Report of Independent Auditors

The Participants and Plan Administrator
CSX Corporation 401(K) Plan

Opinion

We have audited the financial statements of CSX Corporation 401(K) Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statements of net assets available for benefits as of December 31, 2024 and 2023, and the related statement of changes in net assets available for benefits for the year ended December 31, 2024, and the related notes (collectively referred to as the “financial statements”).

In our opinion, the accompanying financial statements present fairly, in all material respects, the net assets available for benefits of the Plan at December 31, 2024 and 2023, and the changes in its net assets available for benefits for the year ended December 31, 2024, in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor’s Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan’s ability to continue as a going concern for one year after the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan’s transactions that are presented and disclosed in the financial statements are in conformity with the Plan’s provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control related matters that we identified during the audit.

Supplemental Schedules Required by ERISA

Our audits were conducted for the purpose of forming an opinion of the financial statements as a whole. The supplemental schedules of assets (held at end of year) as of December 31, 2024, and delinquent participant contributions for the year then ended (referred to as the "supplemental schedules"), are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the

Shape the future
with confidence

responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, including their form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the supplemental schedules is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

CSX CORPORATION 401(K) PLAN

NOTES TO FINANCIAL STATEMENTS

NOTE 1. Description of the Plan

The following description of the CSX Corporation 401(k) Plan (“the Plan”) provides only general information. Members should refer to the Summary Plan Description and the Plan Document for a more complete description of the Plan’s provisions.

General: The Plan is a defined contribution plan covering all salaried employees and certain non-union hourly employees of CSX Corporation (“CSX” or “Plan Sponsor”) and adopting affiliated companies (collectively, “the Company”). The Plan provides for contributions under Code Section 401(k) and matching and employee contributions under Code Section 401(m). A portion of the Plan has been established as an Employee Stock Ownership Plan (“ESOP”) designed to comply with Section 4975(e)(7) of the Internal Revenue Code of 1986 (“the Code”), as amended. The Plan also contains a cash or deferred arrangement described in Section 401(k) of the Code and is subject to the provisions of the Employee Retirement Income Security Act of 1974 (“ERISA”), as amended. The ESOP component is designed to invest primarily in CSX common stock and may invest 100% in these securities.

Contributions: Members, as defined in the Plan Document, may contribute from 1% to 50% (in 1% multiples) of eligible compensation, as defined by the Plan Document, on a pre-tax or Roth after-tax basis up to the current Code limit. Members who are age 50 or older by the end of the applicable calendar year are eligible to make catch-up contributions in accordance with the Code. Subject to certain limitations, members may rollover distributions from another qualified plan or an individual retirement account (“Rollover Account”). Members may change contribution rates daily.

The Company contributes amounts equal to 100% of the first 1% of a member’s eligible contributions to the Plan as matching contributions. For the next 2% up to 6% of a member’s eligible contributions to the Plan, the Company contributes amounts equal to 50% as matching contributions. Therefore, the total potential employer matching contribution is 3.5%. In addition, CSX will make an enhanced 401(k) contribution equal to 3% of base pay and bonus pay each Plan year to employees who have an initial date of hire on or after January 1, 2020, are a former employee or former member who is rehired on or after January 1, 2020, or transfer from a union position on or after January 1, 2020. Additional amounts may be contributed at the option of the Company’s Board of Directors or under the delegation of authority granted by the Board to the appropriate Company officers. No additional Company matching contributions were made to the Plan as of December 31, 2024 or 2023.

Diversification: Members may generally direct the investment of contributions on a daily basis among a choice of investment options offered under the Plan.

Reallocations: CSX does not permit members to repurchase shares of a previously sold fund through investment fund activity for 30 calendar days after the transaction. Members may, however, transfer funds to the Stable Value Fund investment option at any time without restriction.

CSX CORPORATION 401(K) PLAN

NOTE 1. Description of the Plan, *continued*

Member Accounts: Each member's account is credited with the member's contributions and allocations of (a) Company contributions and (b) plan earnings and is charged with the member's disbursements and an allocation of administrative expenses. If made, profit sharing contributions are in proportion to each member's base compensation paid by the Company. Plan earnings are allocated on a proportionate share of the increase or decrease in the fair market value of each fund in which the member's accounts are invested on each valuation date. Record-keeping expense allocations are charged equally to each member's account. All other administrative expense allocations are made on the basis of assets in the individual's account.

Investments: The CSX Corporation Master Retirement Savings Plan Trust ("Master Trust") holds all investments of this Plan and the CSX Corporation Capital Builder Plan, a related plan for certain union employees. For further details, see Note 3, Investment in Master Trust.

