## **Report of Independent Auditors**

The Plan Administrative Committee  
Arvig Employee Stock Ownership Plan

### **Report on the Audit of the Financial Statements**

#### ***Opinion***

We have audited the financial statements of Arvig Employee Stock Ownership Plan, an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statements of net assets available for benefits as of December 31, 2024 and 2023, and the related statement of changes in net assets available for benefits for the year ended December 31, 2024, and the related notes to the financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the net assets available for benefits of Arvig Employee Stock Ownership Plan as of December 31, 2024 and 2023, and the changes in its net assets available for benefits for the year ended December 31, 2024, in accordance with accounting principles generally accepted in the United States of America (GAAP).

#### ***Basis for Opinion***

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Arvig Employee Stock Ownership Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

#### ***Responsibilities of Management for the Financial Statements***

Management is responsible for the preparation and fair presentation of the financial statements in accordance with GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Arvig Employee Stock Ownership Plan's ability to continue as a going concern within one year after the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

### ***Auditor's Responsibilities for the Audit of the Financial Statements***

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- exercise professional judgment and maintain professional skepticism throughout the audit.
- identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Arvig Employee Stock Ownership Plan's internal control. Accordingly, no such opinion is expressed.
- evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Arvig Employee Stock Ownership Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

### ***Supplemental Schedule Required by ERISA***

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The Schedule H, Line 4(i) – Schedule of Assets (Held at End of Year) as of December 31, 2024, is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying schedule is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

## Arvig Employee Stock Ownership Plan Notes to Financial Statements

---

### Note 1 – Description of the Plan

**General description** – Arvig Employee Stock Ownership Plan (the Plan) is an employee stock ownership plan (ESOP) designed to comply with Sections 4975(e)(7) and 401(a) of the Internal Revenue Code (Code) and is subject to the applicable provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA). The Plan was amended and restated effective January 1, 2014 to incorporate all amendments since the last restatement, update all changes required by law, and add new sections for any changes in provisions made during the Plan year. The Plan was further amended to give the administrator rights to direct the Trustee regarding account segregation and to include stipulations on options related to the Sponsor Company common stock.

**Administrator and trustee** – The Arvig Enterprises, Inc. Employee Stock Ownership Plan Administrative Committee (Plan Committee) is the Plan administrator. The Plan engages GreatBanc (GreatBanc) Trust Company as the Plan trustee. GreatBanc will continue to serve as the trustee until it resigns or is removed by the Plan.

The Plan's assets are held by the Trustee of the Plan. The Trustee has been designated to hold and invest Plan assets for the benefits of Plan participants. The fiduciary is directed on voting but discretionary with respect to segregated cash assets in the trust.

The foregoing description of the Plan provides only general information regarding the Plan provisions. Participants should refer to the Plan Document for a more complete description of the Plan's provisions.

**Employer participation** – The Plan currently has five participating employers: Arvig Enterprises, Inc.; Time Communications, Inc.; CD Communications, Inc.; AEI Construction; and AEIS Construction.

**Employee participation** – Each employee becomes a participant in the Plan after satisfying the following requirements:

1. Attained the age of 20½.
2. Completed 12 consecutive months of service and 1,000 hours if employed by Arvig Enterprises, Inc.; Time Communications, Inc.; AEI Construction; or CD Communications, Inc., or completed 1,000 or more hours of service with the employer if employed by AEIS Construction.
3. The employee is not:
  - covered by a union contract between a union representative and employer under which retirement benefits were the subject of good faith bargaining (unless the union contract provides for coverage in this Plan);
  - an employee of an affiliated employer who has not adopted the Plan;
  - a common law employee; or
  - a leased employee.

## Arvig Employee Stock Ownership Plan Notes to Financial Statements

---

An employee enters the Plan and becomes a participant on January 1 or July 1 after working 1,000 hours in 12 consecutive months if employed by Arvig Enterprises, Inc.; Time Communications, Inc.; AEI Construction; or CD Communications, Inc., or becomes a participant on January 1 or July 1 after working 1,000 hours if employed by AEIS Construction.

