## Independent Auditor's Report

To the Plan Administrator  
Endeavor Air Savings Plan  
Atlanta, Georgia

### *Scope and Nature of the ERISA Section 103(a)(3)(C) Audit*

We have performed audits of the financial statements of Endeavor Air Savings Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C). The financial statements comprise the statements of net assets available for benefits as of December 31, 2024 and 2023, and the related statement of changes in net assets available for benefits for the year ended December 31, 2024, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA (ERISA Section 103(a)(3)(C) audit). As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency (qualified institution), provided that the investment information is prepared and certified to by the qualified institution in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

Management has obtained certifications from a qualified institution as of December 31, 2024 and 2023, and for the year ended December 31, 2024, stating that the certified investment information, as described in Note 9 to the financial statements, is complete and accurate.

### **Opinion**

In our opinion, based on our audits and the procedures performed as described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report

- the amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America (GAAP); and
- the certified investment information in the accompanying financial statements agrees to, or is derived from, in all material respects, the information prepared and certified by a qualified institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

### ***Basis for Opinion***

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

### ***Responsibilities of Management for the Financial Statements***

Management is responsible for the preparation and fair presentation of the financial statements in accordance with GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date that the financial statements are available to be issued.

Management is responsible for maintaining a current plan instrument, including all plan amendments. Management is also responsible for administering the Plan and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

### ***Auditor's Responsibilities for the Audit of the Financial Statements***

Except as described in the *Scope and Nature of the ERISA Section 103(a)(3)(C) Audit* section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certifications, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of GAAP.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with GAAP.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

***Other Matter – Supplemental Schedules Required by ERISA***

The supplemental Schedule H, Line 4i - Schedule of Assets (Held at End of Year) as of December 31, 2024 and Schedule H, Line 4a - Schedule of Delinquent Participant Contributions for the year ended December 31, 2024, are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedules, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedules that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, other than the information agreed to or derived from the certified investment information, including their form and content, are presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion

- the form and content of the supplemental schedules, other than the information in the supplemental schedules that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.
- the certified investment information in the supplemental schedules agrees to, or are derived from, in all material respects, the information prepared and certified by a qualified institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

## NOTES TO FINANCIAL STATEMENTS

---

### 1. DESCRIPTION AND ADMINISTRATION OF PLAN

The following description of the Endeavor Air Savings Plan (the "Plan") provides general information. Participants should refer to the Plan document for a complete description of the Plan's provisions.

**General** - The Plan is a defined contribution plan sponsored by Endeavor Air, Inc. (the "Company", "Plan Sponsor" or "Plan Administrator"). Endeavor Air, Inc. is a wholly-owned subsidiary of Delta Air Lines, Inc. Substantially all employees of the Company and adopting affiliates, except pilot employees, are eligible to participate in the Plan immediately upon hire, as defined in the Plan document. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"), as amended, and is intended to constitute a plan described under Section 404(c) of ERISA.

The following table presents the transfers of net assets to and from the Endeavor Air Savings Plan for the year ended December 31, 2024 (in thousands):

	<b>Transfers In</b>	<b>Transfers Out</b>
Delta 401(k) Retirement Plan for Seasonal Employees	\$ 1	\$ —
Delta 401(K) Retirement Plan	2	(1,471)
Endeavor Air Pilot Savings Plan	572	(5)
Delta 401(K) Retirement Plan for Pilots	—	(68)
Total Transfers	<u>\$ 575</u>	<u>\$ (1,544)</u>

This table represents the transfers of certain participants' balances to and from the Plan, due to changes in the status of those certain participants' employment.

**Administration** - The operation and administration of the Plan, except for investment management and control of assets, are vested in the Company. The Benefit Funds Investment Committee ("BFIC") has authority with respect to all of the investment alternatives offered under the Plan. Fidelity Management Trust Company ("FMTC" or the "Trustee") serves as the trustee of the Plan and the Delta Air Lines, Inc. Defined Contribution Plans Master Trust (the "Master Trust").

**Contributions** - Participant contributions may be made, at the option of the participant, as pre-tax, Roth, or as a combination of the two. These contributions are subject to certain maximums and limitations under the Internal Revenue Code (the "Code"). Eligible participants may contribute up to 90% of their eligible compensation, as defined in the Plan document. Participants may also roll over amounts representing eligible distributions from other qualified defined benefit or defined contribution plans. In addition, participants age 50 or over during the year may elect to make catch-up contributions in accordance with the Code.

