Part III Accountant's Opinion

3 Complete lines 3a through 3c if the opinion of an independent qualified public accountant is attached to this Form 5500. Complete line 3d if an opinion is not attached.

a The attached opinion of an independent qualified public accountant for this plan is (see instructions):

(1) Unmodified (2) Qualified (3) Disclaimer (4) Adverse

b Check the appropriate box(es) to indicate whether the IQPA performed an ERISA section 103(a)(3)(C) audit. Check both boxes (1) and (2) if the audit was performed pursuant to both 29 CFR 2520.103-8 and 29 CFR 2520.103-12(d). Check box (3) if pursuant to neither.

(1) DOL Regulation 2520.103-8 (2) DOL Regulation 2520.103-12(d) (3) neither DOL Regulation 2520.103-8 nor DOL Regulation 2520.103-12(d).

c Enter the name and EIN of the accountant (or accounting firm) below:

(1) Name: **PLANTE & MORAN, PLLC**

(2) EIN: **33-1498605**

d The opinion of an independent qualified public accountant is **not attached** as part of Schedule H because:

(1) This form is filed for a CCT, PSA, DCG or MTIA. (2) It will be attached to the next Form 5500 pursuant to 29 CFR 2520.104-50.

Part IV Compliance Questions

4 CCTs and PSAs do not complete Part IV. MTIAs, 103-12 IEs, and GIAs do not complete lines 4a, 4e, 4f, 4g, 4h, 4k, 4m, 4n, or 5. 103-12 IEs also do not complete lines 4j and 4l. MTIAs also do not complete line 4l. DCGs do not complete lines 4e, 4f, 4k, 4l, and 5, and DCGs generally complete the rest of Part IV collectively for all plans in the DCG, except as otherwise provided (see instructions).

During the plan year:

	Yes	No	Amount
a Was there a failure to transmit to the plan any participant contributions within the time period described in 29 CFR 2510.3-102? Continue to answer "Yes" for any prior year failures until fully corrected. (See instructions and DOL's Voluntary Fiduciary Correction Program.)		X	
b Were any loans by the plan or fixed income obligations due the plan in default as of the close of the plan year or classified during the year as uncollectible? Disregard participant loans secured by participant's account balance. (Attach Schedule G (Form 5500) Part I if "Yes" is checked.)		X	
c Were any leases to which the plan was a party in default or classified during the year as uncollectible? (Attach Schedule G (Form 5500) Part II if "Yes" is checked.)		X	
d Were there any nonexempt transactions with any party-in-interest? (Do not include transactions reported on line 4a. Attach Schedule G (Form 5500) Part III if "Yes" is checked.)		X	
e Was this plan covered by a fidelity bond?	X		10000000
f Did the plan have a loss, whether or not reimbursed by the plan's fidelity bond, that was caused by fraud or dishonesty?		X	
g Did the plan hold any assets whose current value was neither readily determinable on an established market nor set by an independent third party appraiser?		X	
h Did the plan receive any noncash contributions whose value was neither readily determinable on an established market nor set by an independent third party appraiser?		X	
i Did the plan have assets held for investment? (Attach schedule(s) of assets if "Yes" is checked, and see instructions for format requirements.)	X		
j Were any plan transactions or series of transactions in excess of 5% of the current value of plan assets? (Attach schedule of transactions if "Yes" is checked and see instructions for format requirements.)	X		
k Were all the plan assets either distributed to participants or beneficiaries, transferred to another plan, or brought under the control of the PBGC?		X	
l Has the plan failed to provide any benefit when due under the plan?		X	
m If this is an individual account plan, was there a blackout period? (See instructions and 29 CFR 2520.101-3.)			
n If 4m was answered "Yes," check the "Yes" box if you either provided the required notice or one of the exceptions to providing the notice applied under 29 CFR 2520.101-3.			

5a Has a resolution to terminate the plan been adopted during the plan year or any prior plan year? Yes No
If "Yes," enter the amount of any plan assets that reverted to the employer this year _____.

