Report of Independent Auditors

The Administrative Committee
Williams Pension Plan

Opinion

We have audited the financial statements of Williams Pension Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statements of net assets available for benefits as of December 31, 2024 and 2023, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes (collectively referred to as the “financial statements”).

In our opinion, the accompanying financial statements present fairly, in all material respects, the net assets available for benefits of the Plan at December 31, 2024 and 2023, and the changes in its net assets available for benefits for the years then ended, in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor’s Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan’s ability to continue as a going concern for one year after the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan’s transactions that are presented and disclosed in the financial statements are in conformity with the Plan’s provisions, including

**Shape the future
with confidence**

maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal controls related matters that we identified during the audit.

Supplemental Schedules Required by ERISA

Our audits were conducted for the purpose of forming an opinion of the financial statements as a whole. The supplemental schedules of assets (held at end of year) as of December 31, 2024, and reportable transactions for the year then ended (referred to as the “supplemental schedules”), are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor’s Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, including their form and content, are presented in conformity with the Department of Labor’s Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the supplemental schedules is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content are presented in conformity with the Department of Labor’s Rules and Regulations for Reporting and Disclosure under ERISA.

Schedule SB, line 24 — Change in Actuarial Assumptions

The funding valuation reflects the following assumption changes:

- A change in the cash balance interest crediting rate from 3.50 percent to 4.50 percent.
- A change in the retirement rates to better reflect anticipated future experience as the result of an assumption study
- A change in the withdrawal rates to better reflect anticipated future experience as the result of an assumption study
- A change in the salary increase assumption table with a range from 3.50 percent to 2.50 percent in 2023 to a table with a range from 4.5 percent to 3.0 percent.
- A change in the optional form election for WPP of 20 percent life annuity/80 percent lump sum to 15 percent life annuity/85 percent lump sum. In addition a change in the option to defer their election to age 65 from 20 percent to 15 percent.
- A change in the optional form election for WIEPP with Cash Balance of 25 percent life annuity/75 percent lump sum to 15 percent life annuity/85 percent lump sum. For WIEPP without Cash Balance from 45 percent life annuity/55 percent lump sum to 40 percent life annuity/60 percent lump sum.
- A change in the unlimited expected rate of return on assets from 5.17 percent to 5.31 percent.

These changes were made to better reflect the anticipated plan experience. None of these assumption changes reduced the funding shortfall; as such, approval of the Commissioner is not required.

Schedule SB, Part V — Summary of Plan Provisions

Definitions

Accrued Benefit

The accrued benefit for each participant is the frozen accrued benefit under the respective plan formulas payable at normal retirement date earned as of March 31, 1998 (March 31, 1999 for UTP acquisition participants) under prior plan formula.

Actuarial Equivalent

A form of benefit differing in time, period and/or manner of payment from another form of benefit but having the same value when computed based upon the following interest and mortality assumptions:

Applicable Interest Rate

PPA lump sum rates for the month of September immediately preceding the plan year which contains the date of distribution.

Applicable Mortality Table

Mortality table prescribed by the Commissioner of Internal Revenue pursuant to Code section 415(b)(2)(E)(v).

Average Monthly Compensation

A participant's final average monthly compensation, as of a given date, is determined by dividing the total compensation he received during the four completed compensation periods during the last 10 years of employment preceding termination or retirement for which his compensation was highest by the number of months during such period for which he received compensation. No fractional compensation periods will be taken into account.

A participant's excess average monthly compensation is that portion, if any, of his final average monthly compensation which is in excess of his monthly covered compensation.

Basic Benefit

The single life annuity form of the pension account converted using actuarial equivalence.

Compensation

Compensation reflects that compensation which is treated as FICA wages without regard to the Social Security taxable wage base, including deferred bonuses but excluding extraordinary items. Compensation is annualized up to 2,080 hours.

Schedule SB Attachment (Form 5500) —2024 Plan Year
Williams Pension Plan
EIN: 73-0569878 PN: 001

Compensation also includes any amounts which are treated as salary reduction contributions and used to purchase non-taxable benefits under Section 125 or 401(k) of the Internal Revenue Code.

In accordance with Internal Revenue Code section 401(a)(17), annual compensation in excess of the inflation-adjusted limit is disregarded.

The compensation period is the 12-month period which begins each January 1 and ends each December 31.

Compensation Credit
(Prior to January 1, 2020)

Age on Credit Date	Credit Rate on All Compensation	Credit Compensation Above Maximum Taxable Wage Base	Transaction Credit Rate for Past Service ¹
<29	4.50%	1.00%	0.30% times Past Service
29	4.50%	See Below ²	0.30% times Past Service
30 – 39	6.00%	2.00%	0.30% times Past Service
40 – 49	8.00%	3.00%	0.30% times Past Service
50+	10.00%	5.00%	0.30% times Past Service

¹ Only applies to plan participants actively employed on both March 31, 1998 and April 1, 1998 or former participants who return to service after April 1, 1998. Past service is service through March 31, 1998 (March 31, 1999 for UTP acquisition participants).