Plan to Plan Transfers: When members change employment status between contract positions and management positions within the Plan Sponsor, the member can no longer participate in the former plan. Accordingly, automatic transfers are initiated on a member's behalf if their account balance is not voluntarily transferred from the ineligible plan to the eligible plan within the Master Trust. Plan to plan transfers have been included in the statement of changes in net assets available for benefits as transfers to the plan and transfers from the plan.

Vesting: Members are 100% vested in their contributions, except enhanced 401(k) contributions. Enhanced 401(k) contributions made by the Company are subject to a vesting schedule, and members shall become 100% vested after 3 years of service. Alternatively, members shall be 100% vested in their enhanced 401(k) contributions if they attain age 65 while employed by the Company.

Loans: Certain members may borrow from their accounts an amount equal to the lesser of \$50 thousand in the aggregate (reduced by the highest outstanding balance during the one year period preceding the loan) or 50% of their account balance (reduced by the outstanding balance of all Plan loans at the time of the loan). Loan terms range from one to five years unless the loan is to be used in conjunction with the purchase of a primary residence, in which case the term is 25 years. Loans are secured by the balance in the member's account. The loan interest rates are calculated using the prime rate in the Wall Street Journal as of the first business day of the current month in which the loan originates plus 1%. The interest rate in effect when a member applies for the loan will remain in effect for the term of the loan. It will not change even though the interest rate applicable to new loans may change. Principal and interest are paid ratably through payroll deductions. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be a distribution, the participant loan balance is reduced and a benefit payment is recorded.

Dividends: Dividends paid on shares of CSX common stock held in a member's account are reinvested in shares of CSX common stock. A member or spousal beneficiary may elect to have dividends paid to them in cash. Any change in an election will apply only to ex-dividend dates occurring after the date such election is received. A member who does not make a timely election will have the dividends paid to his or her account and reinvested in shares of CSX common stock.

CSX CORPORATION 401(K) PLAN

NOTE 1. **Description of the Plan, *continued***

Payment of Benefits: Upon disability or retirement, a member may elect to receive a lump sum or monthly installments over a period not to exceed the lesser of 240 months or the joint life expectancy of the member and his or her beneficiary. Surviving spouses of retired or disabled members may also elect monthly installments. Upon termination of service, a member may receive a lump sum amount equal to the value of his or her account. Under a plan amendment effective January 1, 2024, a terminated member's account balance that is less than seven thousand dollars as of his or her date of termination shall be rolled over into an individual retirement account at Millennium Trust Company unless the member makes an alternate distribution request within 180 days after the month end of his or her date of termination.

Administrative Expenses: The administrative expenses of the Plan are paid by the Company or from plan assets as the Plan Sponsor directs. All of the administrative expenses of the Plan during 2024 were paid from plan assets and have been included in the statement of changes in net assets available for benefits as fees and expenses.

Plan Termination: Although it has not expressed any intent to do so, the Company has the right to discontinue its contributions to the Plan at any time and to terminate the Plan subject to the provisions of ERISA. If the Plan were to terminate, members would remain 100% vested in their accounts, with the exception of enhanced 401(k) contributions.

NOTE 2. **Summary of Significant Accounting Policies**

Basis of Presentation: The financial statements have been prepared under the accrual method of accounting in accordance with U.S. generally accepted accounting principles. Distributions are recorded when paid.

Use of Estimates: The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates that affect the amounts reported in the financial statements, accompanying notes and supplemental schedules. Actual results could differ from those estimates.

Notes Receivable from Members: Notes receivable from members represent participant loans that are recorded at their unpaid principal balance plus any accrued but unpaid interest. Interest income on notes receivable from participants is recorded when it is earned. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2024 or 2023.

CSX CORPORATION 401(K) PLAN

NOTE 3. Investment in Master Trust

All investments of the Master Trust are held by The Northern Trust Company ("Trustee"), the trustee of the Master Trust. Each participating plan's interest in the Master Trust is based on account balances of the participants and their elected investment fund options. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought, sold, and held during the year.

Summarized financial information of the Master Trust is presented below:

The Master Trust has investments with Vontobel Collective International Equity Fund and Morgan Stanley International Equity Trust that do not have readily determinable fair values and qualify for the net asset value ("NAV") practical expedient and are included as Common Collective Trusts in the table above. See additional Note 8 fair value disclosures. The *Fair Value Measurements Topic* in the ASC requires the Plan to disclose the significant investment strategies of such investments.

The Vontobel Collective International Equity Fund seeks to achieve returns through the effect of compounded earnings and stock price returns by identifying high-quality companies that can grow earnings faster than the market on a sustainable basis. The fund invests primarily in common stocks or other equity securities of international companies with a market price below the estimate of their fundamental value. There are currently no redemption restrictions on this investment.

