Report of Independent Auditors

Retirement Committee of the
Navy Mutual Aid Association Employees' Retirement Plan

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of Navy Mutual Aid Association Employees' Retirement Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for plan benefits as of December 31, 2024 and 2023, and the related statements of changes in net assets available for plan benefits for the years then ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from qualified institutions as of December 31, 2024 and 2023, and for the years then ended, stating that the certified investment information, as described in Note D to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section:

- The amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- The information in the accompanying financial statements related to assets held by and certified to by qualified institutions agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter - Supplemental Schedules Required by ERISA

The supplemental Schedule H, Line 4i - Schedule of Assets (Held at end of Year) as of December 31, 2024 and Schedule H, Line 4j - Schedule of Reportable Transactions for the year ended December 31, 2024 are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedules, other than that agreed to or derived from the certified investment information, has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedules that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, other than the information agreed to or derived from the certified investment information, including their form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- The form and content of the supplemental schedules, other than the information in the supplemental schedules that agreed to or is derived from the certified investment information, are fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- The information in the supplemental schedules related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Navy Mutual Aid Association Employees' Retirement Plan

Notes to Financial Statements

Years ended December 31, 2024 and 2023

Note A - Description of Plan

The following brief description of the Navy Mutual Aid Association (the Association, Plan Administrator, or Plan Sponsor) Employees' Retirement Plan (the Plan) is provided for general information purposes only. Participants should refer to the Plan agreement for more complete information.

General

The Plan is a defined benefit plan providing retirement benefits to all eligible employees and in some cases their spouses. The Plan sponsor is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA). The Plan includes only eligible employees of the Association. Entry into the Plan was frozen effective December 31, 2017. After that date, no employee or former employee shall become an active participant, and no inactive participant or former participant shall again become an active participant.

The Plan is administered by the Association that reports to the Retirement Committee (Plan discretionary trustees). The Plan discretionary trustees, who have authority to manage and control Plan assets, are all members of the Retirement Committee of the Association, whose membership consists of Association staff. In 2019, Principal Trust Company was added as a directed Trustee, with authority to act upon the direction of discretionary Trustees. The Trustees have overall responsibility for the operation and administration of the Plan. The Trustees annually review the investment policies of the Plan; review selection of custodians, investment managers and other providers of investment-related services; review actuarial assumptions underlying the employee benefit plans; and review quarterly reports of investment performance compared to benchmarks.

The Association has agreed to contribute such amounts as are necessary to fund the benefits to be provided by the Plan in accordance with the requirements of ERISA. The amount and timing of the contributions shall be determined based on actuarial valuations and recommendations.

Pension Benefits and Vesting

Retirement benefits for participants normally begin at the latest of the following dates: the date the participant attains age 65, five years after the date the participant entered the plan or the date the participant terminates service with the Association. Early retirement benefit may be elected at 55 if the participant has also completed 5 years of vesting service. Early retirement benefits may be reduced if taken on the early retirement date. Late retirement may be elected by a participant after their normal retirement date. Their benefit will be the greater of their accrued benefit on that date or their accrued benefit on their normal retirement date multiplied by a specific factor. An additional adjustment is made for certain non-5% owners who defer commencement past age 70½, to account for the period they were not receiving benefits.

Navy Mutual Aid Association Employees' Retirement Plan

Notes to Financial Statements (Continued)

Note A - Description of Plan (Continued)

Pension Benefits and Vesting (continued)

Benefits are calculated based on the following formula:

Earned Benefit = 1.5% of the average monthly pay multiplied by time of service for the highest 36 consecutive months out of the latest 120 months.

Effective January 1, 2018, participants may elect to begin receiving retirement benefits after the normal retirement date and while still an employee of the Association.

Participants become 100% vested in the Plan upon completion of 5 years of service. If an employee terminates before rendering 5 years of service, they forfeit the right to receive any benefit from the Plan.

