Report on the Audit of the Financial Statements

Opinion

We have audited the financial statements of Molin Concrete Products Company Employee Stock Ownership Plan and Trust, an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statements of net assets available for benefits as of December 31, 2024 and 2023, and the related statement of changes in net assets available for benefits for the year ended December 31, 2024, and the related notes to the financial statements.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of Molin Concrete Products Company Employee Stock Ownership Plan and Trust as of December 31, 2024 and 2023, and the changes in net assets available for benefits for the year ended December 31, 2024, in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Molin Concrete Products Company Employee Stock Ownership Plan and Trust and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Molin Concrete Products Company Employee Stock Ownership Plan and Trust's ability to continue as a going concern for one year after the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Molin Concrete Products Company Employee Stock Ownership Plan and Trust's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Molin Concrete Products Company Employee Stock Ownership Plan and Trust's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control related matters that we identified during the audit.

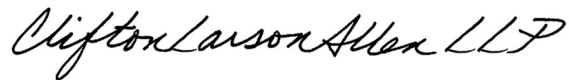

Board of Directors
Molin Concrete Products Company
Employee Stock Ownership Plan and Trust

Supplemental Schedules Required by ERISA

Our audit was conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule of assets (held at end of year) and schedule of reportable transactions as of and for the year ended December 31, 2024 are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying schedules are fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

EMPLOYEE STOCK OWNERSHIP PLAN AND TRUST
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2024 AND 2023**

NOTE 1 DESCRIPTION OF PLAN

The following description of the Molin Concrete Products Company (the Company) Employee Stock Ownership Plan and Trust (the Plan) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Company established the Plan effective December 31, 1972. The Plan was restated effective January 1, 2016 to add a 401(k) feature. The Plan was last amended January 1, 2023. The Plan is a defined contribution retirement plan sponsored by the Company, intended to constitute an employee stock ownership plan under Section 4975(e)(7) of the Internal Revenue Code (IRC) and a salary reduction plan.

The Plan covers substantially all employees of the Company and participating affiliates who meet certain eligibility requirements. An employee will become eligible for the salary reduction provision of the Plan after attaining age 21 and completing 90 days of continuous employment. Eligible employees enter the Plan on the first day of the calendar quarter following completion of the eligibility requirements. An employee will become eligible for the Company contribution provisions of the Plan on January 1 or July 1 of the Plan year following the completion of 12 months of service, attainment of age 21, and completion of 1,000 hours of service. The Plan excludes employees covered by collective bargaining agreements, nonresident aliens with no U.S. source income, and leased employees. A description of the Plan is set forth in the Summary Plan Description provided to all Plan participants. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended. The Board of Directors is responsible for the oversight of the Plan and determining the appropriateness of the Plan's investment offerings and monitors investment performance.

The Plan purchased Company common stock using the proceeds of note payables to the Company and holds the stock in a trust established under the Plan (see Note 5). As the Plan makes debt payments, an appropriate percentage of stock will be allocated to eligible employees' accounts in accordance with applicable regulations under the IRC.

The borrowing is collateralized by the unallocated shares of common stock and is guaranteed by the Company. The lender has no rights against shares of common stock once they are allocated to participants in accordance with the terms of the ESOP. Accordingly, the financial statements of the Plan as of December 31, 2024 and 2023 and for the year ended December 31, 2024 present separately the assets and liabilities and changes therein pertaining to:

- (a) the accounts of employees with vested rights in allocated common stock (Allocated) and
- (b) stock not yet allocated to employees (Unallocated).

EMPLOYEE STOCK OWNERSHIP PLAN AND TRUST
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2024 AND 2023**

NOTE 1 DESCRIPTION OF PLAN (CONTINUED)

Contributions

The Plan includes a cash or deferred arrangement allowed under Section 401(k) of the IRC. Participants are thereby permitted to elect to have a percentage of their compensation contributed as pre-tax 401(k) or Roth contributions to the Plan. The Plan allows participants age 50 or older to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans (rollover). Participants direct the investment of contributions into various investment options offered by the Plan.

