## **Independent Auditor's Report**

Hofstra University Pension Plan  
128 Hofstra University, Phillips Hall  
Hempstead, New York 11549

### ***Scope and Nature of the ERISA Section 103(a)(3)(C) Audit***

We were engaged to perform audits of the financial statements of Hofstra University Pension Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C). The financial statements comprise the statements of net assets available for benefits as of December 31, 2024 and 2023, and the related statements of changes in net assets available for benefits for the years then ended and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA (ERISA Section 103(a)(3)(C) audit). As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency (qualified institution), provided that the investment information is prepared and certified to by the qualified institution in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

Management has obtained certifications from qualified institutions as of December 31, 2024 and 2023, and for the years then ended, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

### ***Disclaimer of Opinion***

We do not express an opinion on the accompanying financial statements of the Plan. Because of the significance of the matter described in the *Basis for Disclaimer of Opinion* section of our report, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion on the financial statements.

### ***Basis for Disclaimer of Opinion***

Prior to January 1, 2009, records were maintained at a contract, not a plan level; therefore, management has not maintained, and the custodians did not provide, sufficient accounting records and supporting documentation relating to certain annuity contracts and custodial accounts issued to current and former employees, and supporting documentation is not adequate to assure the completeness and accuracy of the amounts included in the financial statements. Accordingly, we were unable to apply auditing procedures sufficient to determine the extent to which the financial statements have been affected by these conditions.

### ***Responsibilities of Management for the Financial Statements***

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America (GAAP), and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date that the financial statements are available to be issued.

Management is responsible for maintaining a current plan instrument, including all plan amendments. Management is also responsible for administering the Plan and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

### ***Auditor's Responsibilities for the Audit of the Financial Statements***

Our responsibility is to conduct an audit of the Plan's financial statements in accordance with auditing standards generally accepted in the United States of America (GAAS) and to issue an auditor's report. However, because of the matter described in the *Basis for Disclaimer of Opinion* section of our report, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion on these financial statements.

We are required to be independent of the Plan, and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits.

### ***Other Matter – Supplemental Schedule Required by ERISA***

The supplemental Schedule H (Form 5500) - Line 4i - Schedule of Assets (Held at End of Year) as of December 31, 2024 is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. Because of the significance of the matter described in the *Basis for Disclaimer of Opinion* section of our report, it is inappropriate to and we do not express an opinion on the supplemental schedule referred to above.

## **HOFSTRA UNIVERSITY PENSION PLAN**

### **NOTES TO FINANCIAL STATEMENTS**

---

#### **(1) Plan Description**

The following description of the Hofstra University Pension Plan restated as of January 1, 2012 (the Plan) is provided for general information purposes only. Plan provisions may be found in the Hofstra University Pension Plan Document, restated as of January 1, 2012.

##### ***General***

The Plan is a defined contribution plan established by Hofstra University (Plan Sponsor or Employer) in accordance with the provisions of Section 403(b) of the Internal Revenue Code (IRC), which includes a qualified cash or deferred arrangement, for the benefit of eligible employees of the Plan Sponsor. The effective date of the Plan was November 1, 1945, and the Plan was restated as of January 1, 2012. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA).

Prior to January 1, 2009, the treatment of 403(b) plans generally was as a collection of individual contracts with respect to which employees could direct their accounts without the consent or involvement of the employer or Plan Sponsor. The accounting records for each individual participant were maintained by the custodians and other service providers, not the Plan Sponsor. As a result, prior to January 1, 2009, accounting records and supporting documents were not required to be externally reported, nor were they maintained at the Plan level by the custodians, service providers, or Plan Sponsor. As required by current federal regulation, commencing in 2009, an expanded Form 5500 requires the reporting of assets of the combined individual contracts at the Plan level.