If the participant's earned benefit is \$7,000 or less, it shall be paid as a single lump sum. If the earned benefit exceeds \$7,000, any of the following options may be chosen:

- Monthly income for life – no benefits payable after death
- Monthly income for life – with a period certain of 5 or 10 years in which the participant's beneficiary continues to receive payments
- Monthly income for life – with a chosen percentage (50%, 75%, or 100%) of the monthly income to continue for the lifetime of a named survivor
- Single lump sum.

Earned benefits for participants are provided entirely by contributions to the Plan and any earnings from the investment of those contributions. These contributions and their earnings are held in trust for the exclusive benefit of participants and their beneficiaries.

Each January 1, monthly benefits from the Plan are increased if the Consumer Price Index published by the United States Department of Labor has increased since the last adjustment was made.

Death and Disability Benefits

A death benefit may be payable to a participant's spouse from the Plan if the following requirements are met:

- The participant dies before retirement benefits start
- The participant is married
- The participant's vesting percentage is greater than zero.

Navy Mutual Aid Association Employees' Retirement Plan

Notes to Financial Statements (Continued)

Note A - Description of Plan (Continued)

Death and Disability Benefits (continued)

If these conditions are met, the death benefit payable to the spouse equals the survivor's benefit under a 50% form and is payable to the spouse on the earliest date the participant could have retired on or after the date of the participant's death. A single sum death benefit is payable if the individual is a participant when they de cease.

If an active participant becomes totally disabled, the participant will not continue to earn benefits.

Plan Administration

The operation and administration of the Plan is the responsibility of the Trustees of the Plan. Principal Trust Company (the Custodian) provides an annual accounting of the Plan's assets.

Plan Termination

Although it has not expressed any intention to do so, the Association has the right, under the Plan, to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA. If the Plan were terminated, the assets would be allocated and applied as of the effective date of termination of the Plan according to the classifications and order of precedence provided by ERISA.

PBGC Coverage

Certain benefits under the Plan are insured by the Pension Benefit Guaranty Corporation (PBGC), a U.S. governmental agency. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivor's pensions. The amount of benefit protection is, however, subject to certain limitations.

Note B - Summary of Significant Accounting Policies

The following is a summary of significant accounting policies followed in the preparation of the accompanying financial statements. These policies conform to accounting principles generally accepted in the United States (GAAP) for benefit plans and have been consistently applied.

Basis of Accounting

The accompanying financial statements are prepared on the accrual basis of accounting.

Estimates

The preparation of financial statements in conformity with GAAP requires the Plan Administrator to make estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein, and disclosures of contingent assets or liabilities, and the actuarial present value of accumulated plan benefits at the date of the financial statements. Accordingly, actual results may differ from those estimates.

Navy Mutual Aid Association Employees' Retirement Plan

Notes to Financial Statements (Continued)

Note B - Summary of Significant Accounting Policies (Continued)

Payment of Benefits

All benefit payments to participants are recorded upon distribution.

Investment Valuation and Income Recognition

Investments consist of mutual funds and pooled separate accounts and are stated at fair value. Fair value of a financial instrument is the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. If available, quoted market prices are used to value investments.

The Plan presents the net appreciation in the fair value of its investments in the statement of changes in net assets available for plan benefits, which consists of realized gains or losses and the unrealized appreciation or depreciation on those investments.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect amounts reported in the statements of net assets available for plan benefits.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

Administrative Expenses

Certain expenses of maintaining the Plan are paid by the Plan, unless otherwise paid by the Association. Expenses that are paid by the Association are excluded from these financial statements.

Subsequent Events

Management has performed an evaluation of subsequent events through September 25, 2025, which is the date the financial statements were available to be issued, and has considered relevant matters in the preparation of the financial statements and notes.

Note C - Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits are those estimated future periodic payments including lump sum distributions that are attributable under the Plan's provisions to services rendered by the employees to the valuation date. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries.

Benefits payable under all circumstances – retirement, death, disability, and termination of employment – are included, to the extent that they are deemed attributable to employee service rendered to the valuation date.

An independent actuary estimates the actuarial present value of accumulated plan benefits, which is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits earned by the participants to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment. The most recent actuarial valuation date is December 31, 2024.