Participants who do not elect a contribution percentage or do not elect to opt out of the Plan, within 45 days of their hire date are automatically enrolled for pre-tax contributions at a rate of 3% of eligible compensation. If no change is made to a participant's 3% automatic-enrollment rate within the first year after enrollment, the participants' contribution rate will increase by 1% each year (unless a different rate is chosen) until it reaches a maximum of 6%. The contributions will be invested in the Plan's Qualified Default Investment Alternative until changed by the participant.

The Company makes discretionary matching contributions to the Plan. The Company's discretionary matching contributions are based upon years of service, as indicated in the following table:

<u>Years of Service</u>	<u>Company Match</u>
Less than 5 years	100% of first 3%
5 years to less than 10 years	100% of first 5%
10 years to less than 15 years	100% of first 8%
15 years to less than 20 years	100% of first 10%
20 years or more	100% of first 12.5%

The Company may also make discretionary profit sharing contributions to the Plan. There were no discretionary profit sharing contributions made for 2024.

**Investment Options** - The investment options available to participants consist of a self-directed brokerage account, separately managed funds, a common collective trust ("CCT") fund and a stable value fund. The brokerage window provides access to various investments available through the Fidelity Funds Network®. The self-directed brokerage account also permits investments in stocks, options, certain bonds, and foreign securities. These self-directed accounts provide for the participant to place trading orders with FMTC.

All investment options under the Plan are participant-directed. The contributions for participants who do not elect investment options are automatically invested in the Plan's default investment option. New contributions are required to be allocated in increments no smaller than 1%.

**Participant Accounts** - Individual accounts are maintained for each participant. Each participant's account is credited with allocations of contributions and investment earnings and charged with any withdrawals made, investment losses, and investment management and brokerage fees in the manner described in the Plan document. Each participant is entitled to the benefit held in the participant's vested account.

**Vesting** - Participants are immediately vested in their deferral contributions and discretionary profit sharing contributions plus earnings and losses thereon. Participants vest in the Company discretionary matching contributions plus earnings and losses thereon based upon years of service as follows: 25% after two years then an additional 25% each year, with 100% vesting occurring after five years of credited service. In the event of a participant's death, disability, or reaching early retirement age, the participant becomes 100% vested in all Plan account balances. Certain other prior contributions are vested per the vesting schedules outlined in the Plan Document.

**Distribution of Participant Accounts** - Upon termination of service for any reason, participants may choose to receive account distributions either in the form of an annuity, lump sum payment or installments over a period of time as defined in the Plan Document. If the participant's vested balance does not exceed \$1,000, the Plan may distribute funds in the form of a lump sum payment without the consent of the participant. With the exception of any after-tax, rollover contributions, and claim contributions, withdrawals by a participant while employed are limited to those requested due to events of financial hardship as defined by the Plan Document or upon attainment of age 59½. For certain Colgan Air, Inc. employees hired before July 1, 2010, a disability in-service withdrawal is available under this plan.

**Forfeitures** - If a participant terminates before his or her Company discretionary matching contribution accounts have become fully vested, such non-vested portion of the accounts is forfeited. Participant forfeitures are used to pay certain administrative costs or reduce future Company contributions. Forfeited non-vested accounts totaled approximately \$742 thousand and \$534 thousand, at December 31, 2024 and 2023, respectively. During the year ended December 31, 2024, approximately \$45 thousand was moved from the forfeited non-vested accounts to pay administrative costs and approximately \$110 thousand were used to reduce employer contributions.

**Notes Receivable From Participants** - Participants may borrow from their accounts a minimum of \$1,000 up to a maximum equal to the lesser of (1) \$50,000, reduced by the highest outstanding balance of notes for that participant during the previous one year period, or (2) 50% of their vested account balance. Participants are limited to two outstanding notes from the Plan at a time. The notes receivable for all notes other than those that are used for the purchase of a primary residence, which must be repaid within a thirty-year period, are repaid generally through regular payroll deductions, over a period not to exceed five years. The principal amounts of the notes are assets of the Plan and earn interest at a rate comparable to rates charged by other lending institutions. Interest rates on new 401(k) loans are prime plus 2%. As of December 31, 2024, interest rates on notes to participants ranged from 4.25% to 10.50%.

**Administrative Expenses** - Certain administrative functions of the Plan are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan. Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. The Company reserves the right to elect to pay, or have the Plan pay administrative costs in the future. Fees related to the administration of notes receivable, loan setup and recordkeeping are charged directly to the participants account and are included in administrative expenses. Investment related expenses are included in net appreciation/(depreciation) of fair value of investments included in the net investment gain/(loss) from the Master Trust.

