## Report of Independent Auditors

O-I Glass, Inc. Employee Benefits Committee  
Tenth Amended and Restated Owens-Illinois Salary Retirement Plan

### Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of the Tenth Amended and Restated Owens-Illinois Salary Retirement Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of December 31, 2024 and 2023, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes (collectively referred to as the “financial statements”).

Management, having determined it is permissible in the circumstances, has elected to have the audits of the financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor’s Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor’s Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of December 31, 2024 and 2023, and for the years then ended, stating that the certified investment information, as described in Note 4 to the financial statements, is complete and accurate.

### Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditor’s Responsibilities for the Audit of the Financial Statements section

- the amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- the information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

## **Basis for Opinion**

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

## **Responsibilities of Management for the Financial Statements**

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

## **Auditor's Responsibilities for the Audit of the Financial Statements**

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to

those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control related matters that we identified during the audit.

Tenth Amended and Restated  
Owens-Illinois Salary Retirement Plan

Notes to the Financial Statements

**1. Description of Plan**

General

The Tenth Amended and Restated Owens-Illinois Salary Retirement Plan ("Plan") is a defined benefit plan established to provide normal and early retirement, termination and death benefits to qualified full-time regular salaried employees of O-I Glass, Inc. ("Company") and certain of its subsidiaries.

Effective January 1, 2016, the Plan was frozen and no future pension benefits accrue for any Plan participants. Subsequent to this date newly hired employees are not permitted to participate in the Plan.

Contributions

The Company contributes such amounts as are deemed necessary on an actuarial basis to provide assets sufficient to meet the future benefits to be paid to Plan participants. As of December 31, 2024 and 2023, the minimum funding requirements as defined by the Employee Retirement Income Security Act of 1974 ("ERISA"), as amended, have been met.

Benefits

A participant is entitled to annual pension benefits beginning at normal retirement age (65) primarily based upon levels of compensation and years of service. Accrued benefits become vested after completion of five years of credited service or the attainment of normal retirement age. Benefits are payable beginning at normal retirement age or in reduced amounts upon early retirement. Participants 55 years of age or older with 30 or more years of credited service are entitled to unreduced early retirement benefits for benefits earned through December 31, 2004. Participants 55 years of age or older with less than 30 years of credited service are eligible to take an early retirement benefit for benefits earned through December 31, 2004 reduced by 5% per year prior to age 60. Effective January 1, 2005, benefits earned in 2005 and later will be reduced for early retirement by 5% for each full year prior to age 65. The dependent spouse of a participant who dies prior to retirement, but after reaching age 35 and completing five years of service and one year of marriage, is entitled to an annual benefit equal to 25% of the participant's final base salary.

Notes to the Financial Statements

**1. Description of Plan (continued)**

Plan Termination

Although it has not expressed an intention to do so, the Company reserves the right under the Plan to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, its assets will first be used to provide participants' accrued benefits unless they are insufficient. In that case, whether a particular participant's accrued benefits will be paid depends on both the priority of those benefits and the level of benefits guaranteed by the Pension Benefit Guaranty Corporation ("PBGC") at that time. Some benefits may be fully or partially provided for by the available assets and the PBGC's benefit guarantee, while other benefits may not be provided for at all.

The above information is a brief description of the Plan. Information about the vesting and benefit provisions, and the PBGC's benefit guarantee, is contained in the Plan's Summary Plan Description, which is available at the corporate office of the Company.

**2. Summary of Significant Accounting Policies**

Basis of Accounting

The accompanying financial statements have been prepared on the accrual basis of accounting.

Payment of Benefits

Benefits are recorded when paid.

Basis of Presentation and Plan Investments

The Plan's assets are included in the Owens-Illinois Master Retirement Trust ("Master Trust") along with the assets of another pension plan at the Company. Each participating plan has an undivided interest in the Master Trust. The Master Trust assets are allocated among the participating plans by assigning to each plan those transactions (primarily contributions, benefit payments, and plan-specific expenses) that can be specifically identified and by allocating among all plans, in proportion to each plan's beneficial interest in the Master Trust, income and expenses resulting from the collective investment of the assets of the Master Trust. At December 31, 2024 and 2023, the Plan's interest in the net assets of the Master Trust was approximately 32% and 33%, respectively.