Each year, at its discretion, the Company may provide a discretionary matching contribution. A participant must complete 1,000 hours of service during the Plan year in order to be eligible for the Company discretionary match contribution and be employed on the last day of the Plan year, unless termination is due to death, disability, or retirement. For the year ended December 31, 2024, there was no Company discretionary matching contribution.

Each Plan year, the Company contributes to the Plan up to 25% of covered compensation as determined annually by the Company's Board of Directors. Contributions may be in the form of shares of common stock or cash. Contributions for each year are never less than the amount required to enable the Plan to discharge its current obligations, without regard to whether some or all of such contribution may fail to qualify for an income tax deduction by the Company. In order to receive an allocation of Company contributions, a participant must complete 1,000 hours of service and be employed on the last day of the Plan year unless termination is due to death, disability or retirement. Contributions are subject to Internal Revenue Service (IRS) limitations.

Participant Accounts

Each participant's account is credited with the participant's contributions, an allocation of the Company's contribution and forfeitures, an allocation of the S-Corp dividends, and Plan earnings or losses. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. The Company common stock is valued annually by an independent third-party appraiser. Income is allocated annually based on each participant's share of the fund. Participants direct the investment of their contributions into the various investment choices offered under the Plan. The Company accounts under the plan are "rebalanced" at the end of each year so that each participant's nonsegregated Company account consists of the same percentages of Company common stock and other assets. The benefit to which a participant is entitled is the benefit that can be provided by the participant's account.

Vesting

A participant is always 100% vested in the salary reduction deferral contributions and rollover portion of their account balance. Vesting of participant's accounts is based on years of credited service with the Company. A participant's account becomes fully vested after five years of credited service with the Company, under a graded vesting schedule. A participant is fully vested upon reaching normal retirement age, or age 55 and completion of 5 years of participation in the Plan, death, or permanent disability.

NOTE 1 DESCRIPTION OF PLAN (CONTINUED)

Voting Rights

Each participant is entitled to exercise voting rights attributable to the shares allocated to his or her account and is notified by the trustee prior to the time that such rights are to be exercised. The trustee is not permitted to vote any allocated share for which instructions have not been given by a participant. The trustee is required, however, to vote any unallocated shares on behalf of the collective best interest of Plan participants and beneficiaries.

Notes Receivable from Participants

Participants may borrow from their deferral and rollover accounts up to a maximum equal to the lesser of \$50,000 or 50% of their account balance. The minimum note amount is \$1,000. The notes are secured by the vested balance in the participant's account and bear interest at a reasonable rate determined by the Plan administrator. Principal and interest is paid ratably through payroll deductions.

Forfeitures

Forfeitures of nonvested account balances are allocated as additional Company contributions to eligible participants. There were forfeitures allocated to eligible participants based on Plan compensation for the year ended December 31, 2024 in the amount of \$98,314. There was no balance in forfeited nonvested accounts at December 31, 2024.

Payment of Benefits

Distribution of the participant's account balance attributable to their elective deferral and rollover contributions upon termination of service due to death, disability, or retirement are made in the form of a lump sum. The Plan allows for hardship distributions subject to Plan provisions. If the value of the participant's account is less than \$1,000, the participant will receive his or her vested account balance in the form of a lump sum without the participant's consent. If the balance of the terminated participant's account is between \$1,000 and \$5,000, prior to January 1, 2024, or \$1,000 and \$7,000, effective January 1, 2024, the Plan Sponsor may authorize that the benefit payment be rolled into an individual retirement account in the participant's name. If the balance is greater than \$7,000, effective January 1, 2024, the distribution will be made within an administratively reasonable time during the fourth plan year after the plan year in which the participant terminated employment.

Distribution of the participant's account balance attributable to the Company common stock upon retirement, death, or disability will commence within one year of the end of the plan year in which the separation from service occurs. If the participant separates from service for any other reason, the distribution generally will commence by the end of the fourth plan year following the separation, provided you are not reemployed during that time. Where these special provisions apply, distributions will be made in a lump sum distribution.

Upon termination of employment, inactive participants who have shares of Company common stock shall have their stock exchanged for other investments upon termination or as soon as administratively feasible. Under the Plan's account segregation policy, the trustee makes the determination on an annual basis.