Independent Auditor's Report

To the Plan Administrator
Ardagh North America Retirement Income Plan

Scope and Nature of the ERISA Section 103(a)(3)(C) Audits

We have performed audits of the financial statements of Ardagh North America Retirement Income Plan (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statement of net assets available for benefits as of December 31, 2024 and 2023 and the related statement of changes in net assets available for benefits for the years then ended and the statement of accumulated plan benefits as of December 31, 2023 and the related statement of changes in accumulated plan benefits for the year then ended and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of December 31, 2024 and 2023 and for the years then ended stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the *Auditor's Responsibilities for the Audits of the Financial Statements* section:

- The amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America (GAAP).
- The information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audits of the Financial Statements* section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

To the Plan Administrator
Ardagh North America Retirement Income Plan

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with GAAP and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date that the financial statements are issued or available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments; administering the Plan; and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or that may become due to such participants.

Auditor's Responsibilities for the Audits of the Financial Statements

Except as described in the *Scope and Nature of the ERISA Section 103(a)(3)(C) Audits* section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and, therefore, is not a guarantee that audits conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing audits in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audits.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audits in order to design audit procedures that are appropriate in the circumstances but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information except for obtaining and reading the certifications, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of GAAP.

Accordingly, the objective of the ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with GAAP.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audits, significant audit findings, and certain internal control-related matters that we identified during the audits.

Supplemental Schedules Required by ERISA

The supplemental schedules of assets held at end of year as of December 31, 2024 and reportable transactions for the year ended December 31, 2024 are presented for the purpose of additional analysis and are not a required part of the financial statements but are supplemental information required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedules, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedules that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, other than the information agreed to or derived from the certified investment information, including their form and content, are presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- The form and content of the supplemental schedules, other than the information in the supplemental schedules that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.
- The information in the supplemental schedules related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Note 1 - Plan Description

The following description of Ardagh North America Retirement Income Plan (the "Plan") provides only general information. Participants should refer to the plan agreement (including all related appendices) for a more complete description of the Plan's provisions.

General

The Plan is a defined benefit plan covering certain U.S. employees of Ardagh Glass Inc., which is a subsidiary of Ardagh Group S.A. (the "Company" or the "Plan Sponsor"). The Plan is a result of plan mergers and previous plans; therefore, requirements and benefits may vary considerably by location and/or business unit. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

The Company has established the Ardagh Glass Inc. Retirement Income Plan Trust (the "Master Trust"). As of and for the years ended December 31, 2024 and 2023, the Plan is the sole participant in the Master Trust. Accordingly, all investments held in the Master Trust are treated as investments held by the Plan. All investment income (loss) of the Master Trust is treated as investment income (loss) of the Plan.

Employees are eligible to join the Plan based on their respective division agreements in accordance with the plan document.

Pension Benefits

Generally, employees with 5 or more years of service are entitled to annual pension benefits beginning at normal retirement age (65). Benefits are calculated as a percentage (currently 1.25 percent) of final 5-year average annual compensation times years of service, on an integrated career average formula, or as a flat dollar amount times years of service. Eligibility for early retirement with reduced benefits begins at either age 50 or age 55, after completion of 5 to 10 years of service. Participants forfeit the right to receive a portion of their accumulated plan benefits if they terminate before rendering 5 years of service. Participants may normally elect to receive their pension benefits in the form of a life annuity, as a joint and survivor annuity, or as of a certain period. Participants may also elect to receive the present value of their accumulated plan benefits as a lump-sum distribution upon retirement or termination, provided it does not exceed \$5,000. Effective October 30, 2024, the small benefit cash out limit was increased to \$7,000.

Generally, salaried individuals hired on or after January 1, 2001 and applicable union individuals hired on or after April 1, 2008 participate in a cash balance pension plan. Benefits under the cash balance portion of the Plan vest after 3 years of service. Under the cash balance pension plan, participant accounts receive interest credits on December 31 of each year based on a participant's beginning of year account balance. The interest credit is reset each year to equal the average yield on the 30-year U.S. Treasury bond during the November preceding the start of the year.