The accumulated plan benefit information as of December 31 is as follows:

	December 31,	
	2024	2023
Actuarial present value of accumulated plan benefits:		
Vested benefits:		
Participants currently receiving payments	\$ 8,811,473	\$ 8,520,878
Other participants	14,377,681	13,332,999
Total vested benefits	23,189,154	21,853,877
Non-vested benefits	221,950	275,685
	\$ 23,411,104	\$ 22,129,562

Navy Mutual Aid Association Employees' Retirement Plan

Notes to Financial Statements (Continued)

Note C - Actuarial Present Value of Accumulated Plan Benefits (Continued)

The sources of the net change of the actuarial present value of accumulated plan benefits for the years ended December 31, 2024 and 2023 are as follows:

	2024	2023
Actuarial present value of accumulated plan benefits at beginning of year	\$ 22,129,562	\$ 22,999,751
Increase (decrease) during the year attributable to:		
Benefits accumulated and plan experience	491,218	1,946,301
Interest	1,471,143	1,398,093
Benefits paid	(680,819)	(3,028,922)
Change in assumptions	-	(1,185,661)
Actuarial present value of accumulated plan benefits at end of year	\$ 23,411,104	\$ 22,129,562

Significant assumptions underlying the actuarial computations are:

Discount rate	Long term rate of return of 6.75% for 2024 and 2023.
Life expectancy	For 2024 and 2023, mortality rates are based on Society of Actuaries' Pri-2012 total dataset base rate mortality table projected generationally using the Principal Mortality Improvement Scale (Principal 2023). The Principal 2024 scale is based on the MIM-2021-v4 application tool issued by the Society of Actuaries in October 2023.
Assumed retirement age	For 2024 and 2023, 10% at age 55, 5% at ages 56 through 59, 20% at age 60, 10% at age 61, 2% at ages 62 through 64, and 100% at age 65. Terminated vested participants as of the valuation date are assumed in 2024 and 2023 to retire 25% at age 60, 10% at ages 61 and 62, 5% at ages 63 and 64, and 100% at age 65.

The foregoing assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

The Association contributes such amounts as are necessary to the Plan to provide assets sufficient to meet the current and future benefits to be paid to participants and satisfy the ERISA minimum funding requirements. The Plan is considered to have met the minimum funding requirements of ERISA for the years ended December 31, 2024 and 2023.

Note D - Certified Financial Information

As of December 31, 2024 and 2023 and for the years then ended, the Plan administrator elected the method of compliance as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, certain information related to investments disclosed in the accompanying financial statements and ERISA-required supplemental schedules, including investments held at December 31, 2024 and 2023, and net appreciation in fair value of investments and interest and dividends for the years then ended, was obtained by management and agreed to or derived from information certified as complete and accurate by Principal Life Insurance Company and Principal Trust Company (collectively, Principal). As of December 31, 2024 and 2023 and for the years then ended, Principal Life Insurance Company certified all investments classified as pooled separate accounts and the related investment income, and Principal Trust Company certified all other Plan investments and investment income. Accordingly, Principal has certified that the following data included in the accompanying financial statements and supplemental schedules is complete and accurate:

	December 31,	
	2024	2023
Investments (at fair value):		
Mutual funds	\$ 18,024,752	\$ 15,979,470
Pooled separate accounts	12,080,609	12,943,537
Total investments	\$ 30,105,361	\$ 28,923,007
Investment income:		
Interest and dividends	\$ 1,106,262	\$ 398,443
Net appreciation in fair value of investments	180,056	3,071,219
Total investment income	\$ 1,286,318	\$ 3,469,662

Fair Value Measurements

GAAP establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements).

