Independent Auditor's Report

To the Plan Administrator  
Pension Plan for Eligible Employees of Suburban Propane L.P. and Subsidiaries

*Scope and Nature of the ERISA Section 103(a)(3)(C) Audit*

We have performed audits of the financial statements of Pension Plan for Eligible Employees of Suburban Propane L.P. and Subsidiaries (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 ("ERISA"), as permitted by ERISA Section 103(a)(3)(C) ("ERISA Section 103(a)(3)(C)"). The financial statements comprise the statements of net assets available for benefits as of December 31, 2024 and 2023, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan ("investment information") by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA ("qualified institution").

Management has obtained certifications from a qualified institution as of December 31, 2024 and 2023, and for the years then ended, stating that the certified investment information, as described in Note 5 to the financial statements, is complete and accurate.

*Opinion*

In our opinion, based on our audits and on the procedures performed as described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section:

- The amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- The information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

### *Basis for Opinion*

We conducted our audits in accordance with auditing standards generally accepted in the United States of America ("GAAS"). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

### *Responsibilities of Management for the Financial Statements*

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current Plan instrument, including all Plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

### *Auditor's Responsibilities for the Audit of the Financial Statements*

Except as described in the *Scope and Nature of the ERISA Section 103(a)(3)(C) Audit* section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a significant likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.

- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certifications, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether it is in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audits, significant audit findings, and certain internal control-related matters that we identified during the audits.

Other Matter

*Supplemental Schedules Required by ERISA*

The supplemental Schedule of Assets (Held at End of Year) (Schedule H, Line 4i) and Schedule of Reportable Transactions (Schedule H, Line 4j) as of and for the year ended December 31, 2024 are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedules, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedules that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, other than the information agreed to or derived from the certified investment information, including their form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- The form and content of the supplemental schedules, other than the information in the supplemental schedules that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- The information in the supplemental schedules related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

# **Pension Plan for Eligible Employees of Suburban Propane L.P. and Subsidiaries**

## **Notes to Financial Statements December 31, 2024 and 2023**

### **Note 1 - Description of the Plan**

The following description of the Pension Plan for Eligible Employees of Suburban Propane L.P. and Subsidiaries (the "Plan") provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

#### **General**

The Plan is a noncontributory defined benefit pension plan sponsored by Suburban Propane L.P. (the "Company") and is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended ("ERISA"). The Plan is administered by the Company's Benefits Administration Committee ("Committee"). The Committee has overall responsibility for the operation and administration of the Plan. The Committee determines the appropriateness of the Plan's investment holdings in consultation with Mercer Global Investments, Inc. ("Mercer"), monitors investment performance and reports to the Company's Board of Supervisors.

The Plan was designed to cover all eligible employees of the Company. Effective January 1, 1998, all full-time regular employees became eligible employees upon hire and all nonregular employees became eligible employees on the first day of the month following their completion of a year of service, as defined by the Plan document. Effective January 1, 2000, participation in the Plan is limited to eligible participants in existence on that date. No new employees are eligible to participate in the Plan.

#### **Funding policy**

The Plan's funding policy is for the Company to contribute an amount which will meet or exceed the annual ERISA minimum funding requirement.

Although it has not expressed an intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA.

#### **Pension benefits**

Eligible participants who earn five years of eligibility service are entitled to receive pension benefits. Effective January 1, 2008, the eligibility service requirement was reduced from five years to three years. Employees who terminated prior to January 1, 1998, with five years of eligibility service and were not eligible for early retirement, are eligible for a deferred vested pension benefit. A participant who has reached the age of 55 and completed 10 years of eligibility service may elect an early retirement benefit. Reduced retirement benefits are available for participants electing early retirement prior to age 62 or receiving a deferred vested retirement allowance. The pension amount will vary based on the participant's average final compensation and years of benefit service under the Prior Plan Formula as of the participant's separation date. Eligible Plan members may elect to receive their total pension benefit in a single-lump cash payment or other optional forms of payment, as defined in the Plan document.