² For plan years beginning on or after January 1, 2002, and before January 1, 2008, the rate is 1.00% on compensation up to 170% of the wage base and the rate is 1.13% on compensation greater than 170% of the wage base. For plan years beginning on or after January 1, 2008, the rate is 1.20% on compensation above the wage base.

Covered Compensation

A participant's monthly covered compensation is equal to his monthly average Social Security wage base. Average Social Security wage base means the average (without indexing) of the Social Security taxable wage bases in effect for each calendar year during the 35-year period ending with the calendar year in which the participant attains (or will attain) Social Security retirement age (as defined in Code section 415 (b)). In determining a participant's average Social Security wage base, the taxable wage base for the current plan year and any subsequent plan year will be assumed to be equal to the taxable wage in effect as of the first day of the plan year for which the determination is being made.

Credit Date

The last day of the plan year, or termination date within the plan year, if applicable.

Effective Date

Restated effective January 1, 2022, signed December 22, 2022

Entry Date

First day of the month following the date that the eligibility requirements are met.

Interest Credit

Interest credited to a participant's pension account balance at the applicable interest rate as of the beginning of the plan year and prior to any compensation credit for such plan year.

Normal Retirement Age

Age 65.

¹ Only applies to plan participants actively employed on both March 31, 1998 and April 1, 1998 or former participants who return to service after April 1, 1998. Past service is service through March 31, 1998 (March 31, 1999 for UTP acquisition participants).

Williams Pension Plan

EIN: 73-0569878 PN: 001

Normal Retirement Date

The first day of the month which coincides with or next follows the date on which the participant attains normal retirement age.

Pension Account

Hypothetical account maintained for crediting compensation credit and interest credit. For new employees hired after April 1, 1998, the opening account balance is zero. For prior plan participants, excluding participants rehired after June 29, 2005, the opening balance is the actuarially equivalent single sum payment of the accrued benefit.

Plan Year

The 12-month period beginning January 1 and ending December 31.

Eligibility

Rule of 55 Employees

Former Consolidated and Transco Plan participants who are actively employed on both March 31, 1998 and April 1, 1988, whose age plus years of service on March 31, 1998 equal 55 or more, who retire from active employment on or after age 55, and who do not qualify as a Protected Group employee.

Vested Accrued Benefit

Benefit equal to the product of the accrued benefit multiplied by the vested percentage as of the same date.

Vesting Schedule

A participant's vested percentage will be 100% upon the completion of three years of vesting service. Prior to the completion of three years of vesting service, a participant's vested percentage is zero.

Years of Service

For Eligibility Purposes

Years of service for purposes of eligibility to participate in the plan are referred to as years of eligibility service and are determined using the hours of service method.

A year of eligibility service is credited for each computation period during which an employee is credited with at least 1,000 hours of service. The initial computation period is the 12 consecutive month period beginning with the employee's employment commencement date.

Schedule SB Attachment (Form 5500) —2024 Plan Year
Williams Pension Plan
EIN: 73-0569878 PN: 001

For Benefit Purposes

Years of service for purposes of computing a participant's normal retirement benefit are referred to as years of benefit service and are determined using the hours of service method.

A year of benefit service is credited for each plan year in which an employee is credited with at least 2,080 hours of service. If earned less than 2,080 hours, portion of year is credited for each month an employee is credited with 190 hours.

For Vesting Purposes

Years of service for purposes of computing a participant's vested percentage are referred to as years of vesting service and are determined using the hour of service method.

A year of vesting service is credited for each year in which an employee is credited with at least 1,000 hours of service. Only full years of service are credited.

Participation

First day of the month following the date of being credited with one year of eligibility service.

Effective January 1, 2015, the Access Midstream group is eligible to participate in the plan.

Anyone hired after December 31, 2018 will not be able to enter the plan. Anyone rehired after December 31, 2018 will not accrue any additional compensation credits.

Normal Retirement

Each participant who becomes eligible for normal retirement benefit under the plan will be entitled to receive a monthly retirement pension benefit beginning at the participant's normal retirement date and payable in the normal benefit form.

Normal Retirement Benefit

Greater of the basic benefit and the accrued benefit.

Normal Benefit Form

Single Participant

The normal benefit form for a participant who is not married on the date benefits commence is a monthly pension payable for the lifetime of the participant.

Married Participant

The normal benefit for a participant who is married on the date benefits commence is an actuarial equivalent joint and 50% survivor pension with a monthly pension benefit for the lifetime of the participant reducing to 50% of the original amount upon the death of the participant.

Late Retirement

An active participant who continues his employment with the employer beyond his normal retirement date may begin to receive his late retirement benefit to which he is entitled as of his late retirement date.

Schedule SB Attachment (Form 5500) —2024 Plan Year

Williams Pension Plan

EIN: 73-0569878 PN: 001

Late Retirement Date

The first day of the month coincident with or next following the date he retires and requests the commencement of his late retirement benefit after he has continued in the employment of the employer beyond his normal retirement date.