**Participant accounts** – Each participant’s account is credited with Sponsor Company discretionary contributions as well as allocations of encumbered shares released and Plan earnings. Participant accounts may be charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined. Segregated accounts are participant directed.

**Contributions** – Each year the Board of Directors of the Sponsor Company will decide how much to contribute for that plan year. Contributions are based on Sponsor Company financial performance and condition. Contributions may be in the form of cash, stock of the Sponsor Company, or a combination of both. The Sponsor Company is obligated to make contributions to the Plan which, when aggregated with the Plan’s dividends and interest earnings, equal the amount necessary to enable the Plan to make its regularly scheduled payments of principal and interest due on its term loan. Purchases of Sponsor Company stock are considered party-in-interest transactions.

The contribution for each year will be divided among the accounts of eligible participants in the proportion that each such participant’s covered compensation for that year bears to the covered compensation of all such participants. Eligible participants must still be employed by the Sponsor Company at December 31 to be allocated a portion of the year’s contribution unless the participant is 65 years of age or older.

**Vesting and benefit payments** – The vesting schedule adopted by the Plan is as follows:

<u>Years of Service</u>	<u>Vested %</u>
< 2 years	0
2 years	20
3 years	40
4 years	60
5 years	80
> 6 years	100

Participant accounts become fully vested upon retirement, death, or disability. Vested account balances of \$1,000 or less may be paid in lump sum as soon as administratively practicable following the close of the Plan year in which the participant is terminated from service.

Segregated participants with vested balances between \$1,001 and \$7,000 can take a full distribution of the vested amount as soon as administratively feasible. If the participant fails to make a distribution election related to these balances, the balance is rolled into an individual retirement account as described in Code Section 408(b).

## **Arvig Employee Stock Ownership Plan**

### **Notes to Financial Statements**

---

Participants with vested account balances exceeding \$7,000 and who have five consecutive one-year breaks in service or are at least 65 years old, whichever comes first, can receive a distribution of their account balance in the Plan year following the fifth consecutive one-year break in service. Distribution of such accounts will be made at the election of the participant as a lump sum or as installments not to exceed five years.

**Put option** – Under federal income tax regulations, the employer stock that is held by the Plan and its participants and is not readily tradable on an established market, or is subject to trading limitations, includes a put option. The put option gives the participant the right, for 60 days after the stock is distributed, to require the Sponsor Company or the trust to purchase the participant's stock at fair market value. If the participant does not exercise their put option within the 60-day window, they will have an additional 60 days in the following Plan year.

The terms and payment for the purchase of such shares of stock shall be as set forth in the put option and may be either in a single payment, five equal annual installments of principal together with interest on the unpaid principal, or, in certain cases, ten equal annual installments of principal together with interest on the unpaid principal.

**Pre-retirement diversification** – Pre-retirement diversification is offered to participants close to retirement so that they may have the opportunity to move part of the value of their investment in Sponsor Company stock into investments that are more diversified. Participants who are at least age 55 with at least ten years of participation in the Plan may elect to diversify a portion of their account. Pre-retirement diversification is offered to each eligible participant over a six-year period. In each of the first five years, a participant may diversify up to 25% of the number of shares allocated to his or her account, less any shares previously diversified. In the sixth year, the percentage changes to 50%. Employees who elect to diversify can take a cash distribution or rollover the money to another qualified retirement vehicle.

**Voting rights** – The Sponsor Company common stock acquired by the Plan is owned by the ESOP. The Trustee of the trust, appointed by the Board of Directors of the Sponsor Company, is the legal representative of the trust's assets. The Trustee receives information from the Plan Committee, and all Sponsor Company common stock held by the trust is voted by the Trustee. Notwithstanding the foregoing, participants or beneficiaries shall be entitled to direct the voting of any voting shares of Sponsor Company common stock allocated to the participant's common stock account with respect to any vote required for the approval or disapproval of any corporate merger or consolidation, recapitalization, reclassification, liquidation, dissolution, or sale of substantially all of the assets of a trade or business. Trustee shall vote any unallocated shares held by the trust as well as any allocated shares for which a participant has failed to give timely voting direction.

