REPORT OF INDEPENDENT CERTIFIED PUBLIC ACCOUNTANTS

Plan Administrator and Plan Participants
Land O'Lakes, Inc. Employee Retirement Plan

Scope and nature of the ERISA Section 103(a)(3)(C) audit

We have performed audits of the financial statements of Land O'Lakes, Inc. Employee Retirement Plan (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of December 31, 2024 and 2023, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of December 31, 2024 and 2023, and for the years then ended, stating that the certified investment information, as described in Note 4 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section

- The amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- The information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (US GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of management for the financial statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's responsibilities for the audit of the financial statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with US GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with US GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

NOTES TO FINANCIAL STATEMENTS

December 31, 2024 and 2023

NOTE 1 - DESCRIPTION OF THE PLAN

Land O'Lakes, Inc. Employee Retirement Plan (the Plan) is a defined benefit plan sponsored by Land O'Lakes, Inc. (the Company, the Plan Administrator, or the Employer). The Plan is administered by the retirement plan committee. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA). The following brief description is provided for general information purposes only. Participants should refer to the Plan document for more complete information.

The Company is a national, farmer-owned food and agricultural cooperative. The Company does business in all 50 states in the United States and more than 60 countries. It is a leading marketer of a full line of dairy-based consumer, foodservice, and food ingredient products across the United States; serves its international customers with a variety of food and animal feed ingredients; and provides farmers and ranchers with an extensive line of agricultural supplies (feed, seed, and crop protection products) and services. The Company also provides agricultural assistance and technical training in more than 25 developing nations.

Eligibility

Employees who met Plan eligibility requirements prior to January 1, 2006 and elected to stay in the Traditional Retirement Program during Retirement Choice in 2006 are eligible to continue earning benefits under the Plan. The Plan was closed to new participants as of January 1, 2006 (except for certain employees covered by collective bargaining agreements). As of January 1, 2019, the Plan was closed to all new or rehired employees, including those employees covered by a collective bargaining agreement.

Plan Benefits

Under the terms of the Plan, participants are eligible for full retirement upon reaching the retirement age as defined in the Plan document. The maximum credited service under the Plan is 30 years. Benefit payments are based on final average pay and credited service. Early retirement and death benefits are available under the terms of the Plan. Under the terms of the Plan, participants become fully vested after five years of eligible service.

Normal retirement date is the first of the month following the later of the date on which the employee completes five years of vesting service or the age/date of the following: age 65, if born in 1937 or earlier; age 66, if born between 1938 and 1954; or age 67, if born 1955 or after. For lump sum amounts of \$1,000 or less, distribution will be made without participants consent. For amounts greater than \$1,000 but less than or equal to \$5,000 the participant will be given option to receive the distribution directly or rolled over to an individual retirement account (IRA) chosen by Land O'Lakes. If the lump-sum value is more than \$5,000 and less than or equal to \$25,000, the participant will be given the options to receive the distribution directly, rolled over to an IRA or receive a monthly benefit available immediately. If a participant is at least age 55 and has 10 years of vesting upon termination of employment the participant has an option of receiving their vested benefit in the form of a one-time, lump-sum payment (provided the value is below the maximum lump sum of \$25,000) or a monthly annuity payable for their lifetime. The benefit accrued is deferred to normal retirement age if the employee doesn't have the required ten years of vesting service. If a participant dies, a death benefit is available to the employee's surviving spouse. Active employees who become totally disabled are eligible to receive their accumulated normal retirement benefit; however, the employee must terminate their employment in order to receive it and any disability benefit they receive is offset by the pension benefit.

Funding

The Plan's funding policy is for the Company to contribute an amount which will meet or exceed the annual ERISA minimum funding requirement. For 2024, plan management elected to utilize the Plan's funding balances to cover the minimum funding requirement. There was not a required contribution for 2023.

Plan Termination

In the event the Plan terminates, the net assets of the Plan will be allocated, as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated:

- a. Annuity benefits that former employees or their beneficiaries have been receiving for at least three years, or that employees eligible to retire for that three-year period would have been receiving if they had retired with benefits in the normal form of annuity under the Plan. The priority amount is limited to the lowest benefit that was payable (or would have been payable) during those three years. The amount is further limited to the lowest benefit that would be payable under Plan provisions in effect at any time during the five year preceding Plan termination.
- b. Other vested benefits insured by the Pension Benefit Guaranty Corporation (PBGC) (a U.S. government agency) up to the applicable limitations.
- c. All other vested benefits (that is, vested benefits not insured by the PBGC).
- d. All nonvested benefits.

