INDEPENDENT AUDITOR'S REPORT

To Plan Management
of PacificSource:

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed an audit of the accompanying financial statements of PacificSource 401(k) Plan (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C). The financial statements comprise the statements of net assets available for benefits as of December 31, 2024 and 2023, the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audit of the financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audit need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from qualified institutions as of December 31, 2024 and 2023, and for the years then ended, stating that the certified investment information, as described in Note 4 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audit and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section-

- The amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America (GAAP).

- The information in the accompanying financial statements related to assets held by and certified by qualified institutions agrees to, or is derived from, in all material respects, the information prepared and certified by a qualified institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments; administering the Plan; and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an Auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audit did not extend to the certified investment information, except for obtaining and reading the certifications, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of GAAP.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with GAAP.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplemental Schedule Required by ERISA

The supplemental schedule of assets (held at end of year) is presented for purposes of additional analysis and is not a required part of the financial statements but is supplemental information required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including its form and content, are presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion-

- The form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, is presented, in all material respects, in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.
- The information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by a qualified institution that management determined meet the requirements of ERISA Section 103(a)(3)(C).

PACIFICSOURCE 401(k) PLAN

Notes to Financial Statements

1. Description of the Plan

The following description of the PacificSource 401(k) Plan (the Plan) provides only general information. Reference should be made to the underlying plan document for a more complete description of the Plan's provisions.

General. Established by PacificSource (the Company) on January 1, 1984, the Plan is a tax qualified defined contribution plan formed for the benefit of all eligible employees of the Company. The Plan includes a salary deferral arrangement commonly called a 401(k) plan. Under such provisions, participants are able to defer a portion of their wages and have such amounts contributed to the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). Generally, all employees are eligible to participate in the Plan immediately upon hire.

Contributions. Eligible employees may make elective 401(k) contributions in either Traditional (pre-tax) or Roth (after-tax) form to the Plan. Total participant contributions are limited by various Internal Revenue Code (IRC) Provisions. Participants over 50 years of age may make additional annual "catch-up" contributions as allowed by the IRC. The Plan also provides that refunds may be made to certain participants in order to comply with those statutory limits.

A participant may commence, recommence, cease, or change the amount of the deferral election effective as of the first day of any prospective payroll period. The Plan contains an automatic enrollment provision which provides that a participant, upon first becoming eligible to participate in the Plan, will be automatically enrolled. All participants will be treated as having elected to make traditional elective deferral contributions equal to 3% of eligible compensation for each payroll period unless the participant affirmatively elects otherwise.

Traditional participant contributions represent amounts by which an eligible employee has elected a reduction in taxable compensation in consideration of the Company contributing such amounts to the Plan. Such contributions are excluded from the participant's taxable income until received as a distribution from the Plan.

Participants making Roth contributions will pay taxes on contributed amounts treated as Roth elective deferral contributions when made. Roth contributions and earnings on those contributions can be withdrawn tax-free as long as the participant has maintained the Roth account for at least five years and is at least age 59½ at the time of withdrawal. Roth contributions are designated irrevocably by the participant at the time of the cash or deferral election. Roth contributions are treated by the plan sponsor as included in the participant's income at the time the participant would have received that amount in cash if the participant had not made the election.

PACIFICSOURCE 401(k) PLAN

Notes to Financial Statements

1. Description of the Plan (Continued)

The Plan provides for discretionary employer matching contributions. The employer matching contributions are allocated at the rate of 50% of each dollar of elective 401(k) contributions made by the plan participant. The match applies to elective 401(k) contributions that do not exceed 6% of compensation. These contributions amounted to \$3,967,998 and \$3,768,851 for 2024 and 2023, respectively.

The Plan also provides for discretionary non-elective employer contributions. The employer's contribution for the plan year is allocated to each eligible participant on a pro-rata basis based on the ratio of compensation of the participant to the total compensation of all participants. This non-elective contribution for 2024 and 2023 was 3% of eligible compensation and totaled \$4,807,591 and \$4,476,660, respectively.

Participant Accounts. Individual accounts are maintained for each plan participant to reflect the participant's deferral, rollover, and employer contributions. These individual accounts are self-directed by the participants, allowing the participants to choose the investment combination they wish from numerous available funds. Income and loss are allocated to the participants' accounts based on the investment performance of the investments the participants have chosen. The benefit to which a participant or beneficiary is entitled is the benefit that can be provided from the participant's account.

Investment Options. The plan trustees have selected a common collective trust fund (CCT) and menu of registered investment companies from which the participants may choose. Plan participants invest the amounts in their account in these various investment funds. Each participant instructs Fidelity Management Trust Company (Fidelity) as to how the assets are to be invested. The Plan maintains no investments which are not directed by the plan participants.