Effective January 1, 1998, the Plan changed its pension benefit formula to a cash balance format. Benefits accrued under the Plan as of December 31, 1997 (the "Prior Plan Formula") were converted into an "opening balance" in the cash balance account. Years of pension benefit service and earnings history under the Prior Plan Formula were used to calculate the opening balance. A special transition provision was in effect through December 31, 2002. During the five-year transition period, the value of the cash balance account was monitored against the pension calculated under the Prior Plan Formula to ensure benefits are not less than they would have been if the Prior Plan

Suburban Propane L.P. and Subsidiaries**

**Notes to Financial Statements

Formula had stayed in effect. On and after January 1, 2003, the accrued benefit under the Prior Plan Formula as of January 1, 2003, will be compared to the cash balance account and the Plan will pay the greater benefit. Effective December 31, 2002, all pay credits were suspended. Interest credits will continue to be applied to each eligible participant's cash balance plan account.

Active participants who would have been eligible for the retiree medical benefit and hired before June 1, 1993, received a one-time special credit to their cash balance account on April 1, 1998. This credit equaled \$415 for each year of benefit service (maximum of 35 years) as of December 31, 1997. Also, active participants who earned four and five weeks of vacation time as of December 31, 1997, received an additional 2% and 4%, respectively, pay credit to their accounts. Both special credits receive interest credits as well. Effective January 1, 2003, interest credits only will be applied to balances accumulated under these special credits.

**Note 2 - Significant accounting policies**

**Basis of accounting**

The Plan's financial statements are prepared on the accrual basis of accounting.

**Use of estimates**

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein, and the actuarial present value of accumulated plan benefits at the date of the financial statements. Actual results could differ from those estimates.

**Investment valuation and income recognition**

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold, as well as held during the year.

**Payment of benefits**

Benefits payments to participants are recorded upon distribution.

**Administrative expenses**

The Plan's expenses are paid by the Plan, as provided by the Plan document. Expenses that are paid directly by the Company are excluded from these financial statements. Certain expenses incurred in connection with the general administration of the Plan that are paid by the Plan are recorded as deductions in the accompanying statements of changes in net assets available for benefits. In addition, certain investment-related expenses are included in net appreciation in fair value of investments presented in the accompanying statements of changes in net assets available for benefits.

**Subsequent events**

The Plan has evaluated subsequent events through October 2, 2025, which is the date the financial statements were available to be issued.

**Pension Plan for Eligible Employees of  
Suburban Propane L.P. and Subsidiaries**

**Notes to Financial Statements  
December 31, 2024 and 2023**

**Note 3 - Actuarial present value of accumulated plan benefits**

Accumulated plan benefits are those future periodic payments, including lump-sum distributions, that are attributable under the Plan's provisions to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died and (c) present employees and their beneficiaries. In general, benefits under the Plan are based on employees' compensation during their last five years of credited service up through December 31, 2002, compared to their cash balance account.

The accumulated plan benefits for active employees are based on a comparison of their accumulated cash balance account compared to the benefits based on their final average compensation, which is equal to the highest five consecutive years of compensation with the Company out of the last 10 consecutive years of benefit service up to December 31, 2002. Benefits payable under all circumstances (retirement, death, disability and termination of employment) are included to the extent they are deemed attributable to employee service rendered to the Valuation Date. The actuarial present value of accumulated plan benefits is determined by the Plan's independent consulting actuary and is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal or retirement) between the Valuation Date and the expected date of payment. The significant actuarial assumptions used in the valuations as of January 1, 2024 and 2023 were (a) life expectancy of participants (the PRI-2012 No Collar Mortality Table projected using the MP-2021 Scale for both 2024 and 2023), (b) retirement age assumptions (both the 2024 and 2023 assumed average retirement ages were 63), and (c) investment return. The 2024 and 2023 valuations included assumed average rates of return of 2.95%. The foregoing actuarial assumptions are based on the presumption that the Plan will continue for those who were members on or before January 1, 2000. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits. The computation of the actuarial present value of accumulated plan benefits was made as of January 1, 2024. Had the valuations been performed as of December 31, 2023, there would be no material differences.