## 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

**Basis of Accounting** - The accompanying financial statements have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP").

**Use of Estimates** - The preparation of financial statements in accordance with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosures of contingent assets and liabilities. Actual results could differ from those estimates.

**Investment Valuation and Income Recognition** - Investments of the Master Trust are stated at fair value, except for fully benefit-responsive investment contracts, which are recorded at contract value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The BFIC reviews and confirms the Master Trust's valuation policies as determined by the Trustee and investment advisers. Refer to Note 3 and Note 4 for further discussion.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation/(depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

**Notes Receivable from Participants** - Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. If a participant ceases to make note repayments and the plan administrator deems the participant note to be in default, the participant note balance is reduced and a benefit payment is recorded.

**Payment of Benefits** - Benefits are recorded when paid.

**Contributions** - Employee contributions and related Company discretionary matching and discretionary profit sharing contributions are recorded in the period payroll deductions are made. However, Company matching contributions and profit sharing contributions are based on annual eligible employee compensation and contributions. As such, an annual true-up matching contribution and profit sharing contribution (if any) is accrued as of the end of the year.

**Recent Legislative Developments** - In December 2019, Congress passed the SECURE Act which included numerous reforms to existing retirement law and allows or requires plan sponsors to make certain immediate plan operational changes without formal amendment of the plan document. Plan documents are required to be formally amended by December 31, 2026.

In March 2020, Congress passed the CARES Act which included optional immediate changes to distribution without formal amendment of the plan document. If adopted, plan documents are required to be formally amended by the end of the first plan year beginning on or after December 31, 2026.

In December 2022, Congress passed the SECURE 2.0 Act of 2022, which also contained numerous reforms to existing retirement law, including some mandatory and some optional provisions. Plan documents are required to be formally amended for these changes by December 31, 2026.

The Plan Sponsor operationally implemented various changes and will be amending the Plan for these changes.

**Subsequent Events** - The Company has evaluated subsequent events through October 7, 2025, which is the date these financial statements were available to be issued. All other subsequent events, if any, requiring recognition as of December 31, 2024, have been incorporated into these financial statements.

### 3. INVESTMENTS

Accounting Standards Codification ("ASC") 820, Fair Value Measurement and Disclosures, provides for a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities ("Level 1") and the lowest priority to unobservable inputs ("Level 3"). The three levels of the fair value hierarchy under ASC 820 are:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Master Trust has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no significant changes in the methodologies used at December 31, 2024 and 2023.

- *Separately Managed Funds* - Separately Managed Funds are exclusively managed for the Master Trust. Separately managed accounts contain one or more investment strategies that pursue various investment objectives across multiple asset classes and investment vehicles (CCTs, corporate stock, mutual funds, interest bearing cash, corporate debt, government securities, and other). CCTs and mutual funds are valued at the readily determinable Net Asset Value ("NAV") reported by the fund manager. Corporate stocks are valued at the closing price reported on the active market on which the individual securities are traded. Corporate debt, government securities and other asset backed securities are generally valued at the bid or the average of the bid and ask price. Prices are based on pricing models, quoted prices of securities with similar characteristics, or broker quotes. Units of participation in the separately managed accounts are valued by the funds' trustee based on fair value of the underlying assets of the funds at year end.
- *Self-Directed Brokerage Account* - Corporate debt, government securities, and other asset backed securities, held through the self-directed brokerage account, are generally valued at the bid or the average of the bid and ask price. Prices are based on pricing models, quoted prices of securities with similar characteristics, or broker quotes. Corporate stocks, held through the self-directed brokerage account, are valued at the closing price reported on the active market on which the individual securities are traded. Mutual funds, held through the self-directed brokerage account, are valued at the readily determinable NAV reported by the fund manager. Certificates of deposit, held through the self-directed brokerage account, are valued at original cost plus accrued interest. Funds may also be held as cash-equivalents in the self-directed brokerage account.
- *Delta Common Stock Fund* - Company common stock fund valued at the closing price reported on the active market on which the individual securities are traded.

The following are valued using NAV as a practical expedient at December 31, 2024 and 2023.