Late Retirement Benefit

Benefit equal to an amount which is the monthly benefit based on the normal retirement benefit formula using the participant's years of benefit service and compensation through his late retirement date. Active participants continue to accrue applicable compensation credits and interest credits through termination.

Disability Retirement

Disability Retirement Date

The first day of the month coincident with or next following the date of termination of his employment due to disability provided such participant has been found to be eligible for a disability retirement benefit.

An active participant will be eligible for a disability retirement benefit under the plan upon the occurrence of permanent disability after the completion of three years of vesting service. Disability retirement benefit is payable at normal retirement date.

Disability Retirement Benefit

Basic benefit determined as for normal retirement with compensation credit and interest credit during the period of disability. Compensation credit is based on frozen pay as of date of disability.

Optional Benefit Forms

Optional benefit forms are available and equal to the actuarial equivalent of the normal benefit form and may be in an amount more than or less than that provided by the normal benefit form depending on the option selected. Such distribution may be in one or more of the following forms:

- Lump sum
- Life annuity
- Pop-up Joint and 50%, 75%, 100% joint and survivor pension
- 5, 10, 15 and 20-year certain and life
- Level income life annuity

Schedule SB, line 22 — Description of Weighted Average Retirement Age

The average retirement age shown in line 22 has been calculated by assuming the following retirement rates and no decrements other than retirement for this calculation. All retirements are assumed to occur at mid-year, except for the 100% retirement age.

Schedule SB, line 24 — Change in Actuarial Assumptions

The funding valuation reflects the following assumption changes:

- A change in the cash balance interest crediting rate from 3.50 percent to 4.50 percent.
- A change in the retirement rates to better reflect anticipated future experience as the result of an assumption study
- A change in the withdrawal rates to better reflect anticipated future experience as the result of an assumption study
- A change in the salary increase assumption table with a range from 3.50 percent to 2.50 percent in 2023 to a table with a range from 4.5 percent to 3.0 percent.
- A change in the optional form election for WPP of 20 percent life annuity/80 percent lump sum to 15 percent life annuity/85 percent lump sum. In addition a change in the option to defer their election to age 65 from 20 percent to 15 percent.
- A change in the optional form election for WIEPP with Cash Balance of 25 percent life annuity/75 percent lump sum to 15 percent life annuity/85 percent lump sum. For WIEPP without Cash Balance from 45 percent life annuity/55 percent lump sum to 40 percent life annuity/60 percent lump sum.
- A change in the unlimited expected rate of return on assets from 5.17 percent to 5.31 percent.

These changes were made to better reflect the anticipated plan experience. None of these assumption changes reduced the funding shortfall; as such, approval of the Commissioner is not required.

Disability Rates	See Table 6
-------------------------	-------------

Decrement Timing	Middle of year decrements (except that retirement is assumed to occur at the beginning of the year for ages where the assumed retirement rate is 100%).
-------------------------	---

Surviving Spouse Benefit	It is assumed that 80% of males and 60% of females have an eligible spouse, and that males are three years older than their spouses.
---------------------------------	--

Valuation Compensation	2024 pay rate. In addition, a target bonus amount is assumed to be added to base pay.
-------------------------------	---

Benefit Limits	Projected benefits and compensation are limited by the current IRC section 415 maximum benefit of \$275,000 and the IRC section 401(a)(17) compensation limit of \$345,000.
-----------------------	---

Value of Plan Assets	Smoothed fair market value of assets over the current and prior two years, adjusted for contributions, benefit payments, administrative expenses, and expected earnings. The average value of assets calculated in this manner is further limited to not less than 90% nor more than 110% of fair market value A characteristic of this method is that the expected distribution of the value of plan assets is skewed toward understatement relative to the corresponding market values for expected long-term rates of return in excess of the third segment rate under IRC section 430(h)(2)(C)(iii).

Schedule SB, Part V — Summary of Plan Provisions

Definitions

Accrued Benefit

The accrued benefit for each participant is the frozen accrued benefit under the respective plan formulas payable at normal retirement date earned as of March 31, 1998 (March 31, 1999 for UTP acquisition participants) under prior plan formula.

Actuarial Equivalent

A form of benefit differing in time, period and/or manner of payment from another form of benefit but having the same value when computed based upon the following interest and mortality assumptions:

Applicable Interest Rate

PPA lump sum rates for the month of September immediately preceding the plan year which contains the date of distribution.

Applicable Mortality Table

Mortality table prescribed by the Commissioner of Internal Revenue pursuant to Code section 415(b)(2)(E)(v).

Average Monthly Compensation

A participant's final average monthly compensation, as of a given date, is determined by dividing the total compensation he received during the four completed compensation periods during the last 10 years of employment preceding termination or retirement for which his compensation was highest by the number of months during such period for which he received compensation. No fractional compensation periods will be taken into account.