The three levels of fair value hierarchy under GAAP are described below:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Navy Mutual Aid Association Employees' Retirement Plan

Notes to Financial Statements (Continued)

Note E - Investments (Continued)

Fair Value Measurements (continued)

Level 2 - Inputs to the valuation methodology include quoted prices for similar assets in active markets, quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurements. The unobservable inputs reflect the Plan's own assumptions about the inputs that market participants would use.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2024 and 2023:

	December 31,		Fair Value
	2024	2023	Hierarchy Level
Mutual funds	\$ 18,024,752	\$ 15,979,470	Level 1
Investments measured at net asset value as a practical expedient:			
Pooled separate accounts (1)	12,080,609	12,943,537	
	\$ 30,105,361	\$ 28,923,007	

(1) In accordance with GAAP, certain investments that are measured at fair value using net asset value per share (or its equivalent) as a practical expedient have not been classified in the fair value hierarchy. The fair value amounts presented in the table above are intended to permit reconciliation to the amounts presented in the statements of net assets available for Plan benefits.

There are no unfunded commitments and no restrictions on redemption on the pooled separate accounts.

Navy Mutual Aid Association Employees' Retirement Plan

Notes to Financial Statements (Continued)

Note F - Tax Status

Effective January 1, 2024, the Plan was restated as a modified volume submitter plan and therefore, is pre-approved by the Internal Revenue Service (IRS). The volume submitter plan received an opinion letter dated February 28, 2023. The Plan is required to operate in conformity with the Internal Revenue Code to maintain its qualification. The Plan Administrator believes that the Plan is qualified and therefore, the related trust is exempt from taxation. Therefore, no provision for income taxes has been included in the Plan's financial statements. The Plan Administrator has concluded there are no uncertain tax positions as of December 31, 2024 in accordance with GAAP. The Plan is subject to examination by tax authorities; there are currently no examinations being conducted.

Note G - Related Party Transactions and Party in Interest Transactions

Certain Plan investments are invested with Principal, the custodian and insurance company of the Plan. These transactions qualify as party in interest transactions. In conjunction with their management, administrative fees are paid out of plan assets to Principal and included in administrative expenses. The Plan Administrator directly pays certain other fees related to the Plan's operations. Additionally, personnel and facilities of the Plan Administrator have been used to perform administrative functions for the Plan at no charge to the Plan.

Note H - Subsequent Event

In August 2025, the Plan received approximately \$328,000 from the Plan's financial advisor as reimbursement for a 2022 investment trade misallocation. The subsequent resolution of this contingency will be included in the Plan's 2025 statement of changes in net assets available for plan benefits.

Assumptions prescribed by law

Mortality

Before benefit payment period

IRS Prescribed Mortality - Optional Combined Table for Small Plans, male and female.

During benefit payment period

IRS Prescribed Mortality - Optional Combined Table for Small Plans, male and female.

Assumptions selected by actuary

Inflation

2.40% increase per year.

Our long-term inflation assumption considered the current economic environment, recent and historical data and forecasts from Federal Reserve Bank FOMC, Congressional Budget Office and Survey of Professional Forecasters. See Long-Term Capital Market Assumptions link.

Asset return

7.25% for the current plan year.

The asset return is developed as a weighted average rate based on the target asset allocation of the plan and the long-term capital market assumptions. The calculated return is on an arithmetic mean basis. For details, see the Long-Term Capital Market Assumptions link.

Expected expense

The expected expense included in target normal cost is an estimate based on prior year expenses paid from plan assets with an updated estimate of PBGC premiums. This is the best estimate available of upcoming year's expenses.

Retirement

Active participants

Age	Probability of retirement	Age	Probability of retirement
55	10%	61	10%
56	5%	62	2%
57	5%	63	2%
58	5%	64	2%
59	5%	65	100%
60	20%		

Inactive participants

Age	Probability of retirement	Age	Probability of retirement
60	25%	63	5%
61	10%	64	5%
62	10%	65	100%

This assumption is based on the results of recent experience analysis and anticipated future experience. Some participants retire early since the plan provides an early retirement subsidy beginning at age 60.

Upcoming year salary increase

The preceding year's salary is increased using the S-5 Table from The Actuary's Pension Handbook, increased by 4.00% at each age. This table provides a rate of increase that declines as participants age. Note: not used for Plan accounting calculations.

