Independent Auditors' Report

The Retirement Funds Investment Committee
Mannington Wood Floors Hourly Pension Plan
Salem, New Jersey

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of Mannington Wood Floors Hourly Pension Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets in liquidation available for benefits as of December 31, 2024 and 2023, and the related statements of changes in net assets in liquidation available for benefits for the years then ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of and for the years ended December 31, 2024 and 2023, and for the years then ended, stating that the certified investment information, as described in Note 4 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditors' Responsibilities for the Audit of the Financial Statements section

- the amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

- the information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meet the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Emphasis of Matter

As discussed in Note 1 to the accompanying financial statements, the plan sponsor terminated the Plan effective October 31, 2023.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date that the financial statements are issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.

- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.

- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certifications, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter - Supplemental Schedules Required by ERISA

The supplemental schedules of Schedule H, Line 4i – Schedule of Assets (Held at End of Year) and Schedule H, Line 4j – Schedule of Reportable Transactions as of or for the year ended December 31, 2024 are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedules, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedules that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, other than the information agreed to or derived from the certified investment information, including their form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion

- the form and content of the supplemental schedules, other than the information in the supplemental schedules that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

- the information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

(1) Description of Plan

The following brief description of Mannington Wood Floors Hourly Pension Plan (the Plan) is provided for general information purposes only. Participants should refer to the plan document for more complete information.

General

The Plan is a noncontributory defined benefit plan that permits participation by hourly employees of the Mannington Wood Floors Division of Mannington Mills, Inc. (the Company) with one year of service, without a minimum age requirement. The Company contributes amounts as necessary on an actuarial basis to provide the Plan with assets sufficient to meet the benefits to be paid to plan participants. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended. The Plan is administered by the Company's Retirement Funds Investment Committee (Committee). The Committee has overall responsibility for the operation and administration of the Plan. The Committee determines the appropriateness of the Plan's investment offerings, monitors investment performance, and reports to the Company's Board of Directors.

Plan Termination

Effective September 8, 2023, the Board of Directors of the Company voted to terminate the Plan as of October 31, 2023 (the Plan Termination Date). As of December 31, 2023, the Plan assets have not been distributed to the participants. The Plan intends to make distributions to participants as soon as administratively feasible. As of October 1, 2024 the Plan had received determination about the Plan's qualification status at termination and the plan assets have been distributed to the participants.

Funding Policy

The Company's funding policy is for the Company to contribute an amount that will meet or exceed the annual ERISA minimum funding requirement. No employee contributions are permitted. Contributions from the Company are accrued based upon amounts recommended by the actuary to be sufficient to fund the benefits provided by the Plan. The Company's contributions met the minimum funding requirements of ERISA for the years ended December 31, 2024 and 2023.

Benefit Payments

All active associates are categorized into four groups: legacy, transition, new hires, and others, with specific benefits provided to each group based upon their age and length of service as of December 31, 2006. Effective January 1, 2007, no participant shall accrue benefits under the Plan after December 31, 2006, unless participants are members of the legacy group or certain members of the transition group. The benefits for all transition group members whose benefits were not frozen as of December 31, 2006 were frozen as of December 31, 2011. For the legacy group, there is no change in the retirement benefits offered by the Company due to their age, length of service, or close proximity to retirement.

(1) Description of Plan, Continued

Benefit Payments, Continued

The net assets of the Plan will be allocated as prescribed by the terms and the provisions of the Plan in accordance with ERISA and its regulations. Prior to the aforementioned amendment, participants were entitled to monthly pension benefits at retirement age (65) equal to the product of (1) the number of years of credited service, and (2) a benefit amount of $10 per month. The Plan permits early retirement at age 55 with 10 credited years of service. Employees may elect to receive the value of their accumulated pension benefits in the form of an annuity or other forms as approved.

Except as noted above, a participant who has completed 10 years of service and becomes totally and permanently disabled, as defined in the plan document, shall be entitled to receive a monthly disability benefit equal to their accrued benefit.

The yield (interest, dividends, and net appreciation) on investments of the Plan reduces future contributions to the Plan that would otherwise be required to provide for the defined level of benefits under the Plan.

Upon the Plan Termination Date, participants were provided the option to elect either a lump sum distribution or to have their balance rolled into an IRA account in their name. During 2024, lump sum distributions associated with the plan termination approximated $3,312,712. As of October 1, 2024, the Plan had a few remaining net assets in liquidation that will be distributed in 2025.