**Note 4 - Fair value measurements**

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities ("Level 1") and the lowest priority to unobservable inputs ("Level 3"). The three levels of the fair value hierarchy under Financial Accounting Standards Board issued Accounting Standards Codification 820 are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;

**Pension Plan for Eligible Employees of  
Suburban Propane L.P. and Subsidiaries**

**Notes to Financial Statements  
December 31, 2024 and 2023**

- Inputs other than quoted prices that are observable for the asset or liability; and
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodology used for assets measured at fair value. There have been no changes in the methodology used at December 31, 2024 and 2023.

*Common/collective trusts:* Valued at the net asset value ("NAV") of units of a bank collective trust. The NAV, as provided by the trustee, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Participant transactions (purchases and sales) may occur daily. Were the Plan to initiate a full redemption of the common/collective trust, the investment adviser reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner.

The following tables set forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2024 and 2023:

	2024			
	Level 1	Level 2	Level 3	Total
	\$ -	\$ -	\$ -	\$ -
Investments measured at NAV (a)				47,708,608
Total assets, at fair value				\$ 47,708,608
	2023			
	Level 1	Level 2	Level 3	Total
	\$ -	\$ -	\$ -	\$ -
Investments measured at NAV (a)				52,594,840
Total assets, at fair value				\$ 52,594,840

(a) In accordance with Subtopic 820-10, certain investments that were measured at NAV per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statements of net assets available for benefits.

December 31, 2024 and 2023**

**Fair value of investments in entities that use NAV**

The Plan's assets are invested in common/collective trusts, all of which provide for daily redemption with no restrictions.

There were no unfunded commitments as of December 31, 2024 and 2023.

**Note 5 - Certified investments**

The Plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Investments held at December 31, 2024 and 2023, and investment income for the years then ended, that are disclosed in the accompanying financial statements and supplemental schedules, were obtained or derived from information supplied to the Plan administrator and certified as complete and accurate by Bank of New York Mellon/BNY Mellon, N.A., the trustee of the Plan.

**Note 6 - Accumulated plan benefits**

The following is a summary of the actuarial present value of accumulated plan benefits as of December 31, 2023:

Vested benefits of participants currently receiving benefits	\$ 49,619,690
Other vested benefits	<u>26,413,559</u>
 Total vested benefits	 76,033,249
Nonvested benefits	<u>52,327</u>
 Total actuarial present value of accumulated plan benefits	 <u>\$ 76,085,576</u>

The following is a summary of the changes in the actuarial present value of accumulated plan benefits for the year ended December 31, 2023:

**Note 7 - Plan termination**

In the event the Plan terminates, the net assets of the Plan will be allocated, as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated:

- i. Annuity benefits that former employees or their beneficiaries have been receiving for at least three years, or that employees eligible to retire for that three-year period would have been receiving if they had retired with benefits in the normal form of annuity under the Plan. The priority amount is limited to the lowest benefit that was payable (or would have been payable) during those three years. The amount is further limited to the lowest benefit that would be payable under Plan provisions in effect at any time during the five years preceding Plan termination.
- ii. Other vested benefits insured by the Pension Benefit Guaranty Corporation (the "PBGC") up to the applicable limitations (discussed below).
- iii. All other vested benefits (that is, vested benefits not insured by the PBGC).
- iv. All nonvested benefits.

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination.

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations and may also depend on the financial condition of the Plan sponsor and the level of benefits guaranteed by the PBGC.

**Note 8 - Related party transactions**

Certain Plan investments are managed by the trustee as well as the investment manager, Mercer. In addition, Mercer provides actuarial services to the Plan. Therefore, these transactions qualify as party-in-interest transactions. Fees paid amounted to \$468,792 and \$518,262 for the years ended December 31, 2024 and 2023, respectively.

**Note 9 - Tax status**

The Internal Revenue Service (the "IRS") has determined and informed the Company by a letter dated August 30, 2013, that the Plan is designed in accordance with applicable sections of the Internal Revenue Code (the "IRC"). Although the Plan has been amended since receiving the determination letter, the Plan administrator and the Plan's tax counsel believe that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC and, therefore, believe that the Plan is qualified, and the related trust is tax-exempt.