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of the benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination. However, there is a ceiling, which is adjusted periodically, on the amount of monthly benefit that the PBGC receives.

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at the time, of the Plan's net assets to provide for accumulated benefit obligations and may also depend on the financial condition of the plan sponsor and the level of benefits guaranteed by the PBGC.

Although it has not expressed any intention to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate to the Plan subject to the provisions set forth by ERISA.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation

The accompanying financial statements of the Plan have been prepared on the accrual basis of accounting in accordance accounting principles general accepted in the United States of America (U.S. GAAP).

Employee Retirement Plan**

NOTES TO FINANCIAL STATEMENTS - CONTINUED

December 31, 2024 and 2023

Use of Estimates

The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and reported amounts of changes in net assets available for benefits during the reporting period, disclosure of contingent assets and liabilities, and the actuarial present value of accumulated plan benefits at the date of the financial statements. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

The value of the Plan's interest in the Land O'Lakes Inc. Retirement Master Investment Trust (Master Trust) is based on the beginning of year value of the Plan's interest in the Master Trust, plus actual contributions and allocated investment income (loss), less actual distributions, allocated administrative expenses, and direct expenses of the Plan. The Master Trust's investments are held by Principal Custody Solutions and Aon Trust Company (the Trustee and Custodians, respectively).

The Plan's Master Trust investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for discussion on fair value measurements. The Trustee and Custodian maintain the Master Trust's investment assets and executes transactions therein based upon instructions received from an investment advisor engaged by the Master Trust administrator.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Master Trust's gains and losses on investments bought and sold as well as held during the year.

Increase in Plan Interest in Master Trust

The Plan presents in the statements of changes in net assets available for benefits the plan interest in Master Trust investment income (loss), which consists of its share of the realized and unrealized appreciation (depreciation) on the Master Trust investments as well as interest and dividends, net of certain expenses, based on the specific performance of investments.

Expenses

Investment advisor fees, benefit processing fees, and trustee fees are paid by the Plan through the Master Trust. All other administrative expenses of the Plan are paid by the Company which are excluded from the financials. Administrative expenses and management fees incurred by the Plan were \$2,679,451 and \$5,192,428 for the years ended December 31, 2024 and 2023, respectively.

Payment of Benefits

Benefit payments are recorded when paid.

Risks and Uncertainties

The Plan invests in a variety of investment securities within the Master Trust. Investments in general are exposed to various risks, such as interest rate, credit, and overall market volatility. Due to the level of risk associated with certain investments, it is reasonably possible that changes in the values of the investments will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

**Land O'Lakes, Inc.
Employee Retirement Plan**

NOTES TO FINANCIAL STATEMENTS - CONTINUED

December 31, 2024 and 2023

Plan contributions are made and the actuarial present value of accumulated plan benefits is reported based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics, all of which are subject to change. Due to uncertainties, inherent in the estimations and the assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

NOTE 3 - RELATED PARTY AND PARTY-IN-INTEREST TRANSACTIONS

Transactions resulting in the Plan's assets being transferred to or used by a related party are prohibited under ERISA unless a specific exemption applies. The Trustee and Custodian are parties in interest as defined by ERISA as a result of investing the Plan's assets. However, such transactions are exempt under Section 408(b)(8) of the Internal Revenue Code (the Code) and are not prohibited by ERISA.

NOTE 4 - INTEREST IN LAND O'LAKES RETIREMENT MASTER TRUST AND TRUSTEE AND CUSTODIAN CERTIFICATIONS

Under the Master Trust agreement, assets of the Plan are held in the Master Trust with assets of another plan sponsored by the Company. The Trustee and Custodian hold the Plan's investment assets in the Master Trust, execute transactions pursuant to discretionary authority granted to the Trustee concerning purchases and sales of investments in the Master Trust, and collect the related investment income.

The Plan Administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting Disclosure under ERISA. The Plan Administrator has received certifications from Principal Custody Solutions, and Aon Trust Company as to the completeness and accuracy of the investment assets of the Plan held in the Master Trust (the Plan's interest in the Master Trust) aggregating \$860,594,062 and \$901,258,399 at December 31, 2024 and 2023, respectively, and the Plan's interest in the related investment income/(loss) on such assets of \$8,530,889 and \$69,228,904 for the years ended December 31, 2024 and 2023, respectively. Such amounts are included in the accompanying financial statements and notes to financial statements of the Plan based on such certifications from the Trustee and Custodian.