During 2023, the Plan was amended to provide a lump-sum window between September 21, 2023 and November 17, 2023, during which certain participants who had not commenced benefits as of September 21, 2023 could elect to receive a lump-sum payout. Participants eligible for the lump-sum window included terminated vested participants who were terminated on or before March 31, 2023 and were not employed by the Plan Sponsor or any affiliated company after March 31, 2023 or June 1, 2023 for salaried participants whose employment was terminated in connection with the furnace curtailment at the Seattle location. Distributions of approximately \$18,900,000 were paid out during the lump-sum window in 2023. During 2024, additional distributions of approximately \$1,800,000 were paid out in connection with the lump-sum window.

December 31, 2024 and 2023

Note 1 - Plan Description (Continued)

Death Benefits

If an active or terminated employee who has a vested interest in the Plan dies prior to his or her normal retirement age, a death benefit equal to the benefit the employee would have received under the qualified joint and survivor annuity form had he or she retired on the day immediately preceding the date of his or her death will be paid to the surviving spouse. Beneficiaries of unmarried participants and those who have elected to waive the preretirement surviving spouse benefit will receive a lump-sum benefit or monthly installments equal to the actuarial equivalent of the participant's vested accrued normal retirement benefit at the date of break in service.

Party-in-interest Transactions

Certain plan assets are in investment funds managed by State Street Bank and Trust Company and its affiliates. State Street Bank and Trust Company is the trustee of the Plan; therefore, these transactions qualify as party-in-interest transactions, as defined under ERISA guidelines.

Funding

Contributions are made by the Company in actuarially determined amounts. The Company's policy is to make contributions necessary to satisfy ERISA funding standards. Annual contributions meet the minimum funding requirements of ERISA. No participant contributions are permitted.

Note 2 - Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements have been prepared on the accrual basis of accounting.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value.

The common/collective trust funds are valued at net asset value per share (NAV) (or its equivalent) of the funds, which is based on the fair value of the funds' underlying assets. The U.S. government securities are valued using quoted market prices and/or other market data for the same or comparable instruments and transactions in establishing the prices, discounted cash flow models, and other pricing models. These models are primarily industry-standard models that consider various assumptions, including time value and yield curve, as well as other relevant economic measures. The money market funds are valued at fair value based on their outstanding balances. All other investments are valued based on quoted market prices reported in active markets. See Note 4 for additional information.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded as earned. Dividends are recorded on the ex-dividend date.

Benefit Payments

Benefits are recorded when paid. Benefits payable to participants at December 31, 2023 who elected a lump sum in connection with the lump-sum window were approximately \$1,800,000.

Administrative Expenses

Various administrative costs are paid by the Company.

December 31, 2024 and 2023

Note 2 - Summary of Significant Accounting Policies (Continued)

Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits are those future periodic payments, including lump-sum payments, that are attributable, under the Plan's provisions, to the service employees have rendered. These include benefits expected to be paid to the following:

- (a) Retired or terminated employees or their beneficiaries
- (b) Beneficiaries of employees who have died
- (c) Present employees or their beneficiaries

In March 2023, the Plan purchased a group annuity contract from New York Life Insurance Company, which relieved the Plan from further obligation for certain participants. Therefore, the obligation decreased by \$378.7 million, which is reflected in the statement of changes in accumulated plan benefits for the year ended December 31, 2023. See Note 7 for additional information.

Actuarial Assumptions

The actuarial present value of accumulated plan benefits is determined by an actuary and is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money and probability of payment between the valuation date and the expected date of payment.

The significant actuarial assumptions used in the valuation of the Plan at December 31, 2023 and 2022 are summarized as follows:

Actuarial cost method	Projected unit credit cost method
Retirement age	Rates graded by age, ranging from 55 to 70
Mortality basis	Pri-2012 base table with MMP-2021 projection scale, which is based on the MP-2021 projection scale for 2023, and a modified version of Pri-2012 base table with MMP-2021 projection scale, which is based on the MP-2021 projection scale for 2022
Discount rate	5.34 percent for 2023 and 5.58 percent for 2022
Interest accumulation rate for cash balances	4.09 percent for 2023 and 4.33 percent for 2022

The increase of approximately \$29.6 million on the statement of changes in accumulated plan benefits for changes in actuarial assumptions is primarily related to the changes in the discount rate and interest accumulation rate assumptions, and the removal of plan specific modifications to the base mortality table.