Tenth Amended and Restated  
Owens-Illinois Salary Retirement Plan

Notes to the Financial Statements

**2. Summary of Significant Accounting Policies (continued)**

Basis of Presentation and Plan Investments (continued)

The Master Trust holds an investment in a Harbor Capital Group Trust for Defined Benefit Plans (“Group Trust”). The trustee of the Plan is State Street Bank and Trust Co. (“State Street”). The Group Trust is under a separate trust agreement.

The Group Trust’s assets are managed by designated advisors across a wide range of investment strategies and these investment funds consist of public securities such as domestic and foreign equity, intermediate and longer duration corporate debt issues and government securities. The Group Trust’s assets are designed to preserve principal and maximize returns.

The Plan’s earnings (losses) of the Group Trust are allocated in proportionate interest to each participating plan based on the fair market value of its net assets. The accompanying financial statements reflect the Plan’s total interest in the net assets and transactions of the Group Trust as allocated by State Street.

Investment Valuation and Income Recognition

The Plan’s interest in the Group Trust is valued at the unit price established by the trustee, which is deemed to be fair value. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (an exit price). See Note 5 for further discussion and disclosures related to fair value measurements.

The O-I Glass, Inc. Investment Committee is responsible for determining the Plan’s valuation policies and analyzing information provided by the investment custodians and issuers that is used to determine the fair value of the Plan’s investments.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded as earned. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan’s gains and losses on investments bought and sold as well as held during the year.

**2. Summary of Significant Accounting Policies (continued)**

Income Tax Status

The Plan has received a determination letter from the Internal Revenue Service (“IRS”) dated November 25, 2014, stating that the Plan is qualified under Section 401(a) of the Internal Revenue Code (“the Code”) and therefore, the related trust is tax-exempt. Subsequent to this determination by the IRS, the Plan was amended. Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualified status. The plan administrator believes the Plan is being operated in compliance with the applicable requirements of the Code and therefore, believes the Plan, as amended, is qualified and the related trust is tax-exempt.

Accounting principles generally accepted in the United States require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. Plan management has analyzed the tax positions taken by the Plan, and has concluded that there are no uncertain positions taken or expected to be taken. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Administrative Expenses

The Plan incurs administrative expenses directly related to the Plan, which consist primarily of PBGC fees and actuarial fees. These expenses are reported on the statements of changes in net assets available for benefits as administrative expenses. Administrative expenses related to the Master Trust are allocated to the Plan and are reflected in the net investment gain (loss) from the Master Trust. Expenses relating to purchases, sales or transfers of the Plan’s investments are charged to the particular investment fund in which the expenses relate. All other administrative expenses are paid by the Company on behalf of the Plan.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles (“GAAP”) requires management to make estimates and assumptions that affect the reported amounts of certain assets and liabilities and the reported amounts of certain additions and deductions during the reporting period. Most significantly, estimates and assumptions are used in the determination of the actuarial present value of accumulated plan benefits. Actual results could differ from those estimates and assumptions.

**2. Summary of Significant Accounting Policies (continued)**

Risks and Uncertainties

The Plan invests in various investment securities, which are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

The actuarial present value of accumulated plan benefits is reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimation and assumption process, it is at least reasonably possible that changes in estimates and assumptions in the near term could materially affect the amounts reported and disclosed in the financial statements.

Related Party and Party-in-Interest Transactions

Certain of the Plan's assets are invested in funds managed by the trustee of the Plan. These transactions qualify as party-in-interest transactions; however, they are exempt from the prohibited transaction rules under ERISA.

**3. Actuarial Present Value of Accumulated Plan Benefits**

Accumulated plan benefits are those future periodic payments and lump sum distributions to which participants are entitled under the Plan's provisions based on services rendered to the valuation date. Accumulated plan benefits include benefits expected to be paid to: a) retired employees or their beneficiaries, b) terminated employees with vested benefits, c) beneficiaries of deceased employees, and d) present employees or their beneficiaries.