Participant Notes Receivable. Participants may borrow from their account a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 (reduced by the highest outstanding note receivable balance incurred by the participant during the 12-month period ending on the date on which the note was made) or 50% of their vested account balance. Note transactions are treated as a transfer between the investment fund and the participant note fund. Note terms are up to five years. No participant may have more than two notes concurrently. The notes are secured by the balance in the participant's account and bear interest at prime rate plus 2%. Interest rates ranged from 4.25% to 10.50% on notes outstanding at December 31, 2024 and 2023. Principal and interest are paid ratably through payroll deductions.

Vesting. Participants are always fully vested in their accounts maintained under the Plan.

1. Description of the Plan (Continued)

Payments of Benefits. Participants or their beneficiaries are eligible for benefit payments of their individual participant accounts upon retirement, termination of employment, death, or total and permanent disability. Benefits are payable in cash in the form of lump-sum distributions, partial distributions, or periodic installments. The Plan allows in-service distributions after attaining age 59½. The Plan allows for limited in-service distributions if a participant suffers a hardship, as defined in the plan document.

Administrative Expenses. As of December 31, 2024 and 2023, the plan sponsor absorbs some costs of administering the Plan, except for management fees charged by the various fund managers, some participant fees such as transaction-based fees, and some other costs of administration that are paid by the Plan as provided by the plan document. Participants have access to expense information with respect to each fund.

2. Summary of Significant Accounting Policies

Basis of Reporting. The accompanying financial statements are prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America (GAAP). GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts in the statements of changes in net assets available for benefits during the reporting period. Actual results could differ from those estimates.

Investment Valuation. Investments are valued at fair value. GAAP defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. GAAP establishes a framework for measuring fair value. GAAP also allows for a practical expedient whereby the net asset value (NAV) of investment units owned by the Plan, which meet certain conditions, is used as a substitute for fair value.

The fair value framework requires the categorization of assets and liabilities into three levels based upon the ability to observe the inputs used to value the assets and liabilities. The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs. Level One provides the most reliable and observable measure of fair value, whereas Level Three generally requires significant judgment.

(Continued)

See independent auditor's report.

PACIFICSOURCE 401(k) PLAN

Notes to Financial Statements

2. Summary of Significant Accounting Policies (Continued)

The three levels of the fair value hierarchy are defined as follows:

- Level One - Unadjusted, quoted prices in active markets for identical assets and liabilities.
- Level Two - Observable inputs, other than those included in Level One. For example, quoted prices for similar assets or liabilities in active markets or quoted prices for identical assets or liabilities in inactive markets.
- Level Three - Unobservable inputs reflecting assumptions about the inputs used in pricing the asset or liability.

Purchase and sales of securities are recorded on a trade-date basis. The cost of investments sold for the purpose of computing gains and losses is based on average cost. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. The Plan presents in the statements of changes in net assets available for benefits, the net appreciation or depreciation in the fair value of the Plan's investments, which consists of the realized gains or losses and the unrealized appreciation or depreciation of those investments.

Participant Notes Receivable Valuation. Participant notes are carried at unpaid principal balance plus accrued interest. Interest earned on participant notes receivable is reported as other income in the statement of changes in net assets available for benefits.

Risks and Uncertainties. The Plan may invest in various types of investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near-term and such changes could materially affect participants' account balances and the amounts reported in the financial statements.

Payment of Benefits. Benefits are recorded when paid. Amounts allocated to persons who had elected to withdraw from the Plan but had not yet been paid totaled approximately \$361,000 and \$109,000 as of December 31, 2024 and 2023, respectively.

See independent auditor's report.

PACIFICSOURCE 401(k) PLAN

Notes to Financial Statements

2. Summary of Significant Accounting Policies (Continued)

Subsequent Events. The Plan evaluates subsequent events and the evidence they provide about conditions existing at the date of the statements of net assets available for benefits as well as conditions that arose after the statements of net assets available for benefits date but before the financial statements are issued. The effects of conditions that existed at the date of the statements of net assets available for benefits are recognized in the financial statements. Events and conditions arising after the statements of net assets available for benefits date but before the financial statements are issued are evaluated to determine if disclosure is required to keep the financial statements from being misleading. To the extent such events and conditions exist, disclosures are made regarding the nature of events and the estimated financial effects for those events and conditions. For purposes of preparing the accompanying financial statements and the notes to these financial statements, the Plan evaluated subsequent events through September 23, 2025, the date the financial statements were available for issue.

Reclassifications. Certain reclassifications may have been made to the 2023 financial statement presentation to correspond to the current year's format. Total net assets available for benefits are unchanged due to these reclassifications.

