Part III Accountant's Opinion

3 Complete lines 3a through 3c if the opinion of an independent qualified public accountant is attached to this Form 5500. Complete line 3d if an opinion is not attached.

a The attached opinion of an independent qualified public accountant for this plan is (see instructions):

(1) Unmodified (2) Qualified (3) Disclaimer (4) Adverse

b Check the appropriate box(es) to indicate whether the IQPA performed an ERISA section 103(a)(3)(C) audit. Check both boxes (1) and (2) if the audit was performed pursuant to both 29 CFR 2520.103-8 and 29 CFR 2520.103-12(d). Check box (3) if pursuant to neither.

(1) DOL Regulation 2520.103-8 (2) DOL Regulation 2520.103-12(d) (3) neither DOL Regulation 2520.103-8 nor DOL Regulation 2520.103-12(d).

c Enter the name and EIN of the accountant (or accounting firm) below:

(1) Name: CLIFTONLARSONALLEN LLP

(2) EIN: 41-0746749

d The opinion of an independent qualified public accountant is **not attached** as part of Schedule H because:

(1) This form is filed for a CCT, PSA, DCG or MTIA. (2) It will be attached to the next Form 5500 pursuant to 29 CFR 2520.104-50.

Part IV Compliance Questions

4 CCTs and PSAs do not complete Part IV. MTIAs, 103-12 IEs, and GIAs do not complete lines 4a, 4e, 4f, 4g, 4h, 4k, 4m, 4n, or 5. 103-12 IEs also do not complete lines 4j and 4l. MTIAs also do not complete line 4l. DCGs do not complete lines 4e, 4f, 4k, 4l, and 5, and DCGs generally complete the rest of Part IV collectively for all plans in the DCG, except as otherwise provided (see instructions).

During the plan year:

	Yes	No	Amount
a Was there a failure to transmit to the plan any participant contributions within the time period described in 29 CFR 2510.3-102? Continue to answer "Yes" for any prior year failures until fully corrected. (See instructions and DOL's Voluntary Fiduciary Correction Program.)		X	
b Were any loans by the plan or fixed income obligations due the plan in default as of the close of the plan year or classified during the year as uncollectible? Disregard participant loans secured by participant's account balance. (Attach Schedule G (Form 5500) Part I if "Yes" is checked.)		X	
c Were any leases to which the plan was a party in default or classified during the year as uncollectible? (Attach Schedule G (Form 5500) Part II if "Yes" is checked.)		X	
d Were there any nonexempt transactions with any party-in-interest? (Do not include transactions reported on line 4a. Attach Schedule G (Form 5500) Part III if "Yes" is checked.)		X	
e Was this plan covered by a fidelity bond?	X		500000
f Did the plan have a loss, whether or not reimbursed by the plan's fidelity bond, that was caused by fraud or dishonesty?		X	
g Did the plan hold any assets whose current value was neither readily determinable on an established market nor set by an independent third party appraiser?		X	
h Did the plan receive any noncash contributions whose value was neither readily determinable on an established market nor set by an independent third party appraiser?		X	
i Did the plan have assets held for investment? (Attach schedule(s) of assets if "Yes" is checked, and see instructions for format requirements.)	X		
j Were any plan transactions or series of transactions in excess of 5% of the current value of plan assets? (Attach schedule of transactions if "Yes" is checked and see instructions for format requirements.)	X		
k Were all the plan assets either distributed to participants or beneficiaries, transferred to another plan, or brought under the control of the PBGC?		X	
l Has the plan failed to provide any benefit when due under the plan?		X	
m If this is an individual account plan, was there a blackout period? (See instructions and 29 CFR 2520.101-3.)			
n If 4m was answered "Yes," check the "Yes" box if you either provided the required notice or one of the exceptions to providing the notice applied under 29 CFR 2520.101-3.			

5a Has a resolution to terminate the plan been adopted during the plan year or any prior plan year? Yes No
If "Yes," enter the amount of any plan assets that reverted to the employer this year _____.

5b If, during this plan year, any assets or liabilities were transferred from this plan to another plan(s), identify the plan(s) to which assets or liabilities were transferred. (See instructions.)

