INDEPENDENT AUDITOR'S REPORT

To the Participants, Audit Committee and Plan Administration Committee
Bank OZK 401(k) Retirement Savings Plan

Opinion

We have audited the financial statements of Bank OZK 401(k) Retirement Savings Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statements of net assets available for benefits as of December 31, 2024 and 2023, the related statement of changes in net assets available for benefits for the year ended December 31, 2024, and the related notes to the financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2024 and 2023, and the changes in its net assets available for benefits for the year ended December 31, 2024, in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date that the financial statements are issued or available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplemental Information Required by ERISA

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental information, schedule of assets (held at end of year) as of December 31, 2024, is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS.

In forming our opinion on the supplemental information, we evaluated whether the supplemental information, including its form and content, is presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying supplementary schedule is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content are presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

Bank OZK 401(k) Retirement Savings Plan
Notes to Financial Statements
December 31, 2024 and 2023

1. Description of the Plan

The following brief description of the Bank OZK 401(k) Retirement Savings Plan (the “Plan”) provides only general information. Participants should refer to the Plan document, as amended, for a more complete description of the Plan’s provisions.

General

Bank OZK (the “Company” or “Employer”) sponsors the Plan. The Plan is a Safe-Harbor Cash or Deferred Arrangement (“Safe-Harbor CODA”) and incorporates an Employee Stock Ownership Plan (“ESOP”) under Internal Revenue Code (the “Code”) Section 4975(e)(7), covering all employees, excluding leased employees and independent contractors. The Employer includes any entity into which it may be merged or consolidated, or any entity that may hereafter accept and adopt the terms of this Plan with approval of the Board of Directors of the Company. The Employer also includes any entity which is a member of a controlled group of entities and all trades or business which are under common control provided, however, that service with an employer which has not expressly adopted this Plan shall not give employees of such employers the right to share in any contributions made by employers which have expressly adopted this Plan. The Plan is subject to the provisions of Employee Retirement Income Security Act of 1974, as amended (“ERISA”).

Administration of the Plan

The Company is the Plan trustee and has established a Plan Administration Committee (“Committee”) to serve as fiduciary responsible for its general operation and administration. The Committee’s Charter grants it the authority to make further delegations of such powers and responsibilities as it deems appropriate.

Newport Trust (“Newport”) serves as independent fiduciary and investment manager of the Bank OZK common stock fund (“Employer stock fund”). Newport has the authority and sole responsibility for deciding whether to restrict investment in, to sell or otherwise dispose of all or any portion of the Employer stock fund. In the event Newport determines to sell or dispose of the Employer stock fund, Newport would designate an alternative fund within the Plan for the temporary investment of any proceeds. Bank of New York Mellon (“BNYM”) is the custodian for the Employer stock fund.

Empower Retirement, LLC (“Empower”) is the Plan’s recordkeeper, Empower Trust Company, LLC (“Empower Trust”) is the custodian for the mutual fund investment options available in the Plan. Empower Financial Services, Inc. (“EFS”), an affiliate of Empower, is the custodian of Plan assets held through the Empower self-directed brokerage window.

The Plan also includes a self-directed brokerage window investment option offered through Muriel Siebert & Co., Inc. (“Siebert”), a broker-dealer registered with the SEC and FINRA. The Siebert self-directed brokerage window is available to certain active employees meeting specific criteria as established by the Committee. Siebert is the recordkeeper and custodian for Plan assets held through the Siebert self-directed brokerage window.

Eligibility

All employees are eligible to participate in the Plan on the first day of the calendar month following 30 days from their date of hire, except for rehired employees which are eligible to participate immediately after their reemployment date. New employees are automatically enrolled with a contribution arrangement in an amount equal to 5% of eligible compensation, as defined in the Plan document, once the eligibility period is met. Payroll deductions and Employer matching contributions begin on the first pay date after enrollment with all contributions placed into one of the Empower Lifetime target date mutual funds based on the participant's age. Employees who are automatically enrolled, and all other participants, may elect to revoke their participation or modify their contribution rate at any time.

Contributions

Participant Contributions

Participants, through regular payroll deductions, may elect to defer a percentage of their eligible pretax compensation, make Roth contributions, or a combination of both, up to 100% of their annual compensation, subject to annual contribution limits set forth by the Code. Additionally, participants who have attained age 50 during a particular Plan year and have contributed the maximum amount allowed under the Plan for that year, are eligible to make catch-up contributions, in accordance with, and subject to limitations of, Section 414(v) of the Code. Participants may elect to stop making contributions to the Plan or change salary deferral percentages and investment allocations at any time.