(2) Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements are prepared on the liquidation basis of accounting.

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein, disclosure of contingent assets and liabilities, and the actuarial present value of accumulated plan benefits at the date of the financial statements and changes therein. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Committee determines the Plan's valuation policies utilizing information provided by its investment advisors and plan trustee. See Note 5 for a discussion of the fair value measurements.

Continued…

(2) Summary of Significant Accounting Policies, Continued

Investment Valuation and Income Recognition, Continued

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Benefit Payments

Benefit payments to participants are recorded upon distribution.

Expenses

Administrative expenses paid by the Plan amounted to $227,698 and $174,421 for the years ended December 31, 2024 and 2023, respectively, which include fees paid to service providers as well as the Pension Benefit Guaranty Corporation (PBGC) expenses and are recorded as deductions in the accompanying statements of changes in net assets in liquidation available for benefits. In addition, certain investment related expenses are included in net appreciation (depreciation) in fair value of investments presented in the accompanying statements of changes in net assets in liquidation available for benefits.

Subsequent Events

The Plan has evaluated subsequent events through September 18, 2025, the date the financial statements were available to be issued.

(3) Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits were those future periodic payments, including lump-sum distributions which were attributable under the Plan's provisions to the service employees had rendered. Accumulated plan benefits included benefits that had expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries. Benefits under the Plan were based on a percentage of employees' final average annual compensation multiplied by the years of credited service. Benefits payable under all circumstances (retirement, death, disability, and termination of employment) were included, to the extent they were deemed attributable to employee service rendered to the valuation date.

The actuarial present value of accumulated plan benefits was determined by an independent actuary and was the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal or retirement) between the valuation date and the expected date of payment.

Continued…

(3) Actuarial Present Value of Accumulated Plan Benefits, Continued

As of January 1, 2023, the actuarial present value of accumulated benefits was $3,600,778, which represents the final computation performed as a result of the plan termination. Had the valuation been performed as of December 31, 2024, the distributions and administrative expenses that occurred during the period January 1, 2024 through October 1, 2024 would be reflected, actual market gains/losses would be reflected, and different actuarial assumptions would have been used.

(4) Investments Certified by the Trustee

Certain information related to investments at December 31, 2024 and 2023 disclosed in the accompanying financial statements and ERISA-required supplemental schedules, and net appreciation (depreciation) in fair value of investments and interest for the years ended December 31, 2024 and 2023, was obtained by management and agreed to or derived from information certified as complete and accurate by The Bank of New York Mellon/BNY Mellon (BNY), the trustee of the Plan.

(5) Fair Value Measurements

Financial Accounting Standards Board (FASB) *Accounting Standards Codification (*ASC) 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements).

The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability; and
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Continued…

(5) Fair Value Measurements, Continued

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2024 and 2023.

Common collective trusts: Valued at the net asset value (NAV) of units held. The NAV is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV.

The Plan's investments are measured at fair value based on the NAV as a practical expedient and are not classified in the fair value hierarchy in accordance with FASB Accounting Standards Update (ASU) 2015-07. The following table summarizes these investments as of December 31:

Investment	2024	2023	Unfunded Commitments	Redemption Frequency	Redemption Notice Period
Common collective trusts	$ 77,981	$ 2,064,641	Not applicable	Daily	Daily

There were no significant transfers among investment levels during the years ended December 31, 2024 and 2023.

(6) Tax Status

The Plan obtained its latest determination letter on January 31, 2025 (2025 Determination Letter) in which the Internal Revenue Service (IRS) stated that the termination of the plan did not affect its qualification for federal tax purposes under the requirements of the Internal Revenue Code (IRC). Prior to the 2025 Determination Letter, the Plan operated under a determination letter dated July 11, 2017, that the Plan and related trust are designed in accordance with the applicable sections of the Internal Revenue Code (IRC). The plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

(7) Related Party Transactions and Party-In-Interest Transactions

Certain plan investments represent common collective trusts managed by The Bank of New York Mellon/BNY Mellon (BNY). BNY is the trustee of the Plan and, therefore, these transactions qualify as party-in-interest transactions, which are exempt from the prohibited transaction rules of ERISA.