INDEPENDENT AUDITORS' REPORT

Plan Administrator
Mack-UAW Pension Plan

Report on the Audit of the Financial Statements

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit for the Financial Statements

We have performed an audit of the accompanying financial statements of Mack-UAW Pension Plan, an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of December 31, 2024 and 2023, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audit of the financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audit need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained a certification from a qualified institution as of and for the years ended December 31, 2024 and 2023, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Opinion on the Financial Statements

In our opinion, based on our audit and on the procedures performed as described in the Auditors' Responsibilities for the Audit of the Financial Statements section

- the amounts and disclosures in the financial statements referred to above, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

- the information in the financial statements referred to above related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion on the Financial Statements

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Mack-UAW Pension Plan and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Mack-UAW Pension Plan's ability to continue as a going concern for one year after the date that the financial states are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit of the Financial Statements section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Mack-UAW Pension Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Mack-UAW Pension Plan's ability to continue as a going concern for a reasonable period of time.

Our audit did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control related matters that we identified during the audit.

Supplemental Schedule Required by ERISA

The supplemental schedule of reportable transactions for the year ended December 31, 2024 is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

Plan Administrator
Mack-UAW Pension Plan

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including their form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- The form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, is presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- The information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA section 103(a)(3)(C).

**MACK-UAW PENSION PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2024 AND 2023**

NOTE 1 DESCRIPTION OF PLAN

The following description of the Mack-UAW Pension Plan (the Plan) is provided for general information only. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a noncontributory defined benefit plan established on January 2, 1951 to provide retirement benefits for most employees of Mack Trucks, Inc. (the Company) who are in bargaining units represented by the International Union, United Automobile, and Aerospace and Agricultural Implement Workers of America (UAW) and its Locals and who were hired or rehired before June 1, 2009. The Plan was restated effective January 1, 2014, and most recently amended December 18, 2023. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

Funding Policy

The Company contributes to the Plan as determined by an independent actuary and minimum funding standards under current Federal income tax laws. Participants may not make contributions to the Plan. No contributions were required to meet the minimum funding requirements of ERISA for the years ended December 31, 2024 and 2023.

Benefits

Employees with five or more years of service are entitled to annual pension benefits beginning at normal retirement age 65. The Plan permits early retirement (1) with 30 years of service regardless of age; (2) when age plus service equals 85 for participants between ages 55 and 62; (3) at age 60 with 10 or more years of service for participants between ages 60 and 65. The normal form of benefits is a life annuity or a 55% joint and survivor annuity.

An employee may elect to commence benefits prior to termination of employment on or after April 1st of the calendar year following the calendar year in which the participant attains age 70½.

If an active employee who is eligible to retire dies, a survivor benefit equal to 55% of the employee's pension benefit is paid to the employee's surviving spouse. Active employees with 10 or more years of pension service who become totally and permanently disabled receive disability benefits that are equal to their normal retirement benefit.

Participants who have reached normal retirement age forfeit employee benefits accrued during any month during which they complete 40 or more hours of service. Benefits will be forfeited in accordance with this policy until April 1st of the calendar year following the calendar year during which the participant attains age 70½.

Vesting

Participants become fully vested in accrued benefits at the earlier of age 65 or upon completion of five years of credited service, as defined by the Plan.

NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The accompanying financial statements are prepared on the accrual basis of accounting, in accordance with accounting principles generally accepted in the United States of America.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein, disclosure of contingent assets and liabilities, and the actuarial present value of accumulated plan benefits at the date of the financial statements. Actual results could differ from those estimates.

Subsequent Events

The Plan has evaluated subsequent events through September 30, 2025, the date the financial statements were available to be issued.

Investment Valuation and Income Recognition

The Plan's interest in the Volvo Group Retirement Trust (the Group Trust) and the group annuity contract are valued at fair value. Fair value is based upon the quoted price, if available, that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Investment Committee determines the Plan's valuation policies utilizing information provided by the investment advisers, custodians, and trust company. See Note 5 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Contributions

The Company contributes annually an actuarially determined amount sufficient to fund the Plan's current service costs plus amortization of past service costs and other supplemental pension credits. In addition, sufficient contributions are made to fund changes in actuarial assumptions which are amortized in equal annual payments over 10 to 30 years and interest thereon. In accordance with the funding requirements of the Plan, no contributions were made by the Company for 2024 and 2023, which satisfied the minimum funding requirements of ERISA.

Payment of Benefits

Benefits are recorded when paid.

Reclassifications

Certain amounts in the 2023 financial statements have been reclassified to conform with the 2024 presentation. These reclassifications do not affect net assets available for benefits as previously reported.