A participant's excess average monthly compensation is that portion, if any, of his final average monthly compensation which is in excess of his monthly covered compensation.

Basic Benefit

The single life annuity form of the pension account converted using actuarial equivalence.

Compensation

Compensation reflects that compensation which is treated as FICA wages without regard to the Social Security taxable wage base, including deferred bonuses but excluding extraordinary items. Compensation is annualized up to 2,080 hours.

Schedule SB Attachment (Form 5500) —2024 Plan Year
Williams Pension Plan
EIN: 73-0569878 PN: 001

Compensation also includes any amounts which are treated as salary reduction contributions and used to purchase non-taxable benefits under Section 125 or 401(k) of the Internal Revenue Code.

In accordance with Internal Revenue Code section 401(a)(17), annual compensation in excess of the inflation-adjusted limit is disregarded.

The compensation period is the 12-month period which begins each January 1 and ends each December 31.

Compensation Credit
(Prior to January 1, 2020)

Age on Credit Date	Credit Rate on All Compensation	Credit Compensation Above Maximum Taxable Wage Base	Transaction Credit Rate for Past Service ¹
<29	4.50%	1.00%	0.30% times Past Service
29	4.50%	See Below ²	0.30% times Past Service
30 – 39	6.00%	2.00%	0.30% times Past Service
40 – 49	8.00%	3.00%	0.30% times Past Service
50+	10.00%	5.00%	0.30% times Past Service

¹ Only applies to plan participants actively employed on both March 31, 1998 and April 1, 1998 or former participants who return to service after April 1, 1998. Past service is service through March 31, 1998 (March 31, 1999 for UTP acquisition participants).

² For plan years beginning on or after January 1, 2002, and before January 1, 2008, the rate is 1.00% on compensation up to 170% of the wage base and the rate is 1.13% on compensation greater than 170% of the wage base. For plan years beginning on or after January 1, 2008, the rate is 1.20% on compensation above the wage base.

50+	10.00%	5.00%	0.30% times Past Service

Covered Compensation

A participant's monthly covered compensation is equal to his monthly average Social Security wage base. Average Social Security wage base means the average (without indexing) of the Social Security taxable wage bases in effect for each calendar year during the 35-year period ending with the calendar year in which the participant attains (or will attain) Social Security retirement age (as defined in Code section 415 (b)). In determining a participant's average Social Security wage base, the taxable wage base for the current plan year and any subsequent plan year will be assumed to be equal to the taxable wage in effect as of the first day of the plan year for which the determination is being made.

Credit Date

The last day of the plan year, or termination date within the plan year, if applicable.

Effective Date

Restated effective January 1, 2022, signed December 22, 2022

Entry Date

First day of the month following the date that the eligibility requirements are met.

Interest Credit

Interest credited to a participant's pension account balance at the applicable interest rate as of the beginning of the plan year and prior to any compensation credit for such plan year.

Normal Retirement Age

Age 65.

¹ Only applies to plan participants actively employed on both March 31, 1998 and April 1, 1998 or former participants who return to service after April 1, 1998. Past service is service through March 31, 1998 (March 31, 1999 for UTP acquisition participants).

Schedule SB Attachment (Form 5500) —2024 Plan Year

Williams Pension Plan

EIN: 73-0569878 PN: 001

Normal Retirement Date

The first day of the month which coincides with or next follows the date on which the participant attains normal retirement age.

Pension Account

Hypothetical account maintained for crediting compensation credit and interest credit. For new employees hired after April 1, 1998, the opening account balance is zero. For prior plan participants, excluding participants rehired after June 29, 2005, the opening balance is the actuarially equivalent single sum payment of the accrued benefit.

Plan Year

The 12-month period beginning January 1 and ending December 31.

Transitional Benefit

Eligibility

Rule of 55 Employees

Former Consolidated and Transco Plan participants who are actively employed on both March 31, 1998 and April 1, 1988, whose age plus years of service on March 31, 1998 equal 55 or more, who retire from active employment on or after age 55, and who do not qualify as a Protected Group employee.

Vested Accrued Benefit

Benefit equal to the product of the accrued benefit multiplied by the vested percentage as of the same date.

Vesting Schedule

A participant's vested percentage will be 100% upon the completion of three years of vesting service. Prior to the completion of three years of vesting service, a participant's vested percentage is zero.

Years of Service

For Eligibility Purposes

Years of service for purposes of eligibility to participate in the plan are referred to as years of eligibility service and are determined using the hours of service method.

A year of eligibility service is credited for each computation period during which an employee is credited with at least 1,000 hours of service. The initial computation period is the 12 consecutive month period beginning with the employee's employment commencement date.

Schedule SB Attachment (Form 5500) —2024 Plan Year
Williams Pension Plan
EIN: 73-0569878 PN: 001

For Benefit Purposes

Years of service for purposes of computing a participant's normal retirement benefit are referred to as years of benefit service and are determined using the hours of service method.

