and Participants and Beneficiaries in the Plan

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of the Association of the Bar of the City of New York 401(k) Plan (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 ("ERISA"), as permitted by ERISA Section 103(a)(3)(C) ("ERISA Section 103(a)(3)(C) audit"). The financial statements comprise the statements of net assets available for benefits as of December 31, 2024 and 2023, and the related statement of changes in net assets available for benefits for the year ended December 31, 2024, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's ("DOL") Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from qualified institutions as of December 31, 2024 and 2023, and for the year ended December 31, 2023, stating that the certified investment information, as described in Note C to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditors' Responsibilities for the Audit of the Financial Statements section:

- the amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- the information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

"EisnerAmper" is the brand name under which EisnerAmper LLP and Eisner Advisory Group LLC provide professional services.

EisnerAmper LLP and Eisner Advisory Group LLC are independently owned firms that practice in an alternative practice structure in accordance with the AICPA Code of Professional Conduct and applicable law, regulations and professional standards. EisnerAmper LLP is a licensed CPA firm that provides attest services, and Eisner Advisory Group LLC and its subsidiary entities provide tax and business consulting services. Eisner Advisory Group LLC and its subsidiary entities are not licensed CPA firms.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (“GAAS”). Our responsibilities under those standards are further described in the Auditors’ Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management’s election of the ERISA Section 103(a)(3)(C) audit does not affect management’s responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan’s ability to continue as a going concern for one year after the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current Plan instrument, including all Plan amendments, administering the Plan, and determining that the Plan’s transactions that are presented and disclosed in the financial statements are in conformity with the Plan’s provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors’ Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors’ report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter

Supplemental Schedule Required by ERISA

The supplemental schedule of assets (held at end of year) as of December 31, 2024 is presented for purposes of additional analysis and is not a required part of the financial statements, but is supplementary information required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including the form and content, is presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- the form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, is presented, in all material respects, in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.
- the information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

ASSOCIATION OF THE BAR OF THE CITY OF NEW YORK 401(k) PLAN

Notes to Financial Statements December 31, 2024 and 2023

NOTE A - DESCRIPTION OF THE PLAN

The accompanying financial statements and supplemental schedule are those of the Association of the Bar of the City of New York 401(k) Plan (the "Plan"), and users of these financial statements and supplemental schedule are directed to the independent auditors' report on pages 1 through 4. Likewise, the brief description of the Plan contained herein is provided solely for purposes of general information, and interested persons should refer to the Plan agreement for a more complete description of the Plan's provisions. A copy of the Plan agreement can be obtained from The Association of the Bar of the City of New York (the "Association"), which is the administrator of the Plan.

[1] General:

The Plan is a defined contribution plan designed to meet the requirements of Section 401(a) of the Internal Revenue Code (the "Code") and is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"), as amended. The Plan covers all eligible employees of the Association. TIAA and CREF are the insurance companies for the Plan's non-mutual fund investments. TIAA, FSB was the custodian for the portion of the Plan's investments in mutual funds through July 15, 2023. Subsequent to July 15, 2023, TIAA Trust, N.A. served as custodian of the Plan's investments in mutual funds. TIAA is the Plan's recordkeeper. The Plan administrator controls and manages the operation and administration of the Plan.

[2] Participants' accounts:

The activity in each participant's account includes the participant's contribution, the employer's matching and discretionary contribution, benefit payments or withdrawals, allocations of earnings or losses on Plan assets, and may be charged with an allocation of administrative expenses. Allocations are based on participant earnings, account balances, specific participant transactions, or eligible compensation, as defined in the Plan's agreement. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

[3] Contributions:

Employees are eligible to make elective deferrals immediately following their employment. Certain employees may be excluded from participation, however, if they fall within the specific categories listed in the Plan agreement. A participant was permitted to contribute up to 100% of pre-tax compensation (maximum of \$23,000 and \$22,500 in 2024 and 2023, respectively). In no event may a participant's pre-tax contributions exceed statutory limits.

Plan participants who have reached the age of 50 or older were eligible to make additional, elective catch-up deferrals of up to \$7,500 in both 2024 and 2023, for a total maximum pre-tax salary deferral of \$30,500 and \$30,000 in 2024 and 2023, respectively. These additional contributions are not considered in applying Plan limitations, including the maximum amounts of elective deferrals.

For a participant with one year or more of service, the Association provides up to a 3% employer-matching contribution of the participant's eligible compensation. The employer-matching contribution has a one-year vesting requirement.