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

Risks and Uncertainties

Contributions to the Plan and the accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics. Due to the changing nature of these assumptions, it is at least reasonably possible that changes in these assumptions will occur in the near term and, due to the uncertainties inherent in setting assumptions, that the effect of such changes could be material to the financial statements. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. It is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the financial statements.

December 31, 2024 and 2023

Note 2 - Summary of Significant Accounting Policies (Continued)

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of additions and deductions during the reporting period. Actual results could differ from those estimates.

Subsequent Events

The financial statements and related disclosures include evaluation of events up through and including October 1, 2025, which is the date the financial statements were available to be issued.

Note 3 - Certified Information

State Street Bank and Trust Company (the "Trustee") holds the Plan's investments and executes all investment transactions. The investment balances and related investment income and losses included in the accompanying financial statements, supplemental schedule of assets held at end of year, and supplemental schedule of reportable transactions are based solely on information certified by the Trustee.

Note 4 - Fair Value Measurements

Accounting standards require certain assets and liabilities be reported at fair value in the financial statements and provide a framework for establishing that fair value. The framework for determining fair value is based on a hierarchy that prioritizes the valuation techniques and inputs used to measure fair value.

Level 1

Fair values determined by Level 1 inputs use quoted prices in active markets for identical assets that the Plan has the ability to access.

Level 2

Fair values determined by Level 2 inputs use other inputs that are observable, either directly or indirectly. These Level 2 inputs include quoted prices for similar assets in active markets, quoted prices for identical or similar assets in markets that are not active, and inputs other than quoted prices that are observable for the asset.

Level 3

Level 3 inputs are unobservable inputs, including inputs that are available in situations where there is little, if any, market activity for the related asset. These Level 3 fair value measurements are based primarily on management's own estimates using pricing models, discounted cash flow methodologies, or similar techniques taking into account the characteristics of the asset.

In instances where inputs used to measure fair value fall into different levels of the fair value hierarchy, fair value measurements in their entirety are categorized based on the lowest level input that is significant to the valuation. The Plan's assessment of the significance of particular inputs to these fair value measurements requires judgment and considers factors specific to each asset.

Common/collective trust funds measured at NAV	75,384,099		
Total investments at fair value	<u>\$ 534,418,534</u>		

There were no unfunded commitments or redemption restrictions on the investments described above.

Note 5 - Tax Status

The Plan has received a determination letter from the Internal Revenue Service indicating that the Plan, as designed, is qualified for tax-exempt treatment under the applicable section of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, management believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

Note 6 - Plan Termination

Should the Plan terminate at some future time, its net assets generally will not be available on a pro rata basis to provide participants' benefits. Whether a particular participant's accumulated plan benefits will be paid depends on both the priority of those benefits and the level of benefits guaranteed by the Pension Benefit Guaranty Corporation (PBGC) at that time. Some benefits may be fully or partially provided for by the then-existing assets and the PBGC guarantee, while other benefits may not be provided for at all.

Note 7 - Annuity Contract Purchase

In March 2023, the Plan purchased an annuity contract. Under the agreement, an insurance company assumed the obligation to pay future pension benefits, starting on June 1, 2023, for certain participants who were receiving payments less than \$1,750 per month from the Plan prior to March 30, 2023. The purchase price of the annuity contract was approximately \$378.7 million and covered approximately 5,450 participants and is reported in the accompanying statement of changes in net assets available for benefits for the year ended December 31, 2023. During 2024, the Plan received a refund of the original purchase price of approximately \$4.5 million. As of December 31, 2023, the Plan recorded an annuity contract refund receivable of approximately \$3.7 million on the statement of net assets available for benefits, and the final true-up of \$0.8 million was recorded as a refund of annuity contract on the statement of changes in net assets available for benefits during 2024.