Employer Contributions

The Employer makes contributions to the Plan in an amount equal to such percentage of the elective contributions made by the participants. The Employer's matching contributions under the Safe-Harbor CODA provisions is 100% of the amount of the participant's contributions that do not exceed 3% of the participant's compensation for the year, plus 50% of the amount of the participant's elective contributions that exceed 3% but do not exceed 5% of the participant's compensation for the year. Generally, Employer contributions are invested based on the investment elections made by the participants. However, Employer matching contributions may be made in Employer common stock at the discretion of the Employer. As of December 31, 2024 and 2023, there were no Safe-Harbor CODA matching contributions made in Employer common stock at the discretion of the Employer.

Employer Discretionary Profit-Sharing Contributions

The Employer may also make a discretionary profit-sharing contribution to those participants who have worked at least 501 hours during the Plan year and are employed on the last day of the Plan year, unless termination is due to death, disability, or retirement. A participant does not have to make elective contributions to receive a discretionary profit-sharing contribution. The amount of the Employer discretionary profit-sharing contribution, if any, is set by the Employer each year, and it is allocated based on the relationship of the participant's compensation to the total compensation for all eligible participants. There were no Employer discretionary profit-sharing contributions made for the 2024 Plan year.

Rollover Contributions

The Plan accepts qualifying rollover contributions made by participants in cash from qualified retirement plans of other employers; individual retirement arrangements; governmental 457 plans; and 403(b) plans. After-tax rollovers are not accepted by the Plan; however, the Plan accepts Roth rollovers. Rollover contributions are not eligible for Employer matching contributions.

Participant Accounts

Each participant's account is credited with the participant's elective contributions and the Employer's matching contributions and allocations of (i) the Employer's discretionary profit-sharing contributions, if any, and (ii) Plan earnings; and is charged an administrative expense for recordkeeping and certain other costs to administer the Plan. Allocations are based on participant compensation, account balances, or specific participant transactions, as detailed in the Plan document. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Participants are entitled to direct the trustee how to vote the shares of Employer common stock allocated to their accounts.

Vesting

Participants are immediately vested in their elective contributions plus actual earnings thereon, and all Employer matching contributions are fully vested under the provisions of the Safe-Harbor CODA. Participants who entered the Plan through acquisition carried over their years of service from the prior employer for vesting purposes in the Plan. Vesting in Employer discretionary profit-sharing contributions, if any, is based upon years of service as follows:

<u>Years of Service</u>	<u>Vesting Percentage</u>
Less than two years	0%
Two, but less than three	20%
Three, but less than four	40%
Four, but less than five	60%
Five, but less than six	80%
Six years or more	100%

Participants will become 100% vested in the balance of their accounts subject to a vesting schedule upon attaining normal retirement date (age 65), upon becoming disabled, or death if still employed with the Employer at the time such event occurs. Participants who terminate for any other reason are entitled to the vested amount of their accounts.

Investment Options

Participants may direct their contributions, Employer contributions, and related earnings into any combination of the various investment options offered by the Plan. The investment options may change at any time. Participants may change their investment elections at any time.

In addition to investment options offered in the Plan, all participants may elect to open a self-

directed brokerage account through Empower, or for certain eligible employees, through Siebert, which gives participants expanded investment choices by enabling them to select from numerous investment and individual securities that are not otherwise available in the Plan.

Employee Stock Ownership Plan (“ESOP”)

Under the terms of the Plan, the Employer stock fund has been designated as a nonleveraged ESOP in accordance with the Code Section 4975(e)(7). As such, participants may elect to have any dividends attributable to their vested balance paid to them on a quarterly basis rather than reinvested, and the dividend payments are not subject to an early distribution tax penalty. If a participant makes no election, the dividend payment will automatically be reinvested in the participant’s account in the Employer stock fund.

Payment of Vested Benefits and Withdrawals

Upon termination of service, death, disability, or reaching normal retirement age, a participant may elect to receive a lump-sum distribution equal to the vested value of his or her account, except for the portion attributable to ESOP contributions. An installment payment option is also permitted upon approval for participants who have separated from service and are age 59 1/2 or older at the time of their payment request. Active participants 59 1/2 years or older may, once per year, elect to make an in-service withdrawal from their vested balances. Active participants may also elect to make withdrawals from their Rollover accounts at any time, but not more frequently than once per year. If a participant makes no election, annual distributions of the required minimum amount will generally begin after age 73 in accordance with applicable Plan provisions.