CSX CORPORATION 401(K) PLAN

NOTE 3. Investment in Master Trust, *continued*

The Morgan Stanley International Equity Trust seeks capital growth through a diversified portfolio of international equity securities. This fund uses a portfolio of international stocks and foreign currencies to achieve its investment objective. Portfolio adjustments may also be made to ensure adequate geographic and industrial diversification. There are currently no redemption restrictions on this investment.

Investment income and expenses, other than those related to CSX common stock, are allocated to each plan in a pro-rata fashion based on the member's average daily investment balances. Investment income and expenses related to CSX common stock are allocated based on actual shares held. Investment gain for the Master Trust for 2024 was as follows:

(Dollars in Thousands)

Net increase in the fair value of investments:	\$ 194,937
Interest, dividend, and other income	30,670
Total investment gain for the Master Trust	<u>\$ 225,607</u>
Plan's investment gain in the Master Trust	\$ 141,052
Plan's percentage of investment gain from the Master Trust	63 %

NOTE 4. Fully Benefit-Responsive Investment Contracts

The Master Trust holds investments in synthetic guaranteed investment contracts ("GICs") as part of the Stable Value Fund investment option. Synthetic GICs are investment contracts that allow participants to earn fixed income for a specified period of time. These synthetic GICs are fully benefit-responsive, which allows participants to initiate all permitted transactions, such as withdrawals, loans or transfers to other funds within the Plan and are reported at contract value. A corresponding contract wrapper with the issuer provides a fixed rate of return on the underlying investments. A contract wrapper is a contractual agreement with a third party that regulates the return on investment. The agreement provides for the third party to compensate the Plan if the book value drops below a certain threshold and vice versa.

The crediting interest rate for the synthetic GIC is based on a mutually agreed upon formula that resets on a quarterly basis depending on the portfolio yield, market value and duration along with the book value of the contract. The minimum crediting rate is 0%.

Certain events could limit the ability of the Plan to transact at contract value with the issuer. These events include, but are not limited to, the following: (1) amendments to the Plan Document, (2) bankruptcy of the Plan Sponsor or other Plan Sponsor events which cause a significant withdrawal from the Plan or (3) the failure of the Master Trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. CSX does not believe that the occurrence of any event limiting the Plan's ability to transact at contract value is probable.

CSX CORPORATION 401(K) PLAN

NOTE 4. Fully Benefit-Responsive Investment Contracts, *continued*

The contract value of the synthetic GICs represents contributions plus earnings, less participant withdrawals and administrative expenses. The synthetic GIC issuers can only terminate the contract under very limited circumstances such as CSX or the investment fund managers breaching any of their obligations under the agreement. No events are probable of occurring that might limit the ability of the Plan to transact at contract value with the contract issuers.

NOTE 5. Related Party and Party-In Interest Transactions

During 2024, the Master Trust received cash dividends from investments in CSX common stock of \$13.2 million. The Plan's share of these dividends was \$4.6 million.

The Trustee routinely invests assets in its managed Collective Short-Term Investment Fund, therefore these transactions qualify as permitted party-in interest transactions. During 2024, the Master Trust earned interest of \$887 thousand for transactions with this fund, a portion of which is allocated to the Plan based upon the Plan's pro-rata share in the net assets of the Master Trust and is included in net gain from investment in Master Trust in the Statement of Changes in Net Assets Available for Benefits.

Notes receivable from members are also considered party-in interest transactions.

The foregoing transactions are not deemed prohibited party-in-interest transactions because they are covered by statutory and administrative exemptions from the Code and ERISA's rules on prohibited transactions.

CSX CORPORATION 401(K) PLAN

NOTE 6. Income Tax Status

The Plan has received a determination letter from the Internal Revenue Service (“IRS”), dated October 3, 2017, stating that the Plan is qualified as written under Section 401(a) of the Code and, therefore, the related trust is exempt from taxation. Subsequent to this determination letter by the IRS, the plan was amended and restated. The Plan is also required to operate in conformity with the Code and its terms to maintain its qualified status. Management believes the Plan is being operated in compliance with the applicable requirements of the Code and its terms and, therefore, believes that the Plan, as amended and restated, is qualified and the related trust is tax-exempt. The Plan Administrator has identified one exception to the definition of compensation being used to determine the Employer Enhanced Contribution and is working to bring the administration back in alignment with the Plan Document Section 3.05(c).

Accounting principles generally accepted in the United States require Plan management to evaluate tax positions taken by the Plan, and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. Management has analyzed the tax positions taken by the Plan, and has concluded that there are no uncertain positions taken or expected to be taken. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

NOTE 7. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the Statements of Net Assets Available for Benefits.