**Expenses** – All expenses and fees attributable to services provided by third parties and reimbursement of Sponsor Company direct out-of-pocket expenses associated with the administration of the Plan will be reviewed by the Plan Committee and allocated to either the Plan or the Sponsor Company based on the terms set forth by the Procedures for Payment of Fees and Expenses in the Plan Document.

## **Arvig Employee Stock Ownership Plan Notes to Financial Statements**

---

**Forfeitures** – Nonvested portions of participant accounts are allocated as forfeitures. The timing of the allocation of these forfeitures depends on whether the participant receives a cash-out distribution. A cash-out distribution is a distribution of the entire vested portion of an account that is made prior to the date the participant incurs five consecutive one-year breaks in service. If a participant incurs five consecutive one-year breaks in service and did not receive a cash-out distribution, the nonvested portion of their account will be allocated as a forfeiture. If a participant is partially vested and receives a cash-out distribution, the nonvested portion of their account will be allocated as a forfeiture as of the anniversary date coinciding with or following the date the participant incurs five consecutive one-year breaks in service or receives their cash-out distribution, whichever is earlier.

Forfeitures of nonvested accounts may be allocated to each remaining participant based on covered compensation. Forfeiture accounts are not considered allocable until the participant's break-in-service period, five consecutive one-year breaks, has fully lapsed because an employee can re-enter the Plan during this period and have their account reinstated. Forfeited nonvested accounts in the amount of \$116,218 and \$202,053 were reallocated during the years ended December 31, 2024 and 2023, respectively.

**Termination** – Although it has not expressed an intention to do so, the Sponsor Company has the right under the Plan to discontinue contributions at any time and to terminate the Plan, subject to the provisions of ERISA.

**Payment of benefits** – Benefits are recorded when paid.

**Long-term debt** – The Plan purchased Sponsor Company common stock, using proceeds borrowed from the Sponsor Company, and holds the stock in a trust established under the Plan. The borrowing is to be repaid over a period of ten or twenty years by fully deductible Sponsor Company contributions to the trust. On the due date of each payment of principal, an appropriate percentage of stock will be allocated to eligible employees' accounts in accordance with applicable regulations under the Internal Revenue Code (the Code). Upon allocation, shares follow normal vesting rules.

The borrowing is collateralized by the unallocated shares of stock. The lender has no rights against shares once they are allocated under the ESOP. Accordingly, the financial statements of the Plan for the years 2024 and 2023 present separately the assets and liabilities and changes therein pertaining to:

4. The accounts of employees with vested rights in allocated stock (allocated).
5. Stock not yet allocated to employees (unallocated).

### **Note 2 – Summary of Significant Accounting Policies**

**Basis of accounting** – The financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America, using the accrual method of accounting.

## **Arvig Employee Stock Ownership Plan**

### **Notes to Financial Statements**

---

**Use of estimates** – The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.

**Cash and cash equivalents** – The Plan has entered into repurchase agreements with a financial institution whereby bank balances in excess of the Plan's needs are invested on a short-term basis. The repurchase agreements amounted to \$606,007 and \$184,772 as of December 31, 2024 and 2023, respectively. Repurchase agreements have been included in cash and cash equivalents at both December 31, 2024 and 2023.

**Investment valuation** – The common stock of the Arvig Enterprises, Inc. (the Sponsor Company) is valued at estimated fair value. Estimated fair value is determined by annual independent appraisals. All other investments are reported at fair value or contract value.

Fair value is the price that would be received to sell an asset or paid to transfer a liability (the exit price) in an orderly transaction between market participants at the measurement date. See Note 5 for a discussion of fair value measurements.