**MACK-UAW PENSION PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2024 AND 2023**

NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Administrative Expenses

Certain administrative expenses of the Plan are paid by the Company and the Plan is responsible for certain administrative expenses. Various administrative costs, principally recordkeeping, actuarial, and audit fees were paid by the Group Trust and are reflected as administrative expenses in the statement of changes in net assets available for benefits. Investment management expenses paid by the Group Trust have been netted against investment income. In addition, the Company pays the salaries and related benefits of personnel involved with administrative services of the Plan.

Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits are those future periodic payments, including lump-sum distributions that are attributable under the Plan's provisions to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries. Benefits under the Plan are based on employees' service as of the valuation date. Benefits payable under all circumstances, (retirement, death, disability, and termination of employment) are included, to the extent they are deemed attributable to employee service rendered to the valuation date. Benefits to be provided through annuity contracts are excluded from Plan assets and are also excluded from accumulated plan benefits.

The actuarial present value of accumulated plan benefits is determined by the Plan's actuary and is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment.

The significant actuarial assumptions used in the valuation as of January 1, 2024 are as follows:

Actuarial Cost Method	Unit Credit Method												
Life Expectancy of Participants	PRI-2012 Mortality Table with MP-2021 Projection												
Investment Return Rate (Assumption Net of Expenses)	5.37% Compounded Annually

NOTE 3 CERTIFICATION

JP Morgan Chase Bank, N.A., the trustee of the Plan, has certified to the completeness and accuracy of investment information related to the Group Trust reflected on the accompanying statements of net assets available for benefits as of December 31, 2024 and 2023, and the related investment activity related to the Group Trust reflected in the statements of changes in net assets available for benefits for the years ended December 31, 2024 and 2023.

As of December 31, 2024 and 2023, there is \$71,899,604 and \$532,988,679, respectively, of a group annuity contract with Prudential Insurance Company of America that is not certified. The investment income the group annuity contract totaled \$31,182,234 and \$34,036,889, respectively, for the year ended December 31, 2024 and 2023.

NOTE 4 PLAN INTEREST IN GROUP TRUST

The Plan and certain other employee benefit plans of Volvo Group North America, LLC and Volvo Construction Equipment North America, LLC participate in a master trust. The Volvo Group Retirement Trust (Group Trust) is maintained by JP Morgan Chase Bank, N.A., as trustee at December 31, 2024 and 2023.

Each of the participating plans maintains a divided interest in the assets comprising the Group Trust. Plan interests are allocated based upon fixed shares assigned by the trustee proportionate to each plan's investment policy. Income or loss recognized by the Group Trust is allocated to participating plans using the ratio of each plan's shares of the investment to the total shares of the investment generating the income or loss.

NOTE 5 FAIR VALUE OF INVESTMENTS

Financial Accounting Standards Board (FASB) *Accounting Standards Codification* (ASC) 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly, such as:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair market value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs. Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the valuation methodologies used at December 31, 2024 and 2023.

Investments in cash and cash equivalents are valued based on cost, which approximates fair value in a noninflationary economy

Investments in notes and bonds (corporate and governmental securities) are valued using pricing models maximizing the use of observable inputs for similar securities. This includes basing value on yields currently available on comparable securities of issuers with similar credit ratings. When quoted prices are not available for identical or similar securities, the security is valued under a discounted cash flows approach that maximizes observable inputs, such as current yields of similar instruments, but includes adjustments for certain risks that may not be observable, such as credit and liquidity risks or a broker quote is available.

NOTE 5 FAIR VALUE OF INVESTMENTS (CONTINUED)

Collective trust funds are valued at the net asset value of units of the bank collective trust. NAV is a readily determinable fair value and is the basis for current transactions. Participant transactions (purchases and sales) may occur daily. If the Group Trust initiates a full redemption of the collective trust, the issuer reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner.

Derivative instruments are valued using pricing models based on the prevailing forward exchange rate of the underlying currencies taking into account the counterparties' creditworthiness.

Limited partnerships are valued based on the net asset value per unit (or its equivalent) based upon the fair value of the underlying investments. NAV is used as a practical expedient to estimate fair value.

Group annuity contracts are investments in an insurance company general account and are valued at fair value by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the credit worthiness of the issuer.