In addition, a discretionary contribution of 3% of a participant's eligible Plan compensation may be contributed by the Association after the close of each Plan year for participants who have met the one-year service requirement of at least 1,000 hours and who were still employed by the Association at December 31 of the Plan year. The discretionary contribution has a three-year vesting requirement. For 2024 and 2023, the Association did not make any discretionary contributions.

Rollover contributions are permitted while a participant is an employee of the Association.

ASSOCIATION OF THE BAR OF THE CITY OF NEW YORK 401(k) PLAN

Notes to Financial Statements December 31, 2024 and 2023

NOTE A - DESCRIPTION OF THE PLAN (CONTINUED)

[4] Vesting and forfeitures:

Participants are immediately vested in the value of their elective deferrals and voluntary pre-tax rollover accounts to the Plan. The employer-matching contribution amounts become completely vested upon a participant's completion of one year of service. The discretionary employer contribution amounts become completely vested upon a participant's completion of three years of service. Forfeitures are retained in the Plan and can be used to reduce future contributions payable under the Plan and pay Plan expenses. There were no forfeitures in 2024. There were no forfeited non-vested accounts available at December 31, 2024 and 2023.

[5] Payment of benefits:

The Plan provides for benefits at normal retirement (age 65), death, total disability, or upon termination of employment. A participant may elect to receive a lump sum, partial payments, installment payments, or purchase an annuity contract equal to the value of the participant's vested interest in his or her account.

[6] Notes receivable from participants:

Notes receivable from participants are measured at their unpaid principal balance, plus any accrued but unpaid interest. Participants may borrow from their fund accounts a minimum of \$1,000, up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. Loan terms range from one to five years; however, terms may exceed five years for the purchase of a primary residence. The loans are secured by the balance in the participant's account and bear interest at a rate of prime plus 1%, as defined. Interest rates on outstanding loan balances range from 9.25% to 9.50% at December 31, 2024. Principal and interest are paid ratably through payroll deductions. Delinquent notes receivable from participants are reclassified as distributions based upon the terms of the Plan agreement. Related fees are recorded as administrative expenses and are expensed when they are incurred.

[7] Plan loans:

Participants were able to borrow from TIAA, the insurance company. These loans were issued as separate contracts by TIAA and do not represent loans from, or distributions of, Plan assets. Instead, loans are collateralized using a participant's TIAA Traditional Annuity account balance in an amount equal to 110% of the outstanding loan balance. A participant was able to borrow a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000, or 45%, of their vested account balance, subject to annuity contract and Plan provisions. Loan terms range from one to five years; however, terms may exceed five years for the purchase of the participant's primary residence, as defined. Principal and interest are paid ratably by the participant to TIAA and not through a salary-reduction arrangement with the Association. Interest rates on outstanding loan amounts ranged from 4.39% to 5.58%. Plan loan balances outstanding from participants to TIAA were approximately \$3,400 and \$7,900 as of December 31, 2024 and 2023, respectively. As of December 31, 2024 and 2023, approximately \$3,700 and \$8,700, respectively, of the participants' TIAA Traditional Annuity account balances were pledged as collateral.

During 2024, there were no Plan assets distributed from the Plan, included as distributions, representing the payout of collateral for defaulted loans of this type, which consist of employee, employer and rollover components of participants' accounts for participants who are still employed by the Association. These Plan loans are no longer offered by TIAA, and the existing collateralized loans will remain in effect until they are paid off.

ASSOCIATION OF THE BAR OF THE CITY OF NEW YORK 401(k) PLAN

Notes to Financial Statements December 31, 2024 and 2023

NOTE A - DESCRIPTION OF THE PLAN (CONTINUED)

[8] Plan termination:

Although it has not expressed any intention to do so, the Association has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their employer contributions.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

[1] Basis of presentation:

The financial statements have been prepared using the accrual basis of accounting.

[2] Investments:

Investments held by a defined contribution plan are required to be reported at their fair value, except for fully benefit-responsive investment contracts. Contract value is the relevant measure for the portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts, because contract value is the amount participants normally would receive if they were to initiate permitted transactions under the terms of the Plan.

The Plan reports a fair value measurement of its investments (except for fully benefit-responsive investment contracts, which are reported at contract value), in accordance with the provisions of the Financial Accounting Standards Board's ("FASB") Accounting Standards Codification ("ASC") Topic 820, *Fair Value Measurements*. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Participants may direct their contributions, as well as the Association's contributions, into any of four investment alternatives: (i) fixed annuity contracts; (ii) variable annuity contracts; (iii) a pooled separate account; and (iv) mutual funds. (See Notes D and E for further discussion concerning each of these investment alternatives.)

