**Statement by Enrolled Actuary**  
 To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Funding Method

Funding method as required by the Pension Protection Act of 2006. Under this method, the plan's funding target is determined as the sum of the actuarial present values (as of valuation date) of the individual accrued benefits taken into account for valuation purposes as of the beginning of the plan year.

The target normal cost is the sum of actuarial present values (on the valuation date) of the benefits deemed to accrue in the plan year.

An individual's accrued benefit for valuation purposes as of any determination date with respect to any assumed separation date(s) is the accrued benefit described under the plan, based on credited service as of the determination date, with plan compensation, benefits, and offset (if any), projected to the separation date.

The benefit deemed to accrue for an individual during a plan year is the excess of the accrued benefit for valuation purposes at the end of the plan year over the accrued benefit for valuation purposes at the beginning of the plan year.

If multiple separation dates are used, the actuarial present values take into account the probability of each separation event.

- There is a change in the funding method for the plan year that qualifies for automatic approval under Revenue Procedure 2017-56, Section 4.01 (“Approval for change in funding method for takeover plans”). Both the enrolled actuary for the plan and the business organization providing actuarial services to the plan have changed since the prior plan year. The funding target, target normal cost (without regard to any adjustments for employee contributions and plan-related expenses) and actuarial value of assets, as determined by the new valuation software and actuary as of the valuation date for the prior plan year, are within 3% and 2% of those values as determined by the prior valuation software. The other requirements of Section 4.01 are also satisfied.

**Statement by Enrolled Actuary**  
 To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

**Schedule SB, line 25 – Change in Method**

---

- There is a change in the funding method for the plan year that qualifies for automatic approval under Revenue Procedure 2017-56, Section 4.01 (“Approval for change in funding method for takeover plans”). Both the enrolled actuary for the plan and the business organization providing actuarial services to the plan have changed since the prior plan year. The funding target, target normal cost (without regard to any adjustments for employee contributions and plan-related expenses) and actuarial value of assets, as determined by the new valuation software and actuary as of the valuation date for the prior plan year, are within 3% and 2% of those values as determined by the prior valuation software. The other requirements of Section 4.01 are also satisfied.