The following tables set forth by level, within the fair value hierarchy, the Group Trust's assets at fair value as of December 31:

NOTE 5 FAIR VALUE OF INVESTMENTS (CONTINUED)

The following table summarizes investments for which fair value is measured using the net asset per share practical expedient as of December 31:

Investment Type	Fair Value		Unfunded Commitments		Redemption Frequency	Redemption Notice Period
	2024	2023	2024	2023		
Limited Partnerships						
Private Equity	\$ 74,245,508	\$ 88,767,680	\$ 20,100,048	\$ 20,100,048	N/A	N/A

Limited Partnerships

The Group Trust's investment policy has an allowable range of up to 10% of the Group Trust's assets to be invested in private equity investments. The goal of the private equity component of the investment portfolio is to provide a higher total return than that available from more liquid marketable investments and to reduce the overall volatility of Group Trust's returns. The Group Trust has and will continue to invest in private equity investments diversified by investment strategy, geographic region, and global industry classification standard sector. Additionally, in order to further diversify the portfolio, investments have and will continue to be made across time or vintage year in order to avoid any attempt to time the market.

Given the illiquid nature of private equity investments, they generally cannot be sold at will and so a long-term outlook is required. Further, valuations are inherently subjective as they represent the best estimate of value in the absence of a readily observable market for pricing private equity investments. The underlying securities of the private equity investments include limited partnership interests in private equity venture partnerships, all of which carry restrictions on redemption.

Quantitative Information about Significant Unobservable Inputs Used in Level 3 Fair Value Measurements

The following table represents the Plan's Level 3 financial instruments, the valuation techniques used to measure fair value of those financial instruments, and the significant unobservable inputs:

NOTE 6 INVESTMENT IN GROUP ANNUITY CONTRACT

During 2023, the Plan entered into a buy-in commitment agreement with Prudential Insurance Company of America (Prudential) that Prudential shall provide a nonparticipating single premium group annuity contract (the Contract). The Plan paid \$509,021,000 premium to Prudential to provide reimbursement to the Plan for benefit obligations as elected by certain current retirees and beneficiaries. In 2024, the buy-in commitment agreement was converted to a buy-out for certain annuitants. As a result of the conversion, the Plan recorded the value of the contract conversion totaling \$424,530,148 as an annuity purchase reflected in the Statement of Changes in Net Assets for the year ended December 31, 2024.

The remaining value of the Contract totaling \$71,899,604, represents premium payments for the remaining annuitants in the Plan, is held at Prudential in a commingled separate account and its general asset account. Prudential primarily invests in investment-grade fixed income securities, but other investments are permitted. Prudential will reinvest the assets in the Separate Account at the time and in amounts as Prudential determines in its discretion and according to law. If the account does not have sufficient funds to pay the monthly obligation, Prudential will pay any deficiency from its general assets.

NOTE 7 FUTURES CONTRACTS - NET

The Plan (through Group Trust) may enter into various derivative contracts. As of December 31, 2024 and 2023, the Group Trust was invested in interest rate futures contracts.

An interest rate future is a futures contract with an underlying instrument that pays interest. The contract is an agreement between the buyer and seller for the future delivery of any interest-bearing asset. The interest rate futures contract allows the buyer and seller to lock in the price of the interest-bearing asset for a future date.

The Plan's net equity therein, representing unrealized gain or loss on the contracts, as measured by the difference between the valuation at the dates of entry in the contracts and the valuation at the reporting date is included in the Group Trust's statement of net assets. Realized and unrealized gains and losses are included in the Group Trust's statement of changes in net assets. These instruments involve market risk, credit risk, or both kinds of risks in excess of the amount recognized in the statement of net assets. Risks arise from the possible inability of counterparties to meet the terms of their contracts and movement in currency and securities values and interest rates. The year-end balance is indicative of the average volume during the year. At December 31, 2024 and 2023, the Plan had the following futures contracts – net:

FASB ASC 815, *Derivatives and Hedging*, are included in the Group Trust's statement of assets under investments which represents expected cash flows net of unrealized gain/loss on the contracts.

Realized and unrealized gains and (losses) totaling approximately \$(1,777,000) and \$(6,298,000) on derivatives contracts entered into during 2024 and 2023, respectively, are recorded in net appreciation of investments on the Group Trust's statement of changes.

The Plan may be required to post collateral on derivatives if the Plan is in a net liability position with the counterparty exceeding certain amounts. Additionally, counterparties may immediately terminate derivatives contracts if the Plan fails to maintain sufficient asset coverage for its contracts or its net assets decline by stated percentages.

NOTE 8 PLAN TERMINATION

The Plan and its provisions are subject to the terms and conditions of an agreement, effective January 1, 2014, between the Company and UAW. In the event this agreement terminates, the Company has the right to modify the benefits provided to active employees, to discontinue its contributions at any time, and to terminate the Plan subject to the provisions set forth in and of ERISA.

