## Independent Auditor's Report

To the Plan Administrator of Thermotron Employees Retirement Plan

### ***Scope and Nature of the ERISA Section 103(a)(3)(C) Audit***

We have performed audits of the financial statements of Thermotron Employees Retirement Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of December 31, 2024 and 2023, and the related statements of changes in net assets available for benefits for the years then ended and the statement of accumulated plan benefits as of December 31, 2023, and the related statement of changes in accumulated plan benefits for the year then ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of Thermotron Employees Retirement Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of December 31, 2024 and 2023, and for the years ended December 31, 2024 and 2023, stating that the certified investment information, as described in Note 6 to the financial statements, is complete and accurate.

### ***Opinion***

In our opinion, based on our audits and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section:

- the amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- the information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

### ***Basis for Opinion***

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Thermotron Employees Retirement Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

### ***Responsibilities of Management for the Financial Statements***

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Thermotron Employees Retirement Plan's ability to continue as a going concern for at least one year following the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

### ***Auditor's Responsibilities for the Audit of the Financial Statements***

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion.

Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- exercise professional judgment and maintain professional skepticism throughout the audit.
- identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Thermotron Employees Retirement Plan's internal control. Accordingly, no such opinion is expressed.
- evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Thermotron Employees Retirement Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

## Notes to Financial Statements

### 1. Description of Plan

The following description of the Thermotron Employees Retirement Plan (the Plan) provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

#### *General*

The Plan is a noncontributory defined benefit plan established effective January 1, 1988. The Plan covers all employees of Thermotron, a division of Venturedyne, Ltd. (the Company), who have completed 1,000 hours in 12 month period and are age 18 or older. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA). The Plan committee is responsible for oversight of the Plan. The Plan's investment committee determines the appropriateness of the Plan's investment offerings and monitors investment performance.

#### *Master Trust*

The Plan's investments are held in a Master Trust (the "Master Trust"), which was established for the investment of assets of the plan and several other U.S. Bank National Association sponsored retirement plans. Each participating retirement plan has an undivided interest in the Master Trust. The assets of the Master Trust are held by U.S. Bank National Association (Trustee).

#### *Funding policy*

The Plan's funding policy is for the Company to contribute an amount which will meet or exceed the annual ERISA minimum funding requirement. The minimum funding requirements of ERISA were met or exceeded in 2024. Although it has not expressed the intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA.

#### *Pension benefits*

Normal retirement under the Plan is age 65. Present monthly benefits under the Plan are 0.5% of the participant's final monthly earnings as defined, times the years of credited service. Final monthly earnings are calculated using the employee's highest five consecutive years of the last ten years of employment.

The Plan provides for early retirement at proportionately reduced benefit levels at any time after age 62 with at least 10 years of credited service.

# Thermotron Employees Retirement Plan

## Notes to Financial Statements

### *Vesting*

Vesting of benefits is based on years of continuous service. Participants are 100% vested after completing five years of credited service or attainment of normal retirement age.

## **2. Summary of Accounting Policies**

### *Basis of Accounting*

The financial statements of the Plan are prepared on the accrual basis of accounting.

### *Use of Estimates*

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein; disclosure of contingent assets and liabilities; and the actuarial present value of accumulated plan benefits at the date of the financial statements, and changes therein. Actual results could differ from those estimates.

### *Investment Valuation and Income Recognition*

Investments held in the Master Trust are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. The Plan's interest in the investment gain of the Master Trust, in the accompanying Statement of Changes in Net Assets Available for Benefits includes the Plan's allocation of interest, dividends, realized gains or losses from the sale of investments, and unrealized appreciation or depreciation in the fair value of investments held by the Master Trust, and fees charged to the Master Trust, which are netted against or included with net appreciation (depreciation) in fair value of investments. These fees represent charges by the Trustee for services provided in connection with recordkeeping and investment management. Net unrealized appreciation (depreciation) in fair value of investments represents the net change in the fair value of the investments held during the period. The net realized gains or losses on the sale of investments represent the difference between the sale proceeds and the fair value of the investments as of the beginning of the period or the cost of the investment if purchased during the year.

# Thermotron Employees Retirement Plan

## Notes to Financial Statements

### *Payment of Benefits*

Benefits payments to participants are recorded upon distribution.