The actuarial present value of accumulated plan benefits is determined by the Plan's consulting actuary and is that amount which results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of benefit payments (by means of decrements for such factors as death, withdrawal or early retirement) between the valuation date and the expected date of payment. The amount of accumulated plan benefits is estimated actuarially under the accrued benefit cost method (unit credit method).

Tenth Amended and Restated  
Owens-Illinois Salary Retirement Plan

Notes to the Financial Statements

**3. Actuarial Present Value of Accumulated Plan Benefits (continued)**

The more significant assumptions underlying the actuarial computations are as follows:

Assumed Rate of Return on Investments	5.53% at December 31, 2023 and 5.75% at December 31, 2022.
Mortality basis (Healthy / Disabled)	2023 – Pri-2012 (male/female) Employee/Healthy Retiree without collar adjustments, projected with generational improvements using scale MP-2021. Contingent annuitant mortality applied to current surviving beneficiaries and beneficiaries after the projected death of participant. 2022 – Pri-2012 (male/female) Employee/Healthy Retiree without collar adjustments, projected with generational improvements using scale MP-2021. Contingent annuitant mortality applied to current surviving beneficiaries and beneficiaries after the projected death of participant.
Employee turnover	A moderate scale consistent with Company experience.
Retirement age	Based on Company experience varying from ages 55-70.

If the Plan would terminate, different actuarial assumptions determined by the PBGC and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

The actuarial present values of accumulated plan benefits (“APVAPB”) are as follows:

	December 31, 2023
Vested benefits:	
Participants currently receiving benefits	\$ 211,955,720
Other participants	64,653,770
Total vested benefits	276,609,490
Non-vested benefits	-
 Total APVAPB	 \$ 276,609,490

**3. Actuarial Present Value of Accumulated Plan Benefits (continued)**

The following table details the changes in the APVAPB:

	Year ended December 31, 2023
APVAPB at beginning of year	\$ 289,361,813
Increase (decrease) during the year attributable to:	
Actuarial gains	(742,100)
Increase due to decrease in the discount period	15,676,792
Benefits paid	(33,443,536)
Change in actuarial assumptions	5,756,521
Net decrease	<u>(12,752,323)</u>
APVAPB at end of year	<u>\$ 276,609,490</u>

**4. Investments**

Certain information related to investments for the Plan and the Master Trust, as disclosed in the accompanying financial statements, including investments and investment income, as of and for the years ended December 31, 2024 and 2023, was obtained or derived from information provided to the plan administrator and certified as complete and accurate by State Street.

**5. Fair Value Measurements**

GAAP defines fair value as an exit price, representing the amount that would be received to sell an asset or paid to transfer a liability in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants. GAAP establishes a three-tier fair value hierarchy, which prioritizes the inputs used in measuring fair value as follows:

- Level 1: Observable inputs such as quoted prices in active markets;
- Level 2: Inputs, other than quoted prices in active markets, that are observable either directly or indirectly; and
- Level 3: Unobservable inputs for which there is little or no market data, which requires the Company to develop assumptions.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement.

The investment valuation policy of the Master Trust is to value investments at fair value. The Master Trust invests in the Group Trust, which is a collective investment trust valued at net asset value. There are no redemption restrictions related to assets in the Group Trust.

The methods used to produce a fair value calculation may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Master Trust believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the asset values underlying the Master Trust's investments:

	Assets at fair value as of December 31, 2024			
	Level 1	Level 2	Level 3	Total
	\$ -	\$ -	\$ -	
Investments measured at net asset value				
Interest in Group Trust				\$ 794,762,548
Total assets at fair value				\$ 794,762,548

Interest in Group Trust				\$ 837,113,618
Total assets at fair value				<u>\$ 837,113,618</u>

**6. Subsequent Events**

The Company has evaluated subsequent events for the Plan through October 3, 2025, the date the financial statements were available for issuance. Effective October 1, 2025, the plan administration services were changed from Manulife John Hancock to WTW. Plan management determined no additional subsequent events have occurred requiring adjustments to the financial statements or disclosures.