At December 31, 2024 and 2023, the Plan held an undivided interest of 99.69% of the total Master Trust's assets. The below information is based upon or derived from investment and net investment income information certified by the Trustee and Custodian as being complete and accurate.

NOTE 5 - FAIR VALUE MEASUREMENTS

Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) No. 820, *Fair Value Measurements*, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Master Trust has the ability to access.

Level 2 - Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability; and

NOTES TO FINANCIAL STATEMENTS - CONTINUED

December 31, 2024 and 2023

- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets held in the Master Trust (Note 4) which are carried at fair value. There were no changes in valuation methodologies used at December 31, 2024 and 2023.

Short-term investments - These investments consist of various publicly available money market instruments with an overall dollar-weighted average maturity of 60 days or less. These investments are valued at closing prices reported on the market on which the individual securities are traded.

Interest bearing cash - Carrying amounts approximate fair value.

Collective trust funds - Valued at the net asset value (NAV) per unit as determined by the collective trust as of the valuation date. The NAV, as provided by the Custodian, is used as practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. The practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Were the Master Trust to initiate a full redemption of the collective trust, the investment advisor reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner. Investors may request redemption of all or a portion of their units as of the end of a calendar quarter by delivering written notice at least 60 days prior to the end of the quarter. There were no unfunded commitments.

Real estate funds - The real estate funds invest primarily in commercial real estate and include mortgage loans which are backed by associated properties. They focus on properties that return both lease income and appreciation of buildings' marketable value. The fair value of the investments is determined by the Custodian based on NAV provided to the Custodian by the management of the funds. Investors may request redemption of all or a portion of their units as of the end of a calendar quarter by delivering written notice at least 60 days prior to the end of the quarter. Investors may request redemption of all or a portion of their units as of the end of a calendar quarter by delivering written notice at least 60 days prior to the end of the quarter. There were no unfunded commitments.

Partnership/joint ventures - This investment is an interest in a private equity partnership. The partnership interest is reported at fair value as determined by the management of the partnership. Partnership management uses numerous unobservable inputs in determining fair value, and, as such, this investment is reported as a Level 3 investment in the fair value hierarchy. Investors may request redemption of all or a portion of their units as of the end of a calendar quarter by delivering written notice at least 60 days prior to the end of the quarter. There were no unfunded commitments.

NOTES TO FINANCIAL STATEMENTS - CONTINUED

December 31, 2024 and 2023

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The Master Trust has \$806,391,086 and \$833,718,578 of investments in collective trusts and real estate investment funds at December 31, 2024 and 2023, respectively, which are reported at fair value. The Master Trust has concluded that the NAV reported by the underlying funds approximates the fair value of the investments. Of the amounts reported at NAV, all of those investments are redeemable with the fund at NAV under the original terms of the partnership agreements and/or subscription agreements and operations of the underlying funds. However, it is possible that these redemption rights may be restricted or eliminated by the funds in the future in accordance with the underlying fund agreements. Due to the nature of the investments held by the funds, changes in market conditions and the economic environment may significantly impact the NAV of the funds, and consequently, the fair value of the Master Trust's interests in the funds.

The following tables set forth by level within the fair value hierarchy the Master Trust investment assets at fair value as of December 31, 2024 and 2023:

The Master Trust and the Plan did not have significant transfers between Levels 1, 2, or 3 during the years ended December 31, 2024 and 2023.

The following table summarizes Master Trust purchases and sales of Level 3 assets during the years ended December 31, 2024 and 2023:

NOTE 6 - FEDERAL INCOME TAX STATUS

The Plan received a favorable determination letter from the Internal Revenue Service (IRS) dated July 24, 2017 indicating that the Plan meets the requirements of Section 401(a) of the Code and that the Master Trust established in connection therewith is exempt from federal income tax under Section 501(a) of the Code. The Plan Administrator and the Plan's tax counsel believe that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the Code and, therefore believe that the Plan is qualified, and the related trust is tax exempt. The Plan has since been amended and restated, but the Plan Administrator believes the Plan is currently designed and is being operated in compliance with the applicable provisions of the IRC.