The Plan permits withdrawals of active participants’ vested balances in amounts necessary to satisfy financial hardship as permitted under the Code.

Notes Receivable from Participants

Participants may borrow up to a maximum loan amount equal to the lesser of (a) \$50,000 reduced by the excess (if any) of the highest outstanding balance of loans during the preceding one year period ending on the day before the loan is made, over the outstanding balance of loans from the Plan on the date the loan is made, or (b) 50% of the present value of the vested account balance. The minimum amount that a participant may borrow is \$1,000.

An administrative loan fee is deducted from the proceeds for each loan and an annual loan administrative fee, payable in quarterly installments, is assessed for each loan and deducted from the borrower’s account. Participants are allowed a maximum of two outstanding loans at one time.

Loan terms range from 12 to 60 months for general purpose loans and 61 to 180 months for loans used to secure a primary residence. Loans are amortized in level payments over the life of the loan with repayments generally made through after-tax payroll deductions. The loans are secured by the vested balance in the participant’s account and bear fixed interest at 1% over the Prime Rate published in *The Wall Street Journal* on the first day of the month the loan is originated. Participants who leave service prior to the end of the loan term are required to pay off the outstanding loan balance in full by the end of the grace period, defined as the last day of the following quarter from the quarter in which employment was terminated. Loans in default for

non-payment will result in a deemed distribution and are reported as ordinary income to the participant in the year the default occurs. As of December 31, 2024, interest rates on outstanding loans ranged from 4.25% to 9.50%, with loans maturing at various dates through August 2039.

Forfeited Accounts

Under the provisions of the Safe-Harbor CODA, forfeitures of Employer matching contributions that occurred prior to the Plan's conversion to a Safe-Harbor CODA are available and may be used to satisfy certain administrative costs of the Plan or to reduce future Employer contributions. For the year ended December 31, 2024, forfeitures in the amount of \$35,605 and \$16,617 were used to pay Plan administrative expenses and to reduce Employer contributions, respectively. As of December 31, 2024 and 2023, forfeited unallocated accounts totaled \$14,893 and \$69,049, respectively, and were available to satisfy certain administrative costs of the Plan and Employer matching contributions.

Plan Termination

Although it has not expressed any intent to do so, the Employer has the right to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, any unvested amounts in participants' accounts shall become fully vested.

2. Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements are prepared in conformity with accounting principles generally accepted in the United States of America on the accrual basis of accounting, whereby additions and deductions to net assets available for benefits, other than benefit payments, are recognized when earned or incurred, respectively. Benefit payments are recorded when paid.

Use of Estimates

The preparation of the financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities reported in the financial statements and accompanying footnotes. Actual results could differ materially from those estimates and assumptions.

Investment Valuation and Income Recognition

Investments are reported at fair value (see *Note 6*). Net depreciation in fair value of investments, as reflected in the accompanying statement of changes in net assets available for benefits, is determined as the difference between fair value at the beginning of the year (or date purchased if during the year) and selling price (if sold during the year) or year-end fair value. Investment purchases and sales are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividend income is recorded on the ex-dividend date.

Notes Receivable from Participants

Notes receivable from participants are valued at their unpaid principal balance, plus accrued but unpaid interest. The interest income earned on these loans is included in the “Interest income on notes receivable from participants” financial statement caption on the statement of changes in net assets available for benefits. Delinquent notes receivable from participants are written off and recorded as a distribution when deemed uncollectible. No allowance for delinquent notes receivable has been recorded as of December 31, 2024 and 2023.

Contributions

Employee contributions and Employer matching contributions are recorded in the period when the related employee deferrals are withheld from payroll. Employer discretionary profit-sharing contributions are recorded in the period authorized by the Company’s Board of Directors for the respective plan year.

Administrative Expenses

Administrative recordkeeping expenses and certain other costs incurred in connection with the operation and administration of the Plan are typically borne by the participants’ accounts in the Plan. All other fees, if any, are paid by the Employer and excluded from these financial statements.

