## INDEPENDENT AUDITOR'S REPORT

To the Trustees  
Allied Motion Technologies Inc. Employees' Stock Ownership Plan and Trust

### **Opinion**

We have audited the financial statements of the Allied Motion Technologies Inc. Employees' Stock Ownership Plan and Trust (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statements of net assets available for benefits as of December 31, 2024 and 2023, the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2024 and 2023, and the changes in its net assets available for benefits for the years then ended, in accordance with accounting principles generally accepted in the United States of America.

### **Basis for Opinion**

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

### **Responsibilities of Management for the Financial Statements**

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date that the financial statements are issued or available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

### **Auditor's Responsibilities for the Audit of the Financial Statements**

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

### **Supplemental Schedules Required by ERISA**

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedules of a) Schedule H, Line 4i – Schedule of assets (held at end of year) as of December 31, 2024 and b) Schedule H, Line 4j – Schedule of reportable transactions for the year ended December 31, 2024 are not a required part of the financial statements but are supplementary information required by the Department of Labor's (DOL's) Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, including their form and content, are presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying schedules is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content are presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

**Note 1. Plan Description**

The following description of the Allied Motion Technologies Inc. Employees' Stock Ownership Plan and Trust (the Plan) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General:

The Plan is a defined contribution plan sponsored by Allient Inc. (the Company) and operates as an employee stock ownership plan that is designed to comply with Section 4975(e)(7) and the regulations thereunder of the Internal Revenue Code (the Code). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Trustees are responsible for oversight of the Plan. Effective August 23, 2023, the Company changed its name from Allied Motion Technologies Inc. to Allient Inc.

The Plan was established to provide employees with the opportunity to accumulate capital ownership in the Company.

Eligibility:

Employees of the Company and certain subsidiaries in the United States of America are eligible to participate in the Plan immediately upon their date of hire.

The Plan specifically excludes independent contractors, any directors who are not employed by the Company in any other capacity, technical consultants, laid-off employees, union employees covered by a collective bargaining agreement that does not expressly provide for participation in the Plan, and non-resident aliens from participation in the Plan.

Contributions:

The Plan is funded through discretionary Company contributions of cash or Company stock to the Plan. Annual contributions are determined by the Company's Board of Directors and may not be more than 25% of aggregate eligible compensation, as defined by the Plan, of all participants eligible to receive Company contributions. The Company made discretionary contributions of \$887,623 and \$1,564,014 for the years ended December 31, 2024 and 2023, respectively. These contributions were made in the form of Company stock. Employee contributions are not permitted. Contributions are subject to certain limitations of the Code.

**Note 1. Plan Description (Continued)**

Participant accounts:

The Plan is a defined contribution plan under which a separate individual account is established for each participant. Each participant's account is credited as of the last day of each Plan year with an allocation of forfeitures of terminated participants' nonvested accounts and the Company's discretionary contributions. Participants who do not have at least 1,000 hours of service during a Plan year or are not employed on the last working day of a Plan year are generally not eligible for an allocation of Company contributions for such year. Allocations are based on a participant's eligible compensation relative to total compensation. Plan earnings are allocated to each participant's account based on the ratio of the participant's account balance to the total of all participants' account balances. The benefit to which a participant is entitled is limited to that which can be provided from the participant's vested account.

Vesting:

Participants become vested in Company contributions based on years of service. A participant receives credit for a year of service if they complete at least 1,000 hours of service during each Plan year. Participants become 10% vested after 1 year of service and 20% after 2 years of service, with vesting increasing at 20% increments each year thereafter, so that they are 100% vested after six years of service. Vesting is immediate upon death, termination of employment due to disability, or attainment of retirement age, as defined.

Forfeitures:

As of December 31, 2024 and 2023, there were no forfeited nonvested accounts. Forfeited amounts may be used to reduce the Company's annual discretionary contribution, pay administrative expenses, or are reallocated to participants. In the event forfeitures are reallocated to participants, the amount allocated to each participant's account is based upon the ratio of the participant's eligible compensation to total eligible compensation for the Plan year. Forfeitures used to pay administrative expenses during the years ended December 31, 2024 and 2023 totaled \$33,005 and \$62,909, respectively. Forfeitures reallocated to participants during the years ended December 31, 2024 and 2023 totaled \$81,351 and \$24,337, respectively.

Payment of benefits:

Distributions on account of death, disability, retirement, or termination from employment are made in the form of Company stock. The participant, or the participant's beneficiary in the case of a distribution made upon a participant's death, may elect such distribution be in cash. If a participant elects to receive their distribution in cash, the Plan will liquidate the participant's shares of Company stock within a reasonable period of time as defined in the Plan document.