##### ***Plan Administration***

The Plan is administered by a Committee, which consists of certain officers and employees of the Plan Sponsor and which has retained independent advisors. In 2013, the Committee selected Teacher Insurance and Annuity Association of America and College Retirement Equities Fund (TIAA-CREF), now known as Teacher Insurance and Annuity Association of America (TIAA), an insurance company, as the sole recordkeeper and custodian for the Plan. Effective December 3, 2013, the existing assets held by Vanguard Fiduciary Trust Company (Vanguard), Fidelity Management Trust Company (Fidelity), and T. Rowe Price were transferred to TIAA-CREF. The Variable Annuity Life Insurance Company (VALIC) investment carrier continues to maintain participants' balances that existed prior to December 3, 2013 due to the nature of the annuity contracts. Beginning December 3, 2013, participants who wish to participate in future annuity contracts may invest through TIAA.

##### ***Eligibility***

Employees are eligible to participate in the voluntary component of the Plan upon date of hire. Employees are required to make tax-deferred mandatory contributions as a condition of continued employment once they reach age 26 and meet service requirements unless participation is irrevocably waived. Employees are admitted to the Plan beginning the first day of the month following attainment of eligibility requirements.

Employees, other than faculty members, must complete 1 year of service and work more than 1,000 hours per year to be eligible to receive a matching contribution from the Plan Sponsor. Regular full-time faculty members are eligible to receive a matching contribution immediately. Employees covered by a collective bargaining agreement that does not provide for participation in the Plan and leased or temporary employees are not qualified, and therefore not eligible. Employees are credited with a year of service for each 12-month period during which they complete 1,000 or more hours of service.

## **HOFSTRA UNIVERSITY PENSION PLAN**

### **NOTES TO FINANCIAL STATEMENTS**

#### **(1) Plan Description (*continued*)**

##### ***Contributions***

Participants may make tax-deferred elective contributions to the Plan as soon as administratively feasible after their hire date, subject to the limitations of the IRC. Participants age 50 or older or who attain age 50 during the Plan year may make a “catch-up” contribution as defined by the IRC. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans.

The Plan Sponsor shall make matching contributions to the Plan for those employees who have made mandatory employee contributions and have reached age 26 in accordance with the Plan or as enumerated in the collective bargaining agreement for union employees. The matching contribution is based on date of hire and years of participation in the Plan and range from 5.0% to 17.5% (15.5% of compensation up to the Social Security taxable wage base plus 17.5% of compensation above the Social Security taxable wage base). The Plan requires the following mandatory employee contribution to receive employer matching contributions -- 2.5% of compensation up to the Social Security taxable wage base plus 6.2% on amounts earned exceeding the Social Security taxable wage base.

Contributions are subject to certain Internal Revenue Service (IRS) limitations.

##### ***Vesting***

Participants are fully and immediately vested in the benefits arising from contributions under this Plan.

##### ***Participant Accounts***

Individual accounts are valued daily and maintained for each of the Plan’s participants to reflect the participant’s contributions, the related Plan Sponsor matching contributions, and the participant’s share of the Plan’s income or loss.

Employees can select investment options offered by TIAA which includes mutual funds, pooled separate variable annuity accounts and tax deferred annuity based products. Effective March 18, 2020, the Plan adopted a Qualified Default Investment Alternative (QDIA) for when plan participants have not affirmatively selected investment option(s). The QDIA selected was the Vanguard Institutional Target Retirement Funds.

##### ***Benefits***

Participants may receive all or a portion of their vested account balance resulting from participant elective contributions upon termination of employment, disability, age 59½, hardship, or at any time with respect to pre-1989 elective deferrals invested in an annuity contract. Participants may receive all or a portion of their vested account balances resulting from Plan Sponsor matching contributions and participant mandatory contributions only upon termination of employment or age 59½. The benefit to which participants are entitled is the vested portion of their accounts. Participants may elect to rollover their vested balance to another qualified retirement plan or individual retirement account.

Benefits will be made in accordance with the terms of the funding vehicle from which the account balance is being distributed in accordance with elections made in the Plan and subject to the Joint and Survivor Annuity and Preretirement Survivor Annuity and the applicable sections of ERISA. The normal form of benefit of an annuity contract is a Qualified Joint and Survivor Annuity for married participants and a single life annuity for single participants, both with a ten-year guaranteed period. Plan assets funded by mutual funds will be distributed as cash distributions.

#### **(1) Plan Description (*continued*)**

##### ***Benefits (continued)***

Participants not holding an annuity contract who terminate employment prior to retirement may elect to have their balance distributed in a lump sum or transferred to an individual retirement account (IRA) or another employer's qualified plan. Death benefits are paid according to the benefits election in effect at the time of death.