NOTE 1 DESCRIPTION OF PLAN (CONTINUED)

Diversification

Diversification is offered to participants close to retirement so that they may have the opportunity to move part of the value of their investment in Company common stock into investments which are more diversified. Participants who are at least age 55 with at least 10 years of participation in the Plan may elect to diversify a portion of their account (Qualified Participant). Diversification is offered to each Qualified Participant over a period of years (as defined by the Plan). In each of the first five years, a participant may diversify up to 25% of the number of post-1986 shares allocated to his or her account, less any shares previously diversified. In the sixth year, the percentage changes to 50%.

Directed Diversification

During each Qualified Plan Year (each Plan year after a participant becomes a Qualifying Participant), a Qualifying Participant can direct the investment of up to 2.5% of their allocated Qualifying Employer Securities subject to Plan provisions. A Qualifying Participant is a participant who has attained age 50 and completed at least 10 years of participation in the Plan. This direction must be provided in writing to the Plan Sponsor and be effective within 180 days from the start of the Qualified Plan Year (or as soon thereafter as administratively feasible). The investment direction will be fulfilled through a direct rollover of cash to an eligible retirement plan. If the participant does not make a timely direction, the right for that year will terminate and will not carry over to future years.

Put Option

Under federal income tax regulations, the Company stock that is held by the Plan and its participants and is not readily tradable on an established market, or is subject to trading limitations, includes a put option. The put option is a right to demand that the Company buy any shares of its stock distributed to participants for which there is no market. The put price is representative of the fair market value of the stock. The Company can pay for the purchase with interest over a period of five years. The purpose of the put option is to ensure that the participant has the ability to ultimately obtain cash.

NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires the Plan administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

**MOLIN CONCRETE PRODUCTS COMPANY
EMPLOYEE STOCK OWNERSHIP PLAN AND TRUST
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2024 AND 2023**

NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Allocations

The financial statements of the Plan present separately the assets and liabilities and changes therein pertaining to (a) the accounts of employees with rights in allocated stock (allocated) and (b) stock not yet allocated to employees (unallocated), including shares that are committed to be released. Shares are released from collateral and become allocated generally in the period in which debt service is actually paid.

Investment Valuation and Income Recognition

The Plan's investments in common stock are reported at estimated fair value and other investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Investment income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Administrative Expenses

Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Certain fees related to administration of benefits paid and other administrations are charged directly to the participant's account and are included in administrative expenses. Certain investment related expenses are included in the net appreciation of fair value of investments.

Benefit Payments

Benefits are recorded when paid.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2024 or 2023. Delinquent notes receivable are recorded as distributions based on the terms of the Plan document.

Subsequent Events

The Plan has evaluated subsequent events through October 2, 2025, the date the financial statements were available to be issued.

NOTE 3 INVESTMENTS

The Plan's assets are held and managed by the trustee and custodian of the Plan. Employee deferrals are managed by the custodians under the direction of the individual participant. The estimated fair market value of the Company common stock, as determined by independent appraisal, as of December 31, 2024 and 2023 was \$766.53 and \$689.26 per share, respectively. During 2024, 3,235 shares were released and allocated to participants. During 2024, Management performed a review of stock transactions resulting in an updated cost for shares held of Company common stock as of December 31, 2024.

The following table presents the fair values of the nonparticipant directed investments in Molin Concrete Products Company common stock as of December 31:

	2024			2023		
	Allocated	Unallocated	Total	Allocated	Unallocated	Total
Number of Shares	57,906	60,094	118,000	54,672	63,328	118,000
Cost	\$ 14,064,837	\$ 14,596,124	\$ 28,660,961	\$ 16,384,682	\$ 18,979,064	\$ 35,363,746
Market Value	\$ 44,386,932	\$ 46,063,608	\$ 90,450,540	\$ 37,682,946	\$ 43,649,734	\$ 81,332,680

NOTE 4 FAIR VALUE OF INVESTMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly, such as:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair market value measurement.

NOTE 4 FAIR VALUE OF INVESTMENTS (CONTINUED)

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the valuation methodologies used at December 31, 2024 and 2023.