## Mortality

- **Healthy/Disabled** Separate rates for non-annuitants and annuitants based on Pri-2012 “Employees” and “Healthy Annuitants” (participants and beneficiaries combined) tables, respectively, without collar or amount adjustments and then projected forward with a generational projection as specified in regulations under §1.430(h)(3)-1 using the IRS adjusted Scale MP-2021 (i.e., MP-2021 with no mortality improvement for 2020-2023 and future mortality improvement capped at 0.78% for years after 2024).

## Termination

Rates varying by age and service

### Representative Termination Rates:

Percentage leaving during the year		
Attained Age	Males	Females
25	0.120	0.120
40	0.060	0.060
55	0.010	0.010

## Disability

No rates.

## Retirement

Rates varying by from age 55 to age 70 and based on service average.

For purposes of determining the Funding Target and Target Normal Cost (both disregarding at-risk assumptions), the rates at which participants retire by age are shown below.

Percentage leaving during the year		
Attained Age	Service < 30	Service > 30
55	0.060	0.150
60	0.120	0.150

**Benefit commencement date:**

- Preretirement death benefit      The later of the death of the active participant or the date the participant would have attained age 55.
- Deferred vested benefit      The later of age 65 or termination of employment.
- Disability benefit      N/A
- Retirement benefit      Upon termination of employment.

**Form of payment**

80% of benefits are assumed to be taken as a lump sum, with the remaining 20% being taken as an annuity. Lump sums are valued using annuity substitution, using the respective segments rates described above and current year mortality required by IRC §417(e) post commencement.

**Percent married**

80% of males; 80% of females. Used to value pre-retirement surviving spouse benefits and in determining the optional forms expected to be elected at commencement.

**Spouse age**

Spouses of female participants are assumed to be three years older than the participant. Spouses of male participants are assumed to be three years younger than the participant.

**Covered pay**

N/A

**Administrative expenses**

Return on asset assumption is net of any expenses paid by the trust. For the 2024 plan year administrative expenses were assumed to be \$2,700,000.

**Timing of benefit payments**

Annuity payments are payable monthly at the beginning of the month and lump sum payments are payable on date of decrement.

## Sources of Data and Other Information

The plan sponsor furnished participant data as of January 1, 2024. The data was provided through the Plans' third party administrator and record-keeper, John Hancock. Data and other information were reviewed for reasonableness and consistency, but no audit was performed. Based on discussions with the plan sponsor, assumptions or estimates were made when data were not available. In consultation with O-I Glass, Inc., the following assumptions were made for missing or apparently inconsistent data elements:

- Participants with missing gender are assumed to be female
- Participants with missing birthdates are assumed to have the prior year's birthdate; those who did not have a birthdate in the prior year (due to a new record) are assumed to be the average age of their status cohort
- Deceased participants whose beneficiaries have not been located by the time of the valuation are assumed to be alive and paid in the survivor amount paid by the plan administrator
- Missing beneficiary birth date for participants with joint and survivor benefits are assumed to be equal to the valuation assumption age difference between males and females
- Missing beneficiary gender for participants with joint and survivor benefits are assumed to be opposite of the participant's gender
- Terminated vested participants with no benefit provided by John Hancock were assumed to receive the average 1/1/2024 terminated vested benefit

We are not aware of any errors or omissions in the data that would have a significant effect on the results of our calculations.

## Methods

<b>Valuation date</b>	First day of plan year.
<b>Funding target</b>	Present value of accrued benefits as required by regulations under IRC §430.
<b>Target normal cost</b>	Present value of benefits expected to accrue during plan year plus plan-related expenses expected to be paid from plan assets during plan year as required by regulations under IRC §430.

**Actuarial value of assets** Average of the fair market value of assets on the valuation date and 12 and 24 months preceding the valuation date, adjusted for contributions, benefits, administrative expenses and expected earnings (with such expected earnings limited as described in IRS Notice 2009-22). The average asset value must be within 10% of market value, including discounted contributions receivable (discounted using the effective interest rate for the 2023 plan year.)