Purchases and sales of investment securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividend income is recorded on the ex-dividend date. Net appreciation in the value of investments includes the Plan's gains and losses on investments bought and sold, as well as those held during the year.

[3] Payment of benefits:

Benefits are recorded when paid to participants.

[4] Plan expenses:

Certain expenses of maintaining the Plan are paid by the Plan, unless otherwise paid by the Association. Expenses paid by the Association are not included in these financial statements.

ASSOCIATION OF THE BAR OF THE CITY OF NEW YORK 401(k) PLAN

Notes to Financial Statements December 31, 2024 and 2023

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

[5] Use of estimates:

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan administrator to make estimates and assumptions that affect: (i) the reported amounts of net assets available for benefits at the date of the financial statements; (ii) the changes in net assets available for benefits during the reporting period; and (iii) when applicable, the disclosure of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

[6] Income taxes:

The Plan has adopted a prototype of a standardized plan sponsored by TIAA and CREF. On June 30, 2014, the Internal Revenue Service stated in an opinion letter that the prototype adopted by the Plan, as then designed, was in compliance with applicable requirements of the Code and, therefore, the related trust for the Plan was exempt from taxation. The Plan has been amended since receiving the letter; however, the Plan administrator believes that the Plan is currently designed and operated in compliance with the applicable requirements of the Code. Therefore, the Plan administrator believes that the Plan is qualified, and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and to recognize a tax liability (or asset) if the Plan has taken an uncertain position that, more likely than not, would not be sustained upon examination by a government authority. The Plan administrator has analyzed the tax positions taken by the Plan and has concluded that, as of December 31, 2024, there are no uncertain positions taken, or expected to be taken, that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine examinations by taxing jurisdictions; however, there are currently no examinations for any tax periods in progress.

[7] Subsequent events:

The Plan has evaluated subsequent events through October 2, 2025, the date on which the financial statements were available to be issued.

NOTE C - INVESTMENT CERTIFICATION

The Plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the U.S. Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, TIAA and CREF with respect to the Plan's annuity contracts issued by TIAA and/or CREF as of December 31, 2024 and 2023, and for the year ended December 31, 2024, and TIAA on behalf of TIAA, FSB with respect to the Plan's other investments held as directed trustee or custodian that were recordkept by TIAA as of December 31, 2023, and for the period January 1, 2023 to July 14, 2023, and TIAA on behalf of TIAA Trust, N.A. with respect to the Plan's other investments held as directed trustee or custodian that were recordkept by TIAA as of December 31, 2024, and for the period July 15, 2023 to December 31, 2024, have certified to the completeness and accuracy of all investments and related investment activity and notes receivable from participants and related activity in the accompanying statements of net assets available for benefits as of December 31, 2024 and 2023, the statement of changes in net assets available for benefits for the year ended December 31, 2024, and the accompanying supplemental schedule of assets (held at end of year) as of December 31, 2024.

ASSOCIATION OF THE BAR OF THE CITY OF NEW YORK 401(k) PLAN

Notes to Financial Statements December 31, 2024 and 2023

NOTE D - INVESTMENTS AND FAIR VALUE MEASUREMENTS

The FASB's ASC Topic 820 provides the framework for measuring fair value. The framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements), and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs to the valuation methodology include: (1) quoted prices for similar assets or liabilities in active markets; (2) quoted prices for identical or similar assets or liabilities in inactive markets; (3) inputs other than quoted prices that are observable for the asset or liability; or (4) inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There were no changes in these methodologies during Plan years 2024 or 2023.

TIAA Real Estate Account - This is a pooled separate account/insurance company account and is a variable annuity product valued at the net asset value ("NAV") per accumulation unit, as a practical expedient to measuring fair value, based on the market value of the underlying real estate holdings or other real estate-related investments. Real estate holdings are valued principally utilizing external appraisals, which are estimates of property values based on the assessment of specialists and reported by TIAA. The TIAA Real Estate Account sometimes holds securities, as well, and these are generally valued from independent pricing sources. Transactions out are limited to one per calendar quarter. The TIAA General Account provides the Real Estate Account with a liquidity guarantee.