Molin Concrete Products Company Common Stock: Valued at estimated fair value based on an independent third-party appraisal. This appraisal is based upon a combination of the market and income valuation techniques consistent with prior years. The appraiser took into account historical and projected cash flow and net income, return on assets, return on equity, market comparables, and estimated fair value of Company assets and liabilities.

Mutual Funds and Money Market Fund: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31:

	2024			
	Level 1	Level 2	Level 3	Total

NOTE 5 NOTES PAYABLE

The proceeds of the loans were used to purchase the Company's common stock. Unallocated shares are collateral for the loan. Shares are released from collateral and allocated to participants as payments of principal and interest are made. The Plan has notes payable related to the purchase of Company common stock on December 31 as follows:

<u>Description</u>	2024	2023
Note Payable - Molin Concrete Products Company, interest fixed at .50%; due December 1, 2031; secured by unallocated Molin Concrete Products common stock purchased with proceeds from this note and cash contributions from the Employer.	\$ 1,662,254	\$ 1,894,987

NOTE 5 NOTES PAYABLE (CONTINUED)

While the Company reserves the right to change the amounts and the timing of contributions to the Plan, the scheduled amortization of the Plan notes and related Plan contributions in future years is as follows:

<u>Year Ending December 31,</u>	<u>Amount</u>
2025	\$ 920,295
2026	924,897
2027	929,521
2028	933,963
2029	938,838
2029 and thereafter	16,197,482

During 2024, the Board of Directors approved an ESOP Multiple Advance Note with a principal sum up to \$5,000,000. The Company elected to advance \$3,000,000 to the Plan's trust to pay distributions in accordance with the Plan. The advance was an interest-free extension of credit to the Plan pursuant to the Prohibited Transaction Class Exemption 80-26 (as amended). There were no outstanding advances on this note as of December 31, 2024.

NOTE 6 PLAN TERMINATION

Although the Company has not expressed any intent to do so, it has the right under the terms of the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts and the interest of each participant will be distributed to the participant or his or her beneficiary at the time prescribed by the Plan terms and the Code. Upon Plan termination, Plan management will direct the trustee of the Plan to pay all liabilities and expenses of the trust and to sell shares of financed stock held in the loan suspense account to the extent it determines such sale to be necessary in order to repay the Plan notes.

NOTE 7 PLAN TAX STATUS

The Plan is placing reliance on a determination letter dated September 19, 2013 received from the IRS on the Plan indicating that the Plan is qualified under Section 401 of the IRC and is, therefore, not subject to tax under current income tax law. The Plan has been amended since receiving the determination letter. However, the Plan administrator believes that the Plan was qualified and the related trust was tax-exempt as of the financial statement dates.

**MOLIN CONCRETE PRODUCTS COMPANY
EMPLOYEE STOCK OWNERSHIP PLAN AND TRUST
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2024 AND 2023**

NOTE 7 PLAN TAX STATUS (CONTINUED)

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

NOTE 8 RISKS AND UNCERTAINTIES

The Plan invests primarily in the Company's common stock, mutual funds, and a collective fund. In general, the investments are exposed to various risks, such as interest rate, credit, and overall market volatility risk. The stock of the Company is valued annually by an independent third-party valuation specialist. Because of the inherent subjectivity in any valuation, those estimated values may differ significantly from the values that would have been used had a ready market for the securities existed, and the differences could be material. Due to the level of risk associated with an investment, it is at least reasonably possible that changes in the values of the investment will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

NOTE 9 PARTIES-IN-INTEREST

Certain Plan investments were managed by Reliance Trust Company, T. Rowe Price, and Aleus Financial, N.A. Therefore, the investment transactions and recordkeeping services qualify as party-in-interest transactions.

The Plan also consists of Company common shares which are held and managed by Alerus Financial, N.A., who invests cash received as a result of cash contributions, interest and dividends income, and makes distributions to participants. Therefore, these transactions qualify as party-in-interest.

The Plan is administered by the Company and certain administrative functions are outsourced to a third party administrator. Certain administrative functions are performed by officers or employees of the Company. No such officer or employee received compensation from the Plan.