In the event the Plan terminates, the net assets of the Plan will be allocated, as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated:

**MACK-UAW PENSION PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2024 AND 2023**

NOTE 8 PLAN TERMINATION (CONTINUED)

- a. Annuity benefits that former employees or their beneficiaries have been receiving for the last three years, or that employees eligible to retire for that three-year period would have been receiving if they had retired with benefits in the normal form of annuity under the Plan. The priority amount is limited to the lowest benefit that was payable (or would have been payable) during those three years. The amount is further limited to the lowest benefit that would be payable under Plan provisions in effect at any time during the five years preceding the Plan termination.
- b. Other vested benefits insured by the Pension Benefit Guaranty Corporation (PBGC) (a U.S. government agency) up to the applicable limitations (discussed below).
- c. Other vested benefits insured by the Pension Benefit Guaranty Corporation (PBGC) (a U.S. government agency) up to the applicable limitations (discussed below).
- d. All other vested benefits (that is, vested benefits not insured by the PBGC).
- e. All nonvested benefits.

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination.

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations and may also depend on the financial condition of the Company and the level of benefits guaranteed by the PBGC.

NOTE 9 TAX STATUS

The Plan obtained its latest determination letter on September 2, 2014, in which the Internal Revenue Service (IRS) stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code (IRC). The Plan administrator and the Plan's tax counsel believe the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

NOTE 10 PARTY-IN-INTEREST TRANSACTIONS

The investments are held by JP Morgan Chase Bank, N.A., the trustee, and managed by various investment managers as defined by the Plan and, therefore, the investment transactions qualify as party-in-interest transactions. Fees paid by the Plan for investment management and trustee fees are included as a component of investment income on the statement of changes in net assets available for benefits.

The Plan's tax preparation and audit services are performed by CliftonLarsonAllen LLP (CLA). Therefore, amounts paid to CLA by the Plan qualify as party-in-interest transactions. These fees are included as a component of administrative expenses on the statement of changes in net assets available for benefits.

The Plan's actuarial and third-party administration services are performed Mercer. Therefore, amounts paid to Mercer by the Plan qualify as party-in-interest transactions. These fees are included as a component of administrative expenses on the statements of changes in net assets available for benefits for the years ended December 31, 2024 and 2023.

These transactions qualify as party-in-interest transactions, which are exempt from the prohibited transaction rules of ERISA.

NOTE 11 ACCUMULATED PLAN BENEFITS (CONTINUED)

The changes in the actuarial present value of accumulated plan benefits are summarized as follows for the year ended December 31, 2023:

	Amount
Actuarial Present Value of Accumulated Plan Benefits at Prior Valuation Date	\$ 787,105,649
Increase (Decrease) Attributable To:	
Benefits Accumulated and (Gains) Losses	8,382,277
Increase for Interest due to Decrease in the Discount Period	33,443,147
Change in Actuarial Assumptions	* (61,944,709)
Change in Plan Provisions	9,694,459
Benefits Paid	<u>(62,550,659)</u>
Net Changes	<u>(72,975,485)</u>
Actuarial Present Value of Accumulated Plan Benefits at Current Valuation Date	<u>\$ 714,130,164</u>

Change in actuarial assumptions of an approximate decrease of \$61.9 million was a result of a change in the investment rate of return from 4.44% to 5.37%. The computations of the actuarial present value of accumulated plan benefits were made as of January 1. Had the valuations been performed as of December 31, there would be no material differences.

NOTE 12 RISKS AND UNCERTAINTIES

The Plan provides for investment in a variety of investment funds. In general, investments are exposed to various risks, such as interest rate, credit, and overall market volatility risk. Due to the level of risk associated with certain investments, it is reasonably possible that changes in the values of the investments will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

Plan contributions are made, and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

Mortality sponsor elections	Section 430(h)(3) prescribed separate generational annuitant and nonannuitant mortality tables for 2024 plan year funding valuations, in accordance with IRS regulation 1.430(h)(3)-1. These tables are based on the base mortality rates from Pri-2012 mortality tables projected with mortality improvement based on the IRS methodology and modified projection scale MP-2021.