Independent Auditors' Report

The Retirement Funds Investment Committee
Mannington Wood Floors Hourly Pension Plan
Salem, New Jersey

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of Mannington Wood Floors Hourly Pension Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets in liquidation available for benefits as of December 31, 2024 and 2023, and the related statements of changes in net assets in liquidation available for benefits for the years then ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of and for the years ended December 31, 2024 and 2023, and for the years then ended, stating that the certified investment information, as described in Note 4 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditors' Responsibilities for the Audit of the Financial Statements section

- the amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

- the information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meet the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Emphasis of Matter

As discussed in Note 1 to the accompanying financial statements, the plan sponsor terminated the Plan effective October 31, 2023.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date that the financial statements are issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.

- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.

- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certifications, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter - Supplemental Schedules Required by ERISA

The supplemental schedules of Schedule H, Line 4i – Schedule of Assets (Held at End of Year) and Schedule H, Line 4j – Schedule of Reportable Transactions as of or for the year ended December 31, 2024 are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedules, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedules that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, other than the information agreed to or derived from the certified investment information, including their form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion

- the form and content of the supplemental schedules, other than the information in the supplemental schedules that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

- the information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

(1) Description of Plan

The following brief description of Mannington Wood Floors Hourly Pension Plan (the Plan) is provided for general information purposes only. Participants should refer to the plan document for more complete information.

General

The Plan is a noncontributory defined benefit plan that permits participation by hourly employees of the Mannington Wood Floors Division of Mannington Mills, Inc. (the Company) with one year of service, without a minimum age requirement. The Company contributes amounts as necessary on an actuarial basis to provide the Plan with assets sufficient to meet the benefits to be paid to plan participants. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended. The Plan is administered by the Company's Retirement Funds Investment Committee (Committee). The Committee has overall responsibility for the operation and administration of the Plan. The Committee determines the appropriateness of the Plan's investment offerings, monitors investment performance, and reports to the Company's Board of Directors.

Plan Termination

Effective September 8, 2023, the Board of Directors of the Company voted to terminate the Plan as of October 31, 2023 (the Plan Termination Date). As of December 31, 2023, the Plan assets have not been distributed to the participants. The Plan intends to make distributions to participants as soon as administratively feasible. As of October 1, 2024 the Plan had received determination about the Plan's qualification status at termination and the plan assets have been distributed to the participants.

Funding Policy

The Company's funding policy is for the Company to contribute an amount that will meet or exceed the annual ERISA minimum funding requirement. No employee contributions are permitted. Contributions from the Company are accrued based upon amounts recommended by the actuary to be sufficient to fund the benefits provided by the Plan. The Company's contributions met the minimum funding requirements of ERISA for the years ended December 31, 2024 and 2023.

Benefit Payments

All active associates are categorized into four groups: legacy, transition, new hires, and others, with specific benefits provided to each group based upon their age and length of service as of December 31, 2006. Effective January 1, 2007, no participant shall accrue benefits under the Plan after December 31, 2006, unless participants are members of the legacy group or certain members of the transition group. The benefits for all transition group members whose benefits were not frozen as of December 31, 2006 were frozen as of December 31, 2011. For the legacy group, there is no change in the retirement benefits offered by the Company due to their age, length of service, or close proximity to retirement.

Continued…

(1) Description of Plan, Continued

Benefit Payments, Continued

The net assets of the Plan will be allocated as prescribed by the terms and the provisions of the Plan in accordance with ERISA and its regulations. Prior to the aforementioned amendment, participants were entitled to monthly pension benefits at retirement age (65) equal to the product of (1) the number of years of credited service, and (2) a benefit amount of $10 per month. The Plan permits early retirement at age 55 with 10 credited years of service. Employees may elect to receive the value of their accumulated pension benefits in the form of an annuity or other forms as approved.

Except as noted above, a participant who has completed 10 years of service and becomes totally and permanently disabled, as defined in the plan document, shall be entitled to receive a monthly disability benefit equal to their accrued benefit.

The yield (interest, dividends, and net appreciation) on investments of the Plan reduces future contributions to the Plan that would otherwise be required to provide for the defined level of benefits under the Plan.

Upon the Plan Termination Date, participants were provided the option to elect either a lump sum distribution or to have their balance rolled into an IRA account in their name. During 2024, lump sum distributions associated with the plan termination approximated $3,312,712. As of October 1, 2024, the Plan had a few remaining net assets in liquidation that will be distributed in 2025.