##### ***Hardship Withdrawals***

Under certain conditions as permitted by ERISA and the IRC, participants, while still employed by the Plan Sponsor, are permitted to withdraw, in a single sum, the employee voluntary contribution portion of their account balance. These conditions include unreimbursed medical expenses, the purchase of the participant's principal residence, the payment of postsecondary education tuition, the payment of burial or funeral costs of immediate family members, the payment of natural disaster clean-up on the participant's principal residence, to prevent eviction or foreclosure from the participant's principal residence or expenses and losses incurred due to a federally declared disaster.

##### ***Notes Receivable from Participants***

Effective December 3, 2021, new permitted loans are issued directly from the participant's accounts at TIAA and VALIC from amounts accumulated under elective deferrals. The outstanding loan balance is recorded in Notes Receivable at December 31, 2024 and 2023.

Availability and terms are subject to the rules of the funding vehicle. Loans cannot exceed an amount equal to the lesser of 50% of the vested accumulation, or \$50,000 reduced by the highest outstanding balance of loans within the last 12 months. All loans are subject to the terms of the loan agreement, funding vehicles, and the IRC. A participant may not have more than 3 loans outstanding at any time. Loans are secured by the participant's account and bear an interest rate at local prevailing rates as determined by the Plan Administrator, which would be made under similar circumstances and is fixed for the term of the loan. The loans are repaid by the participant over a period of five years or less, unless used to purchase a principal residence.

##### ***Plan Contract Loans***

Prior to December 2, 2021, loans were issued directly from funds owned by TIAA or VALIC and not directly from a participant's account. For plan loans, interest and principal is paid by the participant directly to VALIC. Plan loans are not considered assets of the Plan and therefore are not reported in the statements of net assets available for benefits. Adequate security is required and a portion of the participant's account is reserved, or held as collateral, to cover the outstanding loan in case of default.

The interest rate is determined by TIAA or VALIC. The interest rates on outstanding Plan loans ranged from 4.0% to 6.26% at December 31, 2024 and 2023 and mature through December 1, 2030 at December 31, 2024 and 2023. Plan loans amounted to approximately \$0.9 million at December 31, 2024 and \$1.2 million at December 31, 2023. As such, approximately \$1.0 million and \$1.3 million for the years ended December 31, 2024 and 2023, respectively, of annuity account values (110% of outstanding loans from TIAA and CREF) serve as collateral for the related loans.

#### **(1) Plan Description *(continued)***

##### ***Administrative Expenses***

Administrative fees related to investment management are paid directly by the respective investment vehicle and are included as a reduction to net appreciation/(depreciation) in fair value of investments. Net appreciation in fair value of investments includes \$617,873 in 2024 and \$637,882 in 2023, which represents a portion of the investment management fees previously charged by TIAA through a reduction in investment appreciation which were returned to the Plan during each year. These amounts have been, or will be used to pay allowable plan expenses. Other administrative expenses of the Plan are generally paid by the Plan Sponsor. Redemption fees are paid by Plan participants.

#### **(2) Summary of Significant Accounting Policies**

##### ***Basis of Accounting***

The accompanying financial statements are prepared using the accrual basis of accounting.

As of January 1, 2009, the Plan's insurance company and custodians began to provide the Plan Sponsor with annual certified statements summarizing the Plan's activities and holdings at the Plan level. The financial statements include all financial information as provided in the insurance company and custodians' statements.

##### ***Use of Estimates***

The preparation of financial statements in conformity with U.S. generally accepted accounting principles (U.S. GAAP) requires the Plan's management to make estimates and assumptions that affect reported amounts of assets and liabilities and changes in those assets and liabilities, and disclosures of contingent assets and liabilities. Actual results could differ from those estimates.

##### ***Investment Valuation and Income Recognition***

The Plan's investments as elected by individual Plan participants are recorded at fair value, except for the TIAA Traditional Annuity Group Supplemental Retirement Accounts (GSRA), a fully benefit-responsive contract, which is reported at contract value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Interest income is recorded on the accrual basis. Dividend income is recorded on the ex-dividend date. Purchases and sales of securities are recorded on a trade-date basis. Net appreciation in fair value of investments represents the change in fair value of assets bought and sold, as well as held during the year.