– Spouse age difference	3 years younger	3 years older
Form of payment	Election Percentage	Form
	20%	Single Life Annuity
	80%	Joint and 55% Survivor Annuity
Recall from Layoff Status	All layoffs are assumed to be recalled to work on January 1 in accordance with Volvo's estimates.	
Unpredictable contingent event assumptions	Employees who are on layoff receive up to one-year of service while on layoff. This benefit is valued implicitly by assuming that all participants terminating with less than 5 years of service have been laid off, and receive an additional year of service for vesting and benefit accrual.	

Rationale for Significant Economic Assumptions

- Expected investment return – Based on the median (50th percentile) simulated investment return using capital market assumptions published in Mercer Investment Consulting’s Capital Market Outlook published in July prior to the valuation date for the plans’ target asset mix, net of an adjustment of 25 basis points for investment expenses assumed to be paid from plan assets. The target asset allocation is 84% fixed income and 16% equities.
- Administrative Expenses – Administrative expenses paid in the prior year, adjusted for inflation and changes in expected PBGC premiums.

Rationale for Significant Demographic Assumptions

- Withdrawal, retirement, form of payment – Based on experience study covering the period January 1, 2012 to January 1, 2018, and management’s expectation that experience will not differ significantly in the future.

Schedule SB, Part V – Statement of Actuarial Assumptions/Methods

Actuarial methods for funding

Asset Methods

The asset valuation method is an average of the adjusted market value for each year during the last 2 years preceding the valuation date. The adjusted market value is the market value at each determination date adjusted to the valuation date based on actual cash flows and expected interest at the lesser of the expected rate of return and the third segment rate. This amount is adjusted to be no greater than 110 percent and no less than 90 percent of the fair market value, as defined in IRC Section 430.

A characteristic of this asset method is that, over time, it is slightly more likely to produce an actuarial value of assets that is less than the market value of assets than an actuarial value that is greater than the market value.

Participant Methods

Participants or former participants are included or excluded from the valuation as described below:

- **Participants included:** The plan sponsor provides us with data on all employees as of the valuation date, but only those employees who have completed the plan's eligibility requirements are included in the valuation of liabilities.
- **Participants excluded:** No actuarial liability is included for nonvested participants who terminated prior to the valuation date. For this purpose, participants with a break in service on the valuation date are treated as terminated participants.
- **Insurance contracts:** The plan does not have any insurance contracts other than a buy-in contract for certain Mack UAW retirees which was executed in 2023.
- **Disabled participants:** The liabilities for participants on long-term disability have been included with the liabilities for active participants.
- **Transferred participants:** The liabilities for employees who have transferred into another business unit of the plan sponsor have been included with the liabilities for terminated vested participants; liabilities for employees who have transferred from another business unit of the plan sponsor have been included with the liabilities for active participants, with credited service from date of transfer.
- **Layoffs:** Employees receive up to one year of service following layoff. The normal cost for employees currently on layoff reflects the service to be earned during the upcoming year. Employees currently on layoff are assumed to return to active employment by the end of the year.
- **Worker's Compensation:** Employees receiving Worker's Compensation receive credited service in the same manner as active employees. Employees currently receiving Worker's Compensation are assumed to return to active employment by the end of the year.

Minimum Funding Methods

The funding target for minimum funding calculations is computed using the traditional unit credit method of funding. The objective under this method is to fund each participant's benefits under the plan as they accrue. Thus, the total pension to which each participant is expected to become entitled at retirement is broken down into units, each associated with a year of past or future credited service.

Schedule SB, Part V – Statement of Actuarial Assumptions/Methods

A detailed description of the calculation follows:

- The plan's valuation date is the beginning of the plan year.
- An individual's **funding target** is the present value of future benefits based on credited service as of the beginning of the plan year, and an individual's **target normal cost** is the present value of the benefit expected to accrue in the plan year. If multiple decrements are used, the funding target and the target normal cost for an individual is the sum of the component funding targets and target normal costs associated with the various anticipated separation dates.
- The plan provides benefits that are not a function of a participant's accrued benefit or years of service. These benefits are allocated to funding target based on the ratio of the participant's service at the beginning of the plan year to their service at each decrement age and are allocated to target normal cost based on the proportionate benefit attributable to the increase in the participant's service during the plan year.
- The plan's **target normal costs** are the sum of the individual target normal costs, and the plan's **funding targets** are the sum of the individual funding targets for all participants under the plan.

Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

• Participation	Date of hire
• Employee contributions	None
• Service definitions	For purposes of this summary, the following are general service definitions:
– Vesting service	Vesting service is equal to the years and months of service as a covered employee. Vesting service is calculated on the basis of completed months, with a completed month meaning the period from a given day of the month through the preceding day in the next month. An additional full month is credited for any portion of a month beyond a completed month.
– Credited service	A year of credited service is granted for each calendar year in which the employee works at least 1,700 hours. In a calendar year in which less than 1,700 hours are worked, a fractional year of credited service is earned equal to the number of hours completed, divided by 1,700 and rounded to the nearest 1/10 of a year.

	The early retirement factor is not recalculated subsequent to retirement.						
Deferred vested							
• Eligibility	At least 5 years of vesting service.						
• Benefit	The normal retirement benefit. The benefit is payable no earlier than the first day of the month following the month in which the participant attains age 60, or, if earlier, the first day the sum of his age (to the nearest 1/10th) and credited service is at least 85. The monthly benefit is reduced by 7.2% per year for each year that benefit commencement precedes age 65.						
Late retirement							
• Eligibility	Beyond normal retirement						
• Benefit	The plan was amended May 1, 2012. For those who turned 65 before May 1, 2012, the participant receives the greater of their accrued benefit at benefit commencement date and their actuarially increased age 65 benefit. For those turning 65 after May 1, 2012, they get the greater of their accrued benefit at benefit commencement date and their actuarially increased May 1, 2012 accrued benefit.						
Disability							
• Eligibility	Total and permanent disability after completion of 10 years of credited service and prior to normal retirement.						
• Benefit	The normal retirement benefit payable from the first of the month following retirement upon total and permanent disability, with no reduction for early retirement.						
• Temporary Disability Supplement (also Special Early Retirement Benefit at Request of Company)	For participants retiring from total and permanent disability on or after January 1, 2005, a monthly benefit payable until the participant attains age 62 and one month (or until an unreduced Social Security benefit is payable, if earlier) and equal to the benefit rate from the following table multiplied by the participants years of credited service, up to 30 years: <ul style="list-style-type: none"> • Date of retirement 1/1/2005 to 5/31/2009: \$32.85 • Date of retirement 6/1/2009 and later: \$32.85 from 6/1/2009 – 12/31/2011 \$35.85 effective 1/1/2012 						
	This benefit is in addition to be the Disability Retirement benefit.						

Schedule SB, Part V – Summary of Plan Provisions

Early Retirement Supplemental Allowance	A monthly benefit payable to each participant upon early or disability retirement prior to age 62. The benefit is equal to the excess, if any, of the Gross Temporary Monthly Early Retirement Benefit over the Early Retirement Benefit (including the Temporary Disability Supplement if applicable). The benefit commences upon retirement and continues to the first of the month following age 62.
Gross Temporary Monthly Early Retirement Benefit	\$83.33 (\$2,500 after 30 years of credited service) for retirements on or after 1/1/2024 per month times years of credited service up to 30 years. For employees with less than 30 years of service, this amount is reduced by 12% for each year by which the participant's retirement date precedes age 60.
Special age 65 benefit	A monthly benefit payable to each retiree, spouse and surviving spouse upon normal, early or disability retirement (but excluding participants who retired with deferred vested pensions), commencing at age 65 (or enrollment in voluntary Medicare coverage) and continuing for life. The monthly benefit shall be equal to the actual Medicare Part B premium. Effective June 1, 2009, such amount cannot exceed \$115 per month.
Pre-retirement death	
• Eligibility	Vested member with a spouse.
• Benefit prior to early retirement	55% of the Deferred Vested Benefit (reduced if the participant is more than 10 years older than the spouse) to which the participant would have been entitled had he terminated employment on his date of death, survived until earliest benefit commencement date, and commenced benefits as of that date.
• Benefit after early retirement	55% of the Early Retirement Benefit (reduced if the participant is more than 10 years older than the spouse) to which the participant would have been entitled had he retired the first of the month preceding his death.
• Transition Survivor Income Benefit	A monthly benefit payable to an eligible survivor of an active employee or a disabled retiree who dies prior to attaining age 65. The benefit is payable for 24 months in the following amount (for deaths occurring on or after June 11, 2001): \$600 for each month in which the beneficiary is not eligible for an unreduced Social Security benefit, and \$325 thereafter.
• Bridge Survivor Income Benefit	A monthly benefit payable to an eligible spouse (spouse's age 45 or older at the employee's death or spouse's age plus employee's credited service is equal to at least 55) of an active employee or a disabled retiree who dies prior to attaining age 65. The benefit is payable after the Transition Survivor Income Benefit has been fully paid, until the surviving spouse attains age 62 and one month (or until an unreduced Social Security benefit is payable, if earlier), in the amount of \$600 per month.