U.S. GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that, more likely than not, would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

NOTE 7 - ACTUARIAL PRESENT VALUE OF ACCUMULATED PLAN BENEFITS

Accumulated plan benefits are those future periodic payments, including lump-sum distributions that are attributable under the Plan's provisions to the service employees have rendered. The actuarial present value of accumulated plan benefits is determined by independent actuaries and is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money and the probability of payment between the valuation date and the expected date of payment.

The significant actuarial assumptions used in the valuation as of December 31, 2023, are as follows:

Discount rate	4.99%
Mortality basis	The amounts-weighted aggregate rates from the Pri-2012 mortality table projected generationally from 2012 with Scale MP-2021
Retirement rates	Active Participants: Age-based rates from 8% at age 55 to 100% by age 70 Terminated Vested Participants: 63 if eligible for early retirement; normal retirement age for all others
Withdrawal rates	Age-based rates from 16% at 15 to 5% at 55+

**Land O'Lakes, Inc.
Employee Retirement Plan**

NOTES TO FINANCIAL STATEMENTS - CONTINUED

December 31, 2024 and 2023

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits. The Plan reporting valuation reflects the following assumption changes from December 31, 2022 to December 31, 2023.

- A change in the discount rate from 5.18% to 4.99%.
- A change in the mortality assumption for lump-sum payments from the 2023 plan year Code section 417(e) mortality table to the 2024 plan year Code section 417(e) mortality table. A change in the interest rate assumption for lump-sum payments from segment rates of 5.09%, 5.60%, and 5.41% to segment rates of 5.50%, 5.76%, and 5.83%.

Information regarding the actuarial present value of accumulated plan benefits as of December 31, 2023 and for the year ended December 31, 2023, as determined by the Plan's independent actuaries, is summarized as follows:

	December 31, 2023

Valuation Compensation

The sum of 2023 base pay and three-year average bonus pay. This amount is then rolled forward one year with the salary increase assumption.

Benefit and Compensation Limits

Projected benefits and compensation are limited by the current IRC section 415 maximum benefit of \$275,000 and the IRC section 401(a)(17) compensation limit of \$345,000.

Valuation of Plan Assets

Smoothed fair market value of assets over the current and prior two years, adjusted for contributions, benefit payments, administrative expenses, and expected earnings. The average value of assets calculated in this manner is further limited to not less than 90% or more than 110% of fair market value.

A characteristic of this method is that the expected distribution of the value of plan assets is skewed toward understatement relative to the corresponding market values for expected long-term rates of return in excess of the third segment rate under IRC section 430(h)(2)(C)(iii).

Healthy and Disabled

2024 generational mortality tables for annuitants and non-annuitants per §1.430(h)(3)-1(b)

Withdrawal Rates

See Table 3.

Disability Rates

None

Decrement Timing

Middle-of-year decrements (except that retirement is assumed to occur at the beginning of the year for ages where the assumed retirement rate is 100%).

Surviving Spouse Benefit

It is assumed that 70% of males and 60% of females have an eligible spouse, and that males are two years older than their spouses.

Valuation Compensation

The sum of 2023 base pay and three-year average bonus pay. This amount is then rolled forward one year with the salary increase assumption.

Benefit and Compensation Limits

Projected benefits and compensation are limited by the current IRC section 415 maximum benefit of \$275,000 and the IRC section 401(a)(17) compensation limit of \$345,000.

Valuation of Plan Assets

Smoothed fair market value of assets over the current and prior two years, adjusted for contributions, benefit payments, administrative expenses, and expected earnings. The average value of assets calculated in this manner is further limited to not less than 90% or more than 110% of fair market value.

A characteristic of this method is that the expected distribution of the value of plan assets is skewed toward understatement relative to the corresponding market values for expected long-term rates of return in excess of the third segment rate under IRC section 430(h)(2)(C)(iii).

Schedule SB, line 24 — Change in Actuarial Assumptions

The funding valuation reflects the following assumption changes:

- A change in the percent married assumptions from 90% males and 70% females to 70% males and 60% females.
- A change in the assumed spousal age difference from males being 3 years older to males being 2 years older than their spouses.
- A change in the election probabilities from 50% immediate annuity and 50% deferred to 60% immediate and 40% deferred.
- A change in the retirement age assumption for active participants to better reflect anticipated plan experience.
- A change in the salary scale to better reflect anticipated plan experience.

These changes were made to better reflect the anticipated plan experience. The funding assumption changes did not reduce the funding shortfall more than the funding thresholds stated in the Internal Revenue Code section 430(h)(5); as such, approval of the Commissioner is not required.
