The Retirement Plan Committee
Mechanics Bank Profit Sharing / 401(k) Plan
Walnut Creek, California

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of Mechanics Bank Profit Sharing / 401(k) Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of December 31, 2024 and 2023, and the related statement of changes in net assets available for benefits for the year ended December 31, 2024, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of December 31, 2024 and 2023, and for the year ended December 31, 2024, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section

- the amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- the information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

(Continued)

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year from the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.

(Continued)

- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter – Supplemental Schedules Required by ERISA

The supplemental schedule of Schedule H, Line 4i – Schedule of Assets (Held at End of Year) as of December 31, 2024, is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion

- the form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- the information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

MECHANICS BANK PROFIT SHARING/401(k) PLAN
NOTES TO FINANCIAL STATEMENTS
December 31, 2024 and 2023

NOTE 1 - PLAN DESCRIPTION

The following description of Mechanics Bank Profit Sharing / 401(k) Plan (the Plan) provides only general information. Participants should refer to the Plan Document and Summary Plan Description for a complete description of the Plan's provisions.

The Plan was established by Mechanics Bank (the Bank) on October 10, 1945, to provide deferred compensation benefits for eligible employees. For the first 60 years of its existence, the Plan operated under a separate trust agreement and was named Mechanics Bank Profit Sharing Plan and Trust. The Bank served as both the Plan Sponsor and Trustee during all these years. Effective January 1, 2006, the Plan was officially restated and converted to a Prudential Retirement Services Prototype Plan ("Prototype Plan"). With this conversion, the name of the Plan was officially changed to Mechanics Bank Profit Sharing/401(k) Plan. Pursuant to a new Trust Agreement that also became effective January 1, 2006, the Prudential Bank & Trust, F.S.B. ("Prudential") was appointed the successor trustee to the Plan and Prudential Retirement Insurance & Annuity Company serves as Plan custodian. Prudential then proceeded to receive, hold, manage and reinvest all the assets and provide specified recordkeeping and administrative services and make appropriate distributions of Trust Funds ("Trust Funds") for the exclusive benefit of the Plan participants or beneficiaries.

Effective July 1, 2017, a new Trust Agreement became effective, and Fidelity Management Trust Company ("Fidelity") was appointed the successor trustee and custodian to the Plan. Contributions to the Plan are deposited into a fund held in trust by Fidelity. Fidelity then proceeds to hold, manage and reinvest all the assets held in the Trust Fund, and provide specified recordkeeping and administrative services and make appropriate distributions from the Trust Fund for the exclusive benefit of the Plan participants or beneficiaries.

The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Plan is a qualified defined contribution plan which contains a "cash or deferred arrangement" (CODA) authorized under section 401(k) of the Internal Revenue Code. The most recent Plan amendments occurring with the adoption of the Prototype Plan enhanced some of the Plan features and benefits and modified some of the eligibility and vesting standards for employee participants. Effective January 1, 2006 most all employees of the Bank are covered and can benefit from the Plan (except for leased and collectively bargained employees). Employees are eligible to participate in the Plan when their employment starts at the Bank, with their first hour of work. Enrollment is therefore open to all covered employees without any waiting period. Upon enrollment, employees may immediately participate in the elective salary deferral component of the Plan. Employees that are subject to the automatic enrollment feature of the Plan will be notified prior to deferring, and they will begin with a 3% deferral contribution on a pre-tax basis. Participants who were automatically enrolled may also be subject to a 1% automatic increase in their deferral contribution percentage annually until they reach a maximum of 10%. Participants may elect to increase, decrease, suspend or resume their contributions.

Starting in 2006, the Bank also implemented a 401(k) safe harbor matching feature to the Plan which encourages employees to participate and save for their own retirement. When an eligible employee actively participates in the Plan and electively defers a portion of their salary into the 401(k) segment of the Plan, a portion of each employee's annual salary deferral is matched with Bank contributions according to a prescribed percentage formula. Participants are 100 percent vested in their elective salary deferrals and after being credited with a minimum two years of cumulative service they are 100% vested in their employer matching contributions. In addition to the 401(k) segment of the Plan, there is also a profit sharing feature or segment to the Plan. The Bank may make discretionary employer non-elective contributions into the profit sharing segment of the Plan for the benefit of eligible participants. A participant becomes eligible to receive a portion of a current year's profit sharing contribution immediately upon hire. A Participant becomes 100% vested in the profit sharing segment of the Plan after being credited with a minimum three

NOTE 1 - PLAN DESCRIPTION (Continued)

years of cumulative service (three-year cliff vesting). A year of service for vesting is specified as 1,000 hours of service determined using the Semi Monthly Equivalency Method for hourly employees whereby 95 hours of service are credited for each semi-monthly payroll period during which an employee completes at least 1 hour of service. Any forfeitures of unvested account balances are first used to pay Plan expenses for the year in which forfeitures are to be allocated. Any remaining forfeitures are used to reduce any employer non-elective contributions of that plan year.