CREF Variable Annuity Accounts - These are variable annuity accounts that invest principally in equity securities, fixed-income instruments and short-term investments in accordance with each portfolio's investment objectives. Each CREF Account is a separate portfolio with its own investment objective and strategies. Investments in a CREF Variable Annuity Account enable a unit-holder to acquire units whose accumulation unit value, or NAV used as a practical expedient to measure fair value, is calculated each business day. The value of a unit-holder's investment rises and falls with the returns on the underlying assets. Account investments are primarily valued using market quotations or prices obtained from independent pricing sources that may employ various pricing methods to value the investments including matrix pricing.

CREF Money Market Account - The CREF Money Market Account's portfolio securities are valued using their amortized cost. This valuation method does not factor in unrealized gains or losses on the account's portfolio securities. Amortized cost valuation involves first valuing a security at its cost, and thereafter assuming a constant amortization to maturity of any discount or premium, regardless of the impact of fluctuating interest rates on the security's market value.

Accumulation units in CREF Accounts are transacted at the accumulated unit value. Participants will be locked out of a CREF Account for 90 days if a purchase-sale-repurchase within that account is made within a 60-day period, other than for the CREF Money Market Account.

ASSOCIATION OF THE BAR OF THE CITY OF NEW YORK 401(k) PLAN

Notes to Financial Statements December 31, 2024 and 2023

NOTE D - INVESTMENTS AND FAIR VALUE MEASUREMENTS (CONTINUED)

TIAA Access Annuity - This is a separate account of TIAA and is a variable annuity registered with the Securities and Exchange Commission (“SEC”) as an investment company under the Investment Company Act of 1940. It operates as a unit investment trust and invests in shares of underlying mutual funds. Contributions to the TIAA Access Annuity buy accumulation units, the values of which are calculated daily. The accumulated units are valued at NAV as a practical expedient to measure fair value. The value of a participant’s investment rises and falls with the return on the underlying assets.

Mutual funds - These are valued at their daily closing price as reported by the fund. Mutual funds held by the Plan are open-ended mutual funds that are registered with the SEC. These funds are required to publish their daily NAV and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded. Certain funds charge a 2% redemption fee on redemptions of shares occurring within 60 days of the initial purchase date.

Nuveen mutual funds - The funds invest principally in equity securities, fixed-income instruments, other mutual funds and short-term instruments in accordance with each fund’s investment objectives. Fund holdings are generally valued using market quotations or prices obtained from independent pricing services. Shares of Nuveen mutual funds are valued at NAV. Certain funds charge a 2% redemption fee on redemption of shares occurring within 60 days of the initial purchase date. The funds impose a restriction whereby a participant is locked out of a fund for 90 days if the participant has a purchase, sale or repurchase within a fund that is made within a 60-day period, for the majority of these funds.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Although the Plan believes its valuation methods are appropriate and consistent with those of other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth the Plan’s investments at each Plan year-end:

(A) Certain investments that are measured at fair value using the NAV per share (or its equivalent unit) as a practical expedient have not been classified in the fair value hierarchy. The fair value amounts presented in these tables are intended to permit reconciliation of amounts in the fair value hierarchy to the amounts presented in the statements of net assets available for benefits.

(B) The strategy of these investments is generally embedded in the name of the particular account as shown on the supplemental schedule of assets (held at end of year):

The CREF Stock Account seeks a favorable long-term rate of return through capital appreciation and investment income by investing primarily in a broadly diversified portfolio of common stocks. Under normal circumstances, the account invests at least 80% of its assets in equity securities of foreign and domestic companies.

The CREF Social Choice Account seeks a favorable long-term rate of return that reflects the investment performance of the financial markets while giving special consideration to certain social criteria. The account is balanced, with assets divided between domestic and foreign stocks and other equities (about 60%) and bonds and other fixed-income securities, including money-market instruments (about 40%). The account invests only in companies that are suitable from a financial perspective and whose activities are consistent with certain environmental, social and governance criteria.

The CREF Core Bond Account seeks a favorable long-term rate of return, primarily through high, current income consistent with preserving capital. Under normal circumstances, the account invests at least 80% of its assets in a broad range of fixed-income securities. The majority of the account's assets are invested in U.S. Treasury and other governmental agencies, corporate bonds, and mortgage-backed or other asset-backed securities.

The CREF Global Equities Account seeks a favorable long-term rate of return through capital appreciation and income from a broadly diversified portfolio that consists primarily of foreign and domestic common stocks. Under normal circumstances, the account invests at least 80% of its assets in equity securities of foreign and domestic companies.

