participants who are eligible employees of the Company as of the last day of the Plan year will receive an allocation.

Contributions: Employee contributions and salary deferrals are not permitted. The Company's contributions amounted to \$1,258,180 for the year ended December 31, 2024.

Vesting: If a participant's employment with the Company ends for any reason other than retirement, permanent disability or death, he or she will vest in the balances in his or her account based on total years of service with the Company. Participants vest 20 percent per year of service and are 100 percent vested after six years of service. For vesting purposes, a participant shall be credited with one Year of Service for every five years of continuous service prior to January 1, 2021, with a limit of two years of service for vesting purposes credited under this provision.

Put Option: Under federal income tax regulations, employer stock that is held by the Plan and its participants and is not readily tradable on an established market, or is subject to trading limitations, includes a put option. The put option is a right to demand that the Company buy any shares of its stock distributed to participants for which there is no market. The put price is representative of the fair market value of the stock. The Company may choose to pay for the purchase over a period of five years. The purpose of the put option is to ensure that the participant has the ability to ultimately obtain cash. During 2024, the Company repurchased 1,557 shares from participants, which were reallocated in the Plan.

Diversification: Offered to participants close to retirement so that they may have the opportunity to move part of the value of their investment in Company stock into investments which are more diversified. Participants who are at least age 55 with at least 10 years of participation in the Plan may elect to diversify a portion of their account. Diversification is offered to each eligible participant over a six-year period. In each of the first five years, a participant may diversify up to 25% of the number of shares allocated to his or her account, less any shares previously diversified. In the sixth year, the percentage changes to 50%.

Forfeitures: Participants forfeit the non-vested portion of their Company contributions upon a five-year break in service or if the participant receives cash out distribution upon termination. Total shares forfeited and reallocated to participants' accounts at December 31, 2024, amounted to 3,168 shares.

Participant loans: Participant loans are not permitted by the Plan Agreement.

Plan administration: Administrative expenses are paid primarily by the Plan. The Company is the Plan Administrator and has the authority to appoint persons or entities to carry out the operations of the Plan. The Trustee holds the Plan's assets, manages Company contributions and makes distributions to participants.

Income tax status: The Internal Revenue Service has determined and informed the Company by a letter dated December 29, 2020, the Plan, and the related trust are designed in accordance with applicable sections of the IRC.

The Plan adopted the provisions of Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 740, Accounting for Uncertainty in Income Taxes. Accordingly, management has evaluated the Plan's tax positions and concluded the Plan had maintained its tax-exempt status, does not have any significant unrelated business income and had taken no uncertain tax positions that require adjustment or disclosure in the financial statements.

Note 3. Administration of Plan Assets

The Plan's assets, which consist of Company common stock, are held by a third-party Trustee of the Plan. Company contributions are held and managed by the Trustee. Certain administrative functions are performed by officers or employees of the Company, who receive no compensation from the Plan.

Note 4. Investments

The Fair-Value Measurements topic of FASB ASC 820-10 defines fair value, establishes a framework for measuring fair value in generally accepted accounting principles and expands disclosures about fair-value measurements. The framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820-10 are described as follows:

- **Level 1:** Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
- **Level 2:** Inputs are other than quoted prices that are observable for the asset or liability. Inputs to the valuation methodology include:
 - Quoted prices for similar assets or liabilities in active markets
 - Quoted prices for identical or similar assets or liabilities in inactive markets
 - Inputs other than quoted prices that are observable for the asset or liability
 - Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

- **Level 3:** Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The Plan's investment in the Company's common stock are as follows:

	December 31, 2024		
	<u>Allocated</u>	<u>Unallocated</u>	<u>Total</u>
Metro Walls, Inc. common stock:			
Number of shares	80,000	920,000	1,000,000

METRO WALLS ESOP

NOTES TO FINANCIAL STATEMENTS

The following table sets forth by level, within the fair value hierarchy, the Plan's investments at fair value:

	December 31, 2024		December 31, 2023	
	Level 3	Total	Level 3	Total
Investment in Sponsor Company common stock	\$ 18,640,000	\$ 18,640,000	\$ 8,870,000	\$ 8,870,000
	\$ 18,640,000	\$ 18,640,000	\$ 8,870,000	\$ 8,870,000

The following table sets forth a summary of changes in the fair value of the Plan's Level 3 investments:

December 31,	2024	2023
Balance, beginning of year	\$ 8,870,000	\$ 2,360,000
Unrealized gains	9,770,000	6,510,000
<i>Balance, end of year</i>	\$ 18,640,000	\$ 8,870,000

Common stock: The fair value of the Company's common stock held by the Plan is valued by an independent third-party valuation Company. Plan management accumulates the data for the valuation company from historical and projected financial information of the Company. The appraiser prepares a report of estimated per share value that a participant will receive upon distribution. The trustee and plan management review the annual valuation report. The trustee provides the final approval of the annual share value.

The preceding method described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Note 5. Note Payable

The Trust entered into a term loan agreement with the Company. The agreement provides for the loan to be repaid over fifty years, and the unpaid principal bears interest at 1.9% per annum. The proceeds of the loan were used to purchase 1,000,000 shares of the Company's common stock. Unallocated shares are collateral for the loan. Shares are released from collateral and allocated to participants when principal and interest payments are made. The number of shares released in any year is the number of shares held as collateral, multiplied by the ratio of the current year payments, divided by the total of this year's payments, plus all future years' principal and interest payments. This resulted in 20,000 shares being released and allocated for both the plan years ended December 31, 2024 and 2023. The outstanding balance of the note payable as of December 31, 2024 and 2023 were \$37,930,127 and \$38,442,095, respectively.

METRO WALLS ESOP

NOTES TO FINANCIAL STATEMENTS

The maturities on long-term debt are as follows:

<u>Year Ending December 31,</u>	
2025	\$ 523,696
2026	533,646
2027	543,785
2028	552,227
2029	564,610
Thereafter	35,212,163
<i>Total</i>	<u>\$ 37,930,127</u>

Note 6. Risks and Uncertainties

The Plan investments consist primarily of the Company's common stock and money market funds, which are exposed to various risks, such as interest rate, market, and credit risks, as well as valuation assumption based on earnings, cash flows, and other such techniques. Due to the level of risk associated with the investment in the common stock and to the uncertainties inherent in estimates and assumption, it is at least reasonably possible that changes in the value of the common stock will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

Note 7. Employer Contributions

The Company is obligated to make contributions in cash to the Plan which, when aggregated with the Plan's dividends and interest earnings, equal the amount necessary to enable the Plan to fund distributions of vested participant accounts.

Note 8. Costs and Expenses

Certain costs and expenses associated with the operations of the Plan for the year ended December 31, 2024 were paid by the Company.

Note 9. Related Party Transactions and Party-In-Interest Transactions

The Plan invests in Company common stock and receives contributions from the Company. These are related party and party-in-interest transactions under ERISA. The Plan has a number of service providers. Such parties are parties-in-interest under ERISA. As noted in Note 5, the Plan also has a note payable to the Company. Certain officers and employees of the Company, who are also participants in the Plan, perform administrative services to the Plan at no cost. These transactions are not, however, considered prohibited transactions under ERISA regulations.

Note 10. Subsequent Events

The Plan has evaluated subsequent events through September 18, 2025, the date which the financial statements were available to be issued. No subsequent events were identified that would require disclosure in the financial statements for the year ended December 31, 2024.