Investment expenses and account maintenance fees related to self-directed brokerage accounts are charged directly to the respective participants’ accounts and are included in the “Net depreciation in fair value of investments” financial statement caption on the statement of changes in net assets available for benefits. Certain other fees incurred by the Plan are also included in the “Net depreciation in fair value of investments” financial statement caption on the statement of changes in net assets available for benefits, as they are paid through revenue sharing, rather than a direct payment. The Plan also made direct payments to service providers which were not covered by revenue sharing. Such payments are included in the “Administrative and other expenses” financial statement caption on the statement of changes in net assets available for benefits.

Subsequent Events

The Plan sponsor has evaluated subsequent events through the date the financial statements were available to be issued.

3. Income Tax Status

The Company received a determination letter from the Internal Revenue Service (“IRS”) dated June 27, 2014, stating that the Plan is qualified under the applicable sections of the Code and, therefore, the related trust is exempt from taxation. The Plan has since been amended; however, the Committee believes the Plan is currently designed and is being operated in accordance with the Code.

Accounting principles generally accepted in the United States of America require the evaluation of tax positions taken by the Plan and recognize a tax liability or asset if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS.

The Committee analyzed the tax positions taken by the Plan and concluded that as of December 31, 2024 and 2023, there are no uncertain tax positions taken or expected to be taken requiring the recognition of a liability or asset or disclosure in the Plan's financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan is no longer subject to income tax examinations for years prior to 2021.

4. Party-In-Interest and Related Party Transactions

As disclosed in Note 1, Empower, Empower Trust, EFS, Newport, BNYM and Seibert provide a combination of recordkeeping, custodial and investment management services to the Plan. All fees paid to, and transactions with, these companies are considered party-in-interest transactions.

The Plan investments include a Guaranteed Interest Fund issued by Empower Annuity Insurance Company of America ("EAICA") and a variable annuity in separate accounts invested in the American Century Mid-Cap Value Fund (Institutional Select) and the Capital Group EuroPacific Growth SA. The separate accounts are offered under a group annuity contract issued by Empower Annuity Insurance Company and is advised by Empower Advisory Group, LLC. The Plan also invests in various target retirement date mutual funds offered by Empower Funds, Inc., which are affiliates of Empower. Therefore, these transactions also qualify as party-in-interest transactions.

A substantial portion of the Plan's assets are invested in shares of the Employer's common stock (see Note 5). During 2024, cash dividends paid on such shares totaled \$4,725,839. Transactions involving shares of the Employer's common stock and notes receivable from participants also qualify as party-in-interest transactions.

All party-in-interest transactions disclosed in the Plan's financial statements are permitted under the provisions of the Plan and are specifically exempt from prohibited transaction rules under ERISA. Certain administrative functions are performed by officers or employees of the Employer, in which no such officer or employee receives compensation from the Plan.

5. Investments

The Plan provides for various investments that, in general, are exposed to certain risks including interest rate, market, credit and various other risks. Due to the level of risk associated with certain investments, it is at least reasonably possible that changes in the value of investments will occur in the near term and that such changes could materially affect participants' account balances, and the amounts reported in the statements of net assets available for benefits.

The Employer stock fund invests solely in Employer common stock and its trading value is used to determine the entire fair value thereof. Additionally, the self-directed brokerage accounts also held investments in Bank OZK common stock and as of December 31, 2024 and 2023, comprised the Plan's total investments as summarized below:

	2024	2023
Employer common stock held in:		
Employer stock fund	\$ 29,071,025	\$ 57,380,641
Self-directed brokerage accounts	89,887,960	97,320,689
Total Employer common stock	<u>\$118,958,985</u>	<u>\$154,701,330</u>

6. Fair Value Measurements

Accounting Standards Codification (“ASC”) Topic 820, “*Fair Value Measurements and Disclosures*,” defines fair value as the price that would be received by the Plan for an asset or paid by the Plan to transfer a liability (an exit price) in an orderly transaction between market participants on the measurement date in the Plan’s principal or most advantageous market for the asset or liability. ASC 820 establishes a fair value hierarchy which requires the Plan to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. The hierarchy places the highest priority on unadjusted quoted market prices in active markets for identical assets or liabilities (Level 1 measurements) and gives the lowest priority to unobservable inputs (Level 3 measurements). The three levels of inputs within the fair value hierarchy are described as follows:

Level 1 - Quoted prices (unadjusted) for identical assets or liabilities in active markets that the Plan has the ability to access as of the measurement date.

Level 2 - Significant other observable inputs other than Level 1 prices such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data.