A year of benefit service is credited for each plan year in which an employee is credited with at least 2,080 hours of service. If earned less than 2,080 hours, portion of year is credited for each month an employee is credited with 190 hours.

For Vesting Purposes

Years of service for purposes of computing a participant's vested percentage are referred to as years of vesting service and are determined using the hour of service method.

A year of vesting service is credited for each year in which an employee is credited with at least 1,000 hours of service. Only full years of service are credited.

Participation

First day of the month following the date of being credited with one year of eligibility service.

Effective January 1, 2015, the Access Midstream group is eligible to participate in the plan.

Anyone hired after December 31, 2018 will not be able to enter the plan. Anyone rehired after December 31, 2018 will not accrue any additional compensation credits.

Normal Retirement

Each participant who becomes eligible for normal retirement benefit under the plan will be entitled to receive a monthly retirement pension benefit beginning at the participant's normal retirement date and payable in the normal benefit form.

Normal Retirement Benefit

Greater of the basic benefit and the accrued benefit.

Normal Benefit Form

Single Participant

The normal benefit form for a participant who is not married on the date benefits commence is a monthly pension payable for the lifetime of the participant.

Married Participant

The normal benefit for a participant who is married on the date benefits commence is an actuarial equivalent joint and 50% survivor pension with a monthly pension benefit for the lifetime of the participant reducing to 50% of the original amount upon the death of the participant.

Late Retirement

An active participant who continues his employment with the employer beyond his normal retirement date may begin to receive his late retirement benefit to which he is entitled as of his late retirement date.

Schedule SB Attachment (Form 5500) —2024 Plan Year

Williams Pension Plan

EIN: 73-0569878 PN: 001

Late Retirement Date

The first day of the month coincident with or next following the date he retires and requests the commencement of his late retirement benefit after he has continued in the employment of the employer beyond his normal retirement date.

Late Retirement Benefit

Benefit equal to an amount which is the monthly benefit based on the normal retirement benefit formula using the participant's years of benefit service and compensation through his late retirement date. Active participants continue to accrue applicable compensation credits and interest credits through termination.

Disability Retirement

Disability Retirement Date

The first day of the month coincident with or next following the date of termination of his employment due to disability provided such participant has been found to be eligible for a disability retirement benefit.

An active participant will be eligible for a disability retirement benefit under the plan upon the occurrence of permanent disability after the completion of three years of vesting service. Disability retirement benefit is payable at normal retirement date.

Disability Retirement Benefit

Basic benefit determined as for normal retirement with compensation credit and interest credit during the period of disability. Compensation credit is based on frozen pay as of date of disability.

Optional Benefit Forms

Optional benefit forms are available and equal to the actuarial equivalent of the normal benefit form and may be in an amount more than or less than that provided by the normal benefit form depending on the option selected. Such distribution may be in one or more of the following forms:

- Lump sum
- Life annuity
- Pop-up Joint and 50%, 75%, 100% joint and survivor pension
- 5, 10, 15 and 20-year certain and life

WILLIAMS PENSION PLAN
NOTES TO FINANCIAL STATEMENTS
December 31, 2024 and 2023

Note 1--Description of the Plan

General

The information included below regarding the Williams Pension Plan (the “Plan” or “WPP”) provides only a general description of the Plan. Participants should refer to the Plan document and the Summary Plan Description for a more complete description of the Plan’s provisions.

The Plan is a noncontributory defined benefit plan. Generally, the Plan was open to all otherwise eligible employees of The Williams Companies, Inc. and its participating subsidiaries (collectively, “Williams”) hired prior to January 1, 2019.

On December 31, 2023, the Williams Inactive Employees Pension Plan (“Inactive Plan”) was merged into the Plan. Terms of the Plan did not change as a result of the merger. The net assets transferred to the Plan from the Inactive Plan were \$323,190,565 and are included on the Statements of Changes in Net Assets Available for Benefits as Transfer from Williams Inactive Employees Pension Plan. The December 31, 2023 present value of accumulated plan benefits transferred to the Plan from the Inactive Plan was \$226,130,422 (see Note 6). Prior to the merger of the plans, each plan had an investment in The Williams Companies Master Pension Trust (the “Trust”) (see Note 9). Upon the merger, the Plan became the only investee in the Trust. As a result, the Trust assets are no longer reported as a master trust in the Plan’s 2024 financial statements and notes.

The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (“ERISA”).

Receivable from The Prudential Insurance Company of America

Prior to the merger of the Transco Energy Company Retirement Plan (“Transco Plan”) into the Plan in the late 1990s, the Transco Plan had purchased annuity contracts from The Prudential Insurance Company of America (“Prudential”). The Receivable from Prudential included on the Statements of Net Assets Available for Benefits reflects obligations of Prudential related to these contracts that were paid by the Plan in 2024 and the Trust (see Note 9) in 2023 and subsequently reimbursed by Prudential.