Schedule SB, Part V — Statement of Actuarial Assumptions/Methods

Actuarial Methods

Asset Methods

The asset valuation method is an average of the adjusted market value for each year during the last two years preceding the valuation date. The adjusted market value is the market value at each determination date adjusted to the valuation date based on actual cash flows and expected interest at the lesser of the expected rate of return and the third segment rate. This amount is adjusted to be no greater than 110% and no less than 90% of the fair market value, as defined in IRC Section 430.

A characteristic of this asset method is that, over time, it is slightly more likely to produce an actuarial value of assets that is less than the market value of assets than an actuarial value that is greater than the market value.

Participant Methods

Participants or former participants are included or excluded from the valuation as described below:

- **Participants included:** The plan sponsor provides us with data on all employees as of the valuation date, but only those employees who have completed the plan's eligibility requirements are included in the valuation of liabilities.
- **Participants excluded:** No actuarial liability is included for nonvested participants who terminated prior to the valuation date. For this purpose, participants with a break in service on the valuation date are treated as terminated participants.
- **Insurance contracts:** The plan does not have any insurance contracts.
- **Disabled participants:** The liabilities for participants on long-term disability have been included with the liabilities for terminated vested participants. Some participants who become disabled before retirement continue to earn credited service during their disability. These participants are valued assuming they will remain disabled until normal retirement.

Minimum Funding Methods

The funding target for minimum funding calculations is computed using the traditional unit credit method of funding. The objective under this method is to fund each participant's benefits under the plan as they accrue. Thus, the total pension to which each participant is expected to become entitled at retirement is broken down into units, each associated with a year of past or future credited service.

A detailed description of the calculation follows:

- The plan's valuation date is the beginning of the plan year.
- An individual's **funding target** is the present value of future benefits based on credited service and average pay as of the beginning of the plan year, and an individual's **target normal cost** is the present value of the benefit expected to accrue in the plan year. If multiple decrements are used, the funding target and the target normal cost for an individual is the sum of the component funding targets and target normal costs associated with the various anticipated separation dates.
- This plan provides disability benefits that are only partially based on a participant's accrued benefit or years of service. This benefit is allocated to funding target based on the accrued benefit on the valuation date plus a portion of the excess of the benefit over the accrued benefit multiplied by the ratio of the participant's service at the beginning of the plan year to their service at each decrement

Schedule SB, Part V — Statement of Actuarial Assumptions/Methods

age. This benefit is allocated to target normal cost based on the proportionate benefit attributable to the increase in the participant's service and compensation during the plan year.

- The plan's **target normal cost** is the sum of the individual target normal costs, and the plan's **funding target** is the sum of the individual funding targets for all participants under the plan.

Unpredictable Contingent Event Benefits (UCEBs)

The hourly flat dollar plans provide for supplemental benefits in the event of a plant closure or shut down. Under the Pension Protection Act of 2006, the additional cost associated with these supplemental benefits is required to be included with the Funding Target. During 2023, the Wilson and Ruston plants were shut down, triggering UCEB's. The valuation reflects the reported benefit commencements associated with these shutdowns. After consideration, any prior shutdowns have been reflected in the liability and it was determined that the likelihood of another shutdown having a material impact on the plan's liability is de minimis based on discussions with the plan sponsor as of the valuation date that there is no expectation in the near to mid-term that any plants will be closed.

Schedule SB, Part V — Summary of Plan Provisions**Appendix C: Glass – Ball Hourly (continued)**

For members of the Glass USW union, the Fixed Dollar Units shown above are effective each September 1 (instead of April 1).

For purposes of determining the Fixed Dollar Unit for Service Periods after August 31, 2019, all Glass USW union members are assumed to have a Labor Grade of 16 and above.

Benefits for former TBG, Metropak, or Kerr participants are offset by their prior plan benefits.