Age	Upcoming increase
25	8.18%
40	6.72%
55	5.88%

Expected salary increase is composed of salary inflation, a real wage growth and a merit increase. This reflects company salary increase philosophies along with more recent experience of the plan participants.

Disability

None.

This plan does not offer a subsidized disability benefit; therefore, the disability assumption is built into the withdrawal assumption.

Marriage

75% married; husbands are 3 years older than wives.

This assumption does not have material impact on the results of this report and has been selected based on our best estimate of active workforce.

Withdrawal

2003 Society of Actuaries Small Plan Age Table multiplied by 1.25.

We rely on a publicly published table due to the limited size of the plan. The SOA Small Plan Age Table is the most recent withdrawal experience table published by the Society of Actuaries. A multiplier of 1.25 is applied to this table to reflect the results of the most recent experience analysis and anticipated future experience.

Form of benefit and basis

50% of active and inactive participants will elect a benefit paid in a lump sum at the assumed retirement ages. The remaining active and inactive participants will elect a monthly annuity on the normal form at the assumed retirement ages. Active participants who terminate before the earliest assumed retirement age are assumed to receive a single sum immediately of the benefit payable at age 60.

This assumption is based on the results of recent experience analysis and anticipated future experience.

The lump sum benefit is based on the applicable mortality and the plan's funding target interest rates, as prescribed

Retirement cost of living adjustment

2.40% per year

Retirement cost of living adjustment should be consistent with the inflation assumption.

Methods prescribed by law

Liability measure

Funding target is the present value of the benefits accrued on the valuation date.

Target normal cost is based on benefits expected to accrue during the current plan year and includes an estimate of plan expenses for the year.

Benefit accrual

All benefits paid at decrement are considered in total and then split to determine how much is included in funding target. The following pieces are included in the funding target.

The portion based on the plan's definition of accrued benefit.

The benefit portion in excess of the accrued benefit based on the ratio of the participant's years of service on the valuation date to the years of service the participant will have at the time of decrement.

The benefits included in target normal cost are calculated similarly, by splitting the benefits. The target normal cost is based on the difference between the amount included in funding target and an amount calculated assuming the participant accrues service through the end of the plan year.

Lump sum payments

Lump sum payments are valued using the plan's funding target interest rates as required, per IRS guidance.

Methods selected by plan sponsor

Asset method

The asset valuation method is prescribed by law for plans that elect to use a value other than market value.

For each of the preceding two years, an expected value of assets at the end of the year is compared to the end of year market value. The resulting gain or loss is recognized evenly over three plan years.

The expected value includes contributions, distributions, any deducted administrative expenses and expected earnings (based on the lesser of the assumed interest rate or the maximum allowable rate). The deferred gains and losses are added to the current market value and then restricted to no more than 110% and no less than 90% of that market value.

When actual returns exceed the assumed return, the actuarial value of assets will lag below market value. The lag and the smoothing effect are limited since the value must be within 10% of market value.

Segment rates

24-month average with no weighting to prior law basis. Use rates where August is the last month included in the average.

PBGC premium basis

Variable rate premiums are calculated using census, market value of assets and the one-month average of corporate bond rates in effect on the valuation date. You elected this standard interest method for the 01/01/2019 plan year, and the method must be used for five years before a change can be made.

Segment 1 years 0-5	Segment 2 years 5-20	Segment 3 years 20+
5.01%	5.13%	5.15%

Methods elected by actuary

Retirees

Assets and liabilities for current and future retirees are included.

Vested benefits

A benefit is included in vested benefits if it meets the requirements under PBGC. The benefit is multiplied by the participant's vesting percentage applicable to each benefit on the valuation date.

The following ancillary benefits are always treated as nonvested: disability benefits payable to retirement age unless in pay status, pre-retirement death benefits in excess of the survivor annuity death benefit and post-retirement death benefits for non-retired participants except as noted in the Plan provisions.

Assumptions and methods elected by actuary - plan accounting (ASC 960)

With the exceptions below, all assumptions and methods are the same as those used in determining your plan's regular funding target and target normal cost.