**Note 1. Plan Description (Continued)**

Administrative expenses:

Certain expenses of maintaining the Plan are paid by the Plan, unless otherwise paid by the Company. Expenses that are paid by the Company are excluded from these financial statements. The Plan pays for certain recordkeeping and audit fees, which are paid from forfeitures. The Plan also pays for fees related to benefit processing, which are charged directly to the participant's account.

Voting rights:

Each participant is entitled to exercise voting rights attributable to the shares allocated to his or her account and is notified by the Trustee prior to the time that such rights are to be exercised. In such event, each participant is entitled to instruct the Trustees as to the manner in which any shares of Company stock allocated to his or her Company stock account will be voted. The Trustee is not permitted to vote any allocated share for which instructions have not been given by a participant. The Trustee is required, however, to vote any unallocated shares on behalf of the collective best interests of Plan participants and beneficiaries.

Diversification:

Diversification is offered to participants close to retirement so that they may have the opportunity to move part of the value of their investment in Company common stock into investments that are more diversified. Participants who are at least age 55 with at least 10 years of participation in the Plan may elect to diversify a portion of their accounts. Diversification is offered to each eligible participant over a six-year period. In each of the first five years, a participant may diversify up to 25% of the number of shares allocated to his or her account, less any shares previously diversified. In the sixth year, the percentage changes to 50%. Participants who elect to diversify can elect a stock or cash distribution, or can elect to transfer the distribution to another defined contribution plan maintained by the Company. The election to diversify is made subsequent to year-end; the diversification is based upon the shares of employer stock in the participant's account at year-end. For the years ended December 31, 2024 and 2023, distributions as a result of diversification totaled \$9,832 and \$66,657, respectively.

**Note 2. Significant Accounting Policies**

Basis of accounting:

The financial statements have been prepared using the accrual basis of accounting.

**Note 2. Significant Accounting Policies (Continued)**

Investment valuation and income recognition:

The Plan's investment in Company stock is reported at fair value. Fair value is the price the Plan's management expects would be received to sell an asset in an orderly transaction between market participants at the measurement date. The Trustees determine the Plan's valuation policies utilizing information provided by the Plan's custodian. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Net depreciation includes the Plan's gains and losses on investments bought and sold, as well as held during the year. Dividend income is recorded on the dividend record date.

Benefits:

Benefits are recorded when paid.

Use of estimates:

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Subsequent events:

Subsequent events have been evaluated through October 1, 2025, which is the date the financial statements were available to be issued.

**Note 3. Investments**

The Plan's investment in Company stock at December 31, 2024 and 2023 is presented in the following table. All shares of Company stock owned by the Plan have been allocated to participants.

**Note 4. Fair Value Measurements**

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability; and
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodology used for assets measured at fair value. There have been no changes in the methodology used at December 31, 2024 and 2023.

*Common stock:* Valued at the average of the closing bid and ask prices as reported on the active market on which the individual securities are traded.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value at December 31, 2024 and 2023.

**Note 5. Plan Termination**

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become fully vested in their accounts.

**Note 6. Tax Status**

The Internal Revenue Service (IRS) has determined and informed the Company by a letter dated October 14, 2016, that the Plan and related trust are designed in accordance with the applicable sections of the Code. The Plan has been amended since receiving the determination letter. However, the Plan Administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the Code and, therefore, believes that the Plan is qualified, and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan Administrator believes it is no longer subject to income tax examinations for years prior to 2021.

**Note 7. Party-In-Interest Transactions**

A party-in-interest transaction is defined under the Department of Labor's regulations as any fiduciary of the Plan, any party rendering services to the Plan, the employer, certain participants, and others.

Plan investments are shares of Company common stock. The Company is the employer, and considered a party-in-interest; therefore, purchases and sales of the Company's common stock qualify as party-in-interest transactions.

Principal Life Insurance Company (Principal Life) is the Plan's recordkeeper, and Principal Trust Company (Principal Trust) is the Plan's custodian. Therefore, fees paid to Principal Life and Principal Trust for recordkeeping and benefit processing qualify as party-in-interest transactions. These fees are reported in administrative expenses.

Dopkins & Company, LLP (Dopkins) is the auditor of the Plan's financial statements, and, therefore, fees paid to Dopkins qualify as party-in-interest transactions. These fees are reported in administrative expenses.

**ALLIED MOTION TECHNOLOGIES INC.  
EMPLOYEES' STOCK OWNERSHIP PLAN AND TRUST**

**NOTES TO FINANCIAL STATEMENTS**

---

**Note 8. Risks and Uncertainties**

The Plan invests in the Company's common stock, which is exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with the investment in the Company's common stock, it is at least reasonably possible that changes in the values of the investment will occur in the near term and that such changes could materially affect participants' account balances the amounts reported in the statements of net assets available for benefits.