**Pension Plan for Eligible Employees of  
Suburban Propane L.P. and Subsidiaries**

**Notes to Financial Statements  
December 31, 2024 and 2023**

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

**Note 10 - Risks and uncertainties**

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

**Schedule SB, Part V — Statement of Actuarial Assumptions/Methods****Actuarial methods****Asset methods**

The asset valuation method is an annual average of the adjusted market value over the last two years preceding the valuation date. The adjusted market value is the market value at each determination date adjusted to the valuation date based on actual cash flows and expected interest at the lesser of the expected rate of return and the third segment rate. This amount is adjusted to be no greater than 110% and no less than 90% of the fair market value, as defined in IRC Section 430.

A characteristic of this asset method is that, over time, it is slightly more likely to produce an actuarial value of assets that is less than the market value of assets than an actuarial value that is greater than the market value.

**Participant methods**

Participants or former participants are included or excluded from the valuation as described below:

- **Participants included:** The plan sponsor provides us with data on all employees as of the valuation date, but only those employees who have completed the plan's eligibility requirements are included in the valuation of liabilities.
- **Participants excluded:** No actuarial liability is included for nonvested participants who terminated prior to the valuation date. For this purpose, participants with a break in service on the valuation date are treated as terminated participants.
- **Insurance contracts:** The plan does not have any insurance contracts.

**Minimum funding methods**

The funding target for minimum funding calculations is computed using the traditional unit credit method of funding. The objective under this method is to fund each participant's benefits under the plan as they accrue. Thus, the total pension to which each participant is expected to become entitled at retirement is broken down into units, each associated with a year of past or future credited service.

A detailed description of the calculation follows:

- The plan's valuation date is the beginning of the plan plan year.
- An individual's **funding target** is the present value of future benefits based on benefit accruals as of the freeze date. If multiple decrements are used, the funding target for an individual is the sum of the component funding targets associated with the various anticipated separation dates.
- The plan's **funding target** is the sum of the individual funding targets for all participants under the plan

**Statement by Enrolled Actuary**  
To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

**Schedule SB, Part V — Summary of Plan Provisions**

**Summary of major plan provisions**

Effective date and plan year	Original plan: January 1, 1995 Restated plan: January 1, 2013, as amended through January 1, 2024 Plan year: Calendar year
------------------------------	--

Status of the plan	Non-contributory defined benefit pension plan (frozen December 31, 2002).
--------------------	---

Significant events that occurred during the year	None
--	------

**Definitions**

• Eligibility	No new employees are eligible to participate after December 31, 1999.
• Employer contributions	The employee bears the full cost of benefits under the plan.
• Pensionable earnings	Base compensation plus commissions for sales employees.

**Normal retirement**

• Eligibility	Age 65 and 5 years of service.
• Benefit	The greater of (1) and (2) below, plus (3): (1) The actuarial equivalent value of the sum of (a) and (b) below multiplied by years of service not in excess of 35 years: (a) 1.4% of 5-year average compensation up to the breakpoint which is equal to 125% of covered compensation. (b) 1.75% of such average compensation in excess of such breakpoint.

The amount determined under this item will not reflect pay and service increases after December 31, 2002.

(2) The basic cash balance account (initially established as of January 1, 1998 for members as of that date) accumulated with interest credits and pay credits. The basic credits are graded based on total years of benefit service as follows:

<b>Basic Pay Credits</b>		
<u>Service</u>	<u>All Pay</u>	<u>Excess Pay</u>
0-4	1.5%	1.5%
5-9	2.0	2.0
10-14	2.5	2.5
15-19	3.0	3.0
20+	4.0	4.0

Excess pay is pay over the Social Security Wage Base for the current year.