Mortality

Based on Pri-2012 total dataset base rate mortality table projected generationally using the using the Principal Mortality Improvement Scale (Principal 2023).

Mortality base rates

Before benefit payment period

Employee amount-weighted, male and female

During benefit payment period

Retiree amount-weighted, male and female

The Society of Actuaries (SOA) is an actuarial organization that periodically reviews mortality data and publishes mortality tables and improvement scales. In October 2019, the SOA released the Pri-2012 Mortality Tables for private-sector retirement plans in the U.S. The Pri-2012 report contains different sets of mortality tables based on complete dataset or various subsets. The total dataset base rate table was selected based on information provided by the plan sponsor.

Pri-2012 section 12.4. provided three approaches for designated beneficiaries in the calculation of joint-and-survivor annuities. We believe "Approach 1" is reasonable for this plan.

Mortality improvement

Principal 2023 MI scale is based on MIM-2021-v4 application tool issued by SOA in October 2023 with the following parameters:

Parameter	Principal 2023
Historical dataset	SSA
Whittaker-Henderson Graduation	Order 3
Interpolation Structure	Basic
Graduated MI data last year ("jumping off" point)	2017
H/D transition ultimate year by age/cohort	2029/2029
Weight placed on interpolation by cohort	50%
Initial Slope periods (constraint)	2016-2017 (0.000)
LTR	SSA LTR 2023
COVID-19 or Excess load	None ¹

¹ Based on the sponsor's input, plan experience does not show a need for long-term excess death or COVID death load adjustments.

See Mortality documentation for rationale and additional information.

Interest rate used to value liabilities

6.75%

The interest rate used to value ASC 960 liabilities is developed as long-term expected geometric return on plan assets. Arithmetic expected return is calculated as the weighted average of broad asset classes' arithmetic returns of the plan's target asset allocation and then converted to the geometric under lognormal distribution assumption. For details, see Long-Term Capital Market Assumptions link.

Treatment of administrative expenses

No adjustments are made for administrative expenses, either through a reduction in the discount rate or by calculating a present value of future expenses.

Plan sponsors may change their administrative expense handling at any time. Our approach provides consistent handling of ASC 960 liabilities from year to year, whether expenses are paid with plan assets or directly by the employer.

Note – expenses paid with plan assets are required to be included in funding normal cost. As a result, the plan is reimbursed annually through required funding. Exception – contributions are not required due to assets sufficiently in excess of liabilities to fund both expenses and normal cost. In this case, administrative expenses are taken from the excess assets.

Basis for lump sums

Interest rate

Based on the three segment yield curve: 3.55%, 3.95% and 4.95%
The plan document defines the lump sum interest rate based on IRC §417(e) rates, which closely tie to the high-quality corporate bond yields. According to our most recent study, the long-term expected yields for short, intermediate and long corporate bonds are 3.55%, 3.95% and 4.95%. For details, see Corporate AA yield in Table 3 of Long-Term Capital Market Assumptions link.

Mortality

We have selected the same mortality assumption for lump sum payments but with a 50/50 blend of male and female total dataset base rates and mortality improvement scales. This reflects the IRS practice of defining lump sum mortality on a unisex basis.

Statement by Enrolled Actuary
 To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Schedule SB, Line 2a - Explanation of Assets
Navy Mutual Aid Association Employees' Retirement Plan
EIN 53-0116720 Plan No. 001

The market value of assets on line 2a does not equal assets shown on Schedule H, Schedule I or Form 5500-SF. Schedule H, Schedule I and Form 5500-SF use the full value of contributions received after plan year end. Line 2a includes the value of \$750,000 contributions received after the plan year end with a discounted value of \$732,364.

Schedule SB, Line 22 - Description Of Weighted Average Retirement Age
 Navy Mutual Aid Association Employees' Retirement Plan
 EIN 53-0116720 Plan No. 001

The weighted average retirement age is weighted by the expected percentage of active participants retiring at each age. The retirement rate reflects only those participants who meet retirement eligibility. An active participant working past assumed retirement age is expected to retire at current age.