### *Administrative Expenses*

The Plan's expenses are paid either by the Plan or the Company, as provided by the plan document. Expenses that are paid directly by the Company are excluded from these financial statements. Certain expenses incurred in connection with the general administration of the Plan that are paid by the Plan are recorded as deductions in the statements of changes in net assets available for benefits. In addition, certain investment related expenses are included in net appreciation (depreciation) in fair value of investments in the statements of changes in net assets available for benefits.

### *Subsequent Events*

Subsequent events were evaluated through October 6, 2025, the date the financial statements were available to be issued.

### **3. Actuarial Present Value of Accumulated Plan Benefits**

Accumulated plan benefits are those future periodic payments, including lump-sum distributions, that are attributable under the Plan's provisions to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries. Benefits under the Plan are based on employees' compensation during each year of credited service. The accumulated plan benefits for active employees will equal the accumulation, with interest, of the annual benefit accruals as of the benefit information date. Benefits payable under all circumstances, such as retirement, death, disability, and termination of employment, are included, to the extent they are attributable to employee service rendered to the valuation date. Benefits to be provided via annuity contracts excluded from plan assets are excluded from accumulated plan benefits.

The actuarial present value of accumulated plan benefits is determined by the Plan's independent actuary and is that amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal or retirement) between the valuation date and the expected date of payment.

The computations of the actuarial present value of accumulated plan benefits were made as of January 1, 2024. Had the valuation been performed as of December 31, there would be no material differences. The

# Thermotron Employees Retirement Plan

## Notes to Financial Statements

significant actuarial assumptions used in the valuation were:

<b>Assumption</b>	<b>December 31, 2023</b>
Discount rate	6.5%
Mortality	Pri-2012 Mortality Table generationally projected forward with Projection Scale MP-2021
Retirement age	Graded between ages 62 and 70 years
Turnover	Based on industry experience

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

#### 4. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under FASB ASC 820, *Fair Value Measurement*, are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

## Thermotron Employees Retirement Plan

### Notes to Financial Statements

Following is a description of the valuation techniques used for assets measured at fair value. There have been no changes in the techniques used at December 31, 2024 and 2023.

*Money market funds:* Valued at the quoted net asset value (NAV) of shares held by the Plan at year end.

*Common stocks:* Valued at the closing price reported on the active market on which the individual securities are traded.

The following table sets forth by level, within the fair value hierarchy, a summary of the investments in the Master Trust at fair value as of December 31, 2024 and 2023:

<b>Master Trust Assets at Fair Value as of December 31, 2024</b>	<b>Level 1</b>	<b>Level 2</b>	<b>Level 3</b>	<b>Total</b>
Money Market Funds	\$ 3,234,705	\$ -	\$ -	\$ 3,234,705

Common stock - foreign	4,189,537	-	-	4,189,537
<b>Total Master Trust assets, at fair value</b>	<b>\$71,467,380</b>	<b>\$ -</b>	<b>\$ -</b>	<b>\$71,467,380</b>

<b>Master Trust Assets at Fair Value as of December 31, 2023</b>	<b>Level 1</b>	<b>Level 2</b>	<b>Level 3</b>	<b>Total</b>
Money Market Funds	\$ 5,254,281	\$ -	\$ -	\$ 5,254,281
Common stock - domestic	57,522,450	-	-	57,522,450
Common stock - foreign	3,445,208	-	-	3,445,208
<b>Total Master Trust assets, at fair value</b>	<b>\$66,221,939</b>	<b>\$ -</b>	<b>\$ -</b>	<b>\$66,221,939</b>

#### 5. Interest in Master Trust

The value of the Plan's interest in the Master Trust is based on the beginning of year value of the Plan's interest in the trust plus actual contributions and allocated investment income less actual distributions and allocated administrative expenses. At December 31, 2024 and 2023, the Plan's interest in the net assets of the Master Trust was approximately 53% for both years. Total investment income (including net appreciation (depreciation) in the fair value of investments) and administrative expenses of the Master Trust are allocated to the individual plans based upon the amount of the time the plan's assets were invested in the Master Trust.