The method of computing the actuarial value of assets complies with rules governing the calculation of such values under the Pension Protection Act of 2006 (PPA). These rules produce smoothed values that reflect the underlying market value of plan assets but fluctuate less than the market value. As a result, the actuarial value of assets will be lower than the market value in some years and greater in other years. However, over the long term under PPA's smoothing rules, the method has a significant bias to produce an actuarial value of assets that is below the market value of assets.

**Benefits not valued** All benefits described in the Plan Provisions section of this report were valued.

The plan pays small benefits (with a present value up to \$5,000 in a single lump sum payment). Such lump sums are not explicitly valued; rather such participants' benefits are valued using the benefit choice assumptions described above.

WTW has reviewed the plan provisions with O-I Glass, Inc. and, based on that review, is not aware of any other significant benefits required to be valued that were not.

## Assumptions Rationale – Significant Economic Assumptions

**Discount rate** The basis chosen was selected by the plan sponsor from among choices prescribed by law, all of which are based on observed market data over certain periods of time.

**Lump sum conversion rate** As required by IRC §430, lump sum benefits are valued using “annuity substitution”, so that the interest rates assumed are effectively the same as described above for the discount rate.

**Administrative expenses** Administrative expenses are estimated by determining the expected actual expenses for the coming year, reflecting items such as expected PBGC premiums.

## Assumptions Rationale – Significant Demographic Assumptions

**Healthy Mortality** The base table reflects the adoption of the substitute mortality tables approved by the IRS.

**Disabled Mortality** The base table reflects the adoption of the substitute mortality tables approved by the IRS.

**Termination** Termination rates were based on an experience study conducted in 2013, with annual consideration of whether any conditions have changed that would be expected to produce different results in the future.

Assumed termination rates differ by gender because of observed differences in termination rates by gender.

**Disability** Disability rates were based on an experience study conducted in 2013, with annual consideration of whether any conditions have changed that would be expected to produce different results in the future.

**Retirement** Retirement rates were based on an experience study conducted in 2013, with annual consideration of whether any conditions have changed that would be expected to produce different results in the future.

Retirement rates differ by eligibility for unreduced retirement benefits because of the observed effects the availability of these benefits has on retirement rates.

### **Benefit commencement date for deferred benefits:**

- Preretirement death benefit  
Surviving spouses are assumed to begin benefits at the earliest permitted commencement date because ERISA requires benefits to start then unless the spouse elects to defer. If the spouse elects to defer, actuarial increases from the earliest commencement date must be given, so that a later commencement date is expected to be of approximately equal value, and experience indicates that most spouses do take the benefit as soon as it is available.
- Deferred vested benefit  
Deferred vested participants' assumed commencement age is a single age intended to capture the average age at commencement. Deferred vested early commencement factors are not subsidized so that the difference between this approach and using assumed commencement rates at multiple ages is not

expected to be significant.

**Form of payment** The percentage of retiring participants assumed to take joint and survivor annuities, and the assumed survivor percentages, are based on observed experience over the period 2010-2013.

**Percent married** The assumed percentage married is based on the percentage married observed among recent retirees.

**Spouse age** The assumed age difference for spouses is based on the age difference observed among recent retirees.

## Prescribed Methods

**Funding methods** The methods as described in Appendix A, including the method of determining plan assets, are “prescribed methods set by law”, as defined in the actuarial standards of practice (ASOPs). These methods are required by IRC §430, or were selected by the plan sponsor from a range of methods permitted by IRC §430.

## Changes in Assumptions and Methods

**Change in assumptions since prior valuation**

- The segment interest rates used to calculate the funding target and target normal cost were updated to the current valuation date as required by IRC §430.
- The mortality table used to calculate the funding target and target normal cost was updated to reflect the latest base mortality table and mortality improvement scale, as required by guidance issued by IRS under IRC §430 and was changed from using a static projection of mortality improvement to a generational projection as required by guidance issued by IRS under IRC §430.
- The assumed plan-related expenses added to the target normal cost were changed from \$4,400,000 for the prior valuation to \$2,700,000 for the current valuation to account for lower expected expenses to be paid from the trust.

**Change in methods since prior valuation** None.