Administration

There are several committees that have defined responsibilities in relation to the Plan. The Administrative Committee’s responsibilities include administering the Plan in accordance with its terms and interpreting the Plan when issues or questions arise. The Investment Committee has

WILLIAMS PENSION PLAN
NOTES TO FINANCIAL STATEMENTS

December 31, 2024 and 2023

the responsibility to monitor the performance of the Plan's investments, the trustee, and the investment managers. The Investment Committee also has the responsibility to appoint, remove, and replace the trustee, any investment fund, and any investment manager. The Benefits Committee, in its settlor capacity, may amend the Plan provided it is a nonmaterial amendment as defined in the Plan. The Compensation and Management Development Committee of Williams' Board of Directors, in its settlor capacity, has the right to terminate or amend the Plan. Bank of Oklahoma ("Trustee") is the trustee. Fidelity Employer Services Company, LLC, is the record keeper.

Vesting

Participants become fully vested in benefits at age 65 or after three years of vesting service as defined by the Plan.

Vesting service is granted to eligible participants who incur an involuntary termination of employment as a result of: (1) a sale of stock or assets to the extent stipulated in any applicable sale and purchase agreement or (2) a reduction in work force, in which case an additional one year of vesting service is granted.

Benefits

Accrued benefits are primarily calculated under a cash balance formula. In 1998, the Plan was converted from a traditional final average pay defined benefit pension plan to a cash balance defined benefit pension plan. Under the cash balance defined benefit pension plan, the annual compensation credit is based upon age, annual compensation, and benefit service years as of March 31, 1998, with Williams. As of January 1, 2020, certain active eligible employees are no longer eligible to receive compensation credits. Additionally, other historical plan formulas are applicable under the Plan and distributed in unique distribution options. The benefit formula and distribution option applied depend on which entity the participants were employed with and their termination date.

Participants are generally eligible for normal retirement benefits at the age of 65. The Plan provides for early retirement, disability, and death benefits as defined in the Plan document.

Eligible participants have the option of receiving their benefit in the form of one of several annuity options as defined in the Plan document. Additionally, certain eligible participants have the option of receiving their benefit in the form of a lump sum or a combination of a partial annuity and partial lump-sum payment, while others only have the option of receiving their benefit in the form of an annuity with no lump-sum option.

Note 2--Summary of significant accounting policies

Basis of accounting

The accompanying financial statements are prepared on the accrual basis of accounting. However, benefit payments to participants are recorded when paid.

Use of estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires the Plan's Administrative Committee to make estimates and assumptions that affect the amounts reported in the financial statements, accompanying notes, and supplemental schedules. Actual results could differ from those estimates.

Risks and uncertainties

The Plan provides for various investment securities. Investment securities, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the Statements of Net Assets Available for Benefits.

Plan contributions are determined and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates, and participant demographics, all of which are subject to change. Due to uncertainties inherent in the estimation and assumption processes, it is at least reasonably possible that changes in these estimates and assumptions in the near term could materially affect the amounts reported and disclosed in the financial statements.

Investment valuation and income recognition

The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. A discussion of fair value measurements is included in Notes 7, 8, and 9.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) in fair value of investments includes gains and losses on investments bought and sold, as well as held, throughout the year.

WILLIAMS PENSION PLAN
NOTES TO FINANCIAL STATEMENTS
December 31, 2024 and 2023

The Plan has an investment contract with Metropolitan Life Insurance Company (“MetLife”), which is an immediate participation guarantee contract. The assets of this contract are held primarily in a pooled separate account at MetLife.

Actuarial present value of accumulated plan benefits

Accumulated plan benefits are those estimated future periodic payments, including lump-sum distributions (as applicable), that are attributable under the Plan’s provisions to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, and (b) present employees or their beneficiaries. Benefits payable under all circumstances—retirement, death, disability, and termination of employment—are included, to the extent they are deemed attributable to employee service rendered to the valuation date.

The actuarial present value of accumulated plan benefits is determined by consulting actuaries and is that amount that results from applying actuarial assumptions to adjust the accumulated plan benefits earned by the participants to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment. The more significant assumptions underlying the actuarial computations for December 31, 2023 and 2022, are as follows:

Interest rate	2023: 5.31%
	2022: 5.17%
Mortality basis	Pri-2012 mortality table projected generationally with scale MP-2021
Employee turnover	A moderate scale consistent with plan experience
Retirement	Graduated scale from age 55 to 70

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits. The computations of the actuarial present value of accumulated plan benefits were made as of January 1, 2024 and 2023. There were no significant changes to the Plan that would have changed the valuation had they been performed as of December 31, 2023 and 2022 (see Note 6).

Administrative expenses

The majority of administrative expenses of the Plan are paid from Plan assets. However, certain administrative expenses are paid by Williams and are not reflected in the Plan's financial statements.

Subsequent events

The Plan's Administrative Committee has evaluated subsequent events through September 29, 2025, the date the financial statements were available to be issued.