The following table presents the investments and other assets and liabilities of the Master Trust as of December 31, 2024 and 2023:

## Thermotron Employees Retirement Plan

	<b>Master Trust Balances 2024</b>	<b>Plan's Interest in Master Trust Balances 2024</b>	<b>Master Trust Balances 2023</b>	<b>Plan's Interest in Master Trust Balances 2023</b>
Plan interest in master trust	\$71,467,380	\$37,911,015	\$66,221,939	\$34,942,770

The following are net appreciation (depreciation) in the fair value of investments and investment income for the Master Trust for the years ended December 31, 2024 and 2023:

<b>Master Trust Net Appreciation (Depreciation) for the Year Ended December 31, 2024</b>

#### 6. Information Certified by Trustee

The plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA for 2024 and 2023. Accordingly, U.S. Bank National Association, the Trustee of the Plan, has certified to the completeness and accuracy of all investments reported in the accompanying Statements of Net Assets Available for Benefits as of December 31, 2024 and 2023, and the supplemental Schedule H, Line 4(i) - Schedule of Assets (Held at End of Year) as of December 31, 2024, and the related investment activity reported in the Statements of Changes in Net Assets Available for Benefits for the years ended December 31, 2024 and 2023.

### **7. Related-Party and Party In Interest Transactions**

The Plan's investments are administered under a contract with U.S. Bank National Association, the Trustee of the Plan. Contributions are held and managed by U.S. Bank National Association, who invests cash received, interest and dividend income and makes distributions to participants. These transactions are party in interest transactions under ERISA.

As described in Note 2, the Plan paid certain expenses related to plan operations and investment activity to various service providers. Additionally, certain administrative functions of the Plan are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan. These transactions are party in interest transactions under ERISA.

### **8. Plan Termination**

In the event the Plan terminates, the net assets of the Plan will be allocated, as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated:

1. Annuity benefits that former employees or their beneficiaries have been receiving for at least three years, or that employees eligible to retire for that three-year period would have been receiving if they had retired with benefits in the normal form of annuity under the Plan. The priority amount is limited to the lowest benefit that was payable (or would have been payable) during those three years. The amount is further limited to the lowest benefit that would be payable under Plan provisions in effect at any time during the five years preceding Plan termination.
2. Other vested benefits insured by the Pension Benefit Guaranty Corporation (PBGC) (a U.S. government agency) up to the applicable limitations.
3. All other vested benefits (that is, vested benefits not insured by the PBGC).
4. All nonvested benefits.

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivor's pensions. However, the PBGC does not guarantee all benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination.

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations and may also depend on the financial condition of the plan sponsor and the level of benefits guaranteed by the PBGC.

## Notes to Financial Statements

### **9. Tax Status**

The IRS has determined and informed the Company by a letter dated May 14, 2014, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). The plan administrator believes that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC.

### **10. Risks and Uncertainties**

The Plan, through the investment in the Master Trust, invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

Plan contributions are made, and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

## Appendix A – Summary of Actuarial Methods

The ultimate or true cost of a pension plan will be equal to the excess of benefits actually paid and the expenses incurred in its administration over investment income earned on monies set aside for its funding. Thus, the ultimate cost of a plan cannot be known until the last payment thereunder has been made to its last participant. The actuarial cost method is a particular technique used by the actuary for establishing the amount and incidence of annual actuarial costs. The actuarial cost method determines the portion of the ultimate cost of a pension plan which should be allocated to each plan year (known as the normal cost). The cost method is thus a budgeting tool which helps to ensure that the pension plan will be adequately and systematically funded.

### Actuarial Cost Method

The actuarial cost method used for determining the Plan's ERISA funding requirements and the FASB ASC Topic 960 values is the Unit Credit method. Under this method, an accrued benefit is determined at each active participant's assumed retirement age based on compensation and service at both the beginning and the end of the current year. The Plan's normal cost is the sum of the present value of the excess of each active participant's accrued benefit at the end of the current year over that at the beginning of the current year. The Plan's accrued liability is the sum of (a) the present value of each active participant's accrued benefit at the beginning of the current year plus (b) the present value of each inactive participant's benefits.

### Asset Valuation Method

The Actuarial Value of Assets is equal to the average of the market value of assets on the valuation date and the two prior valuation dates. The values as of the prior two valuation dates are adjusted with contributions, benefit payments, administrative expenses, and expected earnings from each valuation date to the current valuation date. Expected earnings are calculated using an expected rate of return limited to the third segment rate for each period.

### PBGC Variable-Rate Premium Method

The standard method is used for the PBGC variable-rate premium calculation (adopted January 1, 2023).

### Amortization Method

For the Plan's ERISA funding requirements, incremental Funding Shortfall amounts are amortized over a fifteen-year period, and the related shortfall amortization payment is determined on the first valuation date following the plan year in which it arises based on the segment rates used for ERISA minimum funding purposes on that date, as prescribed under IRC Section 430.