3. Fair Value Measurement

The following is a description of the valuation methodologies used for assets measured at fair value:

- Units held in CCTs are valued using the NAV practical expedient of the CCT as reported by the account managers. The NAV practical expedient is based on the contract value of the underlying assets owned by the CCT, minus its liabilities, and then divided by the number of units outstanding. The NAV practical expedient of a CCT is calculated based on a compilation of primarily observable market information. These investments are redeemable daily at NAV by participants and had no commitment provisions.
- The fair value of registered investment companies is based on quoted market prices.

In accordance with GAAP, all investments valued using the NAV practical expedient have not been classified in the fair value hierarchy.

The fair valuation methodology used by the Plan may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair value. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of a different methodology or assumptions to determine fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

4. Information Certified by Fidelity

The plan administrator has elected the method of compliance permitted by ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. The Plan's assets were held by Fidelity as of December 31, 2024 and 2023. Accordingly, Fidelity, a qualified institution, has certified that the following investment information included in the accompanying financial statements is complete and accurate:

Total investments, participant notes receivable, and cash and cash equivalents as shown in the accompanying statements of net assets available for benefits as of December 31, 2024 and 2023.

Total investment income and other income as shown in the accompanying statements of changes in net assets available for benefits for the years ended December 31, 2024 and 2023, respectively.

All investment-related information and participant loans in the accompanying supplemental Form 5500, Schedule H, part IV, line 4i - schedule of assets (held at end of year) as of December 31, 2024.

PACIFICSOURCE 401(k) PLAN

Notes to Financial Statements

4. Information Certified by Fidelity (Continued)

At the request of the plan administrator, the Plan's independent auditors did not perform auditing procedures with respect to the investment information certified by Fidelity, except for comparing such information certified by Fidelity to the related investment information included in the financial statements.

5. Restrictions on Asset Transfers

In accordance with the terms of the CCT, the NAV of the fund is determined daily. Sales and redemptions of participant units are transacted at such NAV. Trusts participating in the fund are subject to restrictions on withdrawals from the fund. Withdrawals needed for benefit payments and participant-initiated investment transfers of participating employee benefit plans are generally permitted daily and executed at NAV. Withdrawals for other purposes require 12-month's advanced notice to the fund in order to be transacted at NAV. Withdrawals without such 12-month notice are subject to certain market value adjustments as detailed in the investment contract. At its discretion, the fund may affect these withdrawals prior to the end of the 12-month period. The plan administrator does not believe that the occurrence of any such event which would cause a withdrawal to be transacted at other than NAV is probable.

6. Income Tax Status

The Plan utilizes a pre-approved plan document and relies on the opinion letter issued to the pre-approved document sponsor. The pre-approved document sponsor received an opinion letter on June 30, 2020, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the IRC. The Plan has been amended since the pre-approved document sponsor received the opinion letter. Additionally, the Plan is operating under provisions, required by new laws, but has not yet been amended to reflect these changes. The Plan will be formally amended to incorporate these provisions prior to the deadline required by law for adopting such amendments. The plan administrator believes that the Plan is currently being operated in compliance with the applicable requirements of the IRC and that, therefore, the Plan qualifies under Section 401(a) and the related trust is tax exempt as of December 31, 2024 and 2023. Therefore, no provision for income taxes has been included in the Plan's financial statements.

See independent auditor's report.

PACIFICSOURCE 401(k) PLAN

Notes to Financial Statements

7. Related-Party Transactions

As of December 31, 2024 and 2023, certain plan investments are shares of funds managed by affiliates of Fidelity Trust. Fidelity Trust is the trustee as defined in the Plan. Therefore, these transactions qualify as exempt parties-in-interest transactions.

Some plan investment funds may pay Fidelity Workplace Services LLC (FWS), the Plan's record-keeper as of December 31, 2024 and 2023. FWS is a wholly owned subsidiary of FMR LLC (Fidelity Investments) and an affiliate of Fidelity Trust. These payments are for services FWS provides to the funds. These payments may be used to reduce the recordkeeping fees the Plan would otherwise owe to FWS. Administrative expenses reflected on the statements of changes in net assets available for benefits are shown net of any fee reduction. Total fees paid by the Plan under this service contract amounted to \$20,462 and \$20,268 for the years ended December 31, 2024 and 2023, respectively.

8. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA.

9. Subsequent Event

On March 17, 2025, the plan document was amended to include a new entity, PacificSource PACE, LLC, which will be an additional adopting employer eligible to participate in the Plan. This entity was created pursuant to a joinder agreement involving a newly formed, wholly owned subsidiary of the plan sponsor. All employees under the additional employer are eligible to participate in the Plan immediately upon hire.

The Securing a Strong Retirement Act of 2022 (SECURE 2.0 Act) was signed into law on December 29, 2022, and includes mandatory and optional provisions with varying effective dates in 2024 and later. The Plan Administrator will determine the optional provisions to elect and amend the plan document accordingly.

See independent auditor's report.