Contract value is the relevant measurement for assets invested in fully benefit-responsive investment contracts because contract value is the amount participants normally would receive if they were to initiate permitted transactions under the terms of the Plan.

**Income recognition** – Purchases and sales of securities are recorded on a trade-date basis. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Unrealized appreciation (depreciation) in the aggregate current value of securities is the difference between current value and the cost of investments during the year. The realized gain or loss on investments is the difference between the proceeds received and the average cost of each investment sold. The statement of changes in net assets includes the unrealized appreciation and realized net gains as net appreciation in fair value of investments.

Dividend income is accrued on the ex-dividend date.

**Risks and uncertainties** – The Plan's investments consist mainly of the common stock of the Sponsor Company and certain investment securities. The valuation of the Sponsor Company common stock is dependent upon financial performance of the Sponsor Company. Financial performance could be affected by changes in market conditions and various other uncertainties that could materially affect the valuation of investments reported in the financial statements. Investment securities are exposed to various risks, such as interest rate, market volatility, and credit risks. It is reasonably possible that changes in the values of investment securities in the near term could materially affect a participant's balance and the amounts reported in the statements of net assets available for benefits.

---

**Concentration of credit risk** – The Plan maintains its cash in bank deposit accounts, which, at times, may exceed federally insured limits. The insured limit is \$250,000 per institution. The Plan has not experienced any losses in such accounts and is not exposed to any significant credit risk on cash and cash equivalents.

**Subsequent events** – Subsequent events are events or transactions that occur after the statement of net assets available for benefits date but before the financial statements are available to be issued. The Plan recognizes in the financial statements the effects of all subsequent events that provide additional evidence about conditions that existed at the date of the statement of net assets available for benefits, including the estimates inherent in the process of preparing the financial statements. The Plan’s financial statements do not recognize subsequent events that provide evidence about conditions that did not exist at the date of the statement of net assets available for benefits but arose after the statement of net assets available for benefits date and before the financial statements are available to be issued.

The Plan has evaluated subsequent events through October 7, 2025, which is the date the financial statements were available to be issued.

### Note 3 – Income Tax Status

The Internal Revenue Service has determined and informed the Sponsor Company by a letter dated October 31, 2014, that the Plan is designed in accordance with applicable sections of the Code. Although the Plan has been amended since receiving the determination letter, the Plan administrator believes that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the Code and, therefore, believes that the Plan is qualified and the related trust is tax-exempt.

In accordance with guidance on accounting for uncertainty in income taxes, management has evaluated the Plan’s tax positions and does not believe the Plan has any uncertain tax positions that require disclosure or adjustment to the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

### Note 4 – Investments

### Note 5 – Fair Value Measurements

The framework for measuring fair value provides a hierarchy that prioritizes the inputs in valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3).

The three levels of the fair value hierarchy are described below:

**Level 1** – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets the Plan has the ability to access.

**Level 2** – Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; and inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

**Level 3** – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2024 and 2023.

*Sponsor Company common stock* – Valued at the latest available per share price as determined by an annual independent appraisal and reviewed and approved by the Trustee. The valuation process involves the Trustee's selection of an independent appraiser. Plan management accumulates the data for the appraiser from the audited financial statements of the Sponsor Company. The appraiser prepares a preliminary report which the ESOP trustee, reviews in detail, discusses and approves. The results of this process are documented in minutes of the Trustee.

*Registered investment companies (mutual funds)* – Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the U.S. Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

*Collective trusts* – Units held in collective trusts (CT) are valued using the net asset value practical expedient (NAV practical expedient) of the CT as reported by the CT managers. The NAV practical expedient is based on the fair value of the underlying assets owned by the CT, minus its liabilities, and then divided by the number of units outstanding.

## Arvig Employee Stock Ownership Plan Notes to Financial Statements

*Pooled separate accounts* – Units held in pooled separate accounts (PSAs) are valued using the NAV practical expedient of the PSA as reported by the account managers. The NAV practical expedient is based on the fair value of the underlying assets owned by the PSA, minus its liabilities, and then divided by the number of units outstanding.