### Changes in Actuarial Methods Since Prior Valuation

None.

## Appendix B – Summary of Actuarial Assumptions

### ECONOMIC ASSUMPTIONS

#### Interest Rates

The current funding and PBGC interest rates are as follows. The funding interest rates are prescribed under IRS regulations based on the Plan Sponsor's interest rate election. The PBGC interest rates are based on the Plan Sponsor's elected method for determining the premium funding target.

	Minimum Funding	Maximum Deductible	PBGC Premium
Segment 1 (0–5 years)	4.75%	3.62%	5.01%
Segment 2 (5–20 years)	4.87%	4.46%	5.13%
Segment 3 (20+ years)	5.59%	4.52%	5.15%
Effective Interest Rate	5.12%	4.44%	5.13%

**ERISA minimum funding:** 24-month average segment rates, using a four-month lookback period, adjusted to reflect the applicable segment rate stabilization corridor.

**Maximum Deductible Contribution:** 24-month average segment rates, using a four-month lookback period, but not adjusted to reflect segment rate stabilization.

**PBGC premium:** Spot segment rates for the month preceding the valuation date, but not adjusted to reflect segment rate stabilization. The standard method (adopted January 1, 2023) is used for the PBGC variable rate premium calculation.

**FASB ASC Topic 960:** 6.50% (adopted January 1, 2020) per year. This is the assumed rate of return for the Plan's entire portfolio of assets, net of investment expenses and including assumed inflation rate of 2.30%. It is based on the Plan's investment policy, including target asset allocation, and Milliman's capital market expectations.

#### Asset Returns

**ERISA minimum funding and Maximum Deductible Contribution:** 6.50% (adopted January 1, 2020) per year. It is based on the Plan's investment policy, including target asset allocation, and Milliman's capital market expectations.

#### Compensation Increases

3.00% per year for Salaried employees, 2.75% per year for Hourly employees.

#### Maximum Benefit and Annual Compensation Limitation Increases

**ERISA minimum funding and Maximum Deductible Contribution:** 0% per year as required by statute.

#### Administrative Expenses

None assumed payable from plan assets.

### DEMOGRAPHIC ASSUMPTIONS

Except where noted, all demographic assumptions are based on the actuary's judgment and continual review of experience.

## Mortality

**ERISA minimum funding, Maximum Deductible Contribution, and PBGC premium:** Statutory generational mortality tables for 2024 based on Pri-2012 Mortality Table, with separate rates for non-annuitants and annuitants, adjusted from base year 2012 with projections to anticipate greater future longevity using the 2024 Adjusted Scale MP-2021.

**FASB ASC Topic 960:** Pri-2012 Mortality Table with Projection Scale MP-2021, applied generationally, with employee rates before benefit commencement and healthy annuitant rates after benefit commencement. As a generational table, it reflects mortality improvements both before and after the measurement date.

## Retirement

Annual rates of retirement are shown in the following table for active participants who are eligible to retire.

Age	% Retired at End of Year of Age
62	10%
63-64	5
65-69	50
70 & Over	100

Terminated vested participants are assumed to retire at age 65.

## Termination

Ultimate rates shown in Rate Table. For employees with less than five years of service, the following rates are used:

### Decrement Timing

Decrements are assumed to occur at the middle of the year, except that 100% retirement (see above) is assumed to occur at the beginning of the year.

### Form of Payment

Life annuity.

### Marital Characteristics

**For participants not in pay status:** 85% of participants are assumed to be married to a spouse of the opposite sex. Males are assumed to be 3 years older than females.

**For participants in pay status:** Actual birth dates of spouses are included in the census data, where relevant.

## Weighted Average Retirement Age

The weighted average retirement age for active participants is 66. This equals the sum, over all retirement ages, of the retirement age multiplied by the probability of retiring at that age, as shown below.

(a) Possible Retirement Age "r"	(b) Assumed Rate of Retirement at Age "r"	(c) Probability of Person Age 62.5 Still Working at "r"	(d) (b) x (c) = Probability of Person Age 62.5 Retiring at "r"	(e) (a) x (d) = Component of Weighted Average Retirement Age

## CHANGES IN ACTUARIAL ASSUMPTIONS SINCE PRIOR VALUATION

**Interest rates for ERISA Minimum Funding:** Effective January 1, 2024, the interest rates used to determine the minimum funding requirements were updated based on the applicable 24-month average segment rates with a four-month lookback from the valuation date, adjusted to reflect the applicable segment rate stabilization corridor. The interest rates were updated to comply with IRS requirements.