Note 3--Retiree medical benefits - Retiree Medical Plan

The Plan provides for the funding of a portion of retiree medical benefits as permitted under Section 401(h) of the Internal Revenue Code ("IRC") (retiree medical benefits and eligibility as defined in The Williams Companies, Inc. Retiree Medical Plan ("Retiree Medical Plan")). A separate account has been established and maintained within the Plan for the net assets related to the retiree medical benefit component ("401(h) account"). In connection with the merger of the Inactive Plan with the Plan, net assets of the Inactive Plan's 401(h) account of \$82,417,761 were transferred to the Plan's 401(h) account on December 31, 2023 (see Note 1). In accordance with IRC Section 401(h), the Plan's investments in the 401(h) account may not be used for any purpose other than providing medical benefits for retirees and their beneficiaries. The medical benefits may be funded at the discretion of each participating company with administration and investment of funds provided by the Plan in 2024 (see Notes 7 and 8) and Trust in 2023 (see Note 9). While no participating company is required to make contributions, the ranges of amounts that may be funded by each participating company are determined by consulting actuaries, based upon certain actuarial assumptions similar to those described in Note 2. The actuarial present value of postretirement medical benefits is included in the notes to the financial statements of the Retiree Medical Plan.

Note 4--Funding policy

The total contributions to the Plan by Williams are designed to be at least equal to the minimum required contributions under ERISA. Contributions in excess of the minimum required contribution may be made at Williams' discretion. Total Plan contributions are not to exceed the Internal Revenue Service ("IRS") maximum deductible limit. No cash contributions were required or made for 2024 or 2023 to meet the minimum funding requirements of ERISA.

Note 5--Plan termination

While no intention has been expressed by any participating subsidiary to discontinue its contributions, each is free to withdraw from the Plan at any time. While no intention has been expressed by the Compensation and Management Development Committee of Williams' Board of Directors to terminate the Plan, it is free to do so at any time. In the event of such termination of the Plan, the Plan will be liquidated and the assets will be distributed in the following order of precedence:

- (1) The return of employee mandatory contributions made by participants prior to when the Plan became noncontributory;
- (2) Benefits to participants or beneficiaries who began receiving benefits at least three years before the plan termination date (including those benefits that would have been payable for at least three years had the participant retired prior to the beginning of the three-year period and their benefits had commenced, in the form of an annuity under the Plan, as of the beginning of the period) based on plan provisions in effect during the five years prior to termination that produce the least benefits;
- (3) All other benefits insured by the Pension Benefit Guaranty Corporation ("PBGC");
- (4) All other nonforfeitable benefits under the Plan;
- (5) All other benefits under the Plan.

Note 6--Actuarial information

The actuarially computed present value of accumulated plan benefits (excluding postretirement medical benefits, see Note 3) calculated by consulting actuaries as of December 31, 2023, is as follows:

	2023
Vested benefits:	
Participants currently receiving payments	\$ 311,557,399
Other participants	634,629,887
	946,187,286
Nonvested benefits	637,228
Total actuarial present value of accumulated plan benefits	<u>\$ 946,824,514</u>

The change in the actuarial present value of accumulated plan benefits is as follows:

	December 31, 2022 to December 31, 2023
Balance at beginning of year	\$ 712,551,854
Increase (decrease) attributable to:	
Interest	35,753,447
Benefits accumulated	26,098,754
Benefits paid	(42,527,542)
Transfer from the Inactive Plan (see Note 1)	226,130,422
Actuarial assumption changes	(10,746,263)
Actuarial gain	(436,158)
Net increase	234,272,660
Balance at end of year	<u>\$ 946,824,514</u>

The Actuarial assumption changes adjustment is primarily due to an increase in the interest rate used to discount the obligation from 5.17 percent to 5.31 percent.

Note 7--Fair value measurements

The fair value hierarchy prioritizes the inputs used to measure fair value, giving the highest priority to quoted prices in active markets for identical assets or liabilities (Level 1 measurement) and the lowest priority to unobservable inputs (Level 3 measurement). Fair value balances are classified based on the observability of those inputs. Each asset's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement.

The Plan's Level 1 investments held by the Plan on December 31, 2024 and the Trust on December 31, 2023 primarily consist of U.S. Treasury securities and a cash management fund that are traded on U.S. exchanges. The Plan's and Trust's Level 2 investments consist of fixed income securities, which include U.S. and sovereign government bonds, municipal bonds, corporate bonds, and mortgage and asset-backed securities. The Plan and Trust hold no Level 3 investments.

The units of the commingled investment funds held in the Plan and Trust and pooled separate account are valued at fair value using the net asset value ("NAV") per share practical expedient as determined by the issuer based on the current fair values of the underlying assets of the fund. The pooled separate account was the only investment held by the Plan outside of the Trust on December 31, 2023; therefore, no fair value table at the Plan level has been presented for December 31, 2023 as the pooled separate account is not required to be included in the table.