(1) Age	(2) Expected Active Headcount	(3) Retirement Rate	(4) Expected Retirements (2)*(3)	(5) Weighted Age (1)*(4)

This report reflects the maximum benefit limits under Internal Revenue Code (IRC) Section 415 and maximum compensation limits under IRC Section 401 in effect on the first day of each plan year.

The following is a summary of plan provisions and does not alter the intent or meanings of the provisions contained in the contract or plan document. This report reflects the provisions of the restated plan signed 09/17/2019, including the amendment signed 07/25/2022.

Plan eligibility

Entry date Date of employment.
As of 12/31/2017 no employee, inactive or former participant shall again become an active participant in the plan.

Normal retirement benefit

Age The later of attained age 65 or the fifth anniversary of plan entry.
A participant may elect to begin to receive retirement benefits before a severance of employment.

Form Monthly annuity payable for life (optional forms may be elected in advance of retirement).

Amount (accrued benefit) 1.50% of average compensation multiplied by accrual service.

Early retirement benefit

Age Attained age 55.

Service Five years of service.

Form Same as normal retirement benefit.

Amount Accrued benefit on early retirement date reduced by 1/6 of 1% for each month that the early retirement date precedes normal retirement date. There is no reduction if a participant has attained age 60 and completed 30 years of service.
A participant may elect to receive a single sum equal to the greater of the present value of the deferred monthly retirement benefit payable beginning on his normal retirement date under the normal form or the present value of the early retirement benefit payable immediately.

Late retirement benefit

Age	No maximum age. A participant may elect to begin to receive retirement benefits before a severance of employment.
Form	Same as normal retirement benefit.
Amount	Greater of the accrued benefit on late retirement date and the actuarial equivalent of the accrued benefit as of normal retirement date, corresponding to the number of months the late retirement date follows the later of January 1, 1982 or normal retirement date.

Termination benefit

Vesting percentage	100% after five years of vesting service.
Form	Same as normal retirement benefit with income deferred until normal retirement date. A participant may elect to receive a single sum payable any time after a severance of employment equal to the present value of the deferred monthly retirement benefit payable beginning on his normal retirement date under the normal form.
Amount	Accrued benefit on date of termination multiplied by the vesting percentage.

Disability benefit

Eligibility	Totally and permanently disabled before retirement.
Form	A participant may elect to receive a single sum payable any time after a severance of employment equal to the present value of the deferred monthly retirement benefit payable beginning on his normal retirement date under the normal form. An immediate monthly annuity payable under the normal form is also available. An optional form of a monthly 75% survivorship life annuity is available for married participants. No optional forms are available for unmarried participants.
Amount	Accrued benefit on severance of employment date multiplied by the vesting percentage.

Survivor annuity death benefit (a vested benefit)

Eligibility	Married participant fully or partially vested in an accrued benefit.
Form	Monthly annuity payable to spouse, deferred to participant's earliest retirement date if later than the date of death.
Amount	If death occurs, the amount paid to the surviving spouse is equal to the amount that would have been paid had the participant terminated employment on the date of death and survived to his/her earliest retirement age, retired with a qualified joint and 50% survivor annuity in effect, then died the next day, but not less than the qualified preretirement survivor annuity that is the actuarial equivalent of the single sum death benefit on that date.

Single sum death benefit (a nonvested benefit)

Eligibility	All participants.
Form	Single sum payable immediately.
Amount	The present value of the deferred monthly retirement benefit payable beginning on his normal retirement date under the normal form.

Cost of living adjustment

Amount	Adjustment to the retirement benefit each January 1st based on the Consumer Price Index (CPI-W). The cost of living adjustment is confirmed each year by Adam Mullins, Chief Financial Officer.
--------	---

Definitions

Average compensation	The monthly average of total pay received for the 36 consecutive months which gives the highest average out of the final 120 months.
Optional forms of benefit payments	<p>The optional forms of benefit payments are:</p> <ul style="list-style-type: none"> Monthly annuity payable for life, or 5, or 10 years certain and life Monthly annuity payable as a survivorship life annuity with survivorship percentages of 50, 75, or 100.