The TIAA and VALIC accounts invest principally in equity securities, fixed-income instruments, and short-term instruments in accordance with each fund's investment objectives. Fund holdings are generally valued daily using market quotations or prices obtained from independent pricing services, except those held in money market funds, whose holdings are valued at amortized cost. The money market funds are managed to maintain a constant value, though not guaranteed, of \$1 per share.

Pooled separate variable annuity accounts are valued at the Net Asset Value (NAV) of shares held by the Plan at year end as determined by the issuer. The NAV is principally derived from the market value of the underlying holdings.

## **HOFSTRA UNIVERSITY PENSION PLAN**

### **NOTES TO FINANCIAL STATEMENTS**

---

#### **(2) Summary of Significant Accounting Policies (*continued*)**

##### ***Investment Valuation and Income Recognition (continued)***

The TIAA Real Estate Account (REA) is a pooled separate account/insurance company separate account of TIAA investing mainly in real estate and real estate-related investments. The REA's value is principally derived from the market value of the underlying real estate holdings or other real estate-related investments. Real estate holdings are valued principally using external appraisals, which are estimates of property values based on a professional's opinion. The REA sometimes holds securities as well. Securities held in REAs are generally priced using values obtained from independent pricing sources. The NAV is calculated daily and redemptions may occur once per quarter.

The TIAA Traditional Annuity Accounts represent insurance contracts issued by TIAA that guarantees principal and a contractually specified interest rate to account participants. The account offers the potential for greater growth through additional amounts, which may be declared on a year-by-year basis by the TIAA Board of Trustees. These additional amounts, when declared, remain in effect for the "declaration year" which begins each March 1. During 2024 additional amounts were credited to the Retirement Account (RA) contracts and Group Supplemental Retirement Account (GSRA) contracts which increased the total rate to a consistent rate of 5.25% for the RA contracts and 4.5% for the GSRA contracts. During 2023 additional amounts were credited to the Retirement Account (RA) contracts and Group Supplemental Retirement Account (GSRA) contracts which increased the total rate to a consistent rate of 6.75% for the RA contracts and 6% for the GSRA contracts. RA contracts are subject to liquidity restrictions and do not allow lump-sum cash withdrawals from the TIAA Traditional Annuity. Transfers must be spread out in ten annual installments. GSRA contracts allow for transfers and withdrawals. The TIAA Traditional Annuity Accounts are guaranteed insurance contracts and not an investment for Federal Securities Law purposes.

The TIAA Traditional Annuity Account holdings within the GSRA contracts are benefit responsive (not subject to significant restrictions) and therefore are reported at contract value. The contract value of the GSRA equals the accumulated cash contributions and interest credited to the Plan's contracts, less any withdrawals. In determining contract value, the insurance companies consider such factors as the benefit responsiveness of the contracts, the ability of the parties to the contracts to perform in accordance with the terms of the contracts and likelihood of default by the issuer of an investment security. Fully benefit responsiveness investments are reported at contract value in the statements of net assets available for benefits. The TIAA Traditional Annuity Account holdings within the RA contracts are subject to liquidity restrictions and are not benefit responsive, however, they are reported at fair value in the statements of net assets available for benefits. The TIAA Traditional Annuity Accounts are not available for sale or transfer on any securities exchange. Accordingly, transactions in similar investment instruments are not observable.

The VALIC Traditional Annuity Accounts represent a deferred annuity contract issued by VALIC that guarantees principal and minimum variable rate of interest during the purchase period. The VALIC Traditional Annuity Accounts are not benefit responsive. Participants elect to enter the payout period by annuitizing the account, initiating either fixed or variable payouts. VALIC Traditional Annuity contracts are subject to liquidity and transfer restrictions and do not allow for lump-sum cash withdrawals without penalty.

##### ***Payment of Benefits***

Benefits paid to participants are recorded when paid.