The Bank used \$286,232 of forfeitures to offset the 2024 employer match and \$366,669 to offset the 2023 employer match. The Plan had \$456,118 and \$445,272 of forfeitures as of December 31, 2024 and 2023, respectively.

The Plan has adopted a Safe Harbor 401(k) Match Contribution formula allowed under the Internal Revenue Code, which provides that the Bank shall annually contribute employer matching contributions equal to 100% of the first 1% and 50% of employee contribution that exceeds 1% up to 6% of eligible participants' Section 401(k) Deferrals ("applicable contributions") of Included Compensation which is defined to be W-2 wages.

The Plan has adopted the ProRata Allocation Method formula for allocating employer discretionary non-elective Profit Sharing contributions. This formula allocates to each participant an equal, uniform percentage of their Included Compensation which is defined to be W-2 wages.

Individual accounts are maintained for each Plan participant to hold their elective deferral contributions, employer matching contributions and employer's discretionary profit sharing contributions (if any). Each Participant was permitted to "direct" the investments within their individual accounts into a broad array of investment alternatives offered through Fidelity.

The Plan also allows for loans to participants listed as Notes Receivable from Participants on the Statement of Net Assets. Participants may borrow from their accounts a minimum of \$1,000 up to a maximum of \$50,000 or 50% of their vested account balance, whichever is less. A participant must be 100 percent vested and employed by the Bank on the date of the loan. A participant may only have one loan outstanding with the exception of new participants resulting from a merger or acquisition who are allowed to transfer a maximum of two legacy loans into the plan, with the requirement that the participant's full plan assets are also rolled over. The loan is secured by the balance in the participant's account. The interest rate charged each new loan is fixed at the prime rate in effect on the last business day of the calendar quarter preceding the loan date. The rate will not change during the loan repayment period.

The Plan generally allows an employee participant to withdraw all or a portion of their participant account balance upon the attainment of a normal retirement age of 65 years. Participant withdrawals of vested account balances are also permitted after termination of employment. In service withdrawals and distributions are limited in both frequency and amount until the attainment of age 59.5 unless a participant becomes disabled.

Although it has not expressed any intent to do so, the Bank has the right to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants will become 100 percent vested in their accounts.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Significant accounting policies of the Plan are as follows:

Presentation

The accompanying financial statements have been prepared under the accrual basis of accounting based on accounting principles generally accepted in the United States.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

The Plan's investments are reported at fair value. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants are reported at their unpaid principal balance plus any accrued but unpaid interest, with no allowance for credit losses, as repayments of principal and interest are received through payroll deductions and the notes are collateralized by the participants' account balances.

Risks and Uncertainties

The Plan invests in various investments. Investments are exposed to various risks such as interest rate, market, liquidity and credit risks. Due to the level of risk associated with certain investments, it is at least reasonably possible that changes in the values of investment will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

NOTE 3 – CERTIFIED INVESTMENTS AND NOTES RECEIVABLE FROM PARTICIPANTS

Investments and notes receivable from participants are held by the Plan trustee, Fidelity Management Trust Company. Eligible investments offered by the Plan are periodically reviewed and approved by the Advisory Committee of the Bank.

Certain information related to investments and notes receivable from participants disclosed in the accompanying financial statements and ERISA-required supplemental schedule, including investments and notes receivable from participants held at December 31, 2024 and 2023, and net appreciation in fair value of investments, interest and dividends, and interest income on notes receivable from participants for the year ended December 31, 2024, was obtained by management and agreed to or derived from information certified as complete and accurate by Fidelity Management Trust Company.

NOTE 4 - FAIR VALUE MEASUREMENTS

Fair value is the price that would be received by the Plan for an asset or paid by the Plan to transfer a liability (an exit price) in an orderly transaction between market participants on the measurement date in the Plan's principal or most advantageous market for the asset or liability. Fair value measurements are determined by maximizing the use of observable inputs and minimizing the use of unobservable inputs. The hierarchy places the highest priority on unadjusted quoted market prices in active markets for identical assets or liabilities (level 1 measurements) and gives the lowest priority to unobservable inputs (level 3 measurements). The three levels of inputs within the fair value hierarchy are defined as follows:

Level 1: Quoted prices (unadjusted) for identical assets or liabilities in active markets that the Plan has the ability to access as of the measurement date.

Level 2: Significant other observable inputs other than level 1 prices such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data.