The fair values of fixed income securities, except U.S. Treasury securities, are determined using pricing models. These pricing models incorporate observable inputs such as benchmark yields, reported trades, broker/dealer quotes, and issuer spreads for similar securities. The U.S. Treasury securities are valued at fair value based on closing prices on the last business day of the Plan year reported in the active market in which the security is traded.

Shares of the cash management fund are valued at fair value based on published market prices as of the close of business on the last business day of the Plan year, which represents the NAV of the shares held by the Plan and Trust.

There have been no significant changes in the valuation methodologies used at December 31, 2024 and 2023. The valuation methods described above may produce a fair value that may not be indicative of net realizable value or reflective of future fair values. The use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets that were measured at fair value as of December 31, 2024, with the exception of the commingled

investment funds and pooled separate account measured at fair value using the NAV per share practical expedient. The fair value amounts for the commingled investment funds and pooled separate account in the following table are intended to permit reconciliation of the fair value hierarchy to the amounts presented in the Statement of Net Assets Available for Benefits.

	Level 1	Level 2	Total

Total investments at fair value, including investments held in 401(h) account (2)			<u>\$ 1,350,975,082</u>

- (1) The commingled investment funds hold investments in equity and fixed income securities. The equity funds invest in securities of U.S. large cap, global large and mid cap, global value, and international emerging markets. The fixed income funds include investments in corporate bonds and U.S. long and intermediate duration bonds. The stated intents of the funds vary based on each commingled fund's investment objective. These objectives generally include strategies to replicate or outperform various market indices. Certain standard withdrawal restrictions generally apply, which may include redemption notification period restrictions ranging from 1 day to 15 days. Additionally, the fund managers retain the right to restrict withdrawals from and/or purchases into the funds so as not to disadvantage other investors in the funds. Generally, the funds also reserve the right to make all or a portion of the redemption in-kind rather than in cash or a combination of cash and in-kind.
- (2) Total investments do not include net liabilities of the 401(h) account of \$193,718 as of December 31, 2024.

Note 8--Derivatives

In accordance with the Plan's and Trust's investment policy, the Plan and Trust may engage in investment strategies utilizing derivative securities such as options, futures, and swaps upon approval by the Investment Committee. The Plan's and Trust's investment managers use U.S. Treasury futures contracts on behalf of the Plan to implement and manage duration and yield

curve strategy in the fixed income portfolio for the purpose of managing interest rate risks associated with the Plan's investments and obligations.

The following table presents the open futures contracts as of December 31, 2024 that were held by the Plan. The fair values presented in the table represent a one-day change in the value of the contracts, as these standardized exchange-traded instruments are settled daily through a clearinghouse, and are reported on the Statement of Net Assets Held Available for Benefits within Accrued investment income and Net assets held in 401(h) account at December 31, 2024.

The realized gains (losses) and changes in unrealized gains (losses) related to the futures contracts resulted in net gains of \$23,923,701 for the year ended December 31, 2024. Of this amount, \$20,926,106 is included in Net appreciation in fair value of investments within the Statement of Changes in Net Assets Available for Benefits and \$2,997,595 is allocated to the 401(h) account.

Note 9--Investment in the Trust

Description of the Trust

The Trust provided for the administration and investment of funds of the Plan and the Inactive Plan, including the funds of each plan's 401(h) account (see Note 3). The Trust was divided into units of equal value in determining the proportionate interest of each participating plan. Net investment income (loss) was allocated monthly among the plans based on each plan's proportionate interest in the Trust. Contributions and benefit payments applicable to participating plans were recorded in the financial records of the respective plans. The Plan's net investment in the Trust was 100 percent on December 31, 2023, which was equal to the Plan's interest in the fair value of the net assets of the Trust, including the net assets of the 401(h) account. As of December 31, 2023, the Plan was the only investee in the Trust due to the merger of the Inactive Plan into the Plan (see Note 1).

Note 10--Party-in-interest transactions

Cavalan Hill Investment Management, Inc., a wholly owned subsidiary of the Plan's Trustee, manages the Plan's and Trust's cash management fund investment in the Cavalan Hill Government Securities Money Market Fund. Therefore, these transactions qualify as party-in-

interest transactions; however, they are exempt from the prohibited transaction rules under ERISA.

Note 11--Income tax status

The Plan has received a determination letter from the IRS dated June 29, 2021, stating that the Plan, as amended through December 24, 2020, is qualified under Section 401(a) of the IRC; therefore, the related Trust is exempt from taxation. Subsequent to the receipt of the determination letter, the Plan was amended and restated. Once qualified, the Plan is required to operate in conformity with the IRC to maintain its qualified status. The Plan's administrator has indicated it will take the necessary steps, if any, to bring the Plan's operations into compliance with the IRC.

Plan management is required by generally accepted accounting principles to evaluate uncertain tax positions taken by the Plan. The financial statement impact of a tax position must be recognized when the position is more likely than not, based on technical merits, to be sustained upon examination by the IRS. As of December 31, 2024 and 2023, there are no uncertain positions taken or expected to be taken.