Collective trusts and pooled separate accounts can be redeemed daily and have no redemption notice period. There are no unfunded commitments associated with the collective trusts and pooled separate accounts held by the Plan at December 31, 2024 and 2023.

The valuation methods used by the Plan may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table discloses the fair value hierarchy of the Plan's assets by level:

	Fair Value Measurements at December 31, 2024			Total
	Quoted Prices in Active Market for Identical Assets Level 1	Significant Observable Inputs Level 2	Significant Unobservable Inputs Level 3	
Sponsor Company common stock	\$ -	\$ -	\$ 71,646,344	\$ 71,646,344

Investments measured at Net Asset Value (practical expedient)				15,045,370
Investments at fair value				<u>\$ 88,936,735</u>

Gains (realized and unrealized) on investments other than common stock included in changes in net assets available for the period above are reported in net appreciation in fair value of investments in the statement of changes in net assets available for benefits.

### Quantitative information about significant unobservable inputs used in Level 3 Fair Value Measurements

The following table presents the Plan's Level 3 investments, the valuation techniques used to measure the fair value of those instruments as of December 31, 2024, and the significant unobservable inputs:

Name	Fair Value	Valuation Technique	Unobservable Inputs
Sponsor Company Common Stock	\$ 71,646,344	Income	Weighted average cost of capital EBITDA Operating revenue Discount rates

### Note 6 – Guaranteed Investment Contract with Principal Life Insurance Company

The Plan has entered into a fully benefit-responsive investment contract (FBRIC) with Principal Life Insurance Company (Principal). Principal maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan. The crediting rate is based on a formula established by the contract issuer but may not be less than 1.20%. The FBRIC does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

The contract meets the FBRIC criteria and therefore is reported at contract value. Contract value is the relevant measure for FBRICs because this is the amount received by participants if they were to initiate permitted transactions under the terms of the Plan. Contract value, as reported to the Plan by Principal represents contributions made under the contract, plus earnings, less participant withdrawals, and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

The Plan's ability to receive amounts due is dependent on the issuer's ability to meet its financial obligations, which may be affected by future economic and regulatory developments.

Certain events might limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the Plan Documents (including complete or partial Plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Plan sponsor or other plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA, or (5) premature termination of the contract. No events are probable of occurring that might limit the Plan's ability to transact at contract value with the contract issuer and that also would limit the ability of the Plan to transact at contract value with the participants.

### Note 7 – Notes Payable

The Plan has entered into various loan agreements with Sponsor Company. The proceeds of each loan were used to purchase shares of Sponsor Company common stock. Unallocated shares are collateral for the loan. The agreements all call for the loans to be repaid over a ten or twenty-year term at varying fixed interest rates.

The Plan's notes payable at December 31, 2024, are presented in the following table:

Date	Original Amount	Shares Purchased	Interest Rate %	2024 Debt Payment	2024 Principal Payments	2024 Interest Payments
9/25/2023	\$ 2,754,586	10,727	4.19	\$ 200,026	\$ 91,705	\$ 108,321

#### **Note 8 – Company Advances**

During the year ended December 31, 2024, the Company advanced \$1,575,932 in cash to the Plan to cover the Plan's distribution obligations and scheduled loan payments. This advance was an interest-free loan to the Plan. No collateral has been taken for this loan. Plan management believes the loan complies with the requirements of Department of Labor Prohibited Transaction Class Exemption 80-26.

A portion of the advance, in the amount of \$1,343,928 was used to fund cash distributions to participants. The advance was converted to a contribution as of December 31, 2024.

#### **Note 9 – Party-in-Interest Transactions**

Plan investments include shares of common stock of the Sponsor Company and units in collective trusts, pooled separate accounts and a guaranteed investment contract managed by Principal. The Sponsor Company is affiliated with the Plan and Principal is the custodian of the Plan and, therefore, transactions with these entities qualify as exempt party-in-interest transactions.