## **HOFSTRA UNIVERSITY PENSION PLAN**

### **NOTES TO FINANCIAL STATEMENTS**

---

#### **(2) Summary of Significant Accounting Policies (*continued*)**

##### ***Contribution Receivables***

Participant contributions and any related employer matching contributions are recognized in the period during which the Employer makes the respective payroll deduction from the participant's compensation.

##### ***Notes Receivable from Participants***

Notes receivable from participants are measured at their unpaid principal balance plus accrued unpaid interest. If a participant ceases to make loan repayments and the Plan Administrator deems the participant loan to be in default, the participant loan balance is reduced, and a benefit payment is recorded.

#### **(3) Information Certified by the Plan's Insurance Company and Custodians**

The Plan Sponsor has elected the method of annual reporting compliance permitted by ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

Accordingly, TIAA and CREF, including assets held by TIAA Trust, N.A., and VALIC, qualified institutions, have certified that the following investment information included in the accompanying financial statements and ERISA-required supplemental schedule is complete and accurate:

- Total investments and notes receivable from participants as shown in the statements of net assets available for benefits as of December 31, 2024 and 2023.
- Net appreciation in fair value of investments, interest and dividend income, earned income from TIAA Traditional Annuity Accounts, and interest income on notes receivable from participants as shown in the statements of changes in net assets available for benefits for the year ended December 31, 2024 and 2023.
- Investments reflected on the supplemental Schedule of Assets (Held at End of Year) as of December 31, 2024, as shown on the ERISA-required supplemental schedule.

At the request of the Plan Sponsor, and as permitted under such election, the Plan's independent auditors did not perform auditing procedures with respect to this certified investment information, except for comparing such certified investment information to the related investment information in the financial statements, including reading the disclosures related to the investment information to assess whether they are in accordance with the presentation and disclosure requirements of GAAP, and in the ERISA-required supplemental schedule, including assessing whether the supplemental schedule are in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

#### **(4) Fair Value of Financial Instruments**

U.S. GAAP establishes a framework for the measurement of fair value, and enhances disclosures about fair value measurements. This statement does not require any new fair value measures. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. It prioritizes the inputs to the valuation techniques used to measure fair value by giving the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to measurements involving significant unobservable inputs (Level 3 measurements).

**(4) Fair Value of Financial Instruments (continued)**

Accounting Standards Codification (ASC) 820, Fair Value Measurement, provides for a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under ASC 820 are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets.
- Quoted prices for identical or similar assets or liabilities in inactive markets.
- Inputs other than quoted prices that are observable for the asset or liability.
- Inputs that are derived principally from, or corroborated by, observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

There have been no changes in the methodologies used at December 31, 2024 or 2023. The following is a description of the valuation methodologies used for assets measured at fair value:

*Mutual Funds:* Valued at the quoted market prices held at year end.

*Pooled Separate Variable Annuity Accounts:* Valued at the net asset value (NAV) of shares held by the Plan at year end as determined and quoted daily by the issuer.

*Traditional Annuity Accounts:* The Traditional Annuity contracts are valued at contract value which approximates fair value. The fair value is derived from a discounted cash flow analysis and other factors. The Traditional Annuity Accounts are not available for sale or transfer on any securities exchange. Participants may only transfer from the TIAA Traditional Annuity Accounts between investment options in substantially equal amounts over a 10-year period. Accordingly, transactions in similar investment instruments are not observable. Significant inputs to determine fair value include the crediting rate and future cash flows. The crediting rate which is supported by the investment performance of a large, diversified portfolio, is correlated with the highest quality debt security yields, and is adjusted for contract liquidity. TIAA issues various types of contracts as funding vehicles for retirement plans. Certain contract types contain liquidity restrictions on the redemption of TIAA Traditional Annuity Accounts.

## HOFSTRA UNIVERSITY PENSION PLAN

### NOTES TO FINANCIAL STATEMENTS

---

#### (4) Fair Value of Financial Instruments (continued)

*Traditional Annuity Accounts (continued):* Transfers out of the VALIC Fixed Account Plus may be done at any time up to 20% per participant year for all account values greater than \$500. All account values less than or equal to \$500 may transfer the full account value. After a transfer from the Short-Term Fixed Account, a participant may not make another transfer from the Short-Term Fixed Account for 90 days.