**Interest rates for Maximum Deductible Contribution:** Effective January 1, 2024, the interest rates used for maximum deductible purposes were updated as noted above, but not adjusted to reflect segment rate stabilization. The interest rates were updated to comply with IRS requirements.

**Interest rates for PBGC premiums:** Effective January 1, 2024, the interest rates used for PBGC variable rate premium purposes were updated to the spot segment rates for the month preceding the valuation date, but not adjusted to reflect segment rate stabilization. The interest rates were updated to comply with PBGC requirements.

**Mortality for ERISA minimum funding, Maximum Deductible Contribution, and PBGC premium:** Effective January 1, 2024, the mortality assumption was updated to the Statutory generational tables for 2024.

## Appendix C – Summary of Principal Plan Provisions

This summary of plan provisions is intended to only describe the essential features of the Plan. All eligibility requirements and benefit amounts shall be determined in strict accordance with the plan document itself.

### Effective Date

January 1, 1988

### Participants

Thermotron Industries employees will enter the plan on the January 1 or July 1 following attainment of age 18 and completion of 12 months of service in which they complete 1,000 hours of service.

### Years of Service

**For Vesting Purposes:** Any Vesting Service credited under the Terminated Plan through December 31, 1987 (as if the plan had not been terminated as of September 30, 1987) plus one year of service for each calendar year after 1987 in which the employee is credited with at least 1,000 Hours of Service. Service before age 18 is not included.

**For Benefit Purposes:** Any Benefit Service under the Terminated Plan as of September 30, 1987 (including service for calendar year 1987 but less any Benefit Service credited under Section 4.06(c) of the Terminated Plan) plus one year of Benefit Service for each calendar year after 1987 through 1994 in which credit is received for 1,800 or more Hours of Service. Partial years of Benefit Service may also be earned (three-fourths of a year of Benefit Service if at least 1,400 Hours of Service but less than 1,800 Hours of Service, and one-half of a year of Benefit Service if at least 1,000 Hours of Service but less than 1,400 Hours of Service). For calendar years after 1994, one full year of Benefit Service for any calendar year in which credit is earned for at least 2,000 Hours of Service and no Benefit Service for calendar years with less than 1,000 Hours of Service. For years with at least 1,000 but less than 2,000 Hours of Service, fractional year of Benefit Service is credited in the proportion that the Hours of Service credited bears to 2,000. Benefit service begins on Participation Date.

### Normal Retirement

**Eligibility:** The later of age 65 and the fifth anniversary of participation.

**Benefits:** One-half of one percent of the Participant's Final Earnings times the number of years of Benefit Service credited as of the Participant's termination of employment less the actuarial equivalent of the Accrued Benefit payable under the Terminated Plan to the extent it is based upon the same Benefit Service.

Final Earnings is one-sixtieth of the Participant's total Earnings for the five consecutive calendar years of the last ten calendar years of employment with the Employer in which total Earnings are the highest.

### Late Retirement

**Eligibility:** Retirement after Normal Retirement Date.

**Benefits:** The accrued benefit using Final Earnings and Benefit Service as of the date of termination.

### Early Retirement

**Eligibility:** Age 62 and 10 years of Benefit Service.

**Benefits:** Accrued normal retirement benefit reduced by six-tenths of one percent for each complete month that payments precede Normal Retirement Date.

## Vesting

**Eligibility:** 100% vested after 5 years of vesting service.

**Benefits:** Accrued normal retirement benefit payable as a deferred life annuity commencing at normal retirement date.

## Pre-Retirement Death Benefits

**Eligibility:** Employees having 5 or more years of vesting service.

**Benefits:** The monthly amount of the Pre-Retirement Death Benefit payable to the beneficiary shall be 50% of the amount the Participant would have received had termination of employment occurred on the day before death, survived to earliest retirement age, retired with an immediate joint and 50% survivor annuity at that time and then died on that date. Payment of the Pre-Retirement Death Benefit will commence on the first day of the month following the later of (i) the Participant's date of death or (ii) the date the Participant would have been eligible for Early Retirement.

## Disability Benefits

**Eligibility:** Not applicable.

**Benefits:** Not applicable.

## Changes in Plan Provisions

None.

**Statement by Enrolled Actuary**

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.