The transition pay credits are graded based on total years of benefit service frozen at December 31, 1997 as follows:

<b>Transition Pay Credits</b>		
<u>Service</u>	<u>All Pay</u>	<u>Excess Pay</u>
0-9	0%	0%
10-14	2	2
15-19	4	4
20-24	6	6

**Schedule SB, Part V — Summary of Plan Provisions**

25-29	8	8
30+	10	10

Excess pay is pay over the Social Security Wage Base for the current year. Interest credits are set annually as of January 1 and are applicable for the following plan year in an amount equal to the yield on 5-year Treasury bonds at the end of November of the previous year plus 1.00%.

(3) The supplemental cash balance account (established as of January 1, 1998) accumulated with interest credits and pay credits. The pay credits are graded based on total years of vacation eligibility service frozen at December 31, 1997 as follows:

<u>Vacation Pay Credits</u>		
<u>Service</u>	<u>All Pay</u>	<u>Excess Pay</u>
0-11	0%	0%
12-21	2%	2%
22+	4%	4%

Excess pay is pay over the Social Security Wage Base for the current year.

Additionally, a one-time credit of \$415 times years of benefit service at December 31, 1997 is credited to the account as of April 1, 1998 for members eligible for post-retirement medical coverage as of March 31, 1998.

Interest credits are set annually as of January 1 and are applicable for the following plan year in an amount equal to the yield on 5-year Treasury bonds at the end of November of the previous year plus 1.00%.

**Early retirement**

- Eligibility Age 55 and 10 years of service.
- Benefit The Actuarial equivalent value of the immediate pension determined in item (1) of "Normal retirement benefit" above reduced 5/12% for each month by which benefit commencement precedes age 62.

**Deferred vested**

- Eligibility 5 years of vesting service.
- Benefit The Accrued pension deferred to normal retirement or an actuarially reduced pension commencing immediately.

**Disability**

- Eligibility 5 years of vesting service and is eligible for long term disability benefits.
- Benefit The accrued pension deferred to normal retirement or an actuarially reduced pension commencing immediately.

**Pre-retirement death**

- Eligibility 5 years of vesting service and has been married for at least one year.
- Benefit The accrued pension deferred to normal retirement or an actuarially reduced pension commencing immediately.

**Schedule SB, Part V — Summary of Plan Provisions****Benefits included or excluded**

Unless noted below, all benefits provided by the plan, as restated January 1, 2013 and amended to date, are included in this valuation.

- **Most recent plan amendments included:** Amendment adopted after the valuation date or effective after the current plan year are excluded from the valuation.
- **Plan amendments excluded:** None.
- **Late retirement increases:**
  - *Active participants:* The plan provides late retirement actuarial increases to participants who work beyond normal retirement. This valuation includes increases for current participants over age 65.
  - *Deferred vested participants:* Current deferred vested participants over normal retirement age are valued including the late retirement actuarial increase.
- **Internal Revenue Code limitations:** The limitations of Internal Revenue Code Section 415(b) and 401(a)(17) have been incorporated into our calculations.
- **IRC Section 416 rules for top-heavy plans:** We did not test whether this plan is top-heavy (when the present value of benefits for key employees equals or exceeds 60% of the present value for all participants). However, we expect that the plan is not top-heavy due to the large number of rank-and-file participants; therefore, the funding target and target normal cost do not reflect any liability for top-heavy benefit accruals.

**Additional benefits included or excluded**

- **IRC Section 436 benefit restrictions:**
  - *Unpredictable contingent event benefits:* This valuation excludes restricted contingent event benefits that occurred before the valuation date but includes contingent event benefits which are expected to occur on or after the valuation date regardless of anticipated funding-based limitations.
  - *Plan amendments:* See above.
  - *Prohibited payments:* Limitations on prohibited benefits (if any) are reflected for annuity starting dates before the valuation date but are ignored for annuity starting dates on or after the valuation date.
  - *Benefit accruals:* The plan's funding target does not reflect any limitation on benefit accruals. The target normal cost does not reflect any limitation on benefit accruals.
- **Scheduled benefit increases:** We are not aware of any corporate actions that would create shutdown benefits; therefore, they are excluded.
- **Unpredictable contingent event benefits:** The plan does not have any unpredictable contingent event benefits.