Level 3: Significant unobservable inputs that reflect the Plan's own assumptions about the assumptions that market participants would use in pricing an asset or liability.

In many cases, a valuation technique used to measure fair value includes inputs from multiple levels of the fair value hierarchy. The lowest level of significant input determines the placement of the entire fair value measurement in the hierarchy.

The following descriptions of the valuation methods and assumptions used by the Plan to estimate the fair values of investments apply to investments held directly by the Plan.

Mutual Funds: The fair values of mutual fund investments are determined by obtaining quoted prices on nationally recognized securities exchanges (level 1 inputs).

Stable Value Fund: The fair value of participation units held in the stable value collective trust are based on the net asset values per unit as reported by the fund manager. The fund mostly invests in conventional guaranteed income contracts issued by insurance companies. These contracts are typically issued with a fixed crediting rate and fixed maturity date that does not change over the life of the contract. The stable value fund is recorded at the net asset value.

NOTE 4 - FAIR VALUE MEASUREMENTS (Continued)

Self-directed brokerage: Accounts primarily consist of mutual funds and common stocks that are determined by obtaining quoted prices on nationally recognized securities exchange (Level 1 inputs) and money market deposit accounts for which fair value is estimated to approximate deposit account balances, payable on demand as no discounts for credit quality or liquidity were determined to be applicable (Level 2 inputs).

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Investments measured at fair value on a recurring basis are summarized below:

*Investments measured at fair value using net asset value per share (or its equivalent) as a practical expedient have not been classified in the fair value hierarchy. The fair value amounts presented in the hierarchy tables for such investments are intended to permit reconciliation of the fair value hierarchy to the investments at fair value line item presented in the statements of net assets available for benefits.

NOTE 5 - FEDERAL INCOME TAX STATUS

The Internal Revenue Service (IRS) has determined and informed Fidelity Management Trust Company by a letter dated June 30, 2020, that its Prototype Non-Standardized Profit Sharing Plan with CODA is designed in accordance with applicable sections of the Internal Revenue Code (the IRC). Although the prototype Plan has been amended since receiving the IRS opinion letter, the plan administrator and management believe that the Plan, which follows this Fidelity Management Trust Company prototype form, has been designed and is currently being operated in compliance with the applicable requirements of the IRC and the Plan and related trust continue to be tax-exempt as of the financial statement date.

The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2024 and 2023, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing authorities; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2020.

NOTE 6 - PARTY-IN-INTEREST TRANSACTIONS

Parties-in-interest are defined under DOL regulations as any fiduciary of the Plan, any party rendering service to the Plan, the employer, and certain others. Certain administrative functions are performed by officers or employees of the Bank. No such officer or employee receives compensation from the Plan. Some administrative expenses of the Plan are paid directly by the Bank. Certain Plan investments are mutual funds and self-directed brokerage accounts issued by affiliates of the trustee and third party administrator. Therefore, these transactions qualify as party-in-interest transactions. Fee paid by the Plan for recordkeeping services, investment management fees and issuance of notes receivable to participants also qualify as party-in-interest transactions.

NOTE 6 - PARTY-IN-INTEREST TRANSACTIONS (Continued)

The Plan issues notes receivable to participants, which are secured by the balances in the participant's accounts. These transactions qualify as party-in-interest transactions.

NOTE 7 - SUBSEQUENT EVENTS

Plan management has evaluated subsequent events for recognition and disclosure through October 01, 2025, which is the date the financial statements were available to be issued. As of August 25, 2025 the Bank transferred \$3.9 million from the Pension plan to cover the one-year 401(k) plan modification, which will automatically make fixed, non-elective contributions to every eligible employee's retirement savings account for 2025. On May 1, 2025 the Bank transferred \$286,232 from the forfeiture account to the Plan, fulfilling the 2024 401(k) employer safe harbor matching contribution. The Bank's contributions are reflected as receivables in the Statements of Net Assets Available for Benefits as of December 31, 2024.

On March 28, 2025, Mechanics Bank and HomeStreet Inc., the holding company of HomeStreet Bank, entered into a definitive agreement pursuant to which HomeStreet Bank merged with and into Mechanics Bank, with Mechanics Bank surviving as a wholly owned subsidiary of HomeStreet, Inc. (which was renamed Mechanics Bancorp). The merger became effective as of September 2, 2025. Management is currently evaluating any impact this transaction may have on the Mechanics Bank Plan. Management will analyze the health of the acquired HomeStreet Plan to ensure that merging the HomeStreet Plan into the Mechanics Bank Plan does not taint Mechanics Bank Plan assets. Further, Management will assess the financial impact of retaining standalone plans during 2025 and merging them at a later date.