*Self-Directed Funds:* Mutual funds valued at the quoted market prices held at year end.

The preceding methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan Sponsor believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table presents information about significant unobservable inputs related to the Plan's investments in assets categorized as Level 3 in the fair value hierarchy at December 31, 2024 and 2023:

	<u>Fair Value</u>	<u>Valuation Technique</u>	<u>Significant Unobservable Inputs</u>	<u>Risk-Adjusted Discount Rate Range (%)</u>
<b>2024</b>				
Traditional Annuity Accounts (RA and VALIC)	\$ 247,491,386	Discounted Cash Flow; Theoretical Transfer (Exit Value)	Risk- Adjusted Discount Rate Applied	RA – 3.65% - 6.50% VALIC – 3.25% - 3.65%
<b>2023</b>				
Traditional Annuity Accounts (RA and VALIC)	\$ 245,678,691	Discounted Cash Flow; Theoretical Transfer (Exit Value)	Risk- Adjusted Discount Rate Applied	RA – 4.0%-6.75% VALIC – 3.5% - 3.75%

Unobservable inputs include discount rate applied. Increase/(decrease) in the discount rate applied in isolation can result in a lower/(higher) fair value. During 2024, total purchases and sales of the Traditional Annuity Accounts were \$22,112,024 and \$31,704,800, respectively. During 2023, total purchases and sales of the Traditional Annuity Accounts were \$30,193,116 and \$37,055,883, respectively.

The Plan Sponsor performs ongoing due diligence reviews and has retained a consultant to provide periodic reports.

## **HOFSTRA UNIVERSITY PENSION PLAN**

### **NOTES TO FINANCIAL STATEMENTS**

---

#### **(5) Plan Termination**

Although the Plan Sponsor has not expressed any intent to do so, it has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. These rights may be subject to the provisions of collective bargaining agreements.

#### **(6) Related-Party and Parties-in-Interest Transactions**

Certain Plan investments are managed by TIAA and VALIC and, therefore, qualify as party-in-interest transactions.

The Plan issues loans to participants which are secured by the vested balance of the participants' accounts. As described in Note 1, the Plan paid certain expenses related to plan operations and investment activity to various service providers. These transactions are party-in-interest transactions, which are exempt from prohibited transaction rules.

#### **(7) Risk and Uncertainties**

The Plan assets are invested in a variety of investments selected by the participants. Investment securities, in general, are exposed to various risks, such as interest rate, credit and overall market volatility risks. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such change could materially affect the amounts reported in the statements of net assets available for benefits.

The Plan invests directly or indirectly in securities with contractual cash flows, such as asset-backed securities, collateralized mortgage obligations and commercial mortgage-backed securities, including securities backed by subprime mortgage loans. The value, liquidity and related income of these securities are sensitive to changes in economic conditions, including real estate values, delinquencies or defaults, or both, and may be adversely affected by shifts in the market's perception of the issuers and changes in interest rates.

The TIAA and VALIC Traditional Annuity Accounts represent approximately 27.9% and 30.0% of the Plan's net assets as of December 31, 2024 and 2023, respectively, and represent an obligation from TIAA to repay as amounts come due. There are no reserves against the contract value for credit risk of the contract issuer or otherwise. The Plan Sponsor does not believe that any events would limit the Plan's ability to transact at the contract value.

#### **(8) Tax Status**

The Plan has been designed to qualify under Section 403(b) of the IRC. The Plan is required to operate in conformity with the Code to maintain the tax-exempt status for plan participants under Section 403(b). The Plan administrator believes that the Plan is currently designed and operating in accordance with the applicable requirements of Section 403(b) of the Code and, therefore, believes that the Plan is currently designed and operated in compliance with the applicable requirements of the IRC and continues to be tax-exempt.

U.S. GAAP requires Plan Sponsors to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no IRS examinations for any tax periods in progress.

#### **(9) Subsequent Events**

The Plan evaluated events subsequent to December 31, 2024 and through September 9, 2025, the date on which the financial statements were available for issuance.

Effective January 1, 2025, the Plan added Roth elective deferrals and began accepting Roth rollovers. Effective June 13, 2025, the Plan began accepting Roth in-plan conversions.