- *Common Collective Trust Fund* - CCT fund is a commingled fund invested in common stocks. The CCT fund is valued based on the Plan's interest in the fund at NAV reported by the fund manager as of the financial statement date and recent transaction prices. The NAV is used as a practical expedient to estimate the fair value. Participant transactions may occur daily with no advance requirement. Fair values for the investments within this fund is based on quoted prices in active markets and securities valued using either observable inputs or quotations from inactive markets. This investment has no unfunded commitments as of December 31, 2024 and 2023, and participants can be redeemed daily with no redemption notice period or other redemption restrictions.

The preceding methodologies may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while management believes its valuation methodologies are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth, within the fair value hierarchy, the Master Trust's assets at fair value and the Plan's interest in the Master Trust as of December 31, 2024 and 2023 (in thousands).

**Investments at contract value** - The Master Trust currently offers a stable value fund that holds only synthetic guaranteed investment contracts ("GIC"), but could also hold traditional GICs. Both are fully benefit-responsive investment contracts issued by financial institutions. A synthetic GIC simulates the performance of a GIC through an issuer's guarantee of a specific interest rate, wrapper contract, and a portfolio of financial instruments that are owned by the Master Trust.

Contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The investment value and net investment income associated with the Master Trust's investment in GICs are presented on a contract value basis. Contract value represents the cost plus contributions made under the contract plus interest at the contract rates less withdrawals and administrative expenses.

The key difference between a synthetic investment contract and a traditional investment contract is that the Plan owns the underlying assets of the synthetic investment contract. A synthetic investment contract includes a wrapper contract, which is an agreement for the wrap issuer, such as a bank or insurance company, to make payments to the Plan in certain circumstances. The wrapper contract typically includes certain conditions and limitations on the underlying assets owned by the Plan. It has been determined that the wrapper contracts are not material thus the wrapper value is not separately disclosed. Synthetic and traditional investment contracts are designed to accrue interest based on crediting rates established by the contract issuers.

The issuer is contractually obligated to pay the principal and specified interest rate that is guaranteed to the Plan. The crediting interest rate is based on a formula agreed upon with the issuer, but may not be less than 0%. Such interest rates are reviewed on a quarterly basis.

Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. The contract has certain restrictions that impact the ability to collect the full contract value, for example, the Plan may not withdraw more than a certain percentage of the beginning of the year balance of the contract without incurring a penalty.

The Plan's ability to receive amounts due in accordance with fully benefit-responsive investment contracts is dependent on the third-party issuer's ability to meet its financial obligations. The issuer's ability to meet its contractual obligations may be affected by future economic and regulatory developments.

Certain events might limit the ability of the Plan to transact at contract value with the contract issuer. These events may be different under each contract. Examples of such events include the following:

- The Plan's failure to qualify under Section 401(a) of the IRC or the failure of the trust to be tax - exempt under section 501(a) of the IRC.
- Premature termination of the contract.
- Plan termination or merger.
- Charges to the Plan's prohibition on competing investment options.
- Bankruptcy of the Plan Sponsor or other Plan Sponsor events (for example, divestitures or spinoffs of a subsidiary) that significantly affect the Plan's normal operations.

In addition certain events allow the issuer to terminate the contract with the Plan and settle at an amount different from contract value. Those events may be different under each contract. Examples of such events include the following:

- An uncured violation of the Plan's investment guidelines.
- A breach of material obligation under the contract.
- A material misrepresentation.
- A material amendment to the agreements without the consent of the issuers.

Plan management believes that the occurrence of events that would cause the Plan to transact at less than contract value is not probable. The issuer may not terminate the contract at any amount less than contract value.

There are no reserves against the contract value for credit risk of the contract issuer or otherwise.

#### 4. FINANCIAL INFORMATION OF THE MASTER TRUST

*Allocation of Net Assets and Investment Income/(Loss)* - The investments of the Plan are commingled with the following plans in the Master Trust:

- Delta Pilots Defined Contribution Plan
- Delta 401(k) Retirement Plan
- Delta 401(k) Retirement Plan for Pilots
- Delta 401(k) Retirement Plan for Subsidiaries
- Delta 401(k) Retirement Plan for Seasonal Employees
- Delta 401(k) Retirement Plan - Puerto Rico
- Endeavor Air Pilot Savings Plan

All transfers to, withdrawals from, or other transactions regarding the Master Trust are conducted in such a way that the proportionate interest in the Master Trust of each plan and the fair market value of that interest may be determined at any time. Whenever the assets of more than one plan are commingled in any investment option, the undivided interest therein of each plan is debited or credited (1) for the entire amount of every contribution received on behalf of such plan, every benefit payment, or other expense attributable solely to such plan, and every other transaction relating only to such plan; and (2) for its proportionate share of every item of collected or accrued income, gain or loss, or general expense, and of any other transactions attributable to the Master Trust or that investment option as a whole.