The CREF Growth Account seeks a favorable long-term rate of return, mainly through capital appreciation, primarily from a diversified portfolio of common stocks that present the opportunity for exceptional growth. Under normal circumstances, the account invests at least 80% of its assets in common stocks and other equity securities. The account invests primarily in large, well-known, established companies, particularly those with new or innovative products, services or processes that may enhance future earnings prospects.

Notes to Financial Statements December 31, 2024 and 2023

NOTE D - INVESTMENTS AND FAIR VALUE MEASUREMENTS (CONTINUED)

The CREF Equity Index Account seeks a favorable long-term rate of return from a diversified portfolio selected to track the overall market for common stocks publicly traded in the United States, as represented by a broad stock market index. The account buys most, but not necessarily all, of the securities in its benchmark, the Russell 3000® Index, and will attempt to create a portfolio that closely matches the overall investment characteristics of this index.

The CREF Inflation-Linked Bond Account seeks a long-term rate of return that outpaces inflation, primarily through investments in inflation-indexed bonds, fixed-income securities whose returns are designed to track a specified inflation index over the life of the bond. Under normal circumstances, the account invests at least 80% of its assets in U.S. Treasury inflation-indexed securities.

- (C) The TIAA Real Estate Fund seeks to obtain favorable long-term total return through capital appreciation and current income by investing primarily in equity securities of companies engaged in the real estate industry.

Changes in Fair Value Levels

The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions or model-based valuation techniques may require the transfer of financial instruments from one fair value level to another.

NOTE E - INVESTMENTS AT CONTRACT VALUE

The TIAA Traditional Annuity is a fixed-rate annuity contract that is fully and unconditionally guaranteed by TIAA. The guarantees and returns of the TIAA Traditional Annuity are backed by TIAA's claims-paying ability. Liquidity restrictions apply to the TIAA Traditional Annuity under certain types of annuity contracts. The TIAA Traditional Annuity provides a guarantee of principal, a guaranteed minimum rate of interest (generally 3%, or for Retirement Choice ("RC") and Retirement Choice Plus ("RCP"), between 1% and 3%), and the potential for additional interest if declared by TIAA. Additional interest, when declared, remains in effect for the "declaration year," which begins each March 1. Additional interest is not guaranteed for future years. Contributions to a participant's account purchase a guaranteed amount of lifetime annuity income.

When a participant's account in the TIAA Traditional Annuity is annuitized based on available options, the present value of the stream of payments is equal to the account balance. The subsequent stream of annuity payments occurs outside of the Plan and does not represent an obligation of the Plan. The TIAA Traditional Annuity is fully benefit-responsive and is reported at contract value. The contract value equals the accumulated cash contributions, interest credited to the contracts, and transfers, if any, less any withdrawals and transfers. The TIAA Traditional Annuity is not available for sale or transfer on any securities exchange.

The TIAA Traditional Annuity within the Group Supplemental Retirement Annuity ("GSRA") has no liquidity restrictions. The TIAA Traditional Annuity holdings within the Group Retirement Annuity ("GRA") and RC contracts have liquidity restrictions. With the GRA contract, lump-sum withdrawals are available only within 120 days after termination of employment and are subject to a 2.5% surrender charge. All other withdrawals and transfers from the GRA must be spread over a period of ten annual installments.

For the RC contracts, transfers and withdrawals from the TIAA Traditional Annuity are limited. Withdrawals must be taken in 84 monthly installments made in 120 days following termination of employment, except that a lump-sum distribution is available if permitted under the Plan in the 120-day period following termination of employment, with a 2.5% surrender charge. The contract value equals the accumulated cash contributions and interest credited to the contract, less any withdrawals. The transfer payout annuity allows participants to transfer or withdraw their TIAA Traditional Annuity in ten annual installments.

ASSOCIATION OF THE BAR OF THE CITY OF NEW YORK 401(k) PLAN

Notes to Financial Statements December 31, 2024 and 2023

NOTE E - INVESTMENTS AT CONTRACT VALUE (CONTINUED)

The Plan's ability to receive amounts due in accordance with fully benefit-responsive investment contracts is dependent on the third-party issuer's ability to meet its financial obligations. The issuer's ability to meet its contractual obligations may be affected by future economic and regulatory developments.

Certain events might limit the ability of the Plan to transact at contract value with the contract issuer. These events may be different under each contract. Examples of such events include the following:

1. The Plan's failure to qualify under Section 401(a) of the Code or the failure of the trust to be tax-exempt under Section 501(a) of the Code;
2. Premature termination of the contracts;
3. Plan termination or merger;
4. Changes to the Plan's prohibition on competing investment options; or
5. Bankruptcy of the Plan sponsor or other Plan sponsor events (for example, divestitures or spinoffs of a subsidiary) that significantly affect the Plan's normal operations.