(2) Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements are prepared on the liquidation basis of accounting.

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein, disclosure of contingent assets and liabilities, and the actuarial present value of accumulated plan benefits at the date of the financial statements and changes therein. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Committee determines the Plan's valuation policies utilizing information provided by its investment advisors and plan trustee. See Note 5 for a discussion of the fair value measurements.

Continued…

(2) Summary of Significant Accounting Policies, Continued

Investment Valuation and Income Recognition, Continued

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Benefit Payments

Benefit payments to participants are recorded upon distribution.

Expenses

Administrative expenses paid by the Plan amounted to $227,698 and $174,421 for the years ended December 31, 2024 and 2023, respectively, which include fees paid to service providers as well as the Pension Benefit Guaranty Corporation (PBGC) expenses and are recorded as deductions in the accompanying statements of changes in net assets in liquidation available for benefits. In addition, certain investment related expenses are included in net appreciation (depreciation) in fair value of investments presented in the accompanying statements of changes in net assets in liquidation available for benefits.

Subsequent Events

The Plan has evaluated subsequent events through September 18, 2025, the date the financial statements were available to be issued.

(3) Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits were those future periodic payments, including lump-sum distributions which were attributable under the Plan's provisions to the service employees had rendered. Accumulated plan benefits included benefits that had expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries. Benefits under the Plan were based on a percentage of employees' final average annual compensation multiplied by the years of credited service. Benefits payable under all circumstances (retirement, death, disability, and termination of employment) were included, to the extent they were deemed attributable to employee service rendered to the valuation date.

The actuarial present value of accumulated plan benefits was determined by an independent actuary and was the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal or retirement) between the valuation date and the expected date of payment.

Continued…

(3) Actuarial Present Value of Accumulated Plan Benefits, Continued

As of January 1, 2023, the actuarial present value of accumulated benefits was $3,600,778, which represents the final computation performed as a result of the plan termination. Had the valuation been performed as of December 31, 2024, the distributions and administrative expenses that occurred during the period January 1, 2024 through October 1, 2024 would be reflected, actual market gains/losses would be reflected, and different actuarial assumptions would have been used.

(4) Investments Certified by the Trustee

Certain information related to investments at December 31, 2024 and 2023 disclosed in the accompanying financial statements and ERISA-required supplemental schedules, and net appreciation (depreciation) in fair value of investments and interest for the years ended December 31, 2024 and 2023, was obtained by management and agreed to or derived from information certified as complete and accurate by The Bank of New York Mellon/BNY Mellon (BNY), the trustee of the Plan.

(5) Fair Value Measurements

Financial Accounting Standards Board (FASB) *Accounting Standards Codification (*ASC) 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements).

The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability; and
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Continued…

(5) Fair Value Measurements, Continued

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2024 and 2023.

Common collective trusts: Valued at the net asset value (NAV) of units held. The NAV is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV.

The Plan's investments are measured at fair value based on the NAV as a practical expedient and are not classified in the fair value hierarchy in accordance with FASB Accounting Standards Update (ASU) 2015-07. The following table summarizes these investments as of December 31:

Investment	2024	2023	Unfunded Commitments	Redemption Frequency	Redemption Notice Period
Common collective trusts	$ 77,981	$ 2,064,641	Not applicable	Daily	Daily

There were no significant transfers among investment levels during the years ended December 31, 2024 and 2023.

(6) Tax Status

The Plan obtained its latest determination letter on January 31, 2025 (2025 Determination Letter) in which the Internal Revenue Service (IRS) stated that the termination of the plan did not affect its qualification for federal tax purposes under the requirements of the Internal Revenue Code (IRC). Prior to the 2025 Determination Letter, the Plan operated under a determination letter dated July 11, 2017, that the Plan and related trust are designed in accordance with the applicable sections of the Internal Revenue Code (IRC). The plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

(7) Related Party Transactions and Party-In-Interest Transactions

Certain plan investments represent common collective trusts managed by The Bank of New York Mellon/BNY Mellon (BNY). BNY is the trustee of the Plan and, therefore, these transactions qualify as party-in-interest transactions, which are exempt from the prohibited transaction rules of ERISA.