Level 3 - Significant unobservable inputs that reflect the Plan’s own estimates about the assumptions that market participants would use in pricing an asset or liability.

In some cases, a valuation technique used to measure fair value may include inputs from multiple levels of the fair value hierarchy. The lowest level of significant input determines the placement of the entire fair value measurement in the hierarchy. The availability of market data is considered in determining the appropriate classification of investments within the fair value hierarchy and changes in economic conditions or valuation techniques may require the transfer of investments from one fair value level to another. There have been no changes in the methodologies used as of December 31, 2024 and 2023. During the year ended December 31, 2024, there were no transfers of investments into or out of Level 3.

Valuation Techniques

The following is a description of the valuation methods and assumptions used by the Plan to estimate the fair values of investments on a recurring basis.

Mutual funds – The fair values of mutual fund investments, including those held in self-directed brokerage accounts, are determined by obtaining quoted prices on nationally recognized securities exchanges, which is deemed a Level 1 input.

Employer stock fund – A single security investment comprised solely of Employer common

stock. Fair value is determined using the closing price reported on the active market on which the individual securities are traded, which is deemed a Level 1 input.

Guaranteed interest fund – The Plan’s interest in the EAICA Guaranteed Interest Fund is based upon the fair value of the underlying assets of the general account investment portfolio. The fund is not considered fully benefit-responsive and is therefore reported at fair value. The investment objective of the fund is to achieve consistent returns to support a competitive credited interest rate that is updated quarterly. The fund is a general account product offered through a group annuity contract, in which the participant’s principal and interest are fully guaranteed by the entire general account assets of EAICA. The fund earns interest dependent upon the earnings of the underlying general account investment portfolio, and the credited interest rate is updated quarterly. The fund is also charged for participant withdrawals and administrative expenses. The fund credits interest daily on a portfolio basis, net of cost of capital and expenses covered by the fund and guarantee provisions. Participant transfers may be restricted for up to 30 days in the event of excessive participant trading as determined by EAICA’s excessive trading policy.

Self-directed brokerage accounts – Accounts primarily consist of common stocks, exchange-traded funds and mutual funds. Common stocks and exchange-traded funds are valued based on readily determinable market prices.

Pooled separate accounts – Fair value is reported using the net asset value (“NAV”) provided by the issuer as a practical expedient for the estimated fair value. The NAV is based upon the fair market value of the underlying investments held at the end of year. The NAV is based on the value of the underlying assets owned by the fund, excluding transaction costs, minus its liabilities, and then divided by the number of units outstanding as of the measurement date. NAV would not be used if it is determined to be probable that the fund will sell the investment for an amount different from the reported NAV. Units of the separate accounts may be purchased and sold daily and are not subject to any significant restrictions regarding participant redemptions. The Plan is required to provide the issuer of the separate accounts with 30 days’ notice prior to exiting the investment. These investments are offered under a group annuity contract (see *Note 4*), and there were no unfunded commitments as of December 31, 2024.

Fair value is the estimated amount at which financial assets or liabilities could be exchanged in a current transaction between willing parties other than in a forced or liquidation sale. The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Investments as of December 31, 2024 and 2023, measured at fair value on a recurring basis are summarized below:

	Level 1	Level 2	Total
December 31, 2024:			
Mutual funds	\$ 151,262,338	\$ -	\$ 151,262,338
Guaranteed interest fund	-	9,117,214	9,117,214
Self-directed brokerage accounts	92,805,054	-	92,805,054
Employer stock fund	29,071,025	-	29,071,025
Total investments in fair value hierarchy	<u>\$ 273,138,417</u>	<u>\$ 9,117,214</u>	282,255,631
Pooled separate accounts measured at NAV ⁽¹⁾			7,174,490
Total investments at fair value			<u>\$ 289,430,121</u>

December 31, 2023:			
Mutual funds	\$ 129,095,811	\$ -	\$ 129,095,811
Guaranteed interest fund	-	12,717,826	12,717,826
Self-directed brokerage accounts	99,560,706	-	99,560,706
Employer stock fund	57,380,641	-	57,380,641
Total investments in fair value hierarchy	<u>\$ 286,037,158</u>	<u>\$ 12,717,826</u>	<u>\$ 298,754,984</u>

- (1) In accordance with ASC Subtopic 820-10, certain investments that were measured at NAV per unit as a practical expedient have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the "Investments, at fair value" financial statement caption presented on the statements of net assets available for benefits.