Early Retirement Benefit	<p>For participants who are eligible for early retirement, benefits are determined in the same manner as normal retirement benefits. Benefits are reduced by 6% a year for commencement prior to age 60. Benefits are unreduced for plan members who are age 55 with 30 Years of Service at retirement.</p> <p>For terminated vested participants who completed at least 10 years of vesting service, benefits are determined in the same manner as normal retirement benefits, but at termination. Benefits are reduced by 6% a year for commencement prior to age 60 for GMP Members and 6% a year for commencement prior to age 65 for USW Members.</p>
Disability Benefit	<p>Benefits are determined in the same manner as normal retirement benefits and are payable immediately without reduction. However, for former TBG participants, the benefit is not offset by the TBG Hourly plan benefit until the participant becomes eligible to receive a retirement benefit under the TBG Hourly Plan.</p>
Normal Form of Benefit	<p>The normal form of benefit for a single employee is a 6-year certain and life annuity. The normal form of benefit for a married member is a reduced benefit payable for life (guaranteed for 6 years) with 50% of the reduced benefit continued to his or her spouse upon the death of such member.</p>
Optional Forms of Benefit	<p>In addition to the normal form of benefit, the following optional forms of benefit may be available on an actuarial equivalent basis:</p> <ul style="list-style-type: none"> • Age 62 Level Income • Joint and 66-2/3% Survivor Annuity with a 6-year guarantee • Joint and 75% Survivor Annuity with a 6-year guarantee • Joint and 100% Survivor Annuity with a 6-year guarantee • Pop-up Joint and 100% Survivor Annuity with a 6-year guarantee • 10-Year Certain and Life.

Schedule SB, Part V — Summary of Plan Provisions

Benefits Included or Excluded

Unless noted below, all benefits provided by the plan are included in this valuation.

- **Plan amendments excluded:** Amendments adopted after the valuation date or effective after the current plan year are excluded from the valuation.
- **Late retirement increases:**
 - *Active participants:* The plan provides benefit suspension notices to participants who work beyond normal retirement; therefore, late retirement actuarial increases only apply to participants who defer retirement beyond age 70½. Because all participants are assumed to retire by age 70, this valuation does not include increases for participants over age 70.
 - *Deferred vested participants:* Current deferred vested participants over normal retirement age are valued including the late retirement actuarial increase.
- **Internal Revenue Code limitations:** The limitations of Internal Revenue Code Section 415(b) and 401(a)(17) have been incorporated into our calculations.
- **IRC Section 416 rules for top-heavy plans:** We did not test whether this plan is top-heavy (when the present value of benefits for key employees equals or exceeds 60% of the present value for all participants). However, we expect that the plan is not top-heavy due to the large number of rank-and-file participants; therefore, the funding target and target normal cost do not reflect any liability for top-heavy benefit accruals.
- **IRC Section 436 benefit restrictions:**
 - *Plan amendments:* See above.
 - *Prohibited payments:* Limitations on prohibited benefits (if any) are reflected for annuity starting dates before the valuation date but are ignored for annuity starting dates on or after the valuation date.
 - *Benefit accruals:* The plan's funding target does not reflect any limitation on benefit accruals. The target normal cost does not reflect any limitation on benefit accruals.
- **Scheduled benefit increases:** Scheduled benefit increases effective after the end of the current plan year are excluded from minimum funding requirements.
- **Unpredictable contingent event benefits:** This valuation does not value the plan's unpredictable contingent event benefits based on discussions with the plan sponsor that there is no expectation in the near to mid-term that any plants will be closed.

Schedule SB, Part V — Summary of Plan Provisions

Plan Provision Changes Since Prior Valuation

- Maximum benefit amounts under IRS rules were updated from 2023 to 2024.
- For funding purposes, increases through the end of the plan year were reflected in the valuation.
- The Wilson and Ruston plants closed during 2023. Pursuant to the shutdown, participants were eligible to receive unreduced benefits if they had attained age 55 with at least 10 years of service or at least 30 years of service.
- The Ardagh North America Retirement Income Plan executed an annuity buyout during March 2023 for certain participants in payment and a terminated vested cashout window during December 2023.

Subsequent Events

- Effective July 2024, the Seattle plant has been idled. The valuation does not currently reflect this event which could reduce the plan's normal cost.