Independent Auditors' Report

The Retirement Funds Investment Committee
Mannington Wood Floors Hourly Pension Plan
Salem, New Jersey

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of Mannington Wood Floors Hourly Pension Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets in liquidation available for benefits as of December 31, 2024 and 2023, and the related statements of changes in net assets in liquidation available for benefits for the years then ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of and for the years ended December 31, 2024 and 2023, and for the years then ended, stating that the certified investment information, as described in Note 4 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditors' Responsibilities for the Audit of the Financial Statements section

- the amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

- the information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meet the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Emphasis of Matter

As discussed in Note 1 to the accompanying financial statements, the plan sponsor terminated the Plan effective October 31, 2023.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date that the financial statements are issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.

- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.

- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certifications, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter - Supplemental Schedules Required by ERISA

The supplemental schedules of Schedule H, Line 4i – Schedule of Assets (Held at End of Year) and Schedule H, Line 4j – Schedule of Reportable Transactions as of or for the year ended December 31, 2024 are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedules, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedules that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, other than the information agreed to or derived from the certified investment information, including their form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion

- the form and content of the supplemental schedules, other than the information in the supplemental schedules that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

- the information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

(1) Description of Plan

The following brief description of Mannington Wood Floors Hourly Pension Plan (the Plan) is provided for general information purposes only. Participants should refer to the plan document for more complete information.

General

The Plan is a noncontributory defined benefit plan that permits participation by hourly employees of the Mannington Wood Floors Division of Mannington Mills, Inc. (the Company) with one year of service, without a minimum age requirement. The Company contributes amounts as necessary on an actuarial basis to provide the Plan with assets sufficient to meet the benefits to be paid to plan participants. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended. The Plan is administered by the Company's Retirement Funds Investment Committee (Committee). The Committee has overall responsibility for the operation and administration of the Plan. The Committee determines the appropriateness of the Plan's investment offerings, monitors investment performance, and reports to the Company's Board of Directors.

Plan Termination

Effective September 8, 2023, the Board of Directors of the Company voted to terminate the Plan as of October 31, 2023 (the Plan Termination Date). As of December 31, 2023, the Plan assets have not been distributed to the participants. The Plan intends to make distributions to participants as soon as administratively feasible. As of October 1, 2024 the Plan had received determination about the Plan's qualification status at termination and the plan assets have been distributed to the participants.

Funding Policy

The Company's funding policy is for the Company to contribute an amount that will meet or exceed the annual ERISA minimum funding requirement. No employee contributions are permitted. Contributions from the Company are accrued based upon amounts recommended by the actuary to be sufficient to fund the benefits provided by the Plan. The Company's contributions met the minimum funding requirements of ERISA for the years ended December 31, 2024 and 2023.

Benefit Payments

All active associates are categorized into four groups: legacy, transition, new hires, and others, with specific benefits provided to each group based upon their age and length of service as of December 31, 2006. Effective January 1, 2007, no participant shall accrue benefits under the Plan after December 31, 2006, unless participants are members of the legacy group or certain members of the transition group. The benefits for all transition group members whose benefits were not frozen as of December 31, 2006 were frozen as of December 31, 2011. For the legacy group, there is no change in the retirement benefits offered by the Company due to their age, length of service, or close proximity to retirement.

Continued…

(1) Description of Plan, Continued

Benefit Payments, Continued

The net assets of the Plan will be allocated as prescribed by the terms and the provisions of the Plan in accordance with ERISA and its regulations. Prior to the aforementioned amendment, participants were entitled to monthly pension benefits at retirement age (65) equal to the product of (1) the number of years of credited service, and (2) a benefit amount of $10 per month. The Plan permits early retirement at age 55 with 10 credited years of service. Employees may elect to receive the value of their accumulated pension benefits in the form of an annuity or other forms as approved.

Except as noted above, a participant who has completed 10 years of service and becomes totally and permanently disabled, as defined in the plan document, shall be entitled to receive a monthly disability benefit equal to their accrued benefit.

The yield (interest, dividends, and net appreciation) on investments of the Plan reduces future contributions to the Plan that would otherwise be required to provide for the defined level of benefits under the Plan.

Upon the Plan Termination Date, participants were provided the option to elect either a lump sum distribution or to have their balance rolled into an IRA account in their name. During 2024, lump sum distributions associated with the plan termination approximated $3,312,712. As of October 1, 2024, the Plan had a few remaining net assets in liquidation that will be distributed in 2025.