In addition, certain events allow the issuer to terminate the contracts with the Plan and settle at an amount different from contract value. Those events may be different under each contract. Examples of such events include the following:

1. An uncured violation of the Plan's investment guidelines;
2. A breach of material obligation under the contract;
3. A material misrepresentation; or
4. A material amendment to the agreements without the consent of the issuer.

No events are probable of occurrence that might limit the ability of the Plan to transact at contract value with the contract issuers and that also would limit the ability of the Plan to transact at contract value with the participants.

TIAA Stable Value - This fixed-rate annuity contract provides a guaranteed minimum rate of interest between 1% and 3% (before deductions for contract fees), with the potential for crediting of additional interest above the guaranteed minimum if approved by TIAA's Board of Trustees. Contributions are deposited into a non-unitized separate account. The TIAA Stable Value is immediately liquid to a participant for withdrawals and transfers and does not have withdrawal restrictions (except that immediate transfers cannot be made to competing investment options pursuant to the contract's equity wash provisions, as defined). Transfers may be made to a competing fund following a 90-day waiting period after being transferred to a non-competing fund. In addition, transfers into the TIAA Stable Value may not be made for 30 days following a transfer out. A plan's investment in the TIAA Stable Value is reported at contract value in all plan and participant reporting. Contract value equals the accumulated cash contributions, interest credited, and transfers, if any, less any withdrawals and transfers. Plan sponsors choosing to terminate the plan's investment in the TIAA Stable Value contract will receive contract value in, at most, two years. If the two-year payout applies, a discontinuance fee will be assessed, which has the effect of reducing the interest credited during the two-year period by, at most, 75 basis points.

ASSOCIATION OF THE BAR OF THE CITY OF NEW YORK 401(k) PLAN

Notes to Financial Statements December 31, 2024 and 2023

NOTE F - RISKS AND UNCERTAINTIES

The Plan's investments are included in various investment alternatives made available by TIAA, CREF and TIAA Trust, N.A. Investment securities are exposed to various risks, such as interest rate, market and credit risks, as well as risks related to the financial strength of the insurance company. Due to the level of risk associated with any investment, it is at least reasonably possible that changes in the values of the Plan's investments will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the accompanying statements of net assets available for benefits.

Volatility in the financial markets may significantly impact the subsequent valuation of the Plan's investments. Accordingly, the valuations of investments at December 31, 2024 may not necessarily be indicative of amounts that could be realized in a subsequent market exchange.

NOTE G - RELATED-PARTY TRANSACTIONS AND PARTY-IN-INTEREST TRANSACTIONS

A substantial portion of the investments are fixed and variable annuities, a pooled separate account, and mutual funds sponsored by TIAA, CREF and TIAA Trust, N.A. TIAA is the Plan's recordkeeper, TIAA and CREF are the Plan's insurance companies and TIAA Trust, N.A. is the custodian of certain Plan investments; therefore, transactions related to these investments qualify as party-in-interest transactions. For the year ended December 31, 2024, the Plan paid \$25,726 for administrative fees. The Plan also pays for retirement plan advisory services. As service providers to the Plan, these transactions qualify as party-in-interest transactions. For 2024, the Plan paid \$35,209 for these services.

The custodian provides certain administrative services to the Plan and receives revenue from mutual fund providers for services the custodian provides to the funds. This revenue is used to offset certain amounts owed to the custodian for its administrative services to the Plan. If the revenue received by the custodian from such mutual fund service providers exceeds the amounts owed, the custodian remits the excess to the Plan pursuant to the service agreement. Such amounts may be applied to pay Plan administrative expenses or allocated to the accounts of the participants, depending on the Plan's provisions. During 2024, \$13,570 was received as other income and \$575 as investment income, and both are included in the statement of changes in net assets available for benefits. The account balance as of December 31, 2024 and 2023 was \$26,637 and \$12,492, respectively.

NOTE H - MUTUAL FUND FEES

Investments in mutual funds are subject to sales charges in the form of front-end loads, back-end loads, or 12b-1 fees, which are ongoing fees allowable under Section 12b-1 of the Investment Company Act of 1940, and annual fees are deducted to pay for the marketing and distribution costs of the funds. These fees are deducted prior to the allocation of the Plan's investment earnings activity and are therefore not separately identifiable as expenses.