CSX CORPORATION 401(K) PLAN

NOTE 8. Fair Value Measurements

The *Financial Instruments Topic* in the ASC requires disclosures about fair value of financial instruments. Also, the *Fair Value Measurements and Disclosures Topic* in the ASC clarifies the definition of fair value for financial reporting, establishes a framework for measuring fair value and requires additional disclosures about the use of fair value measurements.

Various inputs are considered when determining the value of the Plan's investments. The inputs or methodologies used for valuing securities are not necessarily an indication of the risk associated with investing in these securities. These inputs are summarized in the three broad levels listed below.

- Level 1 – observable market inputs that are unadjusted quoted prices for identical assets or liabilities in active markets
- Level 2 – other significant observable inputs (including quoted prices for similar securities, interest rates, credit risk, etc.)
- Level 3 – significant unobservable inputs (including the Plan's own assumptions about the assumptions market participants would use in determining the fair value of investments)

The valuation methods described below may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in different fair value measurement at the reporting date.

An asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The valuation methodologies used for plan assets measured at fair value are as follows:

Investments in the fair value hierarchy

- *Common stock (Level 1)*: Valued at the quoted market closing price reported on the active market on which the individual securities are traded on the last day of the Plan year.
- *Mutual funds (Level 1)*: Valued at the NAV price per share held by the Master Trust at year end based on quoted market prices determined in an active market. The NAV is derived by dividing the total assets held minus liabilities by the outstanding number of fund shares.
- *Common collective trust funds (Level 2)*: This class consists of private funds that invest in government and corporate securities and various short-term debt instruments and are measured using the NAV provided by the administrator of the trust. The NAV is based on the value of the underlying assets owned by the trust, minus its liabilities, and are determined by reference to the fair value of the underlying securities. These funds are valued using NAV as a readily determinable fair value.

CSX CORPORATION 401(K) PLAN

NOTE 8. Fair Value Measurements, *continued*

Investments measured at NAV

- *Common collective trust funds*: This class consists of private funds that invest in diversified portfolio of international securities and currencies that are measured at NAV as a practical expedient to estimate the fair value of the investments. There are currently no redemption restrictions on these investments. In accordance with the *Fair Value Measurements and Disclosures Topic* in the ASC, investments that are measured at NAV practical expedient per share (or its equivalent) are not classified in the fair value hierarchy. The fair value amounts presented in the tables below are intended to permit reconciliation of the fair value hierarchy to the assets disclosed in Note 3, Investment in Master Trust.

The following table sets forth by level, within the fair value hierarchy, the Master Trust's assets at fair value as of December 31, 2024:

(Dollars in Thousands)

	Level 1	Level 2	Total
Common stock	\$ 1,283,145	\$ —	\$1,283,145
Mutual funds - U.S	746,314	—	746,314
Common collective trust funds		518,458	518,458
Total investments in the fair value hierarchy	\$ 2,029,459	\$ 518,458	\$2,547,917
Common collective trust funds measured at NAV ^(a)			\$ 126,014
Total assets at fair value			\$2,673,931

The following table sets forth by level, within the fair value hierarchy, the Master Trust's assets at fair value as of December 31, 2023:

(Dollars in Thousands)

	Level 1	Level 2	Total
Common stock	\$ 1,356,995	\$ —	\$1,356,995
Mutual funds - U.S	621,833	—	621,833
Common collective trust funds		447,091	447,091
Total investments in the fair value hierarchy	\$ 1,978,828	\$ 447,091	\$2,425,919
Common collective trust funds measured at NAV ^(a)			\$ 119,827
Total assets at fair value			\$2,545,746

(a) The investments held in the common collective trust funds measured at NAV include Vontobel and Morgan Stanley International Equity Funds. These investments do not have a readily determinable fair value and are valued at NAV as a practical expedient.

CSX CORPORATION 401(K) PLAN

NOTE 9. Subsequent Events

The Plan considers events or transactions that occur after the date of the Statement of Net Assets Available for Benefits, but before the financial statements are issued, to provide additional evidence relative to certain estimates or to identify matters that require additional disclosure. The Company evaluated subsequent events through June 23, 2025, the date these financial statements are available to be issued and no subsequent events have been identified.

NOTE 10. Prohibited Transactions

During years ended December 31, 2024 and 2023 the Company failed to deposit \$4,974 and \$26,342, respectively, of participant deferrals and repayments on notes receivable timely to the Plan. The United States Department of Labor considers late deposits to be prohibited transactions. These prohibited transactions were corrected and members made whole in 2024.