The Plan's interest in the Master Trust as a percentage of net assets of the Master Trust was approximately 0.6% at December 31, 2024 and 2023.

The following table presents the net assets of the Master Trust at December 31, 2024 and 2023 (in thousands):

Net Change in Master Trust	<u>\$ 5,052,928</u>

***Net Investment Income of the Master Trust*** - Net investment income from the Master Trust, presented in the accompanying statement of changes in net assets available for benefits, represents the Plan's share of the Master Trust's net appreciation/(depreciation) in fair value, interest, and dividends.

The net appreciation/(depreciation) in fair value of investments includes both net unrealized appreciation (depreciation) and net realized gains (losses) on sales of the respective net assets of the Master Trust.

## **5. TAX STATUS**

The Company has adopted a Non-Standardized Pre-Approved Profit Sharing Plan, which has received an opinion letter from the IRS, dated June 30, 2020, indicating that the Non-Standardized Pre-Approved Profit Sharing Plan with CODA is designed in accordance with the applicable sections of the IRC. The Company believes that the Plan, as amended, is currently designed and being operated in compliance with the applicable requirements of the IRC and therefore the Plan is qualified and the related trust is tax-exempt.

U.S. GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

## **6. PLAN TERMINATION**

Although it has not expressed any intent to do so at this time, the Company has the right under the Plan to discontinue its contributions at any time and to amend or terminate the Plan. In the event of Plan termination, participants will immediately become 100% vested in their accounts.

## **7. RELATED PARTY AND PARTY-IN-INTEREST TRANSACTIONS**

Certain investments of the Plan include a self-directed brokerage account, separately managed funds, a CCT fund, and a stable value fund managed by the Trustee or affiliates of the Trustee. Transactions related to such investments qualify as permissible party-in-interest transactions under ERISA. Fees paid by the Plan to an affiliate of the Trustee for services totaled approximately \$96 thousand for the year ended December 31, 2024. Fees paid by the Plan for investment management vary by fund and are generally reflected as a reduction in fund earnings. The Plan also issues loans to participants which are secured by the vested balance of the the participants' accounts, which loans are permissible party-in-interest transactions under ERISA.

The Master Trust invests in Delta common stock. This investment and transactions in this investment qualify as party-in-interest transactions which are exempt from the prohibited transactions rules of ERISA. In addition, the investment and transactions qualify as related party transactions under U.S. GAAP. As of December 31, 2024 and 2023, the Master Trust investment in Delta stock was approximately \$286 million and \$220 million, respectively.

## **8. NON-EXEMPT TRANSACTIONS**

During the plan year ended December 31, 2021, certain participant contributions totaling approximately \$27 thousand were not timely remitted to the Plan's trustee. All late contributions were fully corrected for lost earnings in 2024. During the plan year ended December 31, 2024, certain participant contributions totaling approximately \$496 thousand were not timely remitted to the Plan's trustee. All contributions were corrected as of year end.

## **9. INFORMATION CERTIFIED BY THE TRUSTEE**

The plan administrator has elected the method of annual reporting compliance permitted by ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, FMTC, a qualified institution, has certified that the following investment information included in the accompanying financial statements and ERISA-required supplemental schedules are complete and accurate.

- Plan Interest in the Master Trust Net Assets and notes receivable from participants as shown in the statements of net assets available for benefits as of December 31, 2024 and 2023.
- Net Investment Income from Master Trust and Interest Income on Notes Receivable from Participants as shown in the statement of changes in net assets available for benefits for the year ended December 31, 2024.
- Investment amounts included in the footnotes to the financial statements and Notes Receivable from Participants as shown in the schedule of assets (held at end of year) as of December 31, 2024, as shown on ERISA-required supplemental schedules.

At the request of the plan administrator, the Plan's independent auditors did not perform auditing procedures with respect to this certified investment information, except for comparing the certified investment information with the related information presented and disclosed in the financial statements and supplemental schedules, reading the disclosures relating to the investment information to assess whether they are in accordance with the presentation and disclosure requirements of U.S. GAAP and Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

## **10. RISKS AND UNCERTAINTIES**

The Master Trust utilizes various investment securities. Investment securities, in general, are exposed to various risks, including interest rate, credit, and overall market volatility risks. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and those changes could materially affect the amounts reported in the financial statements.