Schedule SB, Part V – Summary of Plan Provisions

Benefit recalculation	If applicable, benefits for participants who retire during the terms of a contract are increased to reflect updated benefit levels becoming effective during the contract period.
Layoffs	Employees who are on layoff status retain seniority for the number of years worked as an active employee. Employees who are on layoff status can age into eligibility for early retirement during the period that he or she retains seniority.
Form of benefits	
• Automatic form for unmarried participants	Life annuity
• Automatic form for married participants	Joint and 55% survivor
• Optional forms	Joint and 75% survivor
• Optional form conversion factors	Joint and 55% survivor annuity: equal to the monthly retirement benefit, reduced ½% for each year by which the participant is more than 10 years older than the spouse (based on age nearest birthday on the benefit commencement date). Joint and 75% survivor annuity: actuarially equivalent to the life annuity.
Miscellaneous	
• Maximum benefits	Annual benefits may not exceed the limits in IRC Section 415. This limit is indexed annually. For 2024, the limit is \$275,000.
• Effects Agreement	An employee who elected to participate in the retirement incentive program described in the Effects Agreement and who is not retirement eligible is eligible for imputed service for the period beyond the date he is laid off and ceases to be eligible for banking hours, but not beyond the end of the current contract between Volvo and the UAW. Imputed service is provided for purposes of determining eligibility to retire: imputed service does not count as credited service for employees who retired prior to April 1, 2013. Imputed service does count as credited service for employees who retire on or after April 1, 2013.
• Jacksonville CKD closure	An employee who is laid off as a result of the closing of the Jacksonville CKD facility is eligible for special retirement provisions as described below: <ul style="list-style-type: none"> • An employee who would have been eligible to retire by October 1, 2016 is permitted to retire on the date he would have satisfied one of the conditions for early retirement. For such an employee, credited service includes the period from the date the facility closes through the date of early retirement. • An employee who attains age 60 prior to October 1, 2016 will have his Life Income Benefit (LIB) calculated without reduction for early retirement, even if he is laid off before age 60. • If an employee reaches two early retirement milestones before October 1, 2016, he can elect to retire at either date. • Employees who attain age 55 prior to exhausting seniority and have completed 10 or more years of credited service are eligible for Special Early Retirement Benefits at Request of Company.

Benefits Included or Excluded

Unless noted below, all benefits provided by the plans, as amended through January 1, 2024, are included in this valuation:

- **Plan amendments and benefit level increases:** All plan amendments have been reflected in the valuations and the ultimate benefit levels were reflected.
- **Late retirement increases:**
 - *Active participants:* The plans provide benefit suspension notices to participants who work beyond normal retirement; therefore, late retirement actuarial increases only apply to participants who defer retirement beyond age 70½.
 - *Deferred vested participants:* Current deferred vested participants over normal retirement age are valued including the late retirement actuarial increase.
- **Internal Revenue Code limitations:** The limitations of Internal Revenue Code Section 415(b) and 401(a)(17) have been incorporated into our calculations.

Schedule SB, Part V – Summary of Plan Provisions

- **IRC Section 416 rules for top-heavy plans:** We did not test whether this plan is top-heavy (when the present value of benefits for key employees equals or exceeds 60% of the present value for all participants). However, we expect that the plan is not top-heavy due to the large number of rank-and-file participants; therefore, the funding target and target normal cost do not reflect any liability for top-heavy benefit accruals.
- **IRC Section 436 benefit restrictions:**
 - *Unpredictable contingent event benefits:* This valuation excludes restricted contingent event benefits that occurred before the valuation date but includes contingent event benefits which are expected to occur on or after the valuation date regardless of anticipated funding-based limitations.
 - *Plan amendments:* See above.
 - *Prohibited payments:* Limitations on prohibited benefits (if any) are reflected for annuity starting dates before the valuation date but are ignored for annuity starting dates on or after the valuation date.
 - *Benefit accruals:* The plan's funding target does not reflect any limitation on benefit accruals. The target normal cost does not reflect any limitation on benefit accruals.
- **Unpredictable contingent event benefits:** Employees laid off receive up to one year of service while on layoff. This benefit is valued implicitly by assuming that all participants terminating with less than five years of service had been laid off, and receive an additional year of service for vesting and benefit accrual.