(2) Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements are prepared on the liquidation basis of accounting.

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein, disclosure of contingent assets and liabilities, and the actuarial present value of accumulated plan benefits at the date of the financial statements and changes therein. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Committee determines the Plan's valuation policies utilizing information provided by its investment advisors and plan trustee. See Note 5 for a discussion of the fair value measurements.

Continued…

(2) Summary of Significant Accounting Policies, Continued

Investment Valuation and Income Recognition, Continued

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Benefit Payments

Benefit payments to participants are recorded upon distribution.

Expenses

Administrative expenses paid by the Plan amounted to $227,698 and $174,421 for the years ended December 31, 2024 and 2023, respectively, which include fees paid to service providers as well as the Pension Benefit Guaranty Corporation (PBGC) expenses and are recorded as deductions in the accompanying statements of changes in net assets in liquidation available for benefits. In addition, certain investment related expenses are included in net appreciation (depreciation) in fair value of investments presented in the accompanying statements of changes in net assets in liquidation available for benefits.

Subsequent Events

The Plan has evaluated subsequent events through September 18, 2025, the date the financial statements were available to be issued.

(3) Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits were those future periodic payments, including lump-sum distributions which were attributable under the Plan's provisions to the service employees had rendered. Accumulated plan benefits included benefits that had expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries. Benefits under the Plan were based on a percentage of employees' final average annual compensation multiplied by the years of credited service. Benefits payable under all circumstances (retirement, death, disability, and termination of employment) were included, to the extent they were deemed attributable to employee service rendered to the valuation date.

The actuarial present value of accumulated plan benefits was determined by an independent actuary and was the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal or retirement) between the valuation date and the expected date of payment.

Continued…

(3) Actuarial Present Value of Accumulated Plan Benefits, Continued

As of January 1, 2023, the actuarial present value of accumulated benefits was $3,600,778, which represents the final computation performed as a result of the plan termination. Had the valuation been performed as of December 31, 2024, the distributions and administrative expenses that occurred during the period January 1, 2024 through October 1, 2024 would be reflected, actual market gains/losses would be reflected, and different actuarial assumptions would have been used.

(4) Investments Certified by the Trustee

Certain information related to investments at December 31, 2024 and 2023 disclosed in the accompanying financial statements and ERISA-required supplemental schedules, and net appreciation (depreciation) in fair value of investments and interest for the years ended December 31, 2024 and 2023, was obtained by management and agreed to or derived from information certified as complete and accurate by The Bank of New York Mellon/BNY Mellon (BNY), the trustee of the Plan.

(5) Fair Value Measurements

Financial Accounting Standards Board (FASB) *Accounting Standards Codification (*ASC) 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements).

The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability; and
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Continued…

(5) Fair Value Measurements, Continued

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2024 and 2023.

Common collective trusts: Valued at the net asset value (NAV) of units held. The NAV is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV.

The Plan's investments are measured at fair value based on the NAV as a practical expedient and are not classified in the fair value hierarchy in accordance with FASB Accounting Standards Update (ASU) 2015-07. The following table summarizes these investments as of December 31:

Investment	2024	2023	Unfunded Commitments	Redemption Frequency	Redemption Notice Period
Common collective trusts	$ 77,981	$ 2,064,641	Not applicable	Daily	Daily

There were no significant transfers among investment levels during the years ended December 31, 2024 and 2023.

(6) Tax Status

The Plan obtained its latest determination letter on January 31, 2025 (2025 Determination Letter) in which the Internal Revenue Service (IRS) stated that the termination of the plan did not affect its qualification for federal tax purposes under the requirements of the Internal Revenue Code (IRC). Prior to the 2025 Determination Letter, the Plan operated under a determination letter dated July 11, 2017, that the Plan and related trust are designed in accordance with the applicable sections of the Internal Revenue Code (IRC). The plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

(7) Related Party Transactions and Party-In-Interest Transactions

Certain plan investments represent common collective trusts managed by The Bank of New York Mellon/BNY Mellon (BNY). BNY is the trustee of the Plan and, therefore, these transactions qualify as party-in-interest transactions, which are exempt from the prohibited transaction rules of ERISA.
